Mescalero Apache Telecom, Inc. Upgrades Communications Capabilities with Ribbon's Network Transformation Solutions

New solutions enable Mescalero Apache Telecom, Inc. to securely and cost-effectively deliver its residential and business customers the latest IP-based communications technology

WESTFORD, Mass., Feb. 13, 2018 /PRNewswire/ -- [Ribbon Communications Inc.](#) (Nasdaq: RBBN), a global leader in secure and intelligent cloud communications, today announced that [Mescalero Apache Telecom, Inc.](#), has upgraded its existing communications network with Ribbon's market-leading network transformation solutions, which include the [C15 Call Session Controller](#) and [Session Border Controller](#). Leveraging Ribbon's network transformation solutions enable Mescalero Apache Telecom, Inc. to offer its residential and business customers advanced new communications capabilities such as voicemail to email transcription and video conferencing and collaboration.

"In addition to rising support costs, our previous communications system was approaching end-of-life and lacked the next-generation IP-based real-time communications capabilities that we wanted to offer our customers moving forward," said Godfrey Enjady, General Manager, Mescalero Apache Telecom, Inc. "The geographical challenges that are faced due to the rugged terrain in the Mescalero area make efficient communication services a vital necessity for area residents. Progressive technology is needed to ensure that emergency and conventional communication is effective, timely and accurate - Mescalero Apache Telecom, Inc. is proud to provide cutting edge technology to the entire Mescalero Apache Nation."

Mr. Enjady added, "Ribbon provided us with a seamless migration to a secure, state-of-the-art platform that is market-proven and tested by some of the world's largest service providers and allows us to offer value-added services to our customers."

"For more than 25 years Mescalero Apache Telecom, Inc. has been providing their customers with great service and support, while executing against their mission of delivering superior products and services in the state of New Mexico," said John Ryan, Senior Vice President of Sales, Ribbon Communications. "After an extensive due diligence process, we are honored that they have selected our network transformation solutions to help future-proof their network and deliver advanced communications and security services to their loyal customer base."

Key Takeaways:

- 1 Mescalero Apache Telecom, Inc. has upgraded its communications network with Ribbon's market-leading network transformation solutions.
- 1 Mescalero Apache Telecom, Inc. selected Ribbon because of its proven ability to deliver reliable, secure, next-generation communications solutions.
- 1 Ribbon's [C15](#) network transformation solution significantly consolidates and modernizes infrastructure and eliminates inefficiencies, providing IP services that help service providers improve business and residential communications services and accelerate time-to-market, while dramatically reducing recurring power, HVAC and staffing costs.

- | Ribbon's next generation cloud enabled [Session Border Controller](#) software provides robust security, simplified interoperability, advanced session management, and carrier grade reliability for applications such as [SIP Trunking](#), [Unified Multimedia Communications](#), [VoLTE](#), VoWi-Fi, RCS, [OTT services](#), [IP Peering](#), [IP eXchange](#) and [intra-network interconnects](#).
