About Veru Inc.

Veru Inc. (Veru) is a biopharmaceutical company focused on urology and oncology. Veru utilizes FDA's 505(b)(2) regulatory approval pathway to develop and commercialize drug candidates. FDA's 505(b)(2) regulatory approval pathway is designed to allow for potentially expedited regulatory approval based on a previously established safety and efficacy profile of the product. Veru is developing products under the 505(b)(1) pathway as well, which is the traditional new drug application (NDA) pathway. The company is currently developing drug product candidates for benign prostatic hyperplasia (BPH or enlarged prostate), hot flashes associated with prostate cancer hormone treatment, male infertility and novel oral chemotherapy (alpha & beta tubulin inhibitor) for a variety of malignancies, including metastatic prostate, breast and ovarian cancers. In addition, the company markets and sells the FC2 Female Condom® (now available by prescription in the US) and PREBOOST® medicated individual wipe, which is a male genital desensitizing drug product for the prevention of premature ejaculation.

The company's division, The Female Health Company, is focused on the global public health sector FC2 business. This division markets the company's Female Condom (FC2) to entities, including ministries of health, government health agencies, U.N. agencies, nonprofit organizations and commercial partners, that work to support and improve the lives, health and well-being of women around the world.

More information about Veru and its products can be found at www.veruhealthcare.com, www.PREBOOST.com and www.fc2femalecondom.com. For corporate and investor-related information about the Company, please visit <https://veruhealthcare.com/investors>.
