SIRIUS XM RADIO INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
(Dollar amounts in thousands, unless otherwise stated)

(1) Business

We broadcast our music, sports, news, talk, entertainment, traffic and weather channels in the United States for a subscription fee through our proprietary satellite radio systems — the SIRIUS system and the XM system. The SIRIUS system consists of four in-orbit satellites with over 125 terrestrial repeaters, satellite uplink facilities and studios. The XM system consists of four in-orbit satellites with over 650 terrestrial repeaters, satellite uplink facilities and studios. The terrestrial repeaters receive and retransmit signals. Subscribers can also receive certain of our music and other channels over the Internet.

Our satellite radios are primarily distributed through automakers (“OEMs”), nationwide through retail locations and through our websites. We have agreements with every major automaker to offer SIRIUS or XM satellite radios as factory- or dealer-installed equipment in their vehicles. SIRIUS and XM radios are also offered to customers of certain daily rental car companies.

Subscription fees are our primary source of revenue, with most of our customers subscribing to an annual, semi-annual, quarterly or monthly plan. We also derive revenue from activation and other subscription-related fees, the sale of advertising on select non-music channels, the direct sale of satellite radios and accessories, and other ancillary services, such as our Backseat TV, data and weather services.

In certain cases, automakers include a subscription to our radio services in the sale or lease price of vehicles. The length of these prepaid subscriptions varies, but is typically three to twelve months. In many cases, we receive subscription payments from automakers in advance of the activation of our service. We also reimburse various automakers for certain costs associated with satellite radios installed in their vehicles.

We also have an interest in the satellite radio services offered in Canada.

Unless otherwise indicated,

- “we,” “us,” “our,” the “company,” “the companies” and similar terms refer to Sirius XM Radio Inc. and its consolidated subsidiaries;
- “SIRIUS” refers to Sirius XM Radio Inc. and its consolidated subsidiaries, excluding XM Satellite Radio Inc., and its consolidated subsidiaries; and
- “XM” refers to XM Satellite Radio Inc. and its consolidated subsidiaries.

In July 2008, our wholly owned subsidiary, Vernon Merger Corporation, merged with and into XM Satellite Radio Holdings Inc., a Delaware corporation, and, as a result, XM Satellite Radio Holdings Inc. became our wholly-owned subsidiary (the “Merger”). In April 2010, XM Satellite Radio Holdings Inc. merged with and into XM Satellite Radio Inc., which was the surviving corporation of the merger. As a result, XM Satellite Radio Inc. became a direct wholly-owned subsidiary of Sirius XM Radio Inc.

(2) Principles of Consolidation and Basis of Presentation

Principles of Consolidation

The accompanying unaudited consolidated financial statements of Sirius XM Radio Inc. and subsidiaries have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”), the instructions to Form 10-Q and Article 10 of Regulation S-X of the United States Securities and Exchange Commission (“SEC”) for interim financial reporting. Accordingly, these interim financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. All significant intercompany transactions have been eliminated in consolidation.

SIRIUS XM RADIO INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS — Continued
(Dollar amounts in thousands, unless otherwise stated)

Basis of Presentation

In the opinion of management, all normal recurring adjustments necessary for a fair presentation of our unaudited consolidated financial statements as of June 30, 2010, and for the three and six months ended June 30, 2010 and 2009 have been made.

Interim results are not necessarily indicative of the results that may be expected for a full year. This Quarterly Report on Form 10-Q should be read together with our Annual Report on Form 10-K for the year ended December 31, 2009, that was filed with the SEC on February 25, 2010.

We have evaluated events subsequent to the balance sheet date and prior to the filing of this Quarterly Report on Form 10-Q for the six months ended June 30, 2010 and have determined no events have occurred that would require adjustment to our unaudited consolidated financial statements as presented.

(3) Summary of Significant Accounting Policies**Use of Estimates**

In presenting unaudited consolidated financial statements, management makes estimates and assumptions that affect the reported amounts and accompanying notes. Estimates, by their nature, are based on judgment and available information. Actual results could differ materially from those estimates.

Significant estimates inherent in the preparation of the accompanying unaudited consolidated financial statements include revenue recognition, asset impairment, useful lives of our satellites, share-based payment expense, and valuation allowances against deferred tax assets. Economic conditions in the United States could have a material impact on our accounting estimates.

Recent Accounting Pronouncements

The Financial Accounting Standards Board (“FASB”) updated Accounting Standards Codification (“ASC”) 470 to incorporate ASU 2009-15, *Accounting for Own-Share Lending Arrangements in Contemplation of Convertible Debt Issuance*, into the ASC. This standard requires share-lending arrangements in an entity’s own shares to be initially measured at fair value and treated as an issuance cost, excluded from basic and diluted earnings per share, and requires an entity to recognize a charge to earnings if it becomes probable the counterparty will default on the arrangement. This guidance was adopted as of January 1, 2010, as required, on a retrospective basis for all arrangements outstanding as of that date. The following table reflects the retrospective adoption of ASU 2009-15 on our December 31, 2009 consolidated balance sheet:

Balance Sheet Line Item:	As Originally Reported	Retrospective Adjustments	As Currently Reported
Deferred financing fees, net	\$ 8,902	\$ 57,505	\$ 66,407

The following table reflects the retrospective adoption of ASU 2009-15 on our statement of operations for the three and six months ended June 30, 2009:

Statement of Operations Line Item:	For the Three Months Ended June 30, 2009			For the Six Months Ended June 30, 2009		
	As Originally Reported	Retrospective Adjustments	As Currently Reported	As Originally Reported	Retrospective Adjustments	As Currently Reported

Net (loss) income	(157,358)	(2,286)	(159,644)	(393,955)	(4,523)	(398,478)

For the three and six months ended June 30, 2010, we recorded \$2,491 and \$4,918 in interest expense related to the amortization of the costs associated with the share-lending arrangement and other issuance costs. As of June 30, 2010, the unamortized balance of the debt issuance costs was \$56,420, with \$55,292 recorded in deferred financing fees, net, and \$1,128 recorded in long-term related party assets. As of June 30, 2010, the estimated fair value of the remaining 202,400,000 loaned shares was approximately \$192,280.

Earnings per Share (“EPS”)

Basic net income (loss) per common share is calculated using the weighted average common shares outstanding during each reporting period. Diluted net income (loss) per common share adjusts the weighted average common shares outstanding for the potential dilution that could occur if common stock equivalents (convertible debt and preferred stock, warrants, stock options and restricted stock shares and units) were exercised or converted into common stock. For the three and six months ended June 30, 2010, common stock equivalents of approximately 686,407,346 and 692,011,065, respectively, were not included in the calculation of diluted net income per common share as the effect would have been anti-dilutive. Due to the net loss for the three and six months ended June 30, 2009, common stock equivalents of 3,414,940,143 were excluded from net loss per common share because they were anti-dilutive.

Accounts Receivable

Accounts receivable are stated at amounts due from customers net of an allowance for doubtful accounts. Our allowance for doubtful accounts considers historical experience, the age of amounts due, current economic conditions and other factors that may affect the debtor’s ability to pay.

Accounts receivable, net, consists of the following:

	June 30, 2010	December 31, 2009
Gross accounts receivable	\$ 122,513	\$ 122,247

Inventory

Inventory consists of finished goods, refurbished goods, chip sets and other raw material components used in manufacturing radios. Inventory is stated at the lower of cost, determined on a first-in, first-out basis, or market. We record an estimated allowance for inventory that is considered slow moving, obsolete or whose carrying value is in excess of net realizable value. The provision related to products purchased for resale in our direct to consumer distribution channel and components held for resale by us is reported as a component of Cost of equipment in our unaudited consolidated statements of operations. The provision related to inventory consumed in our OEM and retail distribution channel is reported as a component of Subscriber acquisition costs in our unaudited consolidated statements of operations.

Inventory, net, consists of the following:

	June 30, 2010	December 31, 2009
Raw materials	\$ 15,160	\$ 17,370
Finished goods	21,144	19,704

Fair Value of Financial Instruments

The fair value of a financial instrument is the amount at which the instrument could be exchanged in an orderly transaction between market participants to sell the asset or transfer the liability. As of June 30, 2010 and December 31, 2009, the carrying amounts of cash and cash equivalents, accounts and other receivables, and accounts payable approximated fair value due to the short-term nature of these instruments.

The fair value for publicly traded instruments is determined using quoted market prices while fair value for non-publicly traded instruments is based upon estimates from a market maker and brokerage firm. As of June 30, 2010 and December 31, 2009, the carrying value of our debt was \$3,028,230 and \$3,077,163, respectively; and the fair value approximated \$3,248,139 and \$3,195,375, respectively.

Reclassifications

Certain amounts in our prior period consolidated financial statements have been reclassified to conform to our current period presentation.

(4) Goodwill

Goodwill represents the excess of the purchase price over the estimated fair value of net tangible and identifiable intangible assets acquired in business combinations. Our annual impairment assessment is performed as of October 1st of each year. An assessment is performed at other times if events or circumstances indicate it is more likely than not that the asset is impaired. During the three and six months ended June 30, 2010 and 2009, there were no indicators of impairment and no impairment loss was recorded to our goodwill.

Indefinite Life Intangible Assets

We have identified our FCC licenses and the XM trademark as indefinite life intangible assets after considering the expected use of the assets, the regulatory and economic environment within which they are used and the effects of obsolescence on their use.

We hold FCC licenses to operate our satellite digital audio radio service and provide ancillary services. The following table outlines the years in which each of our licenses expire:

FCC license	Expiration year
SIRIUS FM-1 satellite	2017
SIRIUS FM-2 satellite	2017
SIRIUS FM-3 satellite	2017
SIRIUS FM-4 ground spare satellite	2017
SIRIUS FM-5 satellite	2017
XM-1 satellite	2014
XM-2 satellite	2014
XM-3 satellite	2013
XM-4 satellite	2014

Prior to expiration, we will be required to apply for a renewal of our FCC licenses. The renewal and extension of our licenses is reasonably certain at minimal cost, which is expensed as incurred. Each of the FCC licenses authorizes us to use the broadcast spectrum, which is a renewable, reusable resource that does not deplete or exhaust over time.

In connection with the Merger, \$250,000 of the purchase price was allocated to the XM trademark. As of June 30, 2010, there were no legal, regulatory or contractual limitations associated with the XM trademark.

We evaluate our indefinite life intangible assets for impairment on an annual basis as of October 1st of each year. An assessment is performed at other times if events or circumstances indicate it is more likely than not that the assets have been impaired. During the three and six months ended June 30, 2010 and 2009, there were no indicators of impairment and no impairment loss was recorded for intangible assets with indefinite lives.

Definite Life Intangible Assets

Subscriber relationships are amortized on an accelerated basis over 9 years, which reflects the estimated pattern in which the economic benefits will be consumed. Other definite life intangible assets include certain licensing agreements, which are amortized over a weighted average useful life of 9.1 years on a straight-line basis.

(6) Subscriber Revenue

Subscriber revenue consists of subscription fees, revenue derived from our agreements with certain daily rental fleet operators, non-refundable activation and other fees as well as the effects of rebates. Revenues received from OEMs for prepaid subscriptions included in the sale or lease price of vehicles are also included in subscriber revenue over the service period (that is, after sale, lease or subscriber activation).

Subscriber revenue consists of the following:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
Subscription fees	\$ 598,217	\$ 556,400	\$ 1,172,974	\$ 1,109,958

(7) Interest Costs

We capitalize a portion of the interest on funds borrowed to finance the construction costs of our satellites. The following is a summary of our interest costs:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009

Depreciation and amortization expense on property and equipment was \$52,412 and \$57,477 for the three months ended June 30, 2010 and 2009, respectively, and \$105,381 and \$119,413 for the six months ended June 30, 2010 and 2009, respectively.

Satellites

SIRIUS' original three orbiting satellites were launched in 2000. A spare SIRIUS satellite was delivered to ground storage in 2002. SIRIUS' original three-satellite constellation and terrestrial repeater network were placed into service in 2002. In June 2009, SIRIUS launched a fourth satellite into a geostationary orbit, which was placed into service in August 2009.

SIRIUS has an agreement with Space Systems/Loral for the design and construction of a sixth SIRIUS satellite ("FM-6"). In January 2008, SIRIUS entered into an agreement with International Launch Services ("ILS") to secure a satellite launch on a Proton rocket.

XM owns four orbiting satellites; XM-1 and XM-2 serve as in-orbit spares while XM-3 and XM-4 transmit the XM signal. The XM-1 through XM-4 satellites were launched in March 2001, May 2001, February 2005 and October 2006, respectively. Space Systems/Loral has constructed a fifth satellite, XM-5, for use in the XM system. In October 2009, we entered into an agreement with ILS to secure a satellite launch for XM-5 on a Proton rocket.

During the six months ended June 30, 2010, we capitalized interest and expenditures related to the construction of our satellites and related launch vehicles for FM-6 and XM-5.

Neither General Motors nor American Honda is considered a related party following May 27, 2010, the date on which individuals nominated by General Motors and American Honda ceased to be members of our board of directors.

Liberty Media

In February, 2009, we entered into an Investment Agreement (the "Investment Agreement") with an affiliate of Liberty Media Corporation, Liberty Radio, LLC (collectively, "Liberty Media"). Pursuant to the Investment Agreement, in March 2009 we issued to Liberty Radio, LLC 12,500,000 shares of our Convertible Perpetual Preferred Stock, Series B (the "Series B Preferred Stock"), with a liquidation preference of \$0.001 per share in partial consideration for certain loan investments. Liberty Media has representatives on our board of directors.

The Series B Preferred Stock is convertible into approximately 2,586,976,761 shares of our common stock. Liberty Media has agreed not to acquire more than 49.9% of our outstanding common stock prior to March 2012, except that Liberty Media may acquire more than 49.9% of our outstanding common stock at any time after March 2011 pursuant to any cash tender offer for all of the outstanding shares of our common stock that are not beneficially owned by Liberty Media or its affiliates at a price per share greater than the closing price of the common stock on the trading day preceding the earlier of the public announcement or commencement of such tender offer. The Investment Agreement also provides for certain other standstill provisions during the three year period ending in March 2012.

Liberty Media has advised us that as of June 30, 2010 and December 31, 2009, respectively, it owned the following principal amounts of our debt, excluding discounts of \$16,194 and \$15,642, respectively:

	June 30, 2010	December 31, 2009

SIRIUS Canada

In 2005, SIRIUS entered into a license and services agreement with SIRIUS Canada. Pursuant to such agreement, SIRIUS is reimbursed for certain costs incurred to provide SIRIUS Canada service, including certain costs incurred for the production and distribution of radios, as well as information technology support costs. In consideration for the rights granted pursuant to this license and services agreement, SIRIUS has the right to receive a royalty equal to a percentage of SIRIUS Canada's gross revenues based on subscriber levels (ranging between 5% to 15%) and the number of Canadian-specific channels made available to SIRIUS Canada. SIRIUS' investment in SIRIUS Canada is primarily non-voting shares which carry an 8% cumulative dividend.

We recorded the following revenue from SIRIUS Canada. Royalty income is included in other revenue and dividend income is included in Interest and investment income (loss) in our unaudited consolidated statements of operations:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
Royalty income	\$ 1,765	\$ 1,326	\$ 3,440	\$ 2,170

Total revenue from SIRIUS Canada	<u>\$ 1,996</u>	<u>\$ 1,594</u>	<u>\$ 3,897</u>	<u>\$ 2,563</u>

Receivables from royalty and dividend income were fully utilized to absorb a portion of our proportionate share of net losses generated by SIRIUS Canada during the three and six months ended June 30, 2010 and 2009. Total costs that have been or will be reimbursed by SIRIUS Canada for the three months ended June 30, 2010 and 2009 were \$2,393 and \$2,916, respectively, and for the six months ended June 30, 2010 and 2009 were \$4,835 and \$4,914, respectively.

XM Canada

In 2005, XM entered into agreements to provide XM Canada with the right to offer XM satellite radio service in Canada. The agreements have an initial ten year term and XM Canada has the unilateral option to extend the agreements for an additional five years. XM receives a 15% royalty for all subscriber fees earned by XM Canada each month for its basic service and an activation fee for each gross activation of an XM Canada subscriber on XM's system. XM Canada is obligated to pay XM a total of \$70,300 for the rights to broadcast and market National Hockey League ("NHL") games for a 10-year term.

The estimated fair value of deferred revenue from XM Canada as of the Merger date was approximately \$34,000, and is amortized on a straight-line basis through 2020, the expected term of the agreements. As of June 30, 2010 and December 31, 2009, the carrying value of deferred revenue related to XM Canada was \$29,431 and \$31,568, respectively.

XM has extended a Cdn\$45,000 standby credit facility to XM Canada, which can be utilized to purchase terrestrial repeaters or finance royalty and activation fees payable to XM. The facility matures on December 31, 2012 and bears interest at 17.75% per annum. XM has the right to convert unpaid principal amounts into Class A subordinate voting shares of XM Canada at the price of Cdn\$16.00 per share. As of June 30, 2010 and December 31, 2009, amounts drawn by XM Canada on this facility in lieu of payment of fees recorded in related party long-term assets were \$19,666, net of a \$3,991 valuation allowance, and \$18,429, respectively. The June 30, 2010 valuation allowance of \$3,991 related to the absorption of our proportionate share of net loss from our investment in XM Canada shares.

As of June 30, 2010 and December 31, 2009, amounts due from XM Canada also included \$6,924 and \$6,000, respectively, attributable to deferred programming costs and accrued interest (in addition to the amounts drawn on the standby credit facility), all of which is reported as Related party long-term assets.

General Motors and American Honda

XM has a long-term distribution agreement with General Motors Company (“GM”). GM had a representative on our board of directors and was considered a related party through May 27, 2010. GM is no longer a related party. During the term of the agreement, GM has agreed to distribute the XM service. XM subsidizes a portion of the cost of XM radios and makes incentive payments to GM when the owners of GM vehicles with factory- or dealer- installed XM radios become self-paying subscribers to XM’s service. XM also shares with GM a percentage of the subscriber revenue attributable to GM vehicles with factory- or dealer- installed XM radios. As part of the agreement, GM provides certain call-center related services directly to XM subscribers who are also GM customers for which we reimburse GM.

XM makes bandwidth available to OnStar Corporation for audio and data transmissions to owners of XM-enabled GM vehicles, regardless of whether the owner is an XM subscriber. OnStar’s use of XM’s bandwidth must be in compliance with applicable laws, must not compete or adversely interfere with XM’s business, and must meet XM’s quality standards. XM also granted to OnStar a certain amount of time to use XM’s studios on an annual basis and agreed to provide certain audio content for distribution on OnStar’s services.

XM has a long-term distribution agreement with American Honda. American Honda had a representative on our board of directors and was considered a related party through May 27, 2010. American Honda is no longer a related party. XM has an agreement to make a certain amount of its bandwidth available to American Honda. American Honda’s use of XM’s bandwidth must be in compliance with applicable laws, must not compete or adversely interfere with XM’s business, and must meet XM’s quality standards. This agreement remains in effect so long as American Honda holds a certain amount of its investment in us. XM makes incentive payments to American Honda for each purchaser of a Honda or Acura vehicle that becomes a self-paying XM subscriber and shares with American Honda a portion of the subscriber revenue attributable to Honda and Acura vehicles with installed XM radios.

As of May 27, 2010, we had the following aggregate assets and liabilities related to GM and America Honda:

Canadian Entities

Our investments in SIRIUS Canada and XM Canada (the "Canadian Entities") are recorded using the equity method since we have a significant influence, but do not control the Canadian Entities. Under this method, our investments in the Canadian Entities, originally recorded at cost, are adjusted quarterly to recognize our proportionate share of net earnings or losses as they occur, rather than at the time dividends or other distributions are received, limited to the extent of our investment in, advances to and commitments to fund the Canadian Entities. We have a 49.9% economic interest in SIRIUS Canada and a 23.33% economic interest in XM Canada.

Our share of net earnings or losses of the Canadian Entities is recorded to Interest and investment income (loss) in our unaudited consolidated statements of operations. As it relates to XM Canada, this is done on a one month lag. We evaluate the Canadian Entities periodically and record an impairment charge to Interest and investment income (loss) in our unaudited consolidated statements of operations if we determine that decreases in fair value are considered to be other-than temporary. In addition, any payments received from the Canadian Entities in excess of the carrying value of our investments in, advances to and commitments to such entity is recorded to Interest and investment income (loss) in our unaudited consolidated statements of operations.

In addition, during the three and six months ended June 30, 2010, we recorded \$74 and \$109, respectively, of a foreign exchange gain to Accumulated other comprehensive loss, net of tax, related to our investment in XM Canada.

XM holds an investment in Cdn\$4,000 face value of 8% convertible unsecured subordinated debentures issued by XM Canada, for which the embedded conversion feature is bifurcated from the host contract. The host contract is accounted for at fair value as an available-for-sale security with changes in fair value recorded to Accumulated other comprehensive loss, net of tax. The embedded conversion feature is accounted for at fair value as a derivative with changes in fair value recorded in earnings as Interest and investment income (loss). As of June 30, 2010, the carrying values of the host contract and embedded derivative related to our investment in the debentures was \$3,070 and \$3, respectively. As of December 31, 2009, the carrying values of the host contract and embedded derivative related to our investment in the debentures was \$2,961 and \$9, respectively.

Auction Rate Certificates

Auction rate certificates are long-term securities structured to reset their coupon rates by means of an auction. We accounted for our investment in auction rate certificates as available-for-sale securities. In January 2010, our investment in the auction rate certificates was called by the issuer at par plus accrued interest, or \$9,456, resulting in a gain of \$425 in the six months ended June 30, 2010.

Restricted Investments

Restricted investments relate to deposits placed into escrow for the benefit of third parties pursuant to programming agreements and reimbursement obligations under letters of credit issued for the benefit of lessors of office space. As of June 30, 2010 and December 31, 2009, Long-term restricted investments were \$3,396 and \$3,400, respectively.

SIRIUS Debt**(a) 3 1/4% Convertible Notes due 2011**

In October 2004, SIRIUS issued \$230,000 in aggregate principal amount of 3 1/4% Convertible Notes due October 15, 2011 (the "3 1/4% Notes"), which are convertible, at the option of the holder, into shares of our common stock at any time at a conversion rate of 188.6792 shares of common stock for each \$1,000 principal amount, or \$5.30 per share of common stock, subject to certain adjustments. Interest is payable semi-annually on April 15 and October 15 of each year. The obligations under the 3 1/4% Notes are not secured by any of our assets.

(b) Senior Secured Term Loan due 2012

In June 2007, SIRIUS entered into a term credit agreement with a syndicate of financial institutions. The term credit agreement provided for a senior secured term loan (the "Senior Secured Term Loan") of \$250,000, which was fully drawn. Interest under the Senior Secured Term Loan was based, at our option, on (i) adjusted LIBOR plus 2.25% or (ii) the higher of (a) the prime rate and (b) the Federal Funds Effective Rate plus 1/2 of 1.00%, plus 1.25%. On March 16, 2010, we used net proceeds of \$244,714 from the sale of our 8.75% Senior Notes due 2015 to repay the Senior Secured Term Loan. This amount included accrued and unpaid interest of

\$339. We recorded an aggregate loss on extinguishment on the Senior Secured Term Loan of \$2,450 consisting of deferred financing fees to Loss on extinguishment of debt and credit facilities, net, in our unaudited consolidated statements of operations.

(c) 9⁵/₈% Senior Notes due 2013

In August 2005, SIRIUS issued \$500,000 in aggregate principal amount of 9⁵/₈% Senior Notes due 2013 (the “9⁵/₈% Notes”). The obligations under the 9⁵/₈% Notes were not secured by any of our assets. On April 16, 2010, we used net proceeds of \$534,091 from the sale of our 8.75% Senior Notes due 2015 to redeem the 9⁵/₈% Notes. This amount included accrued and unpaid interest of \$10,026 and a repayment premium of \$24,065. We recorded an aggregate loss on extinguishment on the 9⁵/₈% Notes of \$27,705 consisting primarily of unamortized discount, deferred financing fees and repayment premium to Loss on extinguishment of debt and credit facilities, net, in our unaudited consolidated statements of operations.

(d) 8.75% Senior Notes due 2015

In March 2010, SIRIUS issued \$800,000 aggregate principal amount of 8.75% Senior Notes due April 1, 2015 (the “8.75% Notes”). Interest is payable semi-annually in arrears on April 1 and October 1 of each year, commencing on October 1, 2010, at a rate of 8.75% per annum. The 8.75% Notes were issued for \$786,000, resulting in an aggregate original issuance discount of \$14,000. Certain of the domestic wholly-owned subsidiaries of SIRIUS guarantee SIRIUS’ obligations under the 8.75% Notes on a senior unsecured basis. SIRIUS operates XM as an unrestricted subsidiary under the 8.75% Notes indenture.

(e) 9.75% Senior Secured Notes due 2015

In August 2009, SIRIUS issued \$257,000 aggregate principal amount of 9.75% Senior Secured Notes due September 1, 2015 (the “9.75% Notes”). Interest is payable semi-annually in arrears on March 1 and September 1 of each year at a rate of 9.75% per annum. The 9.75% Notes were issued for \$244,292, resulting in an aggregate original issuance discount of \$12,708. Certain of the domestic wholly-owned subsidiaries of SIRIUS guarantee SIRIUS’ obligations under the 9.75% Notes. The 9.75% Notes and related guarantees are secured by first-priority liens on substantially all of the assets of SIRIUS and the guarantors other than certain excluded assets (including cash, accounts receivable and certain inventory). SIRIUS operates XM as an unrestricted subsidiary under the 9.75% Notes indenture.

XM Debt

(f) 10% Senior PIK Secured Notes due 2011

At December 31, 2009, XM had outstanding \$113,685 aggregate principal amount of 10% Senior PIK Secured Notes due 2011 (the “PIK Notes”). Interest was payable on the PIK Notes semi-annually in arrears on June 1 and December 1 of each year at a rate of 10% per annum paid in cash from December 1, 2008 to December 1, 2009; at a rate of 10% per annum paid in cash and 2% per annum paid in kind from December 1, 2009 to December 1, 2010; and at a rate of 10% per annum paid in cash and 4% per annum paid in kind from December 1, 2010 to the maturity date. On June 1, 2010, we redeemed all outstanding PIK Notes at a price of 100% plus accrued interest. We recognized an aggregate loss on extinguishment of the PIK Notes of \$4,138, consisting primarily of unamortized discount, as a Loss on extinguishment of debt and credit facilities, net, in our unaudited consolidated statements of operations.

(g) 11.25% Senior Secured Notes due 2013

In June 2009, XM issued \$525,750 aggregate principal amount of 11.25% Senior Secured Notes due 2013 (the “11.25% Notes”). Interest is payable semi-annually in arrears on June 15 and December 15 of each year at a rate of 11.25% per annum. The 11.25% Notes mature on June 15, 2013. The 11.25% Notes were issued for \$488,398, resulting in an aggregate original issuance discount of \$37,352.

Substantially all the domestic wholly-owned subsidiaries of XM guarantee XM’s obligations under the 11.25% Notes. The 11.25% Notes and related guarantees are secured by first-priority liens on substantially all of the assets of XM and the guarantors.

(h) 13% Senior Notes due 2013

In July 2008, XM issued \$778,500 aggregate principal amount of 13% Senior Notes due 2013 (the “13% Notes”). Interest is payable semi-annually in arrears on February 1 and August 1 of each year at a rate of 13% per annum. The 13% Notes are unsecured and mature on August 1, 2013. Substantially all the domestic wholly-owned subsidiaries of XM guarantee XM’s obligations under the 13% Notes.

(i) 9.75% Senior Notes due 2014

XM has outstanding \$5,260 aggregate principal amount of 9.75% Senior Notes due 2014 (the “XM 9.75% Notes”). Interest on the XM 9.75% Notes is payable semi-annually on May 1 and November 1 at a rate of 9.75% per annum. The XM 9.75% Notes are unsecured and mature on May 1, 2014. XM, at its option, may redeem the XM 9.75% Notes at declining redemption prices at any time, subject to certain restrictions. Substantially all the domestic subsidiaries of XM guarantee XM’s obligations under the XM 9.75% Notes.

On August 3, 2010, XM issued to holders of its outstanding XM 9.75% Notes a notice of redemption of the 9.75% Notes at a price of 104.875% of the principal amount of the notes plus accrued interest on August 16, 2010.

(j) 7% Exchangeable Senior Subordinated Notes due 2014

In August 2008, XM issued \$550,000 aggregate principal amount of 7% Exchangeable Senior Subordinated Notes due 2014 (the “Exchangeable Notes”). The Exchangeable Notes are senior subordinated obligations of XM and rank junior in right of payment to its existing and future senior debt and equally in right of payment with its existing and future senior subordinated debt. Substantially all the domestic wholly-owned subsidiaries of XM have guaranteed the Exchangeable Notes on a senior subordinated basis.

The Exchangeable Notes are not guaranteed by SIRIUS or Satellite CD Radio, Inc. Interest is payable semi-annually in arrears on June 1 and December 1 of each year at a rate of 7% per annum. The Exchangeable Notes mature on December 1, 2014. The Exchangeable Notes are exchangeable at any time at the option of the holder into shares of our common stock at an initial exchange rate of 533.3333 shares of common stock per \$1,000 principal amount of Exchangeable Notes, which is equivalent to an approximate exchange price of \$1.875 per share of common stock.

Covenants and Restrictions

Our debt generally requires compliance with certain financial covenants that restrict our ability to, among other things, (i) incur additional indebtedness unless our consolidated leverage ratio would be no greater than 6.00 to 1.00 after the incurrence of the indebtedness, (ii) incur liens, (iii) pay dividends or make certain other restricted payments, investments or acquisitions, (iv) enter into certain transactions with affiliates, (v) merge or consolidate with another person, (vi) sell, assign, lease or otherwise dispose of all or substantially all of our assets, and (vii) make voluntary prepayments of certain debt, in each case subject to exceptions. SIRIUS operates XM as an unrestricted subsidiary for purposes of compliance with the covenants contained in its debt instruments.

Under our debt agreements, the following generally constitute an event of default: (i) a default in the payment of interest; (ii) a default in the payment of principal; (iii) failure to comply with covenants; (iv) failure to pay other indebtedness after final maturity or acceleration of other indebtedness exceeding a specified amount; (v) certain events of bankruptcy; (vi) judgment for payment of money exceeding a specified aggregate amount; and (vii) voidance of subsidiary guarantees, subject to grace periods where applicable. If an event of default occurs and is continuing, our debt could become immediately due and payable.

At June 30, 2010, we were in compliance with our financial debt covenants.

(12) Stockholders’ Equity

Common Stock, par value \$0.001 per share

We were authorized to issue up to 9,000,000,000 shares of common stock as of June 30, 2010 and December 31, 2009. There were 3,885,905,912 and 3,882,659,087 shares of common stock issued and outstanding as of June 30, 2010 and December 31, 2009, respectively.

SIRIUS XM RADIO INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS — Continued

(Dollar amounts in thousands, unless otherwise stated)

As of June 30, 2010, approximately 3,692,600,000 shares of common stock were reserved for issuance in connection with outstanding convertible debt, preferred stock, warrants, incentive stock awards and common stock to be granted to third parties upon satisfaction of performance targets.

To facilitate the offering of the Exchangeable Notes, we entered into share lending agreements with Morgan Stanley Capital Services Inc. (“MS”) and UBS AG London Branch (“UBS”) in July 2008, under which we loaned MS and UBS an aggregate of 262,400,000 shares of our common stock in exchange for a fee of \$.001 per share. The obligations of MS to us under its share lending agreement are guaranteed by its parent company, Morgan Stanley. During the third quarter of 2009, MS returned to us 60,000,000 shares of our common stock borrowed in July 2008, which were retired upon receipt. As of June 30, 2010, there were 202,400,000 shares loaned under the facilities.

Under each share lending agreement, the share loan will terminate in whole or in part, as the case may be, and the relevant borrowed shares must be returned to us upon the earliest of the following: (i) the share borrower terminates all or a portion of the loan between it and us, (ii) we notify the share borrower that some of the Exchangeable Notes as to which borrowed shares relate have been exchanged, repaid or repurchased or are otherwise no longer outstanding, (iii) the maturity date of the Exchangeable Notes, December 1, 2014, (iv) the date as of which the entire principal amount of the Exchangeable Notes ceases to be outstanding as a result of exchange, repayment, repurchase or otherwise or (v) the termination of the share lending agreement by the share borrower or by us upon default by the other party, including the bankruptcy of us or the share borrower or, in the case of the MS share lending agreement, the guarantor. A share borrower may delay the return of borrowed shares for up to 30 business days (or under certain circumstances, up to 60 business days) if such share borrower is legally prevented from returning the borrowed shares to us, in which case the share borrower may, under certain circumstances, choose to pay us the value of the borrowed shares in cash instead of returning the borrowed shares. Once borrowed shares are returned to us, they may not be re-borrowed under the share lending agreements. There were no requirements for the share borrowers to provide collateral.

The shares we loaned to the share borrowers are issued and outstanding for corporate law purposes, and holders of borrowed shares (other than the share borrowers) have the same rights under those shares as holders of any of our other outstanding common shares. Under GAAP, the borrowed shares are not considered outstanding for the purpose of computing and reporting our net income (loss) per common share. The accounting method may change if, due to a default by either UBS or MS (or Morgan Stanley, as guarantor), the borrowed shares, or the equivalent value of those shares, will not be returned to us as required under the share lending agreements.

In January 2004, SIRIUS signed a seven-year agreement with a sports programming provider. Upon execution of this agreement, SIRIUS delivered 15,173,070 shares of common stock valued at \$40,967 to that programming provider. These shares of common stock are subject to transfer restrictions which lapse over time. We recognized share-based payment expense associated with these shares of \$219 in each of the three months ended June 30, 2010 and 2009 and \$1,860 in each of the six months ended June 30, 2010 and 2009. As of June 30, 2010, there was a \$5,560 remaining balance of common stock value included in other current assets. As of December 31, 2009, there was a \$7,420 remaining balance of common stock value included in other current assets and other long-term assets in the amount of \$5,852 and \$1,568, respectively.

Preferred Stock, par value \$0.001 per share

We were authorized to issue up to 50,000,000 shares of undesignated preferred stock as of June 30, 2010 and December 31, 2009. There were 24,808,959 shares of Series A Convertible Preferred Stock (“Series A Preferred Stock”) issued and outstanding as of June 30, 2010 and December 31, 2009. There were 12,500,000 shares of Convertible Perpetual Preferred Stock, Series B (the “Series B Preferred Stock”), issued and outstanding as of June 30, 2010 and December 31, 2009. There were no shares of Preferred Stock, Series C Junior (the “Series C Junior Preferred Stock”), issued and outstanding as of June 30, 2010 and December 31, 2009.

The Series A Preferred Stock is redeemable at the option of the holder at any time for an equal number of shares of our common stock.

The Series B Preferred Stock is convertible into shares of our common stock at the rate of 206.9581409 shares of common stock for each share of Series B Preferred Stock, representing approximately 40% of our outstanding shares of common stock (after giving effect to such conversion). As the holder of the Series B Preferred Stock, Liberty Radio LLC is entitled to a number of votes equal to the number of shares of our common stock into which each such Series B Preferred Stock share is convertible. Liberty Radio LLC will also receive dividends and distributions ratably with our common stock, on an as-converted basis. With respect to dividend rights, the Series B Preferred Stock ranks evenly with our common stock, the Series A Preferred Stock, and each other class or series

SIRIUS XM RADIO INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS — Continued
(Dollar amounts in thousands, unless otherwise stated)

of our equity securities not expressly provided as ranking senior to the Series B Preferred Stock. With respect to liquidation rights, the Series B Preferred Stock ranks evenly with each other class or series of our equity securities not expressly provided as ranking senior to the Series B Preferred Stock, and will rank senior to our common stock and the Series A Preferred Stock.

In 2009, we accounted for the issuance of Series B Preferred Stock by recording a \$227,716 increase to additional paid-in capital for the amount of allocated proceeds received and an additional \$186,188 increase to paid-in capital for the beneficial conversion feature, which was recognized as a charge to retained earnings.

In 2009, our board of directors created and reserved for issuance in accordance with the Rights Plan (as described below) 9,000 shares of the Series C Junior Preferred Stock. The shares of Series C Junior Preferred Stock are not redeemable and rank, with respect to the payment of dividends and the distribution of assets, junior to all other series of our preferred stock, unless the terms of such series shall so provide.

Warrants

We have issued warrants to purchase shares of common stock in connection with distribution and programming agreements, satellite purchase agreements and certain debt issuances. As of June 30, 2010, approximately 46,946,000 warrants to acquire an equal number of shares of common stock with an average exercise price of \$3.00 per share were outstanding. Warrants vest over time or upon the achievement of milestones and expire at various times through 2015. We did not have any warrant related expense for both the three months ended June 30, 2010 and 2009 and \$0 and \$2,522 for the six months ended June 30, 2010 and 2009, respectively.

Rights Plan

In April 2009, our board of directors adopted a rights plan. The terms of the rights and the rights plan are set forth in a Rights Agreement dated as of April 29, 2009 (the "Rights Plan"). The Rights Plan is intended to act as a deterrent to any person or group acquiring 4.9% or more of our outstanding common stock (assuming for purposes of this calculation that all of our outstanding convertible preferred stock is converted into common stock) without the approval of our board of directors. The Rights Plan will continue in effect until August 1, 2011, unless it is terminated or redeemed earlier by our board of directors.

(13) Benefits Plans

We maintain five share-based benefits plans. We satisfy awards and options granted under these plans through the issuance of new shares. We recognized share-based payment expense of \$15,682 and \$29,482 for the three months ended June 30, 2010 and 2009, respectively, and \$31,223 and \$45,496 for the six months ended June 30, 2010 and 2009, respectively. We did not realize any income tax benefits from share-based benefits plans during the three and six months ended June 30, 2010 and 2009 as a result of the full valuation allowance is maintained for substantially all net deferred tax assets.

2009 Long-Term Stock Incentive Plan

In May 2009, our stockholders approved the Sirius XM Radio Inc. 2009 Long-Term Stock Incentive Plan (the "2009 Plan"). Employees, consultants and members of our board of directors are eligible to receive awards under the 2009 Plan. The 2009 Plan provides for the grant of stock options, restricted stock, restricted stock units and other stock-based awards that the compensation committee of our board of directors may deem appropriate. Vesting and other terms of stock-based awards are set forth in the agreements with the individuals receiving the awards. Stock-based awards granted under the 2009 Plan are generally subject to a vesting requirement. Stock-based awards generally expire ten years from the date of grant. Each restricted stock unit entitles the holder to receive one share of common stock upon vesting. As of June 30, 2010, approximately 323,160,838 shares of common stock were available for future grants under the 2009 Plan.

Other Plans

SIRIUS and XM maintain four other share-based benefit plans — the XM 2007 Stock Incentive Plan, the Amended and Restated Sirius Satellite Radio 2003 Long-Term Stock Incentive Plan, the XM 1998 Shares Award Plan and the XM Talent Option Plan. These plans generally provided for the grant of stock options, restricted stock, restricted stock units and other stock-based awards. No further awards may be made under these plans. Outstanding awards under these plans are being continued.

Forfeited	(185)	2.69
Nonvested, June 30, 2010	<u>2,543</u>	<u>\$ 2.58</u>

The weighted average grant date fair value of restricted stock units granted during the six months ended June 30, 2010 was \$0; no restricted stock units were granted during the period. The weighted average grant date fair value of restricted stock units granted during the six months ended June 30, 2009 was \$0.37. The total intrinsic value of restricted stock units that vested during the six months ended June 30, 2010 and 2009 was \$3,885 and \$10,721, respectively.

We recognized share-based payment expense associated with restricted stock units and shares of restricted stock of \$2,116 and \$6,000 for the three months ended June 30, 2010 and 2009, respectively, and \$4,674 and \$12,857 for the six months ended June 30, 2010 and 2009, respectively.

Total unrecognized compensation costs related to unvested share-based payment awards granted to employees and members of our board of directors at June 30, 2010 and December 31, 2009, net of estimated forfeitures, was \$95,666 and \$114,068, respectively. The weighted-average period over which the compensation expense for these awards is expected to be recognized is three years as of June 30, 2010.

401(k) Savings Plan

We sponsor the Sirius XM Radio 401(k) Savings Plan (the “Sirius XM Plan”) for eligible employees.

The Sirius XM Plan allows eligible employees to voluntarily contribute from 1% to 50% of their pre-tax eligible earnings, subject to certain defined limits. We match 50% of an employee’s voluntary contributions, up to 6% of an employee’s pre-tax salary, in the form of shares of common stock. Employer matching contributions under the Sirius XM Plan vest at a rate of 33 1/3% for each year of employment and are fully vested after three years of employment for all current and future contributions. Legacy XM Plan participants are fully vested for all current and future employer contributions. Share-based payment expense resulting from the matching contribution to the plans was \$718 and \$666 for the three months ended June 30, 2010 and 2009, respectively, and \$1,925 and \$1,292 for the six months ended June 30, 2010 and 2009, respectively.

We may also elect to contribute to the profit sharing portion of the Sirius XM Plan based upon the total eligible compensation of eligible participants. These additional contributions in the form of shares of common stock are determined by the compensation committee of our board of directors. Employees are only eligible to receive profit-sharing contributions during any year in which they are employed on the last day of the year. Profit-sharing contribution expense (benefit) was \$2,594 and \$2,756 for the three months ended June 30, 2010 and 2009, respectively, and \$3,844 and \$(965) for the six months ended June 30, 2010 and 2009, respectively.

Long-term debt obligations. Long-term debt obligations include principal payments on outstanding debt and capital lease obligations. Included in the chart above is the aggregate principal balance of \$5,260 of the XM 9.75% Notes. The XM 9.75% Notes, originally scheduled to mature in 2014, were called for redemption in August 2010 and will be redeemed on August 16, 2010. The table above continues to reflect the contractual payments of interest and principal for these notes.

Cash interest payments. Cash interest payments include interest due on outstanding debt through maturity.

Satellite and transmission. We have entered into agreements with third parties to operate and maintain the off-site satellite telemetry, tracking and control facilities and certain components of our terrestrial repeater networks. We have also entered into various agreements to design and construct satellites and related launch vehicles for use in our systems.

SIRIUS has an agreement with Space Systems/Loral to design and construct a sixth satellite, FM-6. In January 2008, SIRIUS entered into an agreement with ILS to secure a satellite launch on a Proton rocket.

Space Systems/Loral has constructed a fifth satellite, XM-5, for use in the XM system. In October 2009, we entered into an agreement with ILS to secure a satellite launch for XM-5 on a Proton rocket.

Programming and content. We have entered into various programming agreements. Under the terms of these agreements, we are obligated to provide payments to other entities that may include fixed payments, advertising commitments and revenue sharing arrangements.

Marketing and distribution. We have entered into various marketing, sponsorship and distribution agreements to promote our brand and are obligated to make payments to sponsors, retailers, automakers and radio manufacturers under these agreements. Certain programming and content agreements also require us to purchase advertising on properties owned or controlled by the licensors. We also reimburse automakers for certain engineering and development costs associated with the incorporation of satellite radios into vehicles they manufacture. In addition, in the event certain new products are not shipped by a distributor to its customers within 90 days of the distributor's receipt of goods, we have agreed to purchase and take title to the product.

Satellite incentive payments. Boeing Satellite Systems International, Inc., the manufacturer of XM's four in-orbit satellites, may be entitled to future in-orbit performance payments with respect to two of XM's four satellites. As of June 30, 2010, we have accrued \$28,575 related to contingent in-orbit performance payments for XM-3 and XM-4 based on expected operating performance over their fifteen year design life. Boeing may also be entitled to an additional \$10,000 if XM-4 continues to operate above baseline specifications during the five years beyond the satellite's fifteen-year design life.

Space Systems/Loral, the manufacturer of SIRIUS' fifth satellite, may be entitled to future in-orbit performance payments. As of June 30, 2010, we have accrued \$13,706 related to contingent performance payments for FM-5 based on expected operating performance over its fifteen-year design life.

Operating lease obligations. We have entered into cancelable and non-cancelable operating leases for office space, equipment and terrestrial repeaters. These leases provide for minimum lease payments, additional operating expense charges, leasehold

improvements and rent escalations that have initial terms ranging from one to fifteen years, and certain leases that have options to renew. The effect of the rent holidays and rent concessions are recognized on a straight-line basis over the lease term, including reasonably assured renewal periods.

Other. We have entered into various agreements with third parties for general operating purposes. In addition to the minimum contractual cash commitments described above, we have entered into agreements with other variable cost arrangements. These future costs are dependent upon many factors, including subscriber growth, and are difficult to anticipate; however, these costs may be substantial. We may enter into additional programming, distribution, marketing and other agreements that contain similar variable cost provisions.

We do not have any other significant off-balance sheet arrangements that are reasonably likely to have a material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

Legal Proceedings

FCC Merger Order. On July 25, 2008, the FCC adopted an order approving the Merger. In September 2008, Mt. Wilson FM Broadcasters, Inc. filed a Petition for Reconsideration of the FCC's merger order. This Petition for Reconsideration remains pending.

Advanced Recording Functionality Disputes/Atlantic Recording Corporation, BMG Music, Capital Records, Inc., Elektra Entertainment Group Inc., Interscope Records, Motown Record Company, L.P., Sony BMG Music Entertainment, UMG Recordings, Inc., Virgin Records, Inc. and Warner Bros. Records Inc. v. XM Satellite Radio Inc. Commencing in May 2006, holders of copyrights in sound recordings and holders of copyrights in musical works brought, or threatened to bring, actions against SIRIUS and XM in connection with the advanced recording functionality included in the XM Inno, the XM NeXus, the XM Helix, the XM SkyFi3 line of radios, the SIRIUS S50 and the SIRIUS Stiletto line of radios. The plaintiffs brought this action in the United States District Court for the Southern District of New York, seeking monetary damages and equitable relief. XM has settled these claims with the major record companies and a significant number of music publishers. XM is in discussions to settle these claims with certain independent record companies and other music publishers.

Prior to introducing retail sales of devices with advanced recording functionality, SIRIUS entered into agreements with the major recording companies concerning such devices. SIRIUS is in discussions to settle the remaining claims with certain independent record companies and music publishers.

SIRIUS and XM believe that the distribution and use of their products do not violate applicable copyright laws. There can be no assurance regarding the ultimate outcome of these matters and settlement discussions, or the significance, if any, to our business, consolidated results of operations or financial position.

Other Matters. In the ordinary course of business, we are a defendant in various lawsuits and arbitration proceedings, including actions filed by subscribers, both on behalf of themselves and on a class action basis; former employees; parties to contracts or leases; and owners of patents, trademarks, copyrights or other intellectual property. None of these actions are, in our opinion, likely to have a material adverse effect on our cash flows, financial position or results of operations.

(15) Condensed Consolidating Financial Information

Sirius Asset Management, LLC and Satellite CD Radio, Inc. (collectively, the "Guarantor Subsidiaries") are our wholly-owned subsidiaries. The Guarantor Subsidiaries have fully and unconditionally, jointly and severally, directly or indirectly, guaranteed, on an unsecured basis, the debt issued by us in connection with certain of our financings. Our unrestricted subsidiary, XM, and its consolidated subsidiaries are non-guarantor subsidiaries (collectively, the "Non-Guarantor Subsidiaries").

These condensed consolidating financial statements should be read in conjunction with the consolidated financial statements of Sirius XM Radio Inc. and Subsidiaries.

Basis of Presentation

In presenting our condensed consolidating financial statements, the equity method of accounting has been applied to (i) our interests in the Guarantor Subsidiaries and Non-Guarantor Subsidiaries and (ii) the Guarantor Subsidiaries' interests in the non-Guarantor Subsidiaries, where applicable, even though all such subsidiaries meet the requirements to be consolidated under GAAP. All intercompany balances and transactions between us, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries have been eliminated, as shown in the column "Eliminations."

Our accounting bases in all subsidiaries, including goodwill and identified intangible assets, have been "pushed down" to the applicable subsidiaries.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(All dollar amounts referenced in this Item 2 are in thousands, unless otherwise stated)

Special Note Regarding Forward-Looking Statements

We have included in this Quarterly Report on Form 10-Q, and from time to time, our management may make statements that may constitute "forward-looking statements" within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. The following cautionary statements identify important factors that could cause our actual results to differ materially from those projected in forward-looking statements made in this Quarterly Report on Form 10-Q and in other reports and documents published by us from time to time. Any statements about our beliefs, plans, objectives, expectations, assumptions, future events or performance are not historical facts and may be forward-looking. These statements are often, but not always, made through the use of words or phrases such as "will likely result," "are expected to," "will continue," "is anticipated," "estimated," "intend," "plan," "projection" and "outlook." For a discussion of other significant factors and risks that could affect our future results and financial condition, see "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2009 and "Management's Discussion and Analysis of Financial Condition and Results of Operations" herein and in Part II, Item 7, of our Annual Report on Form 10-K for the year ended December 31, 2009.

Among the significant factors that could cause our actual results to differ materially from those expressed in the forward-looking statements are:

- our dependence upon automakers, many of which have experienced a dramatic drop in sales, and other third parties, such as manufacturers and distributors of satellite radios, retailers and programming providers;
- the substantial indebtedness of SIRIUS and XM;
- the useful life of our satellites, which have experienced component failures including, with respect to a number of satellites, failures on their solar arrays, and, in certain cases, are not insured; and
- the competitive position of SIRIUS and XM versus other forms of audio and video entertainment including terrestrial radio, HD radio, Internet radio, mobile phones, iPods and other MP3 devices, and emerging next-generation networks and technologies.

We have entered into a number of important content arrangements, including agreements with the National Football League, Howard Stern and NASCAR, which require us to pay substantial sums. Our agreement with Howard Stern expires in December 2010; our agreement with the NFL expires at the end of the 2010-2011 NFL season; and our agreement with NASCAR expires in December 2011. Although preliminary discussions have been held with the National Football League, Howard Stern and NASCAR regarding new programming arrangements, we may not be able to secure new programming arrangements with one or more of these providers, or enter into new agreements at costs that are acceptable to us. If we do not secure new programming arrangements with one or more of these providers, certain of our subscribers may elect to cancel or not to renew their subscriptions. We cannot quantify how many subscribers may cancel or elect not to renew their subscriptions if we fail to secure new programming arrangements with one or more of these providers; however, we have no reason to believe that any such subscriber loss will be material to our business or financial condition taken as a whole.

Because the risk factors referred to above could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf, you should not place undue reliance on any of these forward-looking statements. In addition, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which the statement is made, to reflect the occurrence of unanticipated events or otherwise. New factors emerge from time to time, and it is not possible for us to predict which will arise or to assess with any precision the impact of each factor on our business or the extent to which any factor, or a combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Executive Summary

We broadcast our music, sports, news, talk, entertainment, traffic and weather channels in the United States on a subscription fee basis through our proprietary satellite radio systems — the SIRIUS system and the XM system. The SIRIUS system consists of four in-orbit satellites with over 125 terrestrial repeaters, satellite uplink facilities and studios. The XM system consists of four in-orbit satellites with over 650 terrestrial repeaters, satellite uplink facilities and studios. The terrestrial repeaters receive and retransmit signals. Subscribers can also receive certain of our music and other channels over the Internet, including through an application on the Apple iPhone and Blackberry.

Our satellite radios are primarily distributed through automakers (“OEMs”), nationwide through retail locations and through our websites. We have agreements with every major automaker to offer SIRIUS or XM satellite radios as factory- or dealer-installed equipment in their vehicles. SIRIUS and XM radios are also offered to customers of certain daily rental car companies.

As of June 30, 2010, we had 19,527,448 subscribers; 9,470,068 SIRIUS subscribers and 10,057,380 XM subscribers. Our subscriber totals include subscribers under our regular pricing plans; discounted pricing plans; subscribers that have prepaid, including payments either made or due from automakers and dealers for prepaid subscriptions included in the sale or lease price of a vehicle; certain radios activated for daily rental fleet operators; certain subscribers to SIRIUS Internet Radio and XM Radio Online, our Internet services; and certain subscribers to our weather, traffic, data and video services.

Our primary source of revenue is subscription fees, with most of our customers subscribing on an annual, semi-annual, quarterly or monthly basis. We offer discounts for prepaid and long-term subscription plans, as well as discounts for multiple subscriptions on each platform. We also derive revenue from activation and other subscription-related fees, the sale of advertising on select non-music channels, the direct sale of satellite radios, components and accessories, and other ancillary services, such as our Backseat TV, data and weather services.

In certain cases, automakers include a subscription to our radio services in the sale or lease price of vehicles. The length of these prepaid subscriptions varies, but is typically three to twelve months. In many cases, we receive subscription payments from automakers in advance of the activation of our service. We also reimburse various automakers for certain costs associated with satellite radios installed in their vehicles.

We also have an interest in the satellite radio services offered in Canada. Subscribers to the SIRIUS Canada service and the XM Canada service are not included in our subscriber count. In May 2010, our letter of intent with ACIR DARS Mexico, S. de R.L. de C.V. to pursue a license to offer satellite radio in Mexico was terminated.

In April 2010, XM Satellite Radio Holdings Inc. merged with and into XM Satellite Radio Inc. XM Satellite Radio Inc., together with its subsidiaries, is operated as an unrestricted subsidiary under the agreements governing our existing indebtedness. As an unrestricted subsidiary, transactions between the companies are required to comply with various contractual provisions in our respective debt agreements.

Actual Results of Operations

Set forth below are our results of operations for the three and six months ended June 30, 2010 compared with the three and six months ended June 30, 2009.

Total Revenue

Subscriber Revenue includes subscription fees, activation and other fees and the effects of rebates.

- *Three Months* : For the three months ended June 30, 2010 and 2009, subscriber revenue was \$601,630 and \$561,763, respectively, an increase of 7%, or \$39,867. The increase was primarily attributable to the 4% increase in daily weighted average subscribers, an increase in the sale of “Best of” programming, rate increases on multi-subscription and internet packages and an \$11,209 decrease in the impact of purchase price accounting adjustments attributable to acquired deferred subscriber revenues.
- *Six Months* : For the six months ended June 30, 2010 and 2009, subscriber revenue was \$1,181,139 and \$1,121,151, respectively, an increase of 5%, or \$59,988. The increase was primarily attributable to the 2% increase in daily weighted average subscribers, an increase in the sale of “Best of” programming, rate increases on multi-subscription and internet packages and a \$22,931 decrease in the impact of purchase price accounting adjustments attributable to acquired deferred subscriber revenues.

Future subscriber revenue will be dependent, among other things, upon the growth of our subscriber base, conversion and churn rates, promotions, rebates offered to subscribers and corresponding take-rates, plan mix, subscription prices and the identification of additional revenue streams from subscribers. The impact of purchase price accounting adjustments attributable to acquired subscriber deferred revenues will continue to decline in absolute amount and as a percentage of reported total subscriber revenues through 2013 as balances are earned over the acquired subscription period.

Advertising Revenue includes the sale of advertising on our non-music channels, net of agency fees. Agency fees are based on a stated percentage per the advertising agreement applied to gross billing revenue.

- *Three Months* : For the three months ended June 30, 2010 and 2009, advertising revenue was \$15,797 and \$12,564, respectively, which represents an increase of 26%, or \$3,233. The increase was primarily due to more effective sales efforts and improvements in the national market for advertising.
- *Six Months* : For the six months ended June 30, 2010 and 2009, advertising revenue was \$30,323 and \$24,869, respectively, which represents an increase of 22%, or \$5,454. The increase was primarily due to more effective sales efforts and improvements in the national market for advertising.

Our advertising revenue is subject to fluctuation based on the national economic environment. We expect advertising revenue to grow as our subscribers increase and the economy improves.

Equipment Revenue includes revenue and royalties from the sale of SIRIUS and XM radios, components and accessories.

- *Three Months* : For the three months ended June 30, 2010 and 2009, equipment revenue was \$18,520 and \$10,928, respectively, which represents an increase of 69%, or \$7,592. The increase was driven by royalties from increased OEM installations.
- *Six Months* : For the six months ended June 30, 2010 and 2009, equipment revenue was \$32,802 and \$20,837, respectively, which represents an increase of 57%, or \$11,965. The increase was driven by royalties from increased OEM installations.

We expect equipment revenue to fluctuate based on the volume and mix of equipment sales in our direct to consumer business and OEM installations for which we receive royalty payments for our technology.

Other Revenue includes the U.S. Music Royalty Fee, revenue from affiliates, content licensing fees and syndication fees.

- *Three Months* : For the three months ended June 30, 2010, other revenue was \$63,814 and \$5,574, respectively. The increase was primarily due to the introduction of the U.S. Music Royalty Fee in the third quarter of 2009.

Table of Contents

- *Six Months* : For the six months ended June 30, 2010, other revenue was \$119,280 and \$10,951, respectively. The increase was primarily due to the introduction of the U.S. Music Royalty Fee in the third quarter of 2009.

We expect other revenue to increase as subscribers become subject to the U.S. Music Royalty Fee at subscription renewal dates, as our subscriber base grows and as revenues from affiliates increase. The FCC's order approving the Merger allows us to pass through cost increases incurred since the filing of our FCC merger application as a result of statutorily or contractually required payments to the music, recording and publishing industries for the performance of musical works and sound recordings or for device recording fees.

Operating Expenses

Revenue Share and Royalties include distribution and content provider revenue share, residuals and broadcast and web streaming royalties. Residuals are monthly fees paid based upon the number of subscribers using SIRIUS and XM radios purchased from retailers. Advertising revenue share is recorded to revenue share and royalties in the period in which the advertising is broadcast.

- *Three Months*: For the three months ended June 30, 2010 and 2009, revenue share and royalties were \$107,901 and \$95,831, respectively, which represents an increase of 13%, or \$12,070. The increase was primarily attributable to an increase in our revenues and the statutory royalty rate for the performance of sound recordings, partially offset by a decrease in the revenue sharing rate with an automaker and a \$4,577 increase in the benefit to earnings from the amortization of deferred credits on executory contracts initially recognized in purchase price accounting.
- *Six Months* : For the six months ended June 30, 2010 and 2009, revenue share and royalties were \$206,085 and \$196,297, respectively, which represents an increase of 5%, or \$9,788. The increase was primarily attributable to an increase in our revenues and the statutory royalty rate for the performance of sound recordings, partially offset by a decrease in the revenue sharing rate with an automaker and a \$9,137 increase in the benefit to earnings from the amortization of deferred credits on executory contracts initially recognized in purchase price accounting.

We expect these costs to increase as our revenues grow, as we expand our distribution of SIRIUS and XM radios through automakers, and as a result of statutory increases in the royalty rate for the performance of sound recordings. Under the terms of the Copyright Royalty Board's decision, we paid royalties of 6.5% and 7.0% of gross revenues, subject to certain exclusions, for 2009 and 2010, respectively, and will pay royalties of 7.5% and 8.0% for 2011 and 2012, respectively. Our next rate setting proceeding before the Copyright Royalty Board is scheduled to commence in January 2011 and the results of that proceeding may have an impact on our results of operations. The deferred credits on executory contracts initially recognized in purchase price accounting are expected to provide increasing benefits to revenue share and royalties through the expiration of the acquired executory contracts, principally in 2012 and 2013.

Programming and Content includes costs to acquire, create and produce content and on-air talent costs. We have entered into various agreements with third parties for music and non-music programming that require us to pay license fees, share advertising revenue, purchase advertising on media properties owned or controlled by the licensor and pay other guaranteed amounts. Purchased advertising is recorded as a sales and marketing expense and the cost of sharing advertising revenue is recorded as revenue share and royalties in the period in which the advertising is broadcast.

- *Three Months*: For the three months ended June 30, 2010 and 2009, programming and content expenses were \$72,019 and \$72,102, respectively, which represents a decrease of \$83. The decrease was primarily due to savings in content agreements, partially offset by a \$3,999 reduction in the benefit to earnings from purchase price accounting adjustments attributable to the amortization of the deferred credit on acquired programming executory contracts.
- *Six Months*: For the six months ended June 30, 2010 and 2009, programming and content expenses were \$150,452 and \$152,511, respectively, which represents a decrease of 1%, or \$2,059. The decrease was primarily due to savings in content agreements and production costs, partially offset by increases in personnel costs, general operating expenses and a \$7,742 reduction in the benefit to earnings from purchase price accounting adjustments attributable to the amortization of the deferred credit on acquired programming executory contracts.

Our programming and content expenses, excluding share-based payment expense, are expected to decrease as various agreements expire and are renewed or replaced on more cost effective terms. The impact of purchase price accounting adjustments attributable to the amortization of the deferred credit on acquired programming executory contracts will continue to decline, in absolute amount and as a percentage of reported programming and content, through 2013 as acquired programming contracts expire, principally in 2012 and 2013. Our agreements with third-party content providers are subject to contractual expiration dates. We may

or may not be able to negotiate renewals of these agreements on cost effective terms or at all. See “Special Note Regarding Forward-Looking Statements” for a discussion of these risks.

Customer Service and Billing includes costs associated with the operation of third party customer service centers and our subscriber management systems as well as bad debt expense.

- *Three Months* : For the three months ended June 30, 2010 and 2009, customer service and billing expenses were \$58,414 and \$58,833, respectively, which represents a decrease of 1%, or \$419. The decrease was primarily due to lower call center expenses as a result of moving calls to lower cost locations.
- *Six Months* : For the six months ended June 30, 2010 and 2009, customer service and billing expenses were \$114,625 and \$119,041, respectively, which represents a decrease of 4%, or \$4,416. The decrease was primarily due to lower call center expenses as a result of moving calls to lower cost locations.

We expect our customer care and billing expenses to decrease on a per subscriber basis due to volume efficiencies, but increase overall as our subscriber base grows due to increased call center operating costs, transaction fees and bad debt expense.

Satellite and Transmission consists of costs associated with the operation and maintenance of our satellites; satellite telemetry, tracking and control systems; terrestrial repeater networks; satellite uplink facilities; and broadcast studios.

- *Three Months* : For the three months ended June 30, 2010 and 2009, satellite and transmission expenses were \$19,982 and \$19,615, respectively, which represents an increase of 2%, or \$367. The increase was primarily due to increased satellite insurance expense, partially offset by savings in personnel costs, consulting expenses and repeater maintenance expenses.
- *Six Months* : For the six months ended June 30, 2010 and 2009, satellite and transmission expenses were \$40,100 and \$39,894, respectively, which represents an increase of 1%, or \$206. The increase was primarily due to increased satellite insurance expense, partially offset by savings in personnel costs, consulting expenses and repeater maintenance expenses.

We expect satellite and transmission expenses, excluding share-based payment expense, to increase as we add XM-5 and FM-6 to our in-orbit satellite fleet and continue to enhance our terrestrial repeater networks.

Cost of Equipment includes costs from the sale of SIRIUS and XM radios, components and accessories and provisions for inventory allowance attributable to products purchased for resale in our direct to consumer distribution channel.

- *Three Months* : For the three months ended June 30, 2010 and 2009, cost of equipment was \$7,805 and \$8,051, respectively, which represents a decrease of 3%, or \$246. The decrease was primarily due to lower inventory write-downs, partially offset by increased component sales to manufacturers and distributors.
- *Six Months* : For the six months ended June 30, 2010 and 2009, cost of equipment was \$15,724 and \$16,044, respectively, which represents a decrease of 2%, or \$320. The decrease was primarily due to lower inventory write-downs, partially offset by increased component sales to manufacturers and distributors.

We expect cost of equipment to vary with changes in sales, inventory, and inventory valuations.

Subscriber Acquisition Costs include hardware subsidies paid to radio manufacturers, distributors and automakers, including subsidies paid to automakers who include a SIRIUS or XM radio and a prepaid subscription to our service in the sale or lease price of a vehicle; subsidies paid for chip sets and certain other components used in manufacturing radios; device royalties for certain radios; commissions paid to retailers and automakers as incentives to purchase, install and activate SIRIUS and XM radios; product warranty obligations; and provisions for inventory allowance attributable to inventory consumed in our OEM and retail distribution channels. The majority of subscriber acquisition costs are incurred and expensed in advance of, or concurrent with, acquiring a subscriber. Subscriber acquisition costs do not include advertising, loyalty payments to distributors and dealers of SIRIUS and XM radios and revenue share payments to automakers and retailers of SIRIUS and XM radios.

- *Three Months*: For the three months ended June 30, 2010 and 2009, subscriber acquisition costs were \$110,383 and \$67,651, respectively, which represents an increase of 63%, or \$42,732. The increase was primarily a result of the 46% increase in gross subscriber additions and higher subsidies related to the 103% increase in OEM installations, partially offset by a \$6,963 increase in the benefit to earnings from the amortization of the deferred credit for acquired executory contracts recognized in purchase price accounting.

Table of Contents

- *Six Months* : For the six months ended June 30, 2010 and 2009, subscriber acquisition costs were \$199,762 and \$140,719, respectively, which represents an increase of 42%, or \$59,043. The increase was primarily a result of the 38% increase in gross subscriber additions and higher subsidies related to the 91% increase in OEM installations, partially offset by a \$13,987 increase in the benefit to earnings from the amortization of the deferred credit for acquired executory contracts recognized in purchase price accounting.

We expect total subscriber acquisition costs to fluctuate as increases or decreases in OEM installations, which are primarily driven by manufacturing and penetration rates, and changes in our gross subscriber additions are accompanied by continuing declines in the costs of subsidized components of SIRIUS and XM radios. The impact of purchase price accounting adjustments attributable to the amortization of the deferred credit for acquired subscriber acquisition executory contracts will vary, in absolute amount and as a percentage of reported subscriber acquisition costs, through the expiration of the acquired contracts, principally in 2013. We intend to continue to offer subsidies, commissions and other incentives to acquire subscribers.

Sales and Marketing includes costs for advertising, media and production, including promotional events and sponsorships; cooperative marketing; customer retention and personnel. Cooperative marketing costs include fixed and variable payments to reimburse retailers and automakers for the cost of advertising and other product awareness activities.

- *Three Months* : For the three months ended June 30, 2010 and 2009, sales and marketing expenses were \$56,177 and \$48,693, respectively, which represents an increase of 15%, or \$7,484. The increase was primarily due to additional cooperative marketing and personnel costs, partially offset by reductions in consumer advertising, event marketing and third party distribution support expenses.
- *Six Months* : For the six months ended June 30, 2010 and 2009, sales and marketing expenses were \$105,294 and \$100,116, respectively, which represents an increase of 5%, or \$5,178. The increase was primarily due to additional cooperative marketing and personnel costs, partially offset by reductions in consumer advertising, event marketing and third party distribution support expenses.

We expect sales and marketing expenses, excluding share-based payment expense, to increase as we increase our advertising, retention and promotional activities.

Engineering, Design and Development includes costs to develop chip sets and new products, research and development for broadcast information systems and costs associated with the incorporation of our radios into vehicles manufactured by automakers.

- *Three Months* : For the three months ended June 30, 2010 and 2009, engineering, design and development expenses were \$11,247 and \$11,944, respectively, which represents a decrease of 6%, or \$697. The decrease was primarily due to lower costs associated with chip set development, partially offset by higher personnel costs.
- *Six Months* : For the six months ended June 30, 2010 and 2009, engineering, design and development expenses were \$22,684 and \$21,723, respectively, which represents an increase of 4%, or \$961. The increase was primarily due to higher personnel and overhead costs, partially offset by reductions in other research and development costs.

We expect engineering, design and development expenses, excluding share-based payment expense, to increase in future periods as we develop our next generation chip sets and products.

General and Administrative includes rent and occupancy, finance, legal, human resources, information technology and investor relations costs.

- *Three Months* : For the three months ended June 30, 2010 and 2009, general and administrative expenses were \$59,166 and \$66,716, respectively, which represents a decrease of 11%, or \$7,550. The decrease was primarily due to lower share-based payment expense, consulting, accounting and office costs, partially offset by increased personnel and legal costs.
- *Six Months* : For the six months ended June 30, 2010 and 2009, general and administrative expenses were \$116,746 and \$126,031, respectively, which represents a decrease of 7%, or \$9,285. The decrease was primarily due to lower share-based payment expense, consulting, accounting and office costs, partially offset by increased personnel and legal costs.

We do not expect significant changes in future total general and administrative expenses.

Table of Contents

Depreciation and Amortization represents the systematic recognition in earnings of the acquisition cost of assets used in operations, including our satellite constellations, property, equipment and intangible assets, over their estimated service lives.

- *Three Months*: For the three months ended June 30, 2010 and 2009, depreciation and amortization expense was \$69,230 and \$77,158, respectively, which represents a decrease of 10%, or \$7,928. The decrease was primarily due to a \$13,916 reduction in the charge to earnings attributable to the acquired satellite constellation and subscriber relationships, partially offset by additional depreciation recognized on assets placed in-service subsequent to the Merger.
- *Six Months*: For the six months ended June 30, 2010 and 2009, depreciation and amortization expense was \$139,495 and \$159,524, respectively, which represents a decrease of 13%, or \$20,029. The decrease was primarily due to a \$26,114 reduction in the charge to earnings attributable to the acquired satellite constellation and subscriber relationships, partially offset by additional depreciation recognized on assets placed in-service subsequent to the Merger.

We expect depreciation and amortization expenses to increase in future periods as we complete the construction and launch satellites, which will be partially offset by reductions in the depreciation and amortization associated with the stepped-up basis in assets acquired in the Merger (including intangible assets, satellites, property and equipment) through the end of their estimated service lives, principally through 2017.

Other Income (Expense)

Interest Expense, Net of Amounts Capitalized, includes interest on outstanding debt, reduced by interest capitalized in connection with the construction of our satellites and related launch vehicles.

- *Three Months* : For the three months ended June 30, 2010 and 2009, interest expense was \$76,802 and \$98,080, respectively, which represents a decrease of 22%, or \$21,278. The decrease was primarily due to decreases in the interest rates on our outstanding debt in the three months ended June 30, 2010 compared to the three months ended June 30, 2009 and the redemption of XM's 10% Senior PIK Secured Notes due 2011 on June 1, 2010.
- *Six Months* : For the six months ended June 30, 2010 and 2009, interest expense was \$154,670 and \$166,058, respectively, which represents a decrease of 7%, or \$11,388. The decrease was primarily due to decreases in the interest rates on our outstanding debt in the six months ended June 30, 2010 compared to the six months ended June 30, 2009 and the redemption of XM's 10% Senior PIK Secured Notes due 2011 on June 1, 2010.

Loss on Extinguishment of Debt and Credit Facilities, Net, includes losses incurred as a result of the conversion and retirement of certain debt.

- *Three Months* : For the three months ended June 30, 2010 and 2009, loss on extinguishment of debt and credit facilities, net, was \$31,871 and \$107,756, respectively, which represents a decrease of 70%, or \$75,855. During the three months ended June 30, 2010, the loss was incurred on the repayment of SIRIUS' 9 ⁵/₈ % Senior Notes due 2013 and XM's 10% Senior PIK Secured Notes due 2011. During the three months ended June 30, 2009, the loss was incurred on the repayment of the XM's Amended and Restated Credit Agreement due 2011 and the termination of XM's Second Lien Credit Agreement.
- *Six Months* : For the six months ended June 30, 2010 and 2009, loss on extinguishment of debt and credit facilities, net, was \$34,437 and \$125,713, respectively, which represents a decrease of 73%, or \$91,276. During the six months ended June 30, 2010, the loss was incurred on the repayment of SIRIUS' Senior Secured Term Loan due 2012 and 9 ⁵/₈ % Senior Notes due 2013 and XM's 10% Senior PIK Secured Notes due 2011. During the six months ended June 30, 2009, the loss was incurred on the retirement of SIRIUS' 2 ¹/₂ % Convertible Notes due 2009 and the repayment of the XM's Amended and Restated Credit Agreement due 2011 and the termination of XM's Second Lien Credit Agreement.

Interest and Investment Income (Loss) includes realized gains and losses, dividends, interest income, our share of SIRIUS Canada's and XM Canada's net losses and losses recorded from our investment in XM Canada when the fair value was determined to be other than temporary.

- *Three Months* : For the three months ended June 30, 2010 and 2009, interest and investment income was \$378 and \$9,323, respectively, which represents a decrease of 96%, or \$8,945. The decrease was primarily attributable to higher net losses at XM Canada, lower net income at SIRIUS Canada and a decrease in payments received from SIRIUS Canada in excess of our carrying value of our investments during the three months ended June 30, 2010.

Table of Contents

- *Six Months* : For the six months ended June 30, 2010 and 2009, interest and investment (loss) income was (\$2,892) and \$2,157, respectively, which represents a decrease in income of 234%, or \$5,049. The decrease in income was primarily attributable to higher net losses at XM Canada, lower net income at SIRIUS Canada and a decrease in payments received from SIRIUS Canada in excess of our carrying value of our investments during the six months ended June 30, 2010.

Income Taxes

Income Tax Expense represents the recognition of a deferred tax liability related to the difference in accounting for our FCC licenses, which are amortized over 15 years for tax purposes but not amortized for book purposes in accordance with GAAP.

- *Three Months* : For the three months ended June 30, 2010 and 2009, income tax expense was \$1,466 and \$1,115, respectively, which represents an increase of 31%, or \$351 primarily related to withholding taxes for royalty income.
- *Six Months* : For the six months ended June 30, 2010 and 2009, income tax expense was \$2,633 and \$2,229, respectively, which represents an increase of 18%, or \$404 primarily related to withholding taxes for royalty income.

Subscriber Data

The following table contains actual subscriber data for the three and six months ended June 30, 2010 and 2009, respectively:

Subscribers. At June 30, 2010, we had 19,527,448 subscribers, an increase of 1,114,013 subscribers, or 6%, from the 18,413,435 subscribers as of June 30, 2009.

- *Three Months* : For the three months ended June 30, 2010 and 2009, net additions were 583,249 and (185,999), respectively, an increase in net additions of 769,248. Net additions in our OEM channel increased 586,061 in the three months ended June 30, 2010 compared to the three months ended June 30, 2009. Net reductions in our retail channel decreased 158,538 in the three months ended June 30, 2010 compared to the three months ended June 30, 2009. The improvement in net additions was due to the 46% increase in gross subscriber additions, primarily resulting from an improvement in U.S. auto sales, and the 8% decline in deactivations resulting from improvements in the conversion rate in paid promotional trials and average self-pay monthly churn.

Table of Contents

- *Six Months* : For the six months ended June 30, 2010 and 2009, net additions were 754,690 and (590,421), respectively, an increase in net additions of 1,345,111. Net additions in our OEM channel increased 1,084,152 in the six months ended June 30, 2010 compared to the six months ended June 30, 2009. Net reductions in our retail channel decreased 221,022 in the six months ended June 30, 2010 compared to the six months ended June 30, 2009. The improvement in net additions was due to the 38% increase in gross subscriber additions, primarily resulting from an improvement in U.S. auto sales, and the 10% decline in deactivations resulting from improvements in the conversion rate in paid promotional trials and average self-pay monthly churn.

Average Self-pay Monthly Churn is derived by dividing the monthly average of self-pay deactivations for the quarter by the average self-pay subscriber balance for the quarter. (See accompanying footnotes on pages 52 through 58 for more details.)

- *Three Months* : For the three months ended June 30, 2010 and 2009, our average self-pay monthly churn rate was 1.8% and 2.0%, respectively. The decrease was due to an improving economy, the success of retention and win-back programs and reductions in non-pay cancellations.
- *Six Months* : For the six months ended June 30, 2010 and 2009, our average self-pay monthly churn rate was 1.9% and 2.1%, respectively. The decrease was due to an improving economy, the success of retention and win-back programs and reductions in non-pay cancellations.

Conversion Rate is the percentage of vehicle owners and lessees that convert to self-paying after an initial promotional period. (See accompanying footnotes on pages 52 through 58 for more details.)

- *Three Months* : For the three months ended June 30, 2010 and 2009, our conversion rate was 46.7% and 44.3%, respectively. The increase was primarily due to marketing to promotional period subscribers and an improving economy.
- *Six Months* : For the six months ended June 30, 2010 and 2009, our conversion rate was 45.9% and 44.5%, respectively. The increase was primarily due to marketing to promotional period subscribers and an improving economy.

The discussion of operating results below excludes the effects of stock-based compensation and purchase accounting adjustments associated with the Merger. Financial measures and metrics previously reported as “pro forma” have been renamed “adjusted.”

Adjusted Results of Operations

In this report, we present certain financial performance measures that are not calculated and presented in accordance with generally accepted accounting principles in the United States of America (“Non-GAAP”). These Non-GAAP financial measures include: average monthly revenue per subscriber, or ARPU; subscriber acquisition cost, or SAC, per gross subscriber addition; customer service and billing expenses, per average subscriber; free cash flow; and adjusted EBITDA. These measures include the historical results of operations of XM, including predecessor financial information, and exclude the impact of certain purchase price accounting adjustments. We use these Non-GAAP financial measures to manage our business, set operational goals and as a basis for determining performance-based compensation for our employees.

The purchase price accounting adjustments include the elimination of the benefit to earnings of deferred revenue associated with the investment in XM Canada, the recognition of subscriber revenues not recognized in purchase price accounting and the elimination of the earnings benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and programming providers. The purchase price accounting adjustments to EBITDA do not include the incremental depreciation and amortization for certain XM property, equipment and intangible assets acquired in the Merger and reported on a stepped up basis.

Our adjusted EBITDA also reallocates share-based payment expense from functional operating expense line items to a separate line within operating expenses. We believe the exclusion of share-based payment expense from operating expenses is useful given the significant variation in expense that can result from changes in the fair market value of our common stock, the effect of which is unrelated to the operational conditions that give rise to variations in the components of our operating costs. Specifically, the exclusion of share-based payment expense in subscriber acquisition costs is important to understand the economic impact of the direct costs incurred to acquire subscribers and the effect over time as economies of scale are reached.

We believe these Non-GAAP financial measures provide useful information to investors regarding our financial condition and results of operations. We believe investors find this Non-GAAP financial performance measure useful in evaluating our core trends because it provides a direct view of our underlying contractual costs. We believe investors use our current and projected adjusted EBITDA to estimate our current or prospective enterprise value and to make investment decisions. By providing these Non-GAAP financial measures, together with the reconciliations to the most directly comparable GAAP measure, we believe we are enhancing investors understanding of our business and our results of operations. These Non-GAAP financial measures should be viewed in addition to, and not as an alternative for or superior to, our reported results prepared in accordance with GAAP. Please refer to the footnotes (pages 52 through 58) following our discussion of results of operations for the definitions of these Non-GAAP measures, a further discussion of the usefulness of such Non-GAAP financial measures and reconciliations to the most directly comparable GAAP measure.

Table of Contents

The following table contains our key operating metrics based on our adjusted results of operations for the three and six months ended June 30, 2010 and 2009, respectively (in thousands, except for per subscriber amounts):

	Unaudited Adjusted			
	For the Three Months Ended		For the Six Months Ended	
	June 30,		June 30,	
	2010	2009	2010	2009
ARPU (3)	\$ 11.81	\$ 10.66	\$ 11.65	\$ 10.57
SAC, per gross subscriber addition (4)	\$ 59	\$ 57	\$ 59	\$ 59
Customer service and billing expenses, per average subscriber (5)	\$ 1.01	\$ 1.05	\$ 1.00	\$ 1.06
Free cash flow (6)	\$ 108,331	\$ 12,694	\$ (18,872)	\$ 9,048
Adjusted total revenue (8)	\$ 705,560	\$ 607,836	\$ 1,376,122	\$ 1,213,317
Adjusted EBITDA (7)	\$ 154,313	\$ 132,219	\$ 312,070	\$ 241,055

Note: See pages 52 through 58 for footnotes.

ARPU is derived from total earned subscriber revenue, net advertising revenue and other subscription-related revenue, net of purchase price accounting adjustments, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. (See accompanying footnotes on pages 52 through 58 for more details.)

- *Three Months* : For the three months ended June 30, 2010 and 2009, total ARPU was \$11.81 and \$10.66, respectively. The increase was driven primarily by the introduction of the U.S. Music Royalty Fee in the third quarter of 2009, increased revenues from the sale of “Best of” programming, rate increases on multi-subscription and internet packages, and increased net advertising revenue.
- *Six Months* : For the six months ended June 30, 2010 and 2009, total ARPU was \$11.65 and \$10.57, respectively. The increase was driven primarily by the introduction of the U.S. Music Royalty Fee in the third quarter of 2009, increased revenues from the sale of “Best of” programming, rate increases on multi-subscription and internet packages, and increased net advertising revenue.

SAC, Per Gross Subscriber Addition is derived from subscriber acquisition costs and margins from the direct sale of radios and accessories, excluding share-based payment expense and purchase price accounting adjustments, divided by the number of gross subscriber additions for the period. (See accompanying footnotes on pages 52 through 58 for more details.)

- *Three Months* : For the three months ended June 30, 2010 and 2009, SAC, per gross subscriber addition was \$59 and \$57, respectively. The increase was primarily due to a 46% increase in gross subscriber additions, a 103% increase in OEM production with factory-installed satellite radios associated with the automotive industry recovery, partially offset by lower per radio subsidy rates for certain OEMs and growth in subscriber reactivations and royalties from satellite radio manufacturers compared to the three months ended June 30, 2009.
- *Six Months* : For each of the six months ended June 30, 2010 and 2009, SAC, per gross subscriber addition was \$59. We experienced a 38% increase in gross subscriber additions and an 91% increase in OEM production with factory-installed satellite radios associated with the automotive market recovery, partially offset by lower per radio subsidy rates for certain OEMs and growth in subscriber reactivations and royalties from satellite radio manufacturers compared to the six months ended June 30, 2009.

Customer Service and Billing Expenses, Per Average Subscriber is derived from total customer service and billing expenses, excluding share-based payment expense and purchase price accounting adjustments, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. (See accompanying footnotes on pages 52 through 58 for more details.)

- *Three Months* : For the three months ended June 30, 2010 and 2009, customer service and billing expenses, per average subscriber was \$1.01 and \$1.05, respectively. The decrease was primarily due to a lower call center expense as a result of moving calls to lower cost locations.

Table of Contents

- *Six Months* : For the six months ended June 30, 2010 and 2009, customer service and billing expenses, per average subscriber was \$1.00 and \$1.06, respectively. The decrease was primarily due to a lower call center expense as a result of moving calls to lower cost locations.

Free Cash Flow includes the net cash provided by (used in) operations, additions to property and equipment, merger related costs and restricted and other investment activity. (See accompanying footnotes on pages 52 through 58 for more details.)

- *Three Months* : For the three months ended June 30, 2010 and 2009, free cash flow was \$108,331 and \$12,694, respectively, an increase of \$95,637. Net income plus non-cash operating activities increased 37%, to \$96,574, from \$70,737, principally as a result of improvements in our adjusted EBITDA. Changes in our operating assets and liabilities increased by \$82,850 compared to the three months ended June 30, 2009. The increase was primarily due to increases in trade payables related to subsidies and commissions associated with the increase in our subscriber base and growth in deferred revenue; during the three months ended June 30, 2010, offset by growth in receivables from subscribers, radio manufacturers and distributors and the payment of related party obligations and accrued interest. In addition, capital expenditures in the three months ended June 30, 2010 increased by \$13,677 compared to the three months ended June 30, 2009, primarily due to increased satellite and related launch vehicle spending.
- *Six Months* : For the six months ended June 30, 2010 and 2009, free cash flow was (\$18,872) and \$9,048, respectively, a decrease of \$27,920. Net income plus non-cash operating activities increased 58%, to \$189,575, from \$120,010, principally as a result of improvements in our adjusted EBITDA. Changes in our operating assets and liabilities increased \$65,437. This was offset by a reduction in cash provided by operating activities, principally as a result of pay-downs of related party liabilities deferred in 2009 and employee bonus payments in the first quarter of 2010 where no bonus payments were made in 2009 and a prepayment to a programming provider in 2010 that had been paid over the course of the year in 2009. As a result of these transactions net cash provided by operating activities increased \$4,128 to \$140,987 in the six months ended June 30, 2010 compared to the \$136,859 provided by operations in the six months ended June 30, 2009. In addition, capital expenditures in the six months ended June 30, 2010 increased \$41,502 to \$169,313 compared to \$127,811 expended in the six months ended June 30, 2009, primarily due to increased satellite and related launch vehicle spending, offset by \$9,454 of proceeds from the sale of investment securities in the six months ended June 30, 2010.

Adjusted Total Revenue. Set forth below are our adjusted total revenue for the three and six months ended June 30, 2010 compared with the three and six months ended June 30, 2009. Our adjusted total revenue includes the recognition of deferred subscriber revenues acquired in the Merger that are not recognized in our post-Merger results under purchase price accounting and the elimination of the benefit in earnings from deferred revenue associated with our investment in XM Canada acquired in the Merger. (See the accompanying footnotes on pages 52 through 58 for more details.)

- *Three Months:* Our adjusted total revenue grew 16%, or \$97,724, in the three months ended June 30, 2010 compared to the three months ended June 30, 2009. Subscriber revenue increased 5%, or \$28,658, in the three months ended June 30, 2010 compared to the three months ended June 30, 2009. The increase in subscriber revenue was driven by the increase in subscribers as well as an increase in the sale of “Best of” programming and the rate increases on multi-subscription and internet packages. Advertising revenue increased 26%, or \$3,233, in the three months ended June 30, 2010 compared to the three months ended June 30, 2009. The increase in advertising revenue was driven by more effective sales efforts and improvements in the national market for advertising. Equipment revenue increased 69%, or \$7,592, in the three months ended June 30, 2010 compared to the three months ended June 30, 2009. The increase in equipment revenue was driven by royalties from increased OEM installations. Other revenue increased \$58,241 in the three months ended June 30, 2010 compared to the three months ended June 30, 2009. The increase in other revenue was driven by the introduction of the U.S. Music Royalty Fee in the third quarter of 2009.

- Six Months* : Our adjusted total revenue grew 13%, or \$162,805, in the six months ended June 30, 2010 compared to the six months ended June 30, 2009. Subscriber revenue increased 3%, or \$37,057, in the six months ended June 30, 2010 compared to the six months ended June 30, 2009. The increase in subscriber revenue was driven by the increase in subscribers as well as an increase in the sale of “Best of” programming and the rate increases on multi-subscription and internet packages. Advertising revenue increased 22%, or \$5,454, in the six months ended June 30, 2010 compared to the six months ended June 30, 2009. The increase in advertising revenue was driven by more effective sales efforts and improvements in the national market for advertising. Equipment revenue increased 57%, or \$11,965, in the six months ended June 30, 2010 compared to the six months ended June 30, 2009. The increase in equipment revenue was driven by royalties from increased OEM installations. Other revenue increased \$108,329 in the six months ended June 30, 2010 compared to the six months ended June 30, 2009. The increase in other revenue was driven by the introduction of the U.S. Music Royalty Fee in the third quarter of 2009.

Adjusted EBITDA. Set forth below are our adjusted EBITDA for the three and six months ended June 30, 2010 compared with the three and six months ended June 30, 2009. Adjusted EBITDA is income (loss) from operations, excluding, if applicable: goodwill impairment; restructuring, impairments and related costs; depreciation and amortization; purchase price accounting adjustments and share-based payment expense. (See the accompanying footnotes on pages 52 through 58 for more details.)

- Three Months* : For the three months ended June 30, 2010 and 2009, adjusted EBITDA was \$154,313 and \$132,219, respectively, an increase of 17%, or \$22,094. The increase was primarily due to an increase of 16%, or \$97,724, in revenues, partially offset by an increase of 16%, or \$75,630, in expenses included in adjusted EBITDA. The increase in revenue was primarily due to the increase in our subscriber base and the introduction of the U.S. Music Royalty Fee in the third quarter of 2009, as well as increased advertising and equipment revenue, rate increases on multi-subscription and internet packages, and an increase in the sale of “Best of” programming. The increase in expenses was primarily driven by higher subscriber acquisition costs related to the 46% increase in gross additions, higher revenue share and royalties expenses associated with growth in revenues subject to revenue sharing and royalty arrangements and additional sales and marketing costs, primarily related to co-operative marketing.
- Six Months* : For the six months ended June 30, 2010 and 2009, adjusted EBITDA was \$312,070 and \$241,055, respectively, an increase of 29%, or \$71,015. The increase was primarily due to an increase of 13%, or \$162,805, in revenues, partially offset by an increase of 9%, or \$91,790, in expenses included in adjusted EBITDA. The increase in revenue was primarily due to the increase in our subscriber base, the introduction of the U.S. Music Royalty Fee in the third quarter of 2009, increased advertising and equipment revenue, rate increases on multi-subscription and internet packages, and an increase in the sale of “Best of” programming. The increase in expenses was primarily driven by higher subscriber acquisition costs related to the 38% increase in gross additions and higher revenue share and royalties expenses associated with growth in revenues subject to revenue sharing and royalty arrangements.

Liquidity and Capital Resources

Cash Flows for the Six Months Ended June 30, 2010 Compared with the Six Months Ended June 30, 2009

As of June 30, 2010 and December 31, 2009, we had \$258,854 and \$383,489, respectively, in cash and cash equivalents. The following table presents a summary of our cash flow activity for the periods set forth below (in thousands):

	For the Six Months Ended June 30,		2010 vs. 2009
	2010	2009	
Net cash provided by operating activities	\$ 140,987	\$ 136,859	\$ 4,128
Net cash used in investing activities	(159,859)	(127,811)	(32,048)
Net cash (used in) provided by financing activities	(105,763)	152,194	(257,957)
Net (decrease) increase in cash and cash equivalents	(124,635)	161,242	(285,877)
Cash and cash equivalents at beginning of period	383,489	380,446	3,043
Cash and cash equivalents at end of period	\$ 258,854	\$ 541,688	\$ (282,834)

Cash Flows Provided by Operating Activities

- *Six Months* : Net cash provided by operating activities increased \$4,128, to \$140,987, for the six months ended June 30, 2010 from \$136,859 for the six months ended June 30, 2009. The increase was primarily the result of improvements in our income from operations and increases in deferred revenue related to the growth of our subscriber base, offset in part by pay-downs of related party liabilities deferred in 2009, employee bonus payments in 2010 where no bonus payments were made in 2009 and a prepayment to a programming provider in 2010 that had been paid over the course of the year in 2009.

Cash Flows Used in Investing Activities

- *Six Months* : Net cash used in investing activities increased \$32,048, to \$159,859, for the six months ended June 30, 2010 from \$127,811 for the six months ended June 30, 2009. The increase was primarily the result of an increase of \$41,502 in capital expenditures for construction of our satellites and related launch vehicles, partially offset by \$9,450 from the sale of available-for-sale securities.

We will incur significant capital expenditures to construct and launch our new satellites and improve our terrestrial repeater network and broadcast and administrative infrastructure. We have entered into various agreements to design, construct, and launch our satellites in the normal course of business. These capital expenditures will support our growth and the resiliency of our operations, and will also support the delivery of new revenue streams.

Cash Flows (Used in) Provided by Financing Activities

- *Six Months* : Net cash used in financing activities increased \$257,957, to \$105,763, for the six months ended June 30, 2010 from net cash provided by financing activities of \$152,194 for the six months ended June 30, 2009. The increase in cash used in financing activities was primarily due to an increase of \$337,460 in repayments of debt, partially offset by an increase of \$83,284 in net proceeds from the issuance of debt. During the six months ended June 30, 2010, we received net proceeds of \$784,500 from the issuance of our 8.75% Senior Notes due 2015 while during the six months ended June 30, 2009, we received net proceeds of \$701,216 from the issuance of XM's 11.25% Senior Secured Notes due 2013 and agreements with Liberty Media. During the six months ended June 30, 2010, we made debt repayments of \$866,198, principally to holders of SIRIUS' 9⁵/₈% Senior Notes due 2013, SIRIUS' Senior Secured Term Loan due 2012 and XM's 10% Senior PIK Secured Notes due 2011 while during the six months ended June 30, 2009, we made debt repayments of \$528,738, principally to holders of SIRIUS' 2¹/₂% Convertible Notes due 2009 and XM's Amended and Restated Credit Agreement due 2011. During the six months ended June 30, 2010 and 2009, we paid \$24,065 and \$16,572 in premiums on the redemption of debt, respectively.

Financings and Capital Requirements

We have historically financed our operations through the sale of debt and equity securities. The Certificate of Designations for our Series B Preferred Stock provides that, so long as Liberty Media beneficially owns at least half of its initial equity investment,

Table of Contents

Liberty Media's consent is required for certain actions, including the grant or issuance of our equity securities and the incurrence of debt (other than, in general, debt incurred to refinance existing debt) in amounts greater than \$10,000 in any calendar year.

Future Liquidity and Capital Resource Requirements

We have entered into various agreements to design, construct, and launch our satellites in the normal course of business. As disclosed in Note 14 in our unaudited condensed consolidated financial statements, as of June 30, 2010, we expect to incur capital expenditures of approximately \$82,546 and \$67,817 during the remainder of 2010 and in 2011, respectively, and an additional \$60,320 over the next five years, the majority of which is attributable to the construction and launch of our XM-5 and FM-6 satellites and related launch vehicles.

Based upon our current plans, we believe that both SIRIUS and XM have sufficient cash, cash equivalents and marketable securities to cover their estimated funding needs. We expect to fund operating expenses, capital expenditures, working capital requirements, interest payments, taxes and scheduled maturities of our current and long-term debt with existing cash and cash flow from operations, and we believe that we will be able to generate sufficient revenues to meet our cash requirements.

Our ability to meet our debt and other obligations depends on our future operating performance and on economic, financial, competitive and other factors. We continually review our operations for opportunities to adjust the timing of expenditures to ensure that sufficient resources are maintained. Our financial projections are based on assumptions, which we believe are reasonable but contain significant uncertainties.

Sirius XM Radio Inc. is the sole stockholder of XM Satellite Radio Inc., and its business is operated as an unrestricted subsidiary under the agreements governing our existing indebtedness. Under certain circumstances, SIRIUS may be unwilling or unable to contribute or loan XM capital. Similarly, under certain circumstances, XM may be unwilling or unable to contribute or loan SIRIUS capital. To the extent XM's funds are insufficient to support its business, XM may be required to seek additional financing, which may not be available on favorable terms, or at all. If XM is unable to secure additional financing, its business and results of operations may be adversely affected.

We regularly evaluate our business plans and strategy. These evaluations often result in changes to our business plans and strategy, some of which may be material and significantly change our cash requirements. These changes in our business plans or strategy may include: the acquisition of unique or compelling programming; the introduction of new features or services; significant new or enhanced distribution arrangements; investments in infrastructure, such as satellites, equipment or radio spectrum; and acquisitions, including acquisitions that are not directly related to our satellite radio business. In addition, our operations are affected by the FCC order approving the Merger, which imposed certain conditions upon, among other things, our program offerings and our ability to increase prices.

Debt Covenants

The indentures governing our long-term debt include restrictive covenants. As of June 30, 2010, we were in compliance with our financial debt covenants.

For a discussion of our debt covenants see Note 11 to our unaudited consolidated financial statements in Item 1 of this Quarterly Report on Form 10-Q.

Off-Balance Sheet Arrangements

We do not have any significant off-balance sheet arrangements other than those disclosed in Note 14 to our unaudited consolidated financial statements in Item 1 of this Quarterly Report on Form 10-Q that are reasonably likely to have a material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

2009 Long-Term Stock Incentive Plan

In May 2009, our stockholders approved the Sirius XM Radio Inc. 2009 Long-Term Stock Incentive Plan (the "2009 Plan"). Employees, consultants and members of our board of directors are eligible to receive awards under the 2009 Plan, which provides for the grant of stock options, restricted stock, restricted stock units and other stock-based awards that the compensation committee of our board of directors may deem appropriate. Vesting and other terms of stock-based awards are set forth in the agreements with the individuals receiving the awards. Stock-based awards granted under the 2009 Plan are generally subject to a vesting requirement. Stock-based awards generally expire ten years from the date of grant. Each restricted stock unit entitles the holder to receive one share of common stock upon vesting. As of June 30, 2010, approximately 323,160,838 shares of common stock were available for future grants under the 2009 Plan.

Other Plans

SIRIUS and XM maintain four other share-based benefit plans — the XM 2007 Stock Incentive Plan, the Amended and Restated Sirius Satellite Radio 2003 Long-Term Stock Incentive Plan, the XM 1998 Shares Award Plan and the XM Talent Option Plan. These plans generally provide for the grant of stock options, restricted stock, restricted stock units and other stock based awards. No further awards may be made under these plans. Outstanding awards under these plans are being continued.

Footnotes

- (1) Average self-pay monthly churn represents the monthly average of self-pay deactivations for the quarter divided by the average self-pay subscriber balance for the quarter.
- (2) We measure the percentage of vehicle owners and lessees that receive our service and convert to self-paying after the initial promotion period. We refer to this as the “conversion rate.” At the time satellite radio enabled vehicles are sold or leased, the owners or lessees generally receive between three and twelve month trial subscriptions. Promotional periods generally include the period of trial service plus 30 days to handle the receipt and processing of payments. We measure conversion rate three months after the period in which the trial service ends. Based on our experience it may take up to 90 days after the trial service ends for vehicle owners and lessees to respond to our marketing communications and become self-paying subscribers.
- (3) ARPU is derived from total earned subscriber revenue, net advertising revenue and other subscription-related revenue, net of purchase price accounting adjustments, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. Other subscription-related revenue includes amounts recognized on account of the U.S. Music Royalty Fee since the third quarter of 2009. Purchase price accounting adjustments include the recognition of deferred subscriber revenues not recognized in purchase price accounting. ARPU is calculated as follows (in thousands, except for subscriber and per subscriber amounts):

- (4) SAC, per gross subscriber addition is derived from subscriber acquisition costs and margins from the direct sale of radios and accessories, excluding share-based payment expense and purchase price accounting adjustments, divided by the number of gross subscriber additions for the period. - (5) Customer service and billing expenses, per average subscriber is derived from total customer service and billing expenses, excluding share-based payment expense and purchase price accounting adjustments, divided by the number of months in the period, divided by the daily weighted average number of subscribers for the period. We believe the exclusion of share-based payment expense in our calculation of customer service and billing expenses, per average subscriber is useful given the significant variation in expense that can result from changes in the fair market value of our common stock, the effect of which is unrelated to the operational conditions that give rise to variations in the components of our customer service and billing expenses. Purchase price accounting adjustments include the elimination of the benefit associated with share-based payment arrangements recognized at the Merger date. Customer service and billing expenses, per average subscriber is calculated as follows (in thousands, except for subscriber and per subscriber amounts):

(7) EBITDA is defined as net income before interest, taxes, depreciation and amortization. We adjust EBITDA to also remove the impact of other income and expense, loss on extinguishment of debt as well as certain non-cash charges discussed below. This measure is one of the primary Non-GAAP financial measures on which we (i) evaluate the performance of our businesses, (ii) base our internal budgets and (iii) compensate management. Adjusted EBITDA is a Non-GAAP financial performance measure that excludes (if applicable): (i) certain adjustments as a result of the purchase price accounting for the Merger, (ii) goodwill impairment, (iii) restructuring, impairments, and related costs, (iv) depreciation and amortization and (v) share-based payment expense. The purchase price accounting adjustments include: (i) the elimination of deferred revenue associated with the investment in Canadian Satellite Radio, (ii) recognition of deferred subscriber revenues not recognized in purchase price accounting, and (iii) elimination of the benefit of deferred credits on executory contracts, which are primarily attributable to third party arrangements with an OEM and programming providers. We believe adjusted EBITDA is a useful measure of the underlying trend of our operating performance, which provides useful information about our business apart from the costs associated with our physical plant, capital structure and purchase price accounting. We believe investors find this Non-GAAP financial measure useful when analyzing our results and comparing our operating performance to the performance of other communications, entertainment and media companies. We believe that investors use current and projected adjusted EBITDA to estimate our current or prospective enterprise value and to make investment decisions. Because we fund and build-out our satellite radio system through the periodic raising and expenditure of large amounts of capital, our adjusted results of operations reflect significant charges for depreciation expense. The exclusion of depreciation and amortization expense is useful given significant variation in depreciation and amortization expense that can result from the potential variations in estimated useful lives, all of which can vary widely across different industries or among companies within the same industry. We believe the exclusion of restructuring, impairments and related costs is useful given the nature of these expenses. We also believe the exclusion of share-based payment expense is useful given the significant variation in expense that can result from changes in the fair market value of our common stock.

Adjusted EBITDA has certain limitations in that it does not take into account the impact to our statement of operations of certain expenses, including share-based payment expense and certain purchase price accounting for the Merger. We endeavor to compensate for the limitations of the Non-GAAP measure presented by also providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the Non-GAAP measure. Investors that wish to compare and evaluate our operating results after giving effect for these costs, should refer to net income (loss) as disclosed in our consolidated statements of operations. Since adjusted EBITDA is a Non-GAAP financial performance measure, our calculation of adjusted EBITDA may be susceptible to varying calculations; may not be comparable to other similarly titled measures of other companies; and should not be considered in isolation, as a substitute for, or superior to measures of financial performance prepared in accordance with GAAP. The reconciliation of net income (loss) to the adjusted EBITDA is calculated as follows (see footnotes for reconciliation of the adjusted amounts to their respective GAAP amounts) (in thousands):

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISKS

As of June 30, 2010, we did not have any derivative financial instruments. We do not hold or issue any free-standing derivatives. We hold investments in marketable securities, which consist of certificates of deposit and investments in debt and equity securities of other entities. We classify our investments in marketable securities as available-for-sale. These securities are consistent with the investment objectives contained within our investment policy. The basic objectives of our investment policy are the preservation of capital, maintaining sufficient liquidity to meet operating requirements and maximizing yield.

Our debt includes fixed rate instruments and the fair market value of our debt is sensitive to changes in interest rates. Under our current policies, we do not use interest rate derivative instruments to manage our exposure to interest rate fluctuations.

ITEM 4. CONTROLS AND PROCEDURES

Controls and Procedures

As of June 30, 2010, an evaluation was performed under the supervision and with the participation of our management, including Mel Karmazin, our Chief Executive Officer, and David J. Frear, our Executive Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as that term is defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act). Based on that evaluation, our management, including our Chief Executive Officer and our Chief Financial Officer, concluded that our disclosure controls and procedures were effective as of June 30, 2010. There has been no change in our internal control over financial reporting (as that term is defined in Rule 13a-15(f) and 15d-15(f) under the Securities Exchange Act) during the quarter ended June 30, 2010 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ASSUMPTION AND JOINDER AGREEMENT (this “Agreement”), dated as of June 1, 2010, between XM 1500 ECKINGTON LLC, a Delaware limited liability company and wholly owned subsidiary of the Company (as defined in the Collateral Agreement referred to herein) and XM INVESTMENT LLC, a Delaware limited liability company and wholly owned subsidiary of the Company (with XM 1500 ECKINGTON LLC, each a “New Subsidiary”) to the Collateral Agreement, dated as of December 31, 2009 (as amended, restated, supplemented, or otherwise modified from time to time, the “Collateral Agreement”), among XM Satellite Radio Inc., certain Subsidiaries (as defined in the Collateral Agreement) of the Company party thereto (collectively with the Company, the “Grantors”) and U.S. Bank National Association (“U.S. Bank”), as Collateral Agent.

A. Reference is made to the Indenture dated as of June 30, 2009 (as amended, supplemented or otherwise modified from time to time, the “Indenture”), between the Company and U.S. Bank, as Trustee.

B. Capitalized terms used herein and not otherwise defined herein shall have the meanings assigned to such terms in the Collateral Agreement and the Indenture referred to therein.

C. Section 7.14 of the Collateral Agreement provides that additional Subsidiaries of the Company may become Grantors under the Collateral Agreement by execution and delivery of an instrument substantially in the form of this Agreement. Each New Subsidiary is executing this Agreement in accordance with the requirements of the Indenture to become a Grantor under the Collateral Agreement as consideration for Notes previously issued and purchased.

Accordingly, the Collateral Agent and each New Subsidiary agree as follows:

SECTION 1. In accordance with Section 7.14 of the Collateral Agreement, each New Subsidiary by its signature below becomes a Grantor under the Collateral Agreement with the same force and effect as if originally named therein as a Grantor and each New Subsidiary hereby (a) agrees to all the terms and provisions of the Collateral Agreement applicable to it as a Grantor and (b) represents and warrants that the representations and warranties made by it as a Grantor thereunder are true and correct on and as of the date hereof. In furtherance of the foregoing, each New Subsidiary, as security for the payment and performance in full of the Secured Obligations does hereby create and grant to the Collateral Agent, its successors and assigns, for the benefit of the Secured Parties, their successors and assigns, a security interest in and lien on all of such New Subsidiary’s right, title and interest in and to the Collateral of the New Subsidiary. Each reference to a “Grantor” in the Collateral Agreement shall be deemed to include each New Subsidiary. The Collateral Agreement is hereby incorporated herein by reference.

SECTION 2. Each New Subsidiary represents and warrants to the Collateral Agent and the other Secured Parties that this Agreement has been duly authorized, executed and delivered by it and constitutes its legal, valid and binding obligation, enforceable against it in accordance with its terms.

SECTION 3. This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. This Agreement shall become effective when the Collateral Agent shall have received a counterpart of this Agreement that bears the signature of each New Subsidiary and the Collateral Agent has executed a counterpart hereof. Delivery of an executed signature page to this Agreement by facsimile transmission shall be as effective as delivery of a manually signed counterpart of this Agreement.

SECTION 4. Each New Subsidiary hereby represents and warrants that (a) set forth on Schedule I attached hereto is a true and correct schedule of the location of any and all Collateral of such New Subsidiary and (b) set forth under its signature hereto, is the true and correct legal name of such New Subsidiary, its jurisdiction of formation, organizational identification number (if any) and the location of its chief executive office.

SECTION 5. Except as expressly supplemented hereby, the Collateral Agreement shall remain in full force and effect.

SECTION 6. THIS AGREEMENT SHALL BE CONSTRUED IN ACCORDANCE WITH AND GOVERNED BY THE LAWS OF THE STATE OF NEW YORK.

SECTION 7. Any provision of this Agreement held to be invalid, illegal or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such invalidity, illegality or unenforceability without affecting the validity, legality and enforceability of the remaining provisions hereof and of the Collateral Agreement and the Indenture; and the invalidity of a particular provision in a particular jurisdiction shall not invalidate such provision in any other jurisdiction.

SECTION 8. All communications and notices hereunder shall be in writing and given as provided in Section 7.2 of the Collateral Agreement.

SECTION 9. Each New Subsidiary agrees to reimburse the Collateral Agent for its reasonable out-of-pocket expenses in connection with this Agreement, including the reasonable fees, other charges and disbursements of counsel for the Collateral Agent.

[Remainder of Page Intentionally Left Blank]

IN WITNESS WHEREOF, each New Subsidiary and the Collateral Agent have duly executed this Assumption and Joinder Agreement as of the day and year first above written.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Mel Karmazin, the Chief Executive Officer of Sirius XM Radio Inc., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Sirius XM Radio Inc. for the period ended June 30, 2010;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
