Semtech Demonstrates Next-Generation Analog Platforms at Embedded World 2017

Architectural and performance-differentiated analog and mixed-signal platforms enable today's leading IoT, mobile and automotive applications

CAMARILLO, Calif., March 02, 2017 (GLOBE NEWSWIRE) -- [Semtech Corporation](#) (Nasdaq:SMTC) today announced an exhibition of its leading analog & mixed-signal semiconductor platforms at [Embedded World 2017](#) in Nuremburg, Germany (Hall 2, booth 631). Technology demonstrations spotlight its solutions for smart home, connected building and other Internet of Things (IoT) applications, wireless charging, mobile/portable devices, and automotive applications.

"As technology advances, electronics manufacturers require more robust, feature-rich devices to support their smaller, faster, and more integrated next-generation solutions," said Mohan Maheswaran, Semtech's President and Chief Executive Officer. "Semtech's diverse analog and mixed-signal platforms cater to these needs and position us as a leader in innovation for current and emerging high-growth markets."

Semtech Booth Demonstrations:

- | Semtech [LoRa® Devices and Wireless RF Technology](#)
- | Semtech's [LinkCharge™ CT \(countertop\)](#), an out-of-box-ready infrastructure wireless charging system for medium power devices, and [LinkCharge](#) solutions for low- and high-power applications
- | [Neo-Iso™](#) isolated, smart power switches
- | [WLED backlight](#) solutions for automotive applications

Semtech LoRa Technology will also be featured in Future Electronics' booth (Hall 3, booth 225). Email meetings@semtech.com to schedule a meeting with a Semtech representative at Embedded World.

About Semtech

Semtech Corporation is a leading supplier of analog and mixed-signal semiconductors for high-end consumer, enterprise computing, communications, and industrial equipment. Products are designed to benefit the engineering community as well as the global community. The Company is dedicated to reducing the impact it, and its products, have on the environment. Internal green programs seek to reduce waste through material and manufacturing control, use of green technology and designing for resource reduction. Publicly traded since 1967, Semtech is listed on the Nasdaq Global Select Market under the symbol SMTC. For more information, visit www.semtech.com.
