Semtech Wins Two Connected Home and Building Awards from IoT Evolution

Semtech LoRa® Devices and Wireless RF Technology and Neo-Iso™ Smart Switching Platform Honored for IoT Innovation

CAMARILLO, Calif., Jan. 26, 2017 (GLOBE NEWSWIRE) -- [Semtech Corporation](#) (Nasdaq:SMTC), a leading supplier of analog and mixed-signal semiconductors, announced today that its [LoRa® Devices and Wireless RF Technology](#) and [Neo-Iso™ Smart Switching Platform](#) both received IoT Evolution Connected Home and Building Awards from IoT Evolution magazine, a leading publication covering Internet of Things (IoT) technologies.

A photo accompanying this announcement is available at <http://www.globenewswire.com/NewsRoom/AttachmentNg/3ca15cd4-c99e-4a0d-8435-c7eb0bc4e864>

"The solutions selected for the IoT Evolution Connected Home and Building Award reflect innovations driving the fast-growing Internet of Things marketplace. It is my honor to congratulate Semtech for its innovative work and contribution to this rapidly evolving industry," said Carl Ford, CEO of Crossfire Media, a co-publisher of IoT Evolution Magazine.

The Connected Home and Building Awards honors organizations delivering software or hardware solutions which enable the advancement of the smart home and building industry.

"We are delighted to have Semtech's innovative LoRa and Neo-Iso Technologies recognized as disruptive enablers to the IoT industry," said Mohan Maheswaran, President and Chief Executive Officer of Semtech Corporation. "We believe that both our LoRa and Neo-Iso platforms will provide our IoT ecosystem partners the capability to deploy scalable IoT networks and create functional IoT solutions."

About LoRa® Wireless RF Technology

Semtech LoRa Technology is a widely adopted low-power, long-range solution for IoT that gives telecom companies, IoT application makers, and system integrators the feature set necessary to deploy low-cost, interoperable IoT networks, gateways, sensors, module products, and IoT services worldwide. IoT networks based on the LoRaWAN™ specification have been deployed in over 50 countries.

About Neo-Iso™

Semtech's Neo-Iso Platform is a galvanic isolated intelligent power switch family that is optimized for compact, low-voltage IoT applications, such as smart thermostats, security and smart home automation systems. Its superior system flexibility, monitoring and diagnostic capabilities make it an ideal solution for reliable smart home systems that come in various shapes and sizes.

Semtech Wins Two Connected Home and Building Awards from IoT Evolution

Semtech Corporation is a leading supplier of analog and mixed-signal semiconductors for high-end consumer, enterprise computing, communications, and industrial equipment. Products are designed to benefit the engineering community as well as the global community. The Company is dedicated to reducing the impact it, and its products, have on the environment. Internal green programs seek to reduce waste through material and manufacturing control, use of green technology and designing for resource reduction. Publicly traded since 1967, Semtech is listed on the Nasdaq Global Select Market under the symbol SMTC. For more information, visit www.semtech.com.

About Crossfire Media

Crossfire Media is an integrated marketing company with a core focus on future trends in technology. We service communities of interest with conferences, tradeshow, webinars and newsletters. Crossfire Media has a partnership with Technology Marketing Corporation (TMC) to produce events and websites related to disruptive technologies. Crossfire Media is a division of Crossfire Consulting, a full service Information Technology company based in New York.

About TMC

Global buyers rely on TMC's content-driven marketplaces to make purchase decisions and navigate markets. This presents branding, thought leadership and lead generation opportunities for vendors/sellers.

TMC's Marketplaces:

- | Unique, turnkey Online Communities boost search results, establish market validation, elevate brands and thought leadership, while minimizing ad-blocking.
- | Custom Lead Programs uncover sales opportunities and build databases.
- | In-Person and Online Events boost brands, enhance thought leadership and generate leads.
- | Publications, Display Advertising and Newsletters bolster brand reputations.
- | Custom Content provides expertly ghost-crafted blogs, press releases, articles and marketing collateral to help with SEO, branding, and overall marketing efforts.
- | Comprehensive Event and Road Show Management Services help companies meet potential clients and generate leads face-to-face.

For more information about TMC and to learn how we can help you reach your marketing goals, please visit www.tmcnet.com.

Forward-Looking and Cautionary Statements

All statements contained herein that are not statements of historical fact, including statements that use the words "will," "designed to," or other similar words or expressions, that describe Semtech Corporation's or its management's future plans, objectives or goals are "forward-looking statements" and are made pursuant to the Safe-Harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could cause the actual results of Semtech Corporation to be materially different from the historical results and/or from any future results or outcomes expressed or implied by such forward-looking statements. Such factors are further addressed in Semtech Corporation's annual and quarterly reports, and in other documents or reports, filed with the Securities and Exchange Commission (www.sec.gov) including, without limitation, information under the captions "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Risk Factors." Semtech Corporation assumes no obligation to update any forward-looking statements in order to reflect events or circumstances that may arise after the date of this release, except as required by law.
