Safe Harbor Statement

These slides contain (and the accompanying oral discussion will contain) “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. The words “believe”, “estimate”, “anticipate”, “project” and “expect” and similar expressions are intended to identify forward-looking statements. Such statements involve known and unknown risks, uncertainties and other factors that could cause the actual results of the Company to differ materially from the results expressed or implied by such statements, including general economic and business conditions, conditions affecting the industries served by the Company, conditions affecting the Company’s customers and suppliers, competitor responses to the Company’s products and services, the overall market acceptance of such products and services, the effectiveness of the Company’s strategy and other factors disclosed in the Company’s periodic reports filed with the Securities and Exchange Commission. Consequently, such forward looking statements should be regarded as the Company’s current plans, estimates and beliefs. The Company does not undertake and specifically declines any obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect any future events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Sharps Compliance

Sharps Compliance is a fully integrated provider of cost-effective management solutions for medical waste and unused dispensed medications generated outside the hospital and large healthcare facility setting utilizing the USPS or UPS.

Our strategy is to capitalize on our leadership position and continue to penetrate the estimated \$2.8 billion market opportunity.

Definitions

- **Sharps Recovery System™ (formerly Sharps Disposal by Mail System®)**

A cost-effective and easy-to-use solution to dispose of medical waste such as hypodermic needles, lancets, and other small quantities of bio hazardous waste. The disposal solution is ideal for individuals who self-inject, or medical facilities generating small quantities of medical waste.

- **Sharps@MWMS™ - Sharps Medical Waste Management System**

A comprehensive medical waste solution which includes an array of services and products necessary to effectively collect, store and dispose of medical waste and dispensed unused medications outside of the hospital or large healthcare facility setting. The System, which is designed for rapid deployment, features the Sharps Recovery System™ products combined with warehousing, inventory management, training, data and other services necessary to provide a comprehensive solution. The Sharps@MWMS™ is designed to be an integral part of governmental and commercial emergency preparedness programs.

- **TakeAway Recovery System™**

Designed for individual consumers, retail or mail-order pharmacies, communities and facilities including assisted living, long-term care and correction operations to facilitate the proper disposal of unused dispensed medications. This solution consists of a variety of sizes of containers (from a special-use envelope to 10- and 20-gallon products) and return packaging with pre-paid postage to the Company's treatment facility. The Company recently introduced its proprietary tracking system, DrugTracer™, to document unused patient medication products. The TakeAway Recovery System™ is also an additional component option for the Sharps@ Medical Waste Management System™
