Red Hat Honors Sean Millichamp as 2012 Worldwide Red Hat Certified Professional of the Year

Millichamp Recognized During 2012 Red Hat Summit and JBoss World

RALEIGH, N.C. & BOSTON--(BUSINESS WIRE)-- **RED HAT SUMMIT AND JBOSS WORLD 2012**-- Red Hat, Inc. (NYSE: RHT), the world's leading provider of open source solutions, today announced that Sean Millichamp, Senior Linux Architect at Secure-24, Inc., has been named the 2012 Worldwide Red Hat Certified Professional of the Year. Red Hat certifications are earned by passing rigorous practical exams during which candidates must perform the real-world tasks required in production environments. The annual Red Hat Certified Professional of the Year awards recognize and honor the hard work, expertise and ingenuity of those holding Red Hat certifications.

Sean Millichamp, RHCE, has been deploying Red Hat-based systems in customer environments for 14 years. He has deployed Red Hat Linux and Red Hat Enterprise Linux in many different configurations for many different companies. Today he is a Senior Linux Architect for Secure-24, Inc., a managed hosting and cloud provider and Red Hat Partner in the Detroit, Michigan area. He is responsible for setting the technical standards and direction for his organization's Red Hat Enterprise Linux environment. He works with his human resources department to help find and hire top Linux talent and facilitates workplace study sessions for employees working toward their Red Hat certifications.

More than 60 entries were received in the 2012 Red Hat Certified Professional of the Year contest, with contestants representing Red Hat's RHCSA, RHCE, RHCTS, RHCA and JBCAA certification credentials. Millichamp was selected as the 2012 Worldwide Red Hat Certified Professional of the Year by a panel of experts in the field of business and open source technology, and was honored at the Innovation Hour during the Red Hat Summit and JBoss World in Boston on June 28.

In addition to Millichamp, Red Hat also recognized the following individuals as Regional Red Hat Certified Professionals of the Year:

- **Suraj Kumar (RHCE) — Asia Pacific**
- **Bruno Lima (RHCA) — Europe-Middle East-Africa**
- **Juan David Perez Orozco (RHCTS) — Latin America**
- **David Kramer (RHCA) — North America**

Supporting Quotes

Randy Russell, director of certification, Red Hat

"We are excited to honor Sean for his many years of dedication and contribution to Red Hat solutions and the open source way. Sean is an excellent example of the value that Red Hat certifications can provide to individuals in enterprise IT. Congratulations to Sean on his achievements."

Sean Millichamp, senior Linux architect, Secure-24, Inc. (Winner)

"It was a great honor to be selected as this year's Red Hat Certified Professional of the Year, especially after my many years of experience working with Red Hat technologies and seeing first-hand the value they deliver to organizations. The exams and training provided by Red Hat have allowed me to more effectively deploy my Red Hat-based systems in a variety of environments and are truly an invaluable resource."

Forward-Looking Statements

Certain statements contained in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to any historical or current fact. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors, including: risks related to delays or reductions in information technology spending; the effects of industry consolidation; the ability of the Company to compete effectively; uncertainty and adverse results in litigation and related settlements; the integration of acquisitions and the ability to market successfully acquired technologies and products; the inability to adequately protect Company intellectual property and the potential for infringement or breach of license claims of or relating to third party intellectual property; the ability to deliver and stimulate demand for new products and technological innovations on a timely basis; risks related to data and information security vulnerabilities; ineffective management of, and control over, the Company's growth and international operations; fluctuations in exchange rates; and changes in and a dependence on key personnel, as well as other factors contained in our most recent Annual Report on Form 10-K (copies of which may be accessed through the Securities and Exchange Commission's website at <http://www.sec.gov>), including those found therein under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations". In addition to these factors, actual future performance, outcomes, and results may differ materially because of more general factors including (without limitation) general industry and market conditions and growth rates, economic and political conditions, governmental and public policy changes and the impact of natural disasters such as earthquakes and floods. The forward-looking statements included in this press release represent the Company's views as of the date of this press release and these views could change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's views as of any date subsequent to the date of this press release.
