SYNNEX Named Exclusive Distributor for HP Jet Fusion 3D Printers in U.S. and Canada

Top distributor and global printing technology leader bring new offerings to booming 3D printing market

GREENVILLE, S.C., May 9, 2017 /PRNewswire/ -- [SYNNEX Corporation](#) (NYSE: SNX), a leading Technology Solutions distributor, today announced that it is the exclusive North American distributor of HP's Jet Fusion 3D Printing solution. SYNNEX is now the go-to source in the United States and Canada for the world's first production-ready commercial 3D Printing system. HP's Multi Jet Fusion 3D printing technology delivers up to 10 times the speed at half the cost of others. In addition, HP's unique Open Platform approach is fostering widespread adoption of 3D printing by expanding the availability of new materials to address a broader set of applications, lowering materials costs, driving performance improvements, and creating new possibilities for part properties that address specific industry needs.

HP's 3D printing offering arrives at a time when Gartner has forecasted strong growth in the enterprise 3D printer market, with a compound annual growth rate of 57.4 percent for the next three years. During this period of rapid market growth, SYNNEX is poised to ease resellers' entry and expansion in the 3D printing market. Through four years of successful design and implementation of 3D programs, SYNNEX has built a 3D culture from sales to supplies to service.

"SYNNEX has seen opportunities across multiple sectors as 3D redefines the way companies do business. We are pleased to offer HP's Jet Fusion 3D solution, along with the accessories and solutions needed for success in this fast-growing market," said Peter Larocque, President, North American Distribution, SYNNEX Corporation.

"We look forward to working with SYNNEX as the distributor of HP Multi Jet Fusion technology in the U.S. and Canada to scale the HP 3D printing business," said Alex Moñino, Director of Worldwide Marketing and Sales Strategy for 3D Printing, HP Inc. "SYNNEX is an experienced and reliable partner that will help HP drive the digital reinvention of manufacturing and, most importantly, provide customers with exceptional service and the market's leading technology for advanced 3D applications."

SYNNEX is the source for the HP Jet Fusion 3D solution and materials, and the only HP distribution partner in the U.S. authorized for all HP printer products. SYNNEX leverages its 20-year relationship with HP - the global leader in print - to help resellers and managed service providers take advantage of the growing 3D market, top-line hardware and signature solutions.
