Item 1. Security and Issuer.

(a) The issuer to which this Schedule 13E-4 (the "Schedule") relates is CD Radio Inc. (the "Company"), which has its principal executive office located at Sixth Floor, 1001 - 22nd Street, N.W., Washington, D.C. 20037.

(b) This Schedule relates to an offer (the "Exchange Offer") by the Company to acquire up to all of the outstanding shares (the "Shares") of its 5% Delayed Convertible Preferred Stock (the "5% Preferred Stock") by exchanging up to 1,846,799 shares of its new 10 1/2% Series C Convertible Preferred Stock (the "New Preferred Stock") for the Shares at a rate of one share of New Preferred Stock for each $100 in Exchange Rate Liquidation Preference represented by Shares not previously converted. The "Exchange Rate Liquidation Preference" was the amount determined by dividing the liquidation preference of the Shares being exchanged (including accrued and unpaid dividends on the Shares) by 0.696145. Such exchange was upon the terms and subject to the conditions set forth in the Prospectus dated December 8, 1997 (the "Prospectus") and the related Letter of Transmittal, copies of which are attached to and filed with this Schedule as Exhibits (a)(1) and (a)(2) respectively. As of September 30, 1997, there were 5,222,608 Shares outstanding. In the Exchange Offer, all of the outstanding shares of 5% Preferred Stock were tendered for 1,846,799 shares of the New Preferred Stock.

(c) The information set forth under the captions "Risk Factors -- Lack of Established Trading Market for New Preferred Stock" and "Market and Trading Information" in the Prospectus is incorporated herein by reference.

(d) Not applicable.

Item 2. Source and Amount of Funds or Other Consideration.

(a) The information set forth on the cover of the Prospectus and under the captions "The Exchange Offer -- Terms of the Exchange" and "Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock" in the Prospectus is incorporated herein by reference.

(b) Not applicable.

Item 3. Purpose of the Tender Offer and Plans or Proposals of the Issuer or Affiliate.

The information set forth on the cover of the Prospectus and under the captions "The Exchange Offer -- Purpose of the Exchange Offer" in the Prospectus is incorporated herein by reference. Following consummation of the Exchange Offer, all Shares tendered for exchange and not withdrawn were retired.

(a) The information set forth on the cover of the Prospectus and under the captions "Risk Factors -- Reduced Trading Market for 5% Preferred Stock" and "Financing" in the Prospectus is incorporated herein by reference.

(b)-(d) None.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

(e) The information set forth under the captions "Financing," "Capitalization," "Description of Series D Preferred Stock," "Description of Certain Indebtedness" and "Description of Capital Stock" in the Prospectus is incorporated herein by reference.

(f) None.

(g) The information set forth under the caption "Risk Factors -- Anti-takeover Provisions" in the Prospectus is incorporated herein by reference.

(h)-(j) None.

Item 4. Interest in Securities of the Issuer.

The information set forth under the caption "Description of Capital Stock -- 5% Preferred Stock" in the Prospectus is incorporated herein by reference.

Item 5. Contracts, Arrangements, Understandings or Relationships with Respect to the Issuer's Securities.

The information set forth under the caption "Principal Stockholders -- Voting Trust Agreement" in the Prospectus is incorporated herein by reference.

Item 6. Persons Retained, Employed or to be Compensated.

The information set forth under the caption "The Exchange Offer -- Dealer Manager" in the Prospectus is incorporated herein by reference.

Item 7. Financial Information.

(a)(1) The information set forth under Item 8, "Financial Statements and Supplementary Data" of the Company's Annual Report on Form 10-K, as amended by the Annual Report on Form 10-K/A, for the year ended December 31, 1996, attached to this Schedule as Exhibit (g)(1), is incorporated herein by reference.

(a)(2) The information set forth in pages 1 through 6 of Part I, "Financial Information" of the Company's Quarterly Report on Form 10-Q for the period ended June 30, 1997, attached to this Schedule as Exhibit (g)(2), is incorporated herein by reference.

(a)(3) The information set forth under the captions "Prospectus Summary -- Summary Consolidated Financial Data" and "Selected Historical Financial Information" in the Prospectus is incorporated herein by reference.

(a)(4) The book value per share of the Company's Common Stock, par value $.001 per share, as of the end of the fiscal year ended December 31, 1996 and as of June 30, 1997 was $0.48 and $1.19 respectively.

(a)(5) The information set forth in pages 1 through 6 of Part I, "Financial Information" of the Company's Quarterly Report on Form 10-Q for the period ended September 30, 1997, attached to this Schedule as Exhibit (g)(3), is incorporated herein by reference.

(a)(6) The book value per share of the Company's Common Stock, par value $.001 per share, as of the end of the September 30, 1997 was $2.57.

(b) The information set forth under the caption "Capitalization" in the Prospectus is incorporated herein by reference.

Item 8. Additional Information.

The information set forth in the entire text of the Prospectus and the related Letter of Transmittal is incorporated herein by reference.

(a) None.

(b) None.

(c) Not applicable.

(d) None.

(e) None.

Item 9. Material to be Filed as Exhibits.

(a)(1) Prospectus, dated December 8, 1997.

(a)(2) Form of Letter of Transmittal.

(a)(3) Form of Notice of Guaranteed Delivery.

(a)(4) Form of Letter to Brokers, Dealers, Commercial Banks, Trust Companies and Other Nominees.

(a)(5) Form of Letter to Clients.

(a)(6) Press Release dated September 2, 1997.

(b) None.

(c) Voting Trust Agreement, dated August 26, 1997, among CD Radio Inc., Darlene Friedland and David Margolese, as Trustee.

(d) None.

(e) See Exhibit (a)(1) hereto.

(f) None.

PROSPECTUS

CD RADIO INC.
OFFER TO EXCHANGE
10 1/2% SERIES C CONVERTIBLE PREFERRED STOCK
FOR 5% DELAYED CONVERTIBLE PREFERRED STOCK

CD Radio Inc. (the 'Company') offered, upon the terms and subject to the conditions set forth in this Prospectus (the 'Prospectus') and in the accompanying Letter of Transmittal (the 'Letter of Transmittal'), to exchange (the 'Exchange Offer') up to 1,846,799 shares of its new 10 1/2% Series C Convertible Preferred Stock (the 'New Preferred Stock') for up to all of the outstanding shares of its 5% Delayed Convertible Preferred Stock (the '5% Preferred Stock') at a rate of one share of New Preferred Stock for each $100 in Exchange Rate Liquidation Preference represented by shares of 5% Preferred Stock not previously converted. The 'Exchange Rate Liquidation Preference' was the amount determined by dividing (x) the liquidation preference of the shares of 5% Preferred Stock being exchanged (including accrued and unpaid dividends thereon, if any) by (y) 0.696145. On November 17, 1997, the expiration date of the Exchange Offer, the Exchange Rate Liquidation Preference was approximately $37.00 per share of 5% Preferred Stock. The liquidation preference of each share of New Preferred Stock (the 'Liquidation Preference') was equal to $100.00. The Company will pay cash to exchanging holders of 5% Preferred Stock in lieu of issuing fractional shares of New Preferred Stock. Holders of New Preferred Stock will be entitled to the payment of dividends commencing on November 15, 2002 as described below. As of September 30, 1997, there were 5,222,608 shares of 5% Preferred Stock outstanding. In the Exchange Offer, all of the outstanding shares of 5% Preferred Stock were tendered for 1,846,799 shares of the New Preferred Stock.

The Exchange Offer is one component of a financing transaction that includes an underwritten public offering of 2,800,000 shares of Common Stock (the 'Stock Offerings') and an underwritten public offering of Units (the 'Units') consisting of the Company's Senior Discount Notes due 2007 (the 'Notes') and warrants (the 'Warrants') to purchase additional Notes (the 'Units Offering' and, together with the Stock Offerings, the 'Offerings'). Separate registration statements have been filed for each of the Stock Offerings and the Units Offering, and such offers have been made by separate prospectuses. The consummation of the Exchange Offer was not conditioned upon the consummation of either the Units Offering or the Stock Offerings. Each of the Offerings was conditioned upon consummation of the Exchange Offer.

The Exchange Offer expired at 12:00 Midnight, New York City time, on November 17, 1997 (the 'Expiration Date').

The Exchange Offer was conditioned upon, among other things, (i) a minimum of 60% of the issued and outstanding shares of 5% Preferred Stock being tendered for exchange and not withdrawn prior to the Expiration Date and (ii) the General Conditions (as defined herein). There was no assurance that these conditions would be satisfied or waived. The Company reserved the right to waive certain of the conditions to the Exchange Offer and to amend or modify the Exchange Offer at any time for any reason. See 'The Exchange Offer -- Expiration Date; Extension; Amendments' and ' -- Conditions of the Exchange Offer.'

SEE 'RISK FACTORS' BEGINNING ON PAGE 24 FOR A DISCUSSION OF CERTAIN FACTORS THAT SHOULD BE CONSIDERED IN EVALUATING THE EXCHANGE OFFER.

THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION NOR HAS THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The Dealer Manager for the Exchange Offer is:

MERRILL LYNCH & CO.

The date of this Prospectus is December 8, 1997.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

CERTAIN PERSONS PARTICIPATING IN THE EXCHANGE OFFER MAY ENGAGE IN TRANSACTIONS THAT STABILIZE, MAINTAIN, OR OTHERWISE AFFECT THE PRICE OF THE NEW PREFERRED STOCK AND THE COMMON STOCK, OR EITHER OF THEM. SPECIFICALLY, THE DEALER MANAGER MAY BID FOR AND PURCHASE NEW PREFERRED STOCK AND COMMON STOCK, OR EITHER OF THEM, IN THE OPEN MARKET. FOR A DESCRIPTION OF THESE ACTIVITIES, SEE 'MARKET AND TRADING INFORMATION.'

IN CONNECTION WITH THE EXCHANGE OFFER AND THE STOCK OFFERING, THE DEALER MANAGER AND CERTAIN UNDERWRITERS MAY ENGAGE IN PASSIVE MARKET MAKING TRANSACTIONS IN THE COMMON STOCK ON NASDAQ IN ACCORDANCE WITH RULE 103 OF REGULATION M. SEE 'MARKET AND TRADING INFORMATION.'

(cover continued from previous page)

The terms of the Preferred Stock Investment Agreement (as defined herein) require that the Company not undertake to conduct any debt or equity financing that is not either pari passu or junior to the 5% Preferred Stock in seniority, structure and maturity until the Company completes a Pre-Amendment Qualifying Offering (as defined herein).

The terms of the New Preferred Stock (including dividend rate, liquidation preference and conversion and redemption rights) differ in material respects from the terms of the 5% Preferred Stock for which it may be exchanged pursuant to the Exchange Offer. For a comparison of certain material terms of the New Preferred Stock and the 5% Preferred Stock, see 'Prospectus Summary -- Comparison of New Preferred Stock and 5% Preferred Stock.'

The annual dividend rate per share of the New Preferred Stock will be an amount equal to 10.5% of the sum of (x) the liquidation preference of the New Preferred Stock and (y) all accrued and unpaid dividends, if any, whether or not declared, from the date of issuance of the shares of New Preferred Stock to the applicable dividend payment date. Dividends on the shares of New Preferred Stock will be cumulative, accruing quarterly and, when and as declared by the Board of Directors of the Company, will be payable quarterly initially on November 15, 2002 (the 'First Scheduled Dividend Payment Date') and on February 15, May 15, August 15 and November 15 in each year thereafter. In addition, accrued dividends on the shares of New Preferred Stock will be paid on the redemption date of any share of New Preferred Stock redeemed by the Company, on the purchase date of any share of New Preferred Stock purchased by the Company pursuant to an Offer to Purchase (as defined herein) or on the conversion date of any share of New Preferred Stock converted into shares of Common Stock on or after the First Scheduled Dividend Payment Date. No accrued dividends will be paid on any shares of New Preferred Stock that are converted by the holders thereof prior to the First Scheduled Dividend Payment Date, unless such shares of New Preferred Stock are converted on or prior to a redemption date by holders thereof electing to convert such shares after having received a notice of redemption for such shares. Dividends may be paid in cash, shares of Common Stock or any combination thereof at the option of the Company. Common Stock issued to pay dividends will be valued at the average closing price of the Common Stock as reported in The Wall Street Journal for the 20 consecutive trading days immediately preceding the date of such payment. Dividends on the shares of New Preferred Stock will be paid to the holders of record of the shares of New Preferred Stock on a record date, not more than 40 days nor fewer than 10 days preceding the payment date thereof. See 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock -- Dividends.'

Except as described below, the shares of New Preferred Stock may not be redeemed by the Company at its option prior to November 15, 2002. From and after November 15, 1999 and prior to

Powered By EDGAR Online 2002. EDGAR Online, Inc.

November 15, 2002, the Company may redeem shares of New Preferred Stock, in whole or in part, at a redemption price of 100% of the Liquidation Preference of the shares of New Preferred Stock redeemed, plus accrued and unpaid dividends, if any, whether or not declared, to the redemption date, if the average closing price of the Common Stock as reported in The Wall Street Journal for the 20 consecutive trading days prior to the notice of redemption thereof equals or exceeds $31.50 per share (subject to adjustments). From and after November 15, 2002, the Company may redeem the outstanding shares of New Preferred Stock, in whole or in part, initially at a redemption price of 105.25% of the Liquidation Preference of the shares of New Preferred Stock redeemed and thereafter at prices declining ratably to 100% of the Liquidation Preference of the shares of New Preferred Stock redeemed from and after November 15, 2005, plus accrued and unpaid dividends, if any, whether or not declared, to the redemption date. In addition, within 30 days of the closing of the Debt Offering (as defined herein), the Company may redeem up to 50% of the outstanding shares of New Preferred Stock at a redemption price of 100% of the Liquidation Preference of the shares of New Preferred Stock redeemed, plus accrued and unpaid dividends, if any, whether or not declared, to the redemption date. On November 15, 2012, the Company is required to redeem all outstanding shares of New Preferred Stock at a redemption price of 100% of the Liquidation Preference, plus accrued and unpaid dividends, if any, to the redemption date. The New Preferred Stock will not be subject to any mandatory sinking fund redemption. See 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock -- Redemption.'

Upon the occurrence of a Change in Control (as defined herein), the Company must make an offer to purchase all outstanding shares of New Preferred Stock at a purchase price in cash equal to 101% of its Liquidation Preference, plus all accrued and unpaid dividends, if any, to the date such shares are purchased. See 'Description of New Preferred Stock -- Change in Control.'

Each share of New Preferred Stock may be converted at any time at the option of the holder, into a number of shares of Common Stock calculated by dividing the Liquidation Preference of the New Preferred Stock (without accrued and unpaid dividends) by a conversion price (the 'Conversion Price') equal to
(x) prior to the date of the first underwritten public offering of the Company's Common Stock following the initial issuance of the New Preferred Stock, $21.00 and (y) thereafter, the lower of $21.00 per share or the issue price per share of the Common Stock in such underwritten public offering. The Conversion Price will not be adjusted at any time for accrued and unpaid dividends on the New Preferred Stock, but will be subject to adjustment for the occurrence of certain corporate events affecting the Common Stock. Accrued dividends will be paid on the conversion date on any shares of New Preferred Stock converted into shares of Common Stock on or after the First Scheduled Dividend Payment Date. No accrued dividends will be paid, and the holders thereof will not be entitled to receive any dividends, on any shares of New Preferred Stock converted prior to the First Scheduled Dividend Payment Date, unless such shares of New Preferred Stock are converted on or prior to a redemption date by holders electing to convert such shares after having received a notice of redemption for such shares. See 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock -- Conversion.'

If the Company has not consummated one or more Qualifying Offerings yielding gross proceeds in an aggregate cash amount of at least $100 million by May 15, 1998 (the 'Automatic Exchange Date'), all outstanding shares of New Preferred Stock shall be exchanged automatically (the 'Automatic Exchange') for shares of the Company's Series D Convertible Preferred Stock with an initial liquidation preference of $102.50 per share (the 'Series D Preferred Exchange') on the Automatic Exchange Date, at an exchange rate of one share of Series D Preferred Stock for each $100 of Automatic Exchange Rate Liquidation Preference represented by the shares of New Preferred Stock held by any holder. The 'Automatic Exchange Rate Liquidation Preference' for the shares of New Preferred Stock shall be $69.6145 per share (the amount determined by multiplying (x) the Liquidation Preference for the shares of New Preferred Stock (without accrued and unpaid dividends thereon) by (y) 0.696145). The Company will pay cash to holders of New Preferred Stock in lieu of issuing fractional shares of Series D Preferred Stock in the Automatic Exchange. For a description of the terms, preferences and rights of the Series D Preferred Stock, see 'Description of Capital Stock -- Series D Preferred Stock.'

FOR FEDERAL INCOME TAX PURPOSES, IT IS NOT CLEAR WHETHER THE EXCHANGE OF 5% PREFERRED STOCK FOR NEW PREFERRED STOCK WILL BE A TAXABLE EVENT IN ITS ENTIRETY. IF IT IS A TAXABLE EVENT IN ITS ENTIRETY, GAIN OR LOSS WILL BE RECOGNIZED. FOR A DISCUSSION OF THESE AND OTHER UNITED

Powered By EDGAR Online 2002. EDGAR Online, Inc.

STATES FEDERAL INCOME TAX CONSIDERATIONS RELEVANT TO THE EXCHANGE OFFER, SEE 'CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES.'

NO DEALER, SALESPERSON OR ANY OTHER PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATION NOT CONTAINED IN THIS PROSPECTUS IN CONNECTION WITH THE EXCHANGE OFFER COVERED BY THIS PROSPECTUS. IF GIVEN OR MADE, SUCH INFORMATION OR REPRESENTATIONS MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE COMPANY OR THE DEALER MANAGER. THIS PROSPECTUS DOES NOT CONSTITUTE AN OFFER TO SELL, OR A SOLICITATION OF AN OFFER TO BUY, ANY SECURITIES OTHER THAN THE NEW PREFERRED STOCK OFFERED BY THIS PROSPECTUS, NOR DOES IT CONSTITUTE AN OFFER TO SELL OR A SOLICITATION OF AN OFFER TO BUY THE NEW PREFERRED STOCK BY ANYONE IN ANY JURISDICTION WHERE, OR TO ANY PERSON TO WHOM, IT IS UNLAWFUL TO MAKE SUCH OFFER OR SOLICITATION. NEITHER THE DELIVERY OF THIS PROSPECTUS NOR ANY SALE MADE HEREUNDER SHALL, UNDER ANY CIRCUMSTANCES, CREATE AN IMPLICATION THAT THERE HAS BEEN ANY CHANGE IN THE FACTS SET FORTH IN THIS PROSPECTUS OR IN THE AFFAIRS OF THE COMPANY SINCE THE DATE HEREOF.

ADDITIONAL INFORMATION

The Company is subject to the informational requirements of the Securities Exchange Act of 1934, as amended (the 'Exchange Act'), and in accordance therewith files reports, proxy statements and other information with the Securities and Exchange Commission (the 'Commission'). Such reports, proxy statements and other information can be inspected and copied at the public reference facilities of the Commission at 450 Fifth Street, N.W., Washington, D.C. 20549 and at its regional offices located at Suite 1400, 500 West Madison Street, Chicago, Illinois 60661-2511 and 13th Floor, 7 World Trade Center, New York, New York 10048. Copies of such material can be obtained from the Public Reference Section of the Commission at 450 Fifth Street, N.W., Washington, D.C. 20549, at prescribed rates. Such reports, proxy statements and other information concerning the Company also can be inspected and copied at the offices of the National Association of Securities Dealers, Inc., 1735 K Street, N.W., Washington, D.C. 20006, which supervises the Nasdaq National Market on which the Company's Common Stock is traded. The Commission maintains a web site that contains reports, proxy and information statements and other information regarding registrants that file electronically with the Commission. The address of the Commission's web site is http://www.sec.gov.

The Company has filed with the Commission a registration statement on Form S-4 (herein, together with all amendments and exhibits, the 'Registration Statement') under the Securities Act of 1933, as amended (the 'Securities Act'). The Company has also filed a Schedule 13E-4 Issuer Tender Offer Statement (the 'Schedule 13E-4') with the Commission with respect to the Exchange Offer. As permitted by the rules and regulations of the Commission, this Prospectus omits certain information, exhibits and undertakings contained in the Registration Statement and the Schedule 13E-4. This Prospectus does not contain all of the information set forth in the Registration Statement and the Schedule 13E-4, certain parts of which are omitted in accordance with the rules and regulations of the Commission, and to which reference is hereby made. For further information, reference is hereby made to the Registration Statement, and the financial schedules and exhibits filed as a part thereof and to the Schedule 13E-4 and the exhibits thereto. The Registration Statement (including the exhibits thereto) can be obtained by mail or inspected and copied at the public reference facilities maintained by the Commission as provided in the prior paragraph.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The following documents, which have been filed by the Company with the Commission, are incorporated herein by reference:

1. The Company's Annual Report on Form 10-K, as amended by the Annual Report on Form 10-K/A, for the year ended December 31, 1996.

2. The Company's Quarterly Report on Form 10-Q, as amended by the Quarterly Report on Form 10-Q/A, for the period ended March 31, 1997.

3. The Company's Quarterly Report on Form 10-Q for the period ended June 30, 1997.

4. The Company's Quarterly Report on Form 10-Q for the period ended September 30, 1997.

5. The Company's Current Report on Form 8-K dated April 10, 1997.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

6. The Company's Current Report on Form 8-K dated May 2, 1997.

7. The Company's Current Report on Form 8-K dated June 17, 1997.

8. The Company's Current Report on Form 8-K dated July 8, 1997.

9. The Company's Current Report on Form 8-K dated August 19, 1997.

10. The Company's Current Report on Form 8-K dated October 7, 1997.

11. The Company's Current Report on Form 8-K dated October 22, 1997.

12. The Company's Current Report on Form 8-K dated November 19, 1997.

13. The description of the Company's Common Stock contained in the Company's Registration Statement on Form 8-A, as amended, filed pursuant to
Section 12(b) of the Exchange Act.

14. Issuer Tender Offer Statement on Form 13E-4.

15. Consent Solicitation Statement on Schedule 14A, dated October 23, 1997.

Each document filed by the Company pursuant to Section 13(a), 13(c), 14 or
15(d) of the Exchange Act after the date of this Prospectus and prior to the Expiration Date shall be deemed to be incorporated by reference into this Prospectus from the date of filing of such document. Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of the Registration Statement and this Prospectus to the extent that a statement contained herein or in any subsequently filed document which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of the Registration Statement or this Prospectus.

THIS PROSPECTUS INCORPORATES DOCUMENTS BY REFERENCE WHICH ARE NOT PRESENTED HEREIN OR DELIVERED HEREWITH. THESE DOCUMENTS ARE AVAILABLE WITHOUT CHARGE TO ANY PERSON, INCLUDING ANY BENEFICIAL OWNER OF ANY OF THE 5% PREFERRED STOCK, TO WHOM A COPY OF THIS PROSPECTUS IS DELIVERED, UPON THE WRITTEN OR ORAL REQUEST OF ANY SUCH PERSON. REQUESTS SHOULD BE DIRECTED TO SECRETARY, CD RADIO INC., SIXTH FLOOR, 1001 22ND STREET, N.W., WASHINGTON, D.C. 20037. IN ORDER TO ENSURE TIMELY DELIVERY OF THE DOCUMENTS ANY REQUEST SHOULD BE MADE BY FIVE BUSINESS DAYS PRIOR TO THE EXPIRATION DATE.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the 'Reform Act'), the Company is hereby providing cautionary statements identifying important factors that could cause the Company's actual results to differ materially from those projected in forward-looking statements (as such term is defined in the Reform Act) made in this Prospectus. Any statements that express, or involve discussions as to, expectations, beliefs, plans, objectives, assumptions or future events or performance (often, but not always, through the use of words or phrases such as 'will likely result,' 'are expected to,' 'will continue,' 'is anticipated,' 'estimated,' 'intends,' 'plans,' 'projection' and 'outlook') are not historical facts and may be forward-looking and, accordingly, such statements involve estimates, assumptions and uncertainties which could cause actual results to differ materially from those expressed in the forward-looking statements. Accordingly, any such statements are qualified in their entirety by reference to, and are accompanied by, the factors discussed throughout this Prospectus, and particularly in the risk factors set forth herein under 'Risk Factors.' Among the key factors that have a direct bearing on the Company's results of operations are the potential risk of delay in implementing the Company's business plan; increased costs of construction and launch of necessary satellites; dependence on satellite construction and launch contractors; risk of launch failure; unproven market and unproven applications of existing technology; and the Company's need for additional substantial financing. These and other factors are discussed herein under 'Risk Factors,' 'Management's Discussion and Analysis of Financial Condition and Results of Operations,' 'Business' and elsewhere in this Prospectus.

The risk factors described herein could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements of the Company made by or on behalf of the Company and investors, therefore, should not place undue reliance on any such forward-looking statements. Further, any forward-looking statement speaks only as of the date on which such statement is made, and the Company undertakes no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for management to predict all of such factors. Further, management cannot assess the impact of each such factor on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

PROSPECTUS SUMMARY

The following summary is qualified in its entirety by the more detailed information and financial data appearing elsewhere in this Prospectus. Holders of 5% Preferred Stock were urged to carefully consider the factors set forth herein under the caption 'Risk Factors' and to read this Prospectus in its entirety. Unless otherwise indicated, (i) the information in this Prospectus, other than the historical financial information, assumes and gives effect to the proposed sale by the Company of 2,800,000 shares of Common Stock (the 'Stock Offering') and the concurrent offering by the Company Units (the 'Units') consisting of Senior Discount Notes due 2007 (the 'Notes') and warrants (the 'Warrants') to purchase additional Notes (the 'Units Offering' and, together with the Stock Offering, the 'Offerings'), and (ii) references herein to the 'Company' refer to CD Radio Inc. and, where appropriate, its subsidiary, Satellite CD Radio, Inc.

THE COMPANY

CD Radio Inc. was founded in 1990 to pioneer and commercialize a compact disc quality, multi-channel radio service broadcast directly from satellites to vehicles ('satellite radio'). In October 1997, the Company was granted one of two licenses ('FCC Licenses') from the Federal Communications Commission (the 'FCC') to build, launch and operate a national satellite radio broadcast system. The Company has begun construction of two satellites that it plans to launch into geosynchronous orbit to broadcast its radio service throughout the United States. The Company's service, which will be marketed under the brand name 'CD Radio,' is expected to consist of 30 channels of commercial-free, compact disc quality music programming and 20 channels of news, sports and talk programming. CD Radio will be broadcast over a frequency band (the 'S-band') that will augment traditional AM and FM radio bands. Under its FCC license, the Company has the exclusive use of a 12.5 megahertz portion of the S-band for this purpose. The Company currently expects to commence CD Radio broadcasts in late 1999 at a subscription price of $10 per month.

The Company is positioning itself as an entertainment company and accordingly plans to design and originate programming on each of its 30 music channels. Each channel will be operated as a separate radio station with a distinct format. Certain music channels will offer continuous music, while others will have program hosts, depending on the type of music programming. CD Radio will offer a wide range of music categories, such as:

```
Symphonic                    Classic Rock           Soft Rock
Chamber Music                50's Oldies            Singers & Songs
Opera                        60's Oldies            Beautiful Instrumentals
Today's Country              Folk Rock              Album Rock
Traditional Country          Latin Ballads          Alternative Rock
Contemporary Jazz            Latin Rhythms          New Age
Classic Jazz                 Reggae                 Broadway's Best
Blues                        Rap                    Gospel
Big Band/Swing               Dance                  Children's
Entertainment
Top of the Charts            Urban Contemporary     World Beat
```

THE CD RADIO OPPORTUNITY

The Company believes that there is a significant market for music and other radio programming delivered through advanced radio technology. While television technology has advanced steadily -- from black and white to color, from broadcast to cable, and from ordinary to high-definition television -- the last major advance in radio technology was the introduction of FM broadcasts. CD Radio will provide a new generation of radio service, offering a wide variety of music formats available on demand, nearly seamless signal coverage throughout the United States and commercial-free, compact-disc quality programming. The Company's planned multiplicity of formats currently is not available to motorists in any market within the United States.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

CD Radio is primarily a service for motorists. The Yankee Group, a market research organization, estimates that there will be approximately 198 million registered private motor vehicles in the United States by the end of 1999, when the Company expects to commence broadcasting. At present, approximately 89% of all private vehicles have a radio that could easily be utilized to receive CD Radio's broadcasts, with this number estimated to be approximately 182 million vehicles in 1999, and approximately 199 million in 2004. CD Radio initially will target a number of demographic groups among the drivers of these vehicles, including 110 million commuters, 34 million of whom spend between one and two hours commuting daily, three million truck drivers and three million owners of recreational vehicles. According to a 1996 market study, although almost all vehicles contain either a cassette or compact disc player, 87% of automobile commuters listened to the radio an average of 50 minutes a day while commuting.

The Company believes that the ability to offer a wide variety of musical formats simultaneously throughout the United States will enable it to tap significant unmet consumer demand for specialized music programming. The economics of the existing advertiser supported local radio industry dictate that radio stations generally program for the greatest potential audience. Even in the largest metropolitan areas, station formats are limited. Nearly half of all commercial radio stations in the United States offer one of only three formats:
country, adult contemporary and news/talk, and the next three most prevalent formats account for another 30% of all stations. Although niche music categories such as classical, jazz, rap, gospel, oldies, soundtracks, new age, children's and others accounted for approximately 27% of sales of recorded music in 1996, such formats generally are unavailable on existing radio stations in many markets. Even in New York City, the nation's largest radio market, there are no radio stations devoted solely to such programming as opera, blues, chamber music, soundtracks, reggae, children's programming and many others. CD Radio's wide choice of formats is expected to appeal to a large number of currently underserved listeners.

In addition, due to the limited coverage area of conventional radio broadcasting, listeners often travel beyond the range of any single station. Unlike conventional FM stations, which have an average range of only approximately 30 miles before reception fades, CD Radio's signal will cover the entire continental United States, enabling listeners always to remain within its broadcast range. The Company's satellite delivery system is designed to permit CD Radio to be received by motorists in all outdoor locations where a vehicle has an unobstructed line-of-sight with one of the Company's satellites or is within range of one of the Company's terrestrial repeating transmitters.

The ability to broadcast nationwide will also allow the Company to serve currently underserved radio markets. In the United States, there are more than 45 million people aged 12 and over living in areas with such limited radio station coverage that the areas are not monitored by The Arbitron Company, a broadcast industry ratings organization ('Arbitron'). Of these, the Company believes that approximately 22 million people receive five or fewer FM stations,
1.6 million receive only one FM station and at least one million people receive no FM stations. This segment of the population also has a limited choice of radio music formats and is one of CD Radio's primary target markets.

The Company also believes that CD Radio will have a competitive advantage over conventional radio stations because its music channels will be commercial-free. In contrast, conventional radio stations interrupt their broadcasts with up to 18 minutes of commercials in every hour of music programming, and most stations also frequently interrupt programming with news, promotional announcements, public service announcements and miscellaneous information. The Company believes that consumers dislike frequent radio commercial interruptions and that 'station surfing' to avoid them is common.

THE CD RADIO SERVICE

CD Radio will offer motorists: (i) a wide range of finely focused music formats; (ii) nearly seamless signal coverage throughout the continental United States; (iii) commercial-free music programming; and (iv) plug and play convenience.

Wide Choice of Programming. Each of CD Radio's 30 music channels will have a distinctive format, such as opera, reggae, classic jazz and children's entertainment, intended to cater to specific subscriber tastes. In most markets, radio broadcasters target their programming to broad audience segments. Even in the largest metropolitan markets the variety of station formats generally is limited, and many of the Company's planned formats are unavailable.

'Seamless' Signal Coverage. CD Radio will be available throughout the continental United States, enabling listeners almost always to be within its broadcast range. The Company expects its nearly seamless signal will appeal to motorists who frequently travel long distances, including truck drivers and recreational vehicle owners, as well as commuters and others who outdrive the range of their FM signals. In addition, the Company expects its broadcasts will appeal to the 45 million consumers who live in areas that currently receive only a small number of FM stations.

Commercial-Free Music Programming. The Company will provide commercial-free music programming. The Company's market research indicates that a principal complaint of radio listeners concerning conventional broadcast radio is the frequency of commercials. Because CD Radio, unlike most commercial AM and FM stations, will be a subscription and not an advertiser supported service, its music channels will not contain commercials.

Plug and Play Convenience. Consumers will be able to receive CD Radio broadcasts by acquiring an adapter (a 'radio card') and an easily attachable, silver dollar-sized satellite dish antenna. Listeners will not be required to replace their existing car radios and will be able to use the radio card by plugging it into their radio's cassette or compact disc slot. CD Radio listeners using a radio card will be able to push a button to switch between AM, FM and CD Radio. Radio cards will have a visual display that will indicate the channel and format selected, as well as the title, recording artist and album title of the song being played. Radio cards will also be portable and will be able to be moved from car to car. Radio card activation will be accomplished directly via satellite by calling the Company's customer service center at 888-CD-RADIO.

THE CD RADIO DELIVERY SYSTEM

The CD Radio delivery system will consist of three principal components:
(i) the satellites; (ii) the receivers; and (iii) the national broadcast studio.

The Satellites. The Company has designed the CD Radio delivery system to transmit an identical signal from two satellites placed in geosynchronous orbit at 80[d] W and 110[d] W longitude. The Company believes that these two satellites will provide nearly continuous, 'seamless' signal coverage throughout the continental United States. When the line-of-sight to one satellite is obstructed, the line-of-sight to the other generally will be available. In certain urban areas with significant line-of-sight obstructions, the Company intends to install terrestrial repeating transmitters that will rebroadcast its signals and improve the quality of reception.

There currently are no commercial satellites in orbit capable of transmitting radio signals on S-band frequencies to the United States. In order to provide CD Radio the Company must build and launch its own satellites. The Company has entered into a contract with Space Systems/Loral, Inc. ('Loral'), a subsidiary of Loral Space & Communications Ltd. ('Loral Space'), to build three satellites, one of which the Company intends to hold as a spare, and which grants an option to the Company to purchase an additional satellite (the 'Loral Satellite Contract'). The Company also has contracted for two launch slots (the 'Arianespace Launch Contract') with Arianespace S.A. ('Arianespace'), a leading supplier of satellite launch services.

The Receivers. Subscribers to CD Radio will not need to replace their existing AM/FM car radios. Instead they will be able to receive CD Radio in their vehicles using a radio card similar in size to a cassette tape or compact disc that has been designed to plug easily into the cassette or compact disc slot

Powered By EDGAR Online 2002. EDGAR Online, Inc.

of existing car radios. The radio card uses proprietary technology developed by the Company. In addition to radio cards, the Company expects that consumers will be able to receive CD Radio using a new generation of radios capable of receiving S-band as well as AM and FM signals ('S-band radios').

In addition to a radio card or S-band radio, a vehicle must be equipped with an antenna in order to receive CD Radio. The Company has designed a battery powered, miniature silver dollar-sized satellite dish antenna, the base of which has an adhesive backing so that consumers will be able to easily attach the satellite dish antenna to a car's rear window. The base houses a wireless transmitter that will relay the CD Radio signal to the vehicle's radio card or S-band radio. The satellite dish antenna also uses proprietary technology developed by the Company.

The Company expects that radio cards, S-band radios and miniature satellite dish antennas will be manufactured by one or more consumer electronics manufacturers and sold at retail outlets that sell consumer electronics, and that the miniature satellite dish antennas will be sold together with the radio cards or S-band radios. The Company believes that, when manufactured in quantity, S-band radios will be incrementally more expensive than today's car radios. The Company currently expects that the radio card together with the miniature satellite dish antenna will be sold at a retail price of approximately $200. Because subscribers will be able to use the radio card in almost all existing vehicles, the Company believes that the availability of plug and play radio cards will be of prime importance to its market penetration for a number of years.

The Company does not intend to manufacture or distribute radio cards, S-band radios or miniature satellite dish antennas. The Company has entered into non-binding memoranda of understanding with two major consumer electronics manufacturers, and has commenced discussions with several other such manufacturers, regarding the manufacture of radio cards, S-band radios and miniature satellite dish antennas for retail sale in the United States.

The National Broadcast Studio. The Company plans to originate its 50 channels of programming from a national broadcast studio (the 'National Broadcast Studio') to be located in the New York area. The National Broadcast Studio will house the Company's music library, facilities for programming origination, programming personnel and program hosts, as well as facilities to uplink programming to the satellites, to activate or deactivate service to subscribers and to perform the tracking, telemetry and control of the orbiting satellites.

PROGRESS TO DATE

The Company was formed in May 1990 and at that time proposed that the FCC create a satellite radio broadcast service and also filed an application with the FCC for a license to provide such a service. Since that time, the Company has:

```
    1993      Contracted with Loral for construction of its satellites
              Contracted with Arianespace for launch of two of its satellites

    1994      Completed an initial public offering of its Common Stock

    1995      Completed development of its proprietary miniature satellite dish
    antenna

    1996      Designed the radio card receiver

    1997      Received one of two FCC national satellite radio broadcast licenses
              Completed a $135 million private placement of 5% Preferred Stock
              Commenced construction of two satellites
              Completed receipt of satellite broadcast patents
              Arranged $105 million of vendor financing with Arianespace Finance S.A.
              Recruited its key programming, marketing and financial management team
              Completed a strategic sale of $25 million of Common Stock to Loral Space
```

See 'Business -- Progress to Date and Significant Development Milestones.'

CONCURRENT OFFERINGS

The Exchange Offering is part of a financing transaction, which included the Stock Offerings and Units Offering, that was intended to raise capital to partially finance the construction and launch of the Company's satellites and for general corporate purposes. Pursuant to the terms of the Exchange Offer, the Company offered to exchange shares of its Series C Preferred Stock for up to all of the outstanding shares of its 5% Preferred Stock. On November 20, 1997 the Exchange Offer was consummated and shares of Series C Preferred Stock were exchanged for

2002. EDGAR Online, Inc.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

all of the outstanding shares of 5% Preferred Stock. The Company expects that the Offerings will result in net proceeds to the Company of approximately $191.8 million: $49.0 million from the Stock Offerings (based on an assumed offering price of $19.3125 per share, the closing price of the Company's Common Stock at November 19, 1997) and $142.8 million from the Units Offering. The Company will receive no proceeds from the Exchange Offer. See 'Financing.'

RISK FACTORS

The Company's ability to meet its objectives will depend on several factors, including the timely receipt of necessary governmental approvals, obtaining additional financing, constructing and launching two satellites into orbit, developing and manufacturing radio cards, S-band radios and miniature satellite dish antennas by consumer electronics manufacturers, the rapid creation of an organization and the management of growth. The Company estimates that it will require approximately $645.9 million to develop and commence commercial operation of CD Radio by the end of 1999. Of this amount, the Company has raised approximately $266.6 million to date. After giving effect to the Offerings, the Company will have raised approximately $442.0 million of funds, leaving anticipated additional cash needs of approximately $203.9 million to fund its operations through 1999. The Company anticipates additional cash requirements of approximately $100.0 million to fund its operations through the year 2000. The Company expects to finance the remainder of its funding requirements through the issuance of debt or equity securities or a combination thereof. See 'Risk Factors' for a discussion of important factors that should be considered by prospective exchanging stockholders.

The Company was incorporated in the State of Delaware as Satellite CD Radio, Inc. on May 17, 1990. On December 7, 1992, the Company's name was changed to CD Radio Inc., and the Company formed a wholly-owned subsidiary, Satellite CD Radio, Inc., that is the holder of record of the Company's FCC License. The Company's executive offices are located at Sixth Floor, 1001 22nd Street, N.W., Washington, D.C. 20037, its telephone number is 202-296-6192 and its Internet address is www.cdradio.com.

THE EXCHANGE OFFER

The Exchange Offer........................... The Company offered to exchange pursuant to the Exchange Offer up to 1,846,799 shares of its New Preferred Stock for up to all of the outstanding shares of its 5% Preferred Stock at a rate of one share of New Preferred Stock for each $100 in Exchange Rate Liquidation Preference represented by shares of 5% Preferred Stock not previously converted. The 'Exchange Rate Liquidation Preference' was the amount determined by dividing (x) the liquidation preference of the shares of 5% Preferred Stock being exchanged (including accrued and unpaid dividends thereon, if any), by (y) 0.696145. On November 17, 1997, the expiration date of the Exchange Offer, the Exchange Rate Liquidation Preference was approximately $37.00 per share of 5% Preferred Stock. The Liquidation Preference of each share of New Preferred Stock was equal to $100.00. The terms of the New Preferred Stock (including the dividend rate, liquidation preference and conversion and redemption rights) differ in material respects from the terms of the 5% Preferred Stock for which it may be exchanged pursuant to this Exchange Offer. As of September 30, 1997, there were 5,222,608 shares of 5% Preferred Stock outstanding. In the Exchange Offer, all of the outstanding shares of 5% Preferred Stock were tendered for 1,846,799 shares of the New Preferred Stock. For a

Powered By EDGAR Online 2002. EDGAR Online, Inc.

comparison of certain material terms of the New Preferred Stock
and the 5% Preferred Stock, see ' -- Comparison of New Preferred
Stock and 5% Preferred Stock.' The 5% Preferred Stock was originally
issued in April 1997. See 'The Exchange Offer -- Terms of the
Exchange' and ' -- Terms and Conditions of the Letter of
Transmittal,'
and 'Description of Capital Stock.'
The Exchange Offer was open to all holders of 5% Preferred Stock.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Dividend Payments...........................	Dividends on the 5% Preferred Stock accepted for exchange pursuant to the Exchange Offer that are accrued and unpaid from April 10, 1997 to the date of issuance of the shares of New Preferred Stock will be included in the calculation of the Exchange Rate Liquidation Preference of the 5% Preferred Stock in determining the number of shares of New Preferred Stock to be received by the holders of the 5% Preferred Stock participating in the Exchange Offer. The Company will pay cash to exchanging holders in lieu of issuing fractional shares of New Preferred Stock. The annual dividend rate per share of the New Preferred Stock will be an amount equal to 10.5% of the sum of (x) the liquidation preference of the New Preferred Stock and (y) all accrued and unpaid dividends, if any, whether or not declared, from the date of issuance of the shares of New Preferred Stock to the applicable dividend payment date. Dividends on the shares of the New Preferred Stock will be cumulative, accruing quarterly and, when and as declared by the Board of Directors of the Company, will be payable initially on November 15, 2002 (the 'First Scheduled Dividend Payment Date') and on February 15, May 15, August 15 and November 15 in each year thereafter.
Expiration Date............................	The Exchange Offer expired at 12:00 midnight, New York City time, on November 17, 1997 (the 'Expiration Date'). See 'The Exchange Offer -- Expiration Date; Extension; Amendments' and '-- Acceptance of 5% Preferred Stock for Exchange; Delivery of New Preferred Stock.'
Exchange Date..............................	The date of acceptance for exchange of the shares of 5% Preferred Stock (the 'Exchange Date') will be the Expiration Date. Shares of New Preferred Stock will be delivered as promptly as practicable thereafter.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Conditions of the Exchange Offer............	The Exchange Offer was conditioned upon, among other things, (i) a minimum of 60% of the issued and outstanding shares of 5% Preferred Stock being tendered for exchange and not withdrawn prior to the Expiration Date and (ii) the General Conditions (as defined herein). There was no assurance that these conditions would be satisfied or waived. The Company reserved the right to waive certain of the conditions to the Exchange Offer and to amend or modify the Exchange Offer at any time for any reason. See 'The Exchange Offer -- Expiration Date; Extension; Amendments' and ' -- Conditions of the Exchange Offer.'
Withdrawal Rights...........................	The tender of shares of 5% Preferred Stock pursuant to the Exchange Offer may be withdrawn at any time prior to the Expiration Date and unless accepted for exchange by the Company, may be withdrawn at any time after forty business days after the date of this Prospectus. Withdrawal of tendered shares of 5% Preferred Stock will be deemed a rejection of the Exchange Offer. See 'The Exchange Offer -- Withdrawal Rights.'
Procedures for Tendering....................	See 'The Exchange Offer -- Tender Procedure.'
Federal Income Tax Consequences.............	As a result of certain provisions of the Taxpayer Relief Act of 1997 it is not clear whether the exchange of shares of 5% Preferred Stock for shares of New Preferred Stock will be a taxable event in its entirety. If it is a taxable event in its entirety, gain or loss will be recognized. For a discussion of these and other United States federal income tax considerations relevant to the Exchange Offer, see 'Certain United States Federal Income Tax Consequences.'
Use of Proceeds.............................	There will be no cash proceeds to the Company from the exchange pursuant to the Exchange Offer. See 'Use of Proceeds.'
No Dissenters' Rights.......................	Holders of shares of 5% Preferred Stock do not have any appraisal or dissenters' rights under the Delaware General Corporation Law or the Certificate of Designations. See 'The Exchange Offer -- Dissenters' Rights.'
Dealer Manager..............................	Merrill Lynch & Co. ('Merrill Lynch') is serving as Dealer Manager in connection with the Exchange Offer. See 'The Exchange Offer -- Dealer Manager.'
Exchange Agent..............................	IBJ Schroder Bank & Trust Company is serving as Exchange Agent in connection with the Exchange Offer. See 'The Exchange Offer -- Exchange Agent.'
Consequence of Failure to Exchange..........	Holders of shares of 5% Preferred Stock who do not exchange their shares of 5% Preferred Stock for shares of New Preferred Stock pursuant to the Exchange Offer or whose shares of 5% Preferred Stock are not accepted for exchange will continue to hold such shares of 5% Preferred Stock and will be entitled to all the rights and preferences, and will be subject to all of the limitations, applicable thereto. Assuming the Requisite Consents are obtained,

2002. EDGAR Online, Inc.

	To the extent that shares of 5% Preferred Stock are tendered and accepted in the Exchange Offer, the liquidity and trading market for untendered shares of 5% Preferred Stock, and the terms upon which such shares could be sold, could be adversely affected. See 'Risk Factors -- Reduced Trading Market for 5% Preferred Stock.'
Potentially Limited Market for New Preferred Stock......................................	The New Preferred Stock will be a new issue of securities with no established trading market. The Company has been advised by Merrill Lynch that it intends to make a market in the New Preferred Stock but is not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the New Preferred Stock. The trading market for the 5% Preferred Stock generally has not been liquid. See 'Market and Trading Information.'
Restrictions on Transfer....................	Subject to certain exceptions, holders of shares of New Preferred Stock issued in the Exchange Offer and holders of New Preferred Stock who convert such shares into shares of Common Stock ('Converted Stock') will not be permitted to sell, grant any option to purchase or otherwise transfer or dispose of (collectively, 'Transfer') any shares of New Preferred Stock or Converted Stock, as the case may be, until the later to occur of (i) for a period commencing on the Expiration Date and ending on December 22, 1997, (ii) for a period of four weeks following notice by the Company that it is about to commence the first public offering of Common Stock subsequent to the Expiration Date and (iii) for a period of 180 days following the date of execution of an underwriting or similar agreement for the first public offering of Common Stock subsequent to the Expiration Date; provided that if a holder is prevented by applicable law from owning assets subject to such restrictions on Transfer, such restrictions shall be inapplicable to such holder and the Company will have a right of first refusal with respect to all shares of New Preferred Stock held by such holder that is exercisable for a period equal to the lesser of (a) the applicable period specified in clause (i), (ii) or (iii) above, and (b) 90 days. See 'Risk Factors -- Restrictions on Transfer' and 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock -- Restrictions on Transfer.'

COMPARISON OF NEW PREFERRED STOCK AND 5% PREFERRED STOCK

The following is a brief summary comparison of certain of the principal terms of the New Preferred Stock and the 5% Preferred Stock.

	NEW PREFERRED STOCK	5% PREFERRED STOCK
Dividends..................	The annual dividend rate per share of the New Preferred Stock will be an amount equal to 10.5% of the sum of (x) the liquidation preference of the New Preferred Stock and	The annual dividend rate per share of 5% Preferred Stock is an amount equal to $1.25. Dividends on the shares of 5% Preferred Stock, when and as declared by the Board of

	NEW PREFERRED STOCK	5% PREFERRED STOCK
	(y) all accrued and unpaid dividends, if any, whether or not declared, from the date of issuance of the shares of New Preferred Stock to the applicable dividend payment date. Dividends on the shares of the New Preferred Stock will be cumulative, accruing quarterly and, when and as declared by the Board of Directors of the Company, will be payable quarterly initially on November 15, 2002 (the 'First Scheduled Dividend Payment Date') and on February 15, May 15, August 15 and November 15 in each year thereafter. In addition, accrued dividends on shares of New Preferred Stock will be paid on the redemption date of any share of New Preferred Stock redeemed by the Company, on the purchase date of any share of New Preferred Stock purchased by the Company pursuant to an Offer to Purchase (as defined herein) or on the conversion date of any share of New Preferred Stock converted into shares of Common Stock on or after the First Scheduled Dividend Payment Date. No accrued dividends will be paid on any shares of New Preferred Stock that are converted by the holders thereof prior to the First Scheduled Dividend Payment Date, unless such shares of New Preferred Stock are converted on or prior to a redemption date by holders thereof electing to convert such shares after having received a notice of redemption for such shares. Dividends may be paid in cash, shares of Common Stock or any combination thereof at the option of the Company. Common Stock issued to pay dividends will be valued at the average closing price of the Common Stock as reported in The Wall Street Journal for the 20 consecutive trading days immediately preceding the date of such payment. Dividends on the shares of New Preferred Stock will be paid to the holders of record of shares of the New Preferred Stock on a record date not more than 40 days nor fewer than 10 days preceding the payment date thereof. See 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock -- Dividends.'	Directors of the Company, are cumulative, accruing daily, and payable on April 15th and October 15th of each year. Any dividend payable on the shares of 5% Preferred Stock may be paid, at the option of the Company, either (i) in cash or (ii) by adding the amount of such dividend to the liquidation preference of the 5% Preferred Stock.
Mandatory Redemption.......	On November 15, 2012, the Company is required to redeem all outstanding shares of New Preferred Stock at a redemption price of 100%	If the Company does not have sufficient shares of Common Stock reserved to effect the conversion of all outstanding shares of the 5% Pre-

Powered By EDGAR Online 2002. EDGAR Online, Inc.

	NEW PREFERRED STOCK	5% PREFERRED STOCK
	of the Liquidation Preference, plus accrued and unpaid dividends, if any, to the redemption date.	ferred Stock, then at any time at the request of any holder of 5% Preferred Stock, the Company must purchase from such holder the number of shares of the 5% Preferred Stock equal to such holder's pro-rata share of the number of shares of the 5% Preferred Stock that would not be able to be converted due to an insufficient number of shares of Common Stock reserved for such purpose at the Maximum Price (as defined herein). In addition, if prior to the earlier of April 21, 1998 or the closing of a Pre-Amendment Qualifying Offering (as defined herein), the FCC awards more than two licenses (including the license awarded to the Company) permitting the licensee to provide satellite digital audio radio services and more than two licensees (including the Company) commence or announce an intention to commence satellite digital audio radio services, then upon the request of the holders of more than one-third of the outstanding shares of the 5% Preferred Stock, the Company must purchase one-half of the shares of the 5% Preferred Stock held by each requesting shareholder at a purchase price per share equal to the sum of the liquidation preference for the 5% Preferred Stock plus any Cash Payments (as defined herein) divided by the Applicable Multiplier (as set forth below).
Optional Redemption........	Except as described below, the shares of New Preferred Stock may not be redeemed by the Company at its option prior to November 15, 2002. From and after November 15, 1999 and prior to November 15, 2002, the Company may redeem shares of New Preferred Stock, in whole or in part, at a redemption price of 100% of the Liquidation Preference of the shares of New Preferred Stock redeemed, plus accrued and unpaid dividends, if any, whether or not declared, to the redemption date, if the average closing price of the Common Stock as reported in The Wall Street Journal for the 20 consecutive trading days prior to the notice of redemption thereof equals or exceeds $31.50 per share (subject to adjustments). From	The shares of 5% Preferred Stock may be redeemed, in whole or in part, upon the sale of any equity or debt securities in one or more offerings occurring after the date of the initial issuance of the 5% Preferred Stock and on or prior to December 30, 1997 for gross proceeds in an aggregate cash amount of not less than $100 million. The Company may not exercise its right of redemption unless (i) the average closing price of the Common Stock as reported in The Wall Street Journal for the 20 consecutive trading days prior to the notice of redemption shall equal or exceed $18 per share (subject to adjustments) and (ii) the shares of Common Stock issuable upon conversion of the shares of 5% Preferred Stock are registered for resale by an

	NEW PREFERRED STOCK	5% PREFERRED STOCK
	and after November 15, 2002, the Company may redeem shares of New Preferred Stock, in whole or in part, initially at a redemption price of 105.25% of the Liquidation Preference of the shares of New Preferred Stock redeemed and thereafter at prices declining ratably to 100% of the Liquidation Preference of the shares of New Preferred Stock redeemed from and after November 15, 2005, plus accrued and unpaid dividends, if any, to whether or not declared, the redemption date. In addition, within 30 days of the closing of the Debt Offering (as defined herein), the Company may redeem up to 50% of the outstanding shares of New Preferred Stock at a redemption price of 100% of the Liquidation Preference of the shares of New Preferred Stock redeemed, plus accrued and unpaid dividends, if any, whether or not declared, to the redemption date. The New Preferred Stock will not be subject to any mandatory sinking fund redemption. See 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock -- Redemption.'	effective registration statement under the Securities Act.
Conversion................	Each share of New Preferred Stock may be converted at any time at the option of the holder, unless previously redeemed, into a number of shares of Common Stock calculated by dividing the Liquidation Preference of the New Preference Stock (without accrued and unpaid dividends) by a conversion price (the 'Conversion Price') equal to (x) prior to the date of the first underwritten public offering of the Company's Common Stock following the initial issuance of the New Preferred Stock, $21.00 and (y) thereafter, the lower of $21.00 per share or the issue price per share of the Common Stock in such underwritten public offering. The Conversion Price will not be adjusted at any time for accrued and unpaid dividends on the shares of New Preferred Stock, but will be subject to	Shares of 5% Preferred Stock are convertible at the option of the holder at any time into shares of Common Stock, provided that the Company is not obligated to honor any request for conversion of the 5% Preferred Stock at any time if certain governmental approvals of the issuance of the Common Stock upon such conversion have not been obtained. If such approvals (other than with respect to a conversion resulting in a holder or group of holders holding more than 50% of the voting securities of the Company) are not obtained within 270 days after the Initial Registration Deadline (as defined in the Preferred Stock Investment Agreement (as defined herein)), the Company must, at the request of any holder, repurchase the shares of the 5% Preferred Stock held by such holder at a

Powered By EDGAR Online 2002. EDGAR Online, Inc.

	NEW PREFERRED STOCK	5% PREFERRED STOCK
	adjustment for the occurrence of certain corporate events affecting the Common Stock. Accrued dividends will be paid on the conversion date on any shares of New Preferred Stock converted into shares of Common Stock on or after the First Scheduled Dividend Payment Date. No accrued dividends will be paid, and the holders thereof will not be entitled to receive any dividends, on any shares of New Preferred Stock converted prior to the First Scheduled Dividend Payment Date, unless such shares of New Preferred Stock are converted on or prior to a redemption date by holders electing to convert such shares after having received a notice of redemption for such shares. See 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock -- Conversion.'	purchase price per share equal to the sum of the liquidation preference of the 5% Preferred Stock plus any other cash payments due to such holder (the 'Cash Payments'), divided by 0.72125 (the 'Maximum Price'). The number of shares of Common Stock issuable upon conversion of the shares of the 5% Preferred Stock will equal the liquidation preference of the shares of 5% Preferred Stock being converted plus any Cash Payments divided by the then-effective conversion price applicable to the Common Stock (the '5% Preferred Conversion Price'). The 5% Preferred Conversion Price, as of any date up to and including November 15, 1997, is determined in accordance with a formula based on market prices of the Common Stock or actual prices at which the converting holder sold shares of Common Stock, in either case, multiplied by the Applicable Multiplier. The Applicable Multiplier decreases each month, from 0.75125 for conversions occurring after September 15, 1997, to 0.72125 for conversions occurring after November 15, 1997. For a complete list of the Applicable Multipliers, see 'Description of Capital Stock -- 5% Preferred Stock -- Conversion.' At any date after November 15, 1997, the 5% Preferred Conversion Price is determined in accordance with a formula based on the lowest of (i) market prices of the Common Stock between October 15, 1997 and November 15, 1997, (ii) market prices of the Common Stock during the three consecutive trading days immediately preceding the date of conversion or (iii) actual prices at which the converting holder sold the shares of Common Stock, in each case, multiplied by. The 5% Preferred Stock is at all times subject to customary anti-dilution adjustments for events such as stock splits, stock dividends, reorganizations and certain mergers affecting the Common Stock.
Automatic Exchange.........	If the Company has not consummated one or more Qualifying Offerings yielding gross proceeds in an aggregate cash amount of at least $100 million by May 15, 1998 (the 'Auto-	

2002. EDGAR Online, Inc.

	NEW PREFERRED STOCK	5% PREFERRED STOCK
	matic Exchange Date'), all outstanding shares of New Preferred Stock shall be exchanged automatically (the 'Automatic Exchange') for shares of the Company's Series D Convertible Preferred Stock (the 'Series D Preferred Stock'), with an initial liquidation preference of $102.50 on the Automatic Exchange Date, at an exchange rate of one share of Series D Preferred Stock for each $100 of Automatic Exchange Rate Liquidation Preference represented by the shares of New Preferred Stock held by any holder. The Automatic Exchange Rate Liquidation Preference for the shares of New Preferred Stock shall be $69.6145 per share (the amount determined by multiplying (x) the Liquidation Preference for the shares of New Preferred Stock (without accrued and unpaid dividends thereon) by (y) 0.696145). The Company will pay cash to holders of New Preferred Stock in lieu of issuing fractional shares of Series D Preferred Stock in the Automatic Exchange. For a description of the terms, preferences and rights of the Series D Preferred Stock, see 'Description of Series D Preferred Stock.'	
Liquidation................	The Liquidation Preference of each share of New Preferred Stock will be equal to $100.00. See 'Description of Capital Stock 10 1/2% Series C Convertible Preferred Stock -- Liquidation.'	The liquidation preference of each share of 5% Preferred Stock is equal to $25.00 plus an amount equal to accrued and unpaid dividends on such share of 5% Preferred Stock.
Cash Payments.............	None.	The Company must make a monthly Cash Payment in an amount per share equal to 3% of the liquidation preference of the shares of 5% Preferred Stock or the equivalent in securities issued or issuable upon conversion to each holder if the Company fails (i) to honor any request for conversion of the 5% Preferred Stock except as permitted by the terms and conditions of the 5% Preferred Stock or (ii) to maintain the listing of the Common Stock on Nasdaq, the New York Stock Exchange or the American Stock Exchange. A similar Cash Payment must be made if, after effecting a registration statement with respect to the resale of Common Stock issuable upon conversion of the shares of 5% Preferred Stock, the use of the prospectus is suspended

Powered By EDGAR Online 2002. EDGAR Online, Inc.

	NEW PREFERRED STOCK	5% PREFERRED STOCK
		for more than 60 cumulative days in the aggregate in any twelve month period. In addition, if the Company fails at any time to reserve a sufficient number of shares of Common Stock for issuance upon conversion of the shares of 5% Preferred Stock, it must make a Cash Payment equal to 3% of the liquidation preference (proportionately reduced by the amount of shares that are so authorized and reserved) per month to the holders of the shares of 5% Preferred Stock.
Change in Control..........	If a Change in Control (as defined below) occurs, the Company must make an offer to purchase all outstanding shares of New Preferred Stock at a purchase price in cash equal to 101% of the Liquidation Preference, plus all accrued and unpaid dividends, if any, whether or not declared, to the date such shares are purchased. See 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock -- Change in Control.'	If a Reorganization (as defined below) occurs or is proposed, each holder of shares of 5% Preferred Stock may require the Company to redeem the shares of 5% Preferred Stock at the Maximum Price. A 'Reorganization' is defined as any reorganization or any reclassification of the Common Stock or other capital stock of the Company or any consolidation or merger of the Company with or into any other corporation or corporations or a sale of all or substantially all of the assets of the Company. If the holder of shares of 5% Preferred Stock chooses not to require the Company to redeem such holder's shares, the shares will be convertible into the number of shares of stock or other securities or property (including cash) to which a holder of the number of shares of Common Stock deliverable upon conversion of such share of 5% Preferred Stock not so redeemed would have been entitled upon the Reorganization.
Limitations on Debt and Equity Financing.........	None.	Pursuant to the Preferred Stock Investment Agreement, prior to the completion of a Pre-Amendment Qualifying Offering, the Company must not undertake to conduct any debt or equity financing that is not either pari passu or junior to the 5% Preferred Stock in seniority, structure and maturity. See 'Financing.'
Restrictions on Transfer................	Subject to certain exceptions, holders of New Preferred Stock issued in the Exchange Offer and holders of	None.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

	NEW PREFERRED STOCK	5% PREFERRED STOCK
	New Preferred Stock who convert such New Preferred Stock into shares of Common Stock ('Converted Stock') will not be permitted to sell, grant any option to purchase or otherwise transfer or dispose of (collectively, 'Transfer') any New Preferred Stock or Converted Stock, as the case may be, until the later to occur of (i) for a period commencing on the Expiration Date and ending on December 22, 1997, (ii) for a period of four weeks following notice by the Company that it is about to commence the first public offering of Common Stock subsequent to the Expiration Date and (iii) for a period of 180 days following the date of execution of an underwriting or similar agreement for the first public offering of Common Stock subsequent to the Expiration Date; provided that if a holder is prevented by applicable law from owning assets subject to such restrictions on Transfer, such restrictions shall be inapplicable to such holder and the Company will have a right of first refusal with respect to all shares of New Preferred Stock held by such holder that is exercisable for a period equal to the lesser of (a) the applicable period specified in clause (i), (ii) or (iii) above, and (b) 90 days. See 'Risk Factors -- Restrictions on Transfer.'	
Forced Conversion..........	None.	Three years or more after the date of original issuance of the 5% Preferred Stock, the Company may require the holders of the 5% Preferred Stock to convert such shares into Common Stock at the then applicable 5% Preferred Conversion Price and all Cash Payments due on a date specified in the notice of forced conversion. However, the Company will not have the right to require such conversion if the Company has commenced bankruptcy proceedings, has ceased operations or is in default for money borrowed in excess of $50 million.

SUMMARY CONSOLIDATED FINANCIAL DATA

The summary consolidated financial data for the Company set forth below with respect to the statements of operations for the years ended December 31, 1994, 1995 and 1996 and with respect to the balance sheets at December 31, 1995 and 1996 are derived from the consolidated financial statements of the Company, audited by Coopers & Lybrand L.L.P., independent accountants, incorporated herein by reference. The summary consolidated financial data for the Company, with respect to the balance sheets at December 31, 1992, 1993 and 1994 and with respect to the statement of operations data for the years ended December 31, 1992 and 1993, are derived from the Company's audited consolidated financial statements, which are not incorporated herein by reference. The financial information as of and for the nine months ended September 30, 1996 and 1997 is derived from unaudited consolidated financial statements incorporated herein by reference. In the opinion of management, the unaudited consolidated financial statements include all adjustments, consisting of normal recurring accruals, that are necessary for a fair presentation of the financial position and results of operations for these periods. The selected consolidated financial data should be read in conjunction with the consolidated financial statements and related notes thereto incorporated herein by reference.

RISK FACTORS

Prospective exchanging stockholders should carefully consider, in addition to the other information set forth elsewhere in this Prospectus, the factors set forth below. This Prospectus contains certain forward-looking statements within the meaning of the federal securities laws. Actual results and the timing of certain events could differ materially from those projected in the forward-looking statements due to a number of factors, including those set forth below and elsewhere in this Prospectus. See 'Special Note Regarding Forward-Looking Statements.'

EXPECTATION OF CONTINUING LOSSES; NEGATIVE CASH FLOW

The Company is a development stage company and its proposed service, CD Radio, is in an early stage of development. Since its inception, the Company's activities have been concentrated on raising capital, obtaining required licenses, developing technology, strategic planning and market research. From its inception on May 17, 1990 through September 30, 1997, the Company has had no revenues and has incurred aggregate net losses of approximately $20.0 million, including net losses of approximately $2.8 million during the year ended December 31, 1996 and $1.5 million during the nine months ended September 30, 1997. The Company does not expect to generate any revenues from operations until late 1999 or 2000 at the earliest, and expects that positive cash flow from operations will not be generated until late 2000 at the earliest. The ability of the Company to generate revenues and achieve profitability will depend upon a number of factors, including the timely receipt of all necessary FCC authorizations, the successful and timely construction and deployment of its satellite system, the development and manufacture of radio cards, S-band radios and miniature satellite dish antennas by consumer electronics manufacturers, the timely establishment of its National Broadcast Studio and the successful marketing and consumer acceptance of CD Radio. There can be no assurance that any of the foregoing will be accomplished, that CD Radio will ever commence operations, that the Company will attain any particular level of revenues or that the Company will achieve profitability.

NEED FOR SUBSTANTIAL ADDITIONAL FINANCING

The Company estimates that it will require approximately $647.6 million to develop and commence commercial operation of CD Radio by the end of 1999. Of this amount, the Company has raised approximately $266.6 million to date. After giving effect to the Offerings, the Company will have raised approximately $470.7 million of funds, leaving anticipated additional cash needs of approximately $176.9 million to fund its operations through 1999. The Company anticipates additional cash requirements of approximately $100.0 million to fund its operations through the year 2000. The Company expects to finance the remainder of its funding requirements through the issuance of debt or equity securities, or a combination thereof. Additional funds, however, would be required in the event of delays, cost overruns, launch failure or other adverse developments. Furthermore, if the Company were to exercise its option under the Loral Satellite Contract to purchase and deploy an additional satellite, substantial additional funds would be required. See 'Proposed Financing.' The Company anticipates funding its projected cash requirements through the completion of additional debt and equity financings. The Company currently does not have sufficient financing commitments to fund all of its capital needs, and there can be no assurance that the Company will be able to obtain additional financing on favorable terms, if at all, or that it will be able to do so on a timely basis. The AEF Agreements (as defined herein) contain, the indenture governing the Notes (the 'Indenture') will contain and documents governing any other future indebtedness are likely to contain, provisions that limit the ability of the Company to incur additional indebtedness. The Company has substantial near-term funding requirements related to the construction and launch of its satellites. The Company is committed to make aggregate payments of $277.1 million under the Loral Satellite Contract and of $176.0 million under the Arianespace Launch Contract. Under the Loral Satellite Contract, payments are to be made in 22 installments, which commenced in April 1997. Payments due under the Arianespace Launch Contract commence November 1997 for the first launch, and February 1998 for the second launch. See 'Management's Discussion and Analysis of Financial Condition and Results of Operations -- Liquidity and Capital Resources -- Funding Requirements.' Failure to secure the necessary financing on a timely basis could result in delays and increases in the cost of satellite

Powered By EDGAR Online 2002. EDGAR Online, Inc.

construction or launch or other activities necessary to put CD Radio into operation, could cause the Company to default on its commitments to its satellite construction or satellite launch contractors, its creditors or others, could render the Company unable to put CD Radio into operation and could force the Company to discontinue operations or seek a purchaser for its business. The issuance by the Company of additional equity securities could cause substantial dilution of the interest in the Company of holders of shares of New Preferred Stock received pursuant to the Exchange Offer who convert their shares of New Preferred Stock into shares of Common Stock.

POSSIBLE DELAYS AND ADVERSE EFFECT OF DELAY ON FINANCING REQUIREMENTS

The Company currently expects to begin offering CD Radio in late 1999. The Company's ability to meet that objective will depend on several factors. For both of the two satellites required for the CD Radio service to be launched and in operation by the end of 1999, Loral will be required to deliver the second satellite three months prior to the delivery date specified in the contract, which cannot be assured. See 'Business -- The CD Radio Delivery System -- The Satellites -- Satellite Construction.' Furthermore, the launch of both satellites will have to occur within the early months of the launch periods reserved with Arianespace, which also cannot be assured. See 'Business -- The CD Radio Delivery System -- The Satellites -- Launch Services.' A significant delay in the planned development, construction, launch and commencement of operation of the Company's satellites would have a material adverse effect on the Company. Other delays in the development or commencement of commercial operations of CD Radio may also have a material adverse effect on the Company. Any such delays could result from a variety of causes, including delays associated with obtaining FCC authorizations, coordinating use of spectrum with Canada and Mexico, inability to obtain necessary financing in a timely manner, delays in or modifications to the design, development, construction or testing of satellites, the National Broadcast Studio or other aspects of the CD Radio system, changes of technical specifications, delay in commercial availability of radio cards, S-band radios or miniature satellite dish antennas, failure of the Company's vendors to perform as anticipated or a delayed or unsuccessful satellite launch or deployment. During any period of delay, the Company would continue to have significant cash requirements, including capital expenditures, administrative and overhead costs, contractual obligations and debt service requirements that could materially increase the aggregate amount of funding required to permit the Company to commence operating CD Radio. Additional financing may not be available on favorable terms or at all during periods of delay. Delay also could cause the Company to be placed at a competitive disadvantage in relation to any competitor that succeeds in beginning operations earlier than the Company. See '-- Unavailability of Radio Cards, S-band Radios and Miniature Satellite Dish Antennas,' ' -- Continuing Oversight by the FCC,' 'Business -- The CD Radio Delivery System -- The Receivers' and 'Business -- Government Regulations -- Communications Laws.'

RELIANCE ON UNPROVEN APPLICATIONS OF TECHNOLOGY

CD Radio is designed to be broadcast from two satellites in geosynchronous orbit that transmit identical signals to radio cards or S-band radios through miniature satellite dish antennas. This design involves new applications of existing technology which have not been deployed and there can be no assurance that the CD Radio system will work as planned. In addition, radio cards, S-band radios and miniature satellite dish antennas are not currently available. In certain areas with high concentrations of tall buildings and other obstructions, such as large urban areas, or in tunnels, signals from both satellites will be blocked and CD Radio reception will be adversely affected. In urban areas, the Company plans to install terrestrial repeating transmitters to rebroadcast CD Radio; however, certain areas with impediments to satellite line-of-sight may still experience 'dead zones.' Although management believes that the technology developed by the Company will allow the CD Radio system to operate as planned, there can be no assurance that it will do so. See ' -- Unavailability of Radio Cards, S-band radios or Miniature Satellite Dish Antennas,' 'Business -- The CD Radio Delivery System' and 'Business -- Technology, Patents and Trademarks.'

DEPENDENCE UPON SATELLITE AND LAUNCH CONTRACTORS

The Company's business will depend upon the successful construction and launch of the satellites which will be used to transmit CD Radio. The Company will rely upon its satellite vendor, Loral, for the construction and timely delivery of these satellites. Failure by Loral to deliver functioning satellites in a

Powered By EDGAR Online 2002. EDGAR Online, Inc.

timely manner could materially adversely affect the Company's business. Although the Loral Satellite Contract provides for certain late delivery penalties, Loral will not be liable for indirect or consequential damages or lost revenues or profits resulting from late delivery or other defaults. Title and risk of loss for the first and second satellites are to pass to the Company at the time of launch. The satellites are warranted to be in accordance with the performance specifications in the Loral Satellite Contract and free from defects in materials and workmanship at the time of delivery, which for the first two satellites will be deemed to occur at the time of arrival of the satellites at the launch base. After delivery, no warranty coverage applies if the satellite is launched. See 'Business -- The CD Radio Delivery System -- The Satellites -- Satellite Construction.'

The Company is dependent on its satellite launch vendor, Arianespace, for the construction of launch vehicles and the successful launch of the Company's satellites. Failure of Arianespace to launch the satellites in a timely manner could materially adversely affect the Company's business. The Arianespace Launch Contract entitles Arianespace to postpone either of the Company's launches for a variety of reasons, including technical problems, lack of co-passenger(s) for the Company's launch or the need to conduct a replacement launch for another customer, a launch of a scientific satellite whose mission may be degraded by delay, or a launch of another customer's satellite whose launch was postponed. Although the Arianespace Launch Contract provides liquidated damages for delay, depending on the length of the delay, and entitles the Company to terminate the agreement for delay exceeding 12 months, there can be no assurance that these remedies will adequately mitigate any damage to the Company's business caused by launch delays. See ' -- Possible Delays and Adverse Effect of Delay on Financing Requirements.' The liability of Arianespace in the event of a launch failure is limited to providing a replacement launch in the case of a total launch failure or paying an amount based on lost satellite capacity in the case of a partial launch failure. See 'Business -- The CD Radio Delivery System -- The Satellites -- Launch Services.'

SATELLITE LAUNCH RISKS

Satellite launches are subject to significant risks, including launch failure, satellite destruction or damage during launch and failure to achieve proper orbital placement. Launch failure rates may vary depending on the particular launch vehicle and contractor. Although past experience is not necessarily indicative of future performance, Arianespace has advised the Company that as of November 13, 1997, 87 of 92 Arianespace launches (or approximately 94.6%) have been completed successfully since May 1984. See 'Business -- The CD Radio Delivery System -- The Satellites -- Launch Services.' However, the Ariane 5, the particular launch vehicle intended for the launches of the Company's satellites, has had only two launches, one of which was a failure. In the event of a significant delay in the Ariane 5 program, the Company has the right to request launch on an Ariane 4 launch vehicle. There is no assurance that Arianespace's launches of the Company's satellites will be successful. Satellites also may fail to achieve a proper orbit or be damaged in space. See ' -- Limited Life of Satellites; In-orbit Failure.' As part of its risk management program, the Company plans to construct a third, backup satellite and to obtain insurance covering a replacement launch to the extent required to cover risks not assumed by Arianespace under the Arianespace Launch Contract. See ' -- Insurance Risks.' The launch of a replacement satellite would delay the commencement or continuation of the Company's commercial operations for a period of at least several months, which could have a material adverse effect on the demand for the Company's services and on its revenues and results of operations. See 'Business -- The CD Radio Delivery System -- The Satellites -- Launch Services.'

UNCERTAIN MARKET ACCEPTANCE

There is currently no satellite radio service such as CD Radio in commercial operation in the United States. As a result, the extent of the potential demand for such a service and the degree to which the Company's proposed service will meet that demand cannot be estimated with certainty, and there can be no assurance that there will be sufficient demand for CD Radio to enable the Company to achieve significant revenues or cash flow or profitable operations. The success of CD Radio in gaining market acceptance will be affected by a number of factors beyond the Company's control, including the

2002. EDGAR Online, Inc.

willingness of consumers to pay subscription fees to obtain satellite radio broadcasts, the cost, availability and consumer acceptance of radio cards, S-band radios and miniature satellite dish antennas, the marketing and pricing strategies of competitors, the development of alternative technologies or services and general economic conditions. See 'Business -- The Radio Market,' 'Business -- The CD Radio Service,' 'Business -- Marketing Strategy,' 'Business -- The CD Radio Delivery System' and 'Business -- Competition.'

LIMITED LIFE OF SATELLITES; IN-ORBIT FAILURE

A number of factors will affect the useful lives of the Company's satellites, including the quality of construction, the expected gradual environmental degradation of solar panels, the amount of fuel on board and the durability of component parts. Random failure of satellite components could result in damage to or loss of a satellite. In rare cases, satellites could also be damaged or destroyed by electrostatic storms or collisions with other objects in space. If the Company is required to launch the spare satellite, due to failure of the launch or in-orbit failure of one of the operational satellites, its operational timetable would be delayed for approximately six months or more. The launch or in-orbit failure of two satellites would require the Company to arrange for additional satellites to be built and could delay the commencement or continuation of the Company's operations for three years or more. The Company's satellites are expected to have useful lives of approximately 15 years, after which their performance in delivering CD Radio is expected to deteriorate. There can be no assurance, however, of the specific longevity of any particular satellite. The Company's operating results would be adversely affected in the event the useful life of its initial satellites is significantly shorter than 15 years.

INSURANCE RISKS

Pursuant to the Loral Satellite Contract and the Arianespace Launch Contract, the Company is the beneficiary of certain limited warranties with respect to the services provided under each agreement. However, these limited warranties do not cover a substantial portion of the risks inherent in satellite launches or in-orbit operations, and the Company will have to obtain insurance to adequately protect against such risks.

The Arianespace Launch Contract contains a provision entitling the Company to a replacement launch in the event of a launch failure caused by the launch vehicle used to launch the Company's satellites. In such event, the Company would utilize the spare satellite that it is having constructed. Thus, the Company does not intend to purchase additional insurance for launch failure of the launch vehicle. The Company intends to insure against other contingencies, including a failure during launch caused by factors other than the launch vehicle and/or a failure involving the second or third satellite in a situation in which the spare satellite has been used to replace the first or second satellite. Any adverse change in insurance market conditions may result in an increase, which may be substantial, in the insurance premiums paid by the Company. There is no assurance that launch insurance will be available or, if available, that it can be obtained at a cost or on terms acceptable to the Company.

If the launch of either of the Company's two satellites is a full or partial failure or if, following launch, either of the satellites does not perform to specifications, there may be circumstances in which insurance will not fully reimburse the Company for its expenditures with respect to the applicable satellite. In addition, the Company has not acquired insurance that would reimburse the Company for business interruption, loss of business and similar losses which might arise from such events or from delay in the launch of either of the satellites. Any insurance obtained by the Company also will likely contain certain exclusions and material change conditions that are customary in the industry. See 'Business -- The CD Radio Delivery System -- The Satellites -- Risk Management and Insurance.'

RISK ASSOCIATED WITH CHANGING TECHNOLOGY

The industry in which the Company operates is characterized by rapid technological advances and innovations. There is no assurance that one or more of the technologies utilized or under development by the Company will not become obsolete, or that its services will be in demand at the time they are offered. The Company will be dependent upon technologies developed by third parties to implement

Powered By EDGAR Online 2002. EDGAR Online, Inc.

key aspects of its proposed system, and there can be no assurance that more advanced technologies will be available to the Company on a timely basis or on reasonable terms or that more advanced technologies will be used by the Company's competitors and that such technologies will be available to the Company. In addition, unforeseen problems in the development of the Company's satellite radio broadcasting system may occur that could adversely affect performance, cost or timely implementation of the system and could have a material adverse effect on the Company.

UNAVAILABILITY OF RADIO CARDS, S-BAND RADIOS OR MINIATURE SATELLITE DISH ANTENNAS

The Company's business strategy requires that subscribers to CD Radio purchase radio cards or S-band radios as well as the associated miniature satellite dish antennas in order to receive the service. See 'Business -- The CD Radio Delivery System.' Neither the radio cards, S-band radios nor miniature satellite dish antennas currently are available, and the Company is unaware of any manufacturer currently developing such products. The Company does not intend to manufacture or distribute radio cards, S-band radios or miniature satellite dish antennas. The Company has entered into non-binding memoranda of understanding with two major consumer electronics manufacturers, and has commenced discussions with several other such manufacturers, regarding the manufacture of radio cards, S-band radios and miniature satellite dish antennas for retail sale in the United States. The Company currently intends to select one manufacturer of these products on an exclusive basis for the first year of CD Radio broadcasts. There can be no assurance, however, that these discussions or memoranda of understanding will result in a binding commitment on the part of any manufacturer to produce radio cards, S-band radios and miniature satellite dish antennas in a timely manner and at an affordable price so as to permit the widespread introduction of CD Radio in accordance with the Company's business plan or that sufficient quantities of radio cards, S-band radios and miniature satellite dish antennas will be available to meet anticipated consumer demand. The failure to have one or more consumer electronics manufacturers develop these products for commercial sale in a timely manner, at an affordable price and with mass market nationwide distribution would have a material adverse effect on the Company's business. In addition, the FCC, in its order granting the FCC License, conditioned the Company's license on certification by the Company that its final receiver design is interoperable with respect to the final receiver design of the other licensee, which has proposed to use a significantly different transmission technology from that of the Company. The Company believes that it can design an interoperable receiver, but there can be no assurance that this effort will be successful or result in a commercially feasible receiver. See 'Business -- The CD Radio Delivery System,' 'Business -- Marketing Strategy,' and 'Business -- Technology and Patents.'

NEED TO OBTAIN RIGHTS TO PROGRAMMING

In connection with its music programming, the Company will be required to negotiate and enter into royalty arrangements with performing rights societies, such as The American Society of Composers, Authors and Publishers ('ASCAP'), Broadcast Music, Inc. ('BMI') and SESAC, Inc. ('SESAC'). These organizations collect royalties and distribute them to songwriters and music publishers. Copyright users negotiate a fee with these organizations based on a percentage of advertising and/or subscription revenues. Broadcasters currently pay a combined total of approximately 3% of their revenues to the performing rights societies. The Company also will be required to negotiate similar arrangements, pursuant to the Digital Performance Right in Sound Recordings Act of 1995 (the 'Digital Recording Act'), with the owners of the sound recordings. The determination of certain royalty arrangements with the owners of sound recordings under the Digital Recordings Act currently are subject to arbitration proceedings. The Company believes that it will be able to negotiate royalty arrangements with these organizations and the owners of sound recordings, but there can be no assurance as to the terms of any such royalty arrangements ultimately negotiated or established by arbitration.

DEVELOPMENT OF BUSINESS AND MANAGEMENT OF GROWTH

The Company has not yet commenced CD Radio broadcasts. The Company expects to experience significant and rapid growth in the scope and complexity of its business as it proceeds with the development of its satellite radio system and the commencement of CD Radio. Currently, the Company has only ten employees and does not have sufficient staff to program its broadcast service, manage operations, control the operation of its satellites, handle sales and marketing efforts or perform finance and accounting functions. Although the Company has recently retained experienced executives in several of these areas, the Company will be required to hire a broad range of additional personnel before its planned service begins commercial operations. Growth, including the creation of a

Powered By EDGAR Online 2002. EDGAR Online, Inc.

management infrastructure and staffing, is likely to place a substantial strain on the Company's management and operational resources. The failure to develop and implement effective systems or to hire and train sufficient personnel for the performance of all of the functions necessary to the effective provision of its service and management of its subscriber base and business, and the failure to manage growth effectively, would have a material adverse effect on the Company.

CONTINUING OVERSIGHT BY THE FCC

In order to offer CD Radio, the Company was required to obtain a license from the FCC to launch and operate its satellites. The Company was a winning bidder in the April 1997 FCC auction for an FCC license to build, launch and operate a national satellite radio broadcast service (the 'FCC License'), and the FCC's International Bureau issued such a license to the Company on October 10, 1997 (the 'IB Order'). Although the FCC License is effective immediately, for a period of 30 days following the grant of the FCC License certain parties could petition either the International Bureau or the full FCC to reconsider the decision to grant the FCC License to the Company. An application for review by the full Commission was filed by one of the low-bidding applicants in the auction. This petition requests, among other things, that the Commission adopt restrictions on foreign ownership, which were not applied in the IB Order, and, on the basis of the Company's ownership, overrule the IB Order. If this petition is denied, the complaining party may file an appeal with the U.S. Court of Appeals, which must find that the decision of the FCC was not supported by substantial evidence, or was arbitrary, capricious or unlawful in order to overturn the grant of the Company's FCC License. Although the Company believes the FCC will uphold the IB Order, the Company cannot predict the ultimate outcome of any proceedings relating to this petition or any other proceedings that may be filed. See 'Business -- Government Regulation -- Communications Laws.'

In order to ensure compliance with the transfer of control rule restrictions contained in the Communications Act of 1934, as amended (the 'Communications Act'), any future assignments or transfers of control of the Company's license must be approved by the FCC. There can be no assurance that the FCC would approve any such transfer or assignment.

The term of the FCC License with respect to each satellite is eight years, commencing from the date each satellite is declared operational after having been inserted into orbit. Upon the expiration of the term with respect to each satellite, the Company will be required to apply for a renewal of the relevant license. Although the Company believes that the FCC will grant such renewals absent significant misconduct on the part of the Company, there can be no assurance that such renewals in fact will be obtained.

The CD Radio system is designed to permit CD Radio to be received by motorists in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites. However, in certain areas with high concentrations of tall buildings, such as urban cores, or in tunnels, signals from both satellites will be blocked and reception will be adversely affected. Therefore, the Company plans to install terrestrial repeating transmitters to rebroadcast CD Radio in certain urban areas. The FCC has not yet established rules governing the application procedure for obtaining authorizations to construct and operate terrestrial repeating transmitters. The Company cannot predict the outcome of this process. In addition, in connection with the installation and operation of the terrestrial repeating transmitters, the Company will need to obtain the rights to use the roofs of certain structures where the repeating transmitters will be installed. There can be no assurance that the Company can obtain such roof rights on acceptable terms or in appropriate locations for the operation of CD Radio. Also, the FCC Licensing Rules (as defined herein) require that the Company complete frequency coordination with Canada and Mexico. There can be no assurance that the Company will be able to coordinate use of this spectrum or will be able to do so in a timely manner.

Changes in law, FCC regulations or international agreements relating to communications policy generally or to matters relating specifically to the services to be offered by the Company could affect the Company's ability to retain the FCC License and other approvals required to provide CD Radio or the manner in which CD Radio would be offered or regulated. See 'Business -- Government Regulation.'

The IB Order determined that as a private carrier, the Company is not subject to the current provisions of the Communications Act restricting ownership in the Company by non-U.S. private citizens or organizations. The Executive Branch of the U.S. government has expressed interest in changing this policy, which could lead to restrictions on foreign ownership of the Company's shares in the future. The IB Order stated that its action is subject to being revisited in a future proceeding.

The FCC has indicated that it may in the future impose public service obligations, such as channel set-asides for educational programming, on satellite radio licensees. The Company cannot predict whether the FCC will impose public service obligations or the impact that any such obligations, if imposed, would have on the Company.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

DEPENDENCE ON KEY PERSONNEL

The Company is highly dependent on the services of David Margolese, Chairman and Chief Executive Officer, who is responsible for the Company's operations and strategic planning. The loss of the services of Mr. Margolese could have a material adverse effect upon the business and prospects of the Company. See 'Business -- Government Regulation' and 'Management.'

APPLICATION OF EXPORT CONTROL REGULATIONS

Shipment of the Company's satellites to territory outside the United States is subject to U.S. export control regulation. Because Arianespace, the Company's satellite launch vendor, intends to launch the Company's satellites from an Arianespace launch facility in French Guiana, a department of France, export licenses will be required under United States export control regulations. There can be no assurance, however, that the required export licenses will be obtained.

RISK OF SIGNAL THEFT

The CD Radio signal, like all broadcasts, is subject to the risk of piracy. Although the Company plans to use encryption technology to mitigate signal theft, the Company does not believe that any such technology is infallible. Accordingly, there can be no assurance that theft of the CD Radio signal will not occur. Signal theft, if widespread, could have a material adverse effect on the Company.

COMPETITION

The Company will be seeking market acceptance of its proposed service in a new, untested market and will compete with established conventional radio stations, which do not charge subscription fees or require the purchase of radio cards or S-band radios and associated miniature satellite dish antennas to receive their services. Many radio stations also offer information programming of a local nature such as local news or traffic reports which the Company will be unable to offer. In addition, the Company expects that, prior to the commercial launch of CD Radio, some traditional FM radio broadcasting stations will begin to transmit digital, compact disc quality signals. The Company also expects to compete directly with American Mobile Radio Corporation ('AMRC'), a subsidiary of American Mobile Satellite Corporation ('AMSC'), which is the holder of the other FCC License. AMSC, which is owned in part by the Hughes Electronics Corporation subsidiary of General Motors Corporation, has financial, management and technical resources that greatly exceed those of the Company. See 'Business -- Competition.' In addition, the FCC could grant new licenses which would enable further competition to broadcast satellite radio. Finally, there are many portions of the electromagnetic spectrum that are currently licensed for other uses and certain other portions for which licenses have been granted by the FCC without restriction as to use, and there can be no assurance that these portions of the spectrum could not be utilized for satellite radio broadcasting in the future. Although any such licensees would face cost and competition barriers, there can be no assurance that there will not be an increase in the number of competitors in the satellite radio industry or any assurance that one or more competitors will not design a satellite radio broadcast system that is superior to the Company's system, either of which events could have a material adverse effect on the Company. See 'Business -- Competition.'

UNCERTAIN PATENT PROTECTION

The Company has been granted certain U.S. patents covering various features of satellite radio technology including, among other features, signal diversity and memory reception. There can be no certainty that the Company's system or products will be covered by the Company's patents. If the Company's system or products are not covered by the Company's patents, others may duplicate the Company's system or products without liability to the Company. In addition, there can be no assurance that the Company's U.S. patents will not be challenged, invalidated or circumvented by others. Litigation, which could result in substantial cost to the Company, may be necessary to enforce the Company's patents or may occur to determine the scope and validity of other parties' proprietary rights, and there can be no assurance of success in any such litigation. There can be no assurance that there are no patents, or pending patent applications which will later mature into patents, or inventions developed earlier which will later mature into patents, of others which may block the Company's ability to operate its system or license its technology. The earliest of the Company's patents is due to expire, upon payment of all necessary fees, on April 10, 2012. See 'Business -- Technology and Patents.'

NO DIVIDENDS

The Company has not declared or paid any dividends on its Common Stock since its inception, and does not currently anticipate paying any such dividends. The AEF Agreements contain and the Indenture will contain provisions that limit the Company's ability to pay dividends.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

LIMITED PUBLIC MARKET FOR COMMON STOCK

The Common Stock is traded on the Nasdaq National Market. There can be no assurance that an active public market will continue to exist for the Common Stock or as to the liquidity of any such market, the ability of holders of the Common Stock to sell their securities or the price at which such holders would be able to sell. Such price may be influenced by many factors, including, but not limited to, investor perception of the Company and its industry and general economic and market conditions.

VOLATILITY OF STOCK PRICE

The trading price of the Common Stock has been volatile, and it may continue to be so. Such trading price could be subject to wide fluctuations in response to announcements of business and technical developments by the Company or its competitors, quarterly variations in operating results, and other events or factors, including expectations by investors and securities analysts and the Company's prospects. In addition, stock markets have experienced extreme price volatility in recent years. This volatility has had a substantial effect on the market prices of development stage companies, at times for reasons unrelated to their operating performance. Such broad market fluctuations may adversely affect the price of the Common Stock.

ANTI-TAKEOVER PROVISIONS

The Company's Board of Directors has the authority to issue up to 50,000,000 shares of preferred stock (the 'Preferred Stock') in one or more series and to determine the price, rights, preferences and privileges of those shares without any further vote or action by the stockholders. Of that amount, 8,000,000 shares have been designated as 5% Preferred Stock and 7,000,000 shares of Preferred Stock have been designated Series C Preferred Stock. In the Exchange Offer, all of the outstanding shares of 5% Preferrred Stock were tendered for 1,846,799 shares of Series C Preferred Stock (which constitute all of the issued and outstanding shares of preferred stock of the Company). In addition, the Company has adopted a stockholders rights plan and in connection with the stockholders rights plan, 300,000 shares of Preferred Stock have been designated Series B Preferred Stock. Any issuance of Preferred Stock, including Preferred Stock with voting and conversion rights, as well as the Series C Preferred Stock which are convertible into shares of Common Stock, may adversely affect the voting power of the holders of Common Stock. The stockholders rights plan and any issuance of Preferred Stock may be deemed to have anti-takeover effects and may delay, deter or prevent a change in control of the Company that a stockholder might consider to be in his or her best interest. The Company may also become subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law. The effect of these provisions could have the effect of delaying or preventing a change of control of the Company or adversely affect the market price of the Company's Common Stock. Furthermore, the severance provisions of employment agreements with certain members of the Company's management provide for payments that could discourage an attempted change in control of the Company.

Any change in the composition of the Company's ownership after Arianespace Finance S.A. ('AEF') has determined that the Tranche A Loans are eligible for Conversion (as defined below), which could reasonably be expected to have a Material Adverse Effect (as defined in the AEF Agreements), would constitute a default under the AEF Agreements. Therefore, upon the occurrence of such change in the Company's ownership, AEF would have the right to accelerate its loans to the

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Company and the Company may be required to prepay all of its outstanding obligations under the AEF Agreements. See 'Description of Certain Indebtedness -- Vendor Financing.' There can be no assurance that the Company will satisfy the conditions for Conversion. However, any other financing obtained by the Company to repay or refinance the Tranche A Loans likely would contain restrictions on significant changes in the Company's stock ownership.

Upon the occurrence of any Change of Control (as defined in the Indenture), or a Change in Control (as defined in the Series C Preferred Stock certificate of designations), the Company will be required to make an offer to purchase the Notes, after issuance thereof, and the Series C Preferred Stock. If such an offer is made, there can be no assurance that the Company will have available funds sufficient to pay the purchase price for any or all of the Notes and the Series C Preferred Stock that might be delivered by holders of the Notes or the Series C Preferred Stock seeking to accept the offer. After the issuance of the Notes the failure of the Company to make or consummate the Change of Control offer or to pay the purchase price for the Notes when due will give the trustee under the Indenture and the holders of the Notes the right to require the Company to prepay all of its outstanding indebtedness and other obligations under the Notes. The failure of the Company to make or consummate the offer to purchase or pay the purchase price for the Series C Preferred Stock when due will give the holders of a majority of the Series C Preferred Stock the right, voting as a separate class, to elect a number of directors of the Company equal to the lesser of two directors and the number of directors constituting at least 25% of the Board of Directors of the Company.

In addition, a change in control of the Company could require FCC approval. See 'Business -- Regulation.'

CONTROL BY EXISTING STOCKHOLDERS

As of September 30, 1997, the executive officers and directors of the Company beneficially owned, or had voting power with respect to, approximately 42.0% of the outstanding Common Stock, and upon consummation of the Stock Offerings, such executive officers and directors are expected to beneficially own, or have voting power with respect to, approximately 32.7% of the outstanding Common Stock (assuming none of the executive officers, directors, any grantor under a voting trust granting voting power over shares of Common Stock purchased by such grantor or such grantor's affiliates to any of such executives or directors, or such grantor's affiliates purchases any shares of Common Stock in the Stock Offerings). This concentration of ownership will enable such stockholders, either acting alone or together with other existing stockholders, to exert considerable influence over the management and policies of the Company. Such a concentration of ownership may have the effect of delaying, deferring or preventing a change of control.

INVESTMENT COMPANY ACT OF 1940

On July 22, 1997, the Company filed an application with the Securities and Exchange Commission for an order declaring that the Company is not an 'investment company' as that term is defined in the Investment Company Act of 1940, as amended (the '1940 Act'). The 1940 Act defines an investment company to include a company that owns or proposes to acquire 'investment securities' (as that term is defined in the 1940 Act) exceeding 40% of the value of such company's assets (exclusive of U.S. government securities and cash items). Because the Company had temporarily invested the proceeds from its recent public and private offerings in investment securities prior to their expenditure, the Company could have fallen within the definition of an investment company. Investment companies must be registered and are subject to extensive regulation by the Commission under the 1940 Act.

The filing of the application gave the Company an automatic 60-day exemption (the final day of which was September 19, 1997) from the provisions of the 1940 Act pending a final determination of the merits of its application. Because the Commission has not yet acted on the Company's application, the Company has now invested in U.S. government securities at least that proportion of its assets as the Company believes will be sufficient to avoid any determination that it is an 'investment company' within the meaning of the 1940 Act.

If the requested relief is ultimately denied, the Company may be required to register as an investment company or, in the alternative, to invest a substantial portion of the proceeds from the

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Offerings in U.S. government securities, pending expenditure of such proceeds by the Company for its corporate purposes.

SHARES ELIGIBLE FOR FUTURE SALE

Upon the consummation of the Stock Offerings, the Company will have 15,377,844 shares of Common Stock outstanding, assuming no exercise of (i) the Underwriters' over-allotment option and (ii) outstanding options. Of these shares, 9,695,896 shares will be freely tradeable without restriction under the Securities Act unless such shares are purchased in the Stock Offerings by 'affiliates' of the Company, as such term is defined in Rule 144 under the Securities Act (the 'Affiliates'). Of the remaining 6,381,988 shares of Common Stock, 3,547,488 shares are 'restricted securities' as that term is defined in Rule 144 under the Securities Act (the 'Restricted Shares'). Restricted Shares may be sold in the public market only if registered or if they qualify for an exemption from registration under Rules 144, 144(k) or 701 promulgated under the Securities Act. Up to 1,642,000 of the Restricted Shares held by the directors and certain officers of the Company will be eligible for sale, subject to the restrictions of Rule 144, upon expiration of certain lock-up agreements entered into between each of such directors and officers of the Company and the underwriters of the Stock Offering (the 'Lock-up Agreements'), which shall expire, with respect to a Lock-up Agreement concerning 1,600,000 of such shares, on a cumulative basis as to 25% of such 1,600,000 shares at the expiration of each of the 15th, 18th, 21st and 24th month following August 26, 1997, and, with respect to Lock-up Agreements concerning the remaining 42,000 shares, 180 days after the effective date of the Stock Offerings. The remaining 1,905,488 Restricted Shares will not become eligible for resale until August 1998, and then only pursuant to the restrictions under Rule 144. In addition, the Company's largest stockholder has entered into a lock-up agreement relating to 2,834,500 shares lasting for a period ending, on a cumulative basis, as to 25% of the shares of Common Stock owned by such holder, on the expiration of the 15th, 18th, 21st and 24th month following August 26, 1997. As such shares become free of such lock-up, they will be eligible for sale without restriction.

The Company is unable to predict the effect that sales made under Rule 144, pursuant to future registration statements, or otherwise, may have on any then prevailing market price for shares of the Common Stock. Nevertheless, sales of a substantial amount of Common Stock in the public market, or the perception that such sales could occur, could adversely affect market prices.

RISK OF INABILITY TO REPURCHASE THE NEW PREFERRED STOCK UPON A CHANGE OF CONTROL

If a Change in Control (as defined herein) occurs and an Offer to Purchase (as defined herein) is made, there can be no assurance that the Company will have available funds sufficient to pay the purchase price for any or all of the shares of New Preferred Stock that might be delivered by holders of the New Preferred Stock seeking to accept the Offer to Purchase. The failure of the Company to consummate the Offer to Purchase or pay the purchase price for the New Preferred Stock when due will give the holders of a majority of the New Preferred Stock the right, voting as a separate class, to elect a number of directors of the Company equal to the lesser of two directors and the number of directors constituting at least 25% of the board of directors of the Company. See 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock -- Change of Control' and ' -- Voting Rights.'

LACK OF ESTABLISHED TRADING MARKET FOR NEW PREFERRED STOCK

The New Preferred Stock constitutes a new issue of securities of the Company with no established trading market. The liquidity of the New Preferred Stock will be affected by the number of shares of 5% Preferred Stock accepted in the Exchange Offer. There can be no assurance that an active market for the New Preferred Stock will develop or be sustained in the future. Although the Dealer Manager has indicated to the Company that it intends to make a market in the New Preferred Stock, it is not obligated to do so and may discontinue any such market-making at any time without notice. Accordingly, no assurance can be given as to the liquidity of, or trading markets for, the New Preferred Stock. See 'Market and Trading Information.'

REDUCED TRADING MARKET FOR 5% PREFERRED STOCK

To the extent shares of 5% Preferred Stock are tendered and accepted in the Exchange Offer or redeemed pursuant to their terms and/or the number of holders of 5% Preferred Stock is reduced to

2002. EDGAR Online, Inc.

below certain levels, the liquidity and trading market for shares of 5% Preferred Stock outstanding following the Exchange Offer, and the terms upon which such shares could be sold, could be adversely affected.

The Company may in the future seek to acquire untendered shares of 5% Preferred Stock in open market or privately negotiated transactions, through subsequent exchange offers, redemptions or otherwise. The Company's decision to make such acquisitions is dependent on many factors, including market conditions at the time of any contemplated acquisition. Accordingly, the Company cannot predict whether and to what extent it will acquire any additional shares of 5% Preferred Stock and the consideration to be paid therefor.

FINANCING

In order to raise a portion of the additional funds required to commercialize its proposed CD Radio service, the Company issued 2,800,000 shares of its Common Stock in a registered public offering underwritten by Merrill Lynch, Lehman Brothers Inc. and C.E. Unterberg, Towbin and its Units in a registered public offering underwritten by Merrill Lynch and Lehman Brothers Inc. The Offerings will be made by means of separate prospectuses relating to the Common Stock and the Units, respectively, in accordance with the requirements of the Securities Act. The Common Stock, when issued, would rank junior, and the Units, when issued, would rank senior, to the New Preferred Stock in respect of dividends and distribution of assets of the Company in liquidation.

The net proceeds to the Company from the Stock Offerings are estimated to be approximately $45.6 million ($52.5 million if the Underwriters' over-allotment option is exercised in full) after deducting estimated underwriting discounts and estimated expenses relating thereto. Concurrently with the sale of the shares of Common Stock, the Company completed the Units Offering having consummated the Exchange Offer on November 20, 1997. The net proceeds to the Company from the Units Offering are estimated to be approximately $118.9 million after deducting estimated underwriting discounts and estimated expenses of the Units Offering. The Company will receive no proceeds from the Exchange Offer.

The Company expects to use the net proceeds of the Offerings to partially finance the construction and launch of the Company's satellites. The remainder of the net proceeds of the Offerings will be used for general corporate purposes, including marketing and working capital.

The Company estimates that it will require approximately $645.9 million to develop and commence commercial operation of CD Radio by the end of 1999. Of this amount, the Company has raised approximately $266.6 million to date. After giving effect to the Offerings, the Company will have raised $442.0 million of funds, leaving anticipated additional cash needs of approximately $203.9 million to fund its operations through 1999. The Company anticipates additional cash requirements of approximately $100.0 million to fund its operations through the year 2000. The Company expects to finance the remainder of its funding requirements through the issuance of debt or equity securities or a combination thereof. There can be no assurance, however, that the Company's cash requirements will not increase or that such funds will be sufficient. In addition, although the Company's business plan is based upon the deployment of two satellites and the construction of a third spare satellite, it has the right to exercise an option under the Loral Satellite Contract to acquire an additional satellite. If the Company elects to exercise this option, substantial additional funds would be required and the Company would have to obtain additional regulatory approvals. Deployment of an additional satellite also could result in a delay in the introduction of CD Radio. Any decision to deploy a three satellite system would have to be made prior to the launch of the Company's first satellite. The Company intends to seek additional financing through the issuance of debt or equity securities in the public or private markets. However, there can be no assurance that the Company will be able to obtain additional financing on favorable terms, or at all, or that such financing will be available in a timely manner. See 'Risk Factors -- Need for Substantial Additional Financing.'

Powered By EDGAR Online 2002. EDGAR Online, Inc.

USE OF PROCEEDS

There will be no cash proceeds to the Company from the Exchange Offer.

PRICE RANGE OF COMMON STOCK

The Common Stock began trading on the Nasdaq SmallCap Market on September 13, 1994 under the symbol 'CDRD' and traded there until October 24, 1997, when it began trading on the Nasdaq National Market. The following table sets forth the high and low prices for the Common Stock, as reported by the Nasdaq SmallCap Market or Nasdaq National Market, as applicable for the periods indicated below. The prices set forth below reflect interdealer quotations, without retail markups, markdowns, fees or commissions and do not necessarily reflect actual transactions.

	HIGH	LOW
1994:		
Third Quarter (commencing September 13, 1994)	$ 4 1/2	$ 3 3/4
Fourth Quarter	3 7/8	1 5/8
1995:		
First Quarter	4 5/8	1 7/8
Second Quarter	3 15/16	2 5/8
Third Quarter	4 5/8	2 15/16
Fourth Quarter	4 3/8	2 15/16
1996:		
First Quarter	9 1/8	2 15/16
Second Quarter	13 3/4	7 1/8
Third Quarter	9 5/8	6 3/4
Fourth Quarter	8 1/2	3 7/16
1997:		
First Quarter	8	3 9/16
Second Quarter	20 1/4	10 3/4
Third Quarter	20	14
Fourth Quarter (through November 19, 1997)	25 1/4	18 13/16

On November 19, 1997, the closing bid price of the Common Stock on the Nasdaq National Market was $19 5/16 per share. On September 30, 1997, there were approximately 105 record holders of the Common Stock.

DIVIDEND POLICY

The Company has never paid cash dividends on its capital stock. The Company currently intends to retain earnings, if any, for use in its business and does not anticipate paying any cash dividends in the foreseeable future. The AEF Agreements contain, and the Indenture will contain, provisions that limit the Company's ability to pay dividends on the Common Stock.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

CAPITALIZATION

The following table sets forth the cash and capitalization of the Company as of September 30, 1997 (i) on an historical basis; (ii) as adjusted for payment by the Company of the balance due to the FCC for the FCC License in October 1997 and the Exchange Offer (effective November 17, 1997 100% of the outstanding shares of the 5% Delayed Convertible Stock had been exchanged for shares of 10 1/2% Series C Convertible Preferred Stock) after deducting Dealer Manager fees and other estimated expenses; and (iii) as adjusted for the estimated net proceeds from the sale of 2,800,000 shares of Common Stock pursuant to the Stock Offerings (at an assumed offering price of $19 5/16 per share, the closing price of the Company's Common Stock at November 19, 1997, after deducting the underwriting discounts and commissions and estimated offering expenses) and the sale of Units for net proceeds of $142.8 million pursuant to the Units Offering.

	AS OF SEPTEMBER 30, 1997		
	ACTUAL	AS ADJUSTED FOR THE EXCHANGE OFFER	AS FURTHER ADJUSTED FOR THE OFFERINGS
	(IN THOUSANDS, EXCEPT SHARE DATA)		
Cash and cash equivalents	$ 29,386	$ 25,393	$ 217,122
Designated cash(1)	66,667	--	--
Total cash and cash equivalents	$ 96,053	$ 25,393	$ 217,122
Senior Discount Notes(2)	$ --	$ --	$ 150,000
5% Delayed Convertible Preferred Stock, 4,988,781 shares issued and outstanding, actual(3)	116,083	--	--
10 1/2% Series C Convertible Preferred Stock, no par value, 1,846,799 shares issued and outstanding, as adjusted and as further adjusted(4)	--	184,632	184,632
Common Stock, $.001 par value; 12,577,884 shares issued and outstanding, actual and as adjusted; and 15,377,884 shares issued and outstanding, as further adjusted(4)	13	13	15
Additional paid in capital	104,252	48,259	97,235
Deficit accumulated during the development stage	(72,000)	(88,549)	(88,549)
Total capitalization(5)	$ 148,348	$ 144,355	$ 343,333

(1) Represents proceeds of the offering of the 5% Preferred Stock which have been classified as designated cash reflecting the balance due to the FCC for the Company's FCC License. The Company paid this amount to the FCC in October 1997.

(2) In accordance with generally accepted accounting principles, a portion of the issue price of the Units will be allocated to the Warrants to reflect their fair market value at the date of issuance.

(3) All capitalization excludes warrants issuable by the Company as of September 30, 1997 to purchase 486,000 shares of 5% Preferred Stock.

(4) All capitalization excludes: (i) options outstanding as of September 30, 1997 to purchase 2,013,000 shares of Common Stock, of which 1,652,000 shares are subject to currently exercisable options, and (ii) warrants issuable as of September 30, 1997 to purchase 2,000,000 shares of Common Stock.

(5) Total capitalization does not include any amounts for the AEF Agreements (as defined herein).

SELECTED HISTORICAL FINANCIAL INFORMATION

The selected consolidated financial data for the Company set forth below with respect to the statements of operations for the years ended December 31, 1994, 1995 and 1996 and with respect to the balance sheets at December 31, 1995 and 1996 are derived from the consolidated financial statements of the Company, audited by Coopers & Lybrand L.L.P., independent accountants, incorporated herein by reference. The selected consolidated financial data for the Company with respect to the balance sheets at December 31, 1992, 1993 and 1994 and with respect to the statement of operations data for the years ended December 31, 1992 and 1993, are derived from the Company's audited consolidated financial statements, which are not incorporated herein by reference. The financial information as of and for the nine months ended September 30, 1996 and 1997 is derived from unaudited consolidated financial statements incorporated herein by reference. In the opinion of management, the unaudited consolidated financial statements include all adjustments, consisting of normal recurring accruals, that are necessary for a fair presentation of the financial position and results of operations for these periods. The selected consolidated financial data should be read in conjunction with the consolidated financial statements and related notes thereto incorporated herein by reference.

(1) Includes a deemed dividend on the Company's 5% Preferred Stock of $52.0 million, or $4.83 per share. The deemed dividend relates to the discount feature associated with the 5% Preferred Stock, computed in accordance with the Commission's position on accounting for preferred stock which is convertible at a discount to the market price.

(2) Represents proceeds of the offering of the 5% Preferred Stock which were classified as designated cash reflecting the balance due to the FCC for the Company's FCC License. The Company paid this amount to the FCC in October 1997.

Actual results and the timing of certain events could differ materially from those projected in the forward-looking statements due to a number of factors, including those set forth under 'Risk Factors' and elsewhere in this Prospectus. See 'Special Note Regarding Forward-Looking Statements.'

OVERVIEW

The Company was organized in May 1990 and is in its development stage. The Company's principal activities to date have included technology development, pursuing regulatory approval for CD Radio, market research, design, development, contract negotiations with satellite and launch vehicle contractors, technical efforts with respect to standards and specifications, strategic planning and securing adequate financing for working capital and capital expenditures. The Company does not expect to derive any revenues from operations prior to the commercial launch of CD Radio, which is expected to occur no earlier than the end of 1999. The Company has incurred substantial losses to date and expects to incur substantial losses until at least a year after the commercial launch of CD Radio. In addition, the Company will require substantial additional capital to complete development and commence commercial operations of CD Radio. There can be no assurance that CD Radio will ever commence operations, that the Company will attain any particular level of revenues or that the Company will achieve profitability.

Upon commencing commercial operations, the Company expects its primary source of revenues to be monthly subscription fees. The Company currently anticipates that its subscription fee will be approximately $10 per month to receive CD Radio broadcasts, with a one time, modest activation fee per subscriber. To receive CD Radio, subscribers will need to purchase a radio card or S-band radio together with the associated miniature satellite dish antenna. The Company does not intend to manufacture these products and thus will not receive any revenues from their sale. Although the Company holds patents covering various features of its satellite broadcasting system, which system includes, among other features, certain technology to be used in the radio cards, S-band radios and miniature satellite dish antennas, the Company expects to license its technology to manufacturers at no charge. As the number of subscribers to CD Radio increases, the Company also may derive revenues from payments from producers of sports, news and talk programming for providing national distribution of their programming to subscribers.

The Company expects that the operating expenses associated with commercial operations will consist primarily of costs to acquire programming; costs to maintain and operate its satellite broadcasting system and National Broadcasting Studio; and sales, general and administrative costs. Costs to acquire programming are expected to include payments to build and maintain an extensive music library and royalty payments for broadcasting music (calculated based on a percentage of revenues). Sales, general and administrative costs are expected to consist primarily of advertising costs, salaries of executives, studio personnel, program hosts, administrators, technical staff, rent and other administrative expenses. The Company expects that the number of its employees will increase from 11 to approximately 100 by the time it commences commercial operations.

In addition to funding initial operating losses, the Company will require funds for working capital, interest and financing costs on borrowings and capital expenditures. The Company's interest expense will increase significantly as a result of its financing plan. However, a substantial portion of its planned indebtedness will not require cash payments of interest and principal for some time.

RESULTS OF OPERATIONS

NINE MONTHS ENDED SEPTEMBER 30, 1997 COMPARED WITH NINE MONTHS ENDED SEPTEMBER 30, 1996

The Company recorded net losses of $1,489,000 and $1,872,000 for the nine months ended September 30, 1997 and 1996, respectively, and $654,000 and $667,000 for the three months ended September 30, 1997 and 1996, respectively. The Company's total operating expenses were $4,357,000 and $1,921,000 for the nine months ended September 30, 1997 and 1996, respectively, and were

2002. EDGAR Online, Inc.

$2,230,000 for the three months ended September 30, 1997 compared to $682,000 for the three months ended September 30, 1996.

Legal, consulting and regulatory fees increased for the nine months ended September 30, 1997 to $2,603,000 from $979,000 for the nine months ended September 30, 1996, and increased to $1,357,000 from $372,000 for the three months ended September 30, 1997 and 1996, respectively. These levels of expenditures are the result of increased activity since winning an auction for a national satellite radio broadcast license conducted by the FCC in April 1997.

Research and development costs were $43,000 and $77,000 for the nine months ended September 30, 1997 and 1996, respectively, and $8,000 and $24,000 for the three months ended September 30, 1997 and 1996, respectively. The Company completed the majority of such activities in 1994.

Other general and administrative expenses increased for the nine months ended September 30, 1997 to $1,711,000 from $866,000 for the nine months ended September 30, 1996 and to $865,000 from $285,000 for the three months ended September 30, 1997 and 1996, respectively. General and administrative expenses are expected to continue to increase as the Company continues to develop its business. The Company also incurred a non-cash charge of $240,000 for the nine month period ended September 30, 1996, attributable to the recognition of compensation expense in connection with stock options issued to officers of the Company.

The increase in interest income to $2,873,000 for the nine months ended September 30, 1997, from $62,000 in the nine months ended September 30, 1996 and to $1,575,000 from $17,000 for the three months ended September 30, 1997 and 1996, respectively, was the result of a higher average cash balance during 1997. The cash and cash equivalents on hand were primarily obtained from the 5% Preferred Stock offering and the sale of Common Stock to Loral Space in 1997.

YEARS ENDED DECEMBER 31, 1996 COMPARED WITH YEAR ENDED DECEMBER 31, 1995

The Company recorded net losses of $2,831,000 ($.29 per share) and $2,107,000 ($.23 per share) for the years ended December 31, 1996 and 1995, respectively. The Company's total operating expenses were $2,930,000 in 1996 compared to $2,230,000 in 1995.

Legal, consulting and regulatory fees increased in 1996 to $1,582,000 from $1,046,000 in 1995, as the result of increased efforts to obtain the FCC License.

Research and development costs were $117,000 in 1996, compared with $122,000 in 1995. Non-recurring costs associated with the design and development of the CD Radio demonstration system were substantially completed in 1993. Costs incurred in subsequent years relate to the operations of the demonstration system, including leasing satellite time, taking transmission measurements, and testing multipath fading.

Other general and administrative expenses increased in 1996 to $1,231,000 from $1,062,000 in 1995. The increase is due to the Company requiring general administrative support for the effort to obtain the FCC License.

Interest income decreased to $113,000 in 1996 from $143,000 in 1995 as a result of the Company having a higher average cash balance in 1995. Proceeds relating to the exercise of stock warrants were not received until late 1996 and, therefore, did not generate a significant amount of interest income. Interest expense decreased from $20,000 in 1995 to $13,000 in 1996 as a result of the Company repaying a promissory note due to an officer of the Company in 1996.

YEAR ENDED DECEMBER 31, 1995 COMPARED WITH YEAR ENDED DECEMBER 31, 1994

The Company recorded net loss of $2,107,000 ($.23 per share) and $4,065,000 ($.48 per share) for the years ended December 31, 1995 and 1994, respectively. The Company's total operating expenses were $2,230,000 in 1995 compared to $4,076,000 in 1994.

Legal, consulting and regulatory fees decreased from $1,245,000 in 1994 to $1,046,000 in 1995 as the Company continued to reduce costs while awaiting action by the FCC on the Company's application for an FCC License.

Other general and administrative expenses also decreased from $2,455,000 in 1994 to $1,062,000 in 1995 reflecting a reduction of costs such as payroll, rent and compensation expense in connection with issuance of stock options.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

The Company completed the majority of the research and development necessary for product development prior to FCC licensing by 1994 which was reflected in the decrease of research and development costs from $375,000 in 1994 to $122,000 in 1995.

The increase in interest income from $51,000 in 1994 to $143,000 in 1995 was the result of a higher average cash balance in 1995. The cash and cash equivalents on hand were originally obtained from the Company's initial public offering in September 1994, which raised $4.8 million.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 1997, the Company had working capital of approximately $29,870,000 compared to $4,442,000 at December 31, 1996. The increase in working capital was primarily the result of remaining cash proceeds from the offering of 5% Preferred Stock and the sale of Common Stock to Loral Space in 1997.

FUNDING REQUIREMENTS

The Company is a development stage company and as such will require substantial amounts of continued outside financing to acquire and develop its assets and commence commercial operations. The Company estimates that it will require approximately $647.6 million to develop and commence commercial operation of CD Radio by the end of 1999. Of this amount, the Company has raised approximately $266.6 million to date. After giving effect to the Offerings, the Company will have raised approximately $470.7 million of funds, leaving anticipated additional cash needs of approximately $176.9 million to fund its operations through 1999. The Company anticipates additional cash requirements of approximately $100.0 million to fund its operations through the year 2000. The Company expects to finance the remainder of its funding requirements through the issuance of debt or equity securities, or a combination thereof. Furthermore, if the Company were to exercise its option under the Loral Satellite Contract to purchase and deploy an additional satellite, substantial additional funds would be required. See 'Financing.'

In April 1997, the Company was the winning bidder in an FCC auction for one of two national satellite broadcast licenses with a winning bid of $83.3 million, of which $16.7 million was paid as a deposit. The Company paid the balance due the FCC in October 1997 and was awarded the FCC License on October 10, 1997.

To build and launch the satellites necessary for the operations of CD Radio, the Company has entered into the Loral Satellite Contract and the Arianespace Launch Contract. The Loral Satellite Contract provides for Loral to construct for the Company three satellites, two of which the Company intends to launch and the third of which will be kept in reserve as a spare, and for an option to be granted to the Company to purchase a fourth satellite. Under the Arianespace Launch Contract, Arianespace has agreed to launch two of the Company's satellites into orbit. See 'Business -- The CD Radio Delivery System -- The Satellites.' The Company is committed to make aggregate payments of $277.1 million under the Loral Satellite Contract and of $176.0 million under the Arianespace Launch Contract. Under the Loral Satellite Contract, with the exception of a payment made at the time of the signing of the Loral Satellite Contract in March 1993, payments are to be made in 22 installments commencing in April 1997 and ending in November 2000, the expected delivery date for the third satellite. Approximately half of these payments are contingent on Loral meeting specified milestones in the manufacture of the three satellites. In addition, Loral has agreed to defer a total of $20.0 million of the contract price, which is to be paid in four equal installments of $5.0 million commencing November 2001 until March 2003. See ' -- Sources of Funding.' Amounts due under the Arianespace Launch Contract, except for payments made prior to the execution of the Arianespace Launch Contract, are payable on various dates between November 1997 and July 1999 for the first launch, and, for the second launch, the period between February 1998 and the earlier of October 1999, or ten days prior to the second launch.

The Company also will require funds for construction of its National Broadcast Studio, working capital, interest on borrowings, acquisition of programming, financing costs and operating expenses until

Powered By EDGAR Online 2002. EDGAR Online, Inc.

some time after the commencement of commercial operations of CD Radio. The Company's interest expense will increase significantly as a result of its financing plan; however, a substantial portion of its planned indebtedness will not require immediate cash payments. The Notes are not expected to require cash payments until 2003. Interest on funds borrowed by the Company under the AEF Agreements is deferred until repayment of such amounts.

SOURCES OF FUNDING

The Company historically has funded its operations through equity capital. As of September 30, 1997, the Company had received a total of $166.6 million in equity capital and had no outstanding indebtedness. A significant portion of the Company's equity capital was received in April 1997 as a result of the Company's issuance of 5,400,000 shares of 5% Preferred Stock for aggregate net proceeds of $120.5 million in a private placement transaction. These proceeds were used primarily to finance the payment of the purchase price for the FCC License and for working capital.

On July 22, 1997, the Company entered into two loan agreements (collectively the 'AEF Agreements') with AEF, a subsidiary of Arianespace, to finance approximately $105 million of the estimated $176 million price of the launch services to be provided by Arianespace (the 'AEF Vendor Financing'). Under these agreements, the Company is able to borrow funds to meet the progress payments due to Arianespace for the construction of each launch vehicle and other launch costs (the 'Tranche A Loans'). The Company has the opportunity upon satisfying a variety of conditions specified in the AEF Agreements to extend the term of the Tranche A Loans. If the term is not extended, or if the Company is unable to comply with the terms and covenants of such extended loans, the Company will be required to repay the Tranche A Loans in full, together with accrued interest and all fees and other amounts due, approximately three months before the applicable launch date, which will be prior to the time CD Radio commences commercial operations. There can be no assurance that the Company will have sufficient funds to make such repayment.

The AEF Agreements impose restrictions on the Company's ability to incur additional indebtedness, make investments or permit liens on certain assets of the Company, other than liens in favor of AEF. If AEF determines that the Tranche A Loans are eligible for conversion into term loans, the Company will also be subject to provisions restricting its ability to change its capital structure or organizational documents or to merge, consolidate or combine with another entity. If the Tranche A Loans are converted, the Company's obligations to AEF will be secured by a lien on specified assets of the Company, including the satellites and, to the extent permitted by applicable law, the FCC License. See 'Description of Certain Indebtedness -- Vendor Financing.'

Pursuant to a Multiparty Agreement among the Company, AEF and Arianespace in connection with the AEF Agreements, if the Company is unable to obtain sufficient financing to complete the construction and launch of the satellites, or if the Company terminates the Arianespace Launch Contract, the Company will be required to pay Arianespace a termination fee ranging from 5% to 40% of the launch services price, based on the proximity of the date of termination to the scheduled launch date. The termination fee will be payable prior to the time the Company commences commercial operations and there can be no assurance that the Company will have sufficient funds to pay this fee.

The Loral Satellite Contract provides for payments to be made in installments commencing in April 1997 and ending in November 2000, subject to achievement by Loral of certain milestones in the manufacture of the satellites. Loral has agreed to defer payment of $20.0 million from two milestone payments due in June and September of 1998. The deferred amount will be paid in four installments of $5 million, with the first payment to be made twenty-seven months after the delivery of the first satellite, the second payment to be made twenty-seven months after delivery of the second satellite, the third payment to be made 365 days after the first payment date and the fourth payment to be made 365 days after the second payment date.

In the event of a satellite or launch failure, Company will be required to pay Loral the full deferred amount for the affected satellite no later than 120 days after the date of the failure. If the Company should elect to put a satellite into ground storage, rather than having it shipped to the launch site, the full deferred amount for the affected satellite will become due within 60 days of such election.

As a condition to the deferred payments, Company has agreed to provide Loral a security interest in the properties and assets of the Company and its subsidiaries, of substantially the same nature and

Powered By EDGAR Online 2002. EDGAR Online, Inc.

quality, and of substantially equivalent value relative to the amount of the secured obligations, and on the same terms and covenants, as the Company has provided or may provide to any other party under any and all of its loan, credit and other similar agreements. There currently is no such security interest. The Indenture permits indebtedness under the Loral Satellite Contract to be secured on a pari passu basis with the Notes by a first priority security interest in the Pledged Stock.

After giving effect to the Offerings and the AEF Agreements, the Company expects it will require an additional $176.9 million in financing through 1999. However, there can be no assurance that the Company's actual cash requirements will not increase. Potential sources of additional financing include the sale of debt or equity securities in the public or private markets. There can be no assurance that the Company will be able to obtain additional financing on favorable terms, or at all, or that it will be able to do so in a timely fashion. The AEF Agreements contain, the Indenture will contain and documents governing any indebtedness incurred in the future are expected to contain, provisions limiting the ability of the Company to incur additional indebtedness. The issuance by the Company of additional equity securities could cause substantial dilution of the interest in the Company of holders of 5% Preferred Stock who receive shares of New Preferred Stock pursuant to the Exchange Offer and subsequently convert such shares into Common Stock. If additional financing were not available on a timely basis, the Company would be required to delay satellite and/or launch vehicle construction in order to conserve cash to fund continued operations, which would cause delays in the commencement of operations and increased costs. See 'Risk Factors -- Need for Substantial Additional Funding.'

The amount and timing of the Company's actual cash requirements will depend upon numerous factors, including costs associated with the construction and deployment of its satellite system and the rate of growth of its business subsequent to commencing service, costs of financing and the possibility of unanticipated costs. Additional funds would be required in the event of delay, cost overruns, launch failure, launch services or satellite system change orders, or any shortfalls in estimated levels of operating cash flow, or to meet unanticipated expenses.

As a result of the issuance of the Notes and the Warrants and the expected incurrence of significant additional indebtedness required to meet its capital requirements, the Company will have substantial indebtedness. The Company's ability to meet all of its debt service obligations when due may require it to refinance its then outstanding indebtedness. No assurance can be given that the Company will be able to generate sufficient cash flow to service its indebtedness or be able to refinance indebtedness. The AEF Agreements contain, the Indenture will contain, and debt instruments governing any future indebtedness of the Company are expected to contain, restrictions on, among other things, the ability of the Company to incur additional indebtedness.

THE EXCHANGE OFFER

GENERAL

Participation in the Exchange Offer was voluntary and holders of shares of 5% Preferred Stock were urged to carefully consider whether to accept. Neither the Board of Directors of the Company nor the Company made any recommendation to holders of shares of 5% Preferred Stock as to whether to tender or refrain from tendering in the Exchange Offer. Holders of shares of 5% Preferred Stock were urged to consult their financial and tax advisors in making their own decisions on what action to take in light of their own particular circumstances.

The Exchange Offer was open to all holders of shares of 5% Preferred Stock.

PURPOSE OF THE EXCHANGE OFFER

The principal purpose of the Exchange Offer was to improve the Company's capital structure and to prevent dilution to the holders of the Company's Common Stock by replacing the 5% Preferred Stock, which may be convertible into an increasing number of shares of Common Stock, with New Preferred Stock, which has a higher dividend rate, but less favorable conversion rights. The Exchange Offer is part of the financing transaction that also includes the Stock Offerings and the Units Offering. The consummation of the Exchange Offer was not conditioned upon the consummation of either the Units Offering or the Stock Offerings. Each of the Offerings was conditioned upon consummation of the Exchange Offer.

Following consummation of the Exchange Offer, all shares of 5% Preferred Stock tendered, accepted and not withdrawn were retired.

TERMS OF THE EXCHANGE

The Company offered to exchange, upon the terms and subject to the conditions set forth herein and in the Letter of Transmittal, up to 1,846,799 shares of its New Preferred Stock for up to all of the outstanding shares of its 5% Preferred Stock at a rate of one share of New Preferred Stock for each $100 in Exchange Rate Liquidation Preference represented by shares of 5% Preferred Stock not previously converted. The 'Exchange Rate Liquidation Preference' was the amount determined by dividing (x) the actual liquidation preference of the shares of 5% Preferred Stock being exchanged (including accrued and unpaid dividends thereon, if any) by (y) 0.696145. On November 17, 1997, the expiration date of the Exchange Offer, the Exchange Rate Liquidation Preference was approximately $37.00 per share of 5% Preferred Stock. The Liquidation Preference of each share of New Preferred Stock was equal to $100.00. The Company will pay cash to exchanging holders of 5% Preferred Stock in lieu of issuing fractional shares of New Preferred Stock. The terms of the New Preferred Stock (including the dividend rate, liquidation preference and conversion and redemption rights) differ in material respects from the terms of the 5% Preferred Stock for which it may be exchanged pursuant to this Exchange Offer. See 'Description of Capital Stock -- 5% Delayed Convertible Preferred Stock' and 'Description of Capital Stock -- 10 1/2% Series C Convertible Preferred Stock.' The 5% Preferred Stock was originally issued in April 1997. As of September 30, 1997, there were 5,222,608 shares of 5% Preferred Stock outstanding. In the Exchange Offer, all of the outstanding shares of 5% Preferred Stock were tendered for 1,846,799 shares of the New Preferred Stock.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Tendering holders of the shares of 5% Preferred Stock will not be required to pay brokerage commissions or fees or, subject to the instructions in the Letter of Transmittal, transfer taxes with respect to the exchange of the shares of 5% Preferred Stock pursuant to the Exchange Offer.

EXPIRATION DATE; EXTENSION; AMENDMENTS

The Exchange Offer expired at 12:00 midnight, New York City time, on November 17, 1997. The Company reserved the right to extend the Exchange Offer at any time and from time to time by giving oral or written notice to the Exchange Agent and making a public announcement thereof. During any extension of the Exchange Offer, all shares of 5% Preferred Stock previously tendered and not withdrawn pursuant to the Exchange Offer remained subject to the Exchange Offer subject to the right of a tendering holder to withdraw its shares of 5% Preferred Stock. See ' -- Withdrawal Rights.'

The Company also expressly reserved the right, subject to applicable law,
(i) to delay acceptance for exchange of any shares of 5% Preferred Stock or terminate the Exchange Offer and not accept for

Powered By EDGAR Online 2002. EDGAR Online, Inc.

exchange any shares of 5% Preferred Stock and promptly return all such shares to the tendering holders thereof in the event that any of the conditions specified in ' -- Conditions of the Exchange Offer' below are not satisfied or waived by the Company or to comply with applicable law, by giving oral or written notice of such delay or termination to the Exchange Agent, (ii) to waive any condition to the Exchange Offer and accept all shares of 5% Preferred Stock previously tendered pursuant thereto, (iii) to amend the Exchange Offer in any respect or (iv) to terminate, cancel, withdraw or otherwise amend or modify the Exchange Offer at any time for any reason. If the Exchange Offer is so amended, the term 'Exchange Offer' shall mean the Exchange Offer as so amended. The reservation by the Company of the right to delay acceptance for exchange of shares of 5% Preferred Stock is subject to the provisions of Rule 13e-4 and Rule 14e-1(c) under the Exchange Act, which require that the Company pay the consideration offered or return the shares of 5% Preferred Stock deposited by or on behalf of holders thereof promptly after the termination or withdrawal of the Exchange Offer.

Any extension, delay, termination or amendment of the Exchange Offer will be followed as promptly as practicable by a public announcement thereof. Without limiting the manner in which the Company may choose to make a public announcement of any extension, delay, termination or amendment of the Exchange Offer, the Company will have no obligation to publish, advertise or otherwise communicate any such public announcement, other than by issuing a release to the Dow Jones News Service, except in the case of an announcement of an extension of the Exchange Offer, in which case the Company will have no obligation to publish, advertise or otherwise communicate such announcement other than by issuing a notice of such extension by press release or other public announcement, which notice will be issued no later than 9:00 A.M., New York City time, on the next business day after the previously scheduled Expiration Date.

TENDER PROCEDURE

The tender to the Company of shares of 5% Preferred Stock by a holder thereof pursuant to one of the procedures set forth below and the acceptance thereof by the Company will constitute a binding agreement between such holder and the Company in accordance with the terms and subject to the conditions set forth herein and in the Letter of Transmittal. This Prospectus, together with the Letter of Transmittal, will first be sent out on or about October 16, 1997, to all holders of shares of 5% Preferred Stock known to the Company and the Exchange Agent.

A holder of shares of 5% Preferred Stock may tender the same by properly completing and signing the Letter of Transmittal or a facsimile thereof (all references in this Prospectus to the Letter of Transmittal shall be deemed to include a facsimile thereof) and delivering the same, together with the certificate or certificates representing the shares of 5% Preferred Stock being tendered and any other documents required by the Letter of Transmittal, to the Exchange Agent at its address set forth on the Letter of Transmittal on or prior to the Expiration Date (or complying with the procedure for book-entry transfer described below).

THE METHOD OF DELIVERY OF THE SHARES OF 5% PREFERRED STOCK AND ALL OTHER DOCUMENTS IS AT THE ELECTION AND RISK OF THE HOLDER. IF SENT BY MAIL, IT IS RECOMMENDED THAT REGISTERED MAIL, RETURN RECEIPT REQUESTED, BE USED, PROPER INSURANCE OBTAINED, AND THE MAILING BE MADE SUFFICIENTLY IN ADVANCE OF THE EXPIRATION DATE TO PERMIT DELIVERY TO THE EXCHANGE AGENT ON OR BEFORE THE EXPIRATION DATE. NO LETTERS OF TRANSMITTAL OR SHARES OF 5% PREFERRED STOCK SHOULD BE SENT TO THE COMPANY.

The Exchange Agent will make a request promptly after the date of this Prospectus to establish accounts with respect to the shares of 5% Preferred Stock at the book-entry transfer facility for the purpose of facilitating the Exchange Offer, and subject to the establishment thereof, any financial institution that is a participant in the book-entry transfer facility's system may make book-entry delivery of the shares of 5% Preferred Stock by causing such book-entry transfer facility to transfer such shares of 5% Preferred Stock into the Exchange Agent's account with respect to the 5% Preferred Stock in accordance with the book-entry transfer facility's procedures for such transfer. Although delivery of the shares of 5% Preferred Stock may be effected through book-entry transfer into the Exchange Agent's

Powered By EDGAR Online 2002. EDGAR Online, Inc.

accounts at the book-entry transfer facility, an appropriate Letter of Transmittal with any required signature guarantee and all other required documents must in each case be transmitted to and received or confirmed by the Exchange Agent at its address set forth on the Letter of Transmittal on or prior to the Expiration Date.

A tender will be deemed to have been received as of the date when the tendering holder's properly completed and duly signed Letter of Transmittal accompanied by the shares of 5% Preferred Stock (or a confirmation of book-entry transfer of such shares of 5% Preferred Stock into the Exchange Agent's account at the book-entry transfer facility) is received by the Exchange Agent.

All questions as to the validity, form, eligibility (including time of receipt) and acceptance for exchange of any tender of shares of 5% Preferred Stock will be determined by the Company, whose determination will be final and binding. The Company reserves the absolute right to reject any shares of 5% Preferred Stock not properly tendered or the acceptance for exchange of which may, in the opinion of the Company's counsel, be unlawful. The Company also reserves the absolute right to waive any defect or irregularity in the tender of any shares of 5% Preferred Stock. Unless waived, any defects or irregularities in connection with tenders of shares of 5% Preferred Stock for exchange must be cured within such reasonable period of time as the Company will determine. None of the Company, the Exchange Agent or any other person will be under any duty to give notification of any defects or irregularities in tenders or incur any liability for failure to give any such notification.

TERMS AND CONDITIONS OF THE LETTER OF TRANSMITTAL

The Letter of Transmittal contains, among other things, the following terms and conditions, which are part of the Exchange Offer.

The party tendering shares of 5% Preferred Stock for exchange (the 'Transferor') exchanges, assigns and transfers the shares of 5% Preferred Stock to the Company and irrevocably constitutes and appoints the Exchange Agent as the Transferor's agent and attorney-in-fact to cause the shares of 5% Preferred Stock to be assigned, transferred and exchanged. The Transferor represents and warrants that it has full power and authority to tender, exchange, assign and transfer the shares of 5% Preferred Stock and to acquire shares of New Preferred Stock issuable upon the exchange of such tendered shares of 5% Preferred Stock, and that, when the same are accepted for exchange, the Company will acquire good and unencumbered title to the tendered shares of 5% Preferred Stock, free and clear of all liens, restrictions, charges and encumbrances and not subject to any adverse claim. The Transferor also warrants that it will, upon request, execute and deliver any additional documents deemed by the Exchange Agent or the Company to be necessary or desirable to complete the exchange, assignment and transfer of tendered shares of 5% Preferred Stock or transfer ownership of such shares of 5% Preferred Stock on the account books maintained by a book-entry transfer facility. All authority conferred by the Transferor will survive the death or incapacity of the Transferor and every obligation of the Transferor will be binding upon the heirs, legal representatives, successors, assigns, executors and administrators of such Transferor.

WITHDRAWAL RIGHTS

Tenders of shares of 5% Preferred Stock pursuant to the Exchange Offer may be withdrawn at any time prior to the Expiration Date.

To be effective, a written, telegraphic, telex or facsimile transmission notice of withdrawal must be timely received by the Exchange Agent at its address set forth on the Letter of Transmittal, and with respect to a facsimile transmission, must be confirmed by telephone and an original delivered by guaranteed overnight delivery. Any such notice of withdrawal must specify the person named in the Letter of Transmittal as having tendered shares of 5% Preferred Stock to be withdrawn, the certificate numbers of the shares of 5% Preferred Stock to be withdrawn, a statement that such holder is withdrawing his election to have such shares of 5% Preferred Stock exchanged, and the name of the registered holder of such shares of 5% Preferred Stock, and must be signed by the holder in the same manner as the original signature on the Letter of Transmittal (including any required signature guarantees) or be accompanied by evidence satisfactory to the Company that the person withdrawing

Powered By EDGAR Online 2002. EDGAR Online, Inc.

the tender has succeeded to the beneficial ownership of the shares of 5% Preferred Stock being withdrawn. The Exchange Agent will return the properly withdrawn shares of 5% Preferred Stock promptly following receipt of notice of withdrawal. If shares of 5% Preferred Stock have been tendered pursuant to the procedure for book-entry transfer, any notice of withdrawal must specify the name and number of the account at the book-entry transfer facility to be credited with the withdrawn shares of 5% Preferred Stock or otherwise comply with the book-entry transfer procedure. All questions as to the validity of notices of withdrawals, including time of receipt, will be determined by the Company, and such determination will be final and binding on all parties.

Any shares of 5% Preferred Stock so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the Exchange Offer. Any shares of 5% Preferred Stock which have been tendered for exchange but which are not exchanged for any reason will be returned to the holder thereof without cost to such holder (or, in the case of shares of 5% Preferred Stock tendered by book-entry transfer into the Exchange Agent's account at the book-entry transfer facility pursuant to the book-entry transfer procedures described above, such shares will be credited to an account with such book-entry transfer facility specified by the holder) as soon as practicable after withdrawal, rejection of tender or termination of the Exchange Offer. Properly withdrawn shares of 5% Preferred Stock may be retendered by following one of the procedures described under ' -- Tender Procedure' above, at any time on or prior to the Expiration Date.

THE WITHDRAWAL OF TENDERED SHARES OF 5% PREFERRED STOCK WILL BE DEEMED TO BE A REJECTION OF THE EXCHANGE OFFER.

ACCEPTANCE OF 5% PREFERRED STOCK FOR EXCHANGE; DELIVERY OF NEW PREFERRED STOCK

Upon the satisfaction or waiver of all the terms of the Exchange Offer, the acceptance for exchange of the shares of 5% Preferred Stock validly tendered and not withdrawn will be made on the Exchange Date and the issuance of the shares of New Preferred Stock will be made as promptly as practicable thereafter. For the purposes of the Exchange Offer, the Company shall be deemed to have accepted for exchange validly tendered shares of 5% Preferred Stock when, as and if the Company has given oral or written notice thereof to the Exchange Agent.

The Exchange Agent will act as agent for the tendering holders of shares of 5% Preferred Stock for the purposes of receiving the shares of New Preferred Stock from the Company and causing the shares of 5% Preferred Stock to be assigned, transferred and exchanged. Upon the terms of the Exchange Offer, delivery of shares of New Preferred Stock to be issued in exchange for accepted shares of 5% Preferred Stock will be made by the Exchange Agent promptly after the Exchange Date. Tendered shares of 5% Preferred Stock not accepted for exchange by the Company will be returned without expense to the tendering holders promptly following the Expiration Date as described above under ' -- Withdrawal Rights.'

ACCRUED DIVIDENDS

Holders of shares of 5% Preferred Stock accepted for exchange pursuant to the Exchange Offer will not receive dividends on such 5% Preferred Stock accrued from April 10, 1997 (the last regular dividend payment period with respect to the 5% Preferred Stock) to the date of issuance of New Preferred Stock; such accrued dividends will be included in the calculation of the Exchange Rate Liquidation Preference to determine the number of shares of New Preferred Stock to be received by holders tendering shares of 5% Preferred Stock in the Exchange Offer.

Dividends on shares of 5% Preferred Stock not exchanged in the Exchange Offer will continue to accrue and be payable, when and as declared by the Board of Directors.

CONDITIONS OF THE EXCHANGE OFFER

Notwithstanding any other provision of the Exchange Offer, the Company will not be required to accept for exchange, or, subject to any applicable rules and regulations of the Commission, including Rule 14e-1(c) (relating to the Company's obligation to exchange and issue shares of New Preferred

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Stock for or return tendered shares of 5% Preferred Stock promptly after termination of the Exchange Offer), exchange and issue shares of New Preferred Stock for any shares of 5% Preferred Stock tendered and may postpone the acceptance for exchange of or, subject to the restriction set forth above, the exchange and issuance of, shares of New Preferred Stock for shares of 5% Preferred Stock tendered and to be exchanged and may terminate or amend the Exchange Offer if (i) a minimum of 60% of the issued and outstanding shares of the 5% Preferred Stock are not tendered for exchange and not withdrawn prior to the Expiration Date or (ii) the General Conditions (see below) are not satisfied.

For purposes of the preceding paragraph, all of the 'General Conditions' shall be deemed to have been satisfied unless any of the following conditions shall occur prior to the Expiration Date:

(a) any change (or any condition, event or development involving a prospective change) shall have occurred or been threatened in the business, properties, assets, liabilities, capitalization, stockholders' equity, financial condition, operations, results of operations or prospects of the Company, or in the general economic or financial market conditions in the United States or abroad, which is or may be materially adverse to the Company or its stockholders or to the value of the shares of 5% Preferred Stock or there shall have been a significant decrease in the market prices of or trading in the shares of 5% Preferred Stock, or the Company shall have become aware of any fact or occurrence which is or may be materially adverse with respect to the value of the shares of 5% Preferred Stock or with respect to the contemplated benefits to the Company of the Exchange Offer; or

(b) there shall have occurred (1) any general suspension of trading in, or limitation on prices for, securities on any national securities exchange or the over-the-counter market, (2) a declaration of a banking moratorium or any suspension of payments in respect of banks in the United States, (3) declaration of a national emergency or a commencement of a war, armed hostilities or other national or international calamity directly or indirectly involving the United States, (4) any limitation (whether or not mandatory) by any governmental or regulatory authority on, or any other event which might affect, the nature or extension of credit by banks or other financial institutions, (5) any significant adverse change in the United States securities or financial markets, or (6) in the case of any of the foregoing existing at the time of the commencement of the Exchange Offer, a material acceleration, escalation or worsening thereof; or

(c) there shall have been any action taken or threatened, or any statute, rule, regulation, judgment, order or injunction proposed, sought, promulgated, enacted, entered, enforced or deemed applicable to the Exchange Offer or the Proposed Amendment by any local, state, federal or foreign government or governmental authority or by any court, domestic or foreign, that might, directly or indirectly, (1) make the acceptance for exchange of some or all of the shares of 5% Preferred Stock or the issuance of shares of New Preferred Stock in exchange therefor illegal or otherwise restrict or prohibit consummation of the Exchange Offer, (2) result in a delay in, or restrict the ability of the Company, or render the Company unable, to accept for exchange some or all of the shares of 5% Preferred Stock or to issue some or all of the shares of New Preferred Stock in exchange therefor, (3) otherwise adversely affect the Company or the Exchange Offer or (4) result in a material limitation in the benefits expected to be derived by the Company from, or as a result of the transactions contemplated by, the Exchange Offer; or

(d) there shall be threatened, instituted or pending any action, proceeding or claim by or before any court or governmental, administrative or regulatory agency or authority or any other person or tribunal, domestic or foreign, challenging the making of the Exchange Offer, the acquisition by the Company of any shares of 5% Preferred Stock or the adoption of the Proposed Amendment, or seeking to obtain any material damages as a result thereof, or otherwise adversely affecting the Company or the value of the 5% Preferred Stock which makes it inadvisable to proceed with the Exchange Offer, the acceptance for exchange of shares of 5% Preferred Stock or the issuance of the shares of New Preferred Stock in exchange therefor.

All of the foregoing conditions are for the sole benefit of the Company and may be asserted by the Company regardless of the circumstances giving rise to such condition and may be waived by the

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Company, in whole or in part, at any time and from time to time, in the sole discretion of the Company. The failure by the Company at any time to exercise any of the foregoing rights will not be deemed a waiver of any such right, and each such right will be deemed an ongoing right which may be asserted at any time and from time to time. Any determination by the Company concerning the foregoing conditions will be final and binding.

If any of the foregoing conditions shall not be satisfied (or, with respect to the above enumerated events, shall have occurred), the Company may, subject to applicable law, (i) terminate the Exchange Offer and return all shares of 5% Preferred Stock tendered pursuant to the Exchange Offer to tendering security holders as described above under ' -- Withdrawal Rights;' (ii) extend the Exchange Offer and retain all tendered shares of 5% Preferred Stock until the Expiration Time for the extended Exchange Offer; or (iii) waive the unsatisfied conditions with respect to the Exchange Offer and accept all shares of 5% Preferred Stock tendered pursuant to the Exchange Offer. In addition, the Company reserves the right to amend or modify any or all of the Exchange Offer at any time for any reason.

DISSENTERS' RIGHTS

Holders of the shares of 5% Preferred Stock do not have any appraisal or dissenters' rights under the Delaware General Corporation Law or the Certificate of Designations in connection with the Exchange Offer.

DEALER MANAGER

The Company has retained Merrill Lynch to act as Dealer Manager in connection with the Exchange Offer. Additionally, Merrill Lynch is acting as an underwriter in connection with the Offerings. Merrill Lynch is also acting as financial advisor to the Company and, as such, is advising the Company with respect to, among other things, the terms and timing of the Exchange Offer. In its capacity as Dealer Manager, Merrill Lynch may contact holders of shares of 5% Preferred Stock regarding the Exchange Offer and may request brokers, dealers and other nominees to forward this Prospectus and related materials to beneficial owners of shares of 5% Preferred Stock. Questions and requests for assistance may be directed to the Dealer Manager at its address and telephone number set forth on the back cover of this Prospectus.

The Company has agreed to pay Merrill Lynch for its services as Dealer Manager and financial advisor in connection with the Exchange Offer a fee equal to 2.0% of: (i) the aggregate Liquidation Preference of all New Preferred Stock issued in the Exchange Offer and (ii) cash or other consideration paid as consideration pursuant to the Exchange Offer. In addition, the Company will reimburse the Dealer Manager for its reasonable out-of-pocket expenses, including without limitation, attorneys' fees. The Company also has agreed to indemnify the Dealer Manger and its affiliates against certain liabilities caused by, relating to, arising out of or in connection with the Exchange Offer or the engagement of Merrill Lynch as financial advisor. Other than as described above, the Company will not make any payments to brokers, dealers or others for soliciting acceptance of the Exchange Offer.

EXCHANGE AGENT

IBJ Schroder Bank & Trust Company has been appointed as the Exchange Agent for the Exchange Offer. The Company will pay the Exchange Agent reasonable and customary fees for its services and will reimburse it for its reasonable out-of-pocket expenses. Letters of Transmittal must be addressed to the Exchange Agent at its address set forth on the Letter of Transmittal.

DELIVERY TO AN ADDRESS OTHER THAN AS SET FORTH ON THE LETTER OF TRANSMITTAL, OR TRANSMISSIONS OF INSTRUCTIONS VIA A FACSIMILE OR TELEX NUMBER OTHER THAN THE ONES SET FORTH ON THE LETTER OF TRANSMITTAL, WILL NOT CONSTITUTE A VALID DELIVERY.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

TRANSFER TAXES

Holders who tender their shares of 5% Preferred Stock for exchange will not be obligated to pay any transfer taxes in connection with the transfer and exchange.

ACCOUNTING TREATMENT

For accounting purposes, the Company expects to exchange the 5% Preferred Stock for which the Company received $135.0 million in gross proceeds for New Preferred Stock with an expected value of approximately $193.3 million. The 5% Preferred Stock was originally issued with a beneficial conversion feature which will result in the Company recording a deemed dividend of $58 million, representing the difference between the original value of the 5% Preferred Stock and the expected value of the consideration given in the Exchange Offer. As of June 30, 1997, the Company recorded approximately $43.3 million of the deemed dividend. See the Company's Quarterly Report on Form 10-Q for the period ended June 30, 1997 incorporated herein by reference.

MARKET AND TRADING INFORMATION

There was no established trading market for the shares of 5% Preferred Stock. The New Preferred Stock is a new issue of securities with no established trading market. The Company has been advised by the Dealer Manager that it intends to make a market in the New Preferred Stock but is not obligated to do so and may discontinue marketmaking at any time without notice. No assurance can be given as to the liquidity of the trading market for the shares of New Preferred Stock. The trading market for the shares of 5% Preferred Stock generally has not been liquid.

Until the Exchange Offer is completed, rules of the Commission may limit the ability of the Dealer Manager to bid for and purchase the New Preferred Stock and the Common Stock. As an exception to these rules, the Dealer Manager is permitted to engage in certain transactions that stabilize the price of the New Preferred Stock and the Common Stock. Such transactions consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of the New Preferred Stock and the Common Stock.

In general, purchases of a security for the purpose of stabilization could cause the price of the security to be higher than it might be in the absence of such purchases.

The Dealer Manager and dealers may engage in passive market making transactions in the Common Stock in accordance with Rule 103 of Regulation M promulgated by the Commission. In general, a passive market maker may not bid for, or purchase, the Common Stock at a price that exceeds the highest independent bid. In addition, the net daily purchases made by any passive market maker generally may not exceed 30% of its average daily trading volume in the Common Stock during a specified two-month prior period or 200 shares, whichever is greater. A passive market maker must identify passive market making bids as such on the Nasdaq electronic inter-dealer reporting system. Passive market making may stabilize or maintain the market price of the Common Stock above independent market levels. The Dealer Manager and dealers are not required to engage in passive market making and may end passive market making activities at any time.

Neither the Company nor the Dealer Manager makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the New Preferred Stock and the Common Stock. In addition, neither the Company nor the Dealer

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Manager makes any representation that the Dealer Manager will engage in such transactions or that such transactions, once commenced, will not be discontinued without notice.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

BUSINESS

This Prospectus contains certain forward-looking statements within the meaning of the federal securities laws. Actual results and the timing of certain events could differ materially from those projected in the forward-looking statements due to a number of factors, including those set forth under 'Risk Factors' and elsewhere in this Prospectus. See 'Special Note Regarding Forward-Looking Statements.'

GENERAL

CD Radio Inc. was founded in 1990 to pioneer and commercialize a compact disc quality, multi-channel radio service broadcast directly from satellites to vehicles. In October 1997, the Company received one of two licenses from the FCC to build, launch and operate a national satellite radio broadcast system. The Company has recently begun construction of two satellites that it plans to launch into geosynchronous orbit to broadcast its radio service throughout the United States. The Company's service, which will be marketed under the brand name 'CD Radio,' is expected to consist of 30 channels of commercial-free, compact disc quality music programming and 20 channels of news, sports and talk programming. CD Radio will be broadcast over a frequency band, the 'S-band', that will augment traditional AM and FM radio bands. Under its FCC license, the Company has the exclusive use of a 12.5 megahertz portion of the S-band for this purpose. The Company currently expects to commence CD Radio broadcasts in late 1999 at a subscription price of $10 per month.

The Company is positioning itself as an entertainment company and accordingly plans to design and originate programming on each of its 30 music channels. Each channel will be operated as a separate radio station, with a distinct format. Certain music channels will offer continuous music, while others will have program hosts, depending on the type of music programming. CD Radio will offer a wide range of music categories, such as:

Symphonic	Classic Rock	Soft Rock
Chamber Music	50's Oldies	Singers & Songs
Opera	60's Oldies	Beautiful Instrumentals
Today's Country	Folk Rock	Album Rock
Traditional Country	Latin Ballads	Alternative Rock
Contemporary Jazz	Latin Rhythms	New Age
Classic Jazz	Reggae	Broadway's Best
Blues	Rap	Gospel
Big Band/Swing	Dance	Children's
Entertainment		
Top of the Charts	Urban Contemporary	World Beat

The Company's 50 music and non-music stations will be housed at the National Broadcast Studio. The National Broadcast Studio will contain the Company's music library, facilities for programming origination, programming personnel and program hosts, as well as facilities to uplink programming to the satellites, to activate or deactivate service to subscribers and to perform the tracking, telemetry and control of the orbiting satellites.

THE CD RADIO OPPORTUNITY

The Company believes that there is a significant market for music and other radio programming delivered through advanced radio technology. While television technology has advanced steadily -- from black and white to color, from broadcast to cable, and from ordinary to high-definition television -- the last major advance in radio technology was the introduction of FM broadcasts. CD Radio will provide a new generation of radio service, offering a wide variety of music formats available on demand, 'seamless' signal coverage throughout the United States and commercial-free, compact disc quality programming. The Company's planned multiplicity of formats currently is not available to motorists in any market within the United States.

CD Radio is primarily a service for motorists. The Yankee Group, a market research organization, estimates that there will be approximately 198 million registered private motor vehicles in the United States by the end of 1999, when the Company expects to commence broadcasting. At present, approximately 89% of all private vehicles have a radio that could easily be utilized to receive

Powered By EDGAR Online 2002. EDGAR Online, Inc.

CD Radio's broadcasts, with this number estimated to be approximately 182 million vehicles in 1999, and approximately 199 million in 2004. CD Radio will initially target a number of demographic groups among the drivers of these vehicles, including 110 million commuters, 34 million of whom spend between one and two hours commuting daily, three million truck drivers and three million owners of recreational vehicles, among other groups.

According to Arbitron, in 1996, despite the fact that almost all vehicles contain either a cassette or compact disc player, 87% of automobile commuters listened to the radio an average of 50 minutes a day while commuting. According to the Radio Advertising Bureau, each week radio reaches approximately 95% of all Americans over the age of 12, with the average listener spending more than three hours per weekday and more than five hours per weekend listening to the radio. More than 40% of all radio listening is done in cars. In addition, in 1996, approximately 79% of total radio listening was to FM stations, which primarily provides music programming, as compared with AM stations which devote a greater proportion of their programming to talk and news.

The Company believes that its ability to offer a wide variety of musical formats simultaneously throughout the United States will enable it to tap significant unmet consumer demand for specialized musical programming. The economics of the existing advertiser supported radio industry dictate that conventional radio stations generally program for the greatest potential audience. Even in the largest metropolitan areas, station formats are limited. Nearly half of all commercial radio stations in the United States offer one of only three formats: country, adult contemporary and news/talk, and the next three most prevalent formats account for another 30% of all stations. Although niche music categories such as classical, jazz, rap, gospel, oldies, soundtracks, new age, children's programming and others accounted for approximately 27% of sales of recorded music in 1996, such formats generally are unavailable on existing radio stations in many markets. Even in New York City, the nation's largest radio market, there are no radio stations devoted solely to such programming as opera, blues, chamber music, soundtracks, reggae, children's programming and many others. CD Radio's wide choice of formats is expected to appeal to a large number of currently underserved listeners.

In addition, the limited coverage area of conventional radio broadcasting means that listeners often travel beyond the range of any single station. Unlike conventional FM stations, which have an average range of only approximately 30 miles before reception fades, CD Radio's signal will cover the entire continental United States enabling listeners to always remain within its broadcast range. The Company's satellite delivery system is designed to permit CD Radio to be received by motorists in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites or is within range of one of the Company's terrestrial repeating transmitters.

The ability to broadcast nationwide will also allow the Company to serve currently underserved radio markets. In the United States, there are more than 45 million people aged 12 and over living in areas with such limited radio station coverage that the areas are not monitored by Arbitron. Of these, the Company believes approximately 22 million people receive five or fewer FM stations, 1.6 million receive only one FM station and at least one million people receive no FM stations. This segment of the population also has a limited choice of radio music formats and is one of CD Radio's primary target markets.

The Company also believes that CD Radio will have a competitive advantage over conventional radio stations due to its music channels being commercial-free. In contrast, conventional radio stations interrupt their broadcasts with up to 18 minutes of commercials in every hour of music programming, and most stations also frequently interrupt programming with news, promotional announcements, public service announcements and miscellaneous information. The Company believes that consumers dislike frequent radio commercial interruptions and that 'station surfing' to avoid them is common.

PROGRESS TO DATE AND SIGNIFICANT DEVELOPMENT MILESTONES

The following chart sets forth the Company's past and projected development milestones. There can be no assurance that the Company will be able to meet any of its projections for 1998 or 1999, including completion of construction of its National Broadcast Studio, completion of its satellite launches, or commencement of its commercial operations in late 1999 as planned. See 'Risk Factors -- Possible Delays and Adverse Effect of Delay on Financing Requirements.'

Powered By EDGAR Online 2002. EDGAR Online, Inc.

1990: CD Radio Inc. incorporated
Proposed FCC create satellite radio service and filed license application
1991: Conducted stationary service simulation
Conducted nationwide focus groups
1992: Satellite radio spectrum allocated at WARC-92
Conducted radio manufacturer discussions
1993: Contracted with Loral for construction of its satellites
Contracted with Arianespace for launch of two of its satellites
Conducted additional nationwide focus groups
1994: Completed an initial public offering of its Common Stock
1995: Completed Loral satellite design
Filed orbital slot registrations
Completed development of its proprietary miniature satellite dish antenna
1996: Designed the radio card receiver
1997: Won auction for FCC license
Received one of two FCC national satellite radio broadcasting licenses
Completed a $135 million private placement of 5% Preferred Stock
Commenced construction of two satellites
Completed receipt of satellite broadcast patents
Arranged $105 million of vendor financing with Arianespace Finance S.A.
Recruited its key programming, marketing and financial management team
Completed a strategic sale of $25 million of Common Stock to Loral Space
Executed radio manufacturer memoranda of understanding
1998: Select radio card manufacturer
Select non-music channel content providers
Complete significant satellite construction milestones
Begin terrestrial repeating transmitter build-out
1999: Complete construction of National Broadcast Studio
Begin commercial production of radio cards
Complete satellite launches
Test markets
Begin commercial operations

THE CD RADIO SERVICE

CD Radio will offer motorists (i) a wide choice of finely focused music formats; (ii) nearly seamless signal coverage throughout the continental United States; (iii) commercial-free music programming; and (iv) plug and play convenience.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Wide Choice of Programming. Each of CD Radio's 30 music channels will have a distinctive format, such as opera, reggae, classic jazz and children's entertainment, intended to cater to specific subscriber tastes. In most markets, radio broadcasters target their programming to broad audience segments. Even in the largest metropolitan markets the variety of station formats generally is limited, and many of the Company's planned formats are unavailable.

'Seamless' Signal Coverage. CD Radio will be available throughout the continental United States, enabling listeners almost always to be within its broadcast range. The Company expects its nearly seamless signal will appeal to motorists who frequently travel long distances, including truck drivers and recreational vehicle owners, as well as commuters and others who outdrive the range of their FM signals. In addition, the Company expects its broadcasts will appeal to the 45 million consumers who live in areas that currently receive only a small number of FM stations.

Commercial-Free Music Programming. The Company will provide commercial-free music programming. The Company's market research indicates that a principal complaint of radio listeners concerning conventional broadcast radio is the frequency of commercials. Because CD Radio, unlike most commercial AM and FM stations, will be a subscription and not an advertiser-supported service, its music channels will not contain commercials.

Plug and Play Convenience. Consumers will be able to receive CD Radio broadcasts by acquiring a radio card and an easily attachable, silver dollar-sized satellite dish antenna. Listeners will not be required to replace their existing car radios and will be able to use the radio card by plugging it into their radio's cassette or compact disc slot. CD Radio listeners using a radio card will be able to push a button to switch between AM, FM and CD Radio. Radio cards will be portable and will be able to be moved from car to car. Radio card activation will be accomplished directly via satellite by calling the Company's customer service center at 888-CD-RADIO.

The Company intends to offer 30 channels of commercial-free, all-music programming and 20 additional channels of other formats that do not require compact disc quality audio, such as all-news, all-sports and all-talk programming. Each music channel will have a distinctive format, intended to cater to specific subscriber tastes. The Company expects the initial subscription fee for CD Radio, which will entitle subscribers to receive all CD Radio channels, will be $10 per month.

The Company intends to recruit program managers from the recording, broadcasting and entertainment industries to manage the development of daily programming for each CD Radio channel. In order to be accessible to these industries, the Company plans to locate its programming operations and the National Broadcast Studio in the New York metropolitan region. Program managers also will coordinate the Company's continuing market research to measure audience satisfaction, refine channel definitions and themes and select program hosts for those channels that have hosts.

Music programming will be selected from the Company's music library. The Company intends to create an extensive music library which will consist of a deep range of recorded music in each genre broadcast. In addition to updating its music library with new recordings as they are released, the Company will seek to acquire recordings that in certain cases are no longer commercially available.

The Company believes that CD Radio will provide an opportunity for the recording industry to expose and promote new releases and artists to targeted listener groups nationwide. The Company plans to solicit promotional copies of new recordings, and contemplates showcasing these releases as part of a service to be developed for record companies. The Company intends to work with the recording industry and performing artists to develop innovative programming formats.

In connection with its music programming, the Company will be required to negotiate and enter into royalty arrangements with performing rights societies, such as ASCAP, BMI and SESAC. These organizations collect royalties and distribute them to songwriters and music publishers. Copyright users negotiate a fee with these organizations based on a percentage of revenues. Broadcasters currently pay a combined total of approximately 3% of their revenues to the performing rights societies. The Company also will be required to negotiate similar arrangements, pursuant to the Digital Recordings Act, with the owners of the sound recordings. The determination of certain royalty arrangements with the owners of sound recordings under the Digital Recordings Act currently are subject to arbitration

Powered By EDGAR Online 2002. EDGAR Online, Inc.

proceedings. The Company believes that it will be able to negotiate satisfactory royalty arrangements with the above organizations and the owners of sound recordings, but there can be no assurance as to the terms of any such royalty arrangements ultimately negotiated or established by arbitration.

In addition to its music channels, the Company expects to offer 20 channels of news, sports and talk programming. The Company does not intend to produce the programming for these non-music channels. The Company believes, based on its discussions to date, that there is sufficient interest on the part of providers of news, sports and talk programming in CD Radio to permit the Company to offer a variety of non-music programming. News, talk and sports programming obtained from third party sources will include commercial advertising. To date, the Company has not reached any understandings or entered into any agreements with respect to the supply of such programming.

MARKETING STRATEGY

The Company plans to offer a high quality broadcast service with targeted music formats, nearly seamless signal coverage throughout the continental United States, commercial-free music programming and compact disc quality fidelity. The Company's marketing strategy for CD Radio has three interrelated components: (i) the strategy for creating consumer awareness of CD Radio, (ii) the strategy for generating subscriptions to CD Radio and (iii) the strategy for generating purchases of radio cards and S-band radios and their associated miniature satellite dish antennas.

CREATING CONSUMER AWARENESS

The Company believes that the introduction of CD Radio will have high news value, which it expects will result in significant national and local publicity prior to and during the initial launch of the service. In addition, the Company plans to engage in extensive marketing, advertising and promotional activities to create consumer awareness of CD Radio. This includes an ongoing major advertising campaign funded principally by the Company, together with expected significant manufacturer and retailer cooperative advertising. A major national umbrella campaign will utilize a full mix of media, including network and cable television, radio, print and billboard.

GENERATING SUBSCRIPTIONS TO CD RADIO

The Company also intends to focus its initial efforts on a number of demographic groups that it believes represent potential target markets for CD Radio, including commuters, niche music listeners, truck drivers, recreational vehicle owners, consumers in areas with sparse radio coverage and operators of rental car fleets. In addition, the Company intends to aggressively target early adopters of new technologies, who it believes are likely to have a high level of interest in CD Radio.

Commuters. Of the 110 million commuters, the Company has identified 34 million as highly addressable by virtue of their commute times averaging between one and two hours daily. To reach these commuters, the Company plans to purchase radio advertising spots on stations with frequent traffic reports, purchase outdoor billboard advertising on long commute roads and place inserts in gasoline credit card bills.

Niche Music Listeners. Niche music categories, such as classical, jazz, rap, gospel, soundtracks, oldies and children's programming, constitute approximately 27% of the market for recorded music sales. To reach niche music listeners, the Company intends to work with the recording industry to include print material about CD Radio inside niche music compact disc packaging, place print advertising in specialty music magazines targeted to niche music listeners and members of fan clubs, conduct direct mailings to specialized music mailing lists of record clubs and sponsor and advertise at certain music events.

Truck Drivers. According to the U.S. Department of Transportation, there are approximately three million professional truck drivers in the United States, of whom approximately 1.1 million are long-distance haulers. The Company intends to place sampling displays at truck stops and to advertise in publications and on internet sites which cater to truck drivers.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Recreational Vehicle Owners. There are approximately three million recreational vehicles in the United States. The Company plans to advertise in magazines targeted to recreational vehicle enthusiasts, conduct direct mailings targeted to these individuals and place sampling displays at recreational vehicle dealerships.

Sparse Radio Zones. More than 45 million people aged 12 and over live in areas with such limited radio station coverage that the areas are not monitored by Arbitron. The Company believes that of these people, approximately 22 million people receive five or fewer FM stations, 1.6 million receive only one FM station and at least one million people receive no FM stations. To reach these consumers, the Company plans to utilize local newspaper advertisements during the Company's initial launch period and target direct mailings to music enthusiasts in these areas.

Rental Car Fleets. The Company intends to conduct a major promotional effort with car rental companies to provide CD Radio in the approximately 1.4 million rental cars in the United States. The Company has begun discussions with car rental companies in this regard.

SALES OF RADIO CARDS AND S-BAND RADIOS

Consumers will receive CD Radio through radio cards or S-band radios and associated miniature satellite dish antennas. Although the Company does not intend to manufacture or distribute radio cards, S-band radios or miniature satellite dish antennas, their availability will be critical to the Company because they are the only means by which to receive CD Radio. Accordingly, the Company has devised strategies to make radio cards and S-band radios together with their associated miniature satellite dish antennas widely available to consumers.

Sales of Radio Cards. The Company believes that the availability of radio cards will be critical to the Company's market penetration for a number of years following the introduction of CD Radio. The Company expects that radio cards will be sold at retail outlets and mass merchandisers that sell consumer electronics. The retail price of the radio card together with the miniature satellite dish currently is expected to be approximately $200.

Sales of S-band Radios. Distribution of S-band radios is an important element in the Company's marketing strategy. In 1996, U.S. consumers spent approximately $3 billion on autosound equipment for aftermarket installation in their vehicles, which the Company believes included approximately 4.6 million new AM/FM radios. The Company believes that this autosound equipment market is comprised largely of young, music oriented early adopters of new technology and that, in the course of purchasing a new car radio, some of these consumers would select one with built-in S-band capability. The Company expects S-band radios to be sold at retail outlets that sell consumer electronics, as well as at autosound specialty dealers. Like existing autosound equipment, S-band radios will require installation by the retailer or a third party.

The Company's long term objective is to promote the adoption of S-band radios as standard equipment or a factory-installed option in every vehicle sold in the United States. The Company, however, expects sales of radio cards and S-band radios through the consumer electronics retail distribution system to be the primary distribution channel for receivers capable of receiving CD Radio for many years.

SUBSCRIPTION AND BILLING

The Company intends to contract out customer service and billing functions to a national teleservices company, whose functions will include the handling of orders from subscribers, establishing and maintaining customer accounts, inbound telemarketing, billing and collections.

Access to the Company's customer service center will be via the Company's toll-free number, 888-CD-RADIO, with all interaction with subscribers being conducted under the CD Radio name. Payment to the Company's selected teleservices company is expected to be based on transaction volumes, and the Company plans to charge subscribers a modest one-time activation fee to cover certain transaction costs. The Company will require payment for CD Radio with a national credit or debit card.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

THE CD RADIO DELIVERY SYSTEM

The Company has designed the CD Radio delivery system to transmit an identical signal from two satellites placed in geosynchronous orbit. The two satellite system will permit CD Radio to provide 'seamless' signal coverage throughout the continental United States. This means that listeners will almost always be within the broadcast range of CD Radio, unlike current FM radio broadcasts, which have an average range of only approximately 30 miles. The CD Radio system is designed to provide clear reception in most areas despite variations in terrain, buildings and other obstructions. The system is designed to enable motorists to receive CD Radio in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites or is within range of one of the Company's terrestrial repeating transmitters.

The portion of the S-band located between 2320 MHz and 2345 MHz has been allocated by the FCC exclusively for national satellite radio broadcasts, and will augment traditional AM and FM radio bands. This portion of the spectrum was selected because there are virtually no other users of this frequency band in the United States, thus minimizing potential signal interference. In addition, this frequency band is relatively immune to weather related attenuation, which is not the case with higher frequencies.

The Company expects to use 12.5 MHz of bandwidth in the 7025.0-7075.0 MHz band (or some other suitable frequency) for uplink transmissions from the National Broadcast Studio to the Company's satellites. Downlink transmission from the satellites to subscribers' radio cards or S-band radios will use 12.5 MHz of bandwidth in the 2320-2332.5 MHz frequency band.

The CD Radio delivery system will consist of three principal components:
(i) the satellites; (ii) the receivers; and (iii) the National Broadcast Studio.

THE SATELLITES

Satellite Design. The Company's satellites are of the Loral FS-1300 model series. This family of satellites has a total in-orbit operation time of 270 years, and to date more than 62 such satellites have been built or ordered, including 24 that are currently in production. The satellites are designed to have a useful life of approximately 15 years. To ensure the durability of its satellites, the Company has selected components and subsystems that have a demonstrated track record on operational FS-1300 satellites, such as N-STAR, INTELSAT VII and TELSTAR. In addition, a full series of ground tests will be performed on each of the Company's satellites prior to launch in order to detect assembly defects and avoid premature satellite failure.

The satellites will utilize a three-axis stabilized design. Each satellite will contain an active attitude and position control subsystem, a telemetry, command and ranging subsystem, a thermal control subsystem and an electrical power subsystem. Power will be supplied by silicon solar arrays and, during eclipses, by nickel-hydrogen batteries. Each satellite after deployment will be 27.2 meters long, 8.65 meters wide and 3.8 meters tall.

Simple Design ('Bent Pipe'). The Company's satellites will incorporate a repeater design which will act essentially as a 'bent pipe,' relaying received signals directly to the ground. The Company's satellites will not contain on-board processors or switches. All of the Company's processing operations will be on the ground where they are accessible for maintenance and continuing technological upgrade without the need to launch replacement satellites.

Spread Spectrum (Code Division Multiplex). The Company's radio transmission system will utilize Code Division Multiplex ('CDM') and spread spectrum technology which permits a large number of program channels to utilize a single radio frequency band. The system, incorporating CDM and spread spectrum modulation, combined with multiple satellite coverage and terrestrial repeating transmitters, is designed to provide a high capacity, high quality service.

Signal Diversity. The Company believes that two satellites are the minimum number required to provide nearly seamless signal coverage throughout the continental United States. The Company plans to position its two satellites in complementary orbital locations so as to achieve efficient signal diversity and thereby mitigate service interruptions which can result from signal blockage and fading. The

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Company currently expects that its two satellites will be placed in a geosynchronous orbit at equatorial crossings of 80[d] W and 110[d] W longitude. Each of the Company's satellites will broadcast the same signal. The Company's transmission design also incorporates the use of a memory reception buffer contained within radio cards and S-band radios, designed to work in conjunction with signal diversity. The Company has been granted patents on its satellite broadcasting system, which incorporate a multi-satellite design and memory reception features.

As with any wireless broadcast service, the Company expects to experience occasional 'dead zones' where the service from one satellite will be interrupted by nearby tall buildings, elevations in topography, tree clusters, highway overpasses and similar obstructions; however, in most such places the Company expects subscribers will continue to receive a signal from its other satellite. In certain areas with high concentrations of tall buildings, such as urban cores, or in tunnels, however, signals from both satellites will be blocked and reception will be adversely affected. In such urban areas, the Company plans to install terrestrial repeating transmitters to rebroadcast its satellite signals, improving the quality of reception. The FCC has not yet established rules governing such terrestrial repeaters, and the Company cannot predict the outcome of the FCC's current rule making on this subject. See 'Business -- Government Regulation.' The Company also will need to obtain the rights to use of roofs of certain structures where the repeaters will be installed. There can be no assurance that the Company can obtain such roof rights on acceptable terms or in appropriate locations for the operation of CD Radio.

Satellite Construction. The Company has entered into the Loral Satellite Contract, pursuant to which Loral is building three satellites, two of which the Company intends to launch and one of which it intends to keep in reserve as a spare. Loral has agreed to deliver the first satellite to the launch site in Kourou, French Guiana by August 11, 1999, to deliver the second satellite to the launch site five months after the delivery of the first satellite and to deliver the third satellite to a Company designated storage site within eleven months of delivery of the second satellite. Loral has also agreed to endeavor to accelerate delivery of the second satellite to October 1999 and of the third satellite to April 2000. There can be no assurance, however, that Loral will be able to meet such an accelerated schedule. Although the Loral Satellite Contract provides for certain late delivery payments, Loral will not be liable for indirect or consequential damages or lost revenues or profits resulting from late delivery or other defaults. Under the Loral Satellite Contract, the Company has an option to order, at any time prior to March 10, 1999, a fourth satellite identical to the first three on preset price and delivery terms.

Title and risk of loss for the first and second satellites are to pass to the Company at the time of launch. Title for the third satellite is to pass to the Company at the time of shipment of the satellite to the designated storage site. The satellites are warranted to be in accordance with the performance specifications in the Loral Satellite Contract and free from defects in materials and workmanship at the time of delivery. After delivery, no warranty coverage applies, unless a satellite is not launched, in which case the warranty extends two years from the date of delivery. In the event of any delay in the construction of the satellites that is caused by the Company, the Loral Satellite Contract provides that the terms of the contract will be equitably adjusted.

Following the launch of each satellite, Loral will conduct in-orbit performance verification. In the event that such testing shows that a satellite is not meeting the satellite performance specifications contained in the Loral Satellite Contract, Loral and the Company have agreed to negotiate an equitable reduction in the final payment to be made by the Company for the affected satellite.

Launch Services. The Company entered into the Arianespace Launch Contract for two satellite launches with Arianespace on July 22, 1997. The initial launch period for the first launch extends from August 1, 1999 to January 31, 2000. The initial launch period for the second launch extends from October 1, 1999 to March 31, 2000. These initial launch periods will be reduced to three-month periods at least twelve months prior to the start of the respective initial launch periods. One-month launch slots will be selected for each of the launches at least eight months prior to the start of the respective shortened launch periods. Launch dates will be selected for each of the launches at least four months prior to the start of the respective launch periods. The Company is entitled to accelerate the second launch by shipping the satellite to the launch base and preparing the satellite for launch at the next available launch opportunity.

If the Company's satellites are not available for launch during the prescribed periods, the Company will arrange to launch the satellites on the first launch dates available after the satellites are completed. While the Company has been able to reschedule its reserved launch dates with Arianespace in the past,

Powered By EDGAR Online 2002. EDGAR Online, Inc.

there can be no assurance that it will be able to do so in the future. If the Company postpones a launch for more than 12 months, or postpones a launch within 12 months of a scheduled launch, postponement fees may be charged under the terms of the Arianespace Launch Contract.

Satellite launches are subject to significant risks, including satellite destruction or damage during launch or failure to achieve proper orbital placement. Launch failure rates vary depending on the particular launch vehicle and contractor. Arianespace, one of the world's leading commercial satellite launch service companies, has advised the Company that as of November 13, 1997, 87 of 92 Arianespace launches (approximately 94.6%) have been completed successfully since May 1984. See 'Risk Factors -- Dependence upon Satellites,' 'Risk Factors -- Dependence upon Satellite and Launch Contractors' and 'Risk Factors -- Satellite Launch Risks.' However, the Ariane 5, the particular launch vehicle being planned for the launch of the Company's satellites, has had only two launches, one of which was a failure. There is no assurance that Arianespace's launches of the Company's satellites will be successful. If the third qualification flight of the Ariane 5 launch vehicle results in a failure, or if for any reason there have not been at least two successful Ariane 5 launches prior to each of Company's scheduled launches, or if Arianespace postpones one of Company's launches for more than six months due to a delay in the development of the Ariane 5 program, then, under the terms of the Arianespace Launch Contract, the Company has the right to require Arianespace to negotiate in good faith an amendment to the Arianespace Launch Contract to provide for launches using the Ariane 4 launch vehicle, with launch dates on the first available Ariane 4 launch opportunities after the scheduled launch dates, unless the Company agrees to earlier launch dates.

Assuming use of an Ariane 5 launch vehicle, if a Company satellite is lost or destroyed during launch, or if, due to an anomaly occurring during launch caused by the launch vehicle or a co-passenger satellite, a Company satellite loses more than 50% of its operational capacity, Arianespace has agreed to perform a replacement launch at no cost. If, under the same circumstances, the Company satellite loses more than 20% but not more than 50% of its operational capacity, Arianespace is required to pay Company an amount based on the percent of lost capacity. If the Company purchases launch insurance on the commercial market, these percentages will be amended to match those contained in the insurance policy. If, following launch, a satellite should fail for any reason, including reasons unrelated to the launch, within 27 months after launch, the Company is entitled to purchase at the then applicable price a replacement launch from Arianespace with a one-month launch slot that falls within ten months of the request for the replacement launch.

The Company will rely upon Arianespace for the timely launch of the satellites. Failure of Arianespace to launch the satellites in a timely manner could materially adversely affect the Company's business. The Arianespace Launch Contract entitles Arianespace to postpone either of Company's launches for a variety of reasons, including technical problems, lack of co- passenger(s) for the Company's launch, the need to conduct a replacement launch for another customer, a launch of a scientific satellite whose mission may be degraded by delay, or a launch of another customer's satellite whose launch was postponed. Although the Arianespace Launch Contract provides liquidated damages for delay, depending on the length of the delay, and entitles the Company to terminate the agreement for delay exceeding 12 months, there can be no assurance that these remedies will adequately mitigate any damage to the Company's business caused by launch delays.

Under the terms of the Arianespace Launch Contract, the Company and Arianespace each agree to bear any damage to property or bodily injury that it or its associates may sustain caused by a launch or satellite failure. Arianespace is required to take out launch and in-orbit insurance policies to protect itself and the Company against liability for losses that third parties may sustain caused by a launch vehicle or any satellite on the launch vehicle, and to indemnify the Company against any such losses that exceed the limits of the insurance policy.

Arianespace has assisted the Company in securing financing for the launch service prices through its subsidiary, AEF. The Company and AEF have entered into the AEF Agreements, which govern the provisions of such financing. See 'Description of Certain Indebtedness -- Vendor Financing.'

Risk Management and Insurance. Two custom-designed, fully dedicated satellites are required to broadcast CD Radio. The Company has selected a launch service supplier that has achieved the most

Powered By EDGAR Online 2002. EDGAR Online, Inc.

reliable launch record in its class in the industry. Each of the Company's two operational satellites will be launched separately. The Arianespace Launch Contract contains a provision entitling the Company to a replacement launch in the event of a launch failure caused by the Arianespace launch vehicle. In such event, the Company would utilize the spare satellite that will be constructed. Thus, the Company does not intend to insure for this contingency. The Company intends to insure against other contingencies, including a failure during launch caused by factors other than the launch vehicle and/or a failure involving the second satellite in a situation in which the spare satellite has been used to replace the first satellite. If the Company is required to launch the spare satellite due to failure of the launch of one of the operational satellites, its operational timetable would be delayed for approximately six months or more. The launch or in-orbit failure of two satellites would require the Company to arrange for additional satellites to be built and could delay the commencement or continuation of the Company's operations for three years or more. See 'Risk Factors -- Dependence upon Satellites,' 'Risk Factors -- Dependence upon Satellite and Launch Contractors' and 'Risk Factors -- Satellite Launch Risks.'

Once properly deployed and operational, the historical risk of premature total satellite failure has been less than one percent for U.S. geosynchronous commercial communication satellites. Insurance against in-orbit failure is currently available and typically is purchased after the satellite is tested in orbit and prior to the expiration of launch insurance. In recent years, annual premiums have ranged from 1.3% to 2.5% of coverage. After the Company has launched the satellites and begun to generate revenues, the Company will evaluate the need for business interruption insurance.

Satellites are designed to minimize the adverse effects of transmission component failure through the incorporation of redundant components which activate automatically or by ground command upon failure. If multiple component failures occur as the satellite ages, and the supply of redundant components is exhausted, the satellite generally will continue to operate, but at reduced capacity. In that event, signal quality may be preserved by reducing the number of channels broadcast until a replacement satellite can be launched. Alternatively, the number of broadcast channels may be preserved by reducing the signal quality until a replacement satellite can be launched.

THE RECEIVERS

Subscribers to CD Radio will not need to replace their existing AM/FM car radios. Instead, they will be able to receive CD Radio in their vehicles using a radio card that has been designed to plug easily into the cassette or compact disc slot of their existing radio. Customers also will be able to receive CD Radio using an S-band radio. CD Radio reception with either a radio card or an S-band radio will be via a miniature silver dollar-sized satellite dish antenna mounted on a small base housing a wireless transmitter that will relay the CD Radio signal to the vehicle's radio card or S-band radio. Neither the radio cards, S-band radios nor the miniature satellite dish antennas currently are available and the Company is unaware of any manufacturer currently developing such products.

The Company anticipates that radio cards will be easy to install because they will require no wiring or other assembly and will be installed simply by inserting the card into the radio's cassette or compact disc slot. Upon insertion of the card into the radio, listeners will be able to switch between AM, FM and CD Radio. The radio card can be removed by pushing the radio's 'eject' button. Radio cards are portable and will be able to be moved from car to car, if desired. S-band radios will be capable of receiving AM, FM and S-band radio transmissions. The Company anticipates that S-band radios will be similar to conventional AM/FM radios in size and appearance. Like existing conventional radios, a number of these radios may also incorporate cassette or compact disc players.

In addition to a radio card or S-band radio, a vehicle must be equipped with a miniature satellite dish antenna in order to receive CD Radio. To satisfy this requirement, the Company has designed a miniature satellite dish antenna. The battery powered satellite dish antenna is approximately the size and shape of a silver dollar, measuring 2 in diameter and 1/8 thick. The base of the satellite dish antenna will have an adhesive backing, so that consumers will be able to easily attach the satellite dish antenna to a car's rear window. Miniature satellite dish antennas will also be sold separately, so that consumers will be able to receive CD Radio in a vehicle that has a satellite dish antenna attached to it

Powered By EDGAR Online 2002. EDGAR Online, Inc.

simply by moving a radio card. The radio card, the S-band radio and the satellite dish antenna all use proprietary technology developed by the Company.

The Company's miniature satellite dish antenna design is substantially 'non-directional,' meaning it does not need to be pointed directly at a satellite in order to receive CD Radio broadcasts. All that is required is that the satellite dish antenna be positioned upward on an unobstructed line-of-sight with one of the Company's satellites or be within range of a terrestrial repeating transmitter. The satellite dish antenna will be mounted on a small base housing a solar recharging battery and wireless transmitter that will relay the CD Radio signal to a vehicle's radio card or S-band radio. The CD Radio system is designed to permit CD Radio to be received by motorists in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites. In certain areas with high concentrations of tall buildings, such as urban cores, or in tunnels, signals from both satellites will be blocked and reception will be adversely affected. In such cases, the Company plans to install terrestrial repeating transmitters to broadcast CD Radio.

A radio card or S-band radio tuned to CD Radio will have a visual display that will indicate the channel and format selected, as well as the title, recording artist and album title of the song being played. In order to reduce fraud, each radio card and S-band radio will contain a security circuit with an electronically encoded identification number. Upon verification of subscriber billing information, the Company will transmit a digital signal to activate the radio's S-band operation. This feature will enable the Company to protect against piracy of the CD Radio signal. Through this feature, the Company can directly via satellite discontinue CD Radio and deactivate radio cards or S-band radios of subscribers who are delinquent in paying the monthly subscription fee.

The Company expects radio cards, S-band radios and miniature satellite dish antennas to be sold through a variety of retail outlets, including consumer electronics, car audio, department and music stores. The Company currently expects that the radio card together with the satellite dish antenna can be sold at a retail price of approximately $200. Radio card or S-band activation will be accomplished directly via satellite by calling the Company's customer service center at 888-CD-RADIO. The Company currently expects to begin offering CD Radio in late 1999 at an initial subscription price of $10 per month.

The Company believes that, when manufactured in quantity, S-band radios will be incrementally more expensive than today's car radios, while radio cards, which will have no installation costs if the customer has a radio with a cassette or compact disc slot, will be substantially less expensive. The Company expects that the satellite dish antenna will be substantially less expensive than the radio card for consumers wishing to purchase additional dish antennas separately. The Company believes that the availability and pricing of plug and play radio cards will be of prime importance to the Company's market penetration for a number of years.

Neither the radio cards, S-band radios nor miniature satellite dish antennas currently are available, and the Company is unaware of any manufacturer currently developing such products. The Company has entered into non-binding memoranda of understanding with two major consumer electronics manufacturers, and has commenced discussions with several other such manufacturers, regarding the manufacture of radio cards, S-band radios and miniature satellite dish antennas for retail sale in the United States. The Company currently intends to select one manufacturer to manufacture radio cards, S-band radios and miniature satellite dish antennas for retail sale in the United States on an exclusive basis for the first year of CD Radio broadcasts. There can be no assurance that these discussions will result in a binding commitment on the part of any manufacturer to produce radio cards, S-band radios and miniature satellite dish antennas in a timely manner so as to permit the widespread introduction of CD Radio in accordance with the Company's business plan or that sufficient quantities of these will be available to meet anticipated consumer demand. Failure to have at least one manufacturer develop and widely market radio cards and the associated miniature satellite dish antennas, and to a lesser extent S-band radios, at affordable prices, or to develop and widely market such products upon the launch of CD Radio, would have a material adverse effect on the Company's business.

In addition, the IB Order conditions the Company's license on certification by the Company that its final receiver design is interoperable with respect to the final receiver design of the other licensee, which has proposed to use a significantly different transmission technology from that of the Company. The Company believes that it can design an interoperable receiver, but there can be no assurance that this effort will be successful or result in a commercially feasible receiver.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

THE NATIONAL BROADCAST STUDIO

The Company plans to originate its 50 channels of programming from its National Broadcast Studio, to be located in the New York area. The National Broadcast Studio will house the Company's music library, facilities for programming origination, programming personnel and program hosts, as well as facilities to uplink programming to the satellites, to activate or deactivate service to subscribers and to perform the tracking, telemetry and control of the orbiting satellites.

The Company's music library will be located at the National Broadcast Studio. The Company intends to create an extensive music library which will consist of a deep range of recorded music. In addition to updating its music library with new recordings as they are released, the Company will seek to acquire recordings that in certain cases are no longer commercially available. The Company recently began purchasing collections of recordings for its music library.

Programming will be originated at the National Broadcast Studio and transmitted to the Company's two satellites for broadcast to CD Radio subscribers. The Company expects that its broadcast transmissions will be uplinked to its satellites at frequencies in the 7025.0-7075.0 MHz band. The satellites will receive and convert the signal to the 2320.0-2332.5 MHz band. The satellites then will broadcast the signal to the United States, at a power sufficient to enable its receipt directly by the miniature satellite dish antennas to be used by subscribers.

Service-related commands also will be relayed from the National Broadcast Studio to the Company's satellites for retransmission to subscribers' radio cards and S-band radios. These service-related commands include those required to (i) initiate and suspend subscriber service, (ii) change the encryption parameters in radio cards and S-band radios to reduce piracy of CD Radio and
(iii) activate radio card and S-band radio displays to show program-related information.

Tracking, telemetry and control operations for the Company's orbiting satellites also will be performed from the National Broadcast Studio. These activities include controlling the routine station keeping, which involves twice-monthly satellite orbital adjustments and the continuous monitoring of the satellites.

The Company expects that the National Broadcast Studio, which will include its executive offices, will be approximately 30,000 square feet in size. The Company currently is searching for appropriate space to lease in the New York area and has commenced development of plans for its facility with a broadcast studio design firm.

DEMONSTRATIONS OF THE CD RADIO SYSTEM

In support of the Company's application for the FCC License, the Company conducted a demonstration of its proposed radio service from November 1993 through November 1994. The demonstration involved the transmission of S-band signals to a prototype S-band radio and miniature satellite dish antenna installed in a car to simulate certain transmission techniques the Company intends to employ. Because there currently are no commercial satellites in orbit capable of transmitting S-band frequencies to the United States, the Company constructed a terrestrial simulation of its planned system. For this purpose, the Company selected a test range covering several kilometers near Washington, D.C. which included areas shadowed by buildings, trees and overpasses. The Company placed S-band transmitters on the rooftops of a number of tall buildings in such a way as to simulate the signal power and angle of arrival of satellite transmissions to be used for its proposed service. The Company also modified the standard factory installed sound system of an automobile to create a radio receiving AM, FM and S-band, and integrated the Company's satellite dish antenna into the car roof. The demonstrations included the reception of 30 channels of compact disc quality stereo music by the prototype radio while the car was driven throughout the range. Prior to testing with orbiting satellites, miniature satellite dish antennas and radio cards or S-band radios suitable for commercial production, there can be no assurance that the CD Radio system will function as intended. See 'Risk Factors -- Reliance on Unproven Technology.'

Powered By EDGAR Online 2002. EDGAR Online, Inc.

COMPETITION

The Company expects to face competition from two principal sources: (i) conventional AM/FM radio broadcasting, including, when available, terrestrial digital radio broadcasting; and (ii) AMRC, the other successful bidder for an FCC License.

The AM/FM radio broadcasting industry is very competitive. Radio stations compete for listeners and advertising revenues directly with other radio stations within their markets on the basis of a variety of factors, including program content, on-air talent, transmitter power, assigned frequency, audience characteristics, local program acceptance and the number and characteristics of other radio stations in the market. Many of the Company's radio broadcasting competitors have substantially greater financial, management and technical resources than the Company.

Unlike the Company, the radio industry has a well established market for its services and generally offers 'free' broadcast reception paid for by commercial advertising rather than by a subscription fee. In addition, certain AM and FM stations, such as National Public Radio, offer programming without commercial interruption. Many radio stations also offer information programming of a local nature, such as local news or traffic reports, which the Company will be unable to offer. CD Radio will compete with conventional radio stations on the basis of its targeted programming formats, nearly seamless signal coverage, freedom from advertising and compact disc quality sound, features which are largely unavailable on conventional broadcast radio.

The Company believes that cassettes and compact discs generally are used in automobiles as supplements to radio rather than as substitutes, and that these media are used primarily as backup when radio reception is unavailable or unsatisfactory, or when desired programming is unavailable or unsatisfactory. Cassettes and compact discs lack the convenience of radio, as well as the spontaneity and freshness that characterize radio programming. According to a 1996 market study, although almost all vehicles contain either a cassette or compact disc player, 87% of automobile commuters listened to the radio an average of 50 minutes a day while commuting. Accordingly, the Company does not view its service as directly competitive with these media.

Currently, radio stations broadcast by means of analog signals, as opposed to digital transmission. The Company believes, however, that prior to the commencement of CD Radio, terrestrial broadcasters may be able to place digital audio broadcasts into the bandwidth occupied by current AM and FM stations and simultaneously transmit both analog and digital signals on the AM and FM bands. The limited bandwidth assigned to AM stations will result in lower quality digital signals than can be broadcast by FM stations. As a result, the Company expects that the use of this technology will permit digital AM sound quality to approach monaural FM sound quality and permit digital FM broadcasts to approach compact disc sound quality. In order to receive these digital AM/FM broadcasts, listeners will need to purchase new digital radios which currently are not commercially available. While the development of digital broadcasting would eliminate one of the advantages of CD Radio over FM radio, the Company does not believe it would affect broadcasters' ability to address the other advantages of CD Radio. In addition, the Company views the growth of terrestrial digital broadcasting as a positive force that would be likely to encourage radio replacement and thereby facilitate the introduction of S-band radios.

Although certain existing satellite operators currently provide music programming to customers at fixed locations, these operators are incapable of providing CD Radio type service to vehicles as a result of some or all of the following reasons: (i) these operators do not broadcast on radio frequencies suitable for reception in a mobile environment; (ii) CD Radio type service requires fully dedicated satellites; (iii) CD Radio type service requires a custom satellite system design and (iv) CD Radio type service requires regulatory approvals, which existing satellite operators do not have.

AMRC, a subsidiary of AMSC, is the other holder of an FCC License. AMRC, in which WorldSpace, Inc. (a company that plans to provide satellite radio service outside of the United States) has a 20 percent interest, and AMSC, which is owned in part by the Hughes Electronics Corporation subsidiary of General Motors Corporation, have financial, management and technical resources that greatly exceed those of the Company. In addition, the FCC could grant new licenses which would enable further competition to broadcast satellite radio. Finally, there are many portions of the electromagnetic spectrum that are currently licensed for other uses and certain other portions for which licenses have been granted by the FCC without restriction as to use, and there can be no assurance that

Powered By EDGAR Online 2002. EDGAR Online, Inc.

these portions of the spectrum could not be utilized for satellite radio broadcasting in the future. Although any such licensees would face cost and competition barriers, there can be no assurance that there will not be an increase in the number of competitors in the satellite radio industry. See 'Risk Factors -- Competition.'

TECHNOLOGY AND PATENTS

The Company has been granted certain U.S. patents (U.S. Patent Nos. 5,278,863; 5,319,673; 5,485,485; 5,592,471) on various features of satellite radio technology. There can be no assurance, however, that any U.S. patent issued to the Company will cover the actual commercialized technology of the Company or will not be circumvented or infringed by others, or that if challenged would be held to be valid. The Company has filed patent applications covering CD Radio system technology in Argentina, Australia, Brazil, Canada, China, France, Germany, India, Italy, Japan, South Korea, Mexico, the Netherlands, Spain, Switzerland and the United Kingdom, and has been granted patents in a number of these countries. There can be no assurance that additional foreign patents will be awarded to the Company or, if any such patents are granted, that the laws of foreign countries where the Company receives patents will protect the Company's proprietary rights to its technology to the same extent as the laws of the United States. Although the Company believes that obtaining patent protection may provide benefits to the Company, the Company does not believe that its business is dependent on obtaining patent protection or successfully defending any such patents that may be obtained against infringement by others.

Certain of the Company's know-how and technology are not the subject of U.S. patents. To protect its rights, the Company requires certain employees, consultants, advisors and collaborators to enter into confidentiality agreements. There can be no assurance, however, that these agreements will provide meaningful protection for the Company's trade secrets, know-how or other proprietary information in the event of any unauthorized use or disclosure. In addition, the Company's business may be adversely affected by competitors who independently develop competing technologies.

The Company's proprietary technology was developed by Robert D. Briskman, the Company's co-founder, and was assigned to the Company. The Company believes that Mr. Briskman independently developed the technology covered by the Company's issued patents and that it does not violate the proprietary rights of any person. There can be no assurance, however, that third parties will not bring suit against the Company for patent infringement or for declaratory judgment to have any patents which may be issued to the Company declared invalid.

If a dispute arises concerning the Company's technology, litigation might be necessary to enforce the Company's patents, to protect the Company's trade secrets or know-how or litigation may occur to determine the scope of the proprietary rights of others. Any such litigation could result in substantial cost to, and diversion of effort by, the Company, and adverse findings in any proceeding could subject the Company to significant liabilities to third parties, require the Company to seek licenses from third parties or otherwise adversely affect the Company's ability to successfully develop and market CD Radio.

GOVERNMENT REGULATION

COMMUNICATIONS LAWS

As an operator of a privately owned satellite system, the Company is subject to the regulatory authority of the FCC under the Communications Act. The FCC is the government agency with primary authority in the United States over satellite radio communications. The Company is currently subject to regulation by the FCC principally with respect to (i) the licensing of its satellite system; (ii) preventing interference with or to other users of radio frequencies; and (iii) compliance with rules that the FCC has established specifically for United States satellites and rules that the FCC has established for providing satellite radio service.

On May 18, 1990, the Company proposed that the FCC establish a satellite radio service and applied for an FCC License. On March 3, 1997, the FCC adopted rules for the national satellite radio broadcast service (the 'FCC Licensing Rules'). Pursuant to the FCC Licensing Rules, an auction was held among the applicants on April 1 and 2, 1997. The Company was a winning bidder for one of the two FCC Licenses with a bid of $83 million. AMRC was the other winning bidder for an FCC License with a bid of $89 million. After payment of the full amount by the Company, the FCC's International

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Bureau issued the FCC License to the Company on October 10, 1997. Although the FCC License is effective immediately; however, for a period of 30 days following the grant of the FCC License, those parties that had filed comments or petitions to deny in connection with the Company's application for an FCC License could petition the International Bureau to reconsider its decision to grant the FCC License to the Company or request review of the decision by the full FCC. An application for review by the full Commission was filed by one of the low-bidding applicants in the auction. This petition requests, among other things, that the Commission adopt restrictions on foreign ownership, which were not applied in the IB Order, and, on the basis of the Company's ownership, overrule the IB Order. Although the Company believes the FCC will uphold the IB Order, the Company cannot predict the ultimate outcome of any proceedings relating to this petition or any other proceeding that may be filed. If this petition is denied, the complaining party may file an appeal with the U.S. Court of Appeals which must find that the decision of the FCC was not supported by substantial evidence, or was arbitrary, capricious or unlawful in order to overturn the grant of the Company's FCC License.

Pursuant to the FCC Licensing Rules, the Company is required to meet certain progress milestones. Licensees are required to begin satellite construction within one year of the grant of the FCC License; to launch and begin operating their first satellites within four years; and to begin operating their entire system within six years. The IB Order states that failure to meet those milestones will render the FCC License null and void. On May 6, 1997, the Company notified the FCC that it had begun construction on the first of its satellites. On March 27, 1997, a third party requested reconsideration of the FCC Licensing Rules, seeking, among other things, that the time period allotted for these milestones be shortened. The Company cannot predict the outcome of this petition.

The term of the FCC License for each satellite is eight years, commencing from the time each satellite is declared operational after having been inserted into orbit. Upon the expiration of the term with respect to each satellite, the Company will be required to apply for a renewal of the relevant FCC License. Although the Company anticipates that, absent significant misconduct on the part of the Company, the FCC Licenses will be renewed in due course to permit operation of the satellites for their useful lives, and that a license would be granted for any replacement satellites, there can be no assurance of such renewal or grant.

Satellite orbit locations are registered internationally for each country. International regulations at present allocate the S-Band for satellite broadcasting only in the United States and India. Mexico has proposed in a currently on-going World Radiotelecommunications Conference that the S-Band also be allocated for satellite broadcasting in Mexico. The Company cannot predict the outcome of this action. The Company does not anticipate difficulty in obtaining international registration or renewing or extending such registrations. There can be no assurance, however, that such registrations will be obtained.

The spectrum allocated for satellite radio is used in Canada and Mexico for terrestrial microwave links, mobile telemetry and other purposes. The United States government must coordinate the United States' use of this spectrum with the Canadian and Mexican governments before any United States satellite may become operational. The Company has performed analyses which show that its proposed use will not cause undue interference to most Canadian stations and can be coordinated with others by various techniques. The FCC Licensing Rules require that the licensees successfully complete detailed frequency coordination with existing operations in Canada and Mexico, and the IB Order conditions the FCC License on such coordination. There can be no assurance that the licensees will be able to coordinate the use of this spectrum with Canadian or Mexican operators or will be able to do so in a timely manner.

In order to operate its satellites, the Company also will have to obtain a license from the FCC to operate its uplink facility. Normally, such approval is sought after issuance of the FCC License. Although there can be no assurances that such licenses will be granted, the Company does not expect difficulties in obtaining a feeder link frequency and ground station approval in the ordinary course.

In the future, any assignments or transfers of control of the FCC License must be approved by the FCC. There can be no assurance that the FCC would approve any such transfer or assignment.

The CD Radio system is designed to permit CD Radio to be received by motorists in all outdoor locations where the vehicle has an unobstructed line-of-sight with one of the Company's satellites. In certain areas with high concentrations of tall buildings, such as urban cores, or in tunnels, signals from

Powered By EDGAR Online 2002. EDGAR Online, Inc.

both satellites will be blocked and reception will be adversely affected. In such cases, the Company plans to install terrestrial repeating transmitters to broadcast CD Radio. The FCC has not yet established rules governing the application procedure for obtaining authorizations to construct and operate terrestrial repeating transmitters. A rulemaking on the subject was initiated by the FCC on March 3, 1997. The deadline for the public to file comments was June 13, 1997 and the deadline for filing reply comments was June 27, 1997. Several comments were received by the FCC that sought to cause the FCC to consider placing restrictions on the Company's ability to deploy its terrestrial repeating transmitters. However, the Company believes that the FCC will neither prohibit it from deploying such transmitters nor place unreasonable requirements upon such deployment.

The Communications Act prohibits the issuance of a license to a foreign government or a representative thereof, and contains limitations on the ownership of common carrier, broadcast and certain other radio licenses by non-U.S. citizens. Pursuant to the FCC Licensing Rules, the Company is regulated as a private carrier. The IB Order determined that, as a private carrier, the Company is not subject to the current provisions of the Communications Act restricting ownership in the Company by non-U.S. private citizens or organizations. The Executive Branch of the U.S. government has expressed interest in changing this policy, which could lead to restrictions on foreign ownership of the Company's shares in the future. The IB Order stated that its finding that the Company is not subject to the foreign ownership restrictions of the Communications Act is subject to being revisited in a future proceeding. The pending application for review of the IB Order brings the question of foreign ownership restrictions before the full FCC. As a private carrier, the Company is free to set its own prices and serve customers according to its own business judgment, without economic regulation.

The other holder of an FCC License has proposed to use a significantly different transmission technology from that of the Company. The IB Order conditions the Company's license on certification by the Company that its final receiver design is interoperable with respect to the final receiver design of the other licensee. The Company believes that it can design an interoperable receiver, but there can be no assurance that this effort will be successful or result in a commercially feasible receiver.

The foregoing discussion reflects the application of current communications law, FCC regulations and international agreements to the Company's proposed service in the United States. Changes in law, regulations or international agreements relating to communications policy generally or to matters affecting specifically the services proposed by the Company could adversely affect the Company's ability to retain the FCC License and obtain or retain other approvals required to provide CD Radio or the manner in which the Company's proposed service would be regulated. Further, actions of the FCC are subject to judicial review and there can be no assurance that if challenged, such actions would be upheld.

OTHER REGULATORY MATTERS

The Company's business operations as currently contemplated may require a variety of permits, licenses and authorizations from governmental authorities other than the FCC, but the Company has not identified any such permit, license or authorization that it believes could not be obtained in the ordinary course of business.

PERSONNEL

As of October 1, 1997, the Company had 11 employees, of whom three were involved in technology development, three in business development and five in administration. In addition, the Company relies upon a number of consultants and other advisors. By commencement of operations, the Company expects to have approximately 100 employees. The extent and timing of the increase in staffing will depend on the availability of qualified personnel and other developments in the Company's business. None of the Company's employees is represented by a labor union, and the Company believes that its relationship with its employees is good.

PROPERTY

The Company's executive offices are located at Sixth Floor, 1001 22nd Street, N.W., Washington, D.C. 20037, and are leased pursuant to a lease agreement that will expire on October 31, 1998.

LEGAL PROCEEDINGS

The Company is not a party to any material litigation.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

MANAGEMENT

DIRECTORS AND EXECUTIVE OFFICERS

The following table sets forth information concerning the directors, executive officers and certain key employees of the Company.

NAME	AGE	POSITION(S) WITH COMPANY
David Margolese........................	40	Chairman, Chief Executive Officer and Director
Robert D. Briskman.....................	65	Executive Vice President, Engineering and Operations and Director
Andrew J. Greenebaum...................	35	Executive Vice President and Chief Financial Officer
Keno V. Thomas.........................	39	Executive Vice President, Marketing
Joseph S. Capobianco...................	48	Executive Vice President, Content
Paul Sharma............................	49	Executive Director, Space Segment
Brian Stockwell........................	61	Executive Director, Launch Services
Lawrence F. Gilberti(1)(2).............	47	Director and Secretary
Peter K. Pitsch(1).....................	45	Director
Jack Z. Rubinstein(1)..................	48	Director
Ralph V. Whitworth(1)(2)...............	41	Director

All directors hold office until the next annual meeting of stockholders and the election and qualification of their successors. Officers are elected by and serve at the discretion of the Board of Directors.

David Margolese. Mr. Margolese was elected Chief Executive Officer of the Company in November 1992 and Chairman in August 1993 and has served as a director since August 1991. In 1991, Mr. Margolese founded a consortium with AT&T Corp. and Hutchison Telecommunications Ltd., a subsidiary of Hutchison Whampoa Limited, a diversified conglomerate based in Hong Kong, to bid for Israel's national cellular telephone license and served as Chairman of this consortium until June 1993. From 1987 until August 1991, Mr. Margolese was a private investor. In 1982, Mr. Margolese co-founded Cantel Inc., Canada's national cellular telephone company, and served as Vice President, RCC Operations, there until 1984. In 1980, Mr. Margolese co-founded Canadian Telecom Inc., a radio paging company, and served as that company's President until its sale in 1987.

Robert D. Briskman. Mr. Briskman has served as Executive Vice President, Engineering and Operations and as a director of the Company since October 1991 and as President of Satellite CD Radio, Inc., a subsidiary of the Company, since September 1994. In addition, Mr. Briskman served as Chief Executive Officer of the Company from April to November 1992. From March 1991 to June 1992, Mr. Briskman was President of Telecommunications Engineering Consultants, which provided engineering and consulting services to the Company. From March 1986 to March 1991, Mr. Briskman was Senior Vice President, Engineering and Operations at Geostar Corporation, a satellite company, responsible for the development, design, implementation and operation of a nationwide satellite message communication service. Prior to 1986, Mr. Briskman held senior management positions at Communications Satellite Corporation ('COMSAT'), a satellite operator, where he was employed for over 20 years. Prior to joining COMSAT, Mr. Briskman was a communications specialist with IBM and the National Aeronautics and Space Administration. Mr. Briskman holds a bachelor's degree in engineering from Princeton and a master's degree in electrical engineering from the University of Maryland. He has published over 50 technical papers, holds a number of U.S. patents, and is a Fellow of the Institute of Electrical and Electronics Engineers and the American Institute of Aeronautics and Astronautics.

Andrew J. Greenebaum. Mr. Greenebaum has served as Executive Vice President and Chief Financial Officer of the Company since August 1997. From August 1989 to August 1997, he held a variety of senior management positions with The Walt Disney Company. From March 1996 to August 1997, Mr. Greenebaum was Vice President, Corporate Finance in charge of corporate and project finance. From May 1995 to March 1996, he was Corporate Strategic Planning Director, Corporate Development. From October 1992 to May 1995, he was Director, Corporate Finance and from April 1991 to October 1992, he was Manager, Corporate Finance. From August 1989 to April 1991, he was a Senior Treasury

2002. EDGAR Online, Inc.

Analyst, Foreign Exchange. From October 1984 to June, 1987, Mr. Greenebaum was a financial analyst with L.F. Rothschild & Co., Inc., an investment bank.

Keno V. Thomas. Mr. Thomas has served as Executive Vice President, Marketing of the Company since April 1997. From July 1995 to April 1997, he was an independent management consultant to the media and entertainment industry. From January 1994 to July 1995, Mr. Thomas was Executive Vice President, Marketing at DMX Inc., a cable radio company. From February 1992 to January 1994, he served as Vice President of Programming at DIRECTV, a satellite television company. From December 1986 to February 1992, he held senior management positions, including Vice President, International at ESPN Enterprises, Inc., a cable television sports network. From May 1982 to December 1986, he held senior management positions, including Vice President, Marketing at Times Mirror Cable, an operator of cable television systems and a subsidiary of the Times Mirror Company.

Joseph S. Capobianco. Mr. Capobianco has served as Executive Vice President, Content of the Company since April 1997. From 1981 to April 1997, he was an independent consultant providing programming, production, marketing and strategic planning consulting services to media and entertainment companies, including Home Box Office, a cable television service and a subsidiary of Time Warner Entertainment Company, L.P., and the ABC Radio Networks. From May 1990 to February 1995, he served as Vice President of Programming at Music Choice, which operates a 40-channel music service available to subscribers to DIRECTV, and is partially owned by Warner Music Group Inc., Sony Music Entertainment Inc. and EMI.

Paul Sharma. Mr. Sharma has served as Executive Director, Space Segment of the Company since April 1997. From November 1988 to April 1997, he was an independent consultant providing project management services for numerous major satellite programs worldwide. From 1982 to 1988, he served as Deputy Projects Director for the Direct Broadcast Satellite program at COMSAT, a satellite operator.

Brian Stockwell. Mr. Stockwell has served as Executive Director, Launch Services of the Company since April 1997. He has provided management consulting services to the space industry since 1992. From June 1981 to January 1992, he served as President of Willis Corroon Inspace, an aerospace insurance company. From January 1979 to May 1981, he was Deputy Head of the Ariane Launch Vehicle Program for the European Space Agency. Prior to that, he was Communications Satellite Systems Manager with the European Space Agency from September 1969.

Lawrence F. Gilberti. Mr. Gilberti was elected Secretary of the Company in November 1992 and has served as a director since September 1993. Since December 1992, he has been the Secretary and sole director of, and from December 1992 to September 1994 was the President of, Satellite CD Radio, Inc. Mr. Gilberti has been a partner in the law firm of Fischbein Badillo Wagner Harding since August 1994, and has provided legal services to the Company since 1992. From 1987 to August 1994, Mr. Gilberti was an attorney with the law firm of Goodman Phillips & Vineberg.

Peter K. Pitsch. Mr. Pitsch became a director of the Company in January 1995. Since September 1989, Mr. Pitsch has been the principal of Pitsch Communications, a telecommunications law and economic consulting firm that has rendered legal services to the Company since 1991. From April 1987 to August 1989, he served as Chief of Staff at the Federal Communications Commission. From November 1981 to April 1987, he served as Chief of the Office of Plans and Policy at the Federal Communications Commission. He is an adjunct fellow at the Hudson Institute, Inc.

Jack Z. Rubinstein. Mr. Rubinstein became a director of the Company in January 1995. Since May 1991, Mr. Rubinstein has been the General Partner of Dica Partners, L.P., a hedge fund based in Hartsdale, New York. From September 1988 to October 1990, Mr. Rubinstein was a consultant to institutional clients at Morgan Stanley & Co. Incorporated, an investment bank. From February 1978 to September 1988, he was an Associate Director at Bear Stearns & Co. Inc., an investment bank, responsible for corporate insider portfolio management.

Ralph V. Whitworth. Mr. Whitworth became a director of the Company in March 1994. Since April 1996, he has been a managing member at Relational Investors, LLC, a financial management firm. In January 1997, Mr. Whitworth became a partner of Batchelder & Partners, Inc., a financial advisory firm. From August 1988 to December 1996, he was President of Whitworth and Associates, a Washington,

Powered By EDGAR Online 2002. EDGAR Online, Inc.

D.C.-based consulting firm. Mr. Whitworth was President of United Shareholders Association, a shareholders' association, from its founding in 1986 to 1993. From 1989 to 1992, he served as President of Development of United Thermal Corporation, the owner of the district heating systems for the cities of Baltimore, Philadelphia, Boston and St. Louis.

COMPENSATION OF EXECUTIVE OFFICERS AND DIRECTORS

EXECUTIVE OFFICERS

The following table sets forth the compensation for services rendered during the three-year period ending December 31, 1996 for the executive officers of the Company whose 1996 salary and bonus exceeded $100,000.

SUMMARY COMPENSATION TABLE

		ANNUAL COMPENSATION			LONG-TERM COMPENSATION AWARDS
NAME AND PRINCIPAL POSITION	FISCAL YEAR	SALARY	BONUS	OTHER ANNUAL COMPENSATION	SECURITIES UNDERLYING OPTIONS
David Margolese	1996	$ 95,833	$ --	$ --	400,000
Chairman of the Board and Chief Executive	1995	100,000	--	--	--
Officer	1994	122,000(1)	--	26,052(2)	300,000
Robert D. Briskman	1996	106,249	20,000	190,938	60,000
Executive Vice President, Engineering and	1995	100,000	--	1,340	--
Operations	1994	122,000	--	--	192,500

(1) In October 1994, Mr. Margolese waived his base salary payable for the three month period ended December 31, 1994.

(2) The Company reimbursed Mr. Margolese for the following expenses incurred in establishing residency in the United States: $18,521 for tax advice, $2,311 for moving expenses and $5,220 for real estate commissions.

DIRECTORS

Commencing in 1994, directors of the Company who are not full time employees of the Company were entitled to receive a director's fee of $20,000 per year for serving on the Company's Board of Directors. In June 1994, all directors entitled to receive directors' fees agreed to forgo any payments for their services as directors of the Company. Pursuant to the Company's 1994 Directors' Nonqualified Stock Option Plan (the 'Directors' Plan'), each director who is not a full-time employee of the Company is entitled to an option to purchase 15,000 shares of Common Stock upon becoming a director (or upon the effective date of the plan in the case of non-employee directors who become directors prior to the effective date) and to an automatic annual grant of an option to purchase 10,000 shares of Common Stock. The exercise price for annual grants is fair market value of the Company's Common Stock on the date of grant. Prior to the implementation of the Directors' Plan, the Company from time to time granted options to certain non-employee directors. See ' -- Employee and Director Stock Options.' The Company reimburses each director for reasonable expenses incurred in attending meetings of the Board of Directors.

The Company has retained Pitsch Communications to provide legal services to the Company for a monthly retainer of $5,000. The retainer may be terminated by either party at any time. The principal of Pitsch Communications, Peter K. Pitsch, is a director of the Company. The monthly retainer was terminated in May 1997.

The Company has retained Jack Z. Rubinstein to provide consulting services to the Company for a monthly retainer of $5,000. The retainer may be terminated by either party at any time. Jack Z. Rubinstein is a director of the Company.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

EMPLOYMENT AGREEMENTS

The Company has entered into employment agreements with its executive officers.

Effective January 1, 1994, the Company entered into an employment agreement to employ David Margolese as Chairman and Chief Executive Officer of the Company for a term of five years. The agreement provided for an annual base salary of $300,000, subject to increase from time to time by the Board of Directors. An amendment to this agreement, dated as of June 8, 1994, provided for an annual base salary of $100,000, effective June 8, 1994. Subsequently, Mr. Margolese waived his base salary payable for the three-month period ended December 31, 1994. In January 1997, the Board of Directors increased Mr. Margolese's annual base salary to $150,000. In July 1997, the Board of Directors increased Mr. Margolese's annual base salary to $400,000. Under his original employment agreement and pursuant to the Company's 1994 Stock Option Plan, the Company granted to Mr. Margolese an option to purchase 300,000 shares of Common Stock at $5.00 per share, which option is fully vested and exercisable. If Mr. Margolese is terminated without Cause, as defined in the agreement, or if Mr. Margolese resigns for 'Good Reason,' as defined in the agreement, the Company is obligated to pay to Mr. Margolese the sum of $800,000. In January 1994, Mr. Margolese was paid $162,000 for deferred salary earned in 1993 and $216,000 in recognition of his service without pay in 1992. The employment agreement restricts Mr. Margolese from engaging in any business involving the transmission of radio entertainment programming in North America for a period of two years after the termination of his employment.

Effective January 1, 1994, the Company entered into an agreement to employ Robert D. Briskman as the Vice President and Chief Technical Officer of the Company. The agreement provided for an annual base salary of $150,000. An amendment to this agreement, dated as of June 8, 1994, provided for an annual base salary of $100,000, effective June 8, 1994. In October 1996, the Board of Directors increased Mr. Briskman's annual base salary to $150,000 and in January 1997, extended the term of the agreement until January 1, 1998. In addition, under his original employment agreement and pursuant to the Company's 1994 Stock Option Plan, the Company granted to Mr. Briskman an option to purchase 80,000 shares of Common Stock at $1.00 per share, which option is fully vested and exercisable. In May 1997, the Board of Directors named Mr. Briskman the Company's Executive Vice President, Engineering and Operations and extended the term of the agreement until December 31, 2000. The Board of Directors also increased Mr. Briskman's annual base salary to $235,000, effective May 1, 1997, with an additional increase to $260,000, effective January 1, 1998. The original employment agreement also provides for the grant to Mr. Briskman of options to purchase 112,500 shares of Common Stock at $1.00 per share upon completion of certain milestones prior to December 31, 1994. Such options were granted to Mr. Briskman on December 23, 1994 and are fully vested and exercisable. In January 1996, Mr. Briskman exercised options to purchase 80,000 shares of the Company's Common Stock. On July 9, 1997, the Board of Directors granted Mr. Briskman further options to purchase up to 57,500 shares of Common Stock at a price per share of $14.50. The options will vest and become exercisable in two stages contingent upon Mr. Briskman's continued employment with the Company and the replenishment of the 1994 Stock Option Plan by the Company. If Mr. Briskman's employment is terminated for any reason other than cause, as defined in the agreement, the Company is obligated to pay to Mr. Briskman a sum equal to 50% of his then annual salary and, at Mr. Briskman's option, to repurchase all of the shares of Common Stock then owned by him at a price of $1.25 per share. The Company also has entered into a proprietary information and non-competition agreement with Mr. Briskman. Under this agreement, Mr. Briskman may not (i) disclose any proprietary information of the Company during or after his employment with the Company or (ii) engage in any business directly competitive with any business of the Company in North America for a period of one year after termination of his employment.

Effective August 25, 1997, the Company entered into an employment agreement with Andrew J. Greenebaum which provides for his employment as Executive Vice President and Chief Financial Officer of the Company. The agreement has a term of three years. Pursuant to the agreement with Mr. Greenebaum, the Company will pay Mr. Greenebaum an annualized base salary of $250,000 per year for the period of his employment with the Company through December 31, 1997 and thereafter an annualized base salary of $275,000, subject to any increases approved by the Board of Directors. Upon

Powered By EDGAR Online 2002. EDGAR Online, Inc.

the commencement of his employment with the Company, the Company paid Mr. Greenebaum an additional sum of $90,000. The Company has also granted Mr. Greenebaum options to purchase up to 175,000 shares of Common Stock at a price per share of $15.125; however, the options relating to 10,500 of such shares are subject to replenishment of the Plan by the Company. The options will vest and be exercisable in three stages contingent upon the continued employment of Mr. Greenebaum with the Company at predetermined dates. The dismissal of Mr. Greenebaum other than for 'cause' (as defined in the agreement), subsequent to the passing of certain milestones, however, will cause the options otherwise exercisable only at the end of that stage to vest immediately notwithstanding the dismissal. If Mr. Greenebaum's employment is terminated for any reason other than by the Company for 'cause', as defined in the agreement, or by Mr. Greenebaum voluntarily, Mr. Greenebaum will be entitled to receive, in addition to any other sums then due to him, an amount equal to his annualized base salary then in effect. The Company and Mr. Greenebaum also have entered into a proprietary information and non-competition agreement. Under this agreement, Mr. Greenebaum may not (i) during his employment with the Company and for three years thereafter disclose any proprietary information of the Company or (ii) during his employment with the Company and for one year thereafter engage in any business involving any satellite radio broadcast service or any subscription-based digital audio radio service delivered to cars or other mobile vehicles in North America.

The Company has entered into employment and noncompetition agreements to employ Joseph S. Capobianco as Executive Vice President, Content, and Keno V. Thomas as Executive Vice President, Marketing, both for terms of three years. The agreement with Mr. Capobianco, effective April 16, 1997, provided for an annual base salary of $200,000, subject to increase from time to time by the Board of Directors. The agreement with Mr. Thomas, effective April 28, 1997, provided for an annualized base salary of $225,000 through December 31, 1997, increasing to an annualized base salary of $250,000 thereafter through the term of the agreement, subject to increase from time to time by the Board of Directors. The Company has granted each of Mr. Capobianco and Mr. Thomas an option to purchase 50,000 shares of Common Stock at $13 and $12.875 per share, respectively, each such option to vest pursuant to the schedule set forth in the applicable option agreement. On July 9, 1997, the Company granted each of Messrs. Capobianco and Thomas further options to purchase up to 25,000 shares of Common Stock at a price per share of $14.50. These options will vest and become exercisable in two stages contingent upon Messrs. Capobianco's and Thomas' respective continued employment with the Company and the replenishment of the number of shares of Common Stock in the 1994 Stock Option Plan by the Company. If either Mr. Capobianco or Mr. Thomas is terminated except by the Company for 'Cause,' as defined in the agreement, or by the applicable executive voluntarily, the Company will be obligated to pay to Mr. Capobianco an amount equal to one-third of his then annual salary if the termination is on or prior to October 16, 1997 and one-half of his then annual salary thereafter, and to pay to Mr. Thomas an amount equal to one-half of his then annual salary. The Company also has entered into a proprietary information and non-competition agreement with each of Mr. Capobianco and Mr. Thomas. Under these agreements each of Mr. Capobianco and Mr. Thomas may not (i) disclose any proprietary information of the Company during his employment with the Company and for three years thereafter or (ii) during their respective employment and for one year thereafter, engage in any business involving any satellite radio broadcast service or any subscription-based digital audio radio service delivered to cars or other mobile vehicles in North America.

EMPLOYEE AND DIRECTOR STOCK OPTIONS AND STOCK GRANTS

In February 1994, the Company adopted its 1994 Stock Option Plan (the '1994 Plan') and its Director's Plan. The Director's Plan was amended by the Board of Directors in December 1994 and January 1995 and approved at the annual meeting of stockholders on June 27, 1995 to extend the exercise period of the option after termination for reason other than death or disability and to increase the initial option grants and annual option grants to non-employee directors.

The 1994 Plan, as amended, provides for options to purchase Common Stock and is administered by the Plan Administrator, which may be either the Company's Board of Directors or a committee designated by the Board of Directors. In accordance with the 1994 Plan, the Plan Administrator determines the employees to whom options are granted, the number of shares subject to each option,

Powered By EDGAR Online 2002. EDGAR Online, Inc.

the exercise price and the vesting schedule of each option. Options generally vest over a four-year period, but may vest over a different period at the discretion of the Plan Administrator. Under the 1994 Plan, outstanding options vest, unless they are assumed by an acquiring entity, upon the occurrence of certain transactions, including certain mergers and other business combinations involving the Company. Options granted under the 1994 Plan are exercisable for a period of ten years from the date of grant, except that incentive stock options granted to persons who own more than 10% of the Common Stock terminate after five years. Unless otherwise provided at the time of grant, vested options terminate 90 days after the optionee's termination of employment with the Company for any reason other than death or disability, and one year after termination upon death or disability. Unless otherwise determined by the Plan Administrator, the exercise price of options granted under the 1994 Plan must be equal to or greater than the fair market value of the Common Stock on the date of grant. Upon exercise, the aggregate exercise price may be paid to the Company
(i) in cash, (ii) upon approval of the Plan Administrator, by delivering to the Company shares of Common Stock previously held by such Optionee, or (iii) by complying with any other payment mechanism approved by the Plan Administrator from time to time.

The Directors' Plan provides that current non-employee directors of the Company and persons who become non-employee directors of the Company shall be granted options to purchase 15,000 shares of Common Stock upon becoming directors (or upon the effective date of the Director's Plan in the case of non-employee directors who became directors prior to the effective date), and thereafter shall annually be granted options to purchase 10,000 shares of Common Stock on the first business day following the Company's annual meeting. The exercise price for annual grants is the fair market value of the Company's Common Stock on the date of grant. Options granted under the Directors' Plan vest immediately upon grant and are exercisable for a period of ten years from the date of grant. Options terminate 18 months after a director's termination as a director of the Company for any reason other than death or disability, and one year after termination upon death or disability. Upon exercise, the exercise price may be paid (i) in cash, (ii) in shares of Common Stock, or (iii) by the Company withholding that number of shares of Common Stock with a fair market value on the date of exercise equal to the aggregate exercise price of the option.

In June 1995, the Company adopted its 1995 Stock Compensation Plan (the 'Stock Compensation Plan'). Pursuant to the terms of the Stock Compensation Plan, all employees of the Company or a Related Company (as defined in the Stock Compensation Plan) are eligible to receive awards under the Stock Compensation Plan. Bonuses granted pursuant to the Stock Compensation Plan are made by a plan administrator. The plan administrator, in its absolute discretion, determines the employees to whom, and the time or times at which, Common Stock awards are granted, the number of shares within each award and all other terms and conditions of the awards. The terms, conditions and restrictions applicable to the awards made under the Stock Compensation Plan need not be the same for all recipients, nor for all awards. The plan administrator may grant to any officer of the Company the authority to make awards or otherwise administer the Stock Compensation Plan solely with respect to persons who are not subject to the reporting and liability provisions of Section 16 of the Exchange Act.

In September 1996, the Stock Compensation Plan was amended to allow the plan to be administered by the entire Board of Directors, and if so authorized by the Board of Directors, a committee of at least two non-employee directors. Prior to this amendment, the plan permitted the administration only by a committee of the Board of Directors. The purpose of the amendment was to comply more readily with the new rules under Section 16 of the Securities Act, which changed the eligibility requirements for these committees. The new rules under
Section 16 allow either the entire Board of Directors or a committee composed of two or more 'non-employee' directors to act as Plan Administrator. Amending the Stock Compensation Plan provided more flexibility for the Company in the administration of the Stock Compensation Plan.

Awards under the Stock Compensation Plan may not exceed 175,000 shares of Common Stock in the aggregate, subject to certain adjustments. Shares awarded may be from authorized but unissued shares or from Company treasury shares of Common Stock. All shares of Common Stock received by employees pursuant to bonuses under the Stock Compensation Plan (except for shares received by executive officers or other persons who are subject to the reporting and liability provisions of Section 16

2002. EDGAR Online, Inc.

of the Exchange Act) are freely transferable. Nevertheless, the shares of Common Stock granted to recipients may be subject to such terms and conditions as the Committee, in its sole discretion, deems appropriate. During 1996, 67,500 shares of the Company's Common Stock were issued pursuant to this Compensation Plan.

As of December 31, 1996, 162,500 shares of Common Stock have been issued under the Stock Compensation Plan, and 12,500 shares of Common Stock remain available for issuance thereunder.

An aggregate of 1,600,000 shares of Common Stock were available for issuance pursuant to the 1994 Plan and the Directors' Plan. As of July 31, 1997, options to purchase all of the 1,600,000 shares of Common Stock had been granted pursuant to the 1994 Plan and the Directors' Plan and a further 133,000 options have been issued subject to the replenishment of these Plans by the Company prior to any of such options vesting.

STOCK OPTION INFORMATION

In April 1996, the Company granted to David Margolese pursuant to the 1994 Plan a stock option to purchase 400,000 shares of Common Stock which are now exercisable following the grant of the FCC License. In April 1996, the Company also granted to Robert Briskman pursuant to the 1994 Plan a stock option to purchase 60,000 shares of Common Stock, 30,000 shares of which are exercisable upon the FCC's grant of a license to the Company and the remaining 30,000 shares of which were exercisable on September 18, 1997 if, as of such date, the FCC had granted the FCC License and if Mr. Briskman was still employed by the Company. In recognition of Mr. Briskman's services to the Company and in view of the unexpected delay by the FCC in awarding the Company's FCC License, on October 15, 1997, the Compensation Committee of the Board of Directors granted Mr. Briskman options to purchase 30,000 shares of Common Stock at a price of $8.5625 per share under the 1994 Plan. Such options are exercisable immediately.

The following table sets forth certain information for the fiscal year ended December 31, 1996, with respect to options granted to the individuals named in the Summary Compensation table above.

OPTION GRANTS IN LAST FISCAL YEAR

	INDIVIDUAL GRANTS				POTENTIAL REALIZABLE VALUE AT ASSUMED ANNUAL RATES OF STOCK PRICE APPRECIATION FOR STOCK TERM	
NAME	NUMBER OF OPTIONS GRANTED	PERCENT OF TOTAL OPTIONS GRANTED TO EMPLOYEES IN FISCAL YEAR	EXERCISE OR BASE PRICE PER SHARE	EXPIRATION DATE	5%	10%
David Margolese......................	400,000	87%	$8.5625	4/24/06	$2,398,624	$5,848,148
Robert Briskman......................	60,000	13	8.5625	4/24/06	$ 359,794	$ 877,222

The following table sets forth certain information with respect to the number of shares covered by both exercisable and unexercisable stock options held by the individuals named in the Summary Compensation table above as of the fiscal year ended December 31, 1996. Also reported are values for 'in-the-money' stock options that represent the positive spread between the respective exercise prices of outstanding stock options and the fair market value of the Common Stock as of December 31, 1996 ($4.125 per share).

LIABILITY AND INDEMNIFICATION OF OFFICERS AND DIRECTORS OF THE COMPANY

As permitted by the Delaware General Corporation Law, the Company's Amended and Restated Certificate of Incorporation provides that directors of the Company shall not be personally liable to the Company or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Company or its stockholders,
(ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the Delaware General Corporation Law or (iv) for any transaction from which the director derives an improper personal benefit. In addition, the Company's Amended and Restated Bylaws provide that the Company shall indemnify all directors and officers and may indemnify employees and certain other persons to the full extent and in the manner permitted by Section 145 of the Delaware General Corporation Law, as amended from time to time. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling the Company pursuant to the foregoing provisions, the Company has been informed that, in the opinion of the Commission, such indemnification is against public policy as expressed in the Securities Act and, therefore, is unenforceable. The Company's Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws provide that the Company may, to the full extent permitted by law, purchase and maintain insurance on behalf of any director, officer, employee or agent of the Company against any liability which may be asserted against him or her and the Company currently maintains such insurance.

PRINCIPAL STOCKHOLDERS

The following tables set forth certain information regarding beneficial ownership of the Company's Common Stock and 5% Preferred Stock, as of September 30, 1997, by (i) each stockholder known by the Company to be the beneficial owner of more than 5% of the outstanding Common Stock or 5% Preferred Stock,
(ii) in relation to the Common Stock, each director of the Company, (iii) in relation to the Common Stock, each executive officer of the Company and (iv) in relation to each of the Common Stock and the 5% Preferred Stock, all directors and executive officers as a group. Except as otherwise indicated, the Company believes that the beneficial owners of the Common Stock and 5% Preferred Stock listed below, based on information furnished by such owners, have sole investment and voting power with respect to such shares, subject to community property laws where applicable. The table of beneficial ownership of Common Stock also sets forth information concerning the number of shares of Common Stock issuable upon conversion of shares of the Company's 5% Preferred Stock to holders of the 5% Preferred Stock.

* Less than 1%

(1) This table is based upon information supplied by directors, officers and principal stockholders. Percentage of ownership is based on 12,577,884 shares of Common Stock outstanding on September 30, 1997. Unless otherwise indicated, the address of the beneficial owner is the Company.

(2) Determined in accordance with Rule 13d-3 under the Securities Exchange Act of 1934, as amended. Under this rule, a person is deemed to be the beneficial owner of securities that can be acquired by such person within 60 days from September 30, 1997 upon the exercise of options, and each beneficial owner's percentage ownership is determined by assuming that options that are held by such person (but not those held by any other person) and that are exercisable within 60 days from September 30, 1997 have been exercised. Unless otherwise noted, the Company believes that all persons named in the table have sole voting and investment power with respect to all shares of Common Stock beneficially owned by them.

(3) Darlene Friedland is the spouse of Robert Friedland. Robert Friedland was a director of the Company from June 1993 until October 1993. From May 1992, Mr. Friedland and Ivanhoe Capital Corporation, a venture capital firm he controls, collectively were the Company's largest shareholder until their shares were transferred to Darlene Friedland in October 1993.

(4) Subject to demand registration rights after the Company's two satellites are launched and operational.

(5) Includes 300,000 shares issuable pursuant to stock options that are exercisable within 60 days. Does not include 400,000 shares issuable pursuant to stock options that are not exercisable within 60 days. Pursuant to a voting trust agreement entered into by Darlene Friedland, as grantor, David Margolese, as trustee, and the Company, Mr. Margolese will have the power to vote in his discretion all shares of Common Stock owned or hereafter acquired by Darlene Friedland and certain of her affiliates (currently 2,734,500 shares) for a period of five years commencing on the first to occur of the closing dates of the Stock Offerings or Notes Offering (both as defined below) or the consummation of the Exchange Offer.

(6) Shares are owned by a group including the following: The Robertson Stephens Orphan Fund (which has shared voting and shared dispositive power over 1,069,200 shares), The Robertson Stephens Orphan Offshore Fund (with shared voting and shared dispositive power over 226,800 shares), The Robertson Stephens Global Low-Priced Stock Fund (with shared voting and shared dispositive power over 70,000 shares), The Robertson Stephens & Company Investment Management L.P. (with shared voting and shared dispositive power over 1,366,000 shares), Bayview Investors, LTD (with shared voting and shared dispositive power over 1,069,200 shares), Robertson, Stephens & Company, Incorporated ('RS&Co.') (with shared voting and shared dispositive power over 1,366,000 shares), and RS&Co.'s five shareholders, namely Paul H. Stephens (with sole voting and sole dispositive power over 96,880 shares, and shared voting and shared dispositive power over 1,366,000 shares), Sanford R. Robertson (with sole voting and sole dispositive power over 11,620 shares, and shared voting and shared dispositive power over 1,366,000 shares), Michael G. McCaffery, G. Randy Hecht and Kenneth R. Fitzsimmons (the three of whom have shared voting and shared dispositive power over 1,366,000 shares). Messrs. Stephens, Robertson, McCaffery, Hecht and Fitzsimmons disclaim any beneficial ownership with respect to shares of the Company that RS&Co. may be deemed to beneficially own. The source of the information in this footnote is the Schedule 13D dated August 13, 1997 filed by Robertson, Stephens & Company LLC, et al.

(7) Includes 132,500 shares of Common Stock issuable pursuant to stock options exercisable within 60 days. Does not include 117,500 shares issuable pursuant to stock options that are not exercisable within 60 days of such date.

(8) Includes 195,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days and 7,700 shares of Common

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Stock held in trust for his daughters. Excludes 20,000 shares held by DICA Partners, L.P. of which Mr. Rubinstein is the General Partner.

(9) Includes 60,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days.

(10) Represents 35,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days.

(11) Represents 35,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days.

(12) Does not include 75,000 shares issuable pursuant to stock options that are not exercisable within 60 days.
(footnotes continued on next page)

Powered By EDGAR Online 2002. EDGAR Online, Inc.

(footnotes continued from previous page)

(13) Does not include 75,000 shares issuable pursuant to stock options that are not exercisable within 60 days.

(14) Represents 59,000 shares of Common Stock issuable pursuant to stock options exercisable within 60 days. Does not include 116,000 shares of Common Stock issuable pursuant to stock options not exercisable within 60 days.

(15) Includes 732,500 shares of Common Stock issuable pursuant to stock options exercisable within 60 days. Does not include 857,500 shares issuable pursuant to options that are not exercisable within 60 days.

(16) Estimated solely for the purposes of this table. Such beneficial ownership represents an estimate of the number of shares of Common Stock issuable upon the conversion of shares of 5% Preferred Stock beneficially owned by such person, assuming a conversion date of September 30, 1997 and that all dividends on shares of the 5% Preferred Stock are paid, in lieu of cash, in additional shares of 5% Preferred Stock. The number of shares of Common Stock issuable upon conversion of the shares of the 5% Preferred Stock would equal the liquidation preference of the shares being converted plus any cash payments divided by the then-effective conversion price applicable to the Common Stock (the 'Conversion Price'). The Conversion Price, as of any date up to and including November 15, 1997, is determined in accordance with a formula based on market prices of the Common Stock or actual prices at which the converting holder sold the Common Stock, in either case multiplied by an amount equal to 1 minus an applicable percentage. The actual number of shares of Common Stock upon conversion is subject to adjustment and could be materially less or more than the estimated amount indicated depending upon factors which cannot be predicted by the Company at this time, including, among others, application of the conversion provisions based on market prices prevailing at the actual date of conversion and whether dividends on shares of 5% Preferred Stock are paid in cash or added to the liquidation preference. This presentation is not intended to constitute a prediction as to the future market price of the Common Stock or as to when holders will elect to convert shares of the 5% Preferred Stock into shares of Common Stock. See 'Description of Capital Stock -- 5% Delayed Convertible Preferred Stock.'

(17) Includes 1,137,155 shares of 5% Preferred Stock. The following limitations (the 'Standstill Agreement') apply to Everest Capital International, Ltd. and Everest Capital Fund, L.P. (the 'Everest Funds') and their affiliates, and to certain transferees. Until the date one year after the execution of a certain Commitment Term Sheet between such Everest Funds and the Company, the Everest Funds and their affiliates (i) shall not acquire Common Stock, including by means of conversion of their 5% Preferred Stock or exercise any other right, if, upon such acquisition or exercise, the Everest Funds and their affiliates will have or share, directly or indirectly, voting or investment power over ten percent or more of the Common Stock (for purposes of this clause (i), a right to acquire upon exercise or conversion will not be deemed to confer voting or investment power over the underlying security in the absence of an exercise or conversion), and (ii) shall not sell or otherwise dispose of warrants or 5% Preferred Stock to any purchaser, if, following such sale or disposition, the purchaser and its affiliates would be beneficial owners of ten percent or more of the Common Stock, except for a sale or disposition of warrants or 5% Preferred Stock to a purchaser who, for itself and its affiliates, agrees to be bound by the limitations set forth in the Standstill Agreement.

(18) Includes 1,114,630 shares of 5% Preferred Stock held on its own behalf and on behalf of its Designated A/C High Yield Fund.

(19) Includes 678,350 shares of 5% Preferred Stock held by the Mainstay Funds, on behalf of its High Yield Corporate Bond Fund Series, for which Mackay-Shields Financial Corporation acts as financial advisor. Such Funds and such advisor share investment and voting power with respect to such shares. The Fund has agreed that it will not, following any conversion of its shares, be the beneficial owner of more than 9.99% of the outstanding Common Stock unless it chooses to waive this restriction upon 61 days prior notice to the Company.

(20) Represents 64,757 shares of 5% Preferred Stock beneficially owned by Mr. Ravich, 146,800 shares of 5% Preferred Stock that are issuable pursuant to warrants to be issued to Libra Investments, Inc. ('Libra') and 261,700 shares of 5% Preferred Stock that are issuable pursuant to warrants to be issued to The Ravich Revocable Trust of 1989 (the 'Ravich Trust'). Jess M. Ravich is the Chairman, Chief Executive Officer and the controlling shareholder of Libra and a trustee of the Ravich Trust. Mr Ravich disclaims beneficial ownership in the shares issuable to Libra except to the extent of his ownership interest in Libra. Libra and the Ravich Trust have agreed that they will not, following any conversion of their shares of 5% Preferred Stock, be the beneficial owner of more than 4.99% of the outstanding Common Stock unless they choose to waive this restriction upon 61 days prior notice to the Company. Amount does not include warrants to purchase 60,000 shares of Common Stock to be issued to the Ravich Trust at a purchase price of $50.00 per share. The warrants are exercisable from June 15, 1998 through and including June 15, 2005.

(21) Includes 450,536 shares of 5% Preferred Stock. Grace Brothers, Ltd. has agreed that it will not, following any conversion of its shares, be the beneficial owner of more than 9.99% of the outstanding Common Stock unless it chooses to waive this restriction upon 61 days prior notice to the Company.

(22) Includes 427,020 shares of 5% Preferred. Does not include shares of Common Stock issuable pursuant to warrants to be issued to Everest Capital Fund, L.P. or an affiliate thereof to purchase 1,740,000 shares of Common Stock at a purchase price of $50.00 per share. The warrants are exercisable from June 15, 1998 through and including June 15, 2005. See footnote (17) above for further commentary.

* Less than 1%

(1) This table is based upon information supplied by principal stockholders. Percentage of ownership is based on 5,222,608 shares of 5% Preferred Stock outstanding on September 30, 1997. Unless otherwise indicated, the address of the Beneficial Owner is the Company.

(2) Determined in accordance with Rule 13D-3 under the Securities Exchange Act of 1934, as amended. Under this rule, a person is deemed to be the beneficial owner of securities that can be acquired by such person within 60 days from September 30, 1997 upon the exercise of options, and each beneficial owner's percentage ownership is determined by assuming that options that are held by such person (but not those held by any other person) and that are exercisable within 60 days from September 30, 1997 have been exercised. Unless otherwise noted, the Company believes that all persons named in the table have sole voting and investment power with respect to all shares of 5% Preferred Stock beneficially owned by them.

(3) No executive officer or director of the Company beneficially owns any shares of 5% Preferred Stock.

VOTING TRUST AGREEMENT

The Company is a party to a voting trust agreement dated August 26, 1997 (the 'Voting Trust Agreement') by and among Darlene Friedland, as grantor, David Margolese, as the voting trustee thereunder, and the Company. The following summary description of the Voting Trust Agreement does not purport to be complete and is qualified in its entirety by reference to the complete text thereof, a copy of which has been filed with the SEC as an exhibit to the Issuer Tender Offer Statement on Schedule 13E-4 and incorporated herein by reference.

The Voting Trust Agreement provides for the establishment of a trust (the 'Trust') into which (i) there have been deposited all of the shares of Common Stock owned by Mrs. Friedland on August 26, 1997 and (ii) there shall be deposited any shares of Common Stock acquired by Mrs. Friedland, her spouse Mr. Robert Friedland, any member of either of their immediate families or any entity directly or indirectly controlled by Mrs. Friedland, her spouse or any member of either of their immediate families (the 'Friedland Affiliates') between the date shares are initially deposited and the termination of the Trust. The voting trust will terminate on the fifth anniversary of the initial deposit of shares into the Trust.

DESCRIPTION OF SERIES D PREFERRED STOCK

GENERAL

The Series D Preferred Stock will be issued pursuant to a certificate of designations (the 'Series D Certificate of Designations'). The provisions of the Series D Preferred Stock are substantially similar to those of the 5% Preferred Stock, except that certain milestones, deadlines and other reference dates included in the certificate of designations for the 5% Preferred Stock are, due to the passage of time, not applicable with respect to the Series D Preferred Stock and are, thus, not included in the Series D Certificate of Designations.

The following description of the Series D Preferred Stock set forth herein does not purport to be complete and is subject to, and qualified in its entirety by, the provisions of the Company's Amended and Restated Certificate of Incorporation filed as an exhibit to the Registration Statement, and the Series D Certificate of Designations, the form of which is filed as an exhibit to the Registration Statement and with the Secretary of State of the State of Delaware.

RANK

The Series D Preferred Stock, with respect to dividend rights and rights upon liquidation, winding up or dissolution, ranks (i) senior and prior to the Common Stock and to any other class or series of capital stock hereafter issued by the Company and (ii) junior to the 5% Preferred Stock.

DIVIDENDS

Each share of the Series D Preferred Stock is entitled to receive dividends at the rate of $5.00 per annum, payable semi-annually on April 15 and October 15 of each year, when and as declared by the Board of Directors, in preference and priority to any payment of any dividends on the Common Stock or any other class or series of stock of the Company (except dividends on the 5% Preferred Stock). Such dividends shall accrue on any given share from the date of original issuance of the Series D Preferred Stock and shall accrue from day to day whether or not earned or declared, based on the actual days elapsed and a 360-day year of 12 30-day months. Any dividend payable on the Series D Preferred Stock may be paid, at the option of the Company, either (i) in cash or (ii) by adding the amount of such dividend to the liquidation preference of the Series D Preferred Stock.

LIQUIDATION PREFERENCE

In the event of any liquidation, dissolution or winding up of the Company, either voluntary or involuntary, the holders of the Series D Preferred Stock shall be entitled to receive, prior and in preference to any distribution of any assets of the Company to the holders of any other class or series of shares (except holders of shares of 5% Preferred Stock), the amount of $102.50 per share plus any accrued but unpaid dividends.

REDEMPTION

The Series D Preferred Stock may be redeemed in whole but not in part at a redemption price equal to the sum of the liquidation preference for the Series D Preferred Stock plus any Series D Cash Payments (as defined herein) by the Company at any time, provided, however, that the Company may not exercise its right of redemption unless the average closing price of the Common Stock as reported in The Wall Street Journal for the twenty consecutive trading days prior to the notice of redemption shall equal or exceed $18 per share (subject to adjustment for stock dividends, stock splits and reverse stock splits).

Powered By EDGAR Online 2002. EDGAR Online, Inc.

CONVERSION

The Series D Preferred Stock is convertible into shares of Common Stock at any time, provided that the Company is not obligated to honor any request for conversion of the Series D Preferred Stock at any time to the extent that approval of the FCC of the issuance of shares of Common Stock upon such conversion is or would be required and has not been obtained. If such FCC approval (other than with respect to a conversion resulting in a holder or group of holders holding more than 50% of the voting securities of the Company) has not been obtained, the Company is required, at the request of any holder of Series D Preferred Stock, to repurchase the shares of Series D Preferred Stock held by such holder at a purchase price per share equal to the sum of the liquidation preference of the Series D Preferred Stock plus any Series D Cash Payments due to such holder, divided by 0.72125 (the 'Series D Maximum Price').

The number of shares of Common Stock issuable upon conversion of the shares of the Series D Preferred Stock will equal the liquidation preference of the shares being converted plus any Series D Cash Payments divided by the then-effective conversion price applicable to the Common Stock (as defined below, the 'Series D Preferred Conversion Price').

The Company must make a cash payment in an amount per share equal to 3% of the liquidation preference of the shares of Series D Preferred Stock per month to each holder if the Company fails (i) to honor any request for conversion of the Series D Preferred Stock as permitted by the terms and conditions of the Series D Preferred Stock or (ii) to maintain the listing of the Common Stock on the Nasdaq SmallCap Market, the Nasdaq National Market, the New York Stock Exchange or the American Stock Exchange. In addition, if the Company fails at any time to reserve a sufficient number of shares of Common Stock for issuance upon conversion of the shares of Series D Preferred Stock, it must make a cash payment per share equal to 3% of the liquidation preference of the Series D Preferred Stock (proportionately reduced by the amount of shares that are so authorized and reserved) per month to the holders of the shares of Series D Preferred Stock. The cash payments referred to in this paragraph are, collectively, 'Series D Cash Payments.'

'Series D Preferred Conversion Price' equals 0.72125 multiplied by the lowest of (i) the average of the daily means between the low trading price of the Common Stock and the closing price of the Common Stock for all the trading days between October 15, 1997 and November 15, 1997, (ii) the average of the daily means between the low trading price of the Common Stock and the closing price of the Common Stock during the three consecutive trading days immediately preceding the date of conversion and (iii) the weighted-average (based upon the number of shares sold) of the actual selling price (but not less than the low trading price on the date of such trade as reported on the principal market for the Common Stock), at which the holder shall have sold shares of Common Stock received or receivable upon conversion of the Series D Preferred Stock, reduced by any trading commissions or underwriting spreads paid by such holder, as certified to the Company by such holder and subject to the meeting of certain notice requirements by such holder.

In the event that during any period of consecutive trading days provided for above, the Company shall declare or pay any dividend on the Common Stock payable in Common Stock or in rights to acquire Common Stock, or shall effect a stock split or reverse stock split, or a combination, consolidation or reclassification of the Common Stock, then the Series D Preferred Conversion Price shall be proportionately decreased or increased, as appropriate, to give effect to such event.

FORCED CONVERSION

After April 15, 2000, the Company may require the holders of the Series D Preferred Stock to convert such shares into Common Stock at the then applicable Series D Preferred Conversion Price and all Series D Cash Payments due on a date specified in the notice of forced conversion. However, the Company will not have the right to require such conversion if the Company has commenced bankruptcy proceedings, has ceased operations or is in default for money borrowed in excess of $50 million.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

REQUIRED REDEMPTION

The Company must reserve and keep available out of its authorized but unissued shares of Common Stock, solely for the purpose of effecting the conversion of the Series D Preferred Stock, at least such number of shares of its Common Stock that is the greater of (i) ten million shares and (ii) 1.5 times the number as shall from time to time be sufficient to effect the conversion of all outstanding shares of the Series D Preferred Stock. If the Company does not have sufficient shares of Common Stock reserved to effect the conversion of all outstanding shares of Series D Preferred Stock, then at any time at the request of any holder of shares of the Series D Preferred Stock, the Company must purchase from such holder the number of shares of Series D Preferred Stock equal to such holder's pro-rata share of the number of shares of Series D Preferred Stock that would not be able to be converted due to an insufficient number of shares of Common Stock reserved for such purpose at the Series D Maximum Price.

In addition, if, prior to April 21, 1998, the FCC awards more than two licenses (including any license awarded to the Company) permitting the licensee to provide satellite digital audio radio services and more than two licensees (including the Company) commence or announce an intention to commence satellite digital audio radio services, then after issuance of the Series D Preferred Stock, upon the request of the holders of more than one-third of the outstanding shares of the Series D Preferred Stock, the Company must purchase one-half of the shares of the Series D Preferred Stock held by each requesting shareholder at the Series D Maximum Price.

If a Reorganization occurs or is proposed, each holder of the Series D Preferred Stock may require the Company to redeem the Series D Preferred Stock at the Series D Maximum Price. A 'Reorganization' is defined with respect to the Series D Preferred Stock as any reorganization or any reclassification of the Common Stock or other capital stock of the Company or any consolidation or merger of the Company with or into any other corporation or corporations or a sale of all or substantially all of the assets of the Company to any other person. If the holder of Series D Preferred Stock chooses not to require the Company to redeem such holder's shares, the shares will be convertible into the number of shares of stock or other securities or property (including cash) to which a holder of the number of shares of Common Stock deliverable upon conversion of such share of Series D Preferred Stock not so redeemed would have been entitled upon the Reorganization.

VOTING RIGHTS

The Company shall not undertake the following actions without the consent of the holders of a majority of the Series D Preferred Stock: (i) modify its Certificate of Incorporation or Bylaws so as to amend or change any of the rights, preferences or privileges of the Series D Preferred Stock; or (ii) purchase or otherwise acquire for value any Common Stock or other equity security of the Company or any non-wholly-owned subsidiary thereof not held by the Company or any wholly-owned subsidiary while there exists any arrearage in the payment of cumulative dividends on the Series D Preferred Stock or any Series D Cash Payments due or the liquidation preference of the Series D Preferred Stock exceeds $102.50. The Company shall not, in connection with a repurchase of any shares of Series D Preferred Stock undertake any of the following actions without the consent of all holders of the Series D Preferred Stock: (i) reduce the amount of Series D Preferred Stock whose holders must consent to an amendment or waiver, (ii) reduce the rate of, or change the time for payment of, dividends on the Series D Preferred Stock or alter the liquidation preference thereof or (iii) alter the conversion provisions with respect to the Series D Preferred Stock.

Other than the consent rights described above, holders of the Series D Preferred Stock have no voting rights.

ADDITIONAL FINANCINGS

The Series D Certificate of Designations prohibits the Corporation from undertaking to conduct any debt or equity financing that is not either pari passu or junior, in seniority, structure and maturity, to the Series D Preferred Stock.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

The Voting Trust Agreement does not restrict the ability of Mrs. Friedland or any of the Friedland Affiliates to sell, assign, transfer or pledge any of the shares deposited into the Trust, nor does it prohibit Mrs. Friedland or the Friedland Affiliates from purchasing additional shares of Common Stock, provided those shares become subject to the Trust, as described above.

Under the Voting Trust Agreement, the trustee has the power to vote shares held in the Trust in relation to any matter upon which the holders of such stock would have a right to vote, including without limitation the election of directors. For so long as David Margolese remains trustee of the Trust, he may exercise such voting rights in his discretion. Any successor trustee or trustees of the Trust must vote as follows: (i) on the election of directors, the trustee(s) must vote the entire number of shares held by the Trust, with the number of shares voted for each director (or nominee for director) determined by multiplying the total number of votes held by the Trust by a fraction, the numerator of which is the number of votes cast for such person by other stockholders of the Company and the denominator of which is the sum of the total number of votes represented by all shares casting any votes in the election of directors; (ii) if the matter under Delaware law or the Certificate of Incorporation or the Bylaws of the Company requires at least an absolute majority of all outstanding shares of Common Stock of the Company in order to be approved, the trustee(s) must vote all of the shares in the Trust in the same manner as the majority of all votes that are cast for or against the matter by all other stockholders of the Company; and (iii) on all other matters, including without limitation any amendment of the Voting Trust Agreement for which a stockholder vote is required, the trustee(s) must vote all of the shares in the Trust for or against the matter in the same manner as all votes that are cast for or against the matter by all other stockholders of the Company.

The Voting Trust Agreement may not be amended without the prior written consent of the Company, acting by unanimous vote of the Board of Directors, and approval of the Company's stockholders, acting by the affirmative vote of two-thirds of the total voting power of the Company, except in certain limited circumstances where amendments to the Voting Trust Agreement are required to comply with applicable law.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

ANTI-DILUTION

The Series D Preferred Stock is at all times subject to customary anti-dilution adjustments for events such as stock splits, stock dividends, reorganizations and certain mergers affecting the Common Stock.

DESCRIPTION OF CERTAIN INDEBTEDNESS

SENIOR SECURED DISCOUNT NOTES DUE 2007

The Notes are expected to have the following terms when issued. The Notes will mature in 2007, are expected to be issued, together with the Warrants, for approximately $150 million aggregate gross proceeds and will be secured obligations of the Company, secured by a pledge of the stock of Satellite CD Radio, Inc. The Notes will accrete the original issue discount for five years at a rate to be determined, and thereafter will bear interest at the same rate, payable in cash semiannually in arrears. The Indenture will not provide for a sinking fund. The Notes will be subject to redemption at any time on or after a date to be determined in 2002, at the option of the Company, in whole or in part, in amounts of principal at maturity of $1,000 or an integral multiple of $1,000 at declining redemption prices set forth in the Indenture. Notwithstanding the foregoing, during the first 36 months after the date of the Indenture, the Company will be permitted to redeem up to 33% of the aggregate principal amount at maturity of the Notes with the net proceeds of any Public Equity Offerings (as defined in the Indenture) at a redemption price to be determined.

Upon a change of control of the Company, or in the event of asset sales in certain circumstances, the Company will be required by the terms of the Indenture to make an offer to purchase the outstanding Notes at a purchase price equal to, or at a premium to, the accreted value thereof.

The indebtedness of the Company evidenced by the Notes will rank pari passu in right of payment with all other existing and future unsubordinated indebtedness of the Company and senior in right of payment to all existing and future obligations of the Company expressly subordinated in right of payment to the Notes. The Indenture will contain a number of covenants restricting the operations of the Company and its subsidiaries, including those restricting the incurrence of indebtedness; the making of restricted payments (in the form of the declaration or payment of certain dividends or distributions, the purchase, redemption or other acquisition of any capital stock of the Company, the voluntary prepayment of pari passu or subordinated indebtedness and the making of certain investments, loans and advances); transactions with stockholders and affiliates; the incurrence of liens; sale-leaseback

Powered By EDGAR Online 2002. EDGAR Online, Inc.

transactions; the transfer of assets; issuances and sales of capital stock of subsidiaries; the incurrence of guarantees by subsidiaries; dividend and other payment restrictions affecting subsidiaries; and consolidation, merger or sale of substantially all of the Company's assets and requiring the purchase of Notes, at the option of the holder, upon the occurrence of a change in control.

The events of default under the Indenture will include provisions that are typical of senior debt financings, including a cross-acceleration to a default by the Company or any material subsidiary on any indebtedness that has an aggregate principal amount in excess of certain levels. Upon the occurrence of such an event of default, the trustee or the holders of not less than 25% in principal amount at maturity of the outstanding Notes may immediately accelerate the maturity of all the Notes as provided in the Indenture.

WARRANTS TO PURCHASE NOTES

The Warrants are expected to have the following terms when issued. From and after the date of issuance until the expiration of the Warrants in 2007, each Warrant will entitle the holder thereof to acquire a to-be determined principal amount at maturity of Notes for an exercise price of $0.01. The Notes issuable upon exercise of the Warrants will be the same class as the Notes issued in the Units Offerings. Holders of Warrants will not, by virtue of being such holders, have any rights of holders of Notes.

VENDOR FINANCING

On July 22, 1997, the Company entered into the AEF Agreements with AEF to finance approximately $105 million of the estimated $176 million price of the launch services to be provided by Arianespace for the Company's two satellites. Under the AEF Agreements, the Company is able to borrow funds to meet the progress payments due to Arianespace for the construction of each launch vehicle and other launch costs (the 'Tranche A Loans'). The obligation of AEF to make the Tranche A Loans is subject to the Company's satisfaction of certain conditions precedent, and the Company has comfirmed with AEF that its issuance of the Notes will not violate such conditions. Interest on the Tranche A Loans will be capitalized and will accrue at a rate of 3% per annum above the rate at which dollar deposits are offered in the London interbank market for three months or, during a certain time period following the Conversion Commitment Date (defined below), one month (the 'Interest Basis'). Unless the Company satisfies the conditions for conversion of the Tranche A Loans to long-term loans, the Company will be required to repay the Tranche A Loans in full, together with accrued interest and all fees and other amounts due, approximately three months before the applicable launch date, which will be prior to the time CD Radio commences commercial operations. There can be no assurance that the Company will have sufficient funds to make such repayment.

If the Company satisfies certain conditions set forth in the AEF Agreements and otherwise meets the requirements of AEF by a specified date prior to the applicable launch (the 'Conversion Commitment Date'), Tranche A Loans representing up to 60% of the launch costs may be converted ('Conversion') on the launch date into term loans (the 'Tranche B Loans') which will amortize over a period not to exceed seven years. However, not more than $80 million of the Tranche A Loans may be converted in the aggregate under the AEF Agreements.

Prior to Conversion, based on documents and materials to be submitted by the Company, including its business plan, AEF will place the Company into one of three pre-established borrower categories for the purpose of determining the conditions to Conversion that the Company must satisfy. It is anticipated that the Company will be placed in the category for which the conditions to Conversion are the most restrictive ('Category 3'). If the Company is placed in Category 3, AEF, at its discretion, may impose conditions to Conversion and require covenants in addition to those initially set forth in AEF Agreements. There can be no assurance that the Company will be able to satisfy the conditions to Conversion.

Interest on the Tranche B Loans will accrue at a rate of 3.5% per annum above the Interest Basis and will be payable quarterly (or, in certain time periods, monthly) in arrears. Any amounts due and

Powered By EDGAR Online 2002. EDGAR Online, Inc.

payable by the Company which are not paid on their due date will accrue interest at a default rate of 2% above the interest rate otherwise applicable at such time.

The Company may, at any time, prepay the Tranche A Loans or the Tranche B Loans by providing prior irrevocable written notice to AEF. The Company will be required to prepay the loans in full, together with accrued interest and all fees and other amounts due, if certain events occur, including the following:
(i) any of the applicable AEF Agreements, the Launch Services Agreement or the related Multiparty Agreement among the Company, AEF and Arianespace is terminated; (ii) following a launch failure, the Company does not request a replacement launch within 180 days after the original launch date or a replacement launch is not accomplished within two years following the original launch date; (iii) an initial launch has not occurred by April 12, 2002; (iv) a replacement launch results in a launch failure; or (v) the satellite fails to enter commercial service within eight months following launch. The Company also will be required to make a prepayment of the loans in proportion to any prepayment (whether voluntary or mandatory) made by the Company under any other financing agreement relating to the construction, launch and operation of the satellites. Following Conversion, the Company will be required to apply a percentage of its excess cash flow (cash flow not needed to service debt, pay taxes or fund capital expenditures) to prepay the Tranche B Loans on certain specified dates, with the percentage so applied decreasing as the outstanding principal amount of the Tranche B loan decreases.

If Conversion occurs, the Company will not be permitted to pay any dividends on any shares of its stock or purchase any capital stock or other equity interest in, or make any loan to or investment in, any of its affiliates unless the aggregate amount of all such payments for the applicable time period is less than or equal to the amount of the Company's excess cash flow for such period minus the amounts needed to make required prepayments of the Tranche B loans and not used during such period to make loans, investments, capital expenditures, scheduled payments on subordinated indebtedness or other purposes.

If Conversion occurs, it is anticipated that the Tranche B Loans will be amortized as set forth in the following schedule, with the final payment of principal to be made no later than April 14, 2009 (the 'maturity date'):

QUARTERLY PERIOD FOLLOWING LAUNCH DATE	PERCENTAGE OF PRINCIPAL AMOUNT OF TRANCHE B LOANS TO BE REPAID PER QUARTER
1 and 2	No Repayment
3 and 4	1.0%
5 through 8	2.0%
9 through 12	2.5%
13 through maturity date	5.0%

However, based on the business plan and other documents to be submitted by the Company during the review process required for Conversion, AEF may impose a shorter amortization schedule for the Tranche B Loans.

If AEF determines that the Tranche A Loans are eligible for Conversion, the Company also will be prohibited from changing its capital structure (including the terms of its outstanding stock or other equity interests), permitting any change in the composition of its ownership, or changing its organizational documents, if such change could reasonably be expected to have a material adverse effect on the Company, its business, assets or financial condition or its ability to perform its obligations under any agreements relating to the financing or the value of the Collateral (as defined below) or the license granted under the Collateral Documents (as defined below). The Company will also be prohibited from merging, consolidating or combining with any other entity.

As a condition to Conversion, the Company will be required to create, in favor of a security agent (the 'Security Agent') (and on behalf of AEF, a bank group providing funding to AEF to on-lend to the Company and any other lender to the project), liens on specified assets of the Company, including the satellites, the Company's interests in gateway, ground reception and similar facilities and the FCC License (the 'Collateral'). In addition, if, as expected, the Company is determined to be in Category 3, it will be required to provide a lien on the Common Stock of Satellite CD Radio, Inc. In connection with such liens, the Company must execute certain agreements (the 'Collateral Documents'), including an assignment and security agreement granting the liens to the security agent, a mortgage on any tracking, telemetry, control and monitoring equipment owned by the

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Company and an intercreditor agreement (the 'Intercreditor Agreement'). All obligations of the Company under the AEF Agreements will be secured by such liens from and following the date of execution of the Collateral Documents, subject to the condition that neither AEF nor any member of the bank group providing funds to AEF may direct the security agent to exercise rights with respect to the Collateral prior to Conversion. If AEF does not approve the pledge of stock of CD Radio Inc. securing the Notes, the Company may be precluded from converting the Tranche A Loans. From and following the date of execution of any Collateral Document, the Company will be prohibited from creating or incurring any lien on the Collateral other than liens in favor of AEF (or the other parties to the Intercreditor Agreement) and certain specified permitted liens. From such date, the Company will be prohibited from selling or transferring any Collateral having an aggregate fair market value in excess of $1.0 million. In addition, the Indenture permits indebtedness under the AEF Agreements to be secured on a pari passu basis with the Notes by a first priority security interest in the Pledged Stock.

Following the Conversion Commitment Date, neither the Company nor its subsidiaries may sell or transfer any assets (other than permitted dispositions of the Collateral), except for (i) sales of inventory in the ordinary course of business, (ii) the trade-in of machinery or equipment in connection with the acquisition of similar machinery or equipment, (iii) the sale of obsolete or worn-out property having a value not exceeding $1.5 million in the aggregate in any fiscal year and (iv) sales or transfers of assets that (x) do not exceed in the aggregate 2% of the Company's total assets in any fiscal year, (y) together with all prior permitted sales or transfers do not exceed in the aggregate 5% of the Company's total assets at the time of such action or (z) do not have a fair market value in excess of $1.0 million per item.

Commencing on the Conversion Commitment Date, prior to incurring additional indebtedness in an aggregate principal amount of $10.0 million or more, the Company will be required to deliver to AEF a certificate stating that no default will occur as a result of the incurrence of such indebtedness. From and after Conversion, the Company also will be required to maintain certain financial ratios relating to its ability to service debt. If the Company is placed in Category 3 (as anticipated), it will be in breach of the AEF Agreements if its ratio of earnings before interest, tax, depreciation and amortization ('EBITDA') to total interest accrued or payable for any period of four fiscal quarters ending on the relevant date of calculation is less than: (i) at any time after the first anniversary and on or prior to the second anniversary of Conversion, 1.0 to 1, (ii) thereafter, through and including the third anniversary of Conversion, 1.5 to 1, (iii) thereafter, through and including the fourth anniversary of Conversion, 2.0 to 1, (iv) thereafter, through and including the fifth anniversary of Conversion, 2.5 to 1, and (v) any time thereafter, 3.0 to 1.

The Company will also be prohibited from permitting its ratio of EBITDA to the sum of (a) total interest accrued or payable and (b) scheduled principal payments for any period of four fiscal quarters ending on the relevant date of calculation to be less than: (i) at any time after the first anniversary and on or prior to the third anniversary of Conversion, 1.0 to 1, (ii) thereafter, through and including the fourth anniversary of Conversion, 1.5 to 1, (iii) thereafter, through and including the fifth anniversary of Conversion, 2.0 to 1, and (iv) at any time thereafter, 2.5 to 1.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

In addition, the Company may not permit its ratio of indebtedness to EBITDA for the four fiscal quarters ending on the relevant calculation date to exceed:
(i) at any time after the first anniversary and on or prior to the second anniversary of Conversion, 6.0 to 1, (ii) thereafter, through and including the third anniversary of Conversion, 5.5 to 1, (iii) thereafter, through and including the fourth anniversary of Conversion, 5.0 to 1, (iv) thereafter, through and including the fifth anniversary of Conversion, 4.0 to 1, and (v) at any time thereafter, 3.0 to 1.

From and following the Conversion Commitment Date, the Company may not make any advances or loans other than (i) extensions of credit for a period not exceeding ninety days in the nature of accounts receivable or notes receivable arising from the sale or lease of goods or services in the ordinary course of business, and (ii) if no default exists or would result therefrom, (x) loans or extensions of credit in the ordinary course of business to affiliates, not exceeding $2.5 million in an aggregate principal amount outstanding at any one time and (y) loans or extension of credit to the Company's key management employees, not exceeding $1.25 million in an aggregate principal amount outstanding at any one time.

Neither the Company nor any of its subsidiaries may make any payments in respect of any indebtedness subordinated to the prior payment of all amounts payable by the Company under any of the AEF Agreements, except for regularly scheduled payments of principal and interest required by the instruments evidencing such subordinated indebtedness.

A default under either of the AEF Agreements, which includes the non-payment of principal and interest and breaches of covenants, will constitute a default under the other AEF Agreement. In addition, the AEF Agreements will be cross-defaulted to a default by the Company under any other financing agreement relating to the project or any other agreement or instrument relating to indebtedness in an aggregate principal amount exceeding five million dollars. If the Company is subject to more restrictive cross-default provisions under any other agreement providing for long-term, asset-based financing, those more restrictive cross-default provisions will be deemed to be set forth in the AEF Agreements. Upon the occurrence of an event of default, AEF may terminate all commitments to make advances to the Company or convert loans, declare all unpaid principal and interest immediately due and payable, and exercise its rights with respect to any security.

Pursuant to a Multiparty Agreement to be executed among the Company, AEF and Arianespace in connection with the AEF Agreements, if the Company is unable to obtain sufficient financing to complete the construction and launch of the satellites, and if the Company terminates the Arianespace Launch Contract, the Company will be required to pay Arianespace a termination fee ranging from 5% to 40% of the launch services price, based on the proximity of the date of termination to the scheduled launch date. The termination fee will be payable prior to the time the Company commences commercial operations and there can be no assurance that the Company will have sufficient funds to pay this fee.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

DESCRIPTION OF CAPITAL STOCK

The Company's Amended and Restated Certificate of Incorporation provides for authorized capital of 250,000,000 shares, consisting of 200,000,000 shares of Common Stock, par value $0.001 per share, and 50,000,000 shares of Preferred Stock, par value $0.001 per share.

COMMON STOCK

As of September 30, 1997, the Company had 12,577,884 shares of Common Stock outstanding held of record by 105 persons, and had reserved for issuance 3,763,000 shares of Common Stock with respect to outstanding options and warrants, including 1,800,000 shares pursuant to warrants exercisable at $50.00 per share and expiring in 2005.

Holders of the Company's Common Stock are entitled to cast one vote for each share held of record on all matters acted upon at any stockholders' meeting and to dividends if, as and when declared by the Board of Directors out of funds legally available therefor. There are no cumulative voting rights. In the event of any liquidation, dissolution or winding up of the Company, each holder of the Company's Common Stock will be entitled to participate, subject to the rights of any outstanding Preferred Stock, ratably in all assets of the Company remaining after payment of liabilities. Holders of the Company's Common Stock have no preemptive or conversion rights. All outstanding shares of

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Common Stock are, and the shares of Common Stock offered hereby will be when issued against the consideration set forth in this prospectus, fully paid and non-assessable.

The Company's Common Stock is quoted on the Nasdaq National Market under the symbol 'CDRD.'

PREFERRED STOCK

The Board of Directors has the authority to issue shares of Preferred Stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof including dividend rights, conversion rights, voting rights, redemption rights, liquidation preferences and the number of shares constituting any series, without any further vote or action by the stockholders. The issuance of Preferred Stock with voting and conversion rights may adversely affect the voting power of the holders of Common Stock. In addition, because the terms of such Preferred Stock may be fixed by the Board of Directors without stockholder action, the Preferred Stock could be designated and issued quickly in the event the Company determines to issue preferred stock to raise additional equity capital. The Preferred Stock could also be designated and issued with terms calculated to deter, delay or defeat a proposed takeover of the Company, or with terms making the removal of management more difficult. Under certain circumstances, this could have the effect of decreasing the market price of the Common Stock. Otherwise, the Company currently has no plans to issue Preferred Stock.

5% DELAYED CONVERTIBLE PREFERRED STOCK

On March 19, 1997, the Board of Directors authorized the issuance of up to 8,000,000 shares of the 5% Preferred Stock. As of September 30, 1997, there were 5,222,608 shares of the 5% Preferred Stock outstanding held of record by 37 entities. In the Exchange Offer, all of the outstanding shares of 5% Preferred Stock were tendered for 1,846,799 shares of Series C Preferred Stock. The Company has agreed to grant a warrant to purchase an additional 486,000 shares of 5% Preferred Stock at a price of $25.00 per share to Libra Investments, Inc. ('Libra'), the original placement agent for the 5% Preferred Stock. Following consummation of the Exchange Offer, the Company will instead grant Libra a warrant to purchase 121,500 shares of Series C Preferred Stock at a price of $100.00 per share.

10 1/2% SERIES C CONVERTIBLE PREFERRED STOCK

On October 13, 1997, the Board of Directors authorized the issuance of up to 7,000,000 shares of the 10 1/2% Series C Convertible Preferred Stock (the 'Series C Preferred Stock'). In the Exchange Offer, all of the outstanding shares of 5% Preferred Stock were tendered for 1,846,799 shares of Series C Preferred Stock.

Dividends. The annual dividend rate per share of the Series C Preferred Stock will be an amount equal to 10.5% of the sum of (x) the Liquidation Preference (as defined herein) of the Series C Preferred Stock and (y) all accrued and unpaid dividends, if any, whether or not declared, from the date of issuance of the shares of Series C Preferred Stock to the applicable dividend payment date. Dividends on the shares of Series C Preferred Stock will be cumulative, accruing quarterly and, when and as declared by the Board of Directors of the Company, will be payable quarterly initially on November 15, 2002 (the 'First Scheduled Dividend Payment Date') and on February 15, May 15, August 15 and November 15 of each year (each, a 'Dividend Payment Date') in each year thereafter. In addition, accrued dividends on the shares of Series C Preferred Stock will be paid on the redemption date of any share of Series C Preferred Stock redeemed by the Company, on the purchase date of any share of Series C Preferred Stock purchased by the Company pursuant to an Offer to Purchase (as defined herein) or on the conversion date of any share of Series C Preferred Stock converted into shares of Common Stock on or after the First Scheduled Dividend Payment Date. No accrued dividends will be paid on any shares of Series C Preferred Stock that are converted by the holders thereof prior to the First Scheduled Dividend Payment Date, unless such shares of Series C Preferred Stock are converted on or prior to a redemption date by holders thereof electing to convert such shares after having received a notice of redemption for such shares. Dividends may be paid in cash, shares of Common Stock or any combination thereof, at the option of the Company. Common Stock issued to pay dividends will be valued at the average closing price of the Common Stock as reported in The Wall

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Street Journal for the 20 consecutive trading days immediately preceding the date of such payment. Dividends with respect to any share of Series C Preferred Stock will accumulate from November 15, 1997.

If and so long as any full cumulative dividends payable on the shares of Series C Preferred Stock in respect of all prior dividend periods will not have been paid or set apart for payment, the Company will not pay any dividends or make any distributions of assets on or redeem, purchase or otherwise acquire for consideration shares of capital stock of the Company ranking junior to or on a par with the Series C Preferred Stock in payment of dividends.

Redemption. Except as described below, the shares of Series C Preferred Stock may not be redeemed by the Company at its option prior to November 15, 2002. From and after November 15, 1999 and prior to November 15, 2002, the Company may redeem shares of Series C Preferred Stock, in whole or in part, at any time at a redemption price of 100% of the Liquidation Preference of the shares of Series C Preferred Stock redeemed, plus accrued and unpaid dividends, if any, whether or not declared, to the redemption date, if the average closing price of the Common Stock as reported in The Wall Street Journal for the 20 consecutive trading days prior to the notice of redemption thereof equals or exceeds $31.50 per share (subject to adjustments). From and after November 15, 2002, the Company may redeem shares of Series C Preferred Stock, in whole or in part, at the following redemption prices per share, expressed as percentages of the Liquidation Preference thereof, if redeemed during the 12-month period beginning November 15 in the year indicated below:

YEAR	PERCENTAGE
2002	105.25%
2003	103.50
2004	101.75
2005 and thereafter	100.00

plus, in each case, accrued and unpaid dividends, if any, to the redemption date.

Following the issuance of the Series C Preferred Stock, within 30 days of the closing date of the first offering by the Company of debt securities in excess of $50,000,000 pursuant to a registration statement filed with the Commission under the Securities Act or pursuant to Rule 144A under the Securities Act, the Company may redeem up to 50% of the outstanding shares of Series C Preferred Stock at a redemption price of 100% of the Liquidation Preference of the shares of Series C Preferred Stock redeemed, plus accrued and unpaid dividends, if any, whether or not declared, to the redemption date. On November 15, 2012 (the 'Mandatory Redemption Date'), the Company is required to redeem all outstanding shares of Series C Preferred Stock at a redemption price of 100% of the Liquidation Preference of the shares of Series C Preferred Stock, plus accrued and unpaid dividends, if any, whether or not declared, to the Mandatory Redemption Date.

The amount paid to the holders of shares of Series C Preferred Stock upon redemption which is allocable to the Liquidation Preference of the shares of Series C Preferred Stock shall be paid in cash and the amount of any accrued and unpaid dividends to be paid on the shares of Series C Preferred Stock redeemed shall be paid in cash, shares of Common Stock or any combination thereof at the option of the Company.

Change in Control. Upon the occurrence of a Change in Control, the Company must make an offer to purchase (an 'Offer to Purchase') all then outstanding shares of Series C Preferred Stock at a purchase price (the 'Change in Control Purchase Price') in cash equal to 101% of their Liquidation Preference, plus all accrued and unpaid dividends (paid in cash), if any, whether or not declared, to the date such shares are purchased (the 'Change in Control Purchase Date'). A 'Change in Control' is defined as the occurrence of any of the following events:
(a) any 'person' or 'group' (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act), other than Loral Space, Arianespace or David Margolese is or becomes the 'beneficial owner' (as defined in Rules 13d-3 and 13d-5 under the Exchange Act, except that a person shall be deemed to have 'beneficial ownership' of all securities that such person has the right to acquire, whether such right is exercisable immediately or only after the passage of time), directly or indirectly, of more than 40% of the total outstanding voting stock of the Company; (b) the Company consolidates with, or merges with or into another person or conveys,

Powered By EDGAR Online 2002. EDGAR Online, Inc.

transfers, leases or otherwise disposes of all or substantially all of its assets to any person, or any person consolidates with or merges with or into the Company, in any such event, pursuant to a transaction in which the outstanding voting stock of the Company is converted into or exchanged for cash, securities or other property, other than, at all times when the Notes are outstanding, those transactions that are not deemed a 'Change of Control' under the terms of the Indenture; (c) during any consecutive two-year period, individuals who at the beginning of such period constituted the Board of Directors of the Company (together with any new directors whose election to such Board of Directors, or whose nomination for election by the stockholders of the Company, was approved by a vote of 66 2/3% of the directors then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of the Board of Directors of the Company then in office; or (d) the Company is liquidated or dissolved or a special resolution is passed by the shareholders of the Company approving the plan of liquidation or dissolution, other than, at all times when the Notes are outstanding, those transactions that are not deemed a 'Change of Control' under the terms of the Indenture.

Conversion. Each share of Series C Preferred Stock may be converted at any time, at the option of the holder, unless previously redeemed, into a number of shares of Common Stock calculated by dividing the Liquidation Preference of the Series C Preferred Stock (without accrued and unpaid dividends) by a conversion price (the 'Conversion Price') equal to (x) prior to the date of the first underwritten public offering of the Company's Common Stock following the initial issuance of the Series C Preferred Stock, $21.00 and (y) thereafter, the lower of $21.00 per share or the issue price per share of the Common Stock in such underwritten public offering. The Conversion Price will not be adjusted at any time for accrued and unpaid dividends on the shares of Series C Preferred Stock, but will be subject to adjustment for the occurrence of certain corporate events affecting the Common Stock. Upon conversion, at any time after the First Scheduled Dividend Payment Date, holders of the Series C Preferred Stock will be entitled to receive all accrued and unpaid dividends upon the shares of Series C Preferred Stock converted payable in cash or shares of Common Stock, or a combination thereof, at the option of the Company. No accrued dividends will be paid on any shares of Series C Preferred Stock that are converted by the holders thereof prior to the First Scheduled Dividend Payment Date, unless such shares of Series C Preferred Stock are converted prior to a redemption date by holders thereof electing to convert such shares after having received a notice of redemption for such shares. Common Stock issued to pay dividends will be valued at the average closing price of the Common Stock as reported in The Wall Street Journal for the 20 consecutive trading days immediately preceding the date of such payment.

The Conversion Price for shares of Series C Preferred Stock is subject to adjustment in certain events, including (i) dividends and other distributions payable in Common Stock on any class of capital stock of the Company, (ii) the issuance to all holders of Common Stock of rights or warrants entitling them to subscribe for or purchase Common Stock at less than fair market value, (iii) subdivisions, combinations and reclassifications of the Common Stock, (iv) distributions to all holders of Common Stock of evidences of indebtedness of the Company or assets and (v) a consolidation or merger to which the Company is a party or the sale or transfer of all or substantially all of the assets of the Company.

Automatic Exchange. If the Company has not consummated one or more Qualifying Offerings yielding gross proceeds in an aggregate cash amount of at least $100 million by May 15, 1998 (the 'Automatic Exchange Date'), all outstanding shares of Series C Preferred Stock shall be exchanged automatically (the 'Automatic Exchange') for shares of the Series D Preferred Stock, with an initial liquidation preference of $102.50 on the Automatic Exchange Date, at an exchange rate of one share of Series D Preferred Stock for each $100 of Automatic Exchange Rate Liquidation Preference represented by the shares of Series C Preferred Stock held by any holder. The 'Automatic Exchange Rate Liquidation Preference' for the shares of Series C Preferred Stock shall be $69.6145 per share (the amount determined by multiplying (x) the Liquidation Preference for the Series C Preferred Stock (without accrued and unpaid dividends thereon), by (y) 0.696145.) The Company will pay cash to holders of Series C Preferred Stock in lieu of issuing fractional shares of Series D Preferred Stock in the Automatic Exchange. Although holders of Series C Preferred Stock will not be entitled to receive accrued dividends thereon on or after the Automatic Exchange Date, shares of Series D Preferred

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Stock will be issued with an initial liquidation preference equal to $102.50. For a description of the terms, preferences and rights of the Series D Preferred Stock, see ' -- Series D Preferred Stock.'

In the event of an Automatic Exchange, the Company will give written notice to the holders of record on the Automatic Exchange Date of shares of Series C Preferred Stock at their addresses appearing on the books of the Company that the shares of Series C Preferred Stock have been automatically exchanged into shares of Series D Preferred Stock. The notice of exchange will specify the number of shares of Series D Preferred Stock into which the shares of Series C Preferred Stock have been automatically exchanged and the place where the holders are to deliver the certificates evidencing shares of Series C Preferred Stock in exchange for certificates evidencing shares of Series D Preferred Stock. Thereafter, the holders will surrender their certificates evidencing shares of Series C Preferred Stock at the place designated in the notice of exchange. As promptly as practicable after receipt of such certificates, the Company will issue and deliver to each holder a certificate or certificates for the number of shares of Series D Preferred Stock to which such holder is entitled. Shares of Series D Preferred Stock will be deemed to have been exchanged immediately prior to the close of business on the Automatic Exchange Date and the holders of the Series C Preferred Stock of record on such date shall be treated for all purposes as the record holders of the Series D Preferred Stock at such time.

Voting Rights. Other than the consent rights described below with respect to certain corporate actions, and except as otherwise provided by applicable law, holders of shares of Series C Preferred Stock will have no voting rights. Consent of the holders of a majority of the outstanding shares of Series C Preferred Stock will be required before the Company may take certain corporate actions, including (i) any amendment, alteration or repeal of any of the provisions of the Company's Certificate of Incorporation or Bylaws which affects adversely the voting powers, rights or preferences of the holders of the shares of Series C Preferred Stock, (ii) the authorization or creation of, or the increase in authorized amount of, any shares of any class or series of equity securities that ranks senior to or on a parity with the Series C Preferred Stock with respect to dividend rights and rights upon liquidation, winding up or dissolution and (iii) the merger or consolidation of the Company with or into any other entity, unless the resulting corporation will thereafter have no class or series of shares and no other securities either authorized or outstanding ranking prior to, or on a parity with, the Series C Preferred Stock in the payment of dividends or the distribution of its assets on liquidation, dissolution or winding up. In addition, in the event that (i) after the First Scheduled Dividend Payment Date, dividends payable on the shares of Series C Preferred Stock shall be in arrears in an aggregate amount equal to at least six quarterly dividend payments, (ii) the Company fails to redeem all of the outstanding shares of Series C Preferred Stock on the Mandatory Redemption Date, or (iii) the Company fails to make an Offer to Purchase upon a Change in Control, the holders of a majority of the outstanding shares of Series C Preferred Stock, voting as a class, will be entitled to elect (i) one director in the event that there are seven or fewer directors on the Board of Directors at such time or (ii) two directors in the event that there are eight or more directors on the Board of Directors at such time.

In exercising the voting rights set forth herein or when otherwise granted voting rights by operation of law, each share of Series C Preferred Stock will be entitled to one vote per share.

No consent of the holders of the Series C Preferred Stock will be required for (i) the creation of any indebtedness of any kind of the Company or (ii) the authorization or issuance of any class of capital stock of the Company ranking junior to the Series C Preferred Stock in payment of dividends or upon liquidation, dissolution or winding up of the Company.

Liquidation. In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, before any distribution of the assets of the Company to the holders of shares of Common Stock or any other capital stock of the Company ranking junior to the Series C Preferred Stock upon liquidation, dissolution or winding up of the Company, the holders of shares of Series C Preferred Stock will be entitled to receive out of the assets of the Company available for distribution to its stockholders, whether from capital, surplus or earnings, an amount per share of Series C Preferred Stock equal to $100.00 (the 'Liquidation Preference'), plus accrued and unpaid dividends on such share of Series C Preferred Stock, if any, to the date of final distribution.

In the event of any voluntary or involuntary liquidation, dissolution or winding up of the Company, before any distribution of assets of the Company to the holders of shares of Series C Preferred Stock or

Powered By EDGAR Online 2002. EDGAR Online, Inc.

any capital stock of the Company ranking on a par with the shares of Series C Preferred Stock, the holders of any shares of capital stock of the Company ranking senior to the Series C Preferred Stock and such parity stock shall be entitled to receive out of the assets of the Company available for distribution to its stockholders, whether from capital, surplus or earnings, an amount per share of such senior stock equal to the liquidation preference thereof, plus accrued and unpaid dividends thereon, if any, to the date of final distribution.

If, upon any liquidation, dissolution or winding up of the Company, the amounts payable with respect to the shares of Series C Preferred Stock or any capital stock ranking on a par with the shares of Series C Preferred Stock are not paid in full, then such holders will share ratably in any such distribution of assets, or proceeds thereof, in proportion to the full respective preferential amounts to which they are entitled. Neither a consolidation nor a merger of the Company with one or more other corporations, nor a sale or a transfer of all or substantially all of the assets of the Company, will be deemed to be a voluntary or involuntary liquidation, dissolution or winding up of the Company.

SERIES D PREFERRED STOCK

On October 13, 1997, the Board of Directors approved the issuance of up to 7,000,000 shares of Series D Preferred Stock. Shares of Series D Preferred Stock will be issued in the event of an Automatic Exchange with respect to the New Preferred Stock. See ' -- 10 1/2% Series C Convertible Preferred Stock -- Automatic Exchange.'

PREFERRED STOCK PURCHASE RIGHTS

On October 22, 1997, the Board of Directors adopted a stockholders rights plan and, in connection with the adoption of such plan, declared a dividend distribution of one 'Right' for each outstanding share of Common Stock (a 'Common Share') of the Company to stockholders of record at the close of business on November 3, 1997 (the 'Rights Record Date'). Except as set forth below, each Right will entitle the registered holder thereof to purchase from the Company one one-hundredth of a share of Series B Preferred Stock, par value $0.001 per share (the 'Series B Shares'), at a purchase price of $115.00 (the 'Purchase Price'), subject to adjustment. The Purchase Price shall be paid in cash. The description and terms of the Rights will be set forth in a Rights Agreement (the 'Rights Agreement') to be entered into by the Company and Continental Stock Transfer & Trust Company, as Rights Agent.

Initially, no separate Right Certificates will be distributed and the Rights will be evidenced, with respect to any Common Shares outstanding on the Rights Record Date, by the certificates representing such Common Shares. Until the Separation Date (as defined below), the Rights will be transferred with, and only with, Common Share certificates. Until the earlier of the Separation Date and the redemption or expiration of the Rights, new Common Share certificates issued after the Rights Record Date will contain a notation incorporating the Rights Agreement by reference. The Rights are not exercisable until the earlier to occur of (a) 10 business days following a public announcement that a person or

2002. EDGAR Online, Inc.

group of affiliated or associated persons (an 'Acquiring Person') has acquired, or obtained the right to acquire, beneficial ownership of 15% or more of the outstanding Common Shares (except by reason of (i) exercise by such person of stock options granted to such person by the Company pursuant to any stock option or similar plan of the Company (ii) the exercise of conversion rights contained in specified classes of Preferred Stock, or (iii) the exercise of Warrants owned on the date of the Rights Agreement to acquire Common Shares deemed to be benefically owned by such person on such date, which will include warrants to acquire 1,740,000 Common Shares to be issued to an affiliate of Everest Capital Fund, Ltd.) or (b) 15 business days following the commencement of a tender offer or exchange offer by any person (other than the Company, any subsidiary of the Company or any employee benefit plan thereof) if, upon consummation hereof, such person or group would be the beneficial owner of 15% or more of such outstanding Common Shares (the earlier of such dates being called the 'Separation Date'), and will expire on October 22, 2002, unless earlier redeemed by the Company as described below. As soon as practicable following the Separation Date, separate certificates evidencing the Rights ('Right Certificates') will be mailed to holders of record of the Common Shares as of the close of business on the Separation Date and, thereafter, such separate Right Certificates alone will evidence the Rights. A holder of 15% or more of the Common Stock as of the date of the Rights Agreement will be excluded from the definition of 'Acquiring Person' unless such holder increases the aggregate percentage of its and its affiliates' beneficial ownership interest in the Company by an additional 1%.

In the event that, at any time following the Separation Date, (a) the Company is the surviving corporation in a merger with an Acquiring Person and the Company's Common Shares are not changed or exchanged, (b) a person (other than the Company, any subsidiary of the Company or any employee benefit plan thereof), together with its Affiliates and Associates (as defined in the Rights Agreement), becomes an Acquiring Person (in any manner, except pursuant to (i) the exercise of stock options granted pursuant to the Company's existing and future stock option plans, (ii) the exercise of conversion rights contained in specified Preferred Stock issues of the Company, (iii) the exercise of certain warrants specified in the Rights Agreement and (iv) a tender offer for any and all outstanding Common Shares made in accordance with applicable laws, which remains open for at least 40 Business Days and into which holders of 80% or more of the Company's outstanding Common Shares tender their shares), (c) an Acquiring Person engages in one or more 'self-dealing' transactions as set forth in the Rights Agreement or (d) during such time as there is an Acquiring Person, an event occurs (e.g., a reverse stock split), that results in such Acquiring Person's ownership interest being increased by more than one percent, the Rights Agreement provides that proper provision shall be made so that each holder of a Right will thereafter be entitled to receive, upon the exercise thereof at the then current exercise price of the Right, Common Shares (or, in certain circumstances, cash, property or other securities of the Company) having a value equal to two times the exercise price of the Right.

In the event that, at any time following the first date of public announcement by the Company or an Acquiring Person indicating that an Acquiring Person has become such (the 'Shares Acquisition Date'), (a) the Company consolidates or merges with another person and the Company is not the surviving corporation, (b) the Company consolidates or merges with another person and is the surviving corporation, but in such transaction its Common Shares are changed or exchanged or (c) 50% or more of the Company's assets or earning power is sold or transferred, the Rights Agreement provides that proper provision shall be made so that each holder of a Right shall thereafter have the right to receive, upon the exercise thereof at the then current exercise price of the Right, common shares of the acquiring company having a value equal to two times the exercise price of the Right.

The Board may, at its option, at any time after the right of the Board to redeem the Rights has expired or terminated (with certain exceptions), exchange all or part of the then outstanding and exercisable Rights (other than those held by the Acquiring Person and Affiliates and Associates of the Acquiring Person) for Common Shares at a ratio of one Common Share per Right, as adjusted; provided, however, that such Right cannot be exercised once a Person, together with such Person's Affiliates and Associates, becomes the beneficiary owner of 50% or more of the Common Shares then outstanding. If the Board authorizes such an exchange, the Rights will immediately cease to be exercisable.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Notwithstanding any of the foregoing, following the occurrence of any of the events set forth in the fourth and fifth paragraphs of this section, any Rights that are, or (under certain circumstances specified in the Rights Agreement) were, beneficially owned by any Acquiring Person or Affiliate or Associate thereof shall immediately become null and void. The Rights Agreement contains provisions intended to prevent the utilization of voting trusts or similar arrangements (except for the voting arrangement between two of the Company's principal stockholders and the Company) that could have the effect of rendering ineffective or circumventing the beneficial ownership rules set forth in the Rights Agreement.

The Purchase Price payable, and the number of Series B Shares or other securities or property issuable, upon exercise of the Rights are subject to adjustment from time to time to prevent dilution (a) in the event of a dividend of Series B Shares on, or a subdivision, combination or reclassification of, the Series B Shares, (b) upon the grant to holders of the Series B Shares of certain rights or warrants to subscribe for Series B Shares or securities convertible into Series B Shares at less than the current market price of the Series B Shares or (c) upon the distribution to holders of the Series B Shares of debt securities or assets (excluding regular quarterly cash dividends and dividends payable in Series B Shares) or of subscription rights or warrants (other than those referred to above).

At any time after the date of the Rights Agreement until ten Business Days (as defined in the Rights Agreement) (a period that can be extended) following the Shares Acquisition Date, the Board of Directors, with the concurrence of a majority of the Independent Directors (those members of the Board who are not officers or employees of the Company or of any Subsidiary of the Company and who are not Acquiring Persons or their Affiliates, Associates, nominees or representatives, and who either (a) were members of the Board prior to the adoption of the Rights Plan or (b) were subsequently elected to the Board and were recommended for election or approved by a majority of the Independent Directors then on the Board), may redeem the Rights, in whole but not in part, at a price of $0.01 per Right, subject to adjustment (the 'Redemption Price'). Thereafter, the Board may only redeem the Rights in certain specified circumstances including in connection with certain events not involving an Acquiring Person or an Affiliate or Associate of an Acquiring Person. In addition, the Company's right of redemption may be reinstated if (a) an Acquiring Person reduces its beneficial ownership to 10% or less of the outstanding Common Shares in a transaction or series of transactions not involving the Company and (b) there is at such time no other Acquiring Person. The Rights Agreement may also be amended, as described below, to extend the period of redemption.

Until a Right is exercised, the holder thereof, as such, will have no rights as a shareholder of the Company, including, without limitation, the right to vote or to receive dividends. While the distribution of the Rights will not be taxable to shareholders or to the Company, shareholders may, depending upon the circumstances, recognize taxable income in the event that the Rights become exercisable for Common Shares (or other consideration) of the Company or for common shares of the Acquiring Person as set forth above.

Other than those provisions relating to the principal economic terms of the Rights or imposing limitations on the right to amend the Agreement, any of the provisions of the Rights Agreement may be amended by the Board with the concurrence of a majority of the Independent Directors or by special approval of the stockholders of the Company prior to the Separation Date. Thereafter, the period during which the Rights may be redeemed may be extended (by action of the Board, with the concurrence of a majority of the Independent Directors or by special approval of the stockholders of the Company), and other provisions of the Rights Agreement may be amended by action of the Board with the concurrence of a majority of the Independent Directors or by special approval of the shareholders of the Company; provided, however, that (a) such amendment will not adversely affect the interests of holders of Rights (excluding the interests of any Acquiring Person) and (b) no amendment shall be made at such time as the Rights are no longer redeemable (except for the possibility of the right of redemption being reinstated as described above).

DELAWARE ANTI-TAKEOVER LAW AND CERTAIN CHARTER PROVISIONS

Section 203 of the Delaware General Corporation Law ('Section 203') generally provides that a stockholder acquiring more than 15% of the outstanding voting stock of a corporation subject to the statute (an 'Interested Stockholder') but less than 85% of such stock may not engage in certain

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Business Combinations (as defined in Section 203) with the corporation for a period of three years after the time the stockholder became an Interested Stockholder unless (i) prior to such time, the corporation's board of directors approved either the Business Combination or the transaction in which the stockholder became an Interested Stockholder or (ii) the Business Combination is approved by the corporation's board of directors and authorized at a stockholders' meeting by a vote of at least two-thirds of the corporation's outstanding voting stock not owned by the Interested Stockholder. Under Section 203, these restrictions will not apply to certain Business Combinations proposed by an Interested Stockholder following the earlier of the announcement or notification of one of certain extraordinary transactions involving the corporation and a person who was not an Interested Stockholder during the previous three years, who became an Interested Stockholder with the approval of the corporation's board of directors or who became an Interested Stockholder at a time when the restrictions contained in Section 203 did not apply for reasons specified in Section 203, if such extraordinary transaction is approved or not opposed by a majority of the directors who were directors prior to such person becoming an Interested Stockholder during the previous three years or were recommended for election or elected to succeed such directors by a majority of such directors.

Section 203 defines the term 'Business Combination' to encompass a wide variety of transactions with or caused by an Interested Stockholder, including transactions in which the Interested Stockholder receives or could receive a benefit on other than a pro rata basis with other stockholders, transactions with the corporation which increase the proportionate interest in the corporation directly or indirectly owned by the Interested Stockholder or transactions in which the Interested Stockholder receives certain other benefits.

The provisions of Section 203, coupled with the Board's authority to issue preferred stock without further stockholder action, could delay or frustrate the removal of incumbent directors or a change in control of the Company. The provisions also could discourage, impede or prevent a merger, tender offer or proxy contest, even if such event would be favorable to the interests of stockholders. The Company's stockholders, by adopting an amendment to the Company's Amended and Restated Certificate of Incorporation (the 'Certificate'), may elect not to be governed by Section 203 effective 12 months after such adoption. Neither the Certificate nor the Company's Amended and Restated Bylaws exclude the Company from the restrictions imposed by Section 203.

TRANSFER AGENT

The transfer agent and registrar for the Common Stock, the 5% Preferred Stock and the Series C Preferred Stock is Continental Stock Transfer & Trust Company, New York, New York.

SHARES ELIGIBLE FOR FUTURE SALE

SHARES ELIGIBLE FOR FUTURE SALE

Upon the consummation of the Stock Offerings, the Company will have 15,377,844 shares of Common Stock outstanding, assuming no exercise of (i) the Underwriters' overallotment option and (ii) outstanding options. Of these shares, 9,695,896 shares will be freely tradeable without restriction under the Securities Act unless such shares are purchased in the Stock Offerings by Affiliates. Of the remaining 6,381,988 shares of Common Stock, 3,547,488 shares are Restricted Shares. Restricted Shares may be sold in the public market only if registered or if they qualify for an exemption from registration under Rules 144, 144(k) or 701 promulgated under the Securities Act. Up to 1,642,000 of the Restricted Shares held by the directors and certain officers of the Company will be eligible for sale, subject to the restrictions of Rule 144, upon expiration of the Lock-up Agreements, which shall expire, with respect to a Lock-up Agreement concerning 1,600,000 of such shares, on a cumulative basis as to 25% of such 1,600,000 shares at the expiration of each of the 15th, 18th, 21st and 24th month following August 26, 1997, and, with respect to Lock-up Agreements concerning the remaining 42,000 shares, 180 days after the effective date of the Stock Offerings. The remaining 1,905,488 Restricted Shares will not become eligible for resale until August 1998, and then only pursuant to the restrictions under Rule 144. In addition, the Company's largest stockholder has entered into a lock-up agreement relating to 2,834,500 shares lasting for a period ending, on a cumulative basis, as to 25% of the shares of Common Stock

Powered By EDGAR Online 2002. EDGAR Online, Inc.

owned by such holder, on the expiration of the 15th, 18th, 21st and 24th month following August 26, 1997. As such shares become free of such lock-up, they will be eligible for sale without restriction.

In general, under Rule 144 as currently in effect, beginning 90 days after the conclusion of the Stock Offerings, a person (or persons whose shares are aggregated) who has beneficially owned restricted shares for at least one year, including persons who may be deemed 'affiliates' of the Company, will be entitled to sell in any three month period a number of shares that does not exceed the greater of (i) 1% of the then outstanding shares of Common Stock or
(ii) the average weekly trading volume of the Common Stock during the four calendar weeks immediately preceding the date on which notice of the sale is filed with the Securities and Exchange Commission. Sales pursuant to Rule 144 are also subject to certain other requirements relating to manner of sale, notice and availability of current public information about the Company. A person (or persons whose shares are aggregated) who is not deemed to have been an affiliate of the Company at any time during the three months immediately preceding the sale is entitled to sell restricted shares pursuant to Rule 144(k) without regard to the limitations described above, provided that two years have expired since the later of the date on which such restricted shares were first acquired from the Company or from an affiliate of the Company. Certain of the Company's current stockholders have demand and incidental registration rights. See 'Principal Stockholders.'

The Company has granted options to purchase 1,733,000 shares of Common Stock to certain directors, officers and key employees of the Company pursuant to the stock plans. Of the shares underlying these outstanding options, 1,705,000 are subject to the agreements described above restricting the sale of such shares for a period of 180 days after the date of this Prospectus. Following the Stock Offerings, the Company intends to file a registration statement under the Securities Act to register shares of Common Stock issuable upon the exercise of stock options granted under the Company's stock option plans. Except as limited by the agreements described above and by Rule 144 volume limitations applicable to affiliates, shares issued upon the exercise of stock options after the effective date of such registration statement generally will be available for sale in the open market.

The Company is unable to predict the effect that sales made under Rule 144, pursuant to future registration statements, or otherwise, may have on any then prevailing market price for shares of the Common Stock. Nevertheless, sales of a substantial amount of Common Stock in the public market, or the perception that such sales could occur, could adversely affect market prices.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following summary of certain United States federal income tax consequences applicable under current law to holders of 5% Preferred Stock who exchange such stock for New Preferred Stock pursuant to the Exchange Offer is for general information only and is not intended as a substitute for careful tax planning. The discussion is based upon the Internal Revenue Code of 1986, as amended (the 'Code'), regulations promulgated by the U.S. Department of the Treasury (the 'Treasury Regulations'), and Internal Revenue Service (the 'Service') rulings and judicial decisions now in effect, all of which are subject to change at any time by legislative, judicial or administrative action. Any such changes could be retroactively applied in a manner that could adversely affect a holder of the New Preferred Stock received pursuant to the Exchange Offer. The discussion does not cover all aspects of Federal taxation that may be relevant to, or the actual tax effect that any of the matters described herein will have on, particular persons, and it does not deal with state, local or foreign income or other tax laws. Certain holders (including financial institutions, tax-exempt organizations, broker-dealers, insurance companies, and foreign individuals and entities) may be subject to special rules not discussed below. The discussion assumes that recipients of New Preferred Stock will hold the New Preferred Stock as a capital asset within the meaning of Section 1221 of the Code. Persons considering exchanging 5% Preferred Stock for New Preferred Stock should consult their own tax advisors with respect to their particular situations as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

EXCHANGE OF 5% PREFERRED STOCK FOR NEW PREFERRED STOCK

THE 1997 TAX ACT

The tax consequences of the Exchange Offer may be significantly affected by the Taxpayer Relief Act of 1997 ('1997 Tax Act'), which was enacted on August 5, 1997 and has not yet been subject to any administrative or judicial interpretation. Under the 1997 Tax Act, gain or loss generally will be recognized upon the receipt of Nonqualified Preferred Stock (as defined below) for property other than Nonqualified Preferred Stock in a transaction in which no other stock is issued. Upon an exchange of Nonqualified Preferred Stock for Nonqualified Preferred Stock, no loss may be recognized, but gain will be recognized to the extent that certain other property is received in the exchange. The New Preferred Stock is Nonqualified Preferred Stock under the 1997 Tax Act. Accordingly, the Federal income tax treatment of the exchange depends on whether or not the 5% Preferred Stock is classified as Nonqualified Preferred Stock, which, as discussed below, is not clear. (See 'Treatment of 5% Preferred Stock Under the 1997 Tax Act'). If the 5% Preferred Stock is not Nonqualified Preferred Stock, then an exchange of 5% Preferred Stock for New Preferred Stock will require the recognition of gain or loss equal to the difference between the fair market value of the New Preferred Stock and cash received, and the tax basis in the 5% Preferred Stock surrendered. Any such gain or loss likely would be treated as short-term capital gain or loss, and the tax basis of the New Preferred Stock received would be equal to its fair market value. If the 5% Preferred Stock is Nonqualified Preferred Stock, no gain or loss will

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

be recognized upon the Exchange Offer (except for any gain or loss recognized with respect to cash received in lieu of fractional share interests (see 'Treatment of Cash Received in Lieu of Fractional Share Interests' below)). In such case, the tax basis of the New Preferred Stock will be equal to the tax basis of the 5% Preferred Stock for which it is exchanged (though calculated by treating those receiving New Preferred Stock as also receiving fractional share interests of New Preferred Stock rather than cash, as described in 'Treatment of Cash Received in Lieu of Fractional Share Interests' below).

TREATMENT OF 5% PREFERRED STOCK UNDER THE 1997 TAX ACT

Under the 1997 Tax Act, Nonqualified Preferred Stock is defined as stock which is limited and preferred as to dividends and does not participate in corporate growth to any significant extent if, in addition, any of the following requirements are met: (i) the holder of such stock has the right to require the issuer or a related person to redeem or purchase the stock, (ii) the issuer or a related person is required to redeem or purchase such stock, (iii) the issuer or a related person has the right to redeem or purchase the stock and, as of the issue date, it is more likely than not that such right will be exercised, or
(iv) the dividend rate on such stock varies in whole or in part (directly or indirectly) with reference to interest rates, commodity prices, or other similar indices. The Conference Report accompanying the 1997 Tax Act provides that in no event will a conversion privilege into stock of the issuer automatically be considered to constitute participation in corporate growth to any significant extent.

Because the 5% Preferred Stock is convertible at all times into Common Stock of a value in excess of the Liquidation Preference of the 5% Preferred Stock plus any other Cash Payments due to the holder of such 5% Preferred Stock (with the amount of such excess increasing over time), it is possible that the 5% Preferred Stock may be viewed as participating in corporate growth to a significant extent. If so, then the 5% Preferred Stock would not be treated as Nonqualified Preferred Stock under the 1997 Tax Act. If on the other hand, the conversion features of the 5% Preferred Stock are not taken into account for this purpose and therefore the 5% Preferred Stock is not treated as participating in corporate growth to a significant extent, the 5% Preferred Stock will be treated as Nonqualified Preferred Stock if either (i) as of the issue date, it was more likely than not that the Company would redeem the 5% Preferred Stock, or (ii) the holders have a right to require the Company to repurchase the 5% Preferred Stock and such right is not subject to a contingency which made the likelihood of such a repurchase remote as of the issue date. It is not clear whether the 5% Preferred Stock will meet the 'more likely than not' test in clause (i), nor is it clear whether the contingencies to which the holder's right to require redemption of the 5% Preferred Stock is subject will be considered to make remote the likelihood of such a redemption. Accordingly, it is not clear whether or not the 5% Preferred Stock will be classified as Nonqualified Preferred Stock.

TREATMENT OF CASH RECEIVED IN LIEU OF FRACTIONAL SHARE INTERESTS

The receipt of cash in lieu of fractional share interests of New Preferred Stock should generally be treated as a separate event for Federal income tax purposes, in which the holder making the exchange is treated as first receiving in the exchange the fractional share interest of New Preferred Stock to which the holder is entitled and redeeming the fractional shares of New Preferred Stock for cash. While the matter is not free from doubt, the Company believes that under principles of Section 302 such a redemption will be treated as a distribution in payment in exchange for the stock. (See 'Sale or Redemption -- Redemption of New Preferred Stock.')

POSSIBLE TREATMENT OF NEW PREFERRED STOCK AS SECTION 306 STOCK

If the Exchange Offer is not a taxable event, the New Preferred Stock received pursuant to the Exchange Offer could, under certain circumstances, be treated as 'Section 306 Stock,' thereby subjecting holders to ordinary income or dividend treatment on certain dispositions of the stock, if the Company has earnings or profits. The Company does not have accumulated earnings and profits and does not expect to have earnings and profits for the year 1997. If the Company does not have earnings and profits for the year 1997, then the New Preferred Stock will not be treated as Section 306 Stock.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

POSSIBLE CONSTRUCTIVE SECTION 305 STOCK DISTRIBUTION

It is possible that, to the extent of any dividend arrearages of the 5% Preferred Stock, there may be a constructive Section 305 stock distribution with respect to an exchange of such stock for New Preferred Stock. However, because any unpaid dividends are added to the liquidation preference of the 5% Preferred Stock causing a change in the conversion ratio of such stock, the Company believes there should be considered no dividend arrearages with respect to the 5% Preferred Stock.

DIVIDENDS ON NEW PREFERRED STOCK

Distributions with respect to the New Preferred Stock paid by the Company in either cash or Common Stock will be treated as dividends and taxable as ordinary income to the extent that the distributions are made out of either the Company's current or accumulated earnings and profits. (In the case of a distribution of Common Stock, the amount distributed will be the fair market value of such Common Stock.) To the extent that such a distribution is not made out of the Company's current or accumulated earnings and profits, the distribution will first constitute a non-taxable return of capital, reducing the holder's adjusted tax basis in the shares of New Preferred Stock held, and then, to the extent the distribution exceeds such tax basis, will result in a gain from the sale or exchange of such stock. The tax basis of any Common Stock so distributed will be equal to the fair market value of such Common Stock at the time of the distribution.

The New Preferred Stock will accrue dividends from its date of issuance, but dividends will not become payable until five years after the stock's issuance. It is possible that under Section 305 of the Code and the Treasury Regulations thereunder that during the period that dividends are not payable, a holder of New Preferred Stock will be treated as receiving constructive distributions of additional stock. In such event, the holder would take such distributions into account under principles similar to those applicable to original issue discount on debt instruments.

DIVIDENDS RECEIVED DEDUCTION

In calculating their taxable income, corporate stockholders will generally be eligible to claim a dividends-received deduction (currently 70% of the amount of the dividend for most corporate stockholders) with respect to distributions that are treated as dividends on the New Preferred Stock (i.e., distributions out of earnings and profits, which the Company does not believe that it currently has and does not expect to have until after it commences commercial operations). However, complex rules apply which may cause disallowance or limitation of the dividends-received deduction under circumstances described in the Code. For instance, Section 246A of the Code reduces the dividends-received deduction allowed to a corporate holder that has incurred indebtedness 'directly attributable' to its investment in portfolio stock. In addition, Section 246(c) of the Code, as recently amended by the 1997 Tax Act, requires that in order to be eligible for the dividends-received deduction, a corporation must generally hold the shares of stock for at least 46 days during the 90-day period beginning on the date which is 45 days before the date on which such share becomes ex-dividend with respect to such dividend. If a dividend on preferred stock is attributable to a period or periods aggregating in excess of 366 days, then the stock must be held for at least 91 days during the 180-day period beginning on the date which is 90 days before the date on which such share becomes ex-dividend with respect to such dividend. For this purpose, the corporation's holding period is reduced by periods during which its position in the stock is hedged in the manner described in Section 246(c)(4) of the Code. In addition, in computing the alternative minimum tax, corporate stockholders may be required to make certain adjustments in calculating their alternative minimum taxable income. Corporate stockholders should consult their own tax advisors as to the possible application of these provisions.

EXTRAORDINARY DIVIDEND

The tax basis of stock that has been held by a corporate stockholder for not more than two years is reduced (but not below zero) by the non-taxed portion of any 'extraordinary dividend' received with respect to such stock. Moreover, if the non-taxed portion of such dividends exceeds such basis, such excess will be treated as gain from the sale or exchange of such stock for the taxable year in which the

Powered By EDGAR Online 2002. EDGAR Online, Inc.

extraordinary dividend is received. In determining whether a holder satisfies the holding period requirement, the length of the holding period is determined as of the date that the issuer declares, announces or agrees to the payment or the amount of a dividend, whichever is the earliest. Generally, an extraordinary dividend is a dividend that (i) equals or exceeds 5% of the holder's basis in stock preferred as to dividends, or 10% of the holder's basis in any other stock (treating all dividends having ex-dividend dates within an 85-day period as a single dividend) or (ii) exceeds 20% of the holder's basis in the stock (treating all dividends having ex-dividend dates within a 365-day period as a single dividend). If the holder is able to establish, to the satisfaction of the Service, the fair market value of the stock as of the day before the ex-dividend date, the holder may elect to substitute such fair market value for the holder's basis in applying these tests.

Dividends will accrue quarterly with respect to the New Preferred Stock at an annual rate of 10.5%, but will not become payable until November 15, 2002. If the Company has substantial earnings and profits at the time of the November 15, 2002 distribution and such amounts have not previously been treated as constructive distributions, it is likely that the payment made on that date will be treated as an extraordinary dividend.

ADJUSTMENT OF CONVERSION PRICE

Section 305 of the Code and applicable Treasury Regulations also provide that under certain circumstances, adjustments in the conversion price of convertible stock and other similar transactions (including the failure to adjust the conversion rate) may be treated as constructive distributions of stock taxable as a dividend if (i) as a result, the proportionate interest of the holder of such convertible preferred stock in the assets or earnings and profits of the issuer is increased and (ii) the adjustment does not fall within the parameters set forth under Section 305. The operation of certain aspects of the conversion price adjustment provisions of the New Preferred Stock does not fall within these parameters, and accordingly, if these provisions become operative the holders of New Preferred Stock would be deemed to have received a constructive distribution that may be taxable as a dividend, notwithstanding the fact that such holders do not actually receive cash or property.

REDEMPTION PREMIUM

Under Section 305 of the Code and the Treasury Regulations thereunder, if the redemption price of shares of mandatorily redeemable preferred stock exceeds the issue price (which is generally the price paid in cash or property for the shares at original issuance) by more than a de minimis amount, the excess may be taxable as a constructive distribution of additional stock to the holder taken into account under principles similar to those applicable to original issue discount on debt instruments. Such a circumstance could arise if, for example, the fair market value of the New Preferred Stock is less than its liquidation preference by more than a de minimis amount as of the Closing Date of the Exchange Offer. If such a constructive distribution were to occur, a holder could be required to recognize ordinary income to the extent that the distributions are made out of either the Company's current or accumulated earnings and profits. To the extent that such a distribution is not made out of the Company's current or accumulated earnings and profits, the distribution would first constitute a non-taxable return of capital, reducing the holder's adjusted tax basis in the shares of New Preferred Stock held, and then, to the extent the distribution exceeds such tax basis, will result in a gain from the sale or exchange of such stock.

CONVERSION

The New Preferred Stock is convertible by the holder into Common Stock. Conversion of the New Preferred Stock into Common Stock should not result in the recognition of gain or loss, and in such event the tax basis of the Common Stock received would be equal to the tax basis of the New Preferred Stock surrendered (though the receipt of cash in lieu of fractional shares would impact the exchange as described in 'Exchange of 5% Preferred Stock for New Preferred Stock -- Treatment of Cash Received in Lieu of Fractional Share Interests' above). Also, the holding period of the Common Stock received upon conversion would include the holding period of the New Preferred Stock converted. (If the

Powered By EDGAR Online 2002. EDGAR Online, Inc.

exchange of 5% Preferred Stock for New Preferred Stock is treated as a tax-free exchange (aside from a tax on any cash received), then the holding period of such New Preferred Stock will also include the time during which the 5% Preferred Stock was held).

In addition, upon the occurrence of certain events, the New Preferred Stock would be automatically converted into Series D Preferred Stock. No gain or loss should be recognized on such a conversion, and the tax basis of the Series D Preferred Stock received should be equal to the tax basis of the New Preferred Stock surrendered (though the receipt of cash in lieu of fractional shares would impact the exchange as described in 'Exchange of 5% Preferred Stock for New Preferred Stock -- Treatment of Cash Received in Lieu of Fractional Share Interests' above).

SALE OR REDEMPTION

SALE OR EXCHANGE OF NEW PREFERRED STOCK OR THE COMMON STOCK INTO WHICH IT IS CONVERTED

In the event that the New Preferred Stock is not treated as Section 306 Stock (see 'Exchange of 5% Preferred Stock for New Preferred Stock -- Possible Treatment of New Preferred Stock as Section 306 Stock'), upon the sale or exchange of the New Preferred Stock or the Common Stock into which it is converted, the holder will recognize gain or loss equal to the difference between the amount realized and his or her tax basis in the New Preferred Stock or the Common Stock into which it is converted. The resulting gain or loss will be a capital gain or loss and will be a long-term capital gain or loss if the New Preferred Stock or the Common Stock into which it is converted was held for more than one year. (If the exchange of 5% Preferred Stock for New Preferred Stock is treated as a tax-free exchange (aside from a tax on any cash received), then the holding period of the New Preferred Stock will also include the time during which the 5% Preferred Stock was held.) For individuals, gain from such a transaction will be taxed at rates that vary depending upon whether the stock exchanged was held for one year or less, more than one year but not more than 18 months, or more than 18 months.

REDEMPTION OF NEW PREFERRED STOCK

If the Company redeems shares of New Preferred Stock solely for cash, and such stock is not Section 306 Stock with respect to the holder, such redemption will be taxable as a sale or exchange if the redemption (i) results in a 'complete termination' of the holder's stock interest in the Company under
Section 302(b)(3) of the Code, (ii) is 'substantially disproportionate' with respect to the holder under Section 302(b) of the Code, (iii) is 'not essentially equivalent to a dividend' with respect to the holder under Section
302(b)(1) of the Code, or (iv) is from a non-corporate holder in partial liquidation of the Company under Section 302(b)(4) of the Code. In determining whether any of these tests has been met, shares considered to be owned by the holder by reason of the constructive ownership rules set forth in Section 318 of the Code (pursuant to which a holder will be deemed to own shares owned by certain related individuals and entities or shares subject to an option), as well as the shares actually owned, would generally be taken into account. If a redemption of shares of New Preferred Stock solely for cash satisfies any of the above Section 302 tests with respect to a holder, such holder will recognize gain or loss based on the difference between the amount of cash received and the holder's tax basis in the redeemed shares in the same manner as if the holder had sold the shares. If such a redemption does not satisfy any of the Section 302 tests, the gross proceeds will be treated as a distribution taxable as a dividend to the extent of the Company's current and accumulated earnings and profits and any excess will be treated first as a return of capital and then as gain upon a sale or exchange of the New Preferred Stock. A holder whose proceeds of a redemption are taxed as a dividend would transfer the tax basis in the New Preferred Stock redeemed (reduced for any amounts treated as a non-taxed portion of extraordinary dividends or a return of capital) to any stock interest retained in the Company.

BACK-UP WITHHOLDING

Under Section 3406 of the Code and applicable Treasury Regulations, a holder of New Preferred Stock or Common Stock acquired through exercise of the conversion privilege may be subject to back-up withholding tax at the rate of 31% with respect to dividends paid or on the proceeds of a sale, exchange or redemption of the New Preferred Stock or Common Stock. The Company will be required

Powered By EDGAR Online 2002. EDGAR Online, Inc.

to deduct and withhold the tax if (i) the holder fails to furnish a taxpayer identification number ('TIN') to the Company, (ii) the IRS notifies the Company that the TIN furnished by the holder is incorrect, (iii) there has been a notified holder under-reporting with respect to interest, dividends or original issue discount described in Section 3406(c) of the Code, or (iv) there has been a failure of the holder to certify under the penalty of perjury that the holder is not subject to withholding under Section 3406(a)(1)(C) of the Code. The Company will be required to withhold a tax equal to 31% from any dividend or redemption payment made with respect to the New Preferred Stock or Common Stock if any one of the events discussed above occurs. Holders should consult their tax advisors regarding their qualification for exemption from back-up withholding and the procedure for obtaining any applicable exemption.

The foregoing summary is included herein for general information only. Accordingly, prospective participants in the Exchange Offer should consult with their own tax advisors as to the specific tax consequences to them, including the application and effect of state, local and foreign income and other tax laws.

DELIVERY OF THIS LETTER OF TRANSMITTAL TO AN ADDRESS OTHER THAN AS SET FORTH ABOVE OR TRANSMISSION OF INSTRUCTIONS VIA A FACSIMILE TRANSMISSION TO A NUMBER OTHER THAN AS SET FORTH ABOVE WILL NOT CONSTITUTE A VALID DELIVERY.

The undersigned acknowledges receipt of the Prospectus dated October , 1997 (the 'Prospectus') of CD Radio Inc. (the 'Company') and this Letter of Transmittal, which together describe the Company's offer to exchange (the 'Exchange Offer') up to 1,932,073 shares of its new 10 1/2% Series C Convertible Preferred Stock (the 'New Preferred Stock') for up to all of the outstanding shares (the 'Shares') of its 5% Delayed Convertible Preferred Stock (the '5% Preferred Stock') at a rate of one share of New Preferred Stock for each $100 in Exchange Rate Liquidation Preference represented by Shares not previously converted. The 'Exchange Rate Liquidation Preference' shall be the amount determined by dividing the liquidation preference of the Shares being exchanged (including accrued and unpaid dividends on the Shares) by 0.696145. As of September 30, 1997, there were 5,222,608 Shares outstanding.

The undersigned has checked the appropriate boxes below and has signed this Letter of Transmittal to indicate the action the undersigned desires to take with respect to the Exchange Offer.

PLEASE READ THE ENTIRE LETTER OF TRANSMITTAL AND THE PROSPECTUS CAREFULLY BEFORE CHECKING ANY BOX BELOW.

YOUR BANK OR BROKER CAN ASSIST YOU IN COMPLETING THIS FORM. THE INSTRUCTIONS INCLUDED WITH THIS LETTER OF TRANSMITTAL MUST BE FOLLOWED. QUESTIONS AND REQUESTS FOR ASSISTANCE OR FOR ADDITIONAL COPIES OF THE PROSPECTUS AND THIS LETTER OF TRANSMITTAL MAY BE DIRECTED TO THE INFORMATION AGENT OR

PLEASE READ THE ACCOMPANYING INSTRUCTIONS CAREFULLY

Ladies and Gentlemen:

The undersigned hereby tenders to the Company the number of shares of 5% Preferred Stock indicated above upon the terms and subject to the conditions set forth in the Prospectus (receipt of which is hereby acknowledged) and in this Letter of Transmittal, both of which together constitute the Company's offer (the 'Exchange Offer') to exchange New Preferred Stock for shares of 5% Preferred Stock properly tendered.

Subject to, and effective upon, the acceptance for exchange of the shares of the 5% Preferred Stock tendered herewith, the undersigned hereby exchanges, assigns and transfers to, or upon the order of, the Company all right, title and interest in and to such shares of the 5% Preferred Stock. The undersigned hereby irrevocably constitutes and appoints the Exchange Agent the true and lawful agent and attorney-in-fact of the undersigned (with full knowledge that said Exchange Agent acts as the agent of the Company, in connection with the Exchange Offer) to cause the shares of 5% Preferred Stock to be assigned, transferred and exchanged. The undersigned represents and warrants that it has full power and authority to tender, exchange, assign and transfer the shares of the 5% Preferred Stock and to acquire shares of the New Preferred Stock issuable upon the exchange of such tendered shares of the 5% Preferred Stock, and that, when the same are accepted for exchange, the Company will acquire good and unencumbered title to the tendered shares of the 5% Preferred Stock, free and clear of all liens, restrictions, charges and encumbrances and not subject to any adverse claim. The undersigned also warrants that it will, upon request, execute and deliver any additional documents deemed by the Exchange Agent or the Company to be necessary or desirable to complete the exchange, assignment and transfer of tendered shares of the 5% Preferred Stock or transfer ownership of such shares of the 5% Preferred Stock on the account books maintained by the book-entry transfer facility.

The undersigned understands that tenders of shares of 5% Preferred Stock pursuant to the procedures described in the Prospectus under the heading 'The Exchange Offer -- Tender Procedure' and in the instructions hereto constitute a binding agreement between the undersigned and the Company upon the terms and subject to the conditions described in the Prospectus.

The Exchange Offer is subject to certain conditions as set forth in the Prospectus under the caption 'The Exchange Offer -- Conditions of the Exchange Offer.' The undersigned recognizes that as a result of these conditions (which may be waived, in whole or in part, at any time and from time to time, by the Company), as more particularly set forth in the Prospectus, the Company may not be required to exchange any of the shares of 5% Preferred Stock tendered hereby and, in such event, the shares of 5% Preferred Stock not exchanged will be returned to the undersigned at the address shown below the signature of the undersigned.

The name(s) and address(es) of the registered holder(s) should be printed above under 'Description of Shares of 5% Preferred Stock Tendered,' if not already printed thereunder, exactly as they appear on the shares of the 5% Preferred Stock tendered hereby. The certificate number(s) and the number of shares of the 5% Preferred Stock to which this Letter of Transmittal relates, together with the number of shares of the 5% Preferred Stock that the undersigned wishes to tender, should be indicated in the appropriate boxes above under 'Description of Shares of 5% Preferred Stock Tendered.'

All authority conferred or agreed to be conferred in this Letter of Transmittal shall survive the death or incapacity of the undersigned and any obligation of the undersigned hereunder shall be binding upon the heirs, personal representatives, successors and assigns of the undersigned. A tender of shares of 5% Preferred Stock made pursuant to the Exchange Offer may not be withdrawn after the Expiration Date. A purported notice of withdrawal will be effective only if delivered to the Exchange Agent in accordance with the specific procedure set forth in the Prospectus under the heading 'The Exchange Offer -- Withdrawal and Revocation Rights.'

Certificates for all shares of New Preferred Stock delivered in exchange for tendered shares of 5% Preferred Stock and any shares of 5% Preferred Stock delivered herewith but not exchanged, and registered in the name of the undersigned, shall be delivered to the undersigned at the address shown below the signature of the undersigned.

INSTRUCTIONS

FORMING PART OF THE TERMS AND CONDITIONS OF THE EXCHANGE OFFER

1. DELIVERY OF THIS LETTER OF TRANSMITTAL AND CERTIFICATES.

Certificates for all physically delivered shares of 5% Preferred Stock or confirmation of any book-entry transfer to the Exchange Agent's or its agent's account at a book-entry transfer facility of shares of 5% Preferred Stock tendered by book-entry transfer, as well as a properly completed and duly executed copy of this Letter of Transmittal or facsimile thereof, and any other documents required by this Letter of Transmittal, must be received by the Exchange Agent at any of its addresses set forth herein at any time prior to the Expiration Date (as defined in the Prospectus).

THE METHOD OF DELIVERY OF THIS LETTER OF TRANSMITTAL, THE SHARES OF 5% PREFERRED STOCK AND ANY OTHER REQUIRED DOCUMENTS IS AT THE ELECTION AND RISK OF THE HOLDER, AND EXCEPT AS OTHERWISE PROVIDED BELOW, THE DELIVERY WILL BE DEEMED MADE ONLY WHEN ACTUALLY RECEIVED OR CONFIRMED BY THE EXCHANGE AGENT. IF SUCH DELIVERY IS BY MAIL, IT IS SUGGESTED THAT REGISTERED MAIL WITH RETURN RECEIPT REQUESTED, PROPERLY INSURED, BE USED. IN ALL CASES SUFFICIENT TIME SHOULD BE ALLOWED TO PERMIT TIMELY DELIVERY. NO LETTERS OF TRANSMITTAL OR CERTIFICATES FOR SHARES OF 5% PREFERRED STOCK SHOULD BE SENT TO THE COMPANY.

No alternative, conditional, irregular or contingent tenders will be accepted. All tendering holders, by execution of this Letter of Transmittal (or facsimile thereof), shall waive any right to receive notice of the acceptance of the shares of 5% Preferred Stock for exchange.

2. PARTIAL TENDERS; WITHDRAWALS.

If fewer than all of the shares of 5% Preferred Stock evidenced by a submitted certificate are tendered, the tendering holder should fill in the number of shares tendered in the column entitled 'Number of Shares Tendered.' A newly issued certificate for the shares of 5% Preferred Stock submitted but not tendered will be sent to such holder as soon as practicable after the Expiration Date. All shares of 5% Preferred Stock delivered to the Exchange Agent will be deemed to have been tendered unless otherwise clearly indicated.

Tenders of 5% Preferred Stock pursuant to the Exchange Offer may be withdrawn at any time prior to the Expiration Date. To be effective, a written, telegraphic, telex or facsimile transmission notice of withdrawal must be received by the Exchange Agent prior to the Expiration Date at any of its addresses set forth herein, and with respect to a facsimile transmission, must be confirmed by telephone and an original delivered by guaranteed overnight delivery. Any such notice of withdrawal must specify the person named in this Letter of Transmittal as having tendered the shares of 5% Preferred Stock to be withdrawn, the certificate numbers of the shares of 5% Preferred Stock to be withdrawn, a statement that such holder is withdrawing his election to have such shares of 5% Preferred Stock exchanged, and the name of the registered holder of such shares of 5% Preferred Stock, and must be signed by the holder in the same manner as the original signature on this Letter of Transmittal (including any required signature guarantees) or be accompanied by evidence satisfactory to the Company that the person withdrawing the tender has succeeded to the beneficial ownership of the shares of 5% Preferred Stock being withdrawn. The Exchange Agent will return the properly withdrawn shares of 5% Preferred Stock promptly following receipt of notice of withdrawal. If shares of 5% Preferred Stock have been tendered pursuant to the procedure for book-entry transfer, any notice of withdrawal must specify the name and number of the account at the book-entry transfer facility to be credited with the withdrawn shares of 5% Preferred Stock or otherwise comply with the book-entry transfer procedure. All questions as to the validity of notices of withdrawals, including time of receipt, will be determined by the Company, and such determination will be final and binding on all parties.

3. SIGNATURE ON THIS LETTER OF TRANSMITTAL WRITTEN INSTRUCTION AND ENDORSEMENTS.

If this Letter of Transmittal is signed by the registered holder(s) of the shares of 5% Preferred Stock tendered hereby, the signature must correspond with the name(s) as written on the face of the certificates without alteration, enlargement or any change whatsoever.

If any of the shares of 5% Preferred Stock tendered hereby are owned of record by two or more joint owners, all such owners must sign this Letter of Transmittal.

If a number of shares of 5% Preferred Stock registered in different names are tendered, it will be necessary to complete, sign and submit as many separate copies of this Letter of Transmittal as there are different registrations of shares of 5% Preferred Stock.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

When this Letter of Transmittal is signed by the registered holders or holders (which term, for the purposes described herein, shall include the book-entry transfer facility whose name appears on a security listing as the owner of the shares of 5% Preferred Stock) of shares of 5% Preferred Stock listed and tendered hereby, no endorsements of certificates or separate written instruments of transfer or exchange are required.

If this Letter of Transmittal or any certificates or separate written instruments of transfer or exchange are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such persons should so indicate when signing, and, unless waived by the Company, proper evidence satisfactory to the Company of their authority so to act must be submitted.

4. TRANSFER TAXES.

The Company shall pay all transfer taxes, if any, applicable to the transfer and exchange of shares of 5% Preferred Stock to it or its order pursuant to the Exchange Offer. If a transfer tax is imposed for any reason other than the transfer and exchange of shares of 5% Preferred Stock to the Company or its order pursuant to the Exchange Offer, the amount of any such transfer taxes (whether imposed on the registered holder or any other person) will be payable by the tendering holder. If satisfactory evidence of payment of such taxes or exception therefrom is not submitted herewith the amount of such transfer taxes will be billed directly to such tendering holder.

Except as provided in this Instruction 4, it will not be necessary for transfer tax stamps to be affixed to the certificates representing shares of 5% Preferred Stock listed in this Letter of Transmittal.

5. WAIVER OF CONDITIONS.

The Company reserves the right to waive in its reasonable judgment, in whole or in part, at any time and from time to time, any of the conditions to the Exchange Offer set forth in the Prospectus.

6. MUTILATED, LOST, STOLEN OR DESTROYED CERTIFICATES.

Any holder whose certificates representing shares of 5% Preferred Stock have been mutilated, lost, stolen or destroyed should contact the Exchange Agent at the address set forth above for further instructions.

7. IRREGULARITIES.

All questions as to the validity, form, eligibility (including time of receipt) and acceptance for exchange of any tender of shares of 5% Preferred Stock will be determined by the Company, whose determination will be final and binding. The Company reserves the absolute right to reject any shares of 5% Preferred Stock not properly tendered or the acceptance for exchange of which may, in the opinion of the Company's counsel, be unlawful. The Company also reserves the absolute right to waive any defect or irregularity in the tender of any shares of 5% Preferred Stock. Unless waived, any defects or irregularities in connection with tenders of shares of 5% Preferred Stock for exchange must be cured within such reasonable period of time as the Company will determine. None of the Company, the Information Agent, the Exchange Agent or any other person will be under any duty to give notification of any defects or irregularities in tenders or incur any liability for failure to give any such notification.

8. REQUESTS FOR ASSISTANCE OR ADDITIONAL COPIES.

Questions relating to the procedure for tendering, as well as requests for assistance or additional copies of the Prospectus and this Letter of Transmittal, may be directed to the Information Agent or the Exchange Agent at the addresses and telephone numbers set forth above.

IMPORTANT: This Letter of Transmittal or a facsimile thereof (together with certificates representing shares of 5% Preferred Stock or confirmation of book-entry transfer and all other required documents) or a Notice of Guaranteed Delivery must be received by the Exchange Agent on or prior to the Expiration Date.

TO BE COMPLETED BY ALL TENDERING HOLDERS

PAYOR'S NAME: CD RADIO INC.

SUBSTITUTE FORM W-9 DEPARTMENT OF TREASURY INTERNAL REVENUE SERVICE PAYOR'S REQUEST FOR TAXPAYER IDENTIFICATION NUMBER ('TIN') AND CERTIFICATION	
	Name (see Specific Instructions following): ....
	Business name, if different from above (see Specific Instructions following): ....
	PART 1 -- PLEASE PROVIDE YOUR TIN IN THE BOX AT RIGHT AND CERTIFY BY SIGNING AND DATING BELOW. TIN: .... Social Security Number or Employer Identification Number
	PART 2 -- TIN APPLIED FOR [ ]
	CERTIFICATION: UNDER THE PENALTIES OF PERJURY, I CERTIFY THAT: (1) the number shown on this form is my correct Taxpayer Identification Number (or I am waiting for a number to be issued to me). (2) I am not subject to backup withholding either because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (the 'IRS') that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding, and (3) any other information provided on this form is true and correct. SIGNATURE .... DATE ....

You must cross out item (2) of the above certification if you have been notified by the IRS that you are subject to backup withholding because of underreporting of interest or dividends on your tax return and you have not been notified by the IRS that you are no longer subject to backup withholding.

YOU MUST COMPLETE THE FOLLOWING CERTIFICATE IF YOU CHECKED THE BOX IN PART 2 OF SUBSTITUTE FORM W-9

CERTIFICATE OF AWAITING TAXPAYER IDENTIFICATION NUMBER

I certify under penalties of perjury that a taxpayer identification number has not been issued to me, and either (a) I have mailed or delivered an application to receive a taxpayer identification number to the appropriate Internal Revenue Service Center or Social Security Administration Office or (b) I intend to mail or deliver an application in the near future. I understand that if I do not provide a taxpayer identification number by the time of the exchange, 31 percent of all reportable payments made to me thereafter will be withheld until I provide a number.

....

SIGNATURE DATE

GUIDELINES FOR CERTIFICATION OF TAXPAYER IDENTIFICATION NUMBER ON SUBSTITUTE FORM W-9

SECTION REFERENCES ARE TO THE INTERNAL REVENUE CODE.

Purpose of Form. A person who is required to file an information return with the IRS must obtain your correct taxpayer identification number ('TIN') to report income paid to you, real estate transactions, mortgage interest you paid, the acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA. For individuals, the TIN is generally a social security number ('SSN'). Use Form W-9 to furnish your correct TIN to the requester (the person asking you to furnish your TIN) and, when applicable, (1) to certify

Powered By EDGAR Online 2002. EDGAR Online, Inc.

that the TIN you are furnishing is correct (or that you are waiting for a number to be issued), (2) to certify that you are not subject to backup withholding, and (3) to claim exemption from backup withholding if you are an exempt payee. Furnishing your correct TIN and making the appropriate certifications will prevent certain payments from being subject to backup withholding.

Note: If a requester gives you a form other than a W-9 that is substantially similar to a Form W-9 to request your TIN, you must use the requester's form.

How to Obtain a TIN. If you do not have a TIN, apply for one immediately. To apply, get Form SS-5, Application for a Social Security Card (for individuals), from your local office of the Social Security Administration, or Form SS-4, Application for Employer Identification Number (for businesses and all other entities), from your local IRS office or by calling the IRS at 1-800-TAX-FORM (1-800-829-3676).

To complete Form W-9 if you do not have a TIN, write 'Applied For' in the space for the TIN in Part 1 (or check the box in Part 3 of Substitute Form W-9), sign and date the form, and give it to the requester. Generally, you must obtain a TIN and furnish it to the requester by the time of payment, but in any case, within 60 calendar days. If the requester does not receive your TIN by the time of payment, backup withholding, if applicable, will begin and continue until you furnish your TIN to the requester.

Note: Writing 'Applied For' (or check the box in Part 3 of the Substitute Form W-9) on the form means that you have already applied for a TIN OR that you intend to apply for one in the near future.

As soon as you receive your TIN, complete another Form W-9, include your TIN, sign and date the form, and give it to the requester.

What is Backup Withholding? Persons making certain payments to you are required to withhold and pay to the IRS 31% of such payments under certain conditions. This is called 'backup withholding.' Payments that could be subject to backup withholding include interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee compensation, and certain payments from fishing boat operators, but do not include real estate transactions.

If you give the requester your correct TIN, make the appropriate certifications, and report all your taxable interest and dividends on your tax return, your payments will not be subject to backup withholding. Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester, or

2. The IRS notifies the requester that you furnished an incorrect TIN, or

3. You are notified by the IRS that you are subject to backup withholding because you failed to report all your interest and dividends on your tax return (for reportable interest and dividends only), or

4. You do not certify to the requester that you are not subject to backup withholding under 3 above (for reportable interest and dividend accounts opened after 1983 only), or

5. You do not certify your TIN. This applies only to reportable interest, dividend, broker, or barter exchange accounts opened after 1983, or broker accounts considered inactive in 1983.

Except as explained in 5 above, other reportable payments are subject to backup withholding only if 1 or 2 above applies. Certain payees and payments are exempt from backup withholding and information reporting. See Payees and Payments Exempt From Backup Withholding, below, and Example Payees and Payments under Specific Instructions, below, if you are an exempt payee.

Payees and Payments Exempt From Backup Withholding. The following is a list of payees exempt from backup withholding and for which no information reporting is required. For interest and dividends, all listed payees are exempt except item (9). For broker transactions, payees listed in (1) through (13) and a person registered under the Investment Advisers Act of 1940 who regularly acts as a broker are exempt. Payments subject to reporting under sections 6041 and 6041A are generally exempt from backup withholding only if made to payees described in items (1) through (7), except a corporation that provides medical and health care services or bills and collects payments for such services is not exempt from backup withholding or information reporting. Only payees described in item (2) through (6) are exempt from backup withholding for barter exchange transactions and patronage dividends.

(1) A corporation. (2) An organization exempt from tax under section
501(a), or an IRA, or a custodial account under section 403(b)(7). (3) The United States or any of its agencies or instrumentalities. (4) A state, the District of Columbia, a possession of the United States, or any of their political subdivisions or instrumentalities. (5) A foreign government or any of its political subdivisions, agencies, or instrumentalities. (6) An international

Powered By EDGAR Online 2002. EDGAR Online, Inc.

organization or any of its agencies or instrumentalities. (7) A foreign central bank of issue. (8) A dealer in securities or commodities required to register in the United States, the District of Columbia, or a possession of the United States. (9) A futures commission merchant registered with the Commodity Futures Trading Commission. (10) A real estate investment trust. (11) An entity registered at all times during the tax year under the Investment Company Act of 1940. (12) A common trust fund operated by a bank under section 584(a). (13) A financial institution. (14) A middleman known in the investment community as a nominee or who is listed in the most recent publication of the American Society of Corporate Secretaries, Inc., Nominee List. (15) A trust exempt from tax under section 664 or described in section 4947.

Payments of dividend and patronage dividends generally not subject to backup withholding include the following:

Payments to nonresident aliens subject to withholding under section 1441.

Payments to partnerships not engaged in a trade or business in the United States and that have at least one nonresident alien partner.

Payments of patronage dividends not paid in money.

Payments made by certain foreign organizations.

Section 404(k) payments made by an ESOP.

Payments of interest generally not subject to backup withholding include the following:

Payments of interest on obligations issued by individuals.

Note: You may be subject to backup withholding if this interest is $600 or more and is paid in the course of the payer's trade or business and you have not provided your correct TIN to the payer.

Payments of tax-exempt interest (including exempt-interest dividends under section 852).

Payments described in section 6049(b)(5) to nonresident aliens.

Payments on tax-free covenant bonds under section 1451.

Payments made by certain foreign organizations.

Mortgage interest paid to you.

Payments that are not subject to information reporting are also not subject to backup withholding. For details, see sections 6041, 6041A, 6042, 6044, 6045, 6049, 6050A, and 6050N, and the applicable regulations.

PENALTIES

Failure To Furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of $50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil Penalty for False Information With Respect to Withholding. In addition to any criminal penalty described below, if you make a false statement with no reasonable basis that results in decreased or no backup withholding, you will be subject to a $500 penalty.

Criminal Penalty for Falsifying Information. If you willfully make a false certification, then, in addition to any other penalty provided by law, upon conviction thereof, you will be fined or imprisoned or both.

Misuse of TINs. If the requester discloses or uses TINs in violation of Federal law, the requester may be subject to civil and criminal penalties.

SPECIFIC INSTRUCTIONS

Name. If you are an individual, you must generally provide the name shown on your social security card. However, if you have changed your last name, for instance, due to marriage, without informing the Social Security Administration of the name change, please enter your first name, the last name shown on your social security card, and your new last name.

If you are a sole proprietor, you must furnish your individual name and either your SSN or EIN. You may also enter your business name or 'doing business as' name on the business name line. Enter your name(s) as shown on your social security card and/or as it was used to apply for your EIN on Form SS-4.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

SIGNING THE CERTIFICATION.

1. Interest, Dividend, and Barter Exchange Accounts Opened Before 1984 and Broker Accounts Considered Active During 1983. You are required to furnish your correct TIN, but you are not required to sign the certification.

2. Interest, Dividend, Broker, and Barter Exchange Accounts Opened After 1983 and Broker Accounts Considered Inactive During 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real Estate Transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other Payments. You are required to furnish your correct TIN, but you are not required to sign the certification unless you have been notified of an incorrect TIN. Other payments include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services (including attorney and accounting fees), and payments to certain fishing boat crew members.

5. Mortgage Interest Paid by You, Acquisition or Abandonment of Secured Property, Cancellation of Debt, or IRA Contributions. You are required to furnish your correct TIN, but you are not required to sign the certification.

6. Exempt Payees and Payments. If you are exempt from backup withholding, you should complete this form to avoid possible erroneous backup withholding. Enter your correct TIN in Part I, write 'EXEMPT' in the block in Part II, and sign and date the form. If you are a nonresident alien or foreign entity not subject to backup withholding, give the requester a complete Form W-8, Certificate of Foreign Status.

7. TIN 'Applied For.' Follow the instructions under How To Obtain a TIN, on page 1, and sign and date this form.

Signature. For a joint account, only the person whose TIN is shown in Part 1 should sign.

Privacy Act Notice. Section 6109 requires you to furnish your correct TIN to persons who must file information returns with the IRS to report interest, dividends, and certain other income paid to you, mortgage interest you paid, the acquisition or abandonment of secured property, cancellation of debt, or contributions you made to an IRA. The IRS uses the numbers for identification purposes and to help verify the accuracy of your tax return. The IRS may also provide this information to the Department of Justice for civil and criminal litigation and to cities, states, and the District of Columbia to carry out their tax laws. You must provide your TIN whether or not you are required to file a tax return. Payers must generally withhold 31% of taxable interest, dividend, and certain other payments to a payee who does not furnish a TIN to a payer. Certain penalties may also apply.

WHAT NAME AND NUMBER TO GIVE THE REQUESTER

FOR THIS TYPE OF ACCOUNT:	GIVE NAME AND SSN OF:
1. Individual	The individual
2. Two or more individuals (joint account)	The actual owner of the account or, if combined funds, the first individual on the account(1)
3. Custodian account of a minor (Uniform Gift to Minors Act)	The minor(2)
4. a. The usual revocable savings trust (grantor is also trustee)	The grantor-trustee(3)
b. So-called trust account that is not a legal or valid trust under state law	The actual owner(3)
5. Sole proprietorship	The owner(4)

FOR THIS TYPE OF ACCOUNT:	GIVE NAME AND EIN OF:
6. Sole proprietorship	The owner(4)
7. A valid trust, estate, or pension trust	Legal entity(5)
8. Corporate	The corporation
9. Association, club, religious, charitable, educational, or other tax-exempt organization	The organization
10. Partnership	The partnership
11. A broker or registered nominee	The broker or nominee

In our capacity as Dealer Manager, we are enclosing the material listed below relating to the offer (the 'Exchange Offer') by CD Radio Inc. (the 'Company') to exchange up to 1,932,073 shares of its new 10 1/2% Series C Convertible Preferred Stock (the 'New Preferred Stock') for up to all of the outstanding shares (the 'Shares') of its 5% Delayed Convertible Preferred Stock (the '5% Preferred Stock') at a rate of one share of New Preferred Stock for each $100 in Exchange Rate Liquidation Preference represented by Shares not previously converted. The 'Exchange Rate Liquidation Preference' shall be the amount determined by dividing the liquidation preference of the Shares being exchanged (including accrued and unpaid dividends on the Shares) by 0.696145. Such exchange will be upon the terms and subject to the conditions of the Exchange Offer (as described in the Prospectus) and subject to the right of the Company to amend or terminate the Exchange Offer. As of September 30, 1997, there were 5,222,608 Shares outstanding.

The Company expressly reserves the right to extend, amend or modify the terms of the Exchange Offer, and not to accept for exchange any shares of 5% Preferred Stock, at any time and from time to time prior to the Expiration Date for any reason.

We are asking you to contact your clients for whom you hold shares of 5% Preferred Stock registered in your name (or in the name of your nominee) or who hold shares of 5% Preferred Stock registered in their own names. Please bring the Exchange Offer to their attention as promptly as possible.

The Company will pay all stock transfer taxes applicable to the exchange of shares of 5% Preferred Stock pursuant to the Exchange Offer, subject to Instruction 4 of the Letter of Transmittal referred to below.

For your information and for forwarding to your clients, we are enclosing the following documents:

1. The Prospectus dated October , 1997 (the 'Prospectus');

2. The Letter of Transmittal to be used by holders of shares of 5% Preferred Stock in accepting the Exchange Offer (duly executed photocopies of the Letter of Transmittal may be used to exchange shares of 5% Preferred Stock);

3. A letter which may be sent to your clients for whose accounts you hold shares of 5% Preferred Stock registered in your name or in the name of your nominee, with space for obtaining such clients' instructions with regard to the Exchange Offer;

4. Guidelines of the Internal Revenue Service for Certification of Taxpayer Identification Number on Substitute Form W-9, providing information relating to backup federal income tax withholding; and

5. A return envelope addressed to CD Radio Inc.

WE URGE YOU TO CONTACT YOUR CLIENTS AS PROMPTLY AS POSSIBLE. PLEASE NOTE THAT THE EXCHANGE OFFER WILL EXPIRE AT 12:00 MIDNIGHT, NEW YORK CITY TIME, ON , 1997, UNLESS THE EXCHANGE OFFER IS EXTENDED.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Any questions or requests for assistance or additional copies of the enclosed materials may be directed to CD Radio Inc., the Information Agent, the Exchange Agent or the Dealer Manager, at the addresses and telephone numbers set forth on the inside back cover of the enclosed Prospectus.

Very truly yours, CD Radio Inc.

NOTHING CONTAINED HEREIN OR IN THE ENCLOSED DOCUMENTS SHALL BE DEEMED TO APPOINT YOU THE AGENT OF THE COMPANY, THE DEALER MANAGER, THE INFORMATION AGENT OR THE EXCHANGE AGENT, OR AUTHORIZE YOU OR ANY OTHER PERSON TO USE ANY DOCUMENT OR MAKE ANY STATEMENT ON BEHALF OF ANY OF THEM IN CONNECTION WITH THE EXCHANGE OFFER OTHER THAN THE DOCUMENTS ENCLOSED HEREWITH AND THE STATEMENTS CONTAINED THEREIN.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

FORM OF LETTER TO CLIENTS

CD RADIO INC.
OFFER TO EXCHANGE
5% DELAYED CONVERTIBLE PREFERRED STOCK FOR
10 1/2% SERIES C CONVERTIBLE PREFERRED STOCK

THE EXCHANGE OFFER WILL EXPIRE AT 12:00 MIDNIGHT, NEW YORK CITY TIME, ON , 1997, UNLESS EXTENDED.

October , 1997

To Our Clients:

Enclosed for your consideration are the Prospectus, dated October , 1997 (the 'Prospectus'), of CD Radio Inc. (the 'Company') and the related Letter of Transmittal (the 'Letter of Transmittal'), which together describe the Company's offer to exchange (the 'Exchange Offer') up to 1,932,073 shares of its new 10 1/2% Series C Convertible Preferred Stock (the 'New Preferred Stock') for up to all of the outstanding shares (the 'Shares') of its 5% Delayed Convertible Preferred Stock (the '5% Preferred Stock') at a rate of one share of New Preferred Stock for each $100 in Exchange Rate Liquidation Preference represented by Shares not previously converted. The 'Exchange Rate Liquidation Preference' shall be the amount determined by dividing the liquidation preference of the Shares being exchanged (including accrued and unpaid dividends on the Shares) by 0.696145. Such exchange will be upon the terms and subject to the conditions of the Exchange Offer (as described in the Prospectus) and subject to the right of the Company to amend or terminate the Exchange Offer. As of September 30, 1997, there were 5,222,608 Shares outstanding.

WE ARE THE HOLDER OF RECORD OF SHARES OF 5% PREFERRED STOCK HELD FOR YOUR ACCOUNT. A TENDER OF SUCH SHARES CAN BE MADE ONLY BY US AS THE HOLDER OF RECORD AND PURSUANT TO YOUR INSTRUCTIONS. THE LETTER OF TRANSMITTAL IS FURNISHED TO YOU FOR YOUR INFORMATION ONLY AND CANNOT BE USED BY YOU TO TENDER SHARES OF 5% PREFERRED STOCK HELD BY US FOR YOUR ACCOUNT.

We request instructions as to whether you wish us to tender any or all of the shares of 5% Preferred Stock held by us for your account, upon the terms and subject to the conditions set forth in the Prospectus and the Letter of Transmittal. We urge you to read the enclosed Prospectus carefully before conveying your instructions to us.

Your attention is invited to the following:

1. The Exchange Offer is for up to all of the Company's outstanding shares of 5% Preferred Stock. The Exchange Offer is subject to certain conditions. See 'The Exchange Offer -- Conditions of the Exchange Offer' in the Prospectus.

2. The Exchange Offer will expire at 12:00 Midnight, New York City time, on , 1997, unless the Exchange Offer is extended. Your instructions to us should be forwarded to us in ample time to permit us to submit a tender on your behalf. If you would like to withdraw your shares of 5% Preferred Stock that we have tendered, you can withdraw them at any time prior to the Expiration Date (as defined in the Prospectus).

3. Exchanges will be made on the basis of one share of New Preferred Stock for each $100 in Exchange Rate Liquidation Preference represented by shares of 5% Preferred Stock tendered and accepted for exchange. The 'Exchange Rate Liquidation Preference' shall be the amount determined by dividing the liquidation preference of the shares of 5% Preferred Stock being exchanged (including accrued and unpaid dividends on the Shares) by 0.696145.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

4. Any transfer taxes applicable to the exchange of shares of 5% Preferred Stock with the Company pursuant to the Exchange Offer will be paid by the Company, except as otherwise provided in Instruction 4 of the Letter of Transmittal.

If you wish to have us tender any or all of your shares of 5% Preferred Stock held by us for your account upon the terms and subject to the conditions set forth in the Exchange Offer, please so instruct us by completing, executing, detaching and returning to us the Tender Instruction Form on the detachable part hereof. An envelope to return your instructions to us is enclosed. If you authorize tender of your shares of 5% Preferred Stock, all such shares of 5% Preferred Stock will be tendered unless otherwise specified on the Tender Instruction Form. Your instructions should be forwarded to us in ample time to permit us to submit a tender on your behalf by the expiration of the Exchange Offer.

TENDER INSTRUCTION FORM

INSTRUCTIONS WITH RESPECT TO
CD RADIO INC.
OFFER TO EXCHANGE
5% DELAYED CONVERTIBLE PREFERRED STOCK FOR
10 1/2% SERIES C CONVERTIBLE PREFERRED STOCK

The undersigned acknowledge(s) receipt of your letter and the enclosed Prospectus dated October , 1997 of CD Radio Inc. (the 'Company') and the related Letter of Transmittal, which together describe the Company's offer to exchange (the 'Exchange Offer') up to 1,932,073 shares of its new 10 1/2% Series C Convertible Preferred Stock (the 'New Preferred Stock') for up to all of the outstanding shares (the 'Shares') of its 5% Delayed Convertible Preferred Stock (the '5% Preferred Stock') at a rate of one share of New Preferred Stock for each $100 in Exchange Rate Liquidation Preference represented by Shares not previously converted. The 'Exchange Rate Liquidation Preference' shall be the amount determined by dividing the liquidation preference of the Shares being exchanged (including accrued and unpaid dividends on the Shares) by 0.696145. Such exchange will be upon the terms and subject to the conditions of the Exchange Offer (as described in the Prospectus) and subject to the right of the Company to amend or terminate the Exchange Offer. As of September 30, 1997, there were 5,222,608 Shares outstanding.

This will instruct you to tender to the Company the number of shares of 5% Preferred Stock indicated below (or, if no number is indicated below, all shares of 5% Preferred Stock) which are held by you for the account of the undersigned, upon the terms and subject to the conditions of the Exchange Offer.

Exhibit (a)(6)

CD Radio Files Offerings

Washington, D.C. - September 2, 1997 - CD Radio Inc. (Nasdaq: CDRD) today filed registration statements with the Securities and Exchange Commission for the issuance of 3,500,000 shares of Common Stock and for the issuance of $150 million gross proceeds of Senior Discount Notes due 2007.

In addition, the Company filed a registration statement for the issuance of Convertible Preferred Stock in exchange for the outstanding shares of its 5% Delayed Convertible Preferred Stock.

Managing underwriters for the sale of the Common Stock are Merrill Lynch, Lehman Brothers and Unterberg Harris. Managing underwriters for the sale of the Senior Discount Notes are Merrill Lynch and Lehman Brothers. Merrill Lynch is the dealer manager for the Exchange Offer.

Registration statements relating to these securities have been filed with the Securities and Exchange Commission but have yet to become effective. These securities may not be sold nor may offers to buy or exchange be accepted prior to the time the applicable registration statement becomes effective. This press release shall not constitute an offer to sell or exchange or the solicitation of an offer to sell or exchange, nor shall there be any sale or exchange, of these securities in any state in which such offer, solicitation, sale or exchange would be unlawful prior to registration or qualification under the securities laws of any such state.

CD Radio is the winning bidder for one of two FCC national satellite radio broadcast licenses. The Company is building a satellite-to-car 50 channel radio system for the broadcast of music and other programming to motorists throughout the United States.

Exhibit (c)

VOTING TRUST AGREEMENT

AGREEMENT, made this 26th day of August, 1997, among CD RADIO INC., a Delaware corporation (the "Company"), DARLENE FRIEDLAND ("DF"), a stockholder of the Company and DAVID MARGOLESE (hereinafter called the "Trustee").

RECITALS

WHEREAS, the Company intends to make through Merrill Lynch & Co. (i) an offer registered under the Securities Act of 1933, as amended, to exchange shares of a new class of its preferred stock for all outstanding shares of its 5% Delayed Convertible Preferred Stock, par value $.001 per share (the "Exchange Offer"), (ii) an underwritten public offering of its common stock, par value $.001 per share ("Common Stock") (the "Stock Offering"), and (iii) an underwritten public offering of senior debt securities of the Company (the "Debt Offering", and together with the Exchange Offer and the Stock Offering, the "Offers); and

WHEREAS, DF owns 2,834,500 shares of Common Stock (the "Current Shares") and ROBERT M. FRIEDLAND ("RMF") is the husband of DF; and

Powered By EDGAR Online 2002. EDGAR Online, Inc.

WHEREAS, in order to assist the Company in marketing and completing the Offerings and for other consideration, DF has agreed to enter into this Agreement and to deposit the Friedland Securities (as defined below) into the trust created hereby; and

WHEREAS, DF agrees to deposit, or cause the deposit into the trust created hereby of the Current Shares and any other shares of capital stock of the Company ("Other Shares") that may hereafter be acquired or beneficially owned by any of RMF, DF, members of RMF's or DF's immediate family or any entity in which any of RMF, DF or members of RMF's or DF's immediate family have, directly or indirectly, a controlling interest or, on a best efforts basis, more than 25% of such entity's equity or debt (the "Friedland Affiliates", acting as a group or severally as the context requires), including, without limitation, any shares of capital stock of the Company that may be issued upon exercise of any rights, warrants or options to purchase, or other securities convertible into, Common Stock (collectively with the Current Shares and the Other Shares, the "Friedland Securities"); and

WHEREAS, in order to induce the Trustee to act hereunder, the Company has agreed to indemnify the Trustee for his services hereunder; and

WHEREAS, in the interests of all the stockholders of the Company, the parties hereto are desirous of creating a trust;

Powered By EDGAR Online 2002. EDGAR Online, Inc.

NOW, THEREFORE, the parties hereby agree as follows:

1. The Friedland Affiliates shall forthwith, and from time to time in the future if any of the Friedland Affiliates acquires additional Friedland Securities, endorse in blank and assign and deliver to the Trustee all certificates for the Friedland Securities and shall do all things necessary for the transfer of the Friedland Securities to the Trustee on the books of the Company. The Trustee shall issue and deliver in exchange therefor voting trust certificates for the Friedland Securities so transferred to the Trustee in substantially the form attached hereto as APPENDIX I.

2. (a) The Trustee shall hold the Friedland Securities so transferred to him in trust hereunder for the benefit of the Friedland Affiliates, under the terms and conditions set forth herein.

(b) Notwithstanding any provision hereof, each of the Friedland Affiliates shall have the right to sell, assign, transfer or pledge any or all of the Friedland Securities to unaffiliated third parties and the Trustee shall use his reasonable efforts to cause any Friedland Securities so sold, assigned, transferred or hypothecated to be transferred promptly to the purchaser, assignee, transferee or pledgee thereof against delivery of the voting trust certificates representing the Friedland Securities; PROVIDED in the case of a pledge that the pledgee shall not have any right to vote the Friedland Securities. Friedland Securities sold, assigned, transferred or hypothecated to an affiliate of any of the Friedland Affiliates shall

Powered By EDGAR Online 2002. EDGAR Online, Inc.

remain in trust hereunder subject to the terms of this Agreement. Friedland Securities sold or transferred to third parties not affiliated with the Friedland Affiliates shall be released from the trust upon such sale or transfer. A third party shall be deemed "affiliated" for purposes of this Section 2(b) if such third party (i) is controlled by, controls or is under common control with RMF, DF or a member of the immediate family of RMF or DF,
(ii) is retained by RMF, DF or a member of the immediate family of RMF or DF as consultant generally operating at the direction of such person, (iii) is employed, directly or indirectly, by RMF, DF, a member of the immediate family of RMF or DF or a person controlled by, controlling or under common control with RMF or DF, or (iv) has made a substantial business investment of any nature in any entity with RMF, DF or a member of the immediate family of RMF or DF. The term "substantial business investment" refers to investments by a third party comprising more than 5% of the equity or debt of a company, partnership or joint venture (other than the Company) in which RMF, DF or an affiliate of RMF or DF has an investment of at least 5%.

3. The Trustee shall surrender to the proper officers of the Company for cancellation all certificates of stock which shall be assigned and delivered to him as hereinbefore provided, and in their stead shall procure new certificates to be issued to him as Trustee under this Agreement.

4. (a) The Trustee shall have only the powers set forth in this Agreement.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

(b) With respect to all Friedland Securities held in trust by the Trustee hereunder, the Friedland Affiliates shall severally retain the entire economic and beneficial ownership rights therein, including without limitation the right to receive dividends and distributions on the Friedland Securities and the right to direct the Trustee in any order whatsoever to sell, assign, transfer, encumber or grant any option therein to or in favor of any person other than RMF, DF or another Friedland Affiliate or agree to do any such thing, except that the Trustee shall have the exclusive and absolute right in respect of such Friedland Securities to vote (in person, by proxy, by written consent or otherwise) the Friedland Securities at all times during the term of this Agreement, including without limitation the right to vote at any election of directors and in favor of or in opposition to any resolution, any dissolution, liquidation, merger or consolidation of the Company, any sale of all or substantially all the Company's assets, any issuance or authorization of securities, or any action of any character whatsoever which may be presented at any meeting or require the consent of stockholders of the Company. David Margolese as Trustee shall vote the Friedland Securities in his discretion. In the case of his incapacity, the successor Trustee or Trustees shall at all times vote in respect of any action as follows: (i) if the matter concerned is the election of directors, then the Trustees shall vote the entire number of shares held by the trust created hereunder for each director (or nominee for director) by multiplying the total number of votes held by the trust by a fraction, the numerator of which is the number of votes cast in respect of shares of the Company other than Friedland Securities (the "Nonaffiliated Votes") for such person and the denominator of which is the sum of the total number of votes

Powered By EDGAR Online 2002. EDGAR Online, Inc.

represented by all shares casting any votes in the election of directors; (ii) where the matter under Delaware law or the Certificate of Incorporation or the Bylaws of the Company requires at least an absolute majority of a all outstanding shares of common stock of the Company in order to be effected, then the Trustees shall vote all of the Friedland Securities in this manner as the majority of all Nonaffiliated Votes are cast for or against the matter; and
(iii) on all other matters, including without limitation any amendment of this Agreement for which a stockholders vote is required under Section 9 hereof, the Trustees shall at all times vote all of the Friedland Securities for or against the matter in the same manner in favor of or in opposition to such matter as Nonaffiliated Votes are cast for or against the matter. If any calculation of votes under the preceding sentence would require a fractional vote, the Trustees shall vote the next lower number of whole shares. Notwithstanding the foregoing, the Trustee or the Trustees shall vote the Friedland Securities against any proposal to elect RMF, DF, any other Friedland Affiliate or any other person affiliated with RMF or DF (as defined in Section 2(b) above) as an officer or director of the Company. The Trustee shall use all reasonable commercial efforts to ensure, with respect to the Friedland Securities held in trust hereunder, that all of the Friedland Securities are counted as being present for the purposes of any quorum required for stockholder action of the Company and to vote as set forth above.

(c) The Trustee may vote with respect to all the Friedland Securities held hereunder in person or by such person or persons as it may from time

Powered By EDGAR Online 2002. EDGAR Online, Inc.

to time select as their proxy; PROVIDED that the Trustee shall at all times do so in conformity with the provisions of Section 4(b) hereof.

(d) The Trustee shall have no authority to sell or otherwise dispose of or to pledge, encumber or hypothecate, any of the stock deposited pursuant to the provisions of this Agreement, unless directed to do so by the Friedland Affiliates as provided in Section 2(b) above.

5. To the fullest extent permitted by law, the Trustee shall not be liable for any vote cast, or consent given by him, or for any other action hereunder taken or omitted by him hereunder, in good faith, or in the absence of gross negligence or willful misconduct. To the fullest extent permitted by law, the Trustee shall not be liable in acting on any notice, request, consent, certificate, instruction, or other paper or document or signature reasonably believed to be genuine and to have been signed by the proper party. The Trustee may consult with legal counsel (reasonably competent for the purpose) and, to the fullest extent permitted by law, any act or omission undertaken by the Trustee in good faith in accordance with the opinion of such legal counsel shall not result in any liability of the Trustee.

6. The Trustee shall collect and receive all dividends that may accrue upon the shares of stock subject to this trust, and shall distribute the same to the Friedland Affiliates in accordance with their respective ownership interests, except

Powered By EDGAR Online 2002. EDGAR Online, Inc.

that dividends payable in capital stock of the Company shall be held in trust as additional Friedland Securities hereunder.

7. In the event of any Trustee dying or resigning or refusing or becoming unable to act (any of which is deemed incapacity), a successor Trustee, which shall be a bank incorporated under the laws of Canada or any of the Provinces thereof having a capital and surplus of at least $500,000,000 CDN, shall be appointed by the Board of Directors of the Company, and any Trustee so appointed shall thereupon be vested with all the duties, powers, and authority of a Trustee hereunder as if originally named herein. No successor Trustee shall be liable for actions or omissions of any other Trustee.

8. This Agreement and the trust created herein shall become effective on the closing of the first of the Offers and shall terminate upon the fifth anniversary of the closing date. This Agreement is subject to any required regulatory approvals. Until termination of this Agreement and the trust created herein as provided above, such trust will be irrevocable. Upon the termination of this Agreement, the Trustee shall assign and transfer to the Friedland Affiliates in accordance with their respective ownership interests all the Friedland Securities remaining in trust hereunder.

9. The Company and its stockholders are hereby expressly made third party beneficiaries of this Agreement and, accordingly, to the fullest extent

2002. EDGAR Online, Inc.

permitted by law, this Agreement may not be amended without the prior written consent of the Company, acting by unanimous vote of its Board of Directors, and approval of the Company's stockholders acting by the affirmative vote of two-thirds of the total voting power of the capital stock of the Company generally entitled to vote on matters submitted to a stockholder vote; PROVIDED, HOWEVER, that the parties hereto may enter into any amendment of this Agreement, without regard to this Section 9, and the parties agree to enter into any such amendment, if such amendment is in the opinion of legal counsel to the Company and DF necessary or appropriate to maintain technical compliance of the terms of this agreement with the laws of the State of Delaware.

10. The Trustee is expressly authorized to incur and pay such reasonable expenses and charges, to employ and pay such agents, attorneys and counsel, and to incur and pay such other charges and expenses as the Trustee may deem reasonably necessary and proper for administering this Agreement. All such charges and expenses shall be paid by the Company. The Company hereby agrees to indemnify any Trustee serving hereunder against any loss or liability, including attorneys' fees, incurred in serving as voting trustee hereunder, to the fullest extent permitted by law.

11. (a) Except as provided in Section 8 above, all of the covenants and agreements contained in this Agreement shall be binding upon, and

Powered By EDGAR Online 2002. EDGAR Online, Inc.

inure to the benefit of, the respective parties and their successors, assigns, heirs, executors, administrators and other legal representatives, as the case may be.

(b) This Agreement, and the rights of the parties hereto, shall be governed by and construed in accordance with the laws of the State of Delaware.

(c) This Agreement may be executed in one or more counterparts, each of which will be deemed an original but all of which together shall constitute one and the same instrument.

(d) If any provision of this Agreement shall be declared void or unenforceable by any court or administrative board of competent jurisdiction, such provision shall be deemed to have been severed from the remainder of the Agreement and this Agreement shall continue in all respects to be valid and enforceable. Each of the parties hereto shall take any and all actions necessary for the enforceability of this Agreement under Delaware Law, including without limitation any necessary filings or actions required by Section 218 of the General Corporation Law of Delaware.

(e) Whenever the context of this Agreement shall so require, the use of the singular number shall include the plural and the use of the gender shall include all genders.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

IN WITNESS WHEREOF, the Company and DF have hereunto set their hands and seals, and the Trustee, in token of his acceptance of the trust hereby created, has hereunto set his hand and seal.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Directors and Stockholders CD Radio Inc.

We have audited the accompanying consolidated balance sheets of CD Radio Inc. and Subsidiary (A Development Stage Enterprise) as of December 31, 1995 and 1996, and the related consolidated statements of operations, stockholders' equity and cash flows for each of the three years in the period ended December 31, 1996 and for the period May 17, 1990 (date of inception) to December 31, 1996. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of CD Radio Inc. and Subsidiary as of December 31, 1995 and 1996, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 1996 and for the period May 17, 1990 (date of inception) to December 31, 1996 in conformity with generally accepted accounting principles.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BUSINESS AND FINANCING

Business

CD Radio Inc. (the "Company") was originally incorporated in the State of Delaware on May 17, 1990, under the name Satellite CD Radio, Inc. On December 7, 1992, the Company changed its name to CD Radio Inc. The Company shortly thereafter formed a wholly-owned subsidiary, Satellite CD Radio, Inc. (SCDR) which is capitalized with nominal assets. On April 29, 1993, the Company acquired all of the outstanding shares of stock of Sky-Highway Radio Corp., a Colorado corporation ("SHRC"), and on December 23, 1994, SHRC was liquidated and dissolved. SCDR and SHRC were formed primarily to apply for certain Federal Communications Commission ("FCC") licenses. CD Radio Inc., SCDR, and SHRC are hereinafter collectively referred to as the "Company."

The Company is a pioneer in the development of a service for broadcasting compact-disc-quality music programming via satellites to subscribers' motor vehicle radios, as well as to portable and home receivers. The Company intends to focus exclusively on providing a consumer service, and anticipates that the equipment required to receive its broadcasting will be manufactured by consumer electronics manufacturers and automakers.

In October 1992, in response to a request from the Company, the FCC voted unanimously to propose the establishment of satellite digital audio radio service ("satellite radio"). At that time, the FCC established a December 15, 1992 cutoff date for FCC License applications. The Company has filed an application to utilize a portion of the frequency spectrum that was allocated for satellite radio by the FCC in January 1995. Subsequent to its acquisition of SHRC, the Company caused SHRC to withdraw its pending application. The Company is currently one of four remaining applicants which have the right to participate in the auction for spectrum scheduled for April 1, 1997.

Auction of Spectrum

On March 3, 1997, the FCC adopted satellite radio licensing rules (the "Licensing Rules") and implemented a spectrum plan that will accommodate only two national satellite radio licenses, both of which are scheduled to be auctioned to the Company and the other three applicants on April 1, 1997. There can be no assurance that the Company will be successful in obtaining one of the two licenses or that the cost of obtaining it would not be material to the Company's operations.

Pursuant to the Licensing Rules, the auction is scheduled to be held among the four existing applicants on April 1, 1997. Prior to the commencement of the auction each applicant must deposit $3 million with the FCC. The minimum opening bid for each FCC License is $8 million. The bidding will continue until only two bidders remain. Within 10 business days following the announcement of winning bidders, each auction winner must deposit with the FCC twenty percent of its winning bid. The $3 million initial deposit is applied toward the twenty percent down payment. The winning bidders will also be required to supplement their applications on file with the FCC within 30 days after the close of bidding. After the FCC has confirmed receipt of each winning bidder's twenty percent payment and acceptance of each winning bidder's application, the FCC will accept petitions to deny the winning bidders' applications. If the FCC dismisses the petitions, the winning bidders will have 10 business days to submit the balance of their winning bids.

Pursuant to the Licensing Rules, certain progress milestones would be required. Licensees would be required to begin satellite construction within one year; and to launch and begin operating their first satellite within four years and begin operating their entire system within six years. Failure to meet those milestones could result in revocation of the FCC License.

1. BUSINESS AND FINANCING -- (CONTINUED)

The Company is in the process of obtaining monetary commitments to allow it to be, in the opinion of management, competitive in the auction process. These commitments include subscriptions to purchase 5% Delayed Convertible Preferred Stock contingent upon the Company's success in the auction.

Financing requirements

In order to commence CD Radio service, the Company will require, among other things, an FCC License to construct, launch and operate its satellites (the "FCC License") and substantial funds, approximately $500 million or more, to finance construction of its satellite system, to plan and implement its service, to provide working capital and to sustain its operations until it generates positive cash flows from operations. The Company will participate in the auction for spectrum scheduled for April 1, 1997. As noted above, the minimum opening bid for each license will be $8 million. The Company has not commenced construction of its satellites and will require substantial additional financing before it is able to do so. Failure to obtain an FCC License and/or inability to attract the required long-term financing will prevent the Company from realizing its objective of providing satellite-delivered radio programming to vehicular radios. Management's plan to fund operations and capital expansion includes the additional sale of debt and equity securities through public and private sources. In absence of the FCC License, the Company believes that its working capital at December 31, 1996 is sufficient to fund planned operations through the first quarter of 1998.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The consolidated financial statements include the accounts of CD Radio Inc. and its wholly-owned subsidiaries, SCDR and SHRC (through the date of SHRC's dissolution, December 23, 1994). Intercompany transactions are eliminated in consolidation. The Company's activities to date principally have been planning and organization, the process of obtaining an FCC License, initiating research and development programs, conducting market research and securing adequate equity capital for the development of its proposed service. Accordingly, the Company's financial statements are presented as those of a development stage enterprise, as prescribed by Statement of Financial Accounting Standards No. 7, "Accounting and Reporting by Development Stage Enterprises".

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reported period. The estimates involve judgments with respect to, among other things, various future factors which are difficult to predict and are beyond the control of the Company. Therefore, actual amounts could differ from these estimates.

Depreciation

Depreciation of office equipment is computed on the straight-line method over three to five years based upon estimated useful lives. Depreciation of technical equipment, primarily satellite communications equipment, is computed on the straight-line method based on an estimated useful life of ten years. Depreciation of demonstration equipment, primarily an automobile used in a prototype system, is computed on the straight-line method based on an estimated useful life of four years.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES -- (CONTINUED)

Cash equivalents

The Company considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents.

Concentration of credit risk

The Company has invested its excess cash in a money market fund with a major bank. These investments are collateralized by the underlying assets of the fund. The fund invests in government securities or short-term interest or dividend-bearing investment-grade securities. The Company has not experienced any losses on its investments.

Income taxes

Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year-end, based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the sum of tax payable for the period and the change during the period in deferred tax assets and liabilities.

Net loss per share

Net loss per common share is based on the weighted average number of common shares and dilutive common share equivalents outstanding during the periods. Options and warrants granted by the Company have not been included in the calculation of net loss per share because such items were anti-dilutive.

In February 1997, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 128, "Earnings Per Share" (FAS 128) to improve the EPS information provided in financial statements. FAS 128 simplifies the existing computational guidelines of Accounting Principles Board Opinion No. 15, "Earnings Per Share," revises the disclosure requirements, and increases the comparability of earnings per share (EPS) data on an international basis. To simplify the EPS computations, the presentation of primary EPS is eliminated and replaced with basic EPS, with the principal difference being that common stock equivalents are not considered in computing basic EPS. In addition, FAS 128 requires dual presentation of basic and diluted EPS regardless of whether they are same. FAS 128 is effective for financial statements issued for periods ending after December 15, 1997. As long as the Company continues to experience net losses, there will be no impact to its net loss per share computation since its common stock equivalents are anti-dilutive and are already not considered in computing loss per share, as noted above.

3. CAPITAL STOCK

Preferred stock

The Board of Directors has the authority to issue shares of preferred stock and fix the terms thereof, without any further vote or action by the stockholders of the Company. In October 1996, in connection with the execution of the Preferred Stock Investment Agreement, the Board of Directors authorized the designation of 5% Delayed Convertible Preferred Stock (the "5% Preferred"). The rights and performance of the 5% Preferred include: (a) cumulative dividends at the rate of $1.25 per share per annum, payable semi-annually, when and as declared by the Board of Directors; (b) liquidation preference equal to issuance price

3. CAPITAL STOCK -- (CONTINUED)

plus any accrued but unpaid dividends; (c) certain redemption and lock-up rights granted to the Company; and (d) certain conversion and registration rights granted to the holders of 5% Preferred.

Warrants

In connection with the Company's initial public offering and the partial exercise of the underwriters' over-allotment option, the Company issued warrants to purchase 745,970 shares of the Company's Common Stock. Additionally, the Company issued to the underwriters as consideration warrants to purchase 123,560 shares of the Company's Common Stock. Each warrant originally entitled the holder to purchase one share of Common Stock at a purchase price of $5.00 per share until March 20, 1995 and at a purchase price of $6.00 per share during the six-month period thereafter. In September 1995, the Company extended the expiration date of the warrants to March 20, 1996, at a purchase price of $6.00 per share. Then, in March 1996, the Company extended the expiration date of these warrants to September 20, 1996 at a purchase price of $6.00 per share. In September 1996 the Company received proceeds of $4,589,088 relating to the exercise of 864,848 warrants. The remaining 4,682 warrants expired unexercised. Of the warrants exercised, 764,848 shares of common stock were issued in exchange for cash and 27,083 shares of common stock were issued in a cashless exercise of 100,000 warrants held by the underwriters.

Stock options and bonuses

Under an amended and restated employment agreement effective June 2, 1992, the Company, on July 30, 1993, granted an officer options to purchase 20,000 shares of the Company's Common Stock at $1.00 per share, exercisable for 7 years from date of grant. This officer also transferred to the Company, for nominal consideration, his rights in connection with certain patent applications. Additionally, on December 23, 1994, in accordance with this agreement, the Company granted this officer options to purchase 112,500 shares of its Common Stock under the terms of the 1994 Stock Option Plan at an exercise price of $1.00 per share, as a result of the completion of a certain specified milestone. The Company has recorded salary expense and additional paid-in-capital in the amount of $112,500, reflecting the difference between the fair market value per share of Common Stock at the measurement date and the exercise price. These options were immediately vested and exercisable. In 1996 this officer was granted options to purchase an additional 60,000 shares of Common Stock under the terms of the 1994 Stock Option Plan at an exercise price of $8.5625. The options granted in 1996 vest based on certain milestones which were not met as of December 31, 1996. If this officer is terminated for any reason other than cause, as defined in the agreement, the Company is obligated to pay to this officer an amount equal to 50% of his annual salary and, at this officer's option, to repurchase all of his shares of Common Stock at a price of $1.25 per share. In 1996, this officer exercised options to purchase 80,000 shares of the Company's Common Stock.

During 1996, options to purchase 400,000 shares of common stock at $8.5625 per share were granted to the Company's Chairman and Chief Executive Officer. These options vest based on a certain milestone which was not met as of December 31, 1996.

In October 1992, the Company entered into a financial consulting services agreement with a financial advisory firm. Pursuant to this agreement, the Company has granted the investment advisory firm an option to purchase 260,000 shares of the Company's Common Stock at $6.25 per share as follows -- 60,000 shares upon execution of the agreement and four 50,000 share increments upon the successful completion of equity and/or debt financing of certain specified amounts during the term of the agreement and for a period of two years following termination of the agreement by the Company. Each option expires three years from the date such option becomes exercisable. As of December 31, 1996 under this agreement, 60,000 options for shares had expired unexercised and none of the remaining options were exercisable. Additionally, the agreement provides,

3. CAPITAL STOCK -- (CONTINUED)

among other things, for the payment in cash to this firm of fees equal to (i) two percent (2%) of the gross proceeds from each equity financing after December 15, 1992 and (ii) one percent (1%) of the gross proceeds from each debt financing, during the term of the agreement and for a period of two years following termination of the agreement by the Company.

In 1995, the Company adopted the 1995 Stock Compensation Plan ("Compensation Plan") from which up to 175,000 shares of the Company's Common Stock could be issued in lieu of cash compensation to employees and or consultants. During 1995 and 1996, respectively, 95,000 and 67,500 shares of the Company's Common Stock were issued pursuant to this Compensation Plan.

Stock option plans

In February 1994, the Company adopted its 1994 Stock Option Plan (the "1994 Plan") and its 1994 Directors' Nonqualified Stock Option Plan (the "Directors' Plan"). Options granted under the 1994 Plan generally vest over a four-year period and generally are exercisable for a period of ten years from the date of grant. In 1996, the Board of Directors voted to increase the number of shares of Common Stock available for issuance pursuant to the 1994 Plan and the Directors' Plan by 350,000 shares. As of December 31, 1996 there are an aggregate of 1,600,000 shares of Common Stock authorized for issuance.

A summary of option activity under the 1994 Plan, the Directors' Plan, and of all other option activity follows:

	1994 PLAN		DIRECTORS' PLAN		OTHER	
	OPTION SHARES	WEIGHTED AVERAGE EXERCISE PRICE PER SHARE	OPTION SHARES	WEIGHTED AVERAGE EXERCISE PRICE PER SHARE	OPTION SHARES	WEIGHTED AVERAGE EXERCISE PRICE PER SHARE

Weighted average remaining contractual life for options outstanding (years)	8.45	8.67	5.71

The weighted average fair value of options granted during 1995 and 1996 was $1.383 and $4.366, respectively.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

Powered By EDGAR Online 2002. EDGAR Online, Inc.

3. CAPITAL STOCK -- (CONTINUED)

An aggregate of 272,500 shares of Common Stock remain available for grant pursuant to either the 1994 Plan or the Directors' Plan. The Company has reserved a total of 1,815,000 shares of Common Stock issuable upon the exercise of outstanding options and options available for issuance pursuant to the Company's stock option plans. As of December 31, 1996, 857,500 options were vested and exercisable.

As a result of certain option grants in 1994 at exercise prices below fair market value, the Company recorded deferred compensation, which is reflected as a component of stockholders' equity on the balance sheets. Deferred compensation is being amortized over the vesting period of the related options. Deferred compensation related to options that were forfeited has been charged to additional paid-in capital. As of December 31, 1996 all deferred compensation relating to the 1994 issuance of stock options had been amortized.

The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123 (FAS 123) as they pertain to financial statement recognition of compensation expense attributable to option grants. If the Company had elected to recognize compensation cost for the option grants consistent with FAS 123, the Company's net loss and net loss per share on a pro-forma basis would have been.

	1995	1996
Net loss -- as reported	$(2,107,349)	$(2,830,595)
Net loss -- pro-forma	$(2,259,434)	$(4,428,995)
Net loss per share -- as reported	$ (0.23)	$ (0.29)
Net loss per share -- pro-forma	$ (0.24)	$ (0.46)

The pro-forma expense related to the stock options is recognized over the vesting period, generally four years. The fair value of each option grant was estimated using the Black-Scholes option pricing model with the following weighted average assumptions for each year:

	1995	1996
Risk-free interest rate	5.81%	6.00%
Expected life of options -- years	2.77	2.79
Expected stock price volatility	75%	75%
Expected dividend yield	N/A	N/A

4. RELATED PARTIES

Since inception, the Company has relied upon related parties for certain consulting, legal and management services. Total expenses incurred in transactions with related parties are as follows:

	FOR THE YEARS ENDED DECEMBER 31,			FOR THE PERIOD MAY 17, 1990 (DATE OF INCEPTION) TO DECEMBER 31,
	1994	1995	1996	1996
Consulting fees...............	$ 47,772	$ 34,575	$187,820	$ 713,210
Legal fees....................	171,523	74,761	70,582	727,550
Management fees...............	--	--	--	361,800
Interest expense..............	25,361	19,783	13,268	113,474
Office space..................	--	--	--	40,500
Patent and FCC fees...........	--	--	--	56,600
Other.........................	--	--	--	26,750
	$244,656	$129,119	$271,670	$ 2,039,884

Of the $187,820 in consulting fee expenses for the year ended December 31, 1996, $119,820 relate to issuance of common stock options to a related party for consulting services performed for the Company.

During the period May 17, 1990 (date of inception) to December 31, 1996, the Company issued Common Stock in lieu of cash in settlement of certain liabilities and expenses as follows:

	FOR THE YEARS ENDED DECEMBER 31,			FOR THE PERIOD MAY 17, 1990 (DATE OF INCEPTION) TO DECEMBER 31,
	1994	1995	1996	1996
Consulting fees...............	$ --	$ 36,330	$ 32,550	$ 168,880
Legal fees....................	--	310,953	521,743	1,028,227
Management fees...............	--	--	--	60,000
Interest expense..............	--	--	--	14,259
Patent and FCC fees...........	--	--	--	39,600
	$ --	$347,283	$554,293	$ 1,310,966

Liabilities settled through the issuance of Common Stock in lieu of cash are reflected in the statements of stockholders' equity.

In April 1994, an officer loaned the Company $240,000 payable on April 1, 1995 and accruing simple interest at the rate of 8% per annum. This loan and accrued interest was repaid in 1996. If this officer is terminated for any reason other than cause, as defined in his amended employment and noncompetition agreement dated June 8, 1994, the Company is obligated to pay this officer $300,000 plus any and all amounts then owed to him by the Company. This officer waived his compensation for the fourth quarter of 1994.

During the second quarter of 1994, a principal stockholder of the Company loaned the Company $560,000 payable on demand and accruing

Powered By EDGAR Online 2002. EDGAR Online, Inc.

simple interest at the rate of 8% per annum. The principal balance

Powered By EDGAR Online 2002. EDGAR Online, Inc.

4. RELATED PARTIES -- (CONTINUED)

of this note and accrued interest thereon, totaling $572,000, was exchanged for 57,200 Units in connection with the Company's public offering.

5. INCOME TAXES

The types of temporary differences between the tax bases of assets and liabilities and their financial reporting amounts that give rise to the deferred tax assets and deferred tax liability and are as follows:

	DECEMBER 31,	
	1995	1996
Capitalized start-up costs........................	$ 4,312,000	$ 5,377,000
Net operating loss carryforwards..................	1,517,500	1,511,300
Deferred compensation.............................	509,800	542,300
Accrual to cash adjustments.......................	38,400	60,500
	6,377,700	7,491,100
Valuation allowance...............................	(6,377,700)	
(7,491,100)		
Net deferred tax asset............................	$ --	$ --

Realization of the net deferred tax asset at the balance sheet date is dependent upon future earnings which are uncertain. Accordingly, a full valuation allowance was recorded against the asset.

At December 31, 1996, the Company has net operating loss carryforwards of approximately $3,713,800 for federal and state income tax purposes available to offset future taxable income. The net operating loss carryforwards expire at various dates beginning 2005. There may be limitations on the annual utilization of these net operating losses as a result of certain changes in ownership that have occurred since the Company's inception. In addition, a significant portion of costs incurred have been capitalized for tax purposes as a result of the Company's status as a start-up enterprise. Once the Company begins it active trade or business, these capitalized costs will be amortized over 60 months. The total capitalized start-up costs of $5,546,000 include $169,000 which when realized would not affect financial statement income but will be recorded directly to shareholders' equity.

6. COMMITMENTS AND CONTINGENCIES

Lease commitment

In October 1992, the Company entered into a lease with an unaffiliated property management company for the office space that the Company previously subleased from a company controlled by a former director and executive officer of the Company. The lease term extends through October 1998. The lease provided for the abatement of rental payments for the first three months of each of the first two years of the lease term. Also, in addition to the base rental payments, the Company will pay a monthly allocation of the building's operating expenses. Minimum annual rental commitments under this lease are as follows for the year ended December 31:

Powered By EDGAR Online 2002. EDGAR Online, Inc.

1997	$219,000
1998	176,000

	$395,000
	========

Powered By EDGAR Online 2002. EDGAR Online, Inc.

6. COMMITMENTS AND CONTINGENCIES -- (CONTINUED)

Total rent expense for the years ended December 31, 1994, 1995 and 1996 and the period May 17, 1990 (date of inception) to December 31, 1996 was $325,798, $274,653, $301,765 and $1,205,008, respectively.

Satellite construction

The Company has entered into an agreement (the "Construction Contract") with Space Systems/Loral pursuant to which Space Systems/Loral has agreed to construct two satellites and, at the Company's option, a third satellite in accordance with stipulated specifications. The Company has extended the Construction Contract on a monthly basis through April 30, 1997 while it negotiates with Space Systems/Loral to amend the contract's technical specifications, pricing and delivery terms. The Company may negotiate with Space Systems/Loral to extend the Construction Contract further or it may permit the contract to expire. The Company believes it will be able to negotiate a favorable contract with Space Systems/Loral for the construction of the satellites, although there can be no assurance that the Company will be able to do so. An initial payment of $100,000 was made by the Company at the time the contract was signed, which is included in Deposits on the balance sheets as of December 31, 1995 and 1996.

Launch services

The Company has reserved two launch slots with Arianespace during the period extending from November 1, 1999 through April 30, 2000. If the Company's satellites are not available for launch during this period, the Company will arrange to launch the satellites on the first launch dates available after the satellites are completed. In order to maintain its launch slots, the Company will need to enter into a definitive agreement with Arianespace by May 31, 1997, providing for the launch of its satellites. The final terms and conditions of any launch agreement are subject to negotiations between the Company and Arianespace. Satellite launches are subject to significant risks, including satellite destruction or damage during launch or failure to achieve proper orbital placement. In connection with this agreement, the Company paid a non-refundable launch date reservation fee of $100,000. This amount, which is included in Deposits on the balance sheets as of December 31, 1995 and 1996 will be credited against the cost of the launch services.

CD RADIO INC. AND SUBSIDIARY
(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 1997
(UNAUDITED)

GENERAL

The accompanying consolidated financial statements do not include all of the information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles. In the opinion of management, all adjustments (consisting only of normal, recurring adjustments) considered necessary to fairly reflect the Company's consolidated financial position and consolidated results of operations have been included.

SATELLITE CONSTRUCTION

In March 1997, the Company extended its satellite construction contract with Space Systems/Loral ("Loral") and amended the contract to allow Loral to commence work associated with the program schedule. In April 1997 the Company made its first payment of $6.5 million under this agreement.

BROADCAST LICENSE

In April 1997, the Federal Communications Commission held an auction for two national satellite radio broadcast licenses. The Company was the winning bidder in such auction for one of these licenses (the "FCC License") with a bid price of $83.3 million. Of the total bid price, $16.7 million has been deposited with the FCC, with the remainder due within 10 business days following the public notice by the FCC that it is prepared to award the license. The Company has classified $66.7 million as designated cash in the June 30, 1997 balance sheet reflecting the balance due the FCC if and when the license is awarded.

PRIVATE PLACEMENT

In April 1997, the Company completed a private placement of its 5% Delayed Convertible Preferred Stock (the "5'% Preferred Stock"). The Company sold a total of 5.4 million shares of the 5% Preferred Stock for an aggregate sale price of $135 million. In connection with the private placement, the Company paid $10.1 million in fees to its placement agent, Libra Investments, Inc. ("Libra"), and $2.7 million to Batchelder & Partners, Inc., a financial advisory firm. In addition, the Company agreed to grant a warrant to Libra to purchase 486,000 shares of the 5% Preferred Stock with an exercise price of $25.00 per share. As a result of the private placement, options to purchase 200,000 shares of Common Stock held by Batchelder & Partners, Inc. vest and become exercisable for three years with an exercise price of $6.25. Reference is made to the Company's report on Form 8-K filed May 5, 1997 for a description of the terms of the 5% Preferred Stock.

SUBSEQUENT EVENTS

On July 22, 1997, the Company entered into two loan agreements (collectively the "AEF Agreements") with Arianespace Finance S.A. ("AEF"), a subsidiary of Arianespace S.A. ("Arianespace"), to finance approximately $105 million of the estimated $176 million price of the launch services to be provided by Arianespace. Under these agreements, the Company is able to borrow funds to meet the progress payments due to Arianespace for the construction of each launch vehicle and other launch costs (the "Loans"). The Company has the opportunity upon satisfying a variety of conditions specified in the AEF Agreements to extend the Loans. Otherwise, if not refinanced, the Company will be required to repay the Loans in full, together with accrued interest and all fees and other amounts due, approximately three months before the applicable launch date. The AEF Agreements impose restrictions on the Company's ability to permit liens on certain assets of the Company, other than liens in favor of AEF. If the loans are extended, the Company will be subject to provisions restricting its ability to incur additional indebtedness or make investments.

On August 5, 1997, Loral agreed to an amendment to the Company's satellite construction contract under which Loral agreed defer for three years $20 million in payments to be made by the Company in connection with the contract. In addition, on the same date, Loral's parent company, Loral Space & Communications Ltd., purchased from the Company 1.9 million shares of common stock for $25 million.

NET LOSS PER COMMON SHARE

Net loss per common share has been computed based on the weighted average number of common and common equivalent shares outstanding. Common equivalent shares representing the common shares that would be issued on conversion of convertible securities and exercise of outstanding stock options and warrants reduced by the number of shares which could be purchased from the related exercise proceeds are not included since their effect would be anti-dilutive.

The net loss attributable to common stockholders has been adjusted for deemed dividends. The deemed dividend relates to the discount feature associated with the Company's 5% Delayed Convertible Preferred Stock, computed in accordance with the SEC's position on accounting for preferred stock which is convertible at a discount to the market. The discount, which totaled approximately $52 million, will be recognized as a return to the 5% Delayed Convertible Preferred Stock shareholders over the period April 1997 through July 1997, which is the minimum period in which the shareholders can realize that return.

	3 months ended June 30, 1997	6 months ended June 30, 1997
Net loss	$ (353,825)	$ (834,985)
Deemed dividends on preferred stock	(43,312,500)	(43,312,500)
Net loss attributable to common stockholders	($43,666,325)	($44,147,485)
Per common share:		
Net loss	$ (.03)	$ (.08)
Deemed dividends on on preferred stock	(4.20)	(4.20)
Net loss attributable to common stockholders	$ (4.23)	$ (4.28)

For reporting periods ending after December 15, 1997, the Company will be required to report earnings (loss) per share in accordance with Statement of Financial Accounting Standards No. 128, "Earnings Per Share" ("SFAS 128"). As long as the Company continues to experience net losses, there will be no material impact on the Company's net loss per share from adoption of SFAS 128.
