

OMA celebrates its 10th anniversary as a publicly listed company

OMA carried out its Initial Public Offering on the Mexican and Nasdaq stock markets on November 29, 2006

Mexico City, Mexico, November 30, 2016—Mexican airport operator Grupo Aeroportuario del Centro Norte, S.A.B. de C.V., known as OMA (NASDAQ: OMAB; BMV: OMA), celebrated its 10th Anniversary as a publicly-listed company on the Mexican Stock Exchange (*Bolsa Mexicana de Valores*) and the Nasdaq Stock Market in New York.

During this decade, OMA has grown in an integrated manner by pursuing different initiatives to develop the connectivity of the cities where it operates, to develop quality airport infrastructure, and to improve the passenger experience. OMA is doing so while following sustainability principles in order to promote economic, social, and environmental equilibrium.

OMA celebrated its anniversary by ringing the opening bell this morning at the Mexican Stock Exchange. Diego Quintana, Chairman of OMA's Board, and Porfirio González, OMA's CEO, presided at the ceremony.

"For OMA the decisive factors have been to adopt clear principles and carry through with our commitments in the management of airports. We have been able to prosper in the face of a complex, demanding environment and constant change in the air transportation sector, and also to contribute to Mexico's economic development and growth," said Mr. Quintana.

"The results we've achieved thus far show OMA's ability to transform ideas and the needs of clients into integral solutions. Our commitments to our shareholders and the provision of the quality services that our clients demand have borne fruit in this initial period, winning trust in our value proposition. We are committed to continue to rise to the challenge for excellence that characterizes the Group," added Mr. González.

OMA will continue to carry out actions that have a positive impact on the destinations where it operates, stimulating commerce, industry, and tourism by offering airport services with infrastructure and installations of quality, providing the conditions necessary for the development of air connectivity and services for the transportation of passengers and goods.
