

Sangamo BioSciences to Present at the Canaccord Adams 27th Global Growth Conference

RICHMOND, Calif., July 31, 2007 /PRNewswire-FirstCall via COMTEX News Network/ --

Sangamo BioSciences, Inc. (Nasdaq: SGMO) announced today that Edward Lanphier, Sangamo's president and chief executive officer, will provide an update on the progress of Sangamo's ZFP Therapeutic development programs and an overview of the company's business strategy at 11:30 am (ET) on Tuesday, August 7, 2007 at the 27th Annual Canaccord Adams Global Growth Conference in Boston.

The presentation will be webcast live and may be accessed via a link on the Sangamo BioSciences website in the Investor Relations section <http://investor.sangamo.com/index.cfm> under Events and Presentations. The presentation will be archived on the Sangamo website for two weeks after the event.

About Sangamo

Sangamo BioSciences, Inc. is focused on the research and development of novel DNA-binding proteins for therapeutic gene regulation and modification. The most advanced ZFP Therapeutic(TM) development program is currently in Phase 2 clinical trials for evaluation of safety and clinical effect in patients with diabetic neuropathy. Phase 1 clinical trials are ongoing to evaluate a ZFP Therapeutic for peripheral artery disease. Other therapeutic development programs are focused on cancer and HIV/AIDS, neuropathic pain, nerve regeneration, ischemic heart disease and monogenic diseases. Sangamo's core competencies enable the engineering of a class of DNA-binding proteins known as zinc finger DNA-binding proteins (ZFPs). By engineering ZFPs that recognize a specific DNA sequence Sangamo has created ZFP transcription factors (ZFP TF(TM)) that can control gene expression and, consequently, cell function. Sangamo is also developing sequence-specific ZFP Nucleases (ZFN(TM)) for therapeutic gene modification as a treatment for a variety of monogenic diseases, such as X-linked SCID and hemophilia, and for infectious diseases, such as HIV. Sangamo has established several Enabling Technology Agreements with companies to apply its ZFP Technology to enhance the production of protein pharmaceuticals. For more information about Sangamo, visit the company's web site at <http://www.sangamo.com>.

This press release may contain forward-looking statements based on Sangamo's current expectations. These forward-looking statements include, without limitation, references to the research and development of novel ZFP TFs and applications of Sangamo's ZFP TF technology platform. Actual results may differ materially from these forward-looking statements due to a number of factors, including technological challenges, Sangamo's ability to develop commercially viable products and technological developments by our competitors. See the company's SEC filings, and in particular, the risk factors described in the company's Annual Report on Form 10-K and its most recent 10-Q. Sangamo BioSciences, Inc. assumes no obligation to update the forward-looking information contained in this press release.
