Semtech Optical Networking Product Showcase at OFC 2017

Semtech's product portfolio includes 1 Gbps to 400 Gbps optical networking solutions for high-growth datacenter, access, and wireless markets

CAMARILLO, Calif., March 09, 2017 (GLOBE NEWSWIRE) -- [Semtech Corporation](#) (Nasdaq:SMTC), a leading supplier of analog and mixed-signal semiconductors, today announced it will demonstrate its comprehensive platform of optical IC products that support high-speed data transmission at the [Optical Fiber Communication Conference and Exhibition](#) (OFC) 2017 on March 19-23 at the Los Angeles Convention Center.

A photo accompanying this announcement is available at <http://www.globenewswire.com/NewsRoom/AttachmentNg/f526e40f-99ec-4132-9c7f-0f7a5a35430a>.

[Semtech's Signal Integrity Products Group](#) will highlight its

ClearEdge™ CDRs, single and multi-channel products, as well as integrated variants, for the datacenter and enterprise networking, passive optical network (PON) or Fiber to the X (FTTX), and wireless infrastructure markets. These new products add to Semtech's optical IC portfolio ranging from 1 Gbps to 400 Gbps data rates for a broad field of end-user applications, such as cloud-based storage, FTTX communication, and mobile networks.

"We are committed to continually introducing leading IC products that enable our customers to deliver best-in-class optical module solutions. A significant majority of optical module vendors in our target markets have come to rely upon our products," said Dr. Timothy Vang, Sr. Director of Datacom Marketing for Semtech's Signal Integrity Products Group. "Our highly differentiated optical IC products enable today's most innovative module players to provide leading-edge solutions for cloud computing, social networking, video streaming and mobile communications."

Private product demonstrations will be hosted in a corporate village meeting space at booth 2575 by appointment. Email meetings@semtech.com to request a demonstration.

About OFC

The Optical Fiber Conference and Exposition (OFC) is the largest global conference and exhibition for optical communications and networking professionals. For more than 40 years, OFC has drawn attendees from all corners of the globe to meet and greet, teach and learn, make connections and move business forward.

OFC includes dynamic business programming, an exhibition of more than 600 companies, and high impact peer-reviewed research that, combined, showcase the trends and pulse of the entire optical networking and communications industry. OFC is managed by The Optical Society (OSA) and co-sponsored by OSA, the IEEE Communications Society (IEEE/ComSoc), and the IEEE Photonics Society. OFC 2017 will be held from 19-23 March 2017 at the Los Angeles Convention Center, California, USA. Follow @OFCConference, learn more OFC Conference LinkedIn and watch highlights OFC YouTube.

About Semtech

Semtech Corporation is a leading supplier of analog and mixed-signal semiconductors for high-end consumer, enterprise computing, communications, and industrial equipment. Products are designed to benefit the engineering community as well as the global community. The Company is dedicated to reducing the impact it, and its products, have on the environment.
