National Interstate Corporation is a leading specialty property and casualty insurance holding company with a niche orientation and focus on the transportation industry. Founded in 1989, the Company has had an uninterrupted record of profitability in every year since 1990, its first full year of operation.

The Company focuses on niche markets, offering insurance products designed to meet unique needs of targeted insurance buyers. These markets often possess barriers of entry, such as being too small, too remote, or too difficult to attract, or sustain competitors. National Interstate offers property and casualty insurance that can be grouped into the following business components: alternative risk transfer (ART), also known as captive programs, primarily for transportation companies; transportation, primarily passenger, truck, and moving and storage companies; specialty personal lines, primarily for recreational vehicles and small commercial vehicle accounts; and, transportation and general commercial insurance in Hawaii and Alaska.

National Interstate seeks to grow through new product offerings that address a specialized need in the respective market, by enhancing coverages, distribution, and product design for its existing products, and through strategic acquisitions. While growing, the Company has maintained strong underwriting and investment discipline to ensure sustained profitability. This profitable growth strategy has been successful and the Company is a recognized leader in its insurance markets as a result. The Company seeks to achieve a return on shareholders' equity of 15% plus inflation.

The Company's gross premiums written grew 41% and operating earnings per share increased 13% for the first six months of 2011. The top line growth was due to the 2010 acquisition of Vanliner Insurance Company as well as growth in existing businesses. Higher net investment income offset by lower underwriting profits contributed to the increase in operating earnings.

Proven Business Model

- Niche product focus
- Product managers responsible for growth and profitability
- Claims managed by the Company's claims professionals
- Disciplined underwriting
- High-quality investments
- Effective use of reinsurance

Strong Track Record

- Outstanding and consistent record of value creation for shareholders
- Underwriting profit in 20 of the 22 years in business
- Consistent outperformance of property and casualty industry since Company's inception
- Strong balance sheet and capital ratios
- Increased quarterly dividend each year since going public in 2005

This document, including any information incorporated by reference, contains "forward-looking statements" (within the meaning of Private Securities Litigation Reform Act of 1995). All statements trend analyses and other information relative to markets for our products and trends in our operations or financial results, as well as other statements including words such as "may," "target," "anticipate," "believe," "plan," "estimate," "expect," "intend," "project," and other similar expressions, constitute forward-looking statements. We made these statements based on our plans and current analyses of our business and the insurance industry as a whole. We caution that these statements may and often do vary from actual results and the differences between these statements and actual results can be material. Accordingly, we cannot provide assurance that tactical results will not differ from those expressed or implied by the forward-looking statements. Factors that could contribute to these differences include, among other things: general economic conditions, weakness of the financial markets and other factors, including prevailing interest rate levels and stock and credit market performance which may affect or continue to affect (among other things) our ability to sell our products and to collect amounts due to us, our ability to access capital resources and the costs associated with such access to capital and the market value of our investments; customer response to new products and marketing initiatives; tax

law changes; increasing competition in the sale of our insurance products and services and the retention of existing customers; changes in legal environment; regulatory changes or actions, including those relating to regulation of the sale, underwriting and pricing of insurance products and services and capital requirements; levels of natural catastrophes, terrorist events, incidents of war and other major losses; adequacy of insurance reserves; and availability of reinsurance and ability of reinsurers to pay their obligations. The forward-looking statements herein are made only as of the date of this report. The Company assumes no obligation to publicly update any forward-looking statements.
