## **Sonus Drives Microsoft Skype for Business Cloud Connector Edition Deployments with Sonus Cloud Link**

### **Sonus Cloud Link is Miercom Performance Verified for Delivering Industry Best Performance and Security for Cloud Connector Edition Appliance Deployments**

WESTFORD, Mass., March 24, 2017 /PRNewswire/ --

#### **Key Takeaways:**

- | Miercom performance testing validates Sonus Cloud Link's ability to efficiently, securely and quickly deploy Microsoft® Skype for Business Cloud Connector Edition (CCE) at scale.
- | Sonus signed an outbound license and distribution agreement with Microsoft, enabling Sonus to deliver CCE in its pre-packaged appliance at an unmatched price point and scale.
- | Third-party Skype for Business experts highlight Sonus Cloud Link in industry publications, driving CCE deployments with Sonus Cloud Link.

[Sonus Networks](#), Inc. (Nasdaq: SONS), [a global leader in securing Cloud and real-time communications](#), announced today that [Miercom](#), a leading independent testing and certification firm, verified the performance and security of the Sonus Cloud Link solution. By combining this verification with the Microsoft outbound license and distribution agreement and in close collaboration with independent industry experts working with Sonus Cloud Link, Sonus is demonstrating its commitment to help partners and customers quickly and easily deploy Microsoft CCE for Office 365 Cloud PBX.

#### **Miercom's Performance and Security Assessment**

Through extensive testing, Miercom concluded that Sonus Cloud Link:

- | Reliably scales up to 500 simultaneous Skype for Business calls;
- | Successfully protects against Denial of Service (DoS) and protocol fuzzing attacks on both private and public interfaces without any dropped calls;
- | Integrates Skype for Business with third-party SIP equipment as well as legacy systems based on TDM and analog telephony; and
- | Takes one hour to set up when using the CCE Configuration Wizard versus a multiple-hour manual setup effort.

#### **Microsoft Distribution Agreement**

Sonus recently signed an outbound license and distribution agreement with Microsoft. This agreement enables Sonus to sell Microsoft CCE code embedded on the Sonus Cloud Link appliance to its global partner and customer base at an unmatched price point and scale.

### Quotes:

"Sonus has the solution for appliance-based Microsoft CCE deployments, which makes it simple for customers to migrate to Office 365 Cloud PBX," said Mykola Konrad, vice president, Product Management and Marketing, Sonus. "And with verification from Miercom, customers can be assured that Sonus Cloud Link will reliably secure their network in the most extreme network conditions without compromise."

"The results from our test confirm that Sonus Cloud Link delivers impressive, incredibly reliable performance and security under the highest levels of network attacks," said Robert Smithers, CEO, Miercom. "With an easy-to-use CCE Configuration Wizard, we can also confirm that Sonus Cloud Link is simple to deploy, in less than one hour. For these reasons, we are pleased to award Sonus Cloud Link the Miercom Performance Verified Certification."

### Other Facts:

- | Sonus will be attending **Enterprise Connect at Booth 601**.
- | The full Sonus Session Border Controller portfolio is Skype for Business certified.
- | The Sonus SBC 1000 and SBC 2000 received 2016 Unified Communications Product of the Year awards from TMCnet.
