## Red Hat Summit 2013 Call for Papers Now Open

*Ninth-Annual Red Hat Summit Returns to Boston June 10 — 14, 2013; Speaking Proposals Accepted Through January 4, 2013*

RALEIGH, N.C.--(BUSINESS WIRE)-- Red Hat, Inc. (NYSE: RHT), the world's leading provider of open source solutions, today announced that the call for papers is now open for the ninth-annual Red Hat Summit, to be held June 10-14, 2013 in Boston. With this, Red Hat invites its partners, customers, collaborators and community members to participate in the industry's premier open source event.

Red Hat Summit 2013 will connect technology experts from around the world in a five-day event focused on driving technology innovation and business success. These connections will enable attendees to get the most out of their current deployments, to explore new offerings, models and methodologies and to learn about emerging technology innovations and trends.

The comprehensive agenda will include visionary keynotes along with a range of technical and business sessions, hands-on training and labs, demos, customer and partner panels, networking opportunities and partner showcases.

Red Hat is currently accepting speaking submissions in the following categories:

- Application and data integration
- Application and platform infrastructure
- Application development
- Business and IT strategy alignment
- Cloud readiness
- Community and partner ecosystem
- IT efficiency
- Market perceptions and competition
- The road ahead
- Town hall

The deadline to submit a speaking proposal is Jan. 4, 2013. Selected speakers will be notified in March 2013 and attendee registration will open in Feb. 2013.

### Supporting Quotes

*Paul Cormier, president, Product and Technologies, Red Hat*

"Over the course of our eight Red Hat Summit events to date, we've seen an incredible value in bringing together leaders across the IT industry to collaborate, innovate and drive our industry forward. The event not only offers the opportunity for customers to learn more about Red Hat products and solutions, our partners' offerings and the latest open source projects and technologies, but it also allows our customers to share their stories of success with each other and with our larger ecosystem. We invite you to come join us in Boston for our ninth Red Hat Summit."

## Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: risks related to delays or reductions in information technology spending; the effects of industry consolidation; the ability of the Company to compete effectively; uncertainty and adverse results in litigation and related settlements; the integration of acquisitions and the ability to market successfully acquired technologies and products; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; risks related to data and information security vulnerabilities; ineffective management of, and control over, the Company's growth and international operations; fluctuations in exchange rates; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Quarterly Report on Form 10-Q (copies of which may be accessed through the Securities and Exchange Commission's website at <http://www.sec.gov>), including those found therein under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this press release.
