

Dividends and Distributions for 2017

The tax character of dividends and distributions from MVC Capital, Inc. (the “Company”) for calendar 2017 is set forth below. For tax purposes, the Company is a regulated investment company (“RIC”) and designates the tax character of dividends and distributions you received for calendar 2017 in accordance with Subchapter M of the Internal Revenue Code of 1986, as amended.

Ordinary Income Dividends: These dividends are from the Company’s ordinary net investment income and net short-term capital gains for the year. This type of dividend is to be reported on your tax return as ordinary income. Ordinary dividend distributions from a RIC generally do not qualify for the preferential tax rate on dividend income from domestic corporations and qualified foreign corporations except to the extent that the RIC received the income in the form of qualifying dividends from domestic corporations and qualified foreign corporations.

Total ordinary income distributions are reported on your Form 1099-DIV in Box 1a. The portion of the dividends reported in Box 1a that qualify as a “qualified dividend” for the preferential tax rate are reported on your Form 1099-DIV in Box 1b.

Please note that if you acquired or disposed of your Company shares during 2017, qualified dividends reported in Box 1b of your 2017 Form 1099-DIV may not be eligible for the preferential tax rate. Shareholders should consult their tax advisor for tax guidance.

Capital Gain Distributions: Capital gain distributions arise from net long-term capital gain recognized by the Company during the year. These capital gain distributions generally qualify for the preferential tax rate on net capital gain recognized by U.S. resident individuals and certain other U.S. persons. All capital gains are determined by how long the Company held the investment and the type of investment.

Total capital gain distributions are reported on your Form 1099-DIV in Box 2a.

Distributions that were reinvested through the Company’s (or other brokerage firms’) Dividend Reinvestment Plan are treated, for tax purposes, as if they had been paid in cash. Therefore, stockholders who participated in a Dividend Reinvestment Plan should also refer to the table below for appropriate tax treatment of 2017 dividends.

The amounts shown in the table below represent the final classification of the Company’s 2017 distributions. This information supersedes any estimated information you may have received during the year. Calendar-year 2017 distributions are classified as follows:
