Notes to Condensed Consolidated Financial Statements

1. Basis of Presentation and Summary of Significant Accounting Policies

The accompanying condensed consolidated interim financial statements of Netflix, Inc. and its wholly owned subsidiary (the “Company”) have been prepared in conformity with accounting principles generally accepted in the United States (“U.S.”) and are consistent in all material respects with those applied in the Company’s Annual Report on Form 10-K for the year ended December 31, 2008. The preparation of condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and judgments that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Examples include the estimates of useful lives and residual value of the Company’s content library, the valuation of stock-based compensation and the recognition and measurement of income tax assets and liabilities. The actual results experienced by the Company may differ from management’s estimates.

The interim financial information is unaudited, but reflects all normal recurring adjustments that are, in the opinion of management, necessary to fairly present the information set forth herein. The interim financial statements should be read in conjunction with the audited financial statements and related notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2008 filed with the Securities and Exchange Commission (the “SEC”) on February 25, 2009. Interim results are not necessarily indicative of the results for a full year.

Certain prior period amounts have been reclassified to conform to current period presentation.

The Company has evaluated subsequent events through October 23, 2009, the date which these financial statements were available to be issued.

There have been no material changes in the Company’s significant accounting policies as compared to the significant accounting policies described in the Company’s Annual Report on Form 10-K for the year ended December 31, 2008, except for the adoption on April 1, 2009 of authoritative guidance issued by the Financial Accounting Standards Board (“FASB”) related to the determination of fair value when the volume and level of activity for an asset or liability has significantly decreased, the identification of transactions that are not orderly, the recognition and presentation of other-than-temporary impairments, and the disclosure of the fair value of financial instruments on an interim basis.

Recent Accounting Pronouncements

In August 2009, the FASB issued Accounting Standards Update (“ASU”) No. 2009-05, *Fair Value Measurements and Disclosures (Topic 820) - Measuring Liabilities at Fair Value*. This update provides clarification for the fair value measurement of liabilities in circumstances in which a quoted price in an active market for an identical liability is not available. This update is effective for interim periods beginning after August 28, 2009. The Company does not expect the adoption of this standard to have a material effect on its financial position or results of operations.

In June 2009, the FASB issued authoritative guidance which eliminates the exemption for qualifying special-purpose entities from consolidation requirements, contains new criteria for determining the primary beneficiary of a variable interest entity, and increases the frequency of required reassessments to determine whether a company is the primary beneficiary of a variable interest entity. The guidance is applicable for annual periods beginning after November 15, 2009 and interim periods therein and thereafter. The Company does not expect the adoption of this standard to have a material effect on its financial position or results of operations.

In June 2009, the FASB issued authoritative guidance which eliminates the concept of a qualifying special-purpose entity, creates more stringent conditions for reporting a transfer of a portion of a financial asset as a sale, clarifies other sale-accounting criteria, and changes the initial measurement of a transferor’s interest in transferred financial assets. The guidance is applicable for annual periods beginning after November 15, 2009 and interim periods therein and thereafter. The Company does not expect the adoption of this standard to have a material effect on its financial position or results of operations.

2. Net Income Per Share

Basic net income per share is computed using the weighted-average number of outstanding shares of common stock during the period. Diluted net income per share is computed using the weighted-average number of outstanding shares of common stock and, when dilutive, potential common shares outstanding during the period. Potential common shares consist primarily of incremental shares issuable upon the assumed exercise of stock options and shares currently purchasable pursuant to the Company's employee stock purchase plan using the treasury stock method. The computation of net income per share is as follows:

	Three months ended		Nine months ended	
	September 30,	September 30,	September 30,	September 30,
	2009	2008	2009	2008
	(in thousands, except per share data)			
Basic earnings per share:				
Net income	\$ 30,141	\$ 20,371	\$ 84,947	\$ 60,294
Shares used in computation:				
Weighted-average common shares outstanding	56,146	60,408	57,576	61,651
Basic earnings per share	<u>\$ 0.54</u>	<u>\$ 0.34</u>	<u>\$ 1.48</u>	<u>\$ 0.98</u>
Diluted earnings per share:				
Net income	\$ 30,141	\$ 20,371	\$ 84,947	\$ 60,294
Shares used in computation:				
Weighted-average common shares outstanding	56,146	60,408	57,576	61,651
Employee stock options and employee stock purchase plan shares	1,792	1,864	1,851	2,007
Weighted-average number of shares	57,938	62,272	59,427	63,658
Diluted earnings per share	<u>\$ 0.52</u>	<u>\$ 0.33</u>	<u>\$ 1.43</u>	<u>\$ 0.95</u>

Employee stock options with exercise prices greater than the average market price of the common stock were excluded from the diluted calculation as their inclusion would have been anti-dilutive. The following table summarizes the potential common shares excluded from the diluted calculation:

	Three months ended		Nine months ended	
	September 30,	September 30,	September 30,	September 30,
	2009	2008	2009	2008

Because the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of their amortized cost basis, the Company does not consider those investments with an unrealized loss to be other-than-temporarily impaired at September 30, 2009. There were no material other-than-temporary impairments or credit losses related to available-for-sale securities in 2009 or 2008.

The gross realized gains on the sales of available-for-sale securities for the three months ended September 30, 2009 and 2008 were \$1.0 million and \$0.2 million, respectively. There were no realized losses for the three months ended September 30, 2009. The gross realized losses on the sale of available-for-sale securities in the three months ended September 30, 2008 were \$0.7 million. The gross realized gains on the sales of available-for-sale securities for the nine months ended September 30, 2009 and 2008 were \$1.7 million and \$4.6 million, respectively. The gross realized losses on the sale of available-for-sale securities for the nine months ended September 30, 2009 and 2008 were \$0.2 million and \$0.9 million, respectively. Realized gains and losses and interest income are included in interest and other income (expense).

The estimated fair value of short-term investments by contractual maturity as of September 30, 2009 is as follows:

	(in thousands)
Due within one year	\$ 18,445
Due after one year and through 5 years	76,622
Due after 5 years and through 10 years	—
Due after 10 years	4,678
Total short-term investments	<u>\$ 99,745</u>

The Company measures certain financial assets at fair value on a recurring basis, including cash equivalents and available-for-sale securities. Fair value is a market-based measurement that should be determined based on the assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the Company uses a three-level hierarchy established by the FASB which prioritizes the inputs used in measuring fair value. The three hierarchy levels are defined as follows:

Level 1—Valuations based on unadjusted quoted prices in active markets for identical assets. The fair value of available-for-sale securities included in the Level 1 category is based on quoted prices that are readily and regularly available in an active market. The Level 1 category includes money market funds, which were not material as of September 30, 2009 and which are included in cash and cash equivalents in the condensed consolidated balance sheets.

Level 2—Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly. The fair value of available-for-sale securities included in the Level 2 category is based on the market values obtained from an independent pricing service that were evaluated using pricing models that vary by asset class and may incorporate available trade, bid and other market information and price quotes from well established independent pricing vendors and broker-dealers. The Level 2 category includes short-term investments of \$99.7 million, which are comprised of corporate debt securities, government and agency securities and asset and mortgage-backed securities.

Level 3—Valuations based on inputs that are unobservable and involve management judgment and the reporting entity's own assumptions about market participants and pricing. The Company has no material Level 3 financial assets measured at fair value on the condensed consolidated balance sheets as of September 30, 2009.

The hierarchy level assigned to each security in the Company's available-for-sale portfolio and cash equivalents is based on its assessment of the transparency and reliability of the inputs used in the valuation of such instrument at the measurement date. The Company did not have any material financial liabilities that are measured at fair value on a recurring basis as of September 30, 2009.

4. Other Comprehensive Income

Other comprehensive income consists of unrealized gains and losses on available-for-sale securities, net of tax. The components of comprehensive income are as follows:

5. Stockholders' Equity

Stock Repurchases

On August 6, 2009, the Company announced that its Board of Directors authorized a stock repurchase plan that enables the Company to repurchase up to \$300 million of its common stock through the end of 2010. The timing and actual number of shares repurchased will depend on various factors including price, corporate and regulatory requirements, alternative investment opportunities and other market conditions. During the three months ended September 30, 2009, under this program, the Company repurchased 1,579,700 shares of common stock at an average price of approximately \$44 per share for an aggregate amount of approximately \$70 million. Of this amount, 1,480,000 shares repurchased are held as treasury stock and accordingly repurchases were accounted for at cost under the treasury method. The remaining 99,700 shares repurchased during the three months ended September 30, 2009 have been retired. Subsequent to September 30, 2009, the Company repurchased 1,147,383 shares of common stock at an average price of approximately \$46 per share for an aggregate amount of \$52 million.

On January 26, 2009, the Company announced that its Board of Directors authorized a stock repurchase program for 2009. During the three months ended September 30, 2009, under this program, the Company repurchased 1,369,866 shares of common stock at an average price of approximately \$44 per share for an aggregate amount of approximately \$60 million. During the nine months ended September 30, 2009, under this program, the Company repurchased 4,173,855 shares of common stock at an average price of approximately \$42 per share for an aggregate amount of approximately \$175 million. Shares repurchased under this program are held as treasury stock and accordingly repurchases were accounted for at cost under the treasury method. This program terminated on August 6, 2009.

There were transactions to repurchase a total of 234,629 shares unsettled at September 30, 2009.

Stock-Based Compensation

The aggregate intrinsic value in the table above represents the total pretax intrinsic value (the difference between the Company's closing stock price on the last trading day of the third quarter of 2009 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on September 30, 2009. This amount changes based on the fair market value of the Company's common stock. Total intrinsic value of options exercised for the three months ended September 30, 2009 and 2008 was \$5.0 million and \$3.5 million, respectively. Total intrinsic value of options exercised for the nine months ended September 30, 2009 and 2008 was \$32.6 million and \$16.7 million, respectively.

Cash received from option exercises for the three months ended September 30, 2009 and 2008 was \$2.7 million and \$2.6 million, respectively. Cash received from option exercises and purchases under the ESPP for the nine months ended September 30, 2009 and 2008 was \$26.1 million and \$15.6 million, respectively.

The following table summarizes the assumptions used to value option grants using the lattice-binomial model:

	Three Months Ended		Nine Months Ended	
	September 30,	September 30,	September 30,	September 30,
	2009	2008	2009	2008
Dividend yield	0%	0%	0%	0%
Expected volatility	48%	50%	48% - 56%	50% - 54%
Risk-free interest rate	3.62%	4.00%	2.60% - 3.62%	3.69% - 4.00%
Suboptimal exercise factor	1.74-1.94	1.77-1.90	1.73-1.94	1.77-2.04

In the nine months ended September 30, 2009, the Company used a suboptimal exercise factor ranging from 1.87 to 1.94 for executives and 1.73 to 1.74 for non-executives, which resulted in a calculated expected life of the option grants of four years for executives and three years for non-executives. In the nine months ended September 30, 2008, the Company used a suboptimal exercise factor ranging from 1.90 to 2.04 for executives and 1.77 for non-executives, which resulted in a calculated expected life of four years for executives and three years for non-executives.

The weighted-average fair value of employee stock options granted during the three months ended September 30, 2009 and 2008 was \$18.07 and \$12.40 per share, respectively. The weighted-average fair value of employee stock options granted during the nine months ended September 30, 2009 and 2008 was \$16.63 and \$12.89 per share, respectively.

6. Income Taxes

The effective tax rate for the three months ended September 30, 2009 and 2008 is 40.3% and 41.7%, respectively. The effective tax rate for the nine months ended September 30, 2009 and 2008 is 39.7% and 35.4%, respectively. The decrease in the effective tax rate for the three months ended September 30, 2009 as compared to the same prior year period was primarily attributable to provision to tax return adjustments reflected in the three months ended September 30, 2008 which resulted in a 1.2% increase to the effective tax rate. The increase in the effective tax rate for the nine months ended September 30, 2009 as compared to the same prior-year period was primarily attributable to the absence of a cumulative benefit for prior period research and development tax credits that is reflected in the prior year.

As of January 1, 2009, the Company had \$10.9 million gross unrecognized tax benefits. During the nine months ended September 30, 2009, the Company had an increase in gross unrecognized tax benefits of approximately \$1.8 million. The gross uncertain tax positions, if recognized by the Company, will result in a reduction of approximately \$10.2 million to the tax provision which will favorably impact the Company's effective tax rate. The Company anticipates settling \$0.2 million of its unrecognized tax benefits over the next twelve months. As a result, this amount was included in current income taxes payable.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense.

The Company files income tax returns in the U.S. federal jurisdiction and various states. The Company is subject to U.S. federal or state income tax examinations by tax authorities for years after 1997. Due to the Company's loss position for tax purposes in prior years, all tax years are open to examination in the U.S and state jurisdictions. The Company is also open to examination in various state jurisdictions for tax years 2000 and forward, none of which are individually material.

7. Commitments and Contingencies

Credit Agreement

In September 2009, the Company entered into a credit agreement which provides for a \$100 million three-year revolving credit facility. The Company may request that an additional \$50 million of borrowing capacity be added to the revolving line of credit, subject to receipt of lending commitments and other conditions. Subject to certain conditions stated in the credit agreement, the Company may borrow, prepay and re-borrow amounts under the credit facility at any time during the term of the credit agreement. The Company may prepay the loans under the credit agreement in whole or in part at any time without premium or penalty. In addition, the Company is required to prepay the obligations under the credit agreement with the proceeds of certain asset sales and

debt issuances and certain insurance and condemnation proceeds. Loans under the credit agreement will bear interest, at the Company's option, at either: (i) LIBOR plus a spread ranging from 2.75 percent to 3.25 percent or (ii) a base rate determined in accordance with the credit agreement, plus a spread of 1.75% to 2.25%. Funds borrowed under the credit agreement may be used for working capital, general corporate purposes, and subject to the satisfaction of certain conditions, the purchase by the Company of its stock. The Company entered into the credit agreement in order to enhance its financial flexibility. As of September 30, 2009, the Company had not borrowed any funds under the credit agreement. In October 2009, the Company borrowed \$20 million under the credit agreement.

The credit agreement includes, among other terms and conditions, limitations on the Company's ability to create, incur, assume or be liable for indebtedness (other than specified types of permitted indebtedness); dispose of assets outside the ordinary course (subject to specified exceptions); acquire, merge or consolidate with or into another person or entity (other than specified types of permitted acquisitions); create, incur or allow any lien on any of its property or assign any right to receive income (except for specified permitted liens); make investments (other than specified types of investments); or pay dividends or make distributions (each subject to specified exceptions), and certain financial covenants. At September 30, 2009, the Company was in compliance with these covenants.

Content Acquisition

The Company classifies streaming content as either a current or non-current asset in the consolidated balance sheets based on the estimated time of usage after certain criteria have been met including availability of the streaming content for its first showing. The Company has \$102 million of commitments at September 30, 2009 related to streaming content license agreements that have been executed but for which the streaming content does not meet asset recognition criteria.

Litigation

From time to time, in the normal course of its operations, the Company is a party to litigation matters and claims, including claims relating to employee relations and business practices. Litigation can be expensive and disruptive to normal business operations. Moreover, the results of complex legal proceedings are difficult to predict and the Company cannot reasonably estimate the likelihood or potential dollar amount of any adverse results. The Company expenses legal fees as incurred. Listed below are material legal proceedings to which the Company is a party. An unfavorable outcome of any of these matters could have a material adverse effect on the Company's financial position, liquidity or results of operations.

On September 25, 2009, Alcatel-Lucent USA Inc. filed a complaint for patent infringement against the Company in the United States District Court for the Eastern District of Texas, captioned *Alcatel-Lucent USA Inc. v. Amazon.com Inc., et. al*, Civil Action No. 6:09-cv-422. The complaint alleges that the Company infringed U.S. Patents Nos. 5,649,131 entitled "Communications Protocol" issued on July 15, 1997, 5,623,656 entitled "Script Based Data Communication System and Method Utilizing State Memory" issued on April 22, 1997 and 5,404,507 entitled "Apparatus and Method for Finding Records in a Database by Formulating a Query Using Equivalent Terms Which Correspond to Terms in the Input Query" issued April 4, 1995. The complaint seeks unspecified compensatory and enhanced damages, interest, costs and fees, and seeks to permanently enjoin the Company from infringing the patents in the future. The complaint has not been served on the Company.

On April 1, 2009, Jay Nunez, individually and on behalf of others similarly situated in California, filed a purported class action lawsuit against the Company in California Superior Court, County of Orange. The complaint asserts claims of unlawful, unfair and deceptive business practices and violation of the California Consumer Legal Remedies Act relating to certain of the Company's marketing statements. The complaint seeks restitution, injunction and other relief. On July 14, 2009, the Company filed a demurrer to the first amended complaint. On August 21, 2009, the Court granted the Company's demurrer and granted leave to amend. Plaintiff filed a second amended complaint on September 11, 2009.

In January through April of 2009, a number of purported anti-trust class action suits were filed against the Company. Wal-Mart Stores, Inc. and Walmart.com USA LLC (collectively, Wal-Mart) were also named as defendants in these suits. Most of the suits were filed in the United States District Court for the Northern District of California and other federal district courts around the country. A number of suits were filed in the Superior Court of the State of California, Santa Clara County. The plaintiffs, who are current or former Netflix customers, generally allege that Netflix and Wal-Mart entered into an agreement to divide the markets for sales and online rentals of DVDs in the United States, which resulted in higher Netflix subscription prices. The complaints, which assert violation of federal and/or state antitrust laws, seek injunctive relief, costs (including attorneys' fees) and damages in an unspecified amount. On April 10, 2009, the Judicial Panel on Multidistrict Litigation ordered all cases pending in federal court transferred to the Northern District of California to be consolidated or coordinated for pre-trial purposes. These cases have been

Netflix, Inc.

Notes to Condensed Consolidated Financial Statements—(Continued)

assigned the multidistrict litigation number MDL-2029. The cases pending in the Superior Court of the State of California, Santa Clara County have been consolidated. In addition, in May of 2009, three additional lawsuits were filed—two in the Northern District of California and one in the Superior Court of the State of California, San Mateo County—alleging identical conduct and seeking identical relief. In these three cases, the plaintiffs are current or former subscribers to the online DVD rental service offered by Blockbuster Inc. The two cases filed in federal court on behalf of Blockbuster subscribers have been related to MDL-2029. The lawsuit filed in Superior Court of the State of California, San Mateo County has been coordinated with the cases pending in Santa Clara County.

On December 26, 2008, Quito Enterprises, LLC filed a complaint for patent infringement against the Company in the United States District Court for the Southern District of Florida, captioned *Quito Enterprises, LLC v. Netflix, Inc., et. al*, Civil Action No. 1:08-cv-23543-AJ. The complaint alleges that the Company infringed U.S. Patent No. 5,890,152 entitled “Personal Feedback Browser for Obtaining Media Files” issued on March 30, 1999. The complaint seeks unspecified damages, interest, and seeks to permanently enjoin the Company from infringing the patent in the future. On September 30, 2009, the Company filed a motion for summary judgment of invalidity. The Court has not set a hearing date for the motion.

On October 24, 2008, Media Queue, LLC filed a complaint for patent infringement against the Company in the United States District Court for the Eastern District of Oklahoma, captioned *Media Queue, LLC v. Netflix, Inc., et. al*, Civil Action No. CIV 08-402-KEW. The complaint alleges that the Company infringed U.S. Patent No. 7,389,243 entitled “Notification System and Method for Media Queue” issued on June 17, 2008. The complaint seeks unspecified compensatory and enhanced damages, interest and fees, and seeks to permanently enjoin the Company from infringing the patent in the future. On February 24, 2009, the case was transferred to the Northern District of California. On August 14, 2009, the Company filed a motion for summary judgment of non-infringement. A hearing on the motion is scheduled for November 17, 2009.

On December 28, 2007, Parallel Networks, LLC filed a complaint for patent infringement against the Company in the United States District Court for the Eastern District of Texas, captioned *Parallel Networks, LLC v. Netflix, Inc., et. al*, Civil Action No 2:07-cv-562-LED. The complaint alleges that the Company infringed U.S. Patent Nos. 5,894,554 and 6,415,335 B1 entitled “System For Managing Dynamic Web Page Generation Requests by Intercepting Request at Web Server and Routing to Page Server Thereby Releasing Web Server to Process Other Requests” and “System and Method for Managing Dynamic Web Page Generation Requests”, issued on April 13, 1999 and July 2, 2002, respectively. The complaint seeks unspecified compensatory and enhanced damages, interest and fees, and seeks to permanently enjoin the Company from infringing the patent in the future.

Indemnification

In the ordinary course of business, the Company enters into contractual arrangements under which it has agreed to provide indemnification of varying scope and terms to business partners and other parties with respect to certain matters, including, but not limited to, losses arising out of the Company’s breach of such agreements and out of intellectual property infringement claims made by third parties. In these circumstances, payment may be conditional on the other party making a claim pursuant to the procedures specified in the particular contract. Further, the Company’s obligations under these agreements may be limited in terms of time and/or amount, and, in some instances, the Company may have recourse against third parties for certain payments. In addition, the Company has entered into indemnification agreements with its directors and certain of its officers that will require it, among other things, to indemnify them against certain liabilities that may arise by reason of their status or service as directors or officers. The terms of such obligations vary.

It is not possible to make a reasonable estimate of the maximum potential amount of future payments under these or similar agreements due to the conditional nature of the Company’s obligations and the unique facts and circumstances involved in each particular agreement. No amount has been accrued in the accompanying condensed consolidated financial statements with respect to these indemnification obligations.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain forward-looking statements within the meaning of the federal securities laws. These forward-looking statements include, but are not limited to: statements regarding the breadth of content choices available to us, our competitive advantage, increasing content choices for streaming, our core strategy, the expansion of electronic equipment that will enable streamed content, the continued popularity of the DVD format, expectations with respect to the growth of Internet delivery of content, growth in our average number of paying subscribers and revenue per paying subscriber, future investments in our content library and its effect on our gross margin, and our liquidity. These forward-looking statements are subject to risks and uncertainties that could cause actual results and events to differ. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in the Annual Report on Form 10-K for the year ended December 31, 2008 filed with the Securities and Exchange Commission ("SEC") on February 25, 2009 and in the Quarterly Reports on Form 10-Q filed with the SEC on May 8, 2009 and July 31, 2009.

We assume no obligation to revise or publicly release any revision to any forward-looking statements contained in this Quarterly Report on Form 10-Q.

Overview

Our Business

With more than 11 million subscribers, we are the largest online movie rental subscription service in the United States. We offer a variety of subscription plans, with no due dates, no late fees, no shipping fees and no pay-per-view fees. We offer a vast selection of DVD titles and a growing library of movies and TV episodes that can be watched instantly. Subscribers select titles at our Web site aided by our proprietary recommendation service and merchandising tools. On average, approximately 2 million discs are shipped daily from our distribution centers across the United States. Additionally, more than 40% of our subscribers instantly watched more than 15 minutes of streaming content in the third quarter of 2009.

Subscribers can:

- Receive DVDs by U.S. mail and return them to us at their convenience using our prepaid mailers. After a DVD has been returned, we mail the next available DVD in a subscriber's queue.
- Watch streaming content without commercial interruption on personal computers ("PCs"), Intel-based Macintosh computers ("Macs") and televisions ("TVs"). The viewing experience is enabled by Netflix controlled software that can run on a variety of devices. These devices currently include Blu-ray disc players, Internet connected TVs, digital video players, and game consoles.

Our core strategy is to grow a large subscription business consisting of DVD by mail and streaming content. By combining DVD and streaming as part of the Netflix subscription, we are able to offer subscribers a uniquely compelling selection of movies for one low monthly price. We believe this creates a competitive advantage as compared to a streaming only subscription service. This advantage will diminish over time as more content becomes available over the Internet from competing services, by which time we expect to have further developed our other advantages such as brand, distribution, and our proprietary merchandising platform. Despite the growing popularity of Internet delivered content, we expect that standard definition DVD, along with its high definition successor, Blu-ray (collectively referred to in this Quarterly Report as "DVD"), will continue to be the primary means by which Netflix subscribers view content for the foreseeable future. However, at some point in the future, we expect that Internet delivery of content directly to the home will surpass DVD as the primary means by which Netflix subscribers view content.

* Churn is a monthly measure defined as customer cancellations in the quarter divided by the sum of beginning subscribers and gross subscriber addition, then divided by three months. Churn for the nine months ended September 30, 2009 and 2008 is the average of Churn for the three quarters of the respective period.

** Subscriber acquisition costs is defined as total marketing expense divided by total gross subscriber additions.

Critical Accounting Policies and Estimates

There have been no significant changes during the nine months ended September 30, 2009 to the items that we disclosed as our critical accounting policies and estimates in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2008.

Results of Operations

The following table sets forth, for the periods presented, the line items in our condensed consolidated statements of operations as a percentage of total revenues. The information contained in the table below should be read in conjunction with the condensed consolidated financial statements, notes to the condensed consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in this Quarterly Report on Form 10-Q.

Revenues

We currently generate all of our revenues in the United States, and we have no long-lived assets outside the United States, although we plan to expand internationally with a streaming subscription service. We derive substantially all of our revenues from monthly subscription fees and recognize subscription revenues ratably over each subscriber's monthly subscription period. We record refunds to subscribers as a reduction of revenues.

We offer a variety of subscription plans for DVD rental and streaming service. The price per plan varies based on the number of DVDs that a subscriber has out at any given point and based on whether the service has limited or unlimited usage. All of our unlimited plans allow the subscriber unlimited streaming to their computer or Netflix ready device. The vast majority of our subscriber base has chosen a 1, 2 or 3-out Unlimited plan. Customers electing access to the high definition Blu-ray discs in addition to standard definition DVDs pay a surcharge of \$1 to \$4 for our most popular plans. Pricing of our plans is as follows:

	Price per month
1-out Limited	\$ 4.99
1-out Unlimited	8.99
2-out Unlimited	13.99
3-out Unlimited	16.99
All other Unlimited Plans	23.99 to 47.99

The \$81.9 million increase in our revenues was primarily a result of the 26.8% growth in the average number of paying subscribers. This increase was partially offset by a 2.2% decline in the average monthly revenue per paying subscriber to \$13.30, resulting from the growing popularity of our lower priced subscription plans. The total number of average paying subscribers in our 1 and 2-out plans grew by 48.9% year over year as compared to a 2.8% decline in all other plans.

The \$220.7 million increase in our revenues was primarily a result of the 25.8% growth in the average number of paying subscribers. This increase was partially offset by a 3.0% decline in the average monthly revenue per paying subscriber, resulting from the growing popularity of our lower priced subscription plans. The total number of average paying subscribers in our 1 and 2-out plans grew by 43.0% year over year as compared to a 2.6% growth in all other plans.

Revenues	\$ 423,120	\$ 408,509	3.6%
Other data:			
Average number of paying subscribers	10,605	10,246	3.5%
Average monthly revenue per paying subscriber	\$ 13.30	\$ 13.29	0.1%

The \$14.6 million increase in our revenues was primarily a result of the 3.5% growth in the average number of paying subscribers.

We plan to continue to expand the number of devices on which Netflix subscribers can watch streaming content. We expect the availability of these new devices will accelerate growth in the average number of paying subscribers.

Until the average price paid by our new additions is equal to the average price paid by existing subscribers, we expect our average monthly revenue per paying subscriber will continue to decline, as the lower priced plans grow as a percentage of our subscriber base. Our revenues and average monthly revenue per paying subscriber could be impacted by future changes to our pricing structure which may result from competitive effects that we are unable to predict.

Subscription	\$ 233,091	\$ 186,573	24.9%
As a percentage of revenues	55.1%	54.7%	

The \$46.5 million increase in cost of subscription revenues was due to the following factors:

- Content delivery expenses increased \$28.6 million primarily due to a 20.6% increase in the number of DVDs mailed to paying subscribers and to a two cent (4.8%) increase in the rates of first class postage in May 2009. The increase in the number of DVDs mailed was driven by a 26.8% increase in the number of average paying subscribers, partially offset by a 4.9% decline in monthly DVD rentals per average paying subscriber primarily attributed to the growing popularity of our lower priced plans.
- Content acquisition expenses increased by \$17.9 million primarily due to increased investments in our content library, particularly related to additions to our streaming content.

The \$110.4 million increase in cost of subscription revenues was due to the following factors:

- Content delivery expenses increased \$73.4 million due primarily to an 18.6% increase in the number of DVDs mailed to paying subscribers. The increase in the number of DVDs mailed was driven by a 25.8% increase in the number of average paying subscribers, partially offset by a 5.8% decline in monthly DVD rentals per average paying subscriber primarily attributed to the growing popularity of our lower priced plans
- Content acquisition expenses increased by \$37.0 million primarily due to increased investments in our content library, particularly related to additions to our streaming content.

Subscription	\$ 233,091	\$227,316	2.5%
As a percentage of revenues	55.1%	55.6%	

The \$5.8 million increase in cost of subscription revenues was due to the following factors:

- Content delivery expenses increased by \$8.2 million due to a 4.4% increase in the number of DVDs mailed to paying subscribers, coupled with an increase in the costs of delivering streaming content to our subscribers. The increase in the number of DVDs mailed was driven by a 3.5% increase in the number of average paying subscribers, coupled with a 0.9% increase in monthly DVD rentals per average paying subscriber.
- Content acquisition expenses decreased by \$2.4 million primarily due to a decrease in revenue sharing expenses, attributed to 8.6% fewer DVDs mailed under revenue sharing agreements. This decrease was partially offset by increased investments in our content library, particularly related to additions to our streaming content.

The \$4.3 million increase in fulfillment expenses was due to the following:

- Delivery centers and customer service related expenses increased \$1.5 million primarily due to a 20.3% increase in headcount to support the higher volume of content delivery.
- Credit card fees increased \$2.8 million as a result of the 24.0% growth in revenues.

Gross margin	34.9%	34.2%	
Average monthly gross profit per paying subscriber	\$ 4.65	\$ 4.65	—

The 0.7% increase in gross margin was primarily attributed to a one-time credit of \$6.5 million given to subscribers related to a shipping disruption during the third quarter of 2008. In addition, our gross margins continue to benefit from increased utilization of catalog titles resulting from ongoing improvements in our merchandising and recommendation systems.

Gross margin	34.4%	32.6%	
Average monthly gross profit per paying subscriber	\$ 4.61	\$ 4.50	2.4%

The 1.8% increase in gross margin was due to a decline in the average revenue per paying subscriber of 3.0% offset by a larger decrease in the cost of subscription per average paying subscriber of 5.0%. This is primarily attributable to the growing popularity of our lower priced plans evidenced by the increase in average gross profit per paying subscriber. This increase is due to the fact that the decrease in revenue per average paying subscriber is proportionally lower than the decrease in the DVD shipments per average paying subscriber, offset slightly by higher content expense associated with our investments in streaming. In addition, our gross margins continue to benefit from increased utilization of catalog titles resulting from ongoing improvements in our merchandising and recommendation systems.

Gross margin	34.9%	34.1%	
Average monthly gross profit per paying subscriber	\$ 4.65	\$ 4.53	2.6%

Gross margin and average monthly gross profit per paying subscriber increased primarily due to a decrease in revenue sharing expenses, attributed to an 8.6% decrease in the number of DVD's subject to revenue sharing agreements mailed to paying subscribers.

We expect to continue to make substantial investments in our content library and in particular may increase spending associated with streaming content. These investments would reduce our gross margin to the extent that increases outpace growth in our average number of paying subscribers.

Technology and development	\$ 30,014	\$ 23,368	28.4%

The \$6.6 million increase in technology and development expenses was primarily attributable to a \$4.7 million increase in personnel-related costs due to growth in headcount related to the development of solutions for streaming content and continued improvements in our service. The increase is also partly attributable to the \$1 million expense associated with the Netflix Prize, which was awarded in the third quarter of 2009. The Netflix Prize was a contest launched in 2006 challenging participants to improve the Company's movie rating prediction system.

Liquidity and Capital Resources

We have generated net cash from operations during each quarter since the second quarter of 2001. Many factors will impact our ability to continue to generate and grow cash from our operations including, but not limited to, the number of subscribers who sign up for our service and the growth or reduction in our subscriber base. In addition, we may have or otherwise choose to lower our prices and increase our marketing expenses in order to grow faster or respond to competition. In September 2009, we entered into a credit agreement which provides for a \$100 million three-year revolving credit facility. In October 2009, we borrowed \$20 million under this credit facility. Although we currently anticipate that cash flows from operations, together with our available funds, will be sufficient to meet our cash needs for the foreseeable future, we may require or choose to obtain additional financing. Our ability to obtain additional financing will depend on, among other things, our development efforts, business plans, operating performance and the condition of the capital markets at the time we seek financing.

Our primary source of liquidity has been cash from operations, which consists mainly of net income adjusted for non-cash items such as amortization of our content library, depreciation of property and equipment and stock-based compensation related to the issuance of common stock. Our primary uses of cash include our stock repurchase programs, postage and packaging expenses, the acquisition of content, capital expenditures related to information technology and automation equipment for operations, marketing and fulfillment expenses.

In addition, on August 6, 2009, we announced that our Board of Directors authorized a stock repurchase program allowing us to repurchase \$300 million of our common stock through the end of 2010. As of September 30, 2009, we have purchased approximately \$70 million of our common stock under this program. Subsequent to September 30, 2009, we purchased an additional \$52 million of our common stock under the program. The timing and actual number of shares repurchased will depend on various factors, including price, corporate and regulatory requirements, alternative investment opportunities and other market conditions. The following table highlights selected measures of our liquidity and capital resources for the three and nine months ended September 30, 2009 and 2008 (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,	September 30,	September 30,	September 30,

Operating Activities

During the three months ended September 30, 2009, our operating activities consisted of net income of \$30.1 million, increased by non-cash adjustments of \$64.5 million offset by a decrease in net changes in operating assets and liabilities of \$16.3 million. The majority of the non-cash adjustments resulted from amortization of the content library of \$56.7 million as we continue to purchase additional titles. The net changes in operating assets and liabilities were mainly driven by timing differences in accounts payable and prepaid expenses and other current assets. The net changes in operating assets and liabilities were also driven by the acquisition of streaming content, as we continued to increase our investments in streaming content in 2009. Cash provided by operating activities increased by \$17.8 million for the three months ended September 30, 2009 as compared to the same prior-year period. This was primarily due to an increase in net income of \$9.8 million and an increase in non-cash adjustments of \$12.8 million offset by a decrease in net changes in operating assets and liabilities of \$4.8 million.

During the nine months ended September 30, 2009, our operating activities consisted of net income of \$84.9 million, increased by non-cash adjustments of \$186.5 million offset by a decrease in net changes in operating assets and liabilities of \$52.2 million. The majority of the non-cash adjustments resulted from amortization of the content library of \$159.2 million as we continue to purchase

additional titles. The net changes in operating assets and liabilities were mainly driven by acquisitions of streaming content, as we continued to increase our investments in streaming content in 2009. Cash provided by operating activities increased \$27.3 million for the nine months ended September 30, 2009 as compared to the same prior-year period. This was primarily due to an increase in net income of \$24.7 million and an increase in non-cash adjustments of \$16.7 million and a decrease in net changes in operating assets and liabilities of \$14.1 million.

Investing Activities

During the three months ended September 30, 2009, our investing activities consisted primarily of purchases, maturities, and sales of available-for-sale securities, acquisitions of DVD content and purchases of property and equipment. Cash provided by investing activities increased by \$22.3 million for the three months ended September 30, 2009 as compared to the same prior-year period. This is primarily attributable to an increase of \$38.8 million in the proceeds from sales and maturities of available-for-sale securities offset by an increase in acquisitions of content library of \$17.4 million, as we continue to purchase additional titles.

During the nine months ended September 30, 2009, our investing activities consisted primarily of purchases and sales of available-for-sale securities, acquisitions of DVD content and purchases of property and equipment. Cash used in investing activities increased \$5.4 million for the nine months ended September 30, 2009 as compared to the same prior-year period. This is primarily attributable to a decrease of \$86.0 million in the proceeds from the sales and maturities of available-for-sale securities offset by a decrease in the purchases of available-for-sale securities of \$78.7 million. In addition, during 2008, we invested in automation equipment for our various shipping centers to achieve operational efficiencies therefore, cash flows related to purchases of property and equipment decreased by \$12.8 million in 2009. This decrease is offset by an increase in acquisitions of content library of \$11.4 million, as we continue to purchase additional titles.

Financing Activities

During the three months ended September 30, 2009, our financing activities consisted primarily of repurchases of our common stock. Cash used in financing activities increased by \$39.1 million for the three months ended September 30, 2009 as compared to the same prior-year period primarily due to an increase in stock repurchases of \$39.7 million.

During the nine months ended September 30, 2009, our financing activities consisted primarily of repurchases of our common stock. Cash used in financing activities increased by \$40.2 million for the nine months ended September 30, 2009 as compared to the same prior-year period primarily due to an increase in stock repurchases of \$55.0 million offset by an increase in the proceeds from the issuance of common stock of \$10.5 million.

Contractual Obligations

Credit Agreement

In September 2009, we entered into a credit agreement which provides for a \$100 million three-year revolving credit facility. We may request that an additional \$50 million of borrowing capacity be added to the revolving line of credit, subject to receipt of lending commitments and other conditions. Subject to certain conditions stated in the credit agreement, we may borrow, prepay and re-borrow amounts under the credit facility at any time during the term of the credit agreement. We may prepay the loans under the Credit Agreement in whole or in part at any time without premium or penalty. In addition, we are required to prepay the obligations under the Credit Agreement with the proceeds of certain asset sales and debt issuances and certain insurance and condemnation proceeds. Loans under the credit agreement will bear interest at our option at either: (i) LIBOR plus a spread ranging from 2.75 percent to 3.25 percent or (ii) a base rate determined in accordance with the Credit Agreement, plus a spread of 1.75% to 2.25%. Funds borrowed under the credit agreement may be used for working capital, general corporate purposes, and subject to the satisfaction of certain conditions, the purchase by us of our stock. We entered into the credit agreement in order to enhance our financial flexibility. As of September 30, 2009, we had not borrowed any funds under the credit agreement. In October 2009, we borrowed \$20 million under the credit agreement.

The credit agreement includes, among other terms and conditions, limitations on our ability to create, incur, assume or be liable for indebtedness (other than specified types of permitted indebtedness); dispose of assets outside the ordinary course (subject to specified exceptions); acquire, merge or consolidate with or into another person or entity (other than specified types of permitted acquisitions); create, incur or allow any lien on any of its property or assign any right to receive income (except for specified permitted liens); make investments (other than specified types of investments); or pay dividends or make distributions (each subject to specified exceptions), and certain financial covenants. At September 30, 2009, we were in compliance with these covenants.

Off-Balance Sheet Arrangements

As part of our ongoing business, we do not engage in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities. Accordingly, our operating results, financial condition and cash flows are not subject to off-balance sheet risks.

Operating Leases

We have entered into various non-cancelable operating lease agreements for our offices and distribution centers throughout the U.S. with original lease periods expiring through 2016. Certain of these leases have free or escalating rent payment provisions. We recognize rent expense on our operating leases on a straight-line basis at the commencement of the lease.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For financial market risks related to changes in interest rates, reference is made to Item 7A “Quantitative and Qualitative Disclosures About Market Risk” contained in Part II of our Annual Report on Form 10-K for the year ended December 31, 2008. We started an investment portfolio during the first quarter of 2007 which is comprised of corporate debt securities, government and agency securities and asset and mortgage-backed securities. However, our exposure to market risk has not changed significantly since December 31, 2008.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q were effective in providing reasonable assurance that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934, as amended, is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within Netflix have been detected.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2009 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The information set forth under Note 7 in the notes to the condensed consolidated financial statements under the caption “Litigation” is incorporated herein by reference.

Item 1A. Risk Factors

There have been no material changes from risk factors as previously disclosed under the heading “Risk Factors” in the Company’s Annual Report on Form 10-K for the year ended December 31, 2008 except as follows:

- Reference was made to the possible expiration in late 2009 of the agreement covering the next largest number of devices through which subscribers enjoy streaming content (the largest number being the PC and Mac platforms). This agreement was extended at the partner’s option. Nonetheless, our business could be adversely impacted if our consumer electronics partners are not willing to extend agreements so as to continue to provide access to our service or are unwilling to do so on terms acceptable to us.
- We previously disclosed how increases in costs of delivery of DVDs, such as those that could result from a rise in postal rates or change in postal policies, could adversely affect our gross profit. With respect to that disclosure, in October 2009, the U.S. Postal Service announced that it would not raise rates in 2010. In addition, we note that a game rental mailer filed a complaint with the Postal Regulatory Commission alleging that the U.S. Postal Service unreasonably discriminated against the mailer in favor of Netflix and Blockbuster. To the extent this proceeding was to result in operational or regulatory changes impacting our mail processing, our gross margins and business operations could be adversely affected.
- Some studios have expressed a desire to delay the availability of new releases DVDs for rental for a brief period of time following the DVDs’ release to the retail market and, in connection therewith, would prohibit certain of their wholesalers from selling to various rental outlets, such as Netflix and Redbox. In fact, Universal Studios, Twentieth Century Fox and Warner Bros are engaged in litigation brought by Redbox over this practice. This practice could impact our ability to receive content in an efficient manner and in sufficient quantity to satisfy demand in which case our business could be adversely affected.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Stock repurchases during the three months ended September 30, 2009 were as follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares	Maximum Dollar Value that
			Purchased as Part of Publicly Announced Programs	May Yet Be Purchased Under the Program (1)
July 1, 2009 - July 31, 2009	100,000	\$ 41.90	100,000	\$ 55,580,000
August 1, 2009 - August 31, 2009	2,164,866	44.31	2,164,866	259,888,595
September 1, 2009 - September 30, 2009	684,700	43.20	684,700	230,311,779
Total	2,949,566	\$ 43.97	2,949,566	230,311,779

(1) On August 6, 2009, the Company announced that its Board of Directors authorized a stock repurchase plan that enables the Company to repurchase up to \$300 million of its common stock through the end of 2010. The timing and actual number of shares repurchased will depend on various factors including price, corporate and regulatory requirements, alternative investment opportunities and other market conditions. Subsequent to September 30, 2009, the Company repurchased 1,147,383 shares of common stock at an average price of approximately \$46 per share for an aggregate amount of \$52 million

On January 26, 2009, the Company announced that its Board of Directors authorized a stock repurchase program for 2009. This program terminated on August 6, 2009.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Reed Hastings, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Netflix, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:

a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
