About SciClone

SciClone Pharmaceuticals (NASDAQ: SCLN) is a revenue-generating, China-centric, specialty pharmaceutical company with a substantial international business and a product portfolio of novel therapies for cancer and infectious diseases. The Company is focused on continuing sales growth and executing a clinical development strategy with prudently managed costs. ZADAXIN® (thymalfasin) is approved in over 30 countries for the treatment of hepatitis B (HBV), as a vaccine adjuvant, for the treatment of hepatitis C (HCV), and certain cancers. SciClone is evaluating SCV-07 in a phase 2b trial to modify the course of oral mucositis in patients with head and neck cancer. The Company also has exclusive commercialization and distribution rights in China to a novel treatment for advanced liver cancer, DC Bead®, which is already approved in approximately 40 countries worldwide, including the U.S. and several countries in Europe. DC Bead is currently under review by regulatory agencies in China. Additionally, SciClone owns exclusive commercialization and distribution rights to the anti-nausea drug ondansetron RapidFilm® in China, including Hong Kong and Macau, and Vietnam. The Company intends to seek regulatory approval for the product, commonly used to treat and prevent nausea and vomiting caused by chemotherapy, radiotherapy, and surgery, in these markets. For additional information, please visit www.sciclone.com.

DC Bead is a registered trademark of Biocompatibles UK Limited.

RapidFilm is a registered trademark of Labtec Gesellschaft für technologische Forschung und Entwicklung mbH.
