

JPMorgan Chase & Co.

**Structured
 Investments**

\$
 12.0%[†] (equivalent to 24.0%[†] per annum) Bearish Reverse Exchangeable Notes due December 13, 2007
 Linked to the Best Performing Common Stock in the Dow Jones Industrial Average^{SM*}

*not including the common stock of JPMorgan Chase & Co.

[†]The actual interest rate will be determined on the pricing date and will not be less than 12.0% (equivalent to 24.0% per annum)

General

- The notes are designed for investors who seek a higher interest rate than the current dividend yield on the common stocks included in the Dow Jones Industrial AverageSM other than the common stock of JPMorgan Chase & Co. or than the yield on a conventional debt security with the same maturity issued by us or an issuer with a comparable credit rating. Investors should be willing to forgo the potential to participate in appreciation in the Reference Stocks, be willing to accept the risks of owning equities in general and be willing to lose some or all of their principal.
- The notes will pay at least 12.0%[†] (equivalent to 24.0%[†] per annum) interest during the term of the notes. **However, the notes do not guarantee any return of principal at maturity. Instead, the payment at maturity will be based on the Final Share Price of the Best Performing Reference Stock and whether the closing price of any Reference Stock has increased from its Initial Share Price by more than its Upside Protection Amount during the Monitoring Period, as described below.**
- Senior unsecured obligations of JPMorgan Chase & Co. maturing December 13, 2007^{††}.
- Payment at maturity for each \$1,000 principal amount note will be a cash payment of up to \$1,000, together with any accrued and unpaid interest.
- Minimum denominations of \$1,000 and integral multiples thereof.

Key Terms

Reference Stocks:	The common stocks included in the Dow Jones Industrial Average SM other than the common stock of JPMorgan Chase & Co., as reflected in "The Reference Stocks" below (each such common stock, a "Reference Stock" and, together, the "Reference Stocks").
Interest Rate:	At least 12.0%[†] (equivalent to 24.0%[†] per annum) during the term of the notes , paid monthly and calculated on a 30/360 basis. The actual interest rate will be determined on the pricing date and will not be less than 12.0% (equivalent to 24.0% per annum) during the term of the notes.
Upside Protection Amount:	For each Reference Stock, an amount that represents 30% of the applicable Initial Share Price of such Reference Stock, subject to adjustments. See "The Reference Stocks — Initial Share Prices and Upside Protection Amounts" below for the Upside Protection Amount for each Reference Stock.
Maturity Date:	December 13, 2007 ^{††}
Pricing Date:	On or about June 8, 2007
Settlement Date:	On or about June 13, 2007
Observation Date:	December 10, 2007 ^{††}
CUSIP:	48123JB40
Interest Payment Date:	Interest on the notes will be payable monthly in arrears on the 13 th calendar day of each month (each such date, an "Interest Payment Date"), commencing July 13, 2007 to and including the Interest Payment Date corresponding to the Maturity Date. See "Selected Purchase Considerations — Monthly Interest Payments" in this term sheet for more information.
Payment at Maturity:	You will receive \$1,000 for each \$1,000 principal amount note plus any accrued and unpaid interest at maturity unless (i) the Final Share Price for any Reference Stock is greater than the Initial Share Price of such Reference Stock; and (ii) a Trigger Event has occurred. If the conditions described in (i) and (ii) are both satisfied, at maturity you will receive, instead of the principal amount of your notes, a cash payment per \$1,000 principal amount note calculated as follows: $\$1,000 - (\$1,000 \times \text{Best Performing Reference Stock Appreciation})$ plus any accrued and unpaid interest, <i>provided</i> that the cash payment you receive in lieu of the principal amount of your notes shall not be less than \$0.
Trigger Event:	A Trigger Event occurs if, on any day during the Monitoring Period, the closing price of any Reference Stock has increased, as compared to that Reference Stock's Initial Share Price, by more than that Reference Stock's Upside Protection Amount. The period from the Pricing Date to and including the Observation Date.
Monitoring Period:	
Reference Stock Appreciation:	$\frac{\text{Final Share Price} - \text{Initial Share Price}}{\text{Initial Share Price}}$
Initial Share Price:	For each Reference Stock, the closing price of such Reference Stock on the Pricing Date, divided by the Stock Adjustment Factor. Please see "The Reference Stocks — Initial Share Prices and Upside Protection Amounts" below for the Initial Share Price for each Reference Stock. The Initial Share Price is subject to adjustments in certain circumstances. See "General Terms of Notes — Anti-dilution Adjustments" in the accompanying product supplement no. 79-1 for further information about these adjustments.
Stock Adjustment Factor:	For each Reference Stock, set initially at 1.0, subject to adjustment in certain circumstances. See "General Terms of Notes — Anti-dilution Adjustments" in the accompanying product supplement no. 79-1 for further information about these adjustments.
Final Share Price:	For each Reference Stock, the closing price of such Reference Stock on the Observation Date.
Best Performing Reference Stock:	The Reference Stock with the largest percentage increase between its Initial Share Price and its Final Share Price, as compared to the percentage increases between the respective Initial Share Prices and Final Share Prices of the other Reference Stocks, or if only one Reference Stock's Final Share Price is greater than its Initial Share Price, that Reference Stock. The determination of the Best Performing Reference Stock may be affected by the occurrence of certain corporate events affecting one or more of the Reference Stocks.

^{††} Subject to postponement in the event of a market disruption event, as described under "General Terms of Notes" in the accompanying product supplement no. 79-1.

Investing in the Bearish Reverse Exchangeable Notes involves a number of risks. See "Risk Factors" beginning on page PS-6 of the accompanying product supplement no. 79-1 and "Selected Risk Considerations" beginning on page TS-2 of this term sheet. JPMorgan Chase & Co. has filed a registration statement (including a prospectus) with the Securities and Exchange Commission, or SEC, for the offering to which this term sheet relates. Before you invest, you should read the prospectus in that registration statement, each prospectus supplement, product supplement no. 79-1 and any other documents relating to this offering that JPMorgan Chase & Co. has filed with the SEC for more complete information about JPMorgan Chase & Co. and this offering. You may get these documents without cost by visiting EDGAR on the SEC website at www.sec.gov. Alternatively, JPMorgan Chase & Co., any agent or any dealer participating in this offering will arrange to send you the prospectus, each prospectus supplement, product supplement no. 79-1 and this term sheet if you so request by calling toll-free 866-535-9248.

You may revoke your offer to purchase the notes at any time prior to the time at which we accept such offer by notifying the applicable agent. We reserve the right to change the terms of, or reject any offer to purchase, the notes prior to their issuance. In the event of any changes to the terms of the notes, we will notify you and you will be asked to accept such changes in connection with your purchase. You may also choose to reject such changes in which case we may reject your offer to purchase.

Neither the SEC nor any state securities commission has approved or disapproved of the notes or passed upon the accuracy or the adequacy of this term sheet or the accompanying prospectus supplements and prospectus. Any representation to the contrary is a criminal offense.

	Price to Public	Fees and Commissions (a)	Proceeds to Us
Per note	\$	\$	\$
Total	\$	\$	\$

(1) If the notes priced today, J.P. Morgan Securities Inc., whom we refer to as JPMSI, acting as agent for JPMorgan Chase & Co., would receive a commission of approximately \$42.50 per \$1,000 principal amount note and would use a portion of that commission to allow selling concessions to other dealers of approximately \$28.75 per \$1,000 principal amount note. The concessions of \$28.75 include concessions to be allowed to selling dealers and concessions to be allowed to an arranging dealer. The actual commission received by JPMSI may be more or less than \$42.50 and will depend on market conditions on the pricing date. In no event will the commission received by JPMSI, which includes concessions to be paid to other dealers, exceed \$60.00 per \$1,000 principal amount note. See "Underwriting" beginning on page PS-30 of the accompanying product supplement no. 79-1.

The notes are not bank deposits and are not insured by the Federal Deposit Insurance Corporation or any other governmental agency, nor are they obligations of, or guaranteed by, a bank.

JPMorgan

ADDITIONAL TERMS SPECIFIC TO THE NOTES

You should read this term sheet together with the prospectus dated December 1, 2005, as supplemented by the prospectus supplement dated October 12, 2006 relating to our Series E medium-term notes of which these notes are a part, and the more detailed information contained in product supplement no. 79-l dated June 1, 2007. **This term sheet, together with the documents listed below, contains the terms of the notes and supersedes all other prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, fact sheets, brochures or other educational materials of ours.** You should carefully consider, among other things, the matters set forth in “Risk Factors” in the accompanying product supplement no. 79-l, as the notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisers before you invest in the notes.

You may access these documents on the SEC website at www.sec.gov as follows (or if such address has changed, by reviewing our filings for the relevant date on the SEC website):

- Product supplement no. 79-l dated June 1, 2007:
http://www.sec.gov/Archives/edgar/data/19617/000089109207002282/e27432_424b2.pdf
- Prospectus supplement dated October 12, 2006:
http://www.sec.gov/Archives/edgar/data/19617/000089109206003117/e25276_424b2.pdf
- Prospectus dated December 1, 2005:
http://www.sec.gov/Archives/edgar/data/19617/000089109205002389/e22923_base.txt

Our Central Index Key, or CIK, on the SEC website is 19617. As used in this term sheet, the “Company,” “we,” “us,” or “our” refers to JPMorgan Chase & Co.

Selected Purchase Considerations

- **THE NOTES OFFER A HIGHER INTEREST RATE THAN THE YIELD ON DEBT SECURITIES OF COMPARABLE MATURITY ISSUED BY US OR AN ISSUER WITH A COMPARABLE CREDIT RATING** — The notes will pay at least 12.0%[†] (equivalent to 24.0%[†] per annum) interest during the term of the notes, which we believe is higher than the yield on debt securities of comparable maturity issued by us or an issuer with a comparable credit rating. Because the notes are our senior unsecured obligations, any interest payment or any payment at maturity is subject to our ability to pay our obligations as they become due.
[†] The actual interest rate will be determined on the pricing date and will not be less than 12.0% (equivalent to 24.0% per annum) during the term of the notes.
- **MONTHLY INTEREST PAYMENTS** — The notes offer monthly interest payments at a rate of at least 12.0%[†] (equivalent to 24.0%[†] per annum) over the term of the notes. Interest will be payable monthly in arrears on the 13th calendar day of each month (each such date, an “Interest Payment Date”), commencing July 13, 2007 up to and including the Interest Payment Date corresponding to the Maturity Date, to the holders of record at the close of business on the date 15 calendar days prior to the applicable Interest Payment Date. If an Interest Payment Date is not a Business Day, payment shall be made on the next Business Day immediately following such day, but no additional interest will accrue as a result of the delayed payment. For example, the monthly interest payment due in October 2007 shall be payable on October 15, 2007.
- **THE NOTES DO NOT GUARANTEE THE RETURN OF YOUR PRINCIPAL** — Your return of principal at maturity is protected so long as a Trigger Event does not occur or if the Final Share Price of each Reference Stock has depreciated, as compared to its respective Initial Share Price. However, if a Trigger Event has occurred, you could lose the entire principal amount of your notes.
- **REFERENCE STOCKS** — The Reference Stocks are the component stocks of the Dow Jones Industrial AverageSM Index, which we refer to as the Index, as of May 31, 2007, excluding the common stock of JPMorgan Chase & Co. The Reference Stocks will not be modified for changes in the composition of the Index during the term of the notes.
- **YOUR RETURN AT MATURITY MAY BE BASED ON A REFERENCE STOCK THAT DID NOT INCREASE IN EXCESS OF ITS UPSIDE PROTECTION AMOUNT DURING THE MONITORING PERIOD** — Your return at maturity may not necessarily be based on a Reference Stock that increases by more than its Upside Protection Amount during the Monitoring Period. For example, if a Trigger Event occurs with respect to a Reference Stock and that Reference Stock experiences a significant closing price decrease on the Observation Date such that its Final Share Price is less than its Initial Share Price, your return on the notes will not be based on the performance of that Reference Stock. Under these circumstances, if on the Observation Date the Final Share Price of one or more of the remaining twenty eight (28) Reference Stocks increases from its respective Initial Share Price, your return on the notes will be based on the Best Performing Reference Stock, which will be different than the Reference Stock that initially increased by more than its Upside Protection Amount. Accordingly, you could lose a portion of your principal amount even if the Best Performing Reference Stock never, at any time during the Monitoring Period, increased by more than its Upside Protection Amount.
- **TAX TREATMENT AS A UNIT COMPRISING A CALL OPTION AND A DEPOSIT** — You should review carefully the section “Certain U.S. Federal Income Tax Consequences” in the accompanying product supplement no. 79-l. Subject to the limitations described therein, and based on certain factual representations received from us, in the opinion of our special tax counsel, Davis Polk & Wardwell, it is reasonable to treat the notes as a unit comprising a Call Option and a Deposit for U.S. federal income tax purposes. We will determine what portion of the periodic payments made to you with respect to the notes will be treated as interest on the Deposit and as premium in consideration of your entry into the Call Option and will provide such allocation in the final term sheet or pricing supplement for the notes. By purchasing the notes, you agree to treat the notes for U.S. federal income tax

purposes consistently with our treatment and determination as described above. If the notes had priced on May 31, 2007 and we had made such determination on that date, of the \$20.00 monthly coupon payable per \$1,000 principal amount note, we would treat approximately \$4.43 as interest on the Deposit and approximately \$15.57 as Call Premium. The actual allocation that we will determine for the notes may differ from this hypothetical allocation, and will depend upon a variety of factors, including actual market conditions and our borrowing costs for debt instruments of comparable maturities on the pricing date. Assuming this characterization is respected, amounts treated as interest on the Deposit will be taxed as ordinary income while receipt of the Call Premium will not be taxable to you prior to maturity or sale. However, there are other reasonable treatments that the Internal Revenue Service or a court may adopt, in which case the timing and character of any income or loss on the notes could be significantly and adversely affected. Purchasers who are not initial purchasers of notes at the issue price should consult their tax advisers with respect to the tax consequences of an investment in the notes, including possible alternative characterizations, as well as the allocation of the purchase price of the notes between the Deposit and the Call Option.

Selected Risk Considerations

An investment in the notes involves significant risks. Investing in the notes is not equivalent to investing directly in one or more of the Reference Stocks. These risks are explained in more detail in the “Risk Factors” section of the accompanying product supplement no. 79-I dated June 1, 2007.

- **YOUR INVESTMENT IN THE NOTES MAY RESULT IN A LOSS** — The notes do not guarantee any return of principal. The payment at maturity will be based on the Final Share Price of the Best Performing Reference Stock and whether the **closing price of any Reference Stock** has increased from its Initial Share Price by more than its Upside Protection Amount on any day during the Monitoring Period. You could lose up to the entire principal amount of your notes.
- **YOUR UPSIDE PROTECTION AMOUNT MAY TERMINATE ON ANY DAY DURING THE TERM OF THE NOTES** — If, on any day during the Monitoring Period, the **closing price of any Reference Stock increases** above its Initial Share Price plus its Upside Protection Amount, you will be fully exposed to any appreciation in the Best Performing Reference Stock. We refer to this feature as a contingent buffer. Under these circumstances, if the Final Share Price of at least one Reference Stock is greater than its Initial Share Price, you will lose 1% of the principal amount of your investment for every 1% increase in the Final Share Price of the Best Performing Reference Stock compared to its Initial Share Price. You will be subject to this potential loss of principal even if the prices of the Reference Stocks subsequently decline such that the Final Share Price of each Reference Stock closes at a level below its Initial Share Price plus its Upside Protection Amount. If these notes had a non-contingent buffer feature, under the same scenario, you would have received the full principal amount of your notes plus accrued and unpaid interest at maturity. As a result, your investment in the notes may not perform as well as an investment in a security with a return that includes a non-contingent buffer.
- **YOUR RETURN ON THE NOTES IS LIMITED TO THE PRINCIPAL AMOUNT PLUS ACCRUED INTEREST REGARDLESS OF ANY CHANGE IN THE VALUE OF ANY REFERENCE STOCK** — Unless (i) the Final Share Price of any Reference Stock is greater than its Initial Share Price and (ii) on any day during the Monitoring Period, the closing price of any Reference Stock has increased, as compared to its Initial Share Price, by more than its Upside Protection Amount, for each \$1,000 principal amount note, you will receive \$1,000 at maturity plus accrued and unpaid interest, regardless of any change in the value of any Reference Stock, which may be significant. Under certain circumstances, appreciation in the value of any of the Reference Stocks may result in a loss of some or all of the principal amount of your notes at maturity.
- **YOU ARE EXPOSED TO THE CLOSING PRICE RISK OF EACH REFERENCE STOCK** — Your return on the notes and your payment at maturity, if any, is not linked to a basket consisting of the Reference Stocks. Rather, you will receive set interest payments at a rate of at least 12.0%[†] (equivalent to 24.0%[†] per annum) and your payment at maturity is contingent upon the performance of each individual Reference Stock such that you will be equally exposed to the risks related to *all* of the Reference Stocks. Strong performance by any one of the Reference Stocks over the term of the notes may negatively affect your payment at maturity and will not be offset or mitigated by the performance by any of the other Reference Stocks. Your payment at maturity should not be expected to match the performance of a direct investment in one or more of the Reference Stocks.
- **YOUR PAYMENT AT MATURITY MAY BE DETERMINED BY THE BEST PERFORMING REFERENCE STOCK** — If a Trigger Event occurs, you will lose some or all of your investment in the notes (excluding interest payments) if the Final Share Price of **any Reference Stock** closes at a level above its Initial Share Price. This will be true even if (i) the Final Share Price of each of the other twenty eight (28) Reference Stocks has depreciated in value compared to its Initial Share Price and/or (ii) the sole Reference Stock with a Final Share Price that increased compared to its Initial Share Price was not the same Reference Stock which increased by more than its Upside Protection Amount during the Monitoring Period.
- **NO OWNERSHIP RIGHTS IN THE REFERENCE STOCKS** — As a holder of the notes, you will not have any ownership interest or rights in the Reference Stocks, such as voting rights, dividend payments or other distributions. In addition, the issuers of the Reference Stocks will not have any obligation to consider your interests as a holder of the notes in taking any corporate action that might affect the value of a Reference Stock and the notes.
- **NO AFFILIATION WITH THE REFERENCE STOCK ISSUERS** — We are not affiliated with the issuers of the Reference Stocks. We assume no responsibility for the adequacy of the information about the Reference Stock issuers contained in this term sheet or in product supplement no. 79-I. You should make your own investigation into the Reference Stocks and their issuers. We are not responsible for the Reference Stock issuers’ public disclosure of information, whether contained in SEC filings or otherwise.

- **CERTAIN BUILT-IN COSTS ARE LIKELY TO ADVERSELY AFFECT THE VALUE OF THE NOTES PRIOR TO MATURITY** — While the payment at maturity described in this term sheet is based on the full principal amount of your notes, the original issue price of the notes includes the agent's commission and the cost of hedging our obligations under the notes through one or more of our affiliates. As a result, the price, if any, at which JPMSI will be willing to purchase notes from you in secondary market transactions, if at all, will likely be lower than the original issue price and any sale prior to maturity could result in a substantial loss to you. The notes are not designed to be short-term trading instruments. Accordingly, you should be able and willing to hold your notes to maturity.
- **LACK OF LIQUIDITY** — The notes will not be listed on any securities exchange. JPMSI intends to offer to purchase the notes in the secondary market but is not required to do so. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the notes easily. Because other dealers are not likely to make a secondary market for the notes, the price at which you may be able to trade your notes is likely to depend on the price, if any, at which JPMSI is willing to buy the notes.
- **POTENTIAL CONFLICTS** — We and our affiliates play a variety of roles in connection with the issuance of the notes, including acting as calculation agent. In performing these duties, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the notes. We and/or our affiliates may also currently or from time to time engage in business with the Reference Stock issuers, including extending loans to, or making equity investments in, the Reference Stock issuers or providing advisory services to the Reference Stock issuers. In the course of this business, we or our affiliates may acquire non-public information about the issuers of the Reference Stocks or the Reference Stocks, and we will not disclose any such information to you. In addition, one or more of our affiliates may publish research reports or otherwise express opinions with respect to one or more of the Reference Stock issuers, and these reports may or may not recommend that investors buy or hold the Reference Stocks. As a prospective purchaser of a note, you should undertake an independent investigation of the Reference Stock issuers that in your judgment is appropriate to make an informed decision with respect to an investment in the notes.
- **HEDGING AND TRADING IN THE REFERENCE STOCKS** — While the notes are outstanding, we or any of our affiliates may carry out hedging activities related to the notes, including in the Reference Stocks or instruments related to one or more of the Reference Stocks. We or our affiliates may also trade in the Reference Stocks or instruments related to one or more of the Reference Stocks from time to time. Any of these hedging or trading activities as of the pricing date and during the term of the notes could adversely affect our payment to you at maturity.
- **MANY ECONOMIC AND MARKET FACTORS WILL INFLUENCE THE VALUE OF THE NOTES** — In addition to the value of the Reference Stocks and interest rates on any trading day, the value of the notes will be affected by a number of economic and market factors that may either offset or magnify each other and which are set out in more detail in product supplement no. 79-l.

Examples of Hypothetical Payment at Maturity for Each \$1,000 Principal Amount Note

The following table illustrates hypothetical payments at maturity on a \$1,000 investment in the notes, based on a range of hypothetical Final Share Prices for the Best Performing Reference Stock and assuming that the closing price of each Reference Stock did not increase, as compared to its respective Initial Share Price, by more than its respective Upside Protection Amount on any day from the Pricing Date to and including the Observation Date, except as indicated in the column titled "Hypothetical highest closing price of the common stock of The Walt Disney Company during the Monitoring Period." **The following table assumes that the Best Performing Reference Stock will be the common stock of The Walt Disney Company and that the common stock of The Walt Disney Company will be the best performing Reference Stock at all times during the term of the notes. We make no representation or warranty as to which of the Reference Stocks will be the Best Performing Reference Stock for the purposes of calculating your actual payment at maturity.**

For this table of hypothetical payments at maturity, we have also assumed the following:

- the Initial Share Price: \$35.00
- the Upside Protection Amount: \$10.50
- the Interest Rate: 12.0%[†] (equivalent to 24.0%[†] per annum)

Hypothetical highest closing price of the common stock of The Walt Disney Company during the Monitoring Period	Hypothetical Final Share Price of the Best Performing Reference Stock (The Walt Disney Company)	Payment at Maturity*
\$35.00	\$17.50	\$1,000.00
\$35.00	\$34.00	\$1,000.00
\$35.00	\$35.00	\$1,000.00
\$40.00	\$40.00	\$1,000.00
\$45.50	\$45.50	\$1,000.00
\$52.50	\$34.00	\$1,000.00
\$52.50	\$36.00	\$971.43
\$52.50	\$52.50	\$500.00
\$65.00	\$65.00	\$142.86
\$70.00	\$70.00	\$0.00

* Note that you will receive at maturity, in addition to the cash payment as indicated herein, any accrued and unpaid interest in cash.

The examples on the following page illustrate how the total value of payments received at maturity set forth in the table above are calculated.

Example 1: During the Monitoring Period, none of the Reference Stocks close at a price which reflects an increase of more than their respective Upside Protection Amounts. Even though the Final Share Price of Disney, the Best Performing Reference Stock, of \$40.00 is above its Initial Share Price of \$35.00, you will receive a payment at maturity of \$1,000 per \$1,000 principal amount note.

Example 2: During the Monitoring Period, Disney was the first Reference Stock to close at a level above its Initial Share Price plus the Upside Protection Amount. On the Observation Date, Disney, still the Best Performing Reference Stock, decreases to a Final Share Price of \$34.00. Because the Final Share Price of the Best Performing Reference Stock is below its Initial Share Price, you will receive \$1,000 per \$1,000 principal amount note at maturity, even though a Trigger Event has occurred.

Example 3: During the Monitoring Period, Disney was the first Reference Stock to close at a level above its Initial Share Price plus the Upside Protection Amount. On the Observation Date, Disney, still the Best Performing Reference Stock, increases to a Final Share Price of \$36.00. Because at least one of the Reference Stocks had a closing price that had increased from its Initial Share Price by more than its Upside Protection Amount during the Monitoring Period, and because the Final Share Price of the Best Performing Reference Stock is more than its Initial Share Price, you will receive at maturity, in addition to any accrued and unpaid interest, \$971.43, calculated as follows:

$$\$1,000 - (\$1,000 \times [\$36.00 - \$35.00 / \$35.00]) = \$971.43$$

Example 4: During the Monitoring Period, Disney was the first Reference Stock to close at a level above its Initial Share Price plus the Upside Protection Amount. On the Observation Date, Disney, still the Best Performing Reference Stock, increases further to a Final Share Price of \$65.00. Because at least one of the Reference Stocks had a closing price that had increased from its Initial Share Price by more than its Upside Protection Amount during the Monitoring Period, and because the Final Share Price of the Best Performing Reference Stock is more than its Initial Share Price, you will receive at maturity, in addition to any accrued and unpaid interest, \$142.86, calculated as follows:

$$\$1,000 - (\$1,000 \times [\$65.00 - \$35.00 / \$35.00]) = \$142.86$$

Regardless of the performance of the Best Performing Reference Stock or the payment you receive at maturity, you will receive interest payments, for each \$1,000 principal amount note, in the aggregate amount of approximately \$120.00 over the term of the notes.

The Reference Stocks

Public Information

All information contained herein on the Reference Stocks and on the Reference Stock issuers is derived from publicly available sources and is provided for informational purposes only. Companies with securities registered under the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act, are required to periodically file certain financial and other information specified by the SEC. Information provided to or filed with the SEC by a Reference Stock issuer pursuant to the Exchange Act can be located by reference to the SEC file number provided below and can be accessed through www.sec.gov. We do not make any representation that these publicly available documents are accurate or complete. See “The Reference Stocks” beginning on page PS-14 of the accompanying product supplement no. 79-1 for more information.

Initial Share Prices and Upside Protection Amounts

The Reference Stocks are the component stocks of the Dow Jones Industrial AverageSM as of May 31, 2007, excluding the common stock of JPMorgan Chase & Co. The table below sets forth the 29 issuers of the Reference Stocks, as well as the ticker symbol for each Reference Stock and the U.S. exchange on which each Reference Stock is listed. The Reference Stocks will not be modified for changes in the composition of the Dow Jones Industrial AverageSM during the term of the notes.

The table below indicates the Initial Share Price and Upside Protection Amount for each Reference Stock, subject to adjustments. The Initial Share Prices and Upside Protection Amounts will be determined on the pricing date.

Ticker Symbol	Issuer	Exchange	Initial Share Price	Upside Protection Amount
AA	Alcoa Inc.	NYSE

Historical Information of the Reference Stocks

The graphs contained in this term sheet set forth the historical performance of each Reference Stock based on the weekly closing price (in U.S. dollars) of that Reference Stock from January 4, 2002 through May 25, 2007. We obtained the closing prices and other market information in this term sheet from Bloomberg Financial Markets, without independent verification. The closing prices and this other information may be adjusted by Bloomberg Financial Markets for corporate actions such as public offerings, mergers and acquisitions, spin-offs, delistings and bankruptcy. We make no representation or warranty as to the accuracy or completeness of the information obtained from Bloomberg Financial Markets.

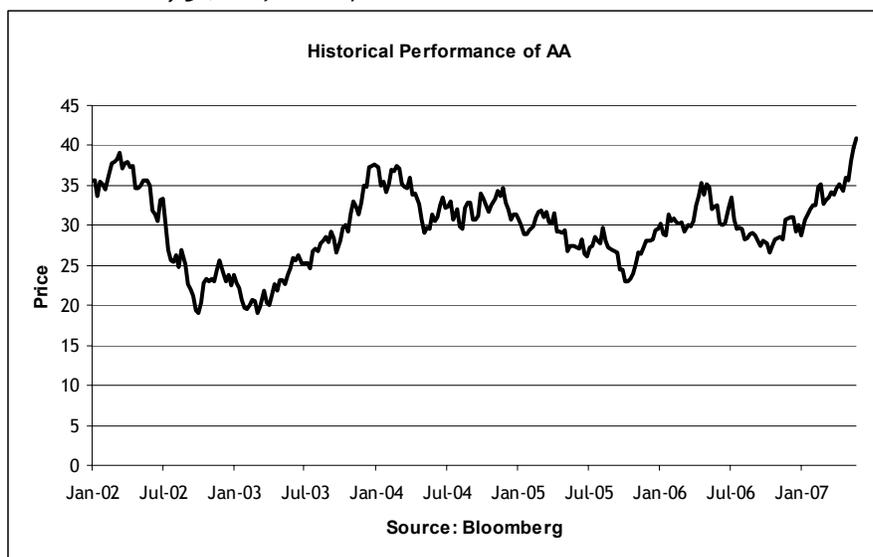

Since its inception, the price of each Reference Stock has experienced significant fluctuations. The historical performance of each Reference Stock should not be taken as an indication of future performance, and no assurance can be given as to the closing prices of each Reference Stock during the term of the notes. We cannot give you assurance that the performance of each Reference Stock will result in the return of any of your initial investment. We make no representation as to the amount of dividends, if any, that each Reference Stock issuer will pay in the future. In any event, as an investor in the notes, you will not be entitled to receive dividends, if any, that may be payable on each Reference Stock.

Alcoa Inc. ("Alcoa")

According to its publicly available filings with the SEC, Alcoa is the world's leading producer of primary aluminum, fabricated aluminum, and alumina, and is active in all major aspects of the industry: technology, mining, refining, smelting, fabricating and recycling.
