

## Silicon Image Names Paul Dal Santo Chief Operating Officer

SUNNYVALE, Calif., Aug 10, 2007 /PRNewswire-FirstCall via COMTEX News Network/ --

Silicon Image, Inc. (Nasdaq: SIMG), a leader in semiconductors for the secure storage, distribution and presentation of high-definition content, today announced that it has named Paul Dal Santo, 57, to the position of chief operating officer. Dal Santo will join Silicon Image on Aug. 20 and report to Silicon Image's president and chief executive officer, Steve Tirado. With strong consumer electronics business management skills and a solid engineering background at both semiconductor and mobile handset manufacturing companies, Dal Santo will direct the company's engineering, operations, marketing, sales and business development functions.

"Paul has a rare combination of solid technical engineering skills and a proven track record managing growing, successful organizations," Tirado said. "With his extensive experience in technology innovation, his leadership of international teams and his broad customer background, he will be an important addition to our management team helping us achieve product and business execution excellence."

Dal Santo joins Silicon Image from AMD, where he served as vice president and general manager responsible for the full multifunctional management of its Handheld Products Division. Prior to AMD, Dal Santo worked for more than a decade at Motorola. As vice president of GSM technology development for Motorola, he was responsible for designing the core engine for next-generation cellular phones and managed a team of more than 500 people located around the world.

"Silicon Image has a vision for device connectivity in the consumer space that is both compelling and offers room for continued innovation," Dal Santo said. "I am excited to join Silicon Image and look forward to working with the management team to help grow the business and build on the strong industry momentum that this company has established."

Dal Santo received his bachelor's and master's degrees in engineering from Purdue University and the Illinois Institute of Technology, respectively.

About Silicon Image, Inc.

Headquartered in Sunnyvale, California, Silicon Image, Inc. is a leader in driving the architecture and semiconductor implementation for the secure storage, distribution and presentation of high-definition content in the consumer electronics and personal computing markets. Silicon Image creates and drives industry standards for digital content delivery such as DVI, HDMI (TM) and Serial ATA, leveraging partnerships with global leaders in the consumer electronics and personal computing markets to meet the growing digital content needs of consumers worldwide. With a proven track record of improving cross-product interoperability, Silicon Image has shipped more than 100 million HDMI/HDCP and DVI/HDCP semiconductor solutions. In addition, Silicon Image offers one of the most robust and comprehensively tested technology platforms in the consumer electronics industry through the Simplay HD(TM) Testing Program of Simplay Labs. Simplay Labs, LLC, a wholly-owned subsidiary of Silicon Image, is a leading provider of testing technologies, tools and services for high-definition consumer electronics devices such as HDTVs, set-top boxes, audio/video receivers and DVD players, helping manufacturers to achieve compatibility and deliver the highest-quality HDTV experience to consumers. Silicon Image is the leading provider of semiconductor intellectual property solutions for high-definition multimedia and data storage applications.
