Numerex Receives 2017 IoT Evolution Product of the Year Award

nxCONNECT Honored for Exceptional Innovation

ATLANTA, July 25, 2017 (GLOBE NEWSWIRE) -- Numerex Corp (NASDAQ:NMRX), a leading provider of enterprise solutions enabling the Internet of Things (IoT), today announced that nxCONNECT™, an LTE wireless backup solution, has received a 2017 IoT Evolution Product of the Year Award from [IoT Evolution magazine](#) and [IoT Evolution World](#), the leading magazine and Web site covering IoT technologies.

Purpose-built for MSO's and CSO's, nxCONNECT ensures the continuity of internet connectivity for small and medium businesses by using Numerex's network cellular service as a backup failover in the event of broadband service outages. nxCONNECT consists of a complete bundled offering which includes an intelligent router that instantly detects broadband signal loss and seamlessly re-connects to a powerful LTE link, so that mission-critical enterprise information continues to be transmitted and customer's Cloud applications remain operational. nxCONNECT comes with a user-friendly online portal, along with inventory and fulfillment services, and an easy to use self-install kit which allows quick set up and installation for the end user.

"The solutions selected for the IoT Evolution Product of Year Award reflect the diverse range of innovation driving the market today. It is my honor to congratulate Numerex for their innovative work and superior contribution to the rapidly evolving IoT industry," said Carl Ford, CEO of [Crossfire Media](#), a co-publisher of IoT Evolution.

"We are honored that TMC has selected nxCONNECT as an innovative solution that earned Numerex the 2017 IoT Evolution Product of the Year Award," said Shu Gan, CMO, Numerex. "As a new offering launched this year in our service portfolio, nxCONNECT leverages our powerful nxFAST Platform and the Numerex network to bring tangible benefits to our business customers."

The winners of the 2017 IoT Evolution Product of the Year Award will be published in the next issue of [IoT Evolution magazine](#).
