Real Estate Investment Activity

In January 2011, the Company purchased City Investment Fund's 49.9% interest in 521 Fifth Avenue, thereby assuming full ownership of the building. The transaction valued the consolidated interest at approximately \$245.7 million. Subsequent to the end of the quarter, in April 2011, the Company refinanced the property with a new \$150.0

million 2-year mortgage which carried a floating rate of interest of 200 basis points over the 30-day LIBOR and exercised its right to acquire the fee interest in the property for \$15.0 million.

In January 2011, the Company acquired a 48.9% interest in the newly renovated 741,500 square foot 3 Columbus Circle, New York. The acquisition was accomplished through a recapitalization that included a \$138.7 million equity investment by the Company, a portion of which was in the form of SL Green Operating Partnership Units, and a bridge loan provided by the Company and Deutsche Bank. Subsequent to the end of the quarter, in April 2011, the joint venture refinanced the bridge loan and replaced it with a \$260.0 million 5-year mortgage with the Bank of China, which carries a floating rate of interest of 210 basis points over the 30-day LIBOR, at which point the Company and Deutsche Bank were repaid. The joint venture has the ability to increase the mortgage by \$40.0 million based on meeting certain performance hurdles. The Company believes the property is now fully capitalized for all costs necessary to complete the redevelopment and lease-up of the building and a marketing and leasing campaign has recently been launched.

In March 2011, the Company entered into an agreement to sell its 359,000 square foot property located at 28 West 44th Street for \$161.0 million. This transaction is expected to close during the second quarter of 2011 and is subject to customary closing conditions.

In April 2011, the Company acquired SITQ's entire interest in 1515 Broadway, thereby consolidating full ownership of the building.

Financing and Capital Activity

In 2011, the Company, along with SL Green Operating Partnership, entered into at-the-market equity offering programs (the "ATM Programs") to sell \$525.0 million of its common stock. As of April 27, 2011, the Company had sold 4,199,099 shares of its common stock through the ATM Programs for aggregate proceeds of approximately \$311.0 million (\$306.3 million after related expenses).

In March 2011, the Company unencumbered 100 Church Street, New York, by repaying the \$139.7 million mortgage securing the property. This mortgage, which carried an effective interest rate of 5.1%, was scheduled to mature in January 2013.

In January 2011, the Company repaid its \$84.8 million, 5.15% unsecured notes at par on the maturity date.

Debt and Preferred Equity Investment Activity

The Company's debt and preferred equity investment portfolio totaled \$579.3 million at March 31, 2011, a decrease of 39.9 percent, or \$384.5 million, from December 31, 2010. During the first quarter, the Company purchased and originated new debt investments totaling \$104.0 million, which are directly collateralized by commercial office properties, and received \$490.3 million of proceeds from investments that were sold, redeemed or repaid. The debt and preferred equity investment portfolio had a weighted average maturity of 3.4 years as of March 31, 2011 and had a weighted average yield for the quarter ended March 31, 2011 of 7.5%, exclusive of loans with a net carrying value of \$102.3 million, which are on non-accrual status.

In March 2011, the Company sold its debt investments in 280 Park Avenue, New York, to a newly formed 50/50 joint venture with Vornado Realty Trust. The Company realized \$38.7 million of additional income upon the sale, which is included in preferred equity and investment income for the first quarter. The joint venture also assumed \$30 million of the Company's floating rate financing which matures in June 2016 and carried a weighted average interest rate for the quarter of 1.20%.

Dividends

During the first quarter of 2011, the Company declared quarterly dividends on its outstanding common and preferred stock as follows:

- \$0.10 per share of common stock, which were paid on April 15, 2011 to stockholders of record on the close of business on March 31, 2011; and
- \$0.4766 and \$0.4922 per share on the Company's Series C and D Preferred Stock, respectively, for the period January 15, 2011 through and including April 14, 2011, which were paid on April 15, 2011 to stockholders of record on the close of business on March 31, 2011, and reflect regular quarterly dividends, which are the equivalent of annualized dividends of \$1.9064 and \$1.9688, respectively.

NON-GAAP Supplemental Financial Measures

Funds from Operations (FFO)

FFO is a widely recognized measure of REIT performance. We compute FFO in accordance with standards established by the National Association of Real Estate Investment Trusts, or NAREIT, which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or

that interpret the NAREIT definition differently than we do. The revised White Paper on FFO approved by the Board of Governors of NAREIT in April 2002 defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from debt restructuring and sales of properties, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. We present FFO because we consider it an important supplemental measure of our operating performance and believe that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITS, particularly those that own and operate commercial office properties. We also use FFO as one of several criteria to determine performance-based bonuses for members of our senior management. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions and extraordinary items, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, interest costs, providing perspective not immediately apparent from net income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of our financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions.

Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA)

The Company presents earnings before interest, taxes, depreciation and amortization (EBITDA) because the Company believes that EBITDA, along with cash flow from operating activities, investing activities and financing activities, provides investors with an additional indicator of the Company's ability to incur and service debt. EBITDA should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of our financial performance, as an alternative to net cash flows from operating activities (determined in accordance with GAAP), or as a measure of our liquidity. Adjusted earnings before interest, taxes, depreciation and amortization (Adjusted EBITDA) is calculated by adding income taxes, loan loss reserves and our share of joint venture depreciation and amortization to EBITDA.

Same-Store Net Operating Income

The Company presents same-store net operating income on a cash and GAAP basis because the Company believes that it provides investors with useful information regarding the operating performance of properties that are comparable for the periods presented. For properties owned since January 1, 2010 and still owned at the end of the current quarter, the Company determines GAAP net operating income by subtracting property operating expenses and ground rent from recurring rental and tenant reimbursement revenues. Cash net operating *income* (Cash NOI) is derived by deducting straight line and free rent from, and adding tenant credit loss allowance to, GAAP net operating income. Same-store net operating income is not an alternative to net income (determined in accordance with GAAP) and same-store performance should not be considered an alternative to GAAP net income performance.
