A live and archived webcast of the presentation will be available by visiting the Investor Relations section of the company's website at <http://investor.phoenix.com/webcasts.cfm>.

The TechAmerica "AeA Classic" is the premier financial conference for public technology companies. This conference has driven investment in the High-Tech Industry for almost 40 years. The Classic conference brings companies and potential investors and analysts into an unbiased forum and creates company-to-investor communication in private meeting rooms punctuated by networking receptions. <http://www.techamerica.org/classic>

### *About Phoenix Technologies*

Phoenix Technologies Ltd. (Nasdaq: PTEC), the leader in PC 3.0(TM) products, services and embedded technologies, pioneers open standards and delivers innovative solutions that enable the PC industry's top system builders and specifiers to differentiate their systems, reduce time-to-market and increase their revenues. The Company's flagship products and services - SecureCore Tiano, Embedded BIOS, Phoenix Freeze, FailSafe, HyperSpace, and eSupport.com -- are revolutionizing the PC user experience by delivering unprecedented performance, security, reliability, continuity, and ease-of-use. The Company established industry leadership and created the PC clone industry with its original BIOS product in 1983. Phoenix has over 210 technology patents issued and pending, and has shipped firmware in over one billion systems. Phoenix is headquartered in Milpitas, California with offices worldwide.
