Recent Developments

On February 18, 2012, we entered into a definitive agreement with Mobilitie Investments, LLC, a Delaware limited liability company (“Mobilitie I”), Mobilitie Investments II, LLC, a Delaware limited liability company (“Mobilitie II”), MPGJ-I, LLC, a Delaware limited liability company (“MPGJ I”), MPMA-I, LLC, a Delaware limited liability company (“MPMA I”), MPGJ-II, LLC, a Delaware limited liability company (“MPGJ II,” and together with Mobilitie I, Mobilitie II, MPGJ I and MPMA I, the “Mobilitie Companies”), and the sellers identified on the signature pages thereto pursuant to which we will purchase the Mobilitie Companies. The Mobilitie Companies own an aggregate of approximately 2,300 tower sites in the U.S. and Central America and nine distributed antenna system (DAS) networks in the U.S. and generated, on a combined basis, tenant revenue of approximately \$90.0 million for the year ended December 31, 2010, based on their audited financial statements.

The total purchase price to be paid will be \$850 million in cash and 5.25 million shares of our Class A common stock. The shares issued in the acquisition will be subject to certain restrictions on transfer. The cash consideration will be paid from a combination of cash on hand, existing credit facilities and \$500 million in financing commitments. The transaction, subject to customary closing conditions, is expected to close in the second quarter of 2012. Neither the completion of this offering nor the completion of the transaction is conditioned on the completion of the other. Pursuant to the terms of our investment in ExteNet Systems, Inc., we will seek to negotiate and execute a mutually acceptable sale of the DAS assets to ExteNet. The closing of the acquisition of the Mobilitie Companies will not be conditioned on the sale of the DAS assets.

Based on our net debt as of December 31, 2011, our Adjusted EBITDA guidance of \$119.5 to \$121.5 million for the first quarter of 2012 and upon our expectations that, on an annualized basis the Mobilitie Companies will generate Adjusted EBITDA of approximately \$72.0 to \$73.0 million for the full year 2012, we estimate that, pro forma for the closing of the Mobilitie acquisition, our net debt to annualized adjusted EBITDA ratio would have been approximately 7.7x – 7.8x. Pro forma for the closing of the Mobilitie transaction and this offering, including the use of proceeds for the claw-back of our senior notes, we estimate our net debt to annualized Adjusted EBITDA ratio would have been approximately 7.2x to 7.4x.

Potential investors are urged to read and consider the specific factors relating to an investment in us as set forth under “Risk Factors” in this prospectus supplement, in the accompanying prospectus and the documents we incorporated by reference into this prospectus supplement, including our most recent Annual Report on Form 10-K.

- (a) This number of outstanding shares does not include the following shares of Class A common stock, as of February 29, 2012, (1) 3,760,275 shares issuable upon exercise of outstanding stock options or restricted stock units; (2) 14,284,311 shares that are reserved for issuance upon exercise or vesting of awards that may be granted in the future under our 2010 Equity Participation Plan; (3) 397,381 shares that are reserved for issuance under our Employee Stock Purchase Plans; (4) approximately 1,701,631 shares issuable under our registration statements on Form S-4 in connection with acquisition transactions or earn-out obligations under prior acquisition transactions; (5) up to 12,903,986 shares issuable upon conversion of our 1.875% convertible senior notes due 2013 if we elect to settle our conversion obligation, in whole or in part, in shares of our Class A common stock; and (6) up to 16,458,196 shares issuable upon conversion of our 4.0% convertible senior notes due 2014 if we elect to settle our conversion obligation, in whole or in part, in shares of our Class A common stock.

RISK FACTORS

An investment in our Class A common stock involves risk. You should carefully consider the risks described below, together with the risks set forth in the accompanying prospectus and the documents we incorporate by reference, including our most recent Annual Report on Form 10-K, before reaching a decision regarding an investment in our Class A common stock.

Risks Relating to our Business

Our acquisition initiatives may disrupt our operations or expose us to additional risk.

During 2012, we expect to grow our tower portfolio, domestically and internationally, through the consummation of the Mobilitie transaction, additional tower acquisitions and the construction of new towers. Our ability to grow through acquisitions will depend, in part, on the availability of suitable acquisitions at an acceptable price, our ability to compete effectively for towers and the availability of capital and personnel to complete such acquisitions and effectively integrate acquired towers into our business. These risks could be heightened if we complete a large acquisition, such as our pending Mobilitie acquisition, or several smaller acquisitions within a relatively short period of time. Furthermore, large acquisitions may raise additional risks as we are required to place enhanced reliance on the financial and operational representations and warranties of sellers. Our acquisition strategy subjects us to a number of risks and uncertainties, including an adverse impact on our overall profitability if the acquired towers do not achieve the financial results projected in our valuation models, unanticipated costs associated with the acquisitions, undisclosed and assumed liabilities that we may be unable to recover, an adverse impact on our existing customer relationships and the diversion of managerial attention due to an acquisition. If we are not able to successfully execute on our acquisition strategy, our future tower portfolio growth, and therefore our future financial results, could be adversely impacted.

Risk Relating to our Common Stock

Our articles of incorporation, our bylaws and Florida law provide for anti-takeover provisions that could make it more difficult for a third party to acquire us.

Provisions of our articles of incorporation, our bylaws and Florida law could make it more difficult for a third party to acquire us, even if doing so would be beneficial to our shareholders. These provisions, alone or in combination with each other, may discourage transactions involving actual or potential changes of control, including transactions that otherwise could involve payment of a premium over prevailing market prices to holders of our Class A common stock, or could limit the ability of our shareholders to approve transactions that they may deem to be in their best interests.

Future sales of our Class A common stock in the public market or the issuance of other equity may cause dilution or adversely affect the market price of our Class A common stock and our ability to raise funds in new equity or equity-related offerings.

Sales of a substantial number of shares of our Class A common stock or other equity-related securities in the public market, including sales by any selling shareholder or conversion of our outstanding convertible notes, could depress the market price of our Class A common stock and impair our ability to raise capital through the sale of additional equity securities. Pursuant to our agreement with Mobilitie, we have agreed to issue 5.25 million newly issued shares of our Class A common stock, or 4.8% of our outstanding Class A common stock as of February 29, 2012, to the existing owners of Mobilitie. The 5.25 million shares of Class A common stock are contractually restricted and may only be resold prior to the six-month anniversary of the closing of the Mobilitie transaction in underwritten secondary offerings or block trades, except for a limited daily sales volume.

The market price of our Class A common stock could be affected by significant volatility.

The market price of our Class A common stock has historically experienced significant fluctuations. The market price of our Class A common stock is likely to continue to be volatile and subject to significant price and volume fluctuations in response to market and other factors, including the other factors discussed elsewhere in “Risk Factors” and in “Special Note Regarding Forward-Looking Statements.” Volatility or depressed market prices of our Class A common stock could make it difficult for you to resell the shares of Class A common stock, when you want or at attractive prices.

Our issuance of equity securities and other associated transactions may trigger a future ownership change which may negatively impact our ability to utilize net operating loss deferred tax assets in the future.

This issuance, together with additional issuances of equity securities and other associated transactions, may increase the chance that we will have a future ownership change under Section 382 of the Internal Revenue Code of 1986. We may also have a

Table of Contents

future ownership change, outside of our control, caused by future equity transactions by our current shareholders. Depending on our market value at the time of such future ownership change, an ownership change under Section 382 could negatively impact our ability to utilize our net operating loss deferred tax assets in the event we generate future taxable income. Currently, we have recorded a full valuation allowance against our net operating loss deferred tax asset because we have concluded that our loss history indicates that it is not “more likely than not” that such deferred tax assets will be realized.

Special Note Regarding Forward-Looking Statements

This prospectus supplement (including “Recent Developments”) and the documents that are incorporated by reference into this prospectus supplement contain “forward-looking statements” within the meaning of Section 27A of the Securities Act, and Section 21E of the Exchange Act. These statements concern expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. Specifically, this prospectus supplement and the documents incorporated by reference into this prospectus supplement contain forward-looking statements regarding:

- our expectations on the future growth and financial health of the wireless industry and the industry participants, and the drivers of such growth;
- our beliefs regarding our ability to capture and capitalize on industry growth and the impact of such growth on our financial and operational results;
- our expectations regarding the opportunities in the international wireless markets in which we currently operate or have targeted for growth and our beliefs regarding how we can capitalize on such opportunities;
- our belief that our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs and minimal non-discretionary capital expenditures;
- our belief that our towers have significant capacity to accommodate additional tenants, that our tower operations are highly scalable, that we can add tenants to our towers at minimal incremental costs, and the impact of these economies of scale on our cash flow and financial results;
- our intent to grow our tower portfolio, domestically and internationally, through the consummation of the Mobilitie transaction, additional tower acquisitions and the construction of new towers;
- our expectation that we will continue our ground lease purchase program and the estimates of the impact of such program on our financial results;
- our expectations regarding the future financial results of Mobilitie and the pro forma leverage that we will have upon consummation of the Mobilitie transaction alone and in combination with this transaction;
- our expectation that we will continue to incur losses;
- our expectations regarding our future cash capital expenditures, both discretionary and non-discretionary, including expenditures required to maintain, improve and modify our towers and general corporate expenditures;
- our estimates regarding our liquidity position in 2012 and our intended use of our liquidity;
- our expectation that our revenues from our international operations will grow in the future;
- our expectations regarding the effectiveness of our convertible note hedge transactions to minimize the dilution and costs associated with our outstanding convertible notes; and
- our estimates regarding certain accounting and tax matters.

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. The most important factors that could prevent us from achieving our goals, and cause the assumptions underlying forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements include, but are not limited to, the following:

- the impact of consolidation among wireless service providers on our leasing revenue;
- developments in the wireless communications industry in general, and for wireless communications infrastructure providers in particular, that may slow growth or affect the willingness or ability of the wireless service providers to expend capital to fund network expansion or enhancements;
- our ability to secure as many site leasing tenants as anticipated, recognize our expected economies of scale with respect to new tenants on our towers, and retain current leases on towers;
- our ability to secure and deliver anticipated services business at contemplated margins;
- factors that would adversely impact our ability to build the anticipated number of new towers, including our ability to identify and acquire land that would be attractive for our clients and to successfully and timely address zoning, permitting and other issues that arise in connection with the building of new towers;
- competition for the acquisition of towers and other factors that may adversely affect our ability to purchase towers that meet our investment criteria and are available at prices which we believe will be accretive to our shareholders and allow us to maintain our long-term target leverage ratios;
- our ability to effectively integrate acquired towers into our business and to achieve the financial results projected in our valuation models for the acquired towers, including with respect to the Mobilitie acquisition;
- our ability to successfully manage the risks associated with international operations, including foreign exchange risk, currency restrictions and foreign regulatory and legal risks;

Table of Contents

- our intent and ability to continue our ground lease purchase program and the effect of such ground lease purchases on our margins and long-term financial condition;
- our ability to continue to comply with covenants and the terms of our credit instruments;
- our ability to obtain additional financing to acquire towers;
- our ability to sufficiently increase our revenues and maintain expenses and cash capital expenditures at appropriate levels to permit us to meet our anticipated uses of liquidity for operations, debt service and estimated portfolio growth;
- our ability to successfully estimate the impact of certain accounting and tax matters, including the effect on our company of adopting certain accounting pronouncements and the availability of sufficient net operating losses to offset future taxable income; and
- natural disasters and other unforeseen damage for which our insurance may not provide adequate coverage.

USE OF PROCEEDS

We estimate that our net proceeds from the offering will be approximately \$ million. We expect to use the net proceeds (i) to redeem pursuant to the terms of the applicable indentures, \$131.25 million in aggregate principal amount of our 8.0% 2016 Notes and \$131.25 million in aggregate principal amount of our 8.25% 2019 Notes and to pay the applicable premium for the redemption, if applicable and (ii) for working capital purposes.

UNITED STATES FEDERAL TAX CONSIDERATIONS TO NON-U.S. HOLDERS

The following is a general discussion of the material U.S. federal income and estate tax consequences of the ownership and disposition of our Class A common stock (“common stock”) by a beneficial owner that is a “non-U.S. holder.” Except where noted, this summary deals only with common stock that is held as a capital asset. A “non-U.S. holder” is a person or entity that, for U.S. federal income tax purposes, is a:

- non-resident alien individual, other than certain former citizens and residents of the United States subject to U.S. tax as expatriates,
- foreign corporation or
- foreign estate or trust.

A “non-U.S. holder” does not include an individual who is present in the United States for 183 days or more in the taxable year of disposition and is not otherwise a resident of the United States for U.S. federal income tax purposes. Such an individual is urged to consult his or her own tax advisor regarding the U.S. federal income tax consequences of the sale, exchange or other disposition of our common stock.

If a partnership or other pass-through entity (including an entity or arrangement treated as a partnership or other type of pass-through entity for U.S. federal income tax purposes) owns our common stock, the tax treatment of a partner or beneficial owner of such entity may depend upon the status of such owner and the activities of such entity and by certain determinations made at the partner or beneficial owner level. Partners and beneficial owners in partnerships or other pass-through entities that own our common stock should consult their own tax advisors as to the particular U.S. federal income and estate tax consequences applicable to them.

This discussion is based on the Internal Revenue Code of 1986, as amended (the “Code”), and administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, changes to any of which subsequent to the date of this prospectus may affect the tax consequences described herein. This discussion does not address all aspects of U.S. federal income and estate taxation that may be relevant to non-U.S. holders in light of their particular circumstances and does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction. In addition, this discussion does not represent a detailed description of the U.S. federal income tax consequences applicable to non-U.S. holders who are subject to special treatment under the U.S. federal income tax laws (including a non-U.S. holder that is a “controlled foreign corporation” or “passive foreign investment company”). Prospective holders are urged to consult their tax advisors with respect to the particular tax consequences to them of owning and disposing of our common stock, including the consequences under the laws of any state, local or foreign jurisdiction.

Dividends

As discussed under “Price Range of Common Stock and Dividend Policy” above, we do not currently expect to pay dividends on our common stock. In the event that we do pay dividends, dividends paid to a non-U.S. holder of our common stock generally will be subject to withholding tax at a 30% rate or a reduced rate specified by an applicable income tax treaty. In order to obtain a reduced rate of withholding, a non-U.S. holder generally will be required to provide an Internal Revenue Service Form W-8BEN certifying its entitlement to benefits under a treaty.

The withholding tax does not apply to dividends paid to a non-U.S. holder that provides an Internal Revenue Service Form W-8ECI, certifying that the dividends are effectively connected with the non-U.S. holder’s conduct of a trade or business within the United States. Instead, the effectively connected dividends will be subject to regular U.S. income tax as if the non-U.S. holder were a U.S. resident, subject to an applicable income tax treaty providing otherwise. A non-U.S. corporation receiving effectively connected dividends may also be subject to an additional “branch profits tax” imposed at a rate of 30% (or a lower treaty rate).

A non-U.S. holder eligible for a reduced rate of U.S. withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the Internal Revenue Service in a timely manner.

Gain on Disposition of Common Stock

A non-U.S. holder generally will not be subject to U.S. federal income tax on gain realized on a sale or other disposition of common stock unless:

- the gain is effectively connected with a trade or business of the non-U.S. holder in the United States, subject to an applicable treaty providing otherwise (in this case, the gain will be taxed on a net income basis at the regular graduated rates and in the

Table of Contents

manner applicable to U.S. persons (subject to an applicable income tax-treaty providing otherwise) and, if the non-U.S. holder is a foreign corporation, an additional “branch profits tax” imposed at a rate of 30% (or a lower treaty rate) may also apply), or

- we are or have been a U.S. real property holding corporation, as defined below, at any time within the five-year period preceding the disposition or the non-U.S. holder’s holding period, whichever period is shorter, and either (i) our common stock has ceased to be regularly traded on an established securities market or (ii) the non-U.S. holder has owned or is deemed to have owned, at any time within the five-year period preceding the disposition or the non-U.S. holder’s holding period, whichever period is shorter, more than 5% of our common stock.

Generally, a corporation is a U.S. real property holding corporation if the fair market value of its “U.S. real property interests,” as defined in the Code and applicable Treasury Regulations, equals or exceeds 50% of the aggregate fair market value of its worldwide real property interests and its other assets used or held for use in a trade or business. Our assets consist primarily of interests in towers and underlying ground leases (which constitute U.S. real property interests for purposes of determining whether we are a U.S. real property holding corporation). As a result, we believe that we are currently a U.S. real property holding corporation and will continue to be one for the foreseeable future.

Our common stock is currently listed on the Nasdaq Global Select Market and we believe that, for as long as we continue to be so listed, our common stock will be treated as regularly traded on an established securities market. If, as we believe, we are and continue to be a U.S. real property holding corporation, and if our common stock ceased to be regularly traded on an established securities market, a non-U.S. holder generally would be subject to U.S. federal income tax on any gain from the disposition of our common stock and transferees of our stock would generally be required to withhold 10% of the gross proceeds payable to the transferor. The gain would be subject to regular U.S. income tax as if the non-U.S. holder were a U.S. resident, and the non-U.S. holder would be required to file a U.S. tax return with respect to such gain. Regardless of whether our common stock is regularly traded on an established securities market, if, as we believe, we are and continue to be a U.S. real property holding corporation, a non-U.S. holder that has owned, or is deemed to have owned, at any time within the shorter of the five-year period preceding the disposition of our common stock or the non-U.S. holder’s holding period, more than 5% of our common stock, generally will be subject to U.S. federal income tax on any gain from the disposition of our common stock. The gain will be subject to regular U.S. income tax as if the non-U.S. holder were a U.S. resident, and a non-U.S. holder will be required to file a U.S. tax return with respect to such gain.

Information Reporting Requirements and Backup Withholding

Information returns will be filed with the Internal Revenue Service in connection with payments of dividends and the proceeds from a sale or other disposition of common stock. A non-U.S. holder may have to comply with certification procedures to establish that it is not a United States person or otherwise establish an exemption in order to avoid information reporting and backup withholding requirements. The certification procedures required to claim a reduced rate of withholding under a treaty will satisfy the certification requirements necessary to avoid the backup withholding as well. The amount of any backup withholding from a payment to a non-U.S. holder will be allowed as a credit against such non-U.S. holder’s U.S. federal income tax liability and may entitle such non-U.S. holder to a refund, provided that the required information is furnished to the Internal Revenue Service in a timely manner.

Withholding on Payments to Certain Foreign Entities

Effective for payments after December 31, 2012 (subject to a limited transition rule), the Foreign Account Tax Compliance Act (“FATCA”) imposes withholding at a 30% rate on payments to (i) a foreign financial institution unless such foreign financial institution agrees to verify, report and disclose its U.S. accountholders and meet certain other specified requirements or (ii) a non-financial foreign entity that is the beneficial owner of the payment unless such entity certifies that it does not have any substantial U.S. owners or provides the name, address and taxpayer identification number of each substantial U.S. owner and such entity meets certain other specified requirements. Transition relief delays FATCA withholding on dividends to dividends paid after December 31, 2013 and on gross proceeds from the sale or other disposition of common stock to amounts paid after December 31, 2014. Non-U.S. holders should consult their tax advisors regarding the possible implications of FATCA for their investment in our common stock.

Federal Estate Tax

Individual non-U.S. holders and entities the property of which is potentially includible in such an individual’s gross estate for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers), should note that, absent an applicable treaty benefit, the common stock will be treated as U.S. situs property subject to U.S. federal estate tax.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase of our Class A common stock by employee benefit plans that are subject to Title I of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Internal Revenue Code of 1986, as amended (the “Code”) or provisions under any other federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of ERISA or the Code (collectively, “Similar Laws”), and entities whose underlying assets are considered to include “plan assets” of any such plan, account or arrangement (each, a “Plan”).

General Fiduciary Matters

ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (an “ERISA Plan”) and prohibit certain transactions involving the assets of an ERISA Plan and its fiduciaries or other interested parties. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of such an ERISA Plan or the management or disposition of the assets of such an ERISA Plan, or who renders investment advice for a fee or other compensation to such an ERISA Plan, is generally considered to be a fiduciary of the ERISA Plan.

In considering an investment in our Class A common stock of a portion of the assets of any Plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Law relating to a fiduciary’s duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans from engaging in specified transactions involving plan assets with persons or entities who are “parties in interest,” within the meaning of ERISA, or “disqualified persons,” within the meaning of Section 4975 of the Code, unless an exemption is available. A party in interest or disqualified person who engaged in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of the ERISA Plan that engaged in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code.

The acquisition of our Class A common stock by an ERISA Plan with respect to which we are or the underwriters are considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions, or “PTCEs,” that may apply to the acquisition and holding of our Class A common stock. These class exemptions include, without limitation, PTCE 84-14 respecting transactions determined by independent qualified professional asset managers, PTCE 90-1 respecting insurance company pooled separate accounts, PTCE 91-38 respecting bank collective investment funds, PTCE 95-60 respecting life insurance company general accounts and PTCE 96-23 respecting transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide relief from the prohibited transaction provisions of ERISA and Section 4975 of the Code for certain transactions, provided that neither the issuer of the securities nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any ERISA Plan involved in the transaction and provided further that the ERISA Plan pays no more than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Because of the foregoing, our Class A common stock should not be purchased by any person investing “plan assets” of any Plan, unless such purchase will not constitute a non-exempt prohibited transaction under ERISA and the Code or a similar violation of any applicable Similar Laws.

Representation

Accordingly, by acceptance of our Class A common stock, each purchaser and subsequent transferee of our Class A common stock will be deemed to have represented and warranted that either (i) no portion of the assets used by such purchaser or transferee to purchase our Class A common stock constitutes assets of any Plan or (ii) the purchase of our Class A common stock by such purchaser or transferee will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or similar violation under any applicable Similar Laws.

The foregoing discussion is general in nature and is not intended to be all-inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that

Table of Contents

fiduciaries, or other persons considering purchasing our Class A common stock on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such investment and whether an exemption would be applicable to the purchase of our Class A common stock.

UNDERWRITING

Under the terms of an underwriting agreement, which will be filed as an exhibit to a current report on Form 8-K and incorporated by reference in this prospectus supplement and the accompanying prospectus, Citigroup Global Markets Inc. and J.P. Morgan Securities LLC have agreed to purchase from us, and we have agreed to sell to the underwriters, 6,005,000 shares of our Class A common stock.

The underwriting agreement provides that the underwriters' obligation to purchase shares of Class A common stock depends on the satisfaction of the conditions contained in the underwriting agreement, including:

- the obligation to purchase all of the shares of Class A common stock offered hereby, if any of the shares are purchased;
- the representations and warranties made by us to the underwriters are true and correct;
- there is no material change in the financial markets; and
- we deliver customary closing documents to the underwriters.

Commissions and Expenses

The underwriters propose to offer the shares of Class A common stock from time to time for sale in one or more transactions on the Nasdaq Global Select Market in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or negotiated prices, subject to receipt and acceptance by it and subject to its right to reject any order in whole or in part. In connection with the sale of the shares of Class A common stock offered hereby, the underwriters may be deemed to have received compensation in the form of underwriting discounts. The underwriters may effect such transactions by selling shares of Class A common stock to or through dealers, and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or purchasers of shares of Class A common stock for whom they may act as agent or to whom they may sell as principal. The difference between the price at which the underwriters purchase shares and the price at which the underwriters resell such shares, which may include a commission equivalent of up to \$.05 per share, may be deemed underwriting compensation.

The expenses of the offering that are payable by us are estimated to be \$250,000 (exclusive of underwriting discounts and commissions).

Lock-Up Agreements

We have agreed that, without the prior written consent of Citigroup Global Markets Inc., we will not directly or indirectly, offer, pledge, announce the intention to sell, sell, contract to sell, sell an option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of any Class A common stock or any securities which may be converted into or exchanged for any Class A common stock (other than Class A common stock or securities convertible into or exchangeable for Class A common stock issued pursuant to employee benefit plans, equity incentive plans or other employee compensation plans existing on the date hereof or pursuant to currently outstanding options, warrants or rights, shares of Class A common stock issued pursuant to registration statements on Form S-4 in connection with acquisition transactions or earn-out obligations under acquisition transactions or shares of Class A common stock issued upon conversion of the Company's 1.875% convertible senior notes due 2013 or the 4.0% convertible senior notes due 2014 or shares of Class A common stock to be issued in connection with the acquisition of the Mobilitie Companies) or enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the Class A common stock or make any demand for or exercise any right to file or cause to be filed a registration statement with respect to the registration of any shares of our Class A common stock or securities which may be converted into or exchanged for any Class A common stock (other than registration statements filed on Form S-4 or Form S-8 or in connection with registration rights obligations incurred in connection with the acquisition of the Mobilitie Companies) for a period of 45 days from the date of this prospectus supplement other than permitted transfers.

Indemnification

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make for these liabilities.

Stabilization and Short Positions

In connection with this offering, the underwriters may engage in stabilizing transactions, covering transactions or purchases for the purpose of pegging, fixing or maintaining the price of the Class A common stock, in accordance with Regulation M under the Securities Exchange Act of 1934, as amended:

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Covering transactions involve purchases of the Class A common stock in the open market after the distribution has been completed in order to cover short positions.

Table of Contents

These stabilizing transactions and covering transactions may have the effect of raising or maintaining the market price of our Class A common stock or preventing or retarding a decline in the market price of our Class A common stock. As a result, the price of our Class A common stock may be higher than the price that might otherwise exist in the open market. These transactions, if commenced, may be discontinued at any time.

Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our Class A common stock. In addition, neither we nor the underwriters make any representation that the underwriters will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Passive Market Making

In connection with the offering, the underwriters may engage in passive market making transactions in the Class A common stock on the Nasdaq Global Select Market in accordance with Rule 103 of Regulation M under the Securities Exchange Act of 1934 during the period before the commencement of offers or sales of Class A common stock and extending through the completion of distribution. A passive market maker must display its bids at a price not in excess of the highest independent bid of the security. However, if all independent bids are lowered below the passive market maker's bid that bid must be lowered when specified purchase limits are exceeded.

Electronic Distribution

A prospectus supplement and the accompanying prospectus in electronic format may be made available on Internet sites or through other online services maintained by the underwriters or by their affiliates. In those cases, prospective investors may view offering terms online and may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of shares for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriters on the same basis as other allocations.

Other than the prospectus supplement and the accompanying prospectus in electronic format, the information on the underwriters' web sites and any information contained in any other web site maintained by the underwriters is not part of the prospectus supplement and the accompanying prospectus or the registration statement of which this prospectus supplement and the accompanying prospectus form a part, has not been approved and/or endorsed by us or the underwriters in their capacity as underwriters and should not be relied upon by investors.

Stamp Taxes

If you purchase shares of Class A common stock offered in this prospectus supplement and the accompanying prospectus, you may be required to pay stamp taxes and other charges under the laws and practices of the country of purchase, in addition to the offering price listed on the cover page of this prospectus supplement and the accompanying prospectus.

Relationships

The underwriters and certain of their affiliates have performed investment banking, commercial banking and advisory services for us from time to time for which they received customary fees and expenses. The underwriters and certain of their affiliates may, from time to time in the future, engage in transactions with and perform services for us in the ordinary course of their business. In particular, under our credit agreement, J.P. Morgan Chase Bank N.A., which is an affiliate of J.P. Additionally, the underwriters served as initial purchasers in connection with the offering of our existing 8.0% senior notes due 2016 and 8.25% senior notes due 2019. To the extent that the underwriters or their affiliates may hold a portion of the notes being redeemed by the Company for their own account or for the account of customers, such underwriters or their affiliates may receive a portion of the proceeds of this offering. In addition, the underwriters served as initial purchasers in connection with the offering of our Secured Tower Revenue Securities Series 2010-1 (the "2010-1 Tower Securities") and Secured Tower Revenue Securities Series 2010-2 (the "2010-2 Tower Securities"). - where no consideration is or will be given for the transfer; or
- where the transfer is by operation of law.

About this Prospectus

This prospectus is part of an automatic shelf registration statement on Form S-3 that we filed with the Securities and Exchange Commission, or the Commission, as a “well-known seasoned issuer” as defined in Rule 405 under the Securities Act of 1933, as amended. Under this shelf process, we or selling shareholders may, in one or more offerings, sell any combination of securities described in this prospectus or other securities that we may subsequently add in a post-effective amendment to this registration statement. This prospectus provides you with a general description of the securities we or our selling shareholders may offer. Each time we or our selling shareholders sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read both this prospectus and any applicable prospectus supplement together with additional information described below under the heading “Where You Can Find More Information; Incorporation by Reference.”

When used in this prospectus and any prospectus supplement, the terms “SBA,” “we,” “our,” and “us” refer to SBA Communications Corporation and its subsidiaries.

The Company

We are a leading independent owner and operator of wireless communications towers. Our principal operations are in the United States and its territories. In addition, we own towers in Canada, Costa Rica, El Salvador, Guatemala, Nicaragua and Panama. Our primary business line is our site leasing business. In our site leasing business, we lease antenna space primarily to wireless service providers on towers and other structures that we own, manage or lease from others. The towers that we own have been constructed by us at the request of a wireless service provider, built or constructed based on our own initiative or acquired. As of December 31, 2011, we owned 10,524 tower sites, the substantial majority of which have been built by us or built by other tower owners or operators who, like us, have built such towers to lease space to multiple wireless service providers. We also managed or leased approximately 4,839 actual or potential communications sites, approximately 505 of which were revenue producing as of December 31, 2011. Our other business line is our site development business, through which we assist wireless service providers in developing and maintaining their own wireless service networks.

Our principal executive offices are located at 5900 Broken Sound Parkway NW, Boca Raton, FL 33487 and our telephone number is (561) 995- 7670. We were founded in 1989 and incorporated in Florida in 1997.

Risk Factors

Investing in our securities involves risks. Potential investors are urged to read and consider the risk factors relating to an investment in SBA described in our Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q, filed with the Commission and incorporated by reference in this prospectus. The risks and uncertainties described in these risk factors are not the only ones facing our company. Additional risks and uncertainties not presently known to us or that we currently consider immaterial may also affect our business operations. A prospectus supplement applicable to each type or series of securities we offer will also contain a discussion of the risks applicable to the particular type of securities we are offering under that prospectus supplement. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus and any prospectus supplement.

Disclosure Regarding Forward-Looking Statements

This prospectus and the documents that are incorporated by reference into this prospectus contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These statements concern expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. Specifically, this prospectus and the documents incorporated by reference into this prospectus contain forward-looking statements regarding:

- our expectations on the future growth and financial health of the wireless industry and the industry participants, and the drivers of such growth;
- our beliefs regarding our ability to capture and capitalize on industry growth and the impact of such growth on our financial and operational results;
- our expectations regarding the opportunities in the international wireless markets in which we currently operate or have targeted for growth, and our beliefs regarding how we can capitalize on such opportunities;
- our belief that our site leasing business is characterized by stable and long-term recurring revenues, predictable operating costs and minimal non-discretionary capital expenditures;
- our belief that our towers have significant capacity to accommodate additional tenants, that our tower operations are highly scalable, that we can add tenants to our towers at minimal incremental costs, and the impact of these economies of scale on our cash flow and financial results;
- our intent to grow our tower portfolio, domestically and internationally, through the consummation of the Mobilitie transaction, additional tower acquisitions and the construction of new towers;
- our expectation that we will continue our ground lease purchase program and the estimates of the impact of such program on our financial results;
- our expectation that we will continue to incur losses;
- our expectations regarding our future cash capital expenditures, both discretionary and non-discretionary, including expenditures required to maintain, improve and modify our towers and general corporate expenditures;
- our estimates regarding our liquidity position in 2012 and our intended use of our liquidity;
- our expectation that our revenues from our international operations will grow in the future;
- our expectations regarding the effectiveness of our convertible note hedge transactions to minimize the dilution and costs associated with our outstanding convertible notes; and
- our estimates regarding certain accounting and tax matters.

These forward-looking statements reflect our current views about future events and are subject to risks, uncertainties and assumptions. We wish to caution readers that certain important factors may have affected and could in the future affect our actual results and could cause actual results to differ significantly from those expressed in any forward-looking statement. The most important factors that could prevent us from achieving our goals, and cause the assumptions underlying forward-looking statements and the actual results to differ materially from those expressed in or implied by those forward-looking statements include, but are not limited to, the following:

- the impact of consolidation among wireless service providers on our leasing revenue;

Table of Contents

- developments in the wireless communications industry in general, and for wireless communications infrastructure providers in particular, that may slow growth or affect the willingness or ability of the wireless service providers to expend capital to fund network expansion or enhancements;
- our ability to secure as many site leasing tenants as anticipated, recognize our expected economies of scale with respect to new tenants on our towers, and retain current leases on towers;
- our ability to secure and deliver anticipated services business at contemplated margins;
- factors that would adversely impact our ability to build the anticipated number of new towers, including our ability to identify and acquire land that would be attractive for our clients and to successfully and timely address zoning, permitting and other issues that arise in connection with the building of new towers;
- competition for the acquisition of towers and other factors that may adversely affect our ability to purchase towers that meet our investment criteria and are available at prices which we believe will be accretive to our shareholders and allow us to maintain our long-term target leverage ratios;
- our ability to effectively integrate acquired towers into our business and to achieve the financial results projected in our valuation models for the acquired towers;
- our ability to successfully manage the risks associated with international operations, including foreign exchange risk, currency restrictions and foreign regulatory and legal risks;
- our intent and ability to continue our ground lease purchase program and the effect of such ground lease purchases on our margins and long-term financial condition;
- our ability to continue to comply with covenants and the terms of our credit instruments;
- our ability to obtain additional financing to acquire towers;
- our ability to sufficiently increase our revenues and maintain expenses and cash capital expenditures at appropriate levels to permit us to meet our anticipated uses of liquidity for operations, debt service and estimated portfolio growth;
- our ability to successfully estimate the impact of certain accounting and tax matters, including the effect on our company of adopting certain accounting pronouncements and the availability of sufficient net operating losses to offset future taxable income; and
- natural disasters and other unforeseen damage for which our insurance may not provide adequate coverage.

Selling Shareholders

We may register securities covered by this prospectus to permit selling shareholders to resell their securities. We may register securities for resale by selling shareholders by filing a prospectus supplement with the Commission. The prospectus supplement would set forth information about the selling shareholder, including their name, the amount of their securities that will be registered and sold, their beneficial ownership of the securities and their relationship with us.

Ratio of Earnings to Fixed Charges

For purposes of calculating the ratio of earnings to fixed charges, earnings represent net loss before income taxes, cumulative effect of changes in accounting principles, discontinued operations and dividends on preferred stock. Fixed charges consist of interest expense, the component of rental expense believed by management to be representative of the interest factor thereon, amortization of original issue discount and debt issue costs and preferred dividends. We had a deficiency in earnings to fixed charges of \$124.5 million for 2011, \$193.3 million for 2010, \$140.3 million for 2009, \$65.8 million for 2008 and \$90.3 million for 2007.

There were no preferred shares outstanding, and therefore no preference dividends paid, for the years ended December 31, 2011, 2010, 2009, 2008 and 2007.

Use of Proceeds

Unless otherwise indicated in a prospectus supplement, we intend to use the net proceeds from the sale of securities sold by us under this prospectus for general corporate purposes. Unless otherwise set forth in a prospectus supplement, we will not receive any proceeds from the sale of our securities sold by any selling shareholder. The prospectus supplement relating to an offering will contain a more detailed description of the use of proceeds of any specific offering of securities.

The Securities

We may from time to time offer under this prospectus, separately or together:

- shares of Class A common stock;
- shares of preferred stock, which may be represented by depositary shares as described below;
- unsecured senior, senior subordinated or subordinated debt securities; and
- warrants to purchase shares of (i) Class A common stock; (ii) preferred stock; (iii) depositary shares and (iv) debt securities.

Any issuance of preferred stock could be used to discourage, delay or make more difficult a change in control.

Class A Common Stock

Voting Rights

Each share of Class A common stock is entitled to one vote. Unless otherwise required by Florida law, once a quorum is present, a majority of the votes cast is required to approve action on a matter other than the election of directors. Once a quorum is present, directors are elected by a majority of the votes cast in uncontested elections. In contested elections, directors are elected by a plurality of votes cast. Our Articles of Incorporation provide that the amendment of certain provisions of our Articles of Incorporation, including those related to the number of directors and director vacancies, indemnification and amendments to those provisions, require a vote of at least two-thirds of the outstanding shares.

Convertibility

There are no conversion provisions applicable to the Class A common stock.

Dividends

Each share of Class A common stock is entitled to receive dividends if, as and when declared by the Board of Directors out of funds legally available for that purpose, subject to preferences that may apply to any preferred stock that we may issue in the future.

Liquidation Rights

In the event of our dissolution or liquidation, after satisfaction of all our debts and liabilities and distributions to the holders of any preferred stock that we may issue in the future, if any, of amounts to which they are preferentially entitled, the holders of Class A common stock will be entitled to share ratably in the distribution of assets to the shareholders.

Table of Contents

Other Provisions

There are no cumulative, subscription or preemptive rights to subscribe for any additional securities which we may issue, and there are no redemption provisions, conversion provisions or sinking fund provisions applicable to the Class A common stock.

The rights and preferences of holders of Class A common stock are subject to the rights of any series of preferred stock which we may issue in the future.

Class B Common Stock

We previously had issued and outstanding Class B common stock. However, pursuant to the terms of the Class B common stock, each share of Class B common stock immediately converted into one fully paid and non-assessable share of Class A common stock when the shares of Class B common stock held by eligible Class B shareholders, in the aggregate, constituted 10% or less of the outstanding shares of our common stock. There are currently no issued and outstanding shares of Class B common stock and, pursuant to our articles of incorporation, we cannot issue new shares of Class B Common stock.

Preferred Stock

Our Board of Directors is authorized by our articles of incorporation to provide for the issuance of shares of preferred stock, in one or more series, to establish the number of shares to be included in each series, to fix the designation, rights, preferences, privileges and restrictions of the shares of each series and to increase or decrease the number of shares of any series of preferred stock, all without any further vote or action by our shareholders.

- the liquidation preference, if any, and any accumulated dividends upon the liquidation, dissolution or winding up of our affairs;
- any sinking fund or similar provision, and, if so, the terms and provisions relating to the purpose and operation of the fund;
- the terms and conditions, if any, for conversion or exchange of shares into or for any other class or classes of our capital stock or any series of any other class or classes, or into or for any other series of the same class, or any other securities or assets, including the price or the rate of conversion or exchange and the method, if any, of adjustment;
- any preemption rights;
- any restriction on the repurchase or redemption of shares while there is any arrearage in the payment of dividends or sinking fund installments;
- the voting rights; and
- any or all other preferences and relative, participating, optional or other special rights, privileges or qualifications, limitations or restrictions.

Preferred stock will be fully paid and nonassessable upon issuance. The preferred stock or any series of preferred stock may be represented, in whole or in part, by one or more global certificates, which will represent an aggregate number of shares equal to that of the preferred stock represented by the global certificate.

Each global certificate will:

- be registered in the name of a depositary or a nominee of the depositary identified in the prospectus supplement;
- be deposited with such depositary or nominee or a custodian for the depositary; and
- bear a legend regarding any restrictions on exchanges and registration of transfer and any other matters as may be provided for under the certificate of designations.

Table of Contents

Anti-takeover Effects of our Articles of Incorporation and Bylaws

Pursuant to our Articles of Incorporation, our Board of Directors is divided into three classes of directors, denoted as Class I, Class II and Class III. Newly created directorships resulting from any increase in the authorized number of directors or any vacancies in the Board of Directors shall be filled by a majority of the directors then in office. Our classified Board of Directors will have the result, unless directors are removed, that at least two annual meetings of shareholders will be required for a majority of shareholders to make a change in control of the Board of Directors.

Our Articles of Incorporation provide that our Board of Directors may provide further issuance of Preferred Stock, in one or more series, to establish the number of shares to be included in each series, to fix the designation, rights, preferences, privileges and restrictions of the shares of each series and to increase or decrease the number of shares of any series of Preferred Stock, all without any further vote or action by our shareholders. The existence of authorized but unissued and unreserved Preferred Stock may enable our Board of Directors to issue shares to persons friendly to current management, which could render more difficult or discourage an attempt to obtain control of our company by means of a proxy contest, tender offer, merger or otherwise, and thereby protect the continuity of our management.

Our Articles of Incorporation and Bylaws do not provide for cumulative voting. Additionally, our Bylaws establish advance notice procedures with respect to shareholder proposals and nomination of candidates for election as directors other than nominations made by or at the direction of our Board of Directors or a committee of our Board of Directors. A combination of our cumulative voting policy and the advance notice procedures make it more difficult to effect a change in the composition of our Board of Directors.

Indemnification

Both our Articles of Incorporation and Bylaws provide for indemnification of our directors and officers to the fullest extent permitted by the Florida Business Corporation Act. We also maintain and pay premiums on an insurance policy on behalf of our directors and officers covering losses from certain claims. In addition, we have entered into indemnification agreements with our directors and certain officers that provide for the indemnification of our directors and certain officers, to the fullest extent permitted by the Florida Business Corporation Act, our articles of incorporation and our bylaws, against expenses incurred by such persons in connection with their service as (i) our director or officer, (ii) in any capacity with respect to any of our employee benefit plans, or (iii) as a director, partner, trustee, officer, employee or agent of any other entity at our request. In addition, the agreements provide for our obligation to advance expenses, under certain circumstances, and provide for additional procedural protections.

Transfer Agent

The transfer agent and registrar for our Class A common stock is Computershare Trust Company, N.A.

Description of Debt Securities

The debt securities will be our unsecured direct obligations. The debt securities may be senior or subordinated indebtedness. The debt securities will be issued under one or more indentures between us and a trustee. Any indenture will be subject to, and governed by, the Trust Indenture Act of 1939, as amended. The statements made in this prospectus relating to any indenture and the debt securities to be issued under any indenture are summaries of certain anticipated provisions of the indentures, do not purport to be complete and are subject to, and are qualified in their entirety by reference to, all provisions of the indentures and the debt securities.

General

We have filed with this registration statement a form of indenture relating to our senior securities and a form of indenture relating to our senior subordinated securities and subordinated securities. Our senior debt securities will rank equally and ratably in right of payment with other indebtedness of ours that is not subordinated, including but not limited to our 1.875% Convertible Senior Notes due in 2013, 4.0% Convertible Senior Notes due 2014 and Senior Notes. While such senior debt securities rank equally and ratably with our other indebtedness that is not subordinated, it is effectively junior to secured debt or debt on the level of our subsidiaries. If we issue subordinated debt securities, they will be subordinated in right of payment to the prior payment in full of senior indebtedness, as defined in the applicable prospectus supplement, and may rank equally and ratably with any other subordinated indebtedness. They may, however, also be subordinated in right of payment to senior subordinated securities. See “—Subordination.” We may issue the debt securities without limit as to aggregate principal amount, in one or more series, in each case as established from time to time in or pursuant to authority granted by a resolution of our Board of Directors or as established in one or more supplemental indentures. We need not issue all debt securities of one series at the same time. Unless we otherwise provide, we may reopen a series, without the consent of the holders of such series, for issuances of additional securities of that series.

We anticipate that any indenture will provide that we may, but need not, designate more than one trustee under an indenture, each with respect to one or more series of debt securities. Any trustee under any indenture may resign or be removed with respect to one or more series of debt securities, and a successor trustee may be appointed to act with respect to that series. The applicable prospectus supplement will describe the specific terms relating to the series of debt securities we will offer, including, where applicable, the following:

- the title and series designation and whether they are senior securities, senior subordinated securities or subordinated securities;
- the aggregate principal amount of the securities;

Table of Contents

- the percentage of the principal amount at which we will issue the debt securities if other than the principal amount of the debt securities;
- the rights evidenced by the securities;
- the portion of the principal amount of the debt securities payable upon declaration of acceleration of the maturity of the debt securities, or if convertible, the initial conversion price, the conversion period and any other terms governing such conversion;
- the stated maturity date;
- any fixed or variable interest rate or rates per annum;
- the date from which interest may accrue and any interest payment dates;
- any sinking fund requirements;
- any retirement provisions;
- any provisions for redemption, including the redemption price and any remarketing arrangements;
- any provisions with respect to the kind and priority of liens securing the securities;
- any provisions restricting the declaration of dividends or requiring the maintenance of any asset ratio or maintenance reserves;
- provisions restricting the incurrence of additional debt or the issuance of additional securities;
- provisions related to the modification of the terms of the security of the rights of shareholders;
- any provisions regarding a trustee;
- whether the securities are denominated or payable in United States dollars or a foreign currency or units of two or more foreign currencies;
- the events of default and covenants of such securities, to the extent, different from or in addition to those described in this prospectus;
- whether we will issue the debt securities in certificated and/or book-entry form;
- whether the debt securities will be in registered or bearer form and, if in registered form, the denominations if other than in even multiples of \$1,000 and, if in bearer form, the denominations and terms and conditions relating thereto;
- whether we will issue any of the debt securities in permanent global form and, if so, the terms and conditions, if any, upon which interests in the global security may be exchanged, in whole or in part, for the individual debt securities represented by the global security;
- the applicability, if any, of the defeasance and covenant defeasance provisions described in this prospectus or any prospectus supplement;

Table of Contents

- whether we will pay additional amounts on the securities in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem the debt securities instead of making this payment; and
- the subordination provisions, if any, relating to the debt securities.

We may issue debt securities at less than the principal amount payable upon maturity (we refer to these securities as “original issue discount securities”). If material or applicable, we will describe in the applicable prospectus supplement special U.S. federal income tax, accounting and other considerations applicable to original issue discount securities.

Except as described under “—Merger, Consolidation or Sale of Assets” or as may be set forth in any prospectus supplement, an indenture will not contain any other provisions that would limit our ability to incur indebtedness or that would afford holders of the debt securities protection in the event of a highly leveraged or similar transaction involving us or in the event of a change of control. You should review carefully the applicable prospectus supplement for information with respect to events of default and covenants applicable to the securities being offered.

Denominations, Interest, Registration and Transfer

Unless otherwise described in the applicable prospectus supplement, we will issue the debt securities of any series that are registered securities in denominations that are even multiples of \$1,000, other than global securities, which may be of any denomination.

Unless otherwise specified in the applicable prospectus supplement, we will pay the interest on and principal of and premium, if any, on any debt securities at the corporate trust office of the trustee. At our option, however, we may make payment of interest by check mailed to the address of the person entitled to the payment as it appears in the applicable register or by wire transfer of funds to that person at an account maintained within the United States.

If we do not punctually pay or duly provide for interest on any interest payment date, the defaulted interest will be paid either:

- to the person in whose name the debt security is registered at the close of business on a special record date to be fixed by the applicable trustee; or
- in any other lawful manner, all as more completely described in the applicable indenture.

You may have your debt securities broken into more debt securities of smaller denominations or combined into fewer debt securities of larger denominations, as long as the total principal amount is not changed. This is called an “exchange.”

You may exchange or transfer debt securities at the office of the trustee. The trustee acts as our agent for registering debt securities in the names of holders and transferring debt securities. We may change this appointment to another entity or perform it ourselves. The entity performing the role of maintaining the list of registered holders is called the “security registrar.” It will also perform transfers.

You will not be required to pay a service charge to transfer or exchange debt securities, but you may be required to pay for any tax or other governmental charge associated with the exchange or transfer. The security registrar will make the transfer or exchange only if it is satisfied with your proof of ownership.

Table of Contents

Merger, Consolidation or Sale of Assets

Under any indenture, we are generally permitted to consolidate or merge with another company. We are also permitted to sell substantially all of our assets to another company, or to buy substantially all of the assets of another company. However, we may not take any of these actions unless all the following conditions are met:

- If we merge out of existence or sell our assets, the other company must be a corporation, partnership or other entity organized under the laws of a State or the District of Columbia or under federal law. The other company must agree to be legally responsible for the debt securities.
- The merger, sale of assets or other transaction must not cause a default on the debt securities. In addition, we must not already be in default, unless the merger or other transaction would cure the default. A default for this purpose would include any event that would be an event of default if the requirements for giving us default notice or our default having to exist for a specific period of time were disregarded.
- Any other condition described in the applicable prospectus supplement.

Events of Default and Related Matters

Events of Default

The term “event of default” means any of the following:

- We do not pay the principal or any premium on a debt security on its due date.
- We do not pay interest on a debt security within 30 days of its due date.
- We remain in breach of any other term of the applicable indenture for 60 days after we receive a notice of default stating we are in breach. Either the trustee or holders of 25% of the principal amount of debt securities of the affected series may send the notice.
- We file for bankruptcy or certain other events in bankruptcy, insolvency or reorganization occur.
- Any other event of default described in the applicable prospectus supplement occurs.

Remedies If an Event of Default Occurs

If an event of default has occurred and has not been cured, the trustee or the holders of a significant portion in principal amount of the debt securities of the affected series may declare the entire principal amount of all the debt securities of that series to be due and immediately payable. This is called a declaration of acceleration of maturity. If an event of default occurs because of certain events in bankruptcy, insolvency or reorganization, the principal amount of all the debt securities of that series will be automatically accelerated, without any action by the trustee or any holder. At any time after the trustee or the holders have accelerated any series of debt securities, but before a judgment or decree for payment of the money due has been obtained, the holders of at least a majority in principal amount of the debt securities of the affected series may, under certain circumstances, rescind and annul such acceleration.

Table of Contents

Except in cases of default, where the trustee has some special duties, the trustee is not required to take any action under the applicable indenture at the request of any holders unless the holders offer the trustee reasonable protection from expenses and liability. This is known as an indemnity. If reasonable indemnity is provided, the holders of a majority in principal amount of the outstanding securities of the relevant series may direct the time, method and place of conducting any lawsuit or other formal legal action seeking any remedy available to the trustee. These majority holders may also direct the trustee in performing any other action under the applicable indenture, subject to certain limitations.

Before you bypass the trustee and bring your own lawsuit or other formal legal action or take other steps to enforce your rights or protect your interests relating to the debt securities, the following must occur:

- You must give the trustee written notice that an event of default has occurred and remains uncured.
- The holders of at least 25% in principal amount of all outstanding securities of the relevant series must make a written request that the trustee take action because of the default, and must offer reasonable indemnity to the trustee against the cost and other liabilities of taking that action.
- The trustee must have not taken action for 60 days after receipt of the above notices and offer of indemnity. However, you are entitled at any time to bring a lawsuit for the payment of money due on your security after its due date.

We will furnish to the trustee every year a written statement of certain of our officers certifying that to their knowledge we are in compliance with the applicable indenture and the debt securities, or else specifying any default.

Modification of an Indenture

We will set forth in the applicable prospectus supplement the terms and conditions upon which we can make changes to an indenture or the debt securities. There are three types of changes we can make to the indentures and the debt securities:

Changes Requiring Unanimous Approval

First, there are changes we cannot make to your debt securities without your specific approval. Following is a list of those types of changes:

- change the stated maturity of the principal or interest on a debt security;
- reduce any amounts due on a debt security;
- reduce the amount of principal payable upon acceleration of the maturity of a debt security following a default;
- change the place or currency of payment on a debt security; and
- impair your right to sue for payment.

Table of Contents

Changes Requiring a Majority Vote

The second type of change to an indenture and the debt securities is the kind that requires a vote in favor by holders of debt securities owning a majority of the principal amount of the particular series affected. Most changes fall into this category, except for clarifying changes and certain other changes that would not adversely affect holders of the debt securities. We require the same vote to obtain a waiver of a past default. However, we cannot obtain a waiver of a payment default or any other aspect of an indenture or the debt securities listed in the first category described under “—Changes Requiring Unanimous Approval” unless we obtain your individual consent to the waiver.

Changes Not Requiring Approval

The third type of change does not require any vote by holders of debt securities. This type is limited to clarifications and certain other changes that would not adversely affect holders of the debt securities.

Discharge, Defeasance and Covenant Defeasance

Discharge

We may discharge some obligations to holders of any series of debt securities that either have become due and payable or will become due and payable within one year, or scheduled for redemption within one year, by irrevocably depositing with the trustee, in trust, funds in the applicable currency in an amount sufficient to pay the debt securities, including any premium and interest.

Full Defeasance

We can, under particular circumstances, effect a full defeasance of your series of debt securities. By this we mean we can legally release ourselves from any payment or other obligations on the debt securities if we put in place the following arrangements to repay you:

- We must deposit in trust for your benefit and the benefit of all other direct holders of the debt securities a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates.
- The current federal tax law must be changed or an IRS ruling must be issued permitting the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves. Under current federal tax law, the deposit and our legal release from the debt securities would be treated as though we took back your debt securities and gave you your share of the cash and notes or bonds deposited in trust. In that event, you could recognize gain or loss on the debt securities you give back to us.
- We must deliver to the trustee a legal opinion confirming the tax law change described above.

If we did accomplish full defeasance, you would have to rely solely on the trust deposit for repayment on the debt securities. You could not look to us for repayment in the unlikely event of any shortfall. Conversely, the trust deposit would most likely be protected from claims of our lenders and other creditors if we ever become bankrupt or insolvent. You would also be released from any subordination provisions.

Table of Contents

Covenant Defeasance

Under current federal tax law, we can make the same type of deposit described above and be released from some of the restrictive covenants in the debt securities. This is called “covenant defeasance.” In that event, you would lose the protection of those restrictive covenants but would gain the protection of having money and securities set aside in trust to repay the securities and you would be released from any subordination provisions. In order to achieve covenant defeasance, we must do the following:

- We must deposit in trust for your benefit and the benefit of all other direct holders of the debt securities a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the debt securities on their various due dates.
- We must deliver to the trustee a legal opinion confirming that under current federal income tax law we may make the above deposit without causing you to be taxed on the debt securities any differently than if we did not make the deposit and just repaid the debt securities ourselves.

If we accomplish covenant defeasance, the following provisions of an indenture and the debt securities would no longer apply:

- any covenants applicable to the series of debt securities and described in the applicable prospectus supplement;
- any subordination provisions; and
- certain events of default relating to breach of covenants and acceleration of the maturity of other debt set forth in any prospectus supplement.

If we accomplish covenant defeasance, you can still look to us for repayment of the debt securities if there were a shortfall in the trust deposit. If one of the remaining events of default occurs, for example, our bankruptcy, and the debt securities become immediately due and payable, there may be a shortfall. Depending on the event causing the default, you may not be able to obtain payment of the shortfall.

Subordination

We will set forth in the applicable prospectus supplement the terms and conditions, if any, upon which any series of senior subordinated securities or subordinated securities is subordinated to debt securities of another series or to other indebtedness of ours. The terms will include a description of:

- the indebtedness ranking senior to the debt securities being offered;
- the restrictions on payments to the holders of the debt securities being offered while a default with respect to the senior indebtedness is continuing;
- the restrictions, if any, on payments to the holders of the debt securities being offered following an event of default; and

Table of Contents

- provisions requiring holders of the debt securities being offered to remit some payments to holders of senior indebtedness.

Global Securities

If so set forth in the applicable prospectus supplement, we may issue the debt securities of a series in whole or in part in the form of one or more global securities that will be deposited with a depository identified in the prospectus supplement. We may issue global securities in either registered or bearer form and in either temporary or permanent form. The specific terms of the depository arrangement with respect to any series of debt securities will be described in the prospectus supplement.

Description of Depositary Shares

General

The description shown below and in any applicable prospectus supplement of certain provisions of any deposit agreement and of the depositary shares and depositary receipts representing depositary shares does not purport to be complete and is subject to and qualified in its entirety by reference to the forms of deposit agreement and depositary receipts relating to each applicable series of preferred stock. The deposit agreement and the depositary receipts contain the full legal text of the matters described in this section. We will file a copy of those documents with the Commission at or before the time of the offering of the applicable series of preferred stock. This summary also is subject to and qualified by reference to the description of the particular terms of your series of depositary shares described in the applicable prospectus supplement.

We may, at our option, elect to offer fractional interests in shares of preferred stock, rather than shares of preferred stock. If we exercise this option, we will appoint a depository to issue depositary receipts representing those fractional interests. These receipts are known as depositary shares. Preferred stock of each series represented by depositary shares will be deposited under a separate deposit agreement between us and the depository. The prospectus supplement relating to a series of depositary shares will show the name and address of the depository. Subject to the terms of the applicable deposit agreement, each owner of depositary shares will be entitled to all of the dividend, voting, conversion, redemption, liquidation and other rights and preferences of the preferred stock represented by those depositary shares.

Upon surrender of depositary receipts by a holder of depositary shares at the office of the depository, and upon payment of the charges provided in and subject to the terms of the deposit agreement, the holder of depositary shares is entitled to receive the shares of preferred stock underlying the surrendered depositary receipts.

Dividends and Other Distributions

A depository will be required to distribute all cash dividends or other cash distributions received in respect of the applicable preferred stock to the record holders of depositary receipts evidencing the related depositary shares in proportion to the number of depositary receipts owned by the holders. Fractions will be rounded down to the nearest whole cent.

If the distribution is other than in cash, a depository will be required to distribute property received by it to the record holders of depositary receipts entitled thereto, unless the depository determines that it is not feasible to make the distribution. In that case, the depository may, with our approval, sell the property and distribute the net proceeds from the sale to the holders.

Table of Contents

No distributions will be made on any depositary shares that represent preferred stock converted or exchanged. The deposit agreement will also contain provisions relating to the manner in which any subscription or similar rights offered by us to holders of the preferred stock will be made available to holders of depositary shares. All distributions are subject to obligations of holders to file proofs, certificates and other information and to pay certain charges and expenses to the depositary.

Withdrawal of Preferred Stock

You may receive the number of whole shares of your series of preferred stock and any money or other property represented by those depositary receipts after surrendering the depositary receipts at the corporate trust office of the depositary. Partial shares of preferred stock will not be issued. If the depositary shares which you surrender exceed the number of depositary shares that represent the number of whole shares of preferred stock you wish to withdraw, then the depositary will deliver to you at the same time a new depositary receipt evidencing the excess number of depositary shares. Once you have withdrawn your preferred stock, you will not be entitled to re-deposit that preferred stock under the deposit agreement in order to receive depositary shares. We do not expect that there will be any public trading market for withdrawn shares of preferred stock.

Redemption of Depositary Shares

If we redeem a series of the preferred stock underlying the depositary shares, the depositary shares will be redeemed from the proceeds received by the depositary resulting from the redemption, in whole or in part, of the series held by the depositary. The depositary will mail notice of redemption not less than 30 and not more than 60 days before the date fixed for redemption to the record holders of the depositary receipts evidencing the depositary shares we are redeeming at their addresses appearing in the depositary's books. The redemption price per depositary share will be equal to the applicable fraction of the redemption price per share payable with respect to the series of the preferred stock. Whenever we redeem shares of preferred stock held by the depositary, the depositary will redeem as of the same redemption date the number of depositary shares relating to shares of preferred stock so redeemed. If we are redeeming less than all of the depositary shares, the depositary will select the depositary shares we are redeeming by lot or pro rata as the depositary may determine.

After the date fixed for redemption, the depositary shares called for redemption will no longer be deemed outstanding. All rights of the holders of the depositary shares and the related depositary receipts will cease at that time, except the right to receive the money or other property to which the holders of depositary shares were entitled upon redemption. Receipt of the money or other property is subject to surrender to the depositary of the depositary receipts evidencing the redeemed depositary shares.

Voting of the Preferred Stock

Upon receipt of notice of any meeting at which the holders of the applicable preferred stock are entitled to vote, a depositary will be required to mail the information contained in the notice of meeting to the record holders of the applicable depositary receipts. Each record holder of depositary receipts on the record date, which will be the same date as the record date for the preferred stock, will be entitled to instruct the depositary as to the exercise of the voting rights pertaining to the amount of preferred stock represented by the holder's depositary shares. The depositary will try, as practical, to vote the shares as you instruct. We will agree to take all reasonable action that the depositary deems necessary in order to enable it to do so. If you do not instruct the depositary how to vote your shares, the depositary will abstain from voting those shares.

Table of Contents

Liquidation Preference

Upon our liquidation, whether voluntary or involuntary, the holders of each depositary share will be entitled to the fraction of the liquidation preference accorded each share of preferred stock represented by the depositary share, as shown in the applicable prospectus supplement.

Conversion or Exchange of Preferred Stock

The depositary shares will not themselves be convertible into or exchangeable for Class A common stock, preferred stock or any of our other securities or property. Nevertheless, if so specified in the applicable prospectus supplement, the depositary receipts may be surrendered by holders to the applicable depositary with written instructions to it to instruct us to cause conversion of the preferred stock represented by the depositary shares. Similarly, if so specified in the applicable prospectus supplement, we may require you to surrender all of your depositary receipts to the applicable depositary upon our requiring the exchange of the preferred stock represented by the depositary shares into our debt securities. We will agree that, upon receipt of the instruction and any amounts payable in connection with the conversion or exchange, we will cause the conversion or exchange using the same procedures as those provided for delivery of preferred stock to effect the conversion or exchange. If you are converting only a part of the depositary shares, the depositary will issue you a new depositary receipt for any unconverted depositary shares.

Taxation

As owner of depositary shares, you will be treated for U.S. federal income tax purposes as if you were an owner of the series of preferred stock represented by the depositary shares. Therefore, you will be required to take into account for U.S. federal income tax purposes income and deductions to which you would be entitled if you were a holder of the underlying series of preferred stock. In addition:

- no gain or loss will be recognized for U.S. federal income tax purposes upon the withdrawal of preferred stock in exchange for depositary shares as provided in the deposit agreement;
- the tax basis of each share of preferred stock to you as exchanging owner of depositary shares will, upon exchange, be the same as the aggregate tax basis of the depositary shares exchanged for the preferred stock; and
- if you held the depositary shares as a capital asset at the time of the exchange for preferred stock, the holding period for shares of the preferred stock will include the period during which you owned the depositary shares.

Amendment and Termination of a Deposit Agreement

We and the applicable depositary are permitted to amend the provisions of the depositary receipts and the deposit agreement. However, the holders of at least a majority of the applicable depositary shares then outstanding must approve any amendment that adds or increases fees or charges or prejudices an important right of holders. Every holder of an outstanding depositary receipt at the time any amendment becomes effective, by continuing to hold the receipt, will be bound by the applicable deposit agreement as amended.

Any deposit agreement may be terminated by us upon not less than 30 days' prior written notice to the applicable depositary if a majority of each series of preferred stock affected by the termination consents to the termination. When that occurs, the depositary will be required to deliver or make available to each holder of depositary receipts, upon surrender of the depositary receipts held by the holder, the number of whole or fractional shares of preferred stock as are represented by the depositary shares evidenced by the depositary receipts, together with any other property held by the depositary with respect to the depositary receipts. In addition, a deposit agreement will automatically terminate if:

- all depositary shares outstanding shall have been redeemed;

Table of Contents

- there shall have been a final distribution in respect of the related preferred stock in connection with our liquidation and the distribution shall have been made to the holders of depositary receipts evidencing the depositary shares underlying the preferred stock; or
- each of the shares of related preferred stock shall have been converted or exchanged into securities not represented by depositary shares.

Charges of a Depositary

We will pay all transfer and other taxes and governmental charges arising solely from the existence of a deposit agreement. In addition, we will pay the fees and expenses of a depositary in connection with the initial deposit of the preferred stock and any redemption of preferred stock. However, holders of depositary receipts will pay any transfer or other governmental charges and the fees and expenses of a depositary for any duties the holders request to be performed that are outside of those expressly provided for in the applicable deposit agreement.

Resignation and Removal of Depositary

A depositary may resign at any time by delivering to us notice of its election to do so. In addition, we may at any time remove a depositary. Any resignation or removal will take effect when we appoint a successor depositary and it accepts the appointment. We must appoint a successor depositary within 60 days after delivery of the notice of resignation or removal. A depositary must be a bank or trust company having its principal office in the United States that has a combined capital and surplus of at least \$50 million.

Miscellaneous

A depositary will be required to forward to holders of depositary receipts any reports and communications from us that are received by it with respect to the related preferred stock.

Neither a depositary nor we will be liable if it is prevented from or delayed in performing its obligations under a deposit agreement by law or any circumstances beyond its control. Our obligations and those of the depositary under a deposit agreement will be limited to performing their duties in good faith and without gross negligence or willful misconduct. Neither we nor any depositary will be obligated to prosecute or defend any legal proceeding in respect of any depositary receipts, depositary shares or related preferred stock unless satisfactory indemnity is furnished. We and each depositary will be permitted to rely on written advice of counsel or accountants, on information provided by persons presenting preferred stock for deposit, by holders of depositary receipts, or by other persons believed in good faith to be competent to give the information, and on documents believed in good faith to be genuine and signed by a proper party.

If a depositary receives conflicting claims, requests or instructions from any holders of depositary receipts, on the one hand, and us, on the other hand, the depositary shall be entitled to act on the claims, requests or instructions received from us.

Description of Warrants

We have no warrants outstanding. We may issue warrants for the purchase of debt securities, Class A common stock or preferred stock. Warrants may be issued independently or together with any other securities offered by any prospectus supplement and may be attached to or separate from such securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a warrant agent specified in the applicable prospectus supplement. The warrant agent will act solely as an agent of ours in connection with the warrants of such series and will not assume any obligation or relationship of agency or trust for or with any holders of the warrants. Further terms of the warrants and the applicable warrant agreements will be set forth in the applicable prospectus supplement. Copies of the form of warrant agreement and warrant will be filed as exhibits to or incorporated by reference in the registration statement of which this prospectus forms a part, and the following summary is qualified in its entirety by reference to such exhibits.

The applicable prospectus supplement will describe the terms of the warrants, including, where applicable, the following:

- the title of the warrants;
- the aggregate number of warrants;
- the price or prices at which warrants will be issued;
- the designation, terms and number of securities purchasable upon exercise of warrants;
- the designation and terms of the securities, if any, with which warrants are issued and the number of warrants issued with each security;
- the date, if any, on and after which warrants and the related securities will be separately transferable;
- the price at which each security purchasable upon exercise of warrants may be purchased;
- any provisions for changes to or adjustments in the exercise price;
- the date on which the right to exercise the warrants shall commence and the date on which that right shall expire;
- the minimum or maximum amount of warrants which may be exercised at any one time;
- information with respect to book-entry procedures, if any; and
- any other terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants.

Plan of Distribution

We may sell the securities covered by this prospectus in any of the following ways (or in any combination):

- through underwriters or dealers;
- directly to one or more purchasers, including to a limited number of institutional purchasers; or
- through agents.

We may offer and sell the securities directly to or through underwriting syndicates represented by managing underwriters, to or through underwriters without a syndicate or through dealers or agents. The prospectus supplement with respect to the offered securities will set forth the terms of the offering, including the following:

- the name or names of any underwriters, dealers or agents;
- the purchase price and the proceeds we will receive from the sale;
- any underwriting discounts, agency fees and other items constituting underwriters' or agents' compensation; and
- the initial public offering price and any discounts or concessions allowed, re-allowed or paid to dealers.

If we are offering shares of our Class A common stock, we may permit those selling shareholders named in any prospectus supplement to participate in the offering. If any selling shareholders are participating in an offering, the prospectus supplement will also include the following:

- the name or names of the selling shareholders;
- the amount of shares to be sold by each selling shareholder and the proceeds from such sales; and
- any additional terms, including lock-up provisions, that may be placed on the participating selling shareholders in connection with their sale of securities in the offering.

If any underwriters are involved in the offer and sale, the securities will be acquired by the underwriters and may be resold by them, either at a fixed public offering price established at the time of offering or from time to time in one or more negotiated transactions or otherwise, at prices related to prevailing market prices determined at the time of sale. Unless otherwise set forth in the applicable prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to conditions precedent and the underwriters will be obligated to purchase all the securities described in the prospectus supplement if any are purchased. Any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers may be changed from time to time.

We may offer and sell the securities directly or through an agent or agents designated by us from time to time. An agent may sell securities it has purchased from us as principal to other dealers for resale to investors and other purchasers, and may reallow all or any portion of the discount received in connection with the purchase from us to the dealers. After the initial offering of the securities, the offering price (in the case of securities to be resold at a fixed offering price), the concession and the discount may be changed. Any agent participating in the distribution of the securities may be deemed to be an "underwriter," as that term is defined in the Securities Act, of the securities so offered and sold.

Table of Contents

If any underwriters are involved in the offer and sale, they will be permitted to engage in transactions that maintain or otherwise affect the price of the securities. These transactions may include over-allotment transactions, purchases to cover short positions created by the underwriter in connection with the offering and the imposition of penalty bids. If an underwriter creates a short position in the securities in connection with the offering, i.e., if it sells more securities than set forth on the cover page of the applicable prospectus supplement, the underwriter may reduce that short position by purchasing the securities in the open market. In general, purchases of a security to reduce a short position could cause the price of the security to be higher than it might be in the absence of such purchases. As noted above, underwriters may also choose to impose penalty bids on other underwriters and/or selling group members. This means that if underwriters purchase securities on the open market to reduce their short position or to stabilize the price of the securities, they may reclaim the amount of the selling concession from those underwriters and/or selling group members who sold such securities as part of the offering.

Neither we nor any underwriter make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the securities. In addition, neither we nor any underwriter make any representation that such underwriter will engage in such transactions or that such transactions, once commenced, will not be discontinued without notice.

Underwriters, dealers and agents may be entitled, under agreements entered into with us, to indemnification by us against some liabilities, including liabilities under the Securities Act.

The place and time of delivery for the securities in respect of which this prospectus is delivered will be set forth in the applicable prospectus supplement if appropriate.

Unless otherwise indicated in the prospectus supplement, each series of offered securities will be a new issue of securities and, other than the Class A common stock, which is listed on the Nasdaq Global Select Market, for which there currently is no market. Any underwriters to whom securities are sold for public offering and sale may make a market in such series of securities as permitted by applicable laws and regulations, but such underwriters will not be obligated to do so, and any such market making may be discontinued at any time without notice. Accordingly, there can be no assurance as to the development or liquidity of any market for the securities.

Underwriters, agents and dealers may engage in transactions with or perform services, including various investment banking and other services, for us and/or any of our affiliates in the ordinary course of business.

Legal Matters

Certain legal matters relating to the offering will be passed upon for us by Greenberg Traurig, P.A., Fort Lauderdale, FL.
