QuickLogic to Showcase its ArcticPro eFPGA Solutions at Multiple GLOBALFOUNDRIES Events Worldwide

SUNNYVALE, Calif., Sept. 18, 2017 (GLOBE NEWSWIRE) -- QuickLogic Corporation (NASDAQ:QUIK), a developer of ultra-low power multi-core voice-enabled SoCs, embedded FPGA IP, display bridge and programmable logic solutions, will be demonstrating its [ArcticPro™ eFPGA](#) solutions at the GLOBALFOUNDRIES Technology Conferences in Santa Clara, California, Munich and Shanghai.

QuickLogic's ultra-low power embedded FPGA (eFPGA) architecture and mature software offer SoC designers an easy-to-integrate, highly reliable and extremely low power approach to integrating programmable logic into their devices. The ArcticPro 2 technology is the industry's first and only eFPGA offering for the GLOBALFOUNDRIES' FD-SOI process. With the availability of the ArcticPro 2 eFPGA on 22FDX® FD-SOI, customers can now greatly reduce their time-to-market and R&D costs and begin generating revenue faster when targeting fragmented markets such as IoT, where requirements are rapidly evolving and new features and standards are still emerging.

Dates and Locations

Date: September 20

Venue: Hyatt Regency, Santa Clara, CA

Time: 8:00 am - 5:00 pm

Date: October 13

Venue: Sofitel Bayerpost, Munich, Germany

Time: 7:30 am - 5:00 pm

Date: October 23

Venue: Jumeirah Hotel, Shanghai, China

Time: 8:00 am - 5:00 pm

About QuickLogic

QuickLogic Corporation (NASDAQ:QUIK) enables OEMs to maximize battery life for highly differentiated, immersive user experiences with Smartphone, Wearable and IoT devices. QuickLogic delivers these benefits through industry leading ultra-low power customer programmable SoC semiconductor solutions, embedded software, and algorithms for always-on voice and sensor processing. The company's embedded FPGA initiative also enables SoC designers to easily implement post production changes, and increase revenue by providing hardware programmability to their end customers.
