

## NightHawk Radiology Announces Strategic Alliance

SCOTTSDALE, Ariz., Apr 12, 2010 (GlobeNewswire via COMTEX News Network) -- NightHawk Radiology Services (Nasdaq:NHWK), the largest U.S. provider of professional teleradiology services, and Timaq medical imaging Inc., the leading Swiss Imaging CRO announce a strategic alliance to provide unsurpassed medical imaging services for clinical trials.

This collaboration represents a major step in widening Timaq's services to include greater geographic reach and expanding Timaq's network of expert readers. The synergistic relationship will provide Timaq's customers with faster image evaluation turn-around, closer ties to global imaging sites, assistance with patient recruitment, and reduced inter-reader variability. Both companies have key locations in Zurich allowing close communication and effective consulting for imaging trials.

### About NightHawk

NightHawk Radiology (Nasdaq:NHWK) is leading the transformation of the practice of radiology by providing high-quality, cost-effective solutions to radiology groups and hospitals throughout the United States. NightHawk provides the most complete suite of solutions, including professional services, business services, and its advanced, proprietary clinical workflow technology, all designed to increase efficiencies and improve the quality of patient care and the lives of physicians who provide it. NightHawk's team of U.S. board-certified, state-licensed, and hospital-privileged physicians located in the United States, Australia, and Switzerland, provides services 24 hours a day, seven days a week, to approximately 1,600 sites, representing approximately 26% of all hospitals in the United States.
