**R.R. DONNELLEY & SONS COMPANY AND SUBSIDIARIES (“RR DONNELLEY”)  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)  
(Tabular amounts in millions, except per share data and unless otherwise indicated)**

**1. BASIS OF PRESENTATION**

The accompanying unaudited condensed consolidated interim financial statements include the accounts of R.R. Donnelley & Sons Company and its subsidiaries (the “Company” or “RR Donnelley”) and have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in accordance with the rules and regulations of the United States Securities and Exchange Commission (the “SEC”). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. These unaudited condensed consolidated interim financial statements reflect all normal and recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the interim periods. These unaudited condensed consolidated interim financial statements should be read in conjunction with the consolidated financial statements and the related notes thereto included in the Company’s latest Annual Report on Form 10-K for the year ended December 31, 2008 filed with the SEC on February 25, 2009. Operating results for the three and nine months ended September 30, 2009 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2009. All significant intercompany transactions have been eliminated in consolidation. These unaudited condensed consolidated interim financial statements include estimates and assumptions of management that affect the amounts reported in the condensed consolidated financial statements. Actual results could differ from these estimates.

The Company evaluated and disclosed material subsequent events in the accompanying condensed consolidated interim financial statements and footnotes through November 4, 2009, the date of issuance of its Form 10-Q for the quarter ended September 30, 2009.

**2. ACQUISITIONS**

***2009 Acquisition***

On June 18, 2009, the Company acquired Prospectus Central, LLC (“Prospectus”), an e-delivery company located in Fitzgerald, Georgia. The purchase price for Prospectus was \$3.0 million. Prospectus’s operations are included in the U.S. Print and Related Services segment.

On January 2, 2009, the Company acquired the assets of PROSA, a web printing company located in Santiago, Chile. The purchase price for PROSA was approximately \$23.6 million. PROSA’s operations are included in the International segment.

The operations of these acquired businesses are complementary to the Company’s existing products and services. As a result, the addition of these businesses is expected to improve the Company’s ability to serve customers, increase capacity utilization, and reduce management, procurement and manufacturing costs.

## Table of Contents

**R.R. DONNELLEY & SONS COMPANY AND SUBSIDIARIES (“RR DONNELLEY”)**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)—(Continued)**  
**(Tabular amounts in millions, except per share data and unless otherwise indicated)**

The PROSA and Prospectus acquisitions were recorded by allocating the cost of the acquisitions to the assets acquired, including intangible assets, based on their estimated fair values at the acquisition date. The excess of the cost of the acquisitions over the net amounts assigned to the fair value of the assets acquired was recorded as goodwill, none of which is tax deductible. Based on the valuations, the final purchase price allocation for these 2009 acquisitions is as follows:

Accounts receivable	\$ 2.4
Property, plant and equipment	9.2
Amortizable intangible assets	11.6
Goodwill	6.5
Accounts payable and accrued liabilities	(2.5)
Deferred taxes—net	(0.6)
Net cash paid	<u>\$26.6</u>

The fair values of property, plant and equipment, goodwill and intangible assets associated with the acquisitions of PROSA and Prospectus were determined to be Level 3 under the fair value hierarchy. Property, plant and equipment values were estimated based on discussions with machinery and equipment brokers, dealer quotes, and internal expertise related to the equipment and current marketplace conditions. Intangible asset values, including customer relationships and a non-compete agreement, were estimated based on future cash flows and customer attrition rates discounted using an estimated weighted-average cost of capital.

### **2008 Acquisitions**

On March 14, 2008, the Company acquired Pro Line Printing, Inc. (“Pro Line”), a multi-facility, privately held producer of newspaper inserts headquartered in Irving, Texas. The purchase price for Pro Line was approximately \$122.2 million, net of cash acquired of \$1.7 million and including acquisition costs of \$4.3 million. Pro Line’s operations are included in the U.S. Print and Related Services segment.

The operations of Pro Line are complementary to the Company’s existing retail insert product line. As a result, this acquisition is expected to improve the Company’s ability to serve customers, increase capacity utilization, and reduce management, procurement and manufacturing costs.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)—(Continued)**  
**(Tabular amounts in millions, except per share data and unless otherwise indicated)**

The Pro Line and another immaterial printing-company acquisition were recorded by allocating the cost of the acquisitions to the assets acquired, including intangible assets and liabilities assumed, based on their estimated fair values at the acquisition date. The excess of the cost of the acquisition over the net amounts assigned to the fair value of the assets acquired and the liabilities assumed was recorded as goodwill, none of which is tax deductible. Based on these valuations, the final purchase price allocation is as follows:

Accounts receivable	\$ 17.4
Inventories	7.0
Other current assets	0.7
Property, plant and equipment and other long-term assets	101.8
Amortizable intangible assets	15.5
Goodwill	33.0

Less: debt assumed and not repaid	5.9
Net cash paid	<u>\$132.6</u>

### *Pro forma results*

The unaudited pro forma financial information for the three and nine months ended September 30, 2008 presents the combined results of operations of the Company, PROSA, Prospectus, Pro Line and another immaterial acquisition as if each acquisition had occurred at January 1, 2008. For the three and nine months ended September 30, 2009, there was no material impact from pro forma adjustments on net sales or net earnings attributable to RR Donnelley common shareholders.

The unaudited pro forma financial information is not intended to represent or be indicative of the Company’s consolidated results of operations or financial condition that would have been reported had these acquisitions been completed as of the beginning of the period presented and should not be taken as indicative of the Company’s future consolidated results of operations or financial condition. Pro forma adjustments are tax-effected at the applicable statutory tax rates.

For the three and nine months ended September 30, 2009, the Company recorded net restructuring and impairment charges, discounted for future cash payments, of \$117.3 million for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, of which \$116.4 million, \$0.8 million and \$0.1 million are reflected in other charges, impairment and employee terminations, respectively. In addition, for the three and nine months ended September 30, 2009, the Company recorded net restructuring charges of \$7.5 million and \$71.3 million, respectively, for employee termination costs for 3,635 employees, of whom 3,438 were terminated as of September 30, 2009, associated with actions resulting from the reorganization of certain operations. These actions included the closings of two magazine, catalog and retail insert manufacturing facilities, two book manufacturing facilities and one digital solutions facility within the U.S. Print and Related Services segment, as well as the closing of one Global Turnkey Solutions manufacturing facility, one business process outsourcing facility, one Latin America manufacturing facility and one European manufacturing facility within the International segment. Additionally, the Company incurred other restructuring charges of \$5.7 million and \$23.4 million for the three and nine months ended September 30, 2009, respectively, including lease termination and other facility closure costs. For the three and nine months ended September 30, 2009, the Company also recorded \$1.2 million and \$22.1 million, respectively, of impairment charges primarily for machinery and equipment associated with the facility closings. The fair values of the machinery and equipment were determined to be Level 3 under the fair value hierarchy and were estimated based on discussions with machinery and equipment brokers, dealer quotes, internal expertise related to the equipment and current marketplace conditions.

**(Tabular amounts in millions, except per share data and unless otherwise indicated)**

For the three and nine months ended September 30, 2008, the Company recorded net restructuring charges of \$21.6 million and \$36.6 million, respectively, for employee termination costs for 1,338 employees, all of whom were terminated as of September 30, 2009, associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions included the realignment and consolidation of the Canadian organization, management reorganization within Latin America, the closing of two Global Turnkey Solutions manufacturing facilities within the International segment and the realignment and consolidation of financial print organizations in the U.S. Print and Related Services and International segments. Additionally, the Company incurred other restructuring charges, including lease termination and other facility closure costs of \$1.3 million and \$7.3 million, respectively, for the three and nine months ended September 30, 2008. For the three and nine months ended September 30, 2008, the Company recorded \$0.5 million and \$2.6 million, respectively, of impairment charges for other long-lived assets.

***Restructuring Reserve***

Activity impacting the Company’s restructuring reserve for the nine months ended September 30, 2009 is as follows:

	Restructuring Costs				September 30, 2009
	December 31, 2008	Charged to Results of Operations	Foreign Exchange and Other	Cash Paid	
Employee terminations	\$ 23.5	\$ 71.4	\$ —	\$ 63.9	\$ 31.0
Other	11.1	139.8	3.6	36.6	117.9
<b>Total</b>	<b>\$ 34.6</b>	<b>\$ 211.2</b>	<b>\$ 3.6</b>	<b>\$100.5</b>	<b>\$ 148.9</b>

\$100.3 million of the restructuring reserve is current and included in accrued liabilities at September 30, 2009, while the long-term portion of \$48.6 million, primarily related to the termination of the significant long-term customer contract referred to above and lease termination costs, is included in other noncurrent liabilities at September 30, 2009.

The Company anticipates that payments associated with employee terminations will be substantially completed by September of 2010.

The restructuring liabilities classified as “other” consist of the estimated remaining payments related to the termination of the significant long-term customer contract referred to above, lease termination costs and other facility closing costs. The Company expects to pay approximately \$59 million and \$43 million, both subject to changes in foreign exchange rates, in January 2010 and 2011, respectively, related to the termination of the significant long-term customer contract. Payments on certain lease obligations are scheduled to continue until 2017. Market conditions and the Company’s ability to sublease these properties could affect the ultimate charge related to these lease obligations. Any potential recoveries or additional charges could affect amounts reported in the consolidated financial statements of future periods.

### 8. SHARE-BASED COMPENSATION

The Company recognizes compensation expense, based on estimated fair values, for all share-based awards made to employees and directors, including stock options, restricted stock units and performance share units. The total compensation expense related to all share-based compensation plans was \$5.5 million and \$19.3 million for the three and nine months ended September 30, 2009, respectively. The total compensation expense related to all share-based compensation plans was \$6.4 million and \$20.2 million for the three and nine months ended September 30, 2008, respectively.

#### *Stock Options*

The Company granted 1,520,468 and 754,000 stock options during the nine months ended September 30, 2009 and 2008, respectively. The fair value of each stock option award is estimated on the date of grant using the Black-Scholes-Merton Formula. The fair value of these stock options was determined using the following assumptions:

	<u>Nine Months Ended</u> <u>September 30, 2009</u>	<u>Nine Months Ended</u> <u>September 30, 2008</u>
	Expected volatility	29.67%
Risk-free interest rate	2.27%	2.96%
Expected life (years)	6.25	6.25
Expected dividend yield	3.63%	3.31%

The weighted average grant date fair value of these options was \$1.47 and \$5.63 per stock option for the grants in the first nine months of 2009 and 2008, respectively.

Outstanding at September 30, 2009	<u>4,721</u>	21.60	6.4	\$ 24.3
Exercisable at September 30, 2009	905	\$ 18.24	2.2	\$ 2.7

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company’s closing stock price on September 30, 2009 and December 31, 2008, respectively, and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all option holders exercised their options on September 30, 2009 and December 31, 2008. This amount will change in future periods based on the fair market value of the Company’s stock and the number of options outstanding. Total intrinsic value of options exercised for the three and nine months ended September 30, 2009 was less than \$0.1 million in each period. Total intrinsic value of options exercised for the three and nine months ended September 30, 2008 was \$0.2 million and \$1.0 million, respectively.

Compensation expense recognized related to stock options for the three and nine months ended September 30, 2009 was \$0.6 million and \$1.8 million, respectively. Compensation expense recognized related to stock options for the three and nine months ended September 30, 2008 was \$0.7 million and \$1.8 million, respectively. As of September 30, 2009, \$5.8 million of total unrecognized share-based compensation expense related to stock options is expected to be recognized over a weighted average period of 2.5 years.

### Restricted Stock Units

Nonvested restricted stock unit awards as of September 30, 2009 and December 31, 2008 and changes during the nine months ended September 30, 2009 were as follows:

	Shares (thousands)	Weighted Average Grant Date Fair Value
Nonvested at December 31, 2008	1,797	\$ 30.47
Granted	4,200	5.83
Vested	(385)	32.36
Forfeited	(83)	24.16
Nonvested at September 30, 2009	<u>5,529</u>	\$ 11.11

Compensation expense recognized related to restricted stock units for the three and nine months ended September 30, 2009 was \$4.9 million and \$17.5 million, respectively. Compensation expense recognized related to restricted stock units for the three and nine months ended September 30, 2008 was \$5.1 million and \$16.5 million, respectively. As of September 30, 2009, there was \$30.7 million of unrecognized share-based compensation expense related to nonvested restricted stock unit awards that are expected to vest over a weighted-average period of 2.4 years.

**13. COMMITMENTS AND CONTINGENCIES**

The Company is subject to laws and regulations relating to the protection of the environment. The Company provides for expenses associated with environmental remediation obligations when such amounts are probable and can be reasonably estimated. Such accruals are adjusted as new information develops or circumstances change and are not discounted. The Company has been designated as a potentially responsible party in twelve federal and state Superfund sites. In addition to the Superfund sites, the Company may also have the obligation to remediate five other previously owned facilities and three other currently owned facilities. At the Superfund sites, the Comprehensive Environmental Response, Compensation and Liability Act provides that the Company’s liability could be joint and several, meaning that the Company could be required to pay an amount in excess of its proportionate share of the remediation costs. The Company’s understanding of the financial strength of other potentially responsible parties at the Superfund sites and of other liable parties at the previously owned facilities has been considered, where appropriate, in the determination of the Company’s estimated liability. The Company established reserves, recorded in accrued liabilities and other noncurrent liabilities, that it believes are adequate to cover its share of the potential costs of remediation at each of the Superfund sites and the previously and currently owned facilities. While it is not possible to quantify with certainty the potential impact of actions regarding environmental matters, particularly remediation and other compliance efforts that the Company may undertake in the future, in the opinion of management, compliance with the present environmental protection laws, before taking into account estimated recoveries from third parties, will not have a material adverse effect on the Company’s consolidated annual results of operations, financial position or cash flows.

From time to time, the Company’s customers and others file voluntary petitions for reorganization under United States bankruptcy laws. In such cases, certain pre-petition payments received by the Company could be considered preference items and subject to return to the bankruptcy administrator. In addition, the Company may be party to certain litigation arising in the ordinary course of business. Management believes that the final resolution of these preference items and litigation will not have a material adverse effect on the Company’s consolidated annual results of operations, financial position or cash flows.

### 14. DEBT

The Company’s debt consists of the following:

	September 30,	December 31,
	2009	2008
Commercial paper	\$ —	\$ 289.8
Credit facility borrowings	90.0	200.0
3.75% senior notes due April 1, 2009	—	400.0
4.95% senior notes due May 15, 2010	325.6	499.6
5.625% senior notes due January 15, 2012	158.5	624.5
4.95% senior notes due April 1, 2014	598.9	598.8
5.50% senior notes due May 15, 2015	499.5	499.5
8.60% senior notes due August 15, 2016	345.2	—
6.125% senior notes due January 15, 2017	621.4	621.0
11.25% debentures due February 1, 2019	400.0	—
8.875% debentures due April 15, 2021	80.9	80.9
6.625% debentures due April 15, 2029	199.3	199.2
8.820% debentures due April 15, 2031	68.9	68.9
Other, including capital leases	26.1	44.6
Total debt	3,414.3	4,126.8
Less: current portion	(431.9)	(923.5)
Long-term debt	<u>\$ 2,982.4</u>	<u>\$ 3,203.3</u>

The fair value of debt was determined to be Level 2 under the fair value hierarchy and based upon the interest rates available to the Company for borrowings with similar terms and maturities, the fair value of the Company’s debt was greater than its book value by \$22.3 million at September 30, 2009 and lower by \$556.2 million at December 31, 2008.

On January 14, 2009, the Company issued \$400.0 million of 11.25% senior notes due February 1, 2019. The net proceeds from the offering were used to pay down short-term debt.

On August 26, 2009, the Company issued \$350.0 million of 8.60% senior notes due August 15, 2016. The net proceeds from the offering, along with borrowings under the credit facility and cash on hand, were used to repurchase \$466.4 million of the 5.625% senior notes due January 15, 2012 and \$174.2 million of the 4.95% senior notes due May 15, 2010. These repurchases resulted in a pre-tax loss on debt extinguishment of \$10.3 million, which is reflected in investment and other expense on the condensed consolidated statements of operations for the three and nine months ended September 30, 2009.

### 15. DERIVATIVES

All derivatives are recorded as other assets or other liabilities on the condensed consolidated balance sheets at their respective fair values with unrealized gains and losses recorded in other comprehensive income (loss), net of applicable income taxes, or in the condensed consolidated statements of operations, depending on the purpose for which the derivative is held. Changes in the fair value of derivatives that do not meet the criteria for designation as a hedge at inception, or fail to meet the criteria thereafter, are recognized currently in the condensed consolidated statements of operations. At the inception of a hedge transaction, the Company formally documents the hedge relationship and the risk management objective for undertaking the hedge. In addition, the Company assesses both at inception of the hedge and on an ongoing basis, whether the derivative in the hedging transaction has been highly effective in offsetting changes in fair value or cash flows of the hedged item and

whether the derivative is expected to continue to be highly effective. The impact of any ineffectiveness is recognized currently in the condensed consolidated statements of operations.

The Company is exposed to the impact of foreign currency fluctuations in certain countries in which it operates. The exposure to foreign currency movements is limited in most countries, because the operating revenues and expenses of its various subsidiaries and business units are substantially in the local currency of the country in which they operate. To the extent borrowings, sales, purchases, revenues, expenses or other transactions are not in the local currency of the operating unit, the Company is exposed to currency risk. Periodically, the Company uses foreign exchange forward contracts and cross-currency swaps to hedge exposures resulting from foreign exchange fluctuations. Accordingly, the implied gains and losses associated with the fair values of foreign currency exchange contracts and cross-currency interest rate swaps are generally offset by gains and losses on underlying payables, receivables, and net investments in foreign subsidiaries. The Company does not use derivative financial instruments for trading or speculative purposes.

The Company has entered into foreign exchange forward contracts in order to manage the currency exposure of certain receivables and liabilities. The foreign exchange forward contracts were not designated as hedges, and accordingly, the fair value gains or losses from these foreign currency derivatives are recognized currently in the condensed consolidated statements of operations, generally offsetting the foreign exchange gains or losses on the exposures being managed. The aggregate notional value of the forward contracts at September 30, 2009 and December 31, 2008 was \$322.0 million and \$299.4 million, respectively. The fair values of foreign exchange forward contracts were determined to be Level 2 under the fair value hierarchy and are valued using market exchange rates.

At September 30, 2009 and December 31, 2008, the total fair value of the Company’s forward contracts and the accounts in the condensed consolidated balance sheets in which the fair value amounts are included are shown below:

	September 30, 2009	December 31, 2008
<b>Derivatives not designated as hedges</b>		
Prepaid expenses and other current assets	\$ 0.8	\$ 9.7

### Terminated Derivatives

In October 2008, the Company terminated its outstanding cross-currency swaps, which were used to hedge against fluctuations in currency rates of the British pound sterling and Euro.

In May 2005, the Company terminated its interest rate lock agreements which were used to hedge against fluctuations in interest rates. This termination resulted in a loss of \$12.9 million recorded in accumulated other comprehensive income, which is being recognized in interest expense over the term of the hedged forecasted interest payments. During the third quarter of 2009, the Company repurchased \$174.2 million of the 4.95% senior notes due May 15, 2010 which were hedged as part of the interest rate lock agreements. A pre-tax loss of \$2.7 million was reclassified from accumulated other comprehensive income to investment and other expense in the condensed consolidated statement of operations as a result of the change in expected forecasted interest payments for the senior notes due May 15, 2010. The Company expects to recognize a total of \$1.1 million of pre-tax loss as interest expense in 2009, of which \$0.9 million has been expensed during the nine months ended September 30, 2009. At September 30, 2009, a balance of \$2.7 million remains in accumulated other comprehensive income.

### 16. NEW ACCOUNTING PRONOUNCEMENTS

In June 2009, the Financial Accounting Standards Board (“FASB”) issued The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles (GAAP) (“Codification”). The Codification is the single official source of authoritative U.S. accounting and reporting standards applicable for all nongovernmental entities, with the exception of guidance issued by the SEC. The Codification did not change GAAP, but organized it into an online research system sorted by individual accounting Topics, which are further divided into Subtopics. The FASB now issues new standards in the form of Accounting Standards Updates. The Codification is effective for financial statements issued for periods ending after September 15, 2009. The adoption of the Codification did not have a material impact on the Company’s consolidated financial position, annual results of operations or cash flows.

In September 2006, the FASB issued Accounting Standards Codification 820 “Fair Value Measurements and Disclosures” (“ASC 820”), which was adopted in the first quarter of 2008 for financial assets and the first quarter of 2009 for non-financial assets. This Topic clarified the definition of fair value, established a framework for measuring fair value and expanded the disclosures on fair value measurements. The adoption of ASC 820 did not have a material impact on the Company’s consolidated financial position, annual results of operations or cash flows.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)—(Continued)  
(Tabular amounts in millions, except per share data and unless otherwise indicated)**

In December 2007, the FASB issued Accounting Standards Codification 805 “Business Combinations” (“ASC 805”), which the Company adopted January 1, 2009. ASC 805 retained the requirement that the acquisition method of accounting (formerly known as the purchase method) be used for all business combinations and changed the accounting treatment for certain acquisition related costs, restructuring activities, and acquired contingencies, among other changes. It continued to require the identification and recognition of intangible assets separate from goodwill and was required to be adopted for acquisitions consummated after December 31, 2008, with certain provisions applied to earlier acquisitions. The impact of adopting ASC 805 did not have a material impact on the Company’s consolidated financial position, annual results of operations or cash flows. The Company expects that its adoption will reduce the Company’s operating earnings due to required recognition of acquisition and restructuring costs through operating earnings. The magnitude of this impact will be dependent on the number, size and nature of acquisitions in periods subsequent to adoption.

In December 2007, the FASB issued Accounting Standards Codification 810-10-65-1 (“ASC 810-10-65-1”) within the Consolidation Topic, which amended the accounting for and disclosure of the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This guidance clarified the definition and classification of a noncontrolling interest, revised the presentation of noncontrolling interests in the consolidated income statement, established a single method of accounting for changes in a parent’s ownership interest in a subsidiary that does not result in deconsolidation, and required that a parent recognize a gain or loss in net earnings (loss) when a subsidiary is deconsolidated. It also required expanded disclosures in the consolidated financial statements that clearly identify and distinguish between the interests of the parent’s owners and the interests of the noncontrolling owners of a subsidiary. ASC 810-10-65-1 was adopted by the Company as of January 1, 2009 and did not have a material impact on the Company’s consolidated financial position, annual results of operations or cash flows. The required changes in presentation have been reflected in the condensed consolidated balance sheets, statements of operations and statements of cash flows and in the notes to the condensed consolidated financial statements, where applicable.

In March 2008, the FASB issued Accounting Standards Codification 815-10-65-1 (“ASC 815-10-65-1”), which amended the disclosure requirements for derivative instruments and hedging activities. Entities are now required to provide enhanced disclosures about how and why an entity uses derivative instruments, how those instruments are accounted for, and how derivative instruments affect the entity’s statements of financial position, operations or cash flows. ASC 815-10-65-1 was adopted by the Company during the first quarter of 2009 and, as reflected in Note 15 to the condensed consolidated financial statements, did not have a material impact on the Company’s consolidated financial position, annual results of operations or cash flows.

In April 2009, the FASB issued new guidance within the Business Combinations Subtopic, Accounting Standards Codification 805-20 (“ASC 805-20”), which the Company adopted as of January 1, 2009. This new guidance amended the Business Combinations Subtopic to require that assets acquired and liabilities assumed in a business combination that arise from contingencies be recognized at fair value, if fair value can be determined during the measurement period. If the fair value cannot be determined, the contingency is recognized at the acquisition date in accordance with Accounting Standards Codification 450 “Contingencies,” if it meets the criteria for recognition in that guidance. The adoption of the new guidance within ASC 805-20 did not have a material impact on the Company’s consolidated financial position, annual results of operations or cash flows.

In April 2009, the FASB issued new guidance within the Fair Value Measurements and Disclosures Subtopic, Accounting Standards Codification 820-10 (“ASC 820-10”), which the Company adopted during the second quarter of 2009. This new guidance amended the Fair Value Measurements and Disclosures Subtopic to require disclosures about fair value of financial instruments for interim reporting periods, as well as in annual

financial statements. The adoption of these new disclosure requirements, as reflected in Note 14 to the condensed consolidated financial statements, did not have a material impact on the Company’s consolidated financial position, annual results of operations or cash flows.

In May 2009, the FASB issued Accounting Standards Codification 855 “Subsequent Events” (“ASC 855”), which established the principles for subsequent events and was adopted by the Company during the second quarter of 2009. The adoption of ASC 855, as reflected in Note 1 to the condensed consolidated financial statements, did not have a material impact on the Company’s consolidated financial position, annual results of operations or cash flows.

In August 2009, the FASB issued Accounting Standards Update No. 2009-05 “Measuring Liabilities at Fair Value” (“ASU 2009-05”), which amends the Fair Value Measurements and Disclosures Topic by providing additional guidance clarifying the measurement of liabilities at fair value. ASU 2009-05 will be effective for the Company in the fourth quarter of 2009. The adoption of ASU 2009-05 is not expected to have a material impact on the Company’s consolidated financial position, annual results of operations or cash flows.

### Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### COMPANY OVERVIEW

R.R. Donnelley & Sons Company ("RR Donnelley," the "Company," "we," "us," and "our") is a global provider of integrated communications. Founded more than 145 years ago, the Company works collaboratively with more than 60,000 customers worldwide to develop custom communications solutions that reduce costs, enhance return on investment and ensure compliance. Drawing on a range of proprietary and commercially available digital conventional technologies deployed across four continents, the Company employs a suite of leading Internet-based capabilities and other resources to provide premedia, printing, logistics and business process outsourcing services to leading clients in virtually every private and public sector.

#### BUSINESS ACQUISITIONS

On June 18, 2009, the Company acquired Prospectus Central, LLC ("Prospectus"), an e-delivery company located in Fitzgerald, Georgia. Prospectus's operations are included in the U.S. Print and Related Services segment.

On January 2, 2009, the Company acquired the assets of PROSA, a web printing company located in Santiago, Chile. PROSA's operations, which produce magazines, catalogs, retail inserts and soft-cover textbooks, are included in the International segment.

On March 14, 2008, the Company acquired Pro Line Printing, Inc. ("Pro Line"), a multi-facility, privately held producer of newspaper inserts headquartered in Irving, Texas. Pro Line's operations are included in the U.S. Print and Related Services segment.

#### SEGMENT DESCRIPTION

The Company operates primarily in the commercial print portion of the printing industry, with related products and service offerings designed to offer customers complete solutions for communicating their messages to target audiences. The Company's segments and their products and service offerings are summarized below:

##### *U.S. Print and Related Services*

The U.S. Print and Related Services segment includes the Company's U.S. printing operations, managed as one integrated platform, along with related logistics, premedia and print-management services. This segment's products and related service offerings include magazines, catalogs, retail inserts, books, directories, financial print, direct mail, forms, labels, office products, premedia and logistics services.

##### *International*

The International segment includes the Company's non-U.S. printing operations in Asia, Europe, Latin America and Canada. Additionally, this segment includes the Company's business process outsourcing and Global Turnkey Solutions operations. Business process outsourcing provides transactional print and outsourcing services, statement printing, direct mail and print management services through its operations in Europe, Asia and North America. Global Turnkey Solutions provides outsourcing capabilities, including product configuration, customized kitting and order fulfillment for technology, medical device and other companies around the world through its operations in Europe, North America and Asia.

##### *Corporate*

Corporate consists of unallocated general and administrative activities and associated expenses including, in part, executive, legal, finance, information technology, human resources, certain facility costs and LIFO inventory provisions. In addition, certain costs and earnings of employee benefit plans, primarily components of net pension and postretirement benefits expense other than service cost, are included in Corporate and not allocated to operating segments.

### EXECUTIVE SUMMARY

#### Financial Performance: Three Months Ended September 30, 2009

The changes in the Company's income from continuing operations, operating margin, net earnings attributable to RR Donnelley common shareholders and net earnings attributable to RR Donnelley common shareholders per diluted share for the three months ended September 30, 2009, from the three months ended September 30, 2008, were due primarily to the following (in millions, except per share data):

	Income from	Operating	Net Earnings Attributable to	Net Earnings Attributable to
	Continuing Operations	Margin	RR Donnelley Common Shareholders	RR Donnelley Common Shareholders Per Diluted Share
For the three months ended September 30, 2008	\$ 306.4	10.7%	\$ 168.2	\$ 0.80
2009 restructuring and impairment charges	(131.7)	(5.3%)	(90.8)	(0.44)
2008 restructuring and impairment charges	23.4	0.8%	15.0	0.07
2009 acquisition-related expenses	(0.1)	0.0%	—	—
2009 losses related to debt extinguishment	—	—	(8.0)	(0.04)
Operations	(104.6)	(2.4%)	(71.3)	(0.33)
For the three months ended September 30, 2009	<u>\$ 93.4</u>	<u>3.8%</u>	<u>\$ 13.1</u>	<u>\$ 0.06</u>

*2009 restructuring and impairment charges:* included charges, discounted for future cash payments, of \$117.3 million for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, of which \$116.4 million, \$0.8 million and \$0.1 million are reflected as other restructuring charges, impairment and employee terminations, respectively; \$7.5 million for other employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$5.7 million of other restructuring costs, primarily lease termination costs; and \$1.2 million for impairment of long-lived assets.

*2008 restructuring and impairment charges:* included \$21.6 million for employee termination costs, substantially all of which were associated with restructuring actions resulting from the reorganization of certain operations and the exiting of certain business activities; \$1.3 million of other restructuring costs, primarily lease termination costs; and \$0.5 million for impairment of long-lived assets.

*2009 acquisition-related expenses:* legal, accounting and other expenses associated with current year acquisitions completed or contemplated.

*2009 losses related to debt extinguishment:* included a \$10.3 million pre-tax loss on the repurchases of \$466.4 million of the 5.625% senior notes due January 15, 2012 and \$174.2 million of the 4.95% senior notes due May 15, 2010, as well as the reclassification of a pre-tax loss of \$2.7 million from accumulated other comprehensive income to investment and other expense due to the change in the hedged forecasted interest payments resulting from the repurchase of the 4.95% senior notes.

*Operations:* reflected lower net sales primarily driven by the global economic slowdown, higher incentive compensation expense and lower pricing on by-products sales, partially offset by cost savings from restructuring actions and productivity efforts, a benefit resulting from lower LIFO inventory provisions, transition fees of \$12.2 million received from another business process outsourcing contract termination and the impact of 2008 share repurchases. ## Table of Contents

### *Overview*

The impact of the recession on the global economy and on our customers resulted in significant declines in volume across nearly all products and services in the first nine months of 2009, particularly in the magazines, catalogs and retail inserts and books and directories reporting units. On a consolidated pro forma basis, net sales declined approximately 14.2% and 17.6% for the three and nine months ended September 30, 2009, respectively (See Note 2 to the Condensed Consolidated Financial Statements). Changes in foreign exchange rates resulted in declines of net sales of \$50.6 million, or 1.8%, for the three months ended September 30, 2009 and \$241.0 million, or 2.7%, for the nine months ended September 30, 2009. The year over year rate of decline in net sales slowed during the latter part of the third quarter, which showed sequential improvement as compared to the second quarter, and the Company expects that trend to continue in the fourth quarter. Further, the Company has continued to have success in renewing and extending customer contracts, expanding the scope of services with existing customers and winning new business.

In addition, the Company has aggressively implemented restructuring actions and other cost containment initiatives, which have helped to partially mitigate the effects of the volume shortfalls. During the third quarter of 2009, the Company signed an agreement to terminate a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, which allowed the Company to withdraw from certain unprofitable operations in this area. As a result, the Company recorded net restructuring and impairment charges, discounted for future cash payments, of \$117.3 million in the third quarter of 2009. Payments related to these changes are expected to be made through 2011, with \$22.2 million already paid in the third quarter of 2009. The Company expects to continue its focus on cost control and productivity improvement as it continues to face an uncertain economic environment in the remainder of 2009.

As a result of its cost reduction efforts, as well as the improving trends in net sales, the Company anticipates higher full-year payouts under its employee incentive compensation plans as compared to 2008, for which no payouts were made under the Company's primary incentive compensation plans. Incentive compensation expense in the third quarter of 2009 totaled approximately \$40 million, an increase of approximately \$77 million as compared to the third quarter of 2008, during which the Company reduced its accrued liabilities for these plans because of the declining economy. Of this increase, approximately \$56 million, \$13 million and \$8 million was reflected in the U.S. Print and Related Services segment, International segment and Corporate, respectively.

Cash flows from continuing operations for the nine months ended September 30, 2009 increased \$406.0 million compared to the nine months ended September 30, 2008, despite the declines in net sales and earnings. This increase reflected the receipt of income tax refunds of \$161.4 million and decreases in working capital requirements driven by volume declines and a focus on improved working capital management. The Company also reduced its capital expenditures by \$105.8 million, or 44.3%, compared to the nine months ended September 30, 2008. The strong operating cash flow in the nine months ended September 30, 2009 enabled the Company to improve its total available liquidity. As of September 30, 2009, cash and cash equivalents totaled \$414.9 million and approximately \$1.7 billion was available for borrowings under the Company's committed credit facilities. Total debt decreased from \$4.1 billion at December 31, 2008 to \$3.4 billion at September 30, 2009. In addition, the Company received proceeds from the issuance of \$350.0 million of long-term senior notes, which the Company used, along with borrowings under the credit facility and cash on hand, to repurchase \$640.6 million of senior notes. See "Liquidity and Capital Resources" for further discussion.

## **OUTLOOK**

### *Competition and Strategy*

The print and related services industry, in general, continues to have excess capacity and remains highly competitive. Despite some consolidation in recent years, the printing industry remains highly fragmented. Across the Company's range of products and services, competition is based primarily on price, in addition to quality and the ability to service the special needs of customers. Industry sales declines are expected to continue for the

---

## Table of Contents

remainder of 2009 and possibly longer, with modest growth projected once the economy recovers. The additional excess capacity created by these declining volumes has resulted in intensified price competition in some product lines. Management expects that prices for the Company's products and services will continue to be a focal point for customers in coming years. In the current economic environment, the Company believes it needs to continue to lower its cost structure and differentiate its products and service offerings.

Technological changes, including the electronic distribution of documents and data, online distribution and hosting of media content, advances in digital printing, print-on-demand and Internet technologies, continue to impact the market for the Company's products and services. The Company seeks to leverage distinctive capabilities of its products and services to improve its customers' communications, whether in paper form or through electronic communications. The Company's goal remains to help its customers succeed by delivering effective and targeted communications in the right format to the right audiences at the right time. Management believes that with the Company's competitive strengths, including its broad range of complementary print-related services, strong logistics capabilities, technology leadership, depth of management experience, customer relationships and economies of scale, the Company has developed and can further develop valuable, differentiated solutions for its customers. The Company seeks to leverage its unified platform and strong customer relationships in order to serve a larger share of its customers' print and related services needs. The Company also believes that its strong financial condition is important to customers focused on establishing or growing long-term relationships with a stable provider of print and related services. Especially in the current economic environment, the Company's financial strength is seen as a competitive advantage. The Company has made targeted acquisitions that offer customers greater capacity and flexibility and further secure the Company's position as a leader in the industry.

The Company has implemented a number of strategic initiatives to reduce its overall cost structure and improve efficiency, including the restructuring, reorganization and integration of operations and streamlining of administrative and support activities. Future cost reduction initiatives could include the reorganization of operations and the consolidation of facilities. Implementing such initiatives might result in future restructuring or impairment charges, which may be substantial. Management also reviews the Company's operations and management structure on a regular basis to balance appropriate risks and opportunities to maximize efficiencies and to support the Company's long-term strategic growth goals.

### *Seasonality*

Advertising and consumer spending trends affect demand in several of the end-markets served by the Company. Historically, demand for printing of magazines, catalogs, retail inserts and books is higher in the second half of the year driven by increased advertising pages within magazines, and holiday catalog, retail insert and book volumes. During 2008, the seasonality impact was significantly lower as compared to 2007 due to the volume declines driven by the credit crisis and related slowdown in the global economy, along with the impact of foreign exchange rates. Compared to 2008, the Company expects the seasonality impact in 2009 and future years to be more in line with historical patterns. The Company cannot predict the timing of an economic recovery; however, the Company expects net sales in the fourth quarter of 2009 to be less than the fourth quarter of 2008.

### *Raw Materials*

The primary raw materials the Company uses in its print businesses are paper and ink. The Company negotiates with leading suppliers to maximize its purchasing efficiencies, uses a wide variety of paper grades, formats, ink formulations and colors and does not rely on any one supplier. In addition, a substantial amount of paper used by the Company is supplied directly by customers. The cost and supply of certain paper grades used in the manufacturing process may continue to affect the Company's consolidated financial results. While prices for certain paper grades used by the Company decreased in the first nine months of 2009, the overall paper price environment was mixed. Customers directly absorb the impact of changing prices on customer-supplied paper. With respect to paper purchased by the Company, the Company has historically passed substantially all increases

---

## Table of Contents

and decreases through to its customers. Contractual arrangements and industry practice should support the Company's continued ability to pass on any future paper price increases to a large extent, but there is no assurance that market conditions will continue to enable the Company to successfully do so. In addition, management believes that paper supply is consolidating, and there may be shortfalls in the future in supplies necessary to meet the demands of the entire marketplace. Higher paper prices and tight paper supplies may also have an impact on customers' demand for printed products.

The Company continues to monitor the impact of changes in the price of crude oil and other energy costs. Crude oil prices continued to be volatile in 2009; however, fuel costs in the first nine months of 2009 were generally lower compared to the first nine months of 2008. The Company believes its logistics operations will continue to be able to pass a substantial portion of any increases in fuel prices directly to its customers in order to offset the impact of related cost increases. The Company generally cannot pass on to customers the impact of higher energy prices on its manufacturing costs. The Company cannot predict sudden changes in energy prices and the impact that possible future energy price increases or decreases might have upon either future operating costs or customer demand and the related impact either will have on the Company's consolidated annual results of operations, financial position or cash flows.

### *Distribution*

The Company's products are distributed to end-users through the U.S. or foreign postal services, through retail channels, electronically or by direct shipment to customer facilities. Through its logistics operations, the Company manages the distribution of most customer products printed by the Company in the U.S. and Canada to maximize efficiency and reduce costs for customers.

Postal costs are a significant component of many customers' cost structures and postal rate changes can influence the number of pieces that the Company's customers are willing to print and mail. On May 11, 2009, new postage rates went into effect for all mail classes in the United States. The new rates increased the cost of mailing by approximately 3.9%, which is the cap under the Postal Accountability and Enhancement Act ("the Act"). Under the Act, it is anticipated that postage will increase annually by an amount equal to or slightly less than the Consumer Price Index. On October 15, 2009, the United States Postal Service announced that it does not intend to seek a rate increase for 2010. As a leading provider of print logistics and the largest mailer of standard mail in the U.S., the Company works closely with the U.S. Postal Service and its customers on programs to minimize costs and ensure the viability of postal distribution. While the Company does not directly absorb the impact of higher postal rates on its customers' mailings, demand for products distributed through the U.S. or foreign postal services are expected to be impacted by changes in the postal rates. In addition, the Company has developed innovative products and services to minimize customers' postal costs and has invested in equipment and technology to meet customer demand for these services.

### *Risks Related to Market Conditions*

The Company's annual review for impairment of goodwill is completed as of October 31 or more frequently if events or changes in circumstances indicate that it is more likely than not that the fair value of a reporting unit is below its carrying value. As part of its interim review for indicators of impairment, management analyzed potential changes in value of individual reporting units based on each reporting unit's operating results for the nine months ended September 30, 2009 compared to expected results as of October 31, 2008. In addition, management considered how other key assumptions, including discount rates used in last fiscal year's impairment analysis, could be impacted by recent market and economic events. Based on this interim assessment, management concluded that as of September 30, 2009, no events or changes in circumstances indicated that it was more likely than not that the fair value for any reporting unit had declined below its carrying value. A continued global economic slowdown could result in changes to expectations of future financial results and key valuation assumptions. These changes could result in changes to management's estimates of the fair value of the Company's reporting units and may result in material impairments when the Company completes its annual impairment test as of October 31, 2009.

## Table of Contents

The funded status of the Company's pension plans is dependent upon many factors, including returns on invested assets and the level of certain market interest rates. Declines in the market value of securities held by the plans and decreases in discount rates could reduce their funded status and materially affect the level of pension expense and required contributions in 2010 and future years. In addition, the Company's required funding may be affected by changes in pension regulations. The Company expects to make contributions of \$17.6 million to its pension plans in 2009. The Company does not expect a substantial increase in contributions during 2010, but additional non-required contributions could be made. While the Company cannot currently estimate the amount of pension plan contributions that will be required in 2011 and future years, larger contributions to the pension plans could be necessary.

The impact of the recession on the global economy and on our customers has increased the Company's credit risk on accounts receivable. During the latter part of 2008 and continuing into 2009, more of the Company's customers have experienced liquidity issues and bankruptcy filings have increased. The Company evaluates the solvency of its customers on an ongoing basis to determine if additional allowances for doubtful accounts need to be recorded, and current economic conditions could result in significant additional charges.

## FINANCIAL REVIEW

In the financial review that follows, the Company discusses its consolidated results of operations, financial position, cash flows and certain other information. This discussion should be read in conjunction with the Company's condensed consolidated financial statements and related notes.

**RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED SEPTEMBER 30, 2009 AS COMPARED TO THE THREE MONTHS ENDED SEPTEMBER 30, 2008**

The following table shows the results of operations for the three months ended September 30, 2009 and 2008, which reflect the results of acquired businesses from the relevant acquisition dates:

	Three Months Ended September 30,			
	2009	2008	\$ Change	% Change
	(in millions)			
Net sales	\$2,463.1	\$2,864.6	\$(401.5)	(14.0%)
Cost of sales (exclusive of depreciation and amortization shown below)	1,841.4	2,090.3	(248.9)	(11.9%)
Selling, general and administrative expenses (exclusive of depreciation and amortization shown below)	251.6	279.8	(28.2)	(10.1%)
Restructuring and impairment charges	131.7	23.4	108.3	462.8%
Depreciation and amortization	145.0	164.7	(19.7)	(12.0%)
Total operating expenses	<u>2,369.7</u>	<u>2,558.2</u>	<u>(188.5)</u>	<u>(7.4%)</u>
<b>Income from continuing operations</b>	<b>\$ 93.4</b>	<b>\$ 306.4</b>	<b>\$(213.0)</b>	<b>(69.5%)</b>

**Consolidated**

Net sales for the three months ended September 30, 2009 decreased \$401.5 million, or 14.0%, to \$2,463.1 million versus the same period in the prior year. Changes in foreign exchange rates decreased net sales by \$50.6 million, or 1.8%, while the acquisition of PROSA increased net sales \$4.2 million, or 0.1%. The remaining decreases were primarily attributable to significant volume declines and continued price pressures across most products and services as customer demand decreased due to the global economic slowdown.

Cost of sales decreased \$248.9 million to \$1,841.4 million for the three months ended September 30, 2009 versus the same period in the prior year primarily due to volume decreases and lower LIFO inventory provisions. Cost of sales as a percentage of consolidated net sales increased from 73.0% to 74.8%, reflecting higher incentive compensation expense, the impact of price pressures on net sales and lower pricing on by-products sales, offset in part by a benefit resulting from lower LIFO inventory provisions and the benefits of continued productivity efforts.

Selling, general and administrative expenses decreased \$28.2 million to \$251.6 million for the three months ended September 30, 2009 versus the same period in the prior year due to restructuring-driven cost reductions, lower sales commissions driven by reduced volume, the elimination of the Company's 401(k) match and changes in foreign exchange rates, partially offset by higher incentive compensation expense and the acquisitions. Selling, general and administrative expenses as a percentage of consolidated net sales increased from 9.8% to 10.2%, as the impact of higher incentive compensation expense and the net sales decline more than offset the benefit of productivity efforts.

For the three months ended September 30, 2009, the Company recorded a net restructuring and impairment provision of \$131.7 million compared to \$23.4 million in the same period of 2008. In 2009, these charges included \$117.3 million, discounted for future cash payments, for the termination of a long-term significant customer contract in the business process outsourcing reporting unit within the International segment, which allowed the Company to withdraw from certain unprofitable operations in this area. In addition, these charges included \$7.5 million for workforce reductions of 344 employees (of whom 295 were terminated as of September 30, 2009) associated with actions resulting from the reorganization of certain operations. These actions also included the closing of one Latin America manufacturing facility within the International segment. In addition, the Company recorded \$1.2 million of impairment charges of other long-lived assets and \$5.7 million of other restructuring costs, including lease termination and other facility closure costs. Net restructuring

## Table of Contents

and impairment charges for the three months ended September 30, 2008 included \$21.6 million for workforce reductions of 760 employees (all of whom were terminated as of September 30, 2009) associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions included the closing of one Global Turnkey Solutions manufacturing facility within the International segment and closing of one financial facility within the U.S. Print and Related Services segment. In addition, these charges included \$1.3 million of other restructuring costs for lease termination and other facility closure costs and \$0.5 million for the impairment of other long-lived assets. Management believes that certain restructuring activities will continue throughout the remainder of 2009, as the Company continues to streamline its manufacturing, sales and administrative operations.

Depreciation and amortization decreased \$19.7 million to \$145.0 million for the three months ended September 30, 2009 compared to the same period in 2008, primarily due to reduced spending on capital expenditures as compared to historical levels and the reduced balance of amortizable intangible assets resulting from the impairment of customer relationship intangible assets in the business process outsourcing reporting unit in 2008. Changes in foreign exchange rates also caused the lower depreciation and amortization expense. Depreciation and amortization included \$25.7 million and \$32.2 million of amortization of purchased intangibles related to customer relationships, patents, trade names, licenses and non-compete agreements for the three months ended September 30, 2009 and 2008, respectively.

Income from continuing operations for the three months ended September 30, 2009 was \$93.4 million, a decrease of 69.5% compared to the three months ended September 30, 2008. The decrease was driven by higher restructuring costs, the significant declines in volumes along with price pressures across both segments and higher incentive compensation expense, partially offset by a benefit resulting from lower LIFO inventory provisions due to reduced projected inventory levels and lower inventory and commodity prices, transition fees of \$12.2 million received from a business process outsourcing contract termination and the benefits achieved from procurement savings and restructuring activities.

Net interest expense increased by \$3.4 million for the three months ended September 30, 2009 versus the same period in 2008, primarily due to the issuance of \$400 million of 11.25% senior notes and \$350 million of 8.60% senior notes on January 14, 2009 and August 26, 2009, respectively, as well as the accelerated amortization of debt issuance costs and unamortized discounts related to the repurchase of \$640.6 million senior notes maturing in 2012 and 2010 and lower international interest income as a result of lower average interest rates, partially offset by lower average short-term borrowings.

Net investment and other expense for the three months ended September 30, 2009 and 2008 was \$13.6 million and \$1.1 million, respectively. The Company's repurchases of \$640.6 million of its senior notes maturing in 2012 and 2010 resulted in a loss on the debt extinguishment of \$10.3 million. In addition, as a result of the repurchase of the senior notes due May 15, 2010, the Company reclassified a loss of \$2.7 million from accumulated other comprehensive income to investment and other expense due to the changes in the hedged forecasted interest payments.

The effective income tax rate for the three months ended September 30, 2009 was 27.7% compared to 32.0% for the same period in 2008.

Net earnings from continuing operations attributable to RR Donnelley common shareholders for the three months ended September 30, 2009 was \$13.1 million, or \$0.06 per diluted share, compared to \$168.2 million, or \$0.80 per diluted share, for the three months ended September 30, 2008. In addition to the factors described above, the per share results reflect a decrease in weighted average diluted shares outstanding of 1.2 million.

- (1) The amounts included in the above table represent net sales by reporting unit and the descriptions above reflect the primary products or services provided by each. Included in these net sales amounts are sales of other products that may be produced within a reporting unit to meet customer needs and improve operating efficiency. Certain prior year amounts were restated to conform to the Company's current reporting unit structure.

Net sales for the U.S. Print and Related Services segment for the three months ended September 30, 2009 were \$1,824.8 million, a decrease of \$318.6 million, or 14.9%, compared to the same period in 2008. The decrease was due to volume and price declines across all products and services primarily due to the global economic slowdown. Sales of magazines, catalogs and retail inserts decreased due to lower page counts resulting from reduced advertising spending, lower circulation volumes and the elimination of certain publications. Sales of books and directories decreased due to continued lower volume in educational books and related materials, as well as directories. Sales of variable printing decreased due to an unfavorable shift in product mix, lower sales of direct mailings from financial service companies and retail customers and reduced fulfillment and distribution volume from healthcare customers. Sales of forms and labels decreased due to increased price pressure and lower volume from major customers. Commercial printing sales decreased due to lower volume as a result of the economic slowdown and increased price pressure. Sales of financial printing decreased due to reductions in investment mutual fund volume as well as increased price pressure, partially offset by a slightly higher number of domestic capital market transactions. Sales of logistics services decreased primarily due to lower print volumes and decreases in fuel surcharges, partially offset by higher mail services volume. Sales of office products decreased primarily due to lower volume from large retail customers. Finally, sales of digital solutions declined slightly due to lost volume from a bankrupt customer, partially offset by increased volume from new customers.

## Table of Contents

U.S. Print and Related Services segment income from continuing operations decreased \$123.0 million mainly because of the volume and price declines discussed above, higher incentive compensation expense and lower pricing on by-product sales, partially offset by operating cost reductions driven by restructuring actions and productivity initiatives and lower restructuring and impairment charges. Operating margins in the U.S. Print and Related Services segment decreased from 13.4% for the three months ended September 30, 2008 to 9.0% for the three months ended September 30, 2009. The margin declines resulted from higher incentive compensation, the impact of volume declines, pricing pressures and lower pricing on by-products sales, partially offset by lower restructuring and impairment charges and cost savings, as discussed above.

### International

The following table summarizes net sales, income (loss) from continuing operations and certain items impacting comparability within the International segment:

	Three Months Ended September 30,	
	2009	2008
	(in millions)	
Net sales	\$638.3	\$721.2
Income (loss) from continuing operations	(72.3)	60.9

Business process outsourcing	\$ 165.7	\$ 176.7	\$(11.0)	(6.2%)
Latin America	111.7	135.1	(23.4)	(17.3%)
Asia	124.2	132.0	(7.8)	(5.9%)
Europe	100.8	118.7	(17.9)	(15.1%)
Global Turnkey Solutions	85.5	104.1	(18.6)	(17.9%)
Canada	50.4	54.6	(4.2)	(7.7%)
Total International	\$ 638.3	\$ 721.2	\$(82.9)	(11.5%)

Net sales for the International segment for the three months ended September 30, 2009 were \$638.3 million, a decrease of \$82.9 million, or 11.5%, compared to the same period in 2008. Of the net sales decrease, \$50.6 million, or 7.0%, was due to the impact of changes in foreign exchange rates and the remainder was primarily driven by volume and price declines resulting from the global economic slowdown. Business process outsourcing net sales decreased due to changes in foreign exchange rates and lower volume in design and print management services, partially offset by transition fees of \$12.5 million received from a contract termination. In Latin America, net sales decreased due to lower sales of forms and commercial print and changes in foreign exchange rates, partially offset by an increase of \$4.2 million, or 3.1%, due to the acquisition of PROSA. Sales in Asia decreased due to lower export book sales and prices on products for the technology and telecommunications sectors. Net sales in Europe decreased due to changes in foreign exchange rates, as well as unfavorable product mix changes and declining prices, largely related to the technology and telecommunications sector. Global Turnkey Solutions net sales decreased due to the lower volume from large existing customers, as well as changes in foreign exchange rates. The decrease in net sales in Canada was due to changes in foreign exchange rates and lower sales of forms and labels and statement printing.

Income (loss) from continuing operations decreased \$133.2 million primarily due to higher restructuring and impairment charges, volume declines and the ongoing impact of competitive price pressures and unfavorable product mix. Operating margins as a percentage of sales decreased from 8.4% for the three months ended

---

## **Table of Contents**

September 30, 2008 to a loss of 11.3% for the three months ended September 30, 2009. Of this margin change, 19.2 percentage points were attributable to higher restructuring and impairment charges. In addition, the impact of volume and price declines and higher incentive compensation were partially offset by transition fees of \$12.2 million received from a business process outsourcing contract termination and cost reductions driven by restructuring actions and productivity improvements.

### **Corporate**

Corporate operating income in the three months ended September 30, 2009 was \$0.8 million compared to expense of \$42.4 million during the same period in 2008. The decrease was driven by a benefit resulting from lower LIFO inventory provisions due to reduced projected inventory levels and lower inventory and commodity prices, the elimination of the Company's 401(k) match and cost reductions from productivity and restructuring actions offset by higher incentive compensation expense.

**RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2009 AS  
COMPARED TO THE NINE MONTHS ENDED SEPTEMBER 30, 2008**

The following table shows the results of operations for the nine months ended September 30, 2009 and 2008, which reflect the results of acquired businesses from the relevant acquisition dates:

	Nine Months Ended September 30,

<b>Income from continuing operations</b>	<b>\$ 315.8</b>	<b>\$ 852.4</b>	<b>\$ (536.6)</b>	<b>(63.0%)</b>

**Consolidated**

Net sales for the nine months ended September 30, 2009 decreased \$1,511.0 million, or 17.2%, to \$7,274.3 million versus the same period in the prior year. Changes in foreign exchange rates decreased net sales by \$241.0 million, or 2.7%, while the acquisitions of PROSA and Pro Line increased net sales \$32.3 million, or 0.4%. The remaining decreases were primarily attributable to significant volume declines and continued price pressure across most products and services as customer demand decreased primarily due to the global economic slowdown.

Cost of sales decreased \$971.5 million to \$5,480.5 million for the nine months ended September 30, 2009 versus the same period in the prior year primarily due to volume decreases and a benefit resulting from lower LIFO inventory provisions, offset by lower pricing on by-product sales and higher incentive compensation expense. Cost of sales as a percentage of consolidated net sales increased from 73.4% to 75.3%, reflecting the impact of price pressures on net sales, volume declines, lower pricing on by-products sales and higher incentive compensation expense, offset in part by the benefits of continued productivity efforts.

Selling, general and administrative expenses decreased \$140.7 million to \$807.2 million for the nine months ended September 30, 2009 versus the same period in the prior year due to restructuring-driven cost reductions, lower sales commissions based on reduced volume, the elimination of the Company's 401(k) match and changes in foreign exchange rates, partially offset by higher incentive compensation expense and acquisitions. Selling, general and administrative expenses as a percentage of consolidated net sales increased from 10.8% to 11.1%, reflecting the impact of the net sales decline and higher incentive compensation expense, which more than offset the benefit of productivity efforts.

For the nine months ended September 30, 2009, the Company recorded a net restructuring and impairment provision of \$234.1 million compared to \$46.5 million in the same period of 2008. In 2009, these charges included \$117.3 million, discounted for future cash payments, for the termination of a significant long-term customer contract in the business process outsourcing reporting unit within the International segment, which allowed the Company to withdraw from certain unprofitable operations in this area. In addition, these charges included \$71.3 million for workforce reductions of 3,635 employees (of whom 3,438 were terminated as of September 30, 2009) associated with actions resulting from the reorganization of certain operations. These actions also included the closings of two catalog, magazine and retail insert manufacturing facilities, two book manufacturing facilities and one digital solutions facility within the U.S. Print and Related Services segment, as

well as the closing of one Global Turnkey Solutions manufacturing facility, one business process outsourcing facility, one Latin America manufacturing facility and one European manufacturing facility within the International segment. In addition, the Company recorded \$22.1 million of impairment charges of other long-lived assets and \$23.4 million of other restructuring costs, including lease termination and other facility closure costs. For the nine months ended September 30, 2008, these charges included \$36.6 million for workforce reductions of 1,338 employees (all of whom were terminated as of September 30, 2009) associated with actions resulting from the reorganization of certain operations and the exiting of certain business activities. These actions included the realignment and consolidation of the Canadian organization, management reorganization within Latin America, the closing of two Global Turnkey Solutions manufacturing facilities within the International segment and the realignment and consolidation of the financial print organization in the U.S. Print and Related Services and International segments. In addition, the Company recorded \$2.6 million of impairment charges of other long-lived assets and recorded \$7.3 million of other restructuring costs.

Depreciation and amortization decreased \$49.8 million to \$436.7 million for the nine months ended September 30, 2009 compared to the same period in 2008, primarily due to reduced capital expenditures and the reduced balance of amortizable intangible assets resulting from the impairment of customer relationship intangible assets in the business process outsourcing reporting unit in 2008. Changes in foreign exchange rates also caused the lower depreciation and amortization expense. Depreciation and amortization included \$74.4 million and \$97.2 million of amortization of purchased intangibles related to customer relationships, patents, trade names, licenses and non-compete agreements for the nine months ended September 30, 2009 and 2008, respectively.

Income from continuing operations for the nine months ended September 30, 2009 was \$315.8 million, a decrease of 63.0% compared to the nine months ended September 30, 2008. The decrease was driven by the significant declines in volume along with price pressures across both segments, higher restructuring costs and higher incentive compensation, partially offset by the benefits achieved from procurement savings and restructuring activities, a benefit resulting from lower LIFO inventory provisions due to reduced projected inventory levels and lower inventory and commodity prices and lower intangible amortization expense.

Net interest expense increased by \$7.7 million for the nine months ended September 30, 2009 versus the same period in 2008, primarily due to the issuance of \$400 million of 11.25% senior notes and \$350 million of 8.60% senior notes on January 14, 2009 and August 26, 2009, respectively, as well as the accelerated amortization of debt issuance costs and unamortized discounts related to the repurchase of \$640.6 million of senior notes maturing 2012 and 2010 and lower international interest income as a result of lower interest rates, partially offset by lower average short-term borrowings.

Net investment and other income (expense) for the nine months ended September 30, 2009 and 2008 was an expense of \$14.9 million and income of \$7.0 million, respectively. The Company's repurchases of \$640.6 million of its senior notes maturing in 2012 and 2010 resulted in a loss on the debt extinguishment of \$10.3 million for the nine months ended September 30, 2009. In addition, as a result of the repurchase of the senior notes due May 15, 2010, the Company reclassified a loss of \$2.7 million from accumulated other comprehensive income to investment and other expense due to the changes in the hedged forecasted interest payments. In the nine months ended September 30, 2008, the Company sold an equity investment in Latin America, which resulted in a gain of \$4.9 million.

The effective income tax rate for the nine months ended September 30, 2009 was 53.2% compared to 27.5% in the same period of 2008. The higher rate reflects the Company's expectation of a higher full-year effective tax rate in 2009. The higher full-year rate is primarily driven by the impact of foreign restructuring and impairment charges on which the Company does not expect to realize tax benefits in line with the U.S. statutory rate. In addition, the effective income tax rate for the nine months ended September 30, 2008 reflected the benefit of \$38.0 million from the recognition of uncertain tax positions upon final settlement of U.S. federal tax audits for the years 2000 – 2002.

## Table of Contents

Net earnings from continuing operations attributable to RR Donnelley common shareholders for the nine months ended September 30, 2009 was \$52.2 million, or \$0.25 per diluted share, compared to \$495.3 million, or \$2.33 per diluted share, for the nine months ended September 30, 2008. In addition to the factors described above, the per share results reflect a decrease in weighted average diluted shares outstanding of 4.8 million, primarily resulting from the Company's repurchases of 10.0 million shares of its common stock since January 1, 2008.

### U.S. Print and Related Services

- (1) The amounts included in the above table represent net sales by reporting unit and the descriptions above reflect the primary products or services provided by each. Included in these net sales amounts are sales of other products that may be produced within a reporting unit to meet customer needs and improve operating efficiency. Certain prior year amounts were restated to conform to the Company's current reporting unit structure.

Net sales for the U.S. Print and Related Services segment for the nine months ended September 30, 2009 were \$5,513.4 million, a decrease of \$1,032.4 million, or 15.8%, compared to the same period in 2008. The acquisition of Pro Line increased net sales \$17.5 million, or 0.3%. The increases due to the acquisition were more than offset by volume and price declines across all products and services primarily due to the global economic slowdown. Sales of magazines, catalogs and retail inserts decreased due to lower page counts resulting from reduced advertising spending and lower circulation volume. Sales of books and directories decreased due to lower volume in educational books and related materials, as well as directories. Sales of variable printing decreased due to an unfavorable shift in product mix, lower sales of direct mailings from financial service companies and retail customers and reduced fulfillment and distribution volume from healthcare customers. Sales of forms and labels decreased due to increased price pressure and lower volume from major customers. Commercial printing sales decreased due to lower volume as a result of the economic slowdown and increased

price pressure. Sales of financial printing decreased compared to the prior year due to decreases in the size and number of capital market transactions and increased price pressure. Sales of logistics services decreased primarily due to lower print volumes and decreases in fuel surcharges. Sales of office products decreased primarily due to lower volume from large retail customers. Finally, sales of digital solutions declined due to lower volume from existing customers.

U.S. Print and Related Services segment income from continuing operations decreased \$419.4 million mainly because of the volume and price declines discussed above, lower pricing on by-products sales, increased restructuring and impairment charges and higher incentive compensation expense, partially offset by operating cost reductions driven by the restructuring actions and productivity initiatives. Operating margins in the U.S. Print and Related Services segment decreased from 12.8% for the nine months ended September 30, 2008 to 7.6% for the nine months ended September 30, 2009. The margin declines resulted from the impact of volume declines, price pressures and higher incentive compensation expense, as well as higher restructuring and impairment charges, partially offset by cost savings, as discussed above.

## International

The following table summarizes net sales, income (loss) from continuing operations and certain items impacting comparability within the International segment:

	Nine Months Ended September 30,

Total International	\$ 1,760.9	\$ 2,239.5	\$(478.6)	(21.4%)

Net sales for the International segment for the nine months ended September 30, 2009 were \$1,760.9 million, a decrease of \$478.6 million, or 21.4%, compared to the same period in 2008. The decrease in net sales was primarily due to changes in foreign exchange rates of \$241.0 million, or 10.8%, and volume and price declines resulting from the global economic slowdown. Business process outsourcing net sales decreased due to changes in foreign exchange rates, as well as lower volume in transactional print and mail and design and print management services. In Latin America, net sales decreased due to changes in foreign exchange rates and lower sales of forms, partially offset by the acquisition of PROSA which increased net sales by \$14.8 million, or 4.0%. Sales in Asia decreased due to reduced export book sales and lower volumes and prices on products for the technology and telecommunications sectors. Net sales in Europe decreased due to changes in foreign exchange rates and lower sales of directories and commercial print, as well as unfavorable product mix changes and declining prices, largely related to the technology and telecommunications sector. Global Turnkey Solutions net

sales decreased due to lower volume from large existing customers, as well as changes in foreign exchange rates. The decrease in net sales in Canada was due to changes in foreign exchange rates and lower sales of forms and labels, statement printing and commercial print products.

Income (loss) from continuing operations decreased \$181.2 million primarily due to higher restructuring and impairment charges, volume declines and the ongoing impact of competitive price pressures and unfavorable product mix. Operating margins as a percentage of sales decreased from 6.6% for the nine months ended September 30, 2008 to a loss of 1.9% for the nine months ended September 30, 2009. Of this margin change, 8.7 percentage points were attributable to the impact of higher restructuring charges, as well as volume and price declines, partially offset by cost reductions driven by restructuring actions and productivity improvements.

### Corporate

Corporate operating expenses in the nine months ended September 30, 2009 were \$69.1 million, a decline of \$64.0 million compared to the same period in 2008. The decrease was driven by a benefit resulting from lower LIFO inventory provisions, the elimination of the Company's 401(k) match and cost reductions from productivity and restructuring actions, partially offset by higher incentive compensation expense and higher restructuring and impairment charges.

### LIQUIDITY AND CAPITAL RESOURCES

The following describes the Company's cash flows for the nine months ended September 30, 2009 and 2008.

#### *Cash Flows From Operating Activities*

Net cash provided by operating activities of continuing operations was \$1,098.5 million for the nine months ended September 30, 2009, compared to \$692.5 million for the same period last year. Operating cash inflows are largely attributable to sales of the Company's products and services. Operating cash outflows are largely attributable to recurring expenditures for raw materials, labor, rent, interest and other activities. The increase in operating cash flow reflects reductions in inventories and accounts receivable resulting from volume declines and a focus on improved working capital management, the receipt of income tax refunds of \$161.4 million and lower incentive compensation payments in the first quarter of 2009 as compared to 2008, partially offset by lower operating earnings driven by significant volume declines.

#### *Cash Flows From Investing Activities*

Net cash used in investing activities of continuing operations for the nine months ended September 30, 2009 was \$157.0 million compared to \$276.8 million for the nine months ended September 30, 2008. Net cash used for acquisition of businesses in the nine months ended September 30, 2009 included \$26.6 million for the acquisition of PROSA and Prospectus. In the nine months ended September 30, 2008, net cash used for acquisitions included \$132.0 million for the acquisition of Pro Line and another smaller acquisition offset by proceeds of \$10.5 million from purchase price adjustments related to previous acquisitions. The Company received proceeds from the sale of investments and other assets of \$0.4 million in the first nine months of 2009 compared to \$42.9 million in the first nine months of 2008, which included \$27.3 million of net proceeds from the sale of certain investment securities related to the planned liquidation of a captive insurance subsidiary. Capital expenditures were \$132.9 million, a decrease of \$105.8 million compared to the first nine months of 2008, reflecting lower spending on capacity growth due to the significant reduction in production volumes resulting from the global economic slowdown. The Company continues to fund capital expenditures primarily through cash provided by operations. The Company expects that capital expenditures for 2009 will be approximately \$185 million to \$200 million. Finally, the Company received transfers of \$40.5 million of restricted cash in 2008 primarily due to the release of excess funding from a trust associated with the Company's acquisition of Banta.

### *Cash Flows From Financing Activities*

Net cash used in financing activities of continuing operations for the nine months ended September 30, 2009 was \$884.4 million compared to \$349.5 million in the same period of 2008. In the nine months ended September 30, 2009, the Company received proceeds from the issuance of \$750.0 million of long-term senior notes and repaid \$400.0 million in senior notes that matured April 1, 2009. In addition, the Company repurchased \$466.4 million and \$174.2 million of senior notes maturing January 15, 2012 and May 15, 2010, respectively. Net repayments under the Company's revolving credit facility (the "Facility") were \$110.0 million for the nine months ended September 30, 2009 compared to \$125.0 million for the nine months ended September 30, 2008. The net change in other short-term debt was a cash outflow of \$304.3 million in the nine months ended September 30, 2009 primarily due to the pay down of commercial paper. The net change in other short-term debt for the nine months ended September 30, 2008 was a cash inflow of \$191.7 million due to the issuance of commercial paper related to the Pro Line acquisition. Additionally, \$245.4 million was utilized during the nine months ended September 30, 2008 to acquire 8.6 million shares of RR Donnelley common stock under the Company's share repurchase program.

### *Dividends*

During the nine months ended September 30, 2009, the Company paid cash dividends of \$160.1 million. On October 28, 2009, the Board of Directors of the Company declared a quarterly cash dividend of \$0.26 per common share payable on December 1, 2009 to RR Donnelley shareholders of record on November 12, 2009.

## LIQUIDITY

The Company believes it has sufficient liquidity to support its ongoing operations and to invest in future growth to create value for its shareholders. Operating cash flows are the Company's primary source of liquidity and are expected to be used for, among other things, interest and principal on the Company's debt obligations, capital expenditures as necessary to support productivity improvement and growth, completion of restructuring programs, dividend payments that may be approved by the Board of Directors, additional acquisitions and future common stock or debt repurchases based upon market conditions. As further discussed below, the severe credit crisis has increased the Company's borrowing costs.

Cash and cash equivalents of \$414.9 million as of September 30, 2009 included \$51.3 million that were readily available in the U.S. and \$363.6 million that were available at international locations, most of which is subject to U.S. federal income taxes and some of which is subject to local country taxes if repatriated to the U.S. In addition, repatriation of some foreign cash is further restricted by local laws. The Company maintains a cash pooling structure that enables several international locations to draw on the Company's overseas cash resources to meet local liquidity needs. In addition, foreign cash balances may be loaned to U.S. operating entities on a temporary basis in order to reduce the Company's short-term borrowing costs.

The Company has a \$2.0 billion committed revolving credit facility (the "Facility") that can be used for general corporate purposes, including letters of credit and as a backstop for the Company's commercial paper program. The Facility is subject to a number of restrictive covenants that, in part, limit the ability of the Company to create liens on assets, engage in mergers and consolidations, or dispose of assets. The financial covenants require a minimum interest coverage ratio and a maximum leverage ratio. Based on the Company's results of operations for the twelve months ended September 30, 2009 and existing term debt structure, as shown in the table below, the Company could utilize approximately \$1.8 billion of the \$2.0 billion Facility and not be in violation of those financial covenants. A further reduction in earnings year over year in the fourth quarter of 2009 would likely decrease the amount available under the Facility. However, the Company does not expect the reduction in availability on the Facility to impact its ability to meet its liquidity requirements. In addition, borrowings under the Facility are subject to certain conditions, all of which were met at September 30, 2009. The Company pays an annual commitment fee of 0.10%, and LIBOR plus a spread on borrowings under the Facility. The Facility has a maturity date of January 6, 2012. As of September 30, 2009, there were \$90.0 million of

## Table of Contents

borrowings outstanding under the Facility. The Company also has \$172.6 million in credit facilities outside of the U.S., most of which are uncommitted. As of September 30, 2009, the Company had \$43.2 million in outstanding letters of credit, of which \$36.1 million reduced availability under the Facility and \$1.9 million reduced availability under uncommitted facilities outside of the U.S. As of September 30, 2009, there were no borrowings outstanding under the Company's commercial paper program. The failure of a financial institution supporting the Facility would reduce the size of our committed facility unless a replacement institution was added. Currently, the Facility is supported by 17 U.S. and international financial institutions. The current availability on the Facility is shown in the following table:

	<u>September 30, 2009</u> (in millions)
<b>Availability</b>	
Committed credit facility	\$ 2,000.0
Availability reduction from covenants	238.6
	<u>1,761.4</u>
<b>Usage</b>	
Borrowings	90.0
Letters of credit outstanding	36.1
	<u>126.1</u>
Current availability at September 30, 2009	<u>\$ 1,635.3</u>

The Company was in compliance with its debt covenants as of September 30, 2009, and is expected to remain in compliance based on management's estimates of operating and financial results for 2009 and the foreseeable future; however, as of September 30, 2009, as shown in the table above, the Company may borrow an additional \$1.6 billion of the \$1.9 billion currently unutilized under the Facility, as borrowings above \$1.6 billion would cause the Company to violate certain debt covenants in the Facility. In addition, the Company met all the conditions required to borrow under the Facility as of September 30, 2009 and management expects the Company to continue to meet the applicable borrowing conditions.

While the credit markets have been volatile during the first nine months of 2009, conditions have stabilized during recent months. At times during the year, volatility in the capital markets increased costs associated with issuing commercial paper or other debt instruments due to increased spreads over relevant interest rate benchmarks, or affected the Company's ability to access the credit markets. Despite these adverse market conditions, we believe that current cash balances and cash generated by operations, together with access to external sources of funds described previously, will be sufficient to meet our operating and capital needs in the foreseeable future.

On March 13, 2009, Standard & Poor's Ratings Services lowered the Company's long-term corporate credit and senior unsecured debt ratings to BBB from BBB+ and lowered the Company's short-term credit rating to A-3 from A-2. On April 8, 2009, Moody's Investors Service downgraded the Company's senior unsecured debt ratings to Baa3 from Baa2 while also downgrading the Company's short-term credit rating to P-3 from P-2. The interest margin and the annual commitment fee under the revolving credit facility increased by 8 basis points and 2 basis points, respectively, following the downgrade. The downgrades limited the Company's capacity in the commercial paper market, but they did not affect our ability to borrow amounts under the Facility.

On January 14, 2009, the Company issued \$400 million of 11.25% senior notes due February 1, 2019. The Company used the net proceeds to pay down commercial paper and borrowings under the Facility. If the Company experiences a downgrade in its credit ratings below investment grade, these senior notes are subject to an increase from the 11.25% interest rate. The first quarter 2009 downgrades of the Company's debt ratings did not result in an increase in the interest rate for these senior notes. The Company borrowed \$400.0 million in March 2009 under the Facility to repay the April 1, 2009 maturity of \$400 million in senior notes. During the second quarter 2009, the Company repaid the \$400 million of Facility borrowings.

---

## Table of Contents

On August 26, 2009, the Company issued \$350 million of 8.60% senior notes due August 15, 2016. The Company used the net proceeds, along with borrowings under the Facility and cash on hand, to repurchase \$466.4 million of the 5.625% senior notes due January 15, 2012 and \$174.2 million of the 4.95% senior notes due May 15, 2010.

In the third quarter of 2009, the Company terminated a significant long-term customer contract in the business process outsourcing reporting unit within the International segment. The Company expects to pay approximately \$123.7 million, subject to changes in foreign exchange rates, in related restructuring costs, of which \$22.2 million was paid in the third quarter of 2009, approximately \$59 million will be paid in January 2010 and approximately \$43 million will be transferred to restricted cash in December 2009 for payment in January of 2011.

On January 2, 2009, the Company acquired the assets of PROSA, for a purchase price of approximately \$23.6 million. The Company financed this acquisition with cash on hand.

## RISK MANAGEMENT

The Company is exposed to interest rate risk on its variable debt and price risk on its fixed-rate debt. As of September 30, 2009, approximately 96.8% of the Company's outstanding debt was comprised of fixed-rate debt. At September 30, 2009, the Company's exposure to rate fluctuations on variable-interest borrowings was limited to \$107.7 million, most of which were borrowings under credit facilities.

The Company is exposed to the impact of foreign currency fluctuations in certain countries in which it operates. The exposure to foreign currency movements is limited in most countries because the operating revenues and expenses of its various subsidiaries and business units are substantially in the local currency of the country in which they operate. To the extent borrowings, sales, purchases, revenues, expenses or other transactions are not in the local currency of the operating unit, the Company is exposed to currency risk and may enter into foreign currency forward contracts to hedge that currency risk. As of September 30, 2009, the aggregate notional amount of outstanding forward contracts was approximately \$322.0 million. Net unrealized losses from these foreign currency contracts were \$0.7 million at September 30, 2009. The Company does not use derivative financial instruments for trading or speculative purposes.

## CAUTIONARY STATEMENT

We have made forward-looking statements in this Quarterly Report on Form 10-Q that are subject to risks and uncertainties. These statements are based on the beliefs and assumptions of the Company. Generally, forward-looking statements include information concerning possible or assumed future actions, events, or results of operations of the Company.

These statements may include, or be preceded or followed by, the words "may," "will," "should," "might," "could," "would," "potential," "possible," "believe," "expect," "anticipate," "intend," "plan," "estimate," "hope" or similar expressions. The Company claims the protection of the Safe Harbor for Forward-Looking Statements contained in the Private Securities Litigation Reform Act of 1995 for all forward-looking statements.

Forward-looking statements are not guarantees of performance. The following important factors, in addition to those discussed elsewhere in this Form 10-Q, could affect the future results of the Company and could cause those results or other outcomes to differ materially from those expressed or implied in our forward-looking statements:

- the volatility and disruption of the capital and credit markets, and adverse changes in the global economy;
- successful execution and integration of acquisitions;

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

See Item 2 of Part I under “Liquidity and Capital Resources.”

### **Item 4. Controls and Procedures**

(a) Disclosure controls and procedures.

As required by Rule 13a-15(b) and Rule 15d-15(e) of the Securities Exchange Act of 1934, the Company’s management, including the Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining effective disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. As of September 30, 2009, an evaluation was performed under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that disclosure controls and procedures as of September 30, 2009 were effective in ensuring information required to be disclosed in this Quarterly Report was recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in internal control over financial reporting.

There have not been any changes in the Company’s internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) that occurred during the quarter ended September 30, 2009 that had materially affected, or were reasonably likely to materially affect, the Company’s internal control over financial reporting.
