

Standard Parking®

2005 Annual Report

Company Profile

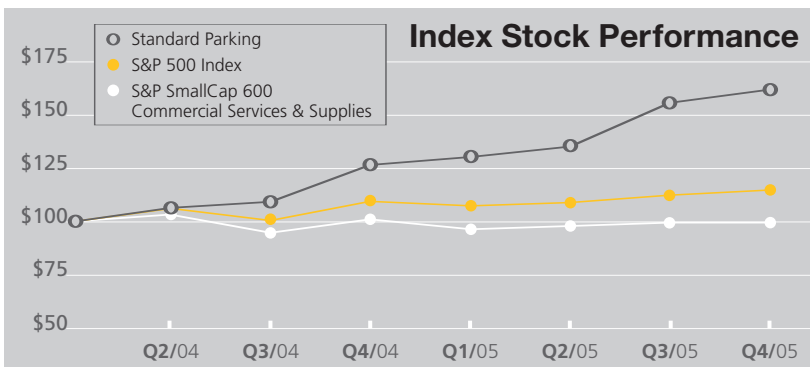

Standard Parking is a leading national provider of parking facility management services, providing on-site management services at multi-level and surface parking facilities for all major markets of the parking industry. The Company manages parking facilities containing more than one million parking spaces in hundreds of cities across the United States and Canada.

The Company's diversified client base includes some of the nation's largest private and public owners, managers and developers of major office buildings, residential properties, commercial properties, shopping centers and other retail properties, sports and special event complexes, hotels, and hospitals and medical centers. In the airport market, the Company manages parking, shuttle bus and ground transportation operations serving airports throughout the United States and Canada.

The Company also provides an array of related ancillary services to its clients, such as valet parking services at both urban and airport locations as well as on-street parking enforcement and meter collection services for municipal clients.

2005 Highlights

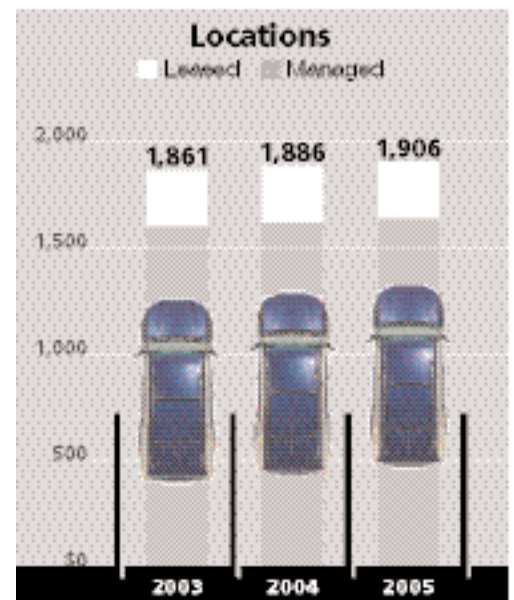

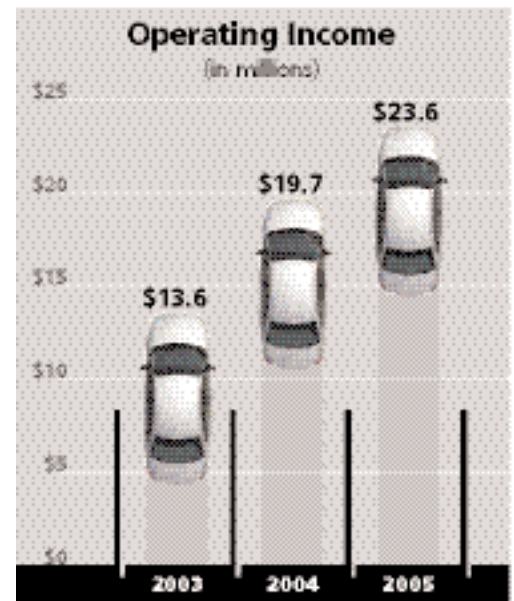

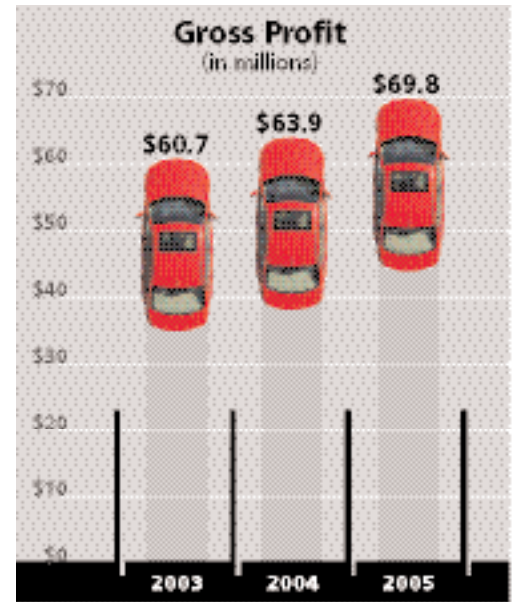

- Earnings per share of \$1.39
- Free cash flow per share of \$2.51
- Reduced total debt by \$17.6 million (16%)
- Increased location retention rate from 88% to 91%

Total debt	\$ 92,108	\$ 109,750	\$ 161,079

To Our Shareholders:

We are pleased to present this report of our 2005 activity. Our first full year as a public company was our best year ever, as we continued to deliver returns consistent with the business model we identified at the time of our 2004 public offering. The 2005 numbers speak for themselves:

- Operating income of \$23.6 million
- Earnings per share of \$1.39
- Free cash flow of \$26.5 million, or \$2.51 per share
- \$17.6 million, or 16%, reduction in total debt
- 91% location retention rate (up from 88% in 2004)

We achieved these results despite two significant challenges. Over the course of the year, we recognized a \$1.2 million loss, or (\$0.11) per share, related to a contract in Minnesota. In the second half of the year, we had to rebuild our New Orleans parking operations in the aftermath of Hurricane Katrina, which impacted EPS by (\$0.16) per share. Despite these challenges, we achieved earnings per share of \$1.39, up from \$0.42 in 2004 and in excess of our guidance range of \$1.27 - \$1.32.

During the year, we also entered the last phase of Sarbanes-Oxley documentation and testing of our internal controls, costing (\$0.08) per share, which required our organization's concentrated focus. We have now completed the assessment of our internal control as it relates to financial reporting, and we are pleased to report that the controls were found to be effective and without material weaknesses. Our independent auditors, Ernst & Young, LLP, have completed their evaluation and testing of our internal control over financial reporting and have issued an unqualified opinion.

From the \$26.5 million of free cash flow that the Company generated during 2005, we used \$6.0 million to repurchase shares and \$20.5 million to pay down debt. Net debt (total debt less cash) of \$81.3 million at year-end was below the range of \$85 - \$95 million that was projected at the beginning of the year.

Capital expenditures totaled \$4.8 million in 2005, and the Company also entered into \$2.6 million of new capital lease obligations intended primarily to fund the purchase of shuttle busses.

As part of our fundamental business model in the area of acquisitions, we consummated our acquisition of the 2 shuttle operations and 55 parking locations operated by Sound Parking, based in Seattle. The employment contracts that we entered into with Sound's former principals contain provisions that incentivize them to retain the existing contracts and to expand the Company's presence in the States of Washington, Oregon, Idaho and Alaska.

The fundamental characteristics of our business remain unchanged:

- *The use of a lower risk, higher margin management contract structure that produces consistent earnings and stable cash flow.* With approximately 86% of the Company's locations operating under this format, the impact on operations of external factors is significantly moderated.

Moreover, since management contracts don't typically require investment in working capital, we are able to grow our business without significant capital requirements.

- *An emphasis on growth within our core markets, enabling us to recognize significant economies of scale by spreading overhead costs across a large number of locations.* Our management structure and local knowledge within these core markets works to our competitive advantage.
- *A commitment to information technology and client reporting systems to drive increased efficiencies and enhance revenue.* Maintaining the integrity of the substantial amount of cash that flows through our locations with enhanced systems and a dedicated internal audit team is a cornerstone of Standard Parking's operating strategy.
- *Enhancing client relationships through the provision of ancillary services.* By way of example, for municipal clients we not only can manage their parking facilities but also can provide on-street parking meter collection, maintenance and enforcement services.

Our performance during 2005 reflects improving trends in our industry, the benefits that we derive from being a public company, and the predictability and reliability of our business model. It also reflects the substantial efforts of our dedicated employees throughout North America, whose professionalism and dedication contribute to our success each and every day. Finally, we believe our positive performance in 2005 reflects our continuing efforts to balance the needs and interests of our assorted constituencies – including our employees, our clients, the local communities in which we work, our parking patrons, our lenders and our shareholders.

For 2006 and beyond, we will continue to focus on our internal growth (especially in our core markets) and to be vigilant for opportunities to acquire other companies where the returns justify the investment. And, of course, we also will focus on ways to improve our balance sheet.

We look forward to 2006 with continued confidence and optimism.

SPECIAL CAUTIONARY NOTICE REGARDING FORWARD-LOOKING STATEMENTS

This Form 10-K includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to analyses and other information that are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies. The statements contained in this Form 10-K that are not statements of historical fact may include forward-looking statements that involve a number of risks and uncertainties.

We have used the words “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “will” and similar terms and phrases, including references to assumptions in this Form 10-K to identify forward-looking statements. These forward looking statements are made based on our management’s expectations and beliefs concerning future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. These uncertainties and factors could cause our actual results to differ materially from those matters expressed in or implied by these forward-looking statements. The following factors are among those that may cause actual results to differ materially from our forward-looking statements:

- an increase in owner-operated parking facilities;*
- changes in patterns of air travel or automobile usage, including effects of changes in gas and airplane fuel prices, effects of weather on travel and transportation patterns or other events affecting local, national and international economic conditions;*
- implementation of our operating and growth strategy, including possible strategic acquisitions;*
- the loss, or renewal on less favorable terms, of management contracts and leases;*
- player strikes or other events affecting professional or other organized sports;*
- changes in general economic and business conditions or demographic trends;*
- integration of future acquisitions in light of challenges in retaining key employees, synchronizing business processes and efficiently integrating facilities, marketing and operations;*
- changes in current pricing;*
- development of new, competitive parking-related services;*
- changes in federal and state regulations including those affecting airports, parking lots at airports or automobile use;*
- extraordinary events affecting parking at facilities that we manage, including emergency safety measures, military or terrorist attacks and natural disasters;*
- our ability to renew our insurance policies on acceptable terms, the extent to which our clients choose to procure insurance coverage through us and our ability to successfully manage self-insured losses;*
- our ability to form and maintain relationships with large real estate owners, managers and developers;*
- the ability to obtain performance bonds on acceptable terms to guarantee our performance under certain contracts;*
- the loss of key employees;*
- our ability to develop, deploy and utilize information technology;*
- our ability to refinance our indebtedness;*
- our ability to consummate transactions and integrate newly acquired contracts into our operations;*

- *availability, terms and deployment of capital;*
- *the ability of our parent or its affiliates to control our major corporate decisions; and*
- *the other factors discussed under Item 1A Risk Factors, and Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations and elsewhere in this Form 10-K.*

All of our forward-looking statements should be considered in light of these factors. We undertake no obligation to update our forward-looking statements or risk factors to reflect new information, future events or otherwise, except as may be required under applicable securities laws and regulations.

PART I

ITEM 1. BUSINESS

General

We are a leading national provider of parking facility management services. We provide on-site management services at multi-level and surface parking facilities for all major markets of the parking industry. We manage more than 1,900 parking facilities, containing over one million parking spaces, in 303 cities across the United States and Canada. Our diversified client base includes some of the nation's largest private and public owners, managers and developers of major office buildings, residential properties, commercial properties, shopping centers and other retail properties, sports and special event complexes, hotels, and hospitals and medical centers, including properties such as the Arco Tower in Los Angeles, the Four Seasons Hotel in Chicago, the Harvard Medical School in Cambridge, the Nationwide Arena in Columbus and Westfield Shoppingtown Century City in Los Angeles. In addition, we manage 112 parking-related and shuttle bus operations serving 64 airports, including Chicago O'Hare International Airport, Cleveland Hopkins International Airport and Dallas/Fort Worth International Airport.

Since entering the parking business in 1929, we have focused on providing our clients with superior management services to attract customers. We believe that our management services, coupled with a leading position in our core markets, helps to maximize profitability per parking facility for both us and our clients. We believe that we have created our leading position by providing:

- *Ambiance in Parking*[®], an approach to parking that includes on-site, value-added services and amenities;
- service enhancing information technology, including *ClientView*SM, a proprietary client reporting system that allows us to provide our clients with on-line access to site-level financial and operating information;
- comprehensive training programs for on-site employees, including our web-based *Standard University*[®] training programs for management-level personnel, that promote customer service and client retention; and
- an internal audit and contract compliance group to monitor cash and operational controls.

Moreover, as a public company subject to the requirements of the Securities Exchange Act of 1934 and the Sarbanes-Oxley Act, we adhere to accounting, internal control and reporting standards that are more rigorous than those typically followed by our non-public competitors.

We believe that these factors distinguish us from our competitors and contribute to our high retention rate, which averaged 91% for the year ended December 31, 2005 (which statistic includes the impact of our decision to exit from unprofitable contracts).

We do not own any parking facilities and, as a result, we assume few of the risks of real estate ownership. We operate our clients' parking properties through two types of arrangements: management contracts and leases. Under a management contract, we typically receive a base monthly fee for managing the facility, and we may also receive an incentive fee based on the achievement of facility performance objectives. We also receive fees for ancillary services. Typically, all of the underlying revenues and expenses under a standard management contract flow through to our client rather than to us. Under lease arrangements, we generally pay either a fixed annual rent, a percentage of gross customer collections, or a combination thereof to the property owner. We collect all revenues under lease arrangements and we are responsible for most operating expenses, but we are typically not responsible for major maintenance, capital expenditures or real estate taxes. As of December 31, 2005, we operated 86% of our locations under management contracts and 14% under leases.

We also provide a range of ancillary services to satisfy client needs such as municipal meter collection and valet parking.

Industry Overview

General

The International Parking Institute, a trade organization of parking professionals, estimates that as of December 2002 (the latest year for which numbers are available) there were approximately 40,000 parking facilities in the United States generating over \$29.0 billion in gross customer collections. Industry participants, the vast majority of which are privately held companies, consist of relatively few nationwide companies and hundreds of small regional or local operators, including a substantial number of companies that provide parking as an ancillary service in connection with property management or ownership. The parking industry from time to time experiences consolidation as smaller operators find that they lack the financial resources, economies of scale and management techniques required to compete with larger providers. We expect this trend will continue and provide larger parking management companies with opportunities to win business and acquire smaller operators.

Operating Arrangements

Parking facilities operate under three general types of arrangements: management contracts, leases and ownership. The general terms and benefits of these three types of arrangements are as follows:

Management Contracts. Under a management contract, the facility manager generally receives a base monthly fee for managing the facility and may receive an incentive fee based on the achievement of facility performance objectives. Facility managers generally charge fees for various ancillary services such as accounting, equipment leasing and consulting. Responsibilities under a management contract include hiring, training and staffing parking personnel, and providing revenue collection, accounting, record-keeping, insurance and facility marketing services. In general, under a management contract, the facility manager is not responsible for structural or mechanical repairs, and typically is not responsible for providing security or guard services. Under typical management contracts, the facility owner is responsible for operating expenses such as taxes, license and permit fees, insurance premiums, payroll and accounts receivable processing and wages of personnel assigned to the facility. However, some management contracts, which are referred to as “reverse” management contracts, usually provide for larger management fees and require the facility manager to pay certain of these costs. Generally under management contracts, the facility owner is responsible for non-routine maintenance, repair costs and capital improvements. Management contracts are typically for a term of one to three years (though the client often reserves the right to terminate, without cause, on 30 days’ notice) and may contain a renewal clause.

Leases. Under a lease arrangement, the parking facility operator generally pays to the property owner either a fixed annual rent, a percentage of facility revenues, or a combination thereof. The parking facility operator collects all revenues and is responsible for most operating expenses, but is typically not responsible for major maintenance, capital expenditures or real estate taxes. In contrast to management contracts, leases are typically for terms of three to ten years, often contain a renewal term, and provide for a fixed payment to the facility owner regardless of the facility’s operating earnings. However, many of these leases may be cancelled by the client for various reasons, including development of the real estate for other uses. Some are cancelable by the client on as little as 30 days’ notice without cause. Leased facilities generally require a longer commitment and a larger capital investment by the parking facility operator than do managed facilities.

Ownership. Ownership of parking facilities, either independently or through joint ventures, typically requires a larger capital investment and greater potential risks and rewards than managed or leased

facilities. All owned facility revenues flow directly to the owner, and the owner has the potential to realize benefits of appreciation in the value of the underlying real estate. The owner of a parking facility is responsible for all obligations related to the property, including all structural, mechanical and electrical maintenance and repairs and property taxes. Due to the high cost of real estate in many major urban markets, ownership of parking facilities usually requires large capital investments.

Industry Growth Dynamics

A number of opportunities for growth exist for larger parking facility operators, including the following:

Growth of Large Property Managers, Owners and Developers. Over the past several years, there has been a substantial increase in the number of national property managers, owners and developers with multiple locations. Sophisticated property owners consider parking a profit center that experienced parking facility management companies can maximize. This dynamic favors larger parking service providers that can provide specialized, value-added professional services with nationwide coverage. In order to streamline their business, many of these large national property managers, owners and developers have reduced the number of suppliers with which they conduct business.

Increased Outsourcing of Parking Management and Related Services. Growth in the parking management industry has resulted from a continuing trend by parking facility owners to outsource the management of their parking and related operations to independent operators. We believe that entities such as large property management managers, owners and developers as well as cities, municipal authorities, hospitals and universities will increasingly retain parking management companies to operate facilities and provide related services in an effort to focus on their core competencies, reduce operating budgets and increase profitability and efficiency. We believe this trend is expanding to include outsourcing of shuttle bus operations, municipal meter collection and valet parking.

Industry Consolidation. The parking management industry is highly fragmented, with hundreds of small regional or local operators. We believe national parking facility managers have a competitive advantage over local and regional operators by reason of their:

- broad product and service offerings;
- relationships with large, national property managers, developers and owners;
- efficient cost structure due to economies of scale; and
- financial resources to invest in infrastructure and information systems.

Growth Strategy

We believe we are well positioned to pursue the following growth strategies:

Grow Contract Portfolio Within Our Core Markets. Our strategy is to increase our presence and profitability in our core markets by continuing to provide sophisticated parking services and by capitalizing on our economies of scale and operating efficiency. This concentration of locations gives us the ability to spread administrative overhead costs across a large number of parking facilities in a single market. We plan to continue to maximize our premium service, local market knowledge and management infrastructure to retain existing locations and compete aggressively for new business in these core markets. We regularly review potential acquisition opportunities to increase our position in our core markets.

Enhance Client Relationships Through Additional Services. We believe we can deepen our relationships with existing clients and attract new clients by continuing to offer additional services that complement our parking expertise, such as shuttle bus, taxi-dispatch, municipal meter collection, and valet-parking services. By offering these services to our clients, we increase our revenues and gross profit per

location and strengthen our client relationships, which should enhance our ability to win new contracts and increase our retention rate.

Develop New Market Opportunities. We believe that a significant opportunity exists for us to expand our presence in markets such as university campus parking and hospital parking. In addition to our long-standing relationships with Harvard Medical School, Northwestern University and Northwestern Memorial Hospital, we have expanded our presence in these markets with the recent addition of parking services at George Mason University and Boston University. In addition to expanded growth opportunities in the hospital and university markets, we see significant potential within the municipal on-street market, including enforcement services. We currently provide exclusive meter collection and management services for the Cities of Miami Beach, Florida, Ft. Myers, Florida and New Orleans, Louisiana.

Develop New Core Markets. We believe that numerous opportunities for growth are available by developing new core markets either through new contracts, acquisitions, alliances or partnerships. Our clients generally have a presence in a variety of urban markets where they seek to outsource the management of their parking facilities to a national parking service provider that can assist them in maximizing parking-related profit. One of our strategies is to grow our client relationships to facilitate the addition of new locations and our strategic identification and development of new geographic markets.

Services

As a professional parking management company, we provide a comprehensive, turn-key package of parking services to our clients. Under a typical management contract structure, we are responsible for providing and supervising all personnel necessary to facilitate daily parking operations including cashiers, porters, valet attendants, managers, bookkeepers, and a variety of maintenance, marketing, customer service, and accounting and revenue control functions. By way of example, our typical day-to-day operating duties, whether performed using our own personnel or subcontracted vendors, include:

- Collection and deposit of daily and monthly parking revenues from all parking customers.
- Daily housekeeping to maintain the facility in a clean and orderly manner.
- Restriping of the parking stalls as necessary.
- Routine maintenance of parking equipment (e.g., ticket dispensing machines, parking gate arms, fee computers).
- Marketing efforts designed to maximize gross parking revenues.
- Delivery of courteous and professional customer relations.
- Painting of walkways, curbs, ceilings, walls or other facility surfaces.
- Snow removal from sidewalks and driveways.

The scope of our management services typically also includes a number of functions that support the basic daily facility operations, such as:

- Preparation of an annual operating budget reflecting our estimates of the annual gross parking revenues that the facility will generate from its parking customers, as well as the costs and expenses to be incurred in connection with the facility's operation.
- Evaluation and analysis of, and consultation with our clients with respect to, price structures that will optimize our client's revenue objectives. In doing so, we use our proprietary *ParkStat*® software tool. By automatically polling information from on-site collection devices, *ParkStat*® uses location-

specific information to calculate the impact of pricing alternatives, optimize staffing levels, improve forecasting and assist in long-range planning.

- Consultation with our clients regarding which of our menu of customer amenities are appropriate and/or desirable for implementation at the client's parking facility.
- Implementation of a wide range of operational and revenue control processes and procedures, including internal audit procedures, designed to maximize and protect the facility's parking revenues. Compliance with our mandated processes and procedures is supervised by a dedicated fifteen person internal audit and contract compliance group.
- Consultation with our clients regarding any recommended modifications in facility design or traffic flow, or the installation of new or updated parking equipment, designed both to enhance the ease and convenience of the parking experience for the parking customers and to maximize facility profitability.
- Monthly reporting to our clients regarding the facility's operating results. For those clients who wish to directly access their financial reporting information on-line, we offer the use of our proprietary *ClientView*SM client reporting system, which provides on-line access to site-level financial and operating information.

Ancillary Services

Beyond the conventional parking facility management services described above, we also offer an expanded range of ancillary services. For example:

- At various airports throughout the United States, we provide shuttle bus vehicles and the drivers to operate them in support of on-airport car rental operations as well as private off-airport parking locations.
- At certain airports, we provide ancillary ground transportation services, such as taxi and livery dispatch services, as well as concierge-type ground transportation information and support services for arriving passengers.
- For municipalities, we provide basic shuttle bus services, on-street parking meter collection and other forms of parking enforcement services.
- Within the medical center and hospital market, we provide valet parking and shuttle bus services.

Amenities and Customer Service Programs

We offer a comprehensive package of amenity and customer service programs, branded as *Ambiance in Parking*[®], that can be provided to our customers, many at nominal or no cost to the client. These programs not only make the parking experience more enjoyable, but also convey a sense of the client's sensitivity to and appreciation of the needs of its parking customers. In doing so, we believe the programs serve to enhance the value of the parking properties themselves.

Musical Theme Floor Reminder System. Our musical theme floor reminder system is designed to help customers remember the garage level on which they parked. A different song is played on each floor of the parking garage. Each floor also displays distinctive signage and graphics that correspond with the floor's theme. For example, in one parking facility with U.S. colleges as a theme, a different college logo is displayed, and that college's specific fight song is played, on each parking level. Other parking facilities have themes such as famous recording artists, musical instruments, and professional sports teams.

Books-To-Go® Audiotope Library. Monthly customers can borrow—free of charge—audio tapes to which they can listen as they drive to and from work. A wide selection of fiction, non-fiction and business titles is maintained in the facility office.

Films-To-Go® Videotope Library. This amenity builds on the success of our popular *Books-To-Go®* program. Videotapes of many popular movie titles are stocked in the parking facility office and made available free of charge to monthly customers. The movie selections are updated on a regular basis.

Little Parkers® Child-Friendly Facilities. This amenity creates a family atmosphere at the parking facility. Customers may use baby changing stations installed in the public restrooms. Kids appreciate the distribution of free toys such as bubble bottles, coloring books and stuffed animals.

Complimentary Driver Assistance Services. Parking facility attendants provide a wide range of complimentary services to customers with car problems. Assistance can include charging weak batteries, inflating/changing tires, cleaning windshields and refilling windshield washer fluid. Attendants also can help customers locate their vehicles and escort them to their cars.

Standard Equipment & Technology Upgrade Program® Services (SETUP®). Standard Parking provides clients with a complete turnkey solution to managing all phases of new equipment projects, from initial design to installation to ongoing maintenance. Our design team will suggest a complete solution intended to return to our clients the greatest value for their investment based upon consideration of a wide array of choices as to both equipment (such as Pay-On-Foot, Automated Vehicle Identification and Automated Credit/Debit Card machine technology) and services (procurement, project management, installation and maintenance).

Standard Road Assist® Emergency Services. Parking customers experiencing vehicle problems beyond weak batteries and low tire pressure call our toll-free number to receive, on a pay-per-use basis, a basic package of emergency services, including towing up to five miles, jump starting, flat tire changing, fuel delivery, extracting a vehicle from the side of the road and lock-out service. The emergency services are provided at the parking facility or anywhere on the road.

CarCareSM Maintenance Services. A car service vendor will pick-up a customer's car from the parking facility, contact the customer with an estimate, service the car during normal working hours and return it to the facility before the end of the business day.

ParkNet® Traffic Information System. The system provides customers with continuously updated traffic reports on a site-specific basis so that drivers can learn not only about traffic conditions on the area highways, but also about conditions in the immediate vicinity of the parking facility.

Automated Teller Machines. On-site ATM machines provide customers access to cash from bankcards and credit cards. We arrange for the installation of the machine, operated and maintained by an outside vendor. The parking facility realizes supplemental income from a fixed monthly rent and a share of usage transaction fees.

Complimentary Courtesy Umbrellas and Flashlights. Courtesy umbrellas are loaned to customers on rainy days. A similar lending program can be implemented to provide flashlights in emergency situations or power outages.

Car Washing, Detailing and Windshield Cleaning. We typically are able to arrange for car wash and/or detailing services to be provided at our facilities during the business day, either by our own staff or through a contracted vendor. Moreover, during non-peak times our attendants periodically clean windshields and headlamps, leaving a note on the windshield to advise the customer of this complimentary service that the property owner has provided.

Complimentary Services/Customer Appreciation Days. Our clients select from a variety of complimentary services that we provide as a special way of saying “thank you” to our parking customers. Depending on client preferences, coffee, donuts and/or newspapers occasionally are provided to customers during the morning rush hour. On certain holidays, candy, with wrappers that can be customized with the facility logo, can be distributed to customers as they exit. We also can distribute personalized promotional items, such as ice scrapers and key-chains.

Business Development

Our efforts to attract new clients are primarily concentrated in and coordinated by a dedicated business development group, currently comprised of 16 individuals, whose background and expertise is in the field of sales and marketing, and whose financial compensation is determined to a significant extent by their business development success. This business development group is responsible for forecasting sales, maintaining a pipeline of prospective and existing clients, initiating contacts with such clients, and then following through to coordinate meetings involving those clients and the appropriate members of our operations hierarchy. By concentrating our sales efforts through this dedicated group, we enable our operations personnel to focus on achieving excellence in our parking facility operations and maximizing our clients’ parking profits and our own profitability.

We also place a specific focus on marketing and client relationship efforts that pertain to those clients having a large regional or national presence. Accordingly, we assign a dedicated executive to those clients to address any existing portfolio issues, as well as to reinforce existing—and develop new—account relationships and to take any other action that may further our business development interests.

Operations

We maintain regional and city offices throughout the United States and Canada in order to support more than 11,000 employees and 1,900 parking facility operations. These offices serve as the central bases through which we provide the employees to staff our parking facilities as well as the on-site and support management staff to oversee those operations. Our administrative staff accountants are based in those same offices and facilitate the efficient, accurate and timely production and delivery to our clients of our monthly reports. Having these all-inclusive operations and accounting teams located in regional and city offices throughout the United States and Canada allows us to add new locations quickly and in a cost-efficient manner. To facilitate the training of our facility personnel throughout the country, we have separate, dedicated trainers.

Our overall basic corporate functions in the areas of finance, human resources, risk management, legal, purchasing and procurement, general administration, strategy and information and technology, are based in our Chicago corporate office. The Chicago corporate office also supports and promotes consistency throughout our field operations by developing and administering our operational, financial and administrative policies, practices and procedures.

Clients and Properties

Our client base includes a diverse cross-section of public and private owners, developers and managers of real estate. A list of some of our clients, and the types of properties for which we operate their parking, include:

<u>Client / Property</u>	<u>City, State/Province</u>	<u>Property Type</u>
American Museum of Natural History . .	New York, New York	Museum
Brookfield Properties Corporation	Boston, Massachusetts Calgary, Alberta Denver, Colorado Minneapolis, Minnesota New York, New York Toronto, Ontario Vancouver, British Columbia	Office
Chicago O'Hare International and Chicago Midway Airports	Chicago, Illinois	Airport
Cleveland Clinic Foundation.	Cleveland, Ohio	Medical center
Crescent Real Estate Equities Company	Austin, Texas, Houston, Texas, Miami, Florida	Office
Four Seasons Hotel.	Chicago, Illinois, Atlanta, Georgia	Hotel
Hartford Bradley International Airport .	Hartford, Connecticut	Airport
Harvard Medical School	Cambridge, Massachusetts	University/Medical
JMB Realty Corporation	Chicago, Illinois Houston, Texas Los Angeles, California	Office
Nationwide Arena Realty	Columbus, Ohio	Office and Special event
Washington Mutual, Inc.	Los Angeles, California San Francisco, California	Retail
Westfield Properties Shoppingtowns. . . .	Los Angeles, California	Retail

No single client represented more than 6.0% of revenues or more than 3.0% of our gross profit for the year ended December 31, 2005. For the year ended December 31, 2005, we retained an average of 91% of our locations, as compared to 88% for the year ended December 31, 2004, (which statistic includes the impact of our decision to exit from unprofitable contracts).

Information Technology

We believe that automation and technology can enhance customer convenience, lower labor costs, improve cash management and increase overall profitability. We have been a leader in the field of introducing automation and technology to the parking business and we were among the first to adopt electronic fund transfer (EFT) payment options, pay-on-foot (ATM) technology and bar code decal technology.

To promote internal efficiency, we have created advanced information systems that connect local offices across the country to our corporate headquarters. These systems support accounting, financial management and reporting practices, general operating procedures, training, employment policies, cash controls and marketing procedures. Our commitment to the application of technology in the parking

management business has resulted in the creation of two proprietary products, *ClientView*[™] and *ParkStat*[®]. *ClientView*sm is an Internet-based system that gives our clients the flexibility and convenience to access and download their monthly financials and detailed back-up reports. *ParkStat*[®] enhances the performance of the parking facility by using location-specific information to assess the impact of pricing alterations, optimize staffing levels, improve forecasting and assist in long-range planning. We believe that our standardized processes and controls enhance our ability to successfully add new locations and expand our operations into new markets.

Employees

As of December 31, 2005, we employed approximately 11,300 individuals, including approximately 6,800 full-time and 4,500 part-time employees. As of December 31, 2004, we employed approximately 11,100 individuals, including approximately 6,700 full-time and 4,400 part-time employees. Approximately 25% of our employees are covered by collective bargaining agreements. No single collective bargaining agreement covers a material number of employees. We believe that our employee relations are good.

Insurance

We purchase comprehensive liability insurance covering certain claims that occur at parking facilities we lease or manage. The primary amount of such coverage is \$2.0 million per occurrence and \$2.0 million in the aggregate per facility for our garage liability and garage keepers legal liability coverages. In addition, we purchase umbrella/excess liability coverage. Under our various liability and workers' compensation insurance policies, we are obligated to reimburse the insurance carrier for the first \$250,000 of any loss. As a result, we are, in effect, self-insured for all claims up to the deductible levels. We utilize a third-party administrator to process and pay claims. We also purchase property insurance that provides coverage for loss or damage to our property and in some cases our clients' property, as well as business interruption coverage for lost operating income and certain associated expenses. The deductible applicable to any given loss under our property insurance policy varies based upon the insured values and the peril that causes the loss. We also purchase group health insurance with respect to eligible full-time employees and family members (whether such employees work at leased or managed facilities) and are fully-insured for all covered expenses. We purchase workers' compensation insurance for all eligible employees. We believe that our insurance coverage is adequate and is consistent with industry practice.

Because of the size of the operations covered and our claims experience, we purchase insurance policies at prices that we believe represent a discount to the prices that would typically be charged to parking facility owners on a stand-alone basis. The clients for whom we operate parking facilities pursuant to management contracts have the option of purchasing their own liability insurance policies (provided that we are named as an additional insured pursuant to an additional insured endorsement), but historically many of our clients have chosen to obtain insurance coverage by being named as additional insureds under our master liability insurance policies. Pursuant to our management contracts we charge to such clients an allocated portion of our insurance-related costs at rates that we believe are competitive. A material reduction or increase in the number of clients who procure their insurance coverage by being named as additional insured's under our liability policies could have a material effect on our operating income. In addition, a material change in insurance costs due to a change in the number of claims, claims costs or premiums paid by us could have a material effect on our operating income. With respect to our management contract locations, it has been our practice to recover our costs through the rates we charge our clients for insurance. In addition, we have taken steps to control our insurance costs and losses, including the implementation of various measures and safety and incentive programs.

Competition

The parking industry is fragmented and highly competitive, with limited barriers to entry. We face direct competition for additional facilities to manage or lease, while our facilities themselves compete with nearby facilities for our parking customers and in the labor market generally for qualified employees. Moreover, the construction of new parking facilities near our existing facilities can adversely affect our business. We are one of four national parking management companies, with the others being Ampco System Parking, Central Parking Corporation and Imperial Parking Corporation. We also face competition from numerous smaller, locally owned independent parking operators, as well as from developers, hotels, national financial services companies and other institutions that manage both their own parking facilities as well as facilities owned by others. Many municipalities and other governmental entities also operate their own parking facilities, potentially eliminating those facilities as management or lease opportunities for us. Some of our present and potential competitors have or may obtain greater financial and marketing resources than us, which may negatively impact our ability to retain existing contracts and gain new contracts. We face significant competition in our efforts to provide ancillary services such as shuttle bus services and on-street parking enforcement. Several large companies specialize in these services.

Seasonality

During the first quarter of each year, seasonality impacts our performance with regard to moderating revenues, with the reduced levels of travel most clearly reflected in the parking activity associated with our airport and hotel businesses as well as increases in certain costs of parking services, such as snow removal, both of which negatively affect gross profit. Although our revenues and profitability are affected by the seasonality of the business, general and administrative costs are relatively stable throughout the fiscal year.

Regulation

Regulations by the Federal Aviation Administration may affect our business. The FAA generally prohibits parking within 300 feet of airport terminals during times of heightened alert. The 300 feet rule and new regulations may nevertheless prevent us from using a number of existing spaces during heightened security alerts at airports. Reductions in the number of parking spaces may reduce our gross profit and cash flow for both our leased facilities and those facilities we operate under management contracts.

Our business is not otherwise substantially affected by direct governmental regulation, although both municipal and state authorities sometimes directly regulate parking facilities. We are affected by laws and regulations (such as zoning ordinances) that are common to any business that deals with real estate and by regulations (such as labor and tax laws) that affect companies with a large number of employees. In addition, several state and local laws have been passed in recent years that encourage car pooling and the use of mass transit. For example, a Los Angeles, California law prohibits employers from reimbursing employee parking expenses. Laws and regulations that reduce the number of cars and vehicles being driven could adversely impact our business.

We collect and remit sales/parking taxes and file tax returns for and on behalf of us and our clients. We are affected by laws and regulations that may impose a direct assessment on us for failure to remit sales/parking taxes or to file tax returns for ourselves and on behalf of our clients.

Under various federal, state and local environmental laws, ordinances and regulations, a current or previous owner or operator of real property may be liable for the costs of removal or remediation of hazardous or toxic substances on, under or in such property. Such laws typically impose liability without regard to whether the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. In connection with the operation of parking facilities, we may be potentially liable for any such costs. Although we are currently not aware of any material environmental claims pending or

threatened against us or any of the parking facilities which we operate, there can be no assurance that a material environmental claim will not be asserted against us or against the parking facilities which we operate. The cost of defending against claims of liability, or of remediating a contaminated property, could have a material adverse affect on our financial condition or results of operations.

Various other governmental regulations affect our operation of parking facilities, both directly and indirectly, including the ADA. Under the ADA, all public accommodations, including parking facilities, are required to meet certain federal requirements related to access and use by disabled persons. For example, the ADA requires parking facilities to include handicapped spaces, headroom for wheelchair vans, attendants' booths that accommodate wheelchairs and elevators that are operable by disabled persons. When negotiating management contracts and leases with clients, we generally require that the property owner contractually assume responsibility for any ADA liability in connection with the property. There can be no assurance, however, that the property owner has assumed such liability for any given property and there can be no assurance that we would not be held liable despite assumption of responsibility for such liability by the property owner. Management believes that the parking facilities we operate are in substantial compliance with ADA requirements.

Available Information

Our Internet address is www.standardparking.com. There we make available, free of charge, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports as soon as reasonably practicable after we electronically file such material with or furnish it to the SEC. Our SEC reports can be accessed through the investor relations section of our website. The information found on our website is not part of this or any other report we file with or furnish to the SEC.

Intellectual Property

Standard Parking® and the Standard Parking logo are service marks registered with the United States Patent and Trademark Office. In addition, we have registered the names and, as applicable, the logos of all of our material subsidiaries and divisions as service marks with the United States Patent and Trademark Office or the equivalent state registry, including the right to the exclusive use of the name Central Park in the Chicago metropolitan area. We invented the Multi-Level Vehicle Parking Facility, musical Theme Floor Reminder System, and obtained trademark registrations for our proprietary parker programs, such as *Books-to-Go*®, *Films-To-Go*®, *Little Parkers*® and *Ambiance in Parking*® and our comprehensive training program, *Standard University*®. We have also registered the copyright rights in our proprietary software, such as *ClientView*®, *Hand Held Program*®, *License Plate Inventory Programs*®, *ParkNet*® and *ParkStat*® with the United States Copyright Office.

Item 1A. Risk Factors

You should carefully consider the following specific risk factors as well as other information contained or incorporated by reference in this report, as these, among others, are important factors, that could cause our actual results to differ from our expected historical results. It is not possible to predict or identify all such factors. Consequently, you should not consider any such list to be a complete statement of all our potential risks or uncertainties.

Risk Factors

Our indebtedness could adversely affect our financial health and prevent us from fulfilling our obligations.

On December 31, 2005, 2004 and 2003 we had total indebtedness of approximately \$92.1 million, \$109.8 million and \$161.1 million, respectively.

Our indebtedness could have important consequences. For example, it could:

- increase our vulnerability to general adverse economic and industry conditions;
- require us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital, capital expenditures, growth initiatives, acquisitions and other general corporate purposes;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- limit our ability to engage in activities that may be in our long-term best interests;
- limit our ability to use capital as a means of retaining existing clients and attracting new clients;
- be required to be repaid if we experience a change of control;
- make it more difficult for us to satisfy our obligations with respect to our debt;
- place us at a competitive disadvantage compared to our competitors that have less debt and greater financial resources; and
- limit our ability to borrow additional funds.

We cannot assure you that cash flow from operations, combined with additional borrowings under the senior credit facility and any future credit facility will be available in an amount sufficient to enable us to repay our indebtedness, or to fund other liquidity needs. We and our subsidiaries may be able to incur substantial additional indebtedness in the future, which could cause the related risks to intensify. We will need to refinance all or a portion of our indebtedness including our senior credit facility and the 9 $\frac{1}{4}$ % notes, on or before their respective maturities. We cannot assure you that we will be able to refinance any of our indebtedness including our senior credit facility and the 9 $\frac{1}{4}$ % notes, on commercially reasonable terms or at all. If we are unable to refinance our debt, we may default under the terms of our indebtedness, which could lead to an acceleration of the debt. We do not expect that we could repay all of our outstanding indebtedness if the repayment of such indebtedness were accelerated.

Our working capital and liquidity may be affected if a significant number of our clients require us to deposit all parking revenues into their respective accounts.

We frequently contract with clients to hold parking revenues in our account and remit the revenues, minus the operating expenses and our fee, to our clients at the end of the month. Some clients, however, require us to deposit parking revenues in their accounts on a daily basis. This type of arrangement requires

us to pay costs as they are incurred and receive reimbursement and the management fee after the end of the month. There can be no assurance that a significant number of clients will not switch to the practice of requiring us to deposit all parking revenues into their respective accounts, which would have a material adverse effect on our liquidity and financial condition.

Our business would suffer if the use of parking facilities we operate decreased.

We derive a substantial portion of our revenues from the operation and management of parking facilities. Our business would suffer if the use of parking facilities in urban areas or at or near airports decreased. Further, our success depends on our ability to adapt and improve our products in response to evolving client needs and industry trends. If demand for parking is low due to decreased car and airplane travel resulting from increased gasoline prices, inclement weather, increased regulation, general economic slowdown or other factors, our business, financial condition, results of operations and our ability to achieve sufficient cash flow to service our indebtedness, may be materially adversely affected.

The operation of our business is dependent upon key personnel.

Our success is, and will continue to be, substantially dependent upon the continued services of our executive management team. The loss of the services of one or more of the members of our executive management team could have a material adverse effect on our financial condition and results of operations. Although we have entered into employment agreements with, and historically have been successful in retaining the services of, our executive management, there can be no assurance that we will be able to retain them in the future. In addition, our continued growth depends upon our ability to attract and retain skilled operating managers and employees.

We have significant financial obligations under our lease at Bradley International Airport.

We are entered into a 25-year lease with the State of Connecticut that expires on April 6, 2025, under which we lease the surface parking and 3,500 garage parking spaces at Bradley International Airport located in the Hartford, Connecticut metropolitan area. The parking garage was financed on April 6, 2000 through the issuance of \$47.7 million of State of Connecticut special facility revenue bonds. The Bradley agreement provides that we deposit with a trustee for the bondholders all gross revenues collected from operations of the surface and garage parking, and from these gross revenues, the trustee pays debt service on the special facility revenue bonds, operating and capital maintenance expenses of the surface and garage parking facilities and specific annual guaranteed minimum payments to the State. Principal and interest on the Bradley special facility revenue bonds increases from approximately \$3.6 million in lease year 2002 to approximately \$4.5 million in lease year 2025. Our annual guaranteed minimum payments to the State increase from approximately \$8.3 million in lease year 2002 to approximately \$13.2 million in lease year 2024.

To the extent that monthly gross receipts are not sufficient for the trustee to make the required payments, we are obligated, pursuant to our guaranty agreement, to deliver the deficiency amount to the trustee within three business days of notice. We are responsible for these deficiency payments regardless of the amount of utilization for the Bradley parking facilities. We received net repayments of previous deficiency payments of \$1.5 million in 2005. Although the State of Connecticut has an obligation to raise parking rates to offset a decline in usage, there is no guarantee that the State of Connecticut will raise rates enough to offset a decline in usage or that any change in rates will result in revenues sufficient to cover the trustee's payments without resort to our guaranty. Although we expect to recover all amounts owed to us, we expect that in any given period we may have to make additional deficiency payments.

Our business would be harmed if fewer clients obtain insurance coverage through us.

Many of our clients have historically chosen to obtain liability insurance coverage for the locations we manage by being named as additional insureds under our master insurance policies. Clients do, however, have the option of purchasing such insurance independently, as long as we are named as an additional insured pursuant to an additional insured endorsement. We purchase insurance policies at prices that we believe represent a discount to the prices that would typically be charged to parking facility owners on a stand-alone basis. Pursuant to our management contracts, we allocate a portion of our risk management costs, at rates we believe are competitive, to those clients who choose to obtain their insurance coverage by being named as additional insured's under our insurance policies. A material reduction in the number of clients who choose to obtain their insurance coverage from us in that manner could have a material adverse effect on our operating income.

Additional funds would need to be reserved for future insurance losses if such losses are worse than expected.

We provide liability and worker's compensation insurance coverage consistent with our obligations to our clients under our various management contracts and leases. We are obligated to reimburse our insurance carrier for each loss incurred in the current policy year up to the amount of a deductible specified in our insurance policies. The deductible for our various liability and workers' compensation policies is \$250,000. We also purchase property insurance that provides coverage for loss or damage to our property, and in some cases our clients' property, as well as business interruption coverage for lost operating income and certain associated expenses. The deductible applicable to any given loss under our property insurance policy varies based upon the insured values and the peril that causes the loss. Our financial statements reflect our funding of all such obligations based upon guidance and evaluation we have received from third-party insurance professionals. There can be no assurance, however, that the ultimate amount of our obligations will not exceed the amount presently funded or accrued, in which case we would need to set aside additional funds to reserve for any such excess. Our obligations could increase if we receive a greater number of insurance claims or the cost of claims generally increases. A material increase in insurance costs due to a change in the number of claims, claims costs or premiums paid by us could have a material adverse effect on our operating income.

We face business and financial risk in implementing our growth strategy.

We face risks in growing our business, either organically or through acquisitions. Risks include:

- Difficulties in the integration of new operations, technologies, products and personnel;
- Competitive pressures;
- Inability to maintain our standards, controls and procedures;
- Risks of entering new geographic or service markets in which we have no or limited prior experience;
- Potential loss of employees;
- Diversion of management's attention; and
- Expenses of any undisclosed or potential liabilities of any acquired company.

Our growth will be directly affected by the results of operations of added parking facilities, which will depend, in turn, upon the competitive environment for acquisitions and new contracts and our ability to obtain suitable financing, contract terms and government licenses and approvals.

Our ability to expand our business will be dependent upon the availability of adequate capital.

The rate of our expansion will depend in part upon the availability of adequate capital, which in turn will depend in large part upon cash flow generated by our business and the availability of equity and debt capital. We believe that we will be able to obtain equity or debt capital on acceptable terms. However, our senior credit facility, and the indentures governing our 9¼% notes contain provisions that restrict our ability to incur additional indebtedness and/or make substantial asset sales that might otherwise be used to finance our expansion. Our failure to comply with those covenants could result in an event of default which, if not cured or waived, could result in the acceleration of all of our indebtedness. As a result, we cannot assure you that we will be able to finance our current growth strategy.

The failure to successfully integrate possible future acquisitions or new contracts could have a negative impact on our business.

We plan to pursue acquisitions on a selective basis in the future. Successful integration and management of additional facilities will depend on a number of factors, many of which are beyond our control. There can be no assurance that suitable acquisitions or new contract candidates will be identified, that such acquisitions or new contracts will be consummated or that the acquired operations or new contracts can be integrated successfully. Any acquisition contemplated or completed by us may result in adverse short-term effects on our reported operating results, divert management's attention, introduce difficulties in retaining, hiring and training key personnel, and introduce risks associated with unanticipated problems or legal liabilities, cause the incurrence of additional debt, cause the issuance of additional equity, contingent liabilities and amortization of expenses related to intangible assets, some or all of which could reduce our profitability and harm our business.

Our management contracts and leases expose us to certain risks.

As of December 31, 2005, we operated approximately 86% of our parking facilities pursuant to management contracts. Under these contracts, we typically receive a base monthly fee for managing the facility as well as amounts attributable to ancillary services, and we may also receive an incentive fee based on the achievement of facility performance objectives. However, some management contracts, which are referred to as "reverse" management contracts, usually provide for larger management fees and require the facility manager to pay certain of these parking facility costs, which exposes us to greater risk. Many of these contracts are for a one-year term and may be canceled by the client for various reasons, including development of the real estate for other uses. Many of these contracts are cancelable on as little as 30 days' notice without cause. Our ability to continue operating in these facilities is based on the client's satisfaction with our performance.

As of December 31, 2005, we operated approximately 14% of our parking facilities pursuant to leases. Although there is generally more potential for income from leased facilities than from management contracts, they also generally carry more risk. Under some of these lease contracts, we are obligated to pay to the owner of the facility a fixed base rent, often regardless of the actual utilization of the facility. Some of these leases can be for periods exceeding ten years. Maintenance and operating expenses for leased facilities are borne by us and are not passed through to the owner, unlike management contracts. A decline in facility utilization could result in lease payments exceeding the revenues received for operating the parking facility. Many of these leases may be canceled by the client for various reasons, including development of the real estate for other uses. Some are cancelable on as little as 30 days' notice without cause.

The loss or renewal on less favorable terms of a substantial number of management contracts or leases could have a material adverse effect on our business, financial condition and results of operations. In addition, because certain management contracts and leases are with state, local and quasi-governmental

entities, changes to certain governmental entities' approaches to contracting regarding parking facilities could affect such contracts. A material reduction in the operating income associated with ancillary services we provide under management contracts and leases, including increases in costs or claims associated with, or a reduction in the number of clients purchasing, insurance we provide, could have a material adverse effect on our business, financial condition and results of operations. To the extent that management contracts and leases are cancelable without cause, most of these contracts would also be cancelable in the event of bankruptcy, despite the automatic stay provisions under bankruptcy law.

Our business may be harmed as a result of terrorist attacks.

Any terrorist attacks, particularly in the United States or Canada, may negatively impact our business and results of operations. Attacks have resulted in, and may continue to result in, increased government regulation of airlines and airport facilities, including imposition of minimum distances between parking facilities and terminals, resulting in the elimination of currently managed parking facilities, and increased security checks of employees and passengers at airport facilities. These types of regulations could impose costs that we may not be able to pass on to clients and reduce revenues. To the extent that these attacks deter people either from flying or congregating in public areas, demand for parking at airports and at urban centers may decline. This decline may result in fewer owners of these facilities hiring us to manage their parking facilities and lower incentive payments under those contracts where we receive an incentive fee based on facility utilization or other factors. If these attacks cause or exacerbate a slowdown in the general economy, a similar effect may occur. An overall economic slowdown could reduce traffic at parking facilities we operate. Additional terrorist attacks, an escalation of hostilities abroad or war could have a material adverse impact on our business, financial condition and results of operations.

We operate in a very competitive business environment.

Competition in the field of parking facility management is intense. The market is fragmented and is served by a variety of entities ranging from single lot operators to large regional and national multi-facility operators, as well as municipal and other governmental entities that choose not to outsource their parking operations. Competitors with greater resources may be able to adapt more quickly to changes in customer requirements, or devote greater resources to the promotion and sale of their products. Competitors with greater financial resources may also be able to win contracts that require larger investments in working capital or capital expenditures on the parking facility. Many of our competitors also have long-standing relationships with our clients. Providers of parking facility management services have traditionally competed on the basis of cost and service. As we have worked to establish ourselves as one of the principal members of the industry, we compete predominately on the basis of high levels of service and strong relationships. We may not be able to, or may choose not to, compete with certain competitors on the basis of price. As a result, a greater proportion of our clients may switch to other service providers or self-manage during an economic downturn.

Increased government regulation of airports and reduced air travel may affect our performance.

We derive a significant percentage of our gross profit from parking facilities and parking related services in and around airports. For the year ended December 31, 2005, approximately 20% of gross profit was derived from those operations. The Federal Aviation Administration generally prohibits parking within 300 feet of airport terminals during periods of heightened security. While the prohibition is not currently in effect, there can be no assurance that this governmental prohibition will not again be reinstated. The existing regulations governing parking within 300 feet of airport terminals or future regulations may prevent us from using certain parking spaces. Reductions in the number of parking spaces and air travelers may reduce our revenues and cash flow for both our leased facilities and those facilities we operate under management contracts.

The sureties for our performance bond program may require additional collateral to issue or renew performance bonds in support of certain contracts or may elect not to provide us with new or renewal performance bonds for any reason.

Under substantially all of our contracts with municipalities, government entities and airports, we are required to provide a performance bond to support our obligations under the contract. We currently have commitments from certain surety carriers to provide us with a certain amount of bonding capacity without requiring any additional collateral from us. Nevertheless, in the event of any material adverse changes in our financial condition or in the event of changes in the surety industry, the sureties for our performance bond program could require us to collateralize our performance bonds with additional letters of credit. Our need to collateralize surety bonds would reduce the availability of funds under our senior credit facility and limits funds available for debt service, investments in our growth strategies, working capital and capital expenditure requirements. If we are required but are unable to provide sufficient collateral in the future, our sureties may not issue performance bonds to support our obligations under certain contracts. As of December 31, 2005, we had approximately \$0.3 million of letters of credit outstanding as collateral with respect to our sureties issuance of performance bonds.

As is customary in the industry, a surety provider can refuse to provide a bond principal with new or renewal surety bonds. If any existing or future surety provider refuses to provide us with surety bonds, there can be no assurance that we would be able to find alternate providers on acceptable terms, or at all. Our inability to provide surety bonds could also result in the loss of existing contracts. Failure to find a provider of surety bonds, and our resulting inability to bid for new contracts or renew existing contracts, could have a material adverse effect on our business and financial condition.

We do not maintain insurance coverage for all possible risks.

We maintain a comprehensive portfolio of insurance policies to help protect us against loss or damage incurred from a wide variety of insurable risks. Each year, we review with our professional insurance advisers whether the insurance policies and associated coverages that we maintain are sufficient to adequately protect us from the various types of risk to which we are exposed in the ordinary course of business. That analysis takes into account various pertinent factors such as the likelihood that we would incur a material loss from any given risk when viewed in light of the cost of obtaining insurance coverage against any such risk. While we believe that we maintain a comprehensive portfolio of insurance that is consistent with customary business practices and adequately protects us from the risks that we typically face in the ordinary course of our business, there can be no assurance that we may not sustain a material loss for which we do not maintain insurance coverage.

We believe that our client base is becoming more concentrated.

Because national property owners, managers and developers and other property management companies tend to own or manage multiple properties, our ability to provide parking services for a large number of properties becomes dependent on our relationships with these entities. As this happens, such clients become more significant to our business. The loss of one of these clients or the sale of properties they own to clients of our competitors could have a material adverse effect on our business and financial condition. Additionally, large clients with extensive portfolios have greater negotiating power when negotiating contracts, which could adversely affect our profit margins.

We must comply with regulations that may impose significant costs on us.

Under various federal, state and local environmental laws, ordinances and regulations, a current or previous owner or operator of real property may be liable for the costs of removal or remediation of hazardous or toxic substances on, under or in such property. These laws typically impose liability without

regard to whether the owner or operator knew of, or was responsible for, the presence of such hazardous or toxic substances. In connection with the operation of parking facilities, we may be potentially liable for such costs. Although we are currently not aware of any material environmental claims pending or threatened by any party against us or any of our operated parking facilities, no assurances can be given that a material environmental claim will not be asserted against us or against the parking facilities we operate. The cost of defending against claims of liability, or of remediating a contaminated property, could have a material adverse effect on our business, financial condition and results of operations.

Various other governmental regulations affect our operation of parking facilities, both directly and indirectly, including air quality laws, licensing laws and the Americans with Disabilities Act of 1990, or ADA. Under the ADA, all public accommodations, including parking facilities, are required to meet certain federal requirements related to access and use by disabled persons. A determination that we or the facility owner is not in compliance with the ADA could result in the imposition of fines or damage awards against us. In addition, several state and local laws have been passed in recent years that encourage car pooling and the use of mass transit. For example, a Los Angeles, California law prohibits employers from reimbursing employee parking expenses. Laws and regulations that reduce the number of cars and vehicles being driven could adversely impact our business.

We collect and remit sales/parking taxes and file tax returns for and on behalf of ourselves and our clients. We are affected by laws and regulations that may impose a direct assessment on us for failure to remit sales/parking taxes and filing of tax returns for ourselves and on behalf of our clients.

Prior transactions may limit our ability to utilize our remaining net operating losses and may accelerate future payment of taxes.

We have substantial net operating losses, or NOLs, for U.S. federal and state income tax purposes. As a result of the initial public offering completed in June 2004, an ownership change occurred under Internal Revenue Code Section 382 that limits our ability to use pre-change NOLs to reduce future taxable income.

We may be unable to renew our insurance coverage.

Our liability and worker's compensation insurance coverage expires on an annual basis. Failure to renew the existing coverage or to procure new coverage would have a material adverse effect on our business, financial condition and results of operations by preventing us from accepting new contracts and by placing us in default under a majority of our existing contracts. There can be no assurance that our insurance carriers will in fact be willing to renew our coverage at any rate at the expiration date. Furthermore, a material increase in the cost of insurance premiums could adversely affect our financial condition and results of operations.

Our parent company, Steamboat Industries LLC, and its wholly owned subsidiary, Steamboat Industries, N.V., which are controlled by our chairman, control our major corporate decisions.

Our parent company, Steamboat Industries LLC, and its wholly owned subsidiary, Steamboat Industries N.V., which are controlled by our chairman, John V. Holten, owns 51% of our outstanding common stock as of December 31, 2005. As a result, Steamboat Industries LLC and its subsidiary control us, the election and removal of the directors on our board of directors, and our management and policies. Steamboat Industries LLC and its subsidiary also control all matters regarding stockholder approval, including the amendment of certain provisions of our certificate of incorporation and by-laws and the approval of fundamental corporate transactions. Steamboat Industries LLC also has the ability to pledge shares of our common stock as security for its debt obligations. We have only 12,100,000 shares of capital stock authorized, of which only 1,406,973 shares remain unissued after giving effect to all authorized options under our long-term incentive plan. As a result, we require the consent of Steamboat Industries LLC and its subsidiary in order to authorize and issue additional common stock in connection with

corporate actions that may be beneficial to our business or to our stockholders, such as increasing the number of shares authorized under our Long-Term Incentive Plan for the retention of management, acquisitions for stock and mergers. The ability of our parent company to control our major corporate decisions may harm the market price for our common stock by delaying, deferring or preventing a business combination involving our company; causing us to enter into transactions that are not in the best interests of all stockholders or discouraging third-party investors.

A majority of our board of directors are not considered “independent” under the rules of The NASDAQ Stock Market, Inc.

Steamboat Industries LLC and its subsidiary own a majority of our common stock. As a result, we are a “controlled company” under the rules of The NASDAQ Stock Market, Inc., and we rely on the “controlled company” exception to the board of directors and committee composition requirements under rules of The NASDAQ Stock Market, Inc. Pursuant to this exception, we are exempt from the rule that requires that (i) our board of directors be comprised of a majority of “independent directors”; (ii) our compensation committee be comprised solely of “independent directors”; and (iii) our nominating and corporate governance committee be comprised solely of “independent directors”, as defined under the rules of The NASDAQ Stock Market, Inc. Because we rely upon this exemption, a majority of our board of directors are not considered “independent”. Furthermore, our compensation and nominating and corporate governance committee are not comprised solely of “independent directors,” as only one member out of the three member-directors for each committee is considered “independent” under the rules of The NASDAQ Stock Market, Inc. The “controlled company” exception does not modify the independence requirements of the audit committee.

Many of our employees are covered by collective bargaining agreements.

Approximately 25% of our employees are represented by labor unions. Approximately 34% of our collective bargaining contracts, representing 6% of our employees, are up for renewal in 2006. There can be no assurance that we will be able to renew existing labor union contracts on acceptable terms. Employees could exercise their rights under the labor union contract, which could include a strike or walk-out. In such cases, there are no assurances that we would be able to staff sufficient employees for our short-term needs. Any such labor strike or our inability to negotiate a satisfactory contract upon expiration of the current agreements could have a negative effect on our business and financial results.

We make contributions to multiemployer benefit plans on behalf of certain employees covered by collective bargaining agreements and could be responsible for paying unfunded liabilities incurred by such benefit plans, which amount could be material.

Economic and demographic trends could materially adversely affect our business.

Our business operations are located in North America and tend to be concentrated in large urban areas. Our business could be materially adversely affected to the extent that economic or demographic factors result in the movement of white-collar jobs from urban centers to suburbs or even out of North America; increased office vacancies in urban areas or movement toward home office alternatives; or lower consumer spending or employment levels.

Item 1B. Unresolved Staff Comments

None.

ITEM 2. PROPERTIES

Parking Facilities

The Company operates parking facilities in 43 states and the District of Columbia in the United States and three provinces of Canada. We do not currently own any parking facilities. The following table summarizes certain information regarding the Company's facilities as of December 31, 2005:

States/Provinces	Airports and Urban Cities	# of Locations			# of Spaces		
		Airport	Urban	Total	Airport	Urban	Total
Alabama	Airports	3	—	3	1,562	—	1,562

We have interests in 14 joint ventures, each of which operates between one and 22 parking facilities. We are the general partner of three limited partnerships, each of which operates between one and nine parking facilities. For additional information, please see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Summary of Operating Facilities.”

Office Leases

We lease approximately 24,000 square feet of office space for our corporate offices in Chicago, Illinois. The lease expires in 2013. The lease includes an expansion option for up to 6,000 additional square feet of space, and we have a right of first opportunity on an additional 24,000 square feet. We believe that the leased facility, together with our expansion options, is adequate to meet current and foreseeable future needs.

We also lease regional offices. These lease agreements generally include renewal and expansion options, and we believe that these facilities are adequate to meet our current and foreseeable future needs.

ITEM 3. LEGAL PROCEEDINGS

We are subject to various claims and legal proceedings that consist principally of lease and contract disputes. We consider these claims and legal proceedings to be routine and incidental to our business, and in the opinion of management, the ultimate liability with respect to these proceedings and claims will not materially affect our financial position, operations or liquidity.

Thomas J. Moriarty, Trustee on behalf of Teamsters Local Union No. 727 Pension Fund, Teamsters Local Union No. 727 Health and Welfare Fund and Teamsters Local Union No. 727 Legal and Educational Assistance Fund, Plaintiff v. Standard Parking Corporation IL and Standard Parking Corporation, Defendants, Case No. 03C 9403, United States District Court, Northern District of Illinois, Eastern Division.

This matter was filed on December 30, 2003 by Thomas J. Moriarty, trustee, on behalf of the Teamsters Local 727 Pension, Health and Welfare, and Legal and Educational Assistance Funds. The action was brought under the Labor Management Relations Act (LMRA) and the Employee Retirement Income Security Act of 1974 (ERISA); The lawsuit seeks to recover alleged unpaid contributions to the Teamsters Local 727 benefit funds that plaintiff claims are owed under the collective bargaining agreements in effect for the period January 1, 2000 through December 31, 2002. Plaintiff seeks to recover (1) unpaid contributions; (2) interest on the alleged delinquencies; (3) liquidated damages of 20% of the unpaid contributions, or the interest relating to these contributions (“double interest”); and (4) attorneys fees and audit costs. There have been no significant procedural events in the litigation.

The plaintiff’s final version of the underlying audit was not issued until August 4, 2005. The amount claimed on the audit (including interest, liquidated damages and auditors fees), is approximately \$1.64 million. The Company disputes the plaintiff’s audit findings.

The Company completed its initial review of plaintiff’s audit in December 2005 and delivered its findings to plaintiff’s auditors for their review and response. The Company is awaiting comments from plaintiff’s auditors before undertaking any additional formal discussions. No significant court deadlines exist at the present time. Substantial formal discovery is expected to begin in the second half of 2006 if the parties are unable to resolve the disputed amounts in the audit report.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the fourth quarter of fiscal 2005.

PART II

ITEM 5. MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our common stock is traded on the NASDAQ National Market under the symbol “STAN”. The following table sets forth, for the periods indicated, the high and low sales prices for our common stock as reported by the NASDAQ.

<u>Quarter Ended</u>	<u>2005</u>			<u>2004</u>		
	<u>Sales Price</u>		<u>Cash Dividends Declared</u>	<u>Sales Price</u>		<u>Cash Dividends Declared</u>
	<u>High</u>	<u>Low</u>		<u>High</u>	<u>Low</u>	
March 31	\$16.00	\$14.10	—	n/a	n/a	—
June 30	\$17.27	\$13.80	—	\$14.69	\$11.86	—
September 30	\$19.40	\$15.90	—	\$13.75	\$12.25	—
December 31	\$20.05	\$18.02	—	\$17.42	\$12.00	—

As of March 3, 2006, there were approximately 529 holders of our common stock, based on the number of record holders of our common stock and an estimate of the number of individual participants represented by security position listings.

We did not pay a cash dividend in respect of our common stock in 2005 or 2004. By the terms of our senior credit facility, we are restricted from paying cash dividends on our capital stock while such facility is in effect. In 2004, we accrued dividends in respect of our Series C redeemable preferred stock in additional shares of Series C redeemable preferred stock aggregating \$2.9 million. In 2004, we accrued dividends in respect to our Series D preferred stock aggregating \$4.4 million.

The indenture governing our 9¼% notes limits our ability to pay cash dividends. Unless we meet certain financial ratios, we may not pay dividends in respect of our capital stock except for those payable in additional shares of stock.

There are no restrictions on the ability of our wholly owned subsidiaries to pay cash dividends to us.

<u>Plan Category</u>	<u>Number of securities to be based upon exercise of outstanding options, warrants and rights</u> (a)	<u>Weighted-average exercise price of outstanding options, warrants and rights</u> (b)	<u>Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))</u> (c)
Equity compensation plans approved by securities holders	566,545	\$8.17	433,455
Equity compensation plans not approved by securities holders	—	—	—
Total	<u>566,545</u>	<u>\$8.17</u>	<u>433,455</u>

We did not repurchase any of our shares in the fourth quarter of 2005.

ITEM 6. SELECTED FINANCIAL DATA

The following table presents selected historical consolidated financial data as of December 31, 2005, 2004 and 2003, derived from our audited consolidated financial statements, which are included elsewhere herein. The table also presents selected historical consolidated financial data as of December 31, 2002 and 2001 derived from our audited consolidated financial statements, which are not included herein. The selected financial data set forth below should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Result of Operations” and the historical consolidated financial statements and notes thereto for years 2005, 2004 and 2003 which are included elsewhere herein. The historical results do not necessarily indicate results expected for any future period.

- (1) Restated to include reimbursable management contract expense in accordance with a new accounting standard (EITF 01-14) adopted during the second quarter ended June 30, 2002.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our results of operations should be read in conjunction with the "Selected Financial Data" and our consolidated financial statements and the related notes included elsewhere herein. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including, but not limited to, those set forth in Item 1A under "Risk Factors" and elsewhere herein.

Overview

Our Business

We manage parking facilities in urban markets and at airports across the United States and in three Canadian provinces. We do not own any facilities, but instead enter into contractual relationships with property owners or managers.

We operate our clients' parking properties through two types of arrangements: management contracts and leases. Under a management contract, we typically receive a base monthly fee for managing the facility, and we may also receive an incentive fee based on the achievement of facility performance objectives. We also receive fees for ancillary services. Typically, all of the underlying revenues and costs of parking services under a standard management contract flow through to our clients rather than to us. However, some management contracts, which are referred to as "reverse" management contracts, usually provide for larger management fees and require us to pay various costs. Under lease arrangements, we generally pay to the property owner either a fixed annual rent, a percentage of gross customer collections or a combination thereof. We collect all revenues under lease arrangements and we are responsible for most operating expenses, but we are typically not responsible for major maintenance, capital expenditures or real estate taxes. Margins for lease contracts vary significantly, not only due to operating performance, but also due to variability of parking rates in different cities and varying space utilization by parking facility type and location. As of December 31, 2005, we operated 86% of our locations under management contracts and 14% under leases.

In evaluating our financial condition and operating performance, management's primary focus is on our gross profit, total general and administrative expense and general and administrative expense as a percentage of our gross profit. Although the underlying economics to us of management contracts and leases are similar, the manner in which we are required to account for them differs. Revenue from leases includes all gross customer collections derived from our leased locations (net of parking tax), whereas revenue from management contracts only includes our contractually agreed upon management fees and amounts attributable to ancillary services. Gross customer collections at facilities under management contracts, therefore, are not included in our revenue. Accordingly, while our revenue can fluctuate simply based on the proportion of leases to management contracts, our gross profit will not fluctuate merely because of the structure of our operating agreements. For example, as of December 31, 2005, 86% of our locations were operated under management contracts and 81% of our gross profit for the year ended December 31, 2005 was derived from management contracts. Only 38% of total revenue (excluding reimbursement of management contract expenses), however, was from management contracts because under those contracts the revenue collected from parking customers belongs to our clients. Therefore, gross profit and total general and administrative expense, rather than revenue, are management's primary focus.

Initial Public Offering

In June 2004, we closed our initial public offering and sale of 4,666,667 shares of common stock, including the underwriters' exercise of an over-allotment option, at a price of \$11.50 per share. We raised

\$53.7 million in gross proceeds from this offering. After deducting the underwriting discount of \$3.8 million, and offering expenses of \$3.2 million, net proceeds to us were \$46.7 million. In conjunction with this offering, we entered into a new \$90.0 million senior credit facility and redeemed our 14% Notes in the amount of \$57.7 million. In addition, we paid \$1.6 million of interest premium on the 14% Notes, \$0.8 million of interest previously deferred on the term loan for the old senior credit facility, \$6.6 million to purchase the common stock subject to put/call rights and any remaining existing stock options of the common stock (plus a \$5.0 million note assumed by our parent company), \$1.4 million in debt issuance costs for the new senior credit facility and \$0.3 million for professional fees related to the exchange of debt.

In connection with our Initial Public Offering, we exchanged a portion of our 11¼% Redeemable Preferred Stock (the “Series C preferred stock”), that was owned by Steamboat Industries LLC for 5,789,499 shares of our common stock. Our remaining Series C preferred stock was contributed to us by our parent as a capital contribution. There are no authorized or outstanding shares of Series C preferred stock.

In connection with our IPO, Steamboat Industries LLC and its wholly owned subsidiary, Steamboat Industries N.V., acquired all but ten shares of our outstanding 18% Senior Convertible Redeemable Series D Preferred Stock (the “Series D preferred stock”). Steamboat Industries LLC then contributed its Series D preferred stock to us as a capital contribution. We then retired all shares of Series D preferred stock contributed to us and now have only ten shares of Series D preferred stock outstanding. The ten shares were retained in order to effect the recapitalized structure in connection with our IPO. The Series D preferred stock has an initial liquidation preference equal to \$100 per share or \$1,000 in the aggregate.

General Business Trends

We believe that sophisticated commercial real estate developers and property managers and owners recognize the potential for parking and related services to be a profit generator rather than a cost center. Often, the parking experience makes both the first and the last impressions on their properties’ tenants and visitors. By outsourcing these services, they are able to capture additional profit by leveraging the unique operational skills and controls that an experienced parking management company can offer. Our ability to consistently deliver a uniformly high level of parking and related services and maximize the profit to our clients improves our ability to win contracts and retain existing locations. Our retention rate for the twelve month period ended December 31, 2005 was 91%, compared to 88% for the year-ago period, which also reflects our decision not to renew, or to terminate, unprofitable contracts.

We are also experiencing an increase in our ability to leverage existing relationships to increase the scope of services provided, thereby increasing the profit per location. For the year ended December 31, 2005 compared to the year ended December 31, 2004, we improved average gross profit per location by 8.7% from \$33,696 thousand to \$36,640 thousand.

Summary of Operating Facilities

We focus our operations in core markets where a concentration of locations improves customer service levels and operating margins. The following table reflects our facilities operated at the end of the years indicated:

	<u>December 31, 2005</u>	<u>December 31, 2004</u>	<u>December 31, 2003</u>
Managed facilities	1,643	1,591	1,567
Leased facilities	263	295	294
Total facilities	<u>1,906</u>	<u>1,886</u>	<u>1,861</u>

Revenue

We recognize parking services revenue from lease and management contracts as the related services are provided. Substantially all of our revenues come from the following two sources:

- *Parking services revenue—lease contracts.* Parking services revenues related to lease contracts consist of all revenue received at a leased facility, including parking receipts (net of parking tax), consulting and real estate development fees, gains on sales of contracts and payments for exercising termination rights.
- *Parking services revenue—management contracts.* Management contract revenue consists of management fees, including both fixed and performance-based fees, and amounts attributable to ancillary services such as accounting, equipment leasing, payments received for exercising termination rights, consulting, development fees, gains on sales of contracts, insurance and other value-added services with respect to managed locations. Development fees received from a customer for which we have provided certain consulting services as part of our offerings of ancillary management services and gains from sales of contracts for which we have no asset basis or ownership interest and would be received as part of a formula buy-out. We believe we generally purchase required insurance at lower rates than our clients can obtain on their own because we effectively self-insure for all liability and worker's compensation claims by maintaining a large per-claim deductible. As a result, we have generated operating income on the insurance provided under our management contracts by focusing on our risk management efforts and controlling losses. Management contract revenues do not include gross customer collections at the managed locations as this revenue belongs to the property owner rather than to us. Management contracts generally provide us with a management fee regardless of the operating performance of the underlying facility.

Reimbursement of Management Contract Expense

Reimbursement of management contract expense consists of the direct reimbursement from the property owner for operating expenses incurred under a management contract.

Cost of Parking Services

Our cost of parking services consists of the following:

- *Cost of parking services—lease contracts.* The cost of parking services under a lease arrangement consists of contractual rental fees paid to the facility owner and all operating expenses incurred in connection with operating the leased facility. Contractual fees paid to the facility owner are generally based on either a fixed contractual amount or a percentage of gross revenue or a combination thereof. Generally, under a lease arrangement we are not responsible for major capital expenditures or real estate taxes.
- *Cost of parking services—management contracts.* The cost of parking services under a management contract is generally the responsibility of the facility owner. As a result, these costs are not included in our results of operations. However, our reverse management contracts, which typically provide for larger management fees, do require us to pay for certain costs.

Gross Profit

Gross profit equals our revenue less the cost of generating such revenue. This is the key metric we use to examine our performance because it captures the underlying economic benefit to us of both lease contracts and management contracts.

General and Administrative Expenses

General and administrative expenses include salaries, wages, payroll taxes, insurance, travel and office related expenses for our headquarters, field offices and supervisory employees.

Depreciation and Amortization

Depreciation is determined using a straight-line method over the estimated useful lives of the various asset classes or in the case of leasehold improvements, over the initial term of the operating lease or its useful life, whichever is shorter. Intangible assets determined to have finite lives are amortized over their remaining useful life.

Special Charges

We recorded no special charges in 2005 or 2004. During 2003 we incurred a variety of special charges. These charges included costs associated with: the write off of debt issuance costs related to the debt exchange, employee severance costs, and certain expenses of AP Holdings, Inc., our former parent.

Management Fee

We recorded no management fee in 2005. The fee was terminated upon the closing of the initial public offering in June 2004. We recorded \$1.5 million and \$3.0 million in management fees for the years ended December 31, 2004 and 2003, respectively.

Valuation Allowance Related to Long-term Receivables

Valuation allowance related to long-term receivables is recorded when there is an extended length of time estimated for collection of long-term receivables.

Results of Operations

Hurricane Katrina

Our operations were impacted by Hurricane Katrina during the year ended December 31, 2005 compared to the year ended December 31, 2004. The impact is a \$1.2 million reduction in net income compared to the year-ago period and the recording of a \$0.5 million provision to cover the deductible portion of our casualty insurance program that we expect to incur in connection with the hurricane related insurance claim that we will file. We estimate that we have sustained insured property damage from the hurricane in excess of \$2.7 million. We have assumed the damage was considered damage caused by wind and not flood which has a higher deductible percentage.

We believe that we are entitled to recover the total amount of all losses sustained as a result of Katrina, less the deductible that we have accrued for at \$0.5 million. No amounts have been recorded related to any expected recoveries from our insurance carriers.

Fiscal 2005 Compared to Fiscal 2004

Parking services revenue—lease contracts. Lease contract revenue increased \$5.3 million, net of \$2.1 million attributable to Katrina, or 3.6%, to \$154.1 million for the year ended December 31, 2005, compared to \$148.8 million in the year-ago period. This increase resulted from an increase in same location revenue of \$5.7 million, for the year ended December 31, 2005, compared to the year-ago period. This increase was due to increases in short-term parking revenue of \$4.8 million, or 6.2%, and an increase in monthly parking revenue and other of \$0.9 million, or 2.2%. Partially offsetting this increase, was a net

decrease of \$0.4 million attributable to an increase of \$13.5 million in revenues from new locations that was offset by reductions in revenue related to contract expirations of \$13.9 million.

Parking services revenue—management contracts. Management contract revenue increased \$10.2 million, net of \$0.2 million attributable to Katrina, or 12.1%, to \$93.9 million for the year ended December 31, 2005, compared to \$83.7 million in the year-ago period. This increase resulted from a net increase of \$2.6 million attributable to \$8.9 million in revenues from new locations that was offset by reductions in revenue attributable to contract expirations of \$6.3 million. We experienced an increase in same location revenue of \$7.6 million, or 10.8%, for the year ended December 31, 2005, compared to the year-ago period. This increase was primarily due to additional fees from reverse management locations and ancillary services.

Reimbursement of management contract expense. Reimbursement of management contract expenses increased \$7.5 million, or 2.3%, to \$338.7 million for the year ended December 31, 2005, compared to \$331.2 million for the year-ago period. This increase resulted from additional reimbursements for costs incurred on the behalf of owners.

Cost of parking services—lease contracts. Cost of parking services for lease contracts increased \$6.5 million, net of a benefit of \$0.7 million attributable to Katrina, or 4.8%, to \$141.0 million for the year ended December 31, 2005, compared to \$134.5 million in the year-ago period. This increase resulted from an increase of \$13.2 million in costs from new locations that was offset by reductions in costs attributable to contract expirations of \$12.8 million. We experienced an increase in same location costs of \$6.1 million, or 5.5%, for the year ended December 31, 2005, compared to the year-ago period. This increase was due to increases in rent expense of \$4.2 million, or 5.3%, due to percentage rental payments from increased revenue, \$1.4 million, or 5.5% for increases in other operating costs and \$0.5 million for a provision for the deductible portion of our casualty loss related to the impact of Katrina.

Cost of parking services—management contracts. Cost of parking services for management contracts increased \$3.1 million, or 9.0%, to \$37.1 million for the year ended December 31, 2005, compared to \$34.0 million in the year-ago period. This increase resulted from a net increase of \$1.7 million attributable to \$6.1 million in costs from new locations that was partially offset by reductions in costs attributable to contract expirations of \$4.4 million. We experienced an increase in same location costs of \$1.4 million, or 5.7%, for the year ended December 31, 2005 compared to the year-ago period. This increase was due to increases attributable to operating expenses on our reverse management locations of \$1.4 million, or 3.4%, and increases in other operating expenses of \$0.3 million, offset by a net reduction of \$0.3 million in compensation and benefits.

Reimbursed management contract expense. Reimbursed management contract expenses increased \$7.5 million, or 2.3%, to \$338.7 million for the year ended December 31, 2005, compared to \$331.2 million for the year-ago period. This increase resulted from additional reimbursed costs incurred on the behalf of owners.

Gross profit—lease contracts. Gross profit for lease contracts decreased \$1.1 million, or 8.0%, to \$13.1 million for the year ended December 31, 2005, compared to \$14.2 million for the year-ago period. Gross margin for lease contracts decreased to 8.5% at December 31, 2005, compared to 9.5% for the year-ago period. The margin decrease was due to the \$0.5 million for a provision for the deductible portion of our casualty loss and \$0.9 million in operations related to the impact of Katrina.

Gross profit—management contracts. Gross profit for management contracts increased \$7.1 million, or 14.3%, to \$56.8 million for the year ended December 31, 2005, compared to \$49.7 million for the year-ago period. Gross margin for management contracts increased to 60.5% for the year ended December 31, 2005, compared to 59.3% for the year-ago period. This increase was primarily due to additional fees from reverse management locations and ancillary services.

General and administrative expenses. General and administrative expenses increased \$5.5 million, or 16.3%, to \$38.9 million for the year ended December 31, 2005, compared to \$33.4 million for the year-ago period. This increase resulted primarily from increases in consulting and accounting fees incurred for regulation 404 certification of \$0.8 million, professional fees and due diligence related to mergers and acquisitions of \$0.6 million, a previously announced one-time bonus to executive management of \$0.3 million and increases in payroll, payroll related expenses, and other costs of \$3.2 million.

Management fee—parent company. We recorded no management fee in 2005. The fee was terminated upon the closing of the initial public offering in June 2004. We recorded \$1.5 million in management fee for the year ended December 31, 2004.

Valuation allowance related to long-term receivables. We recorded \$0.9 million as a valuation allowance related to long term receivables for the year ended December 31, 2005, compared to no allowance in the year-ago period. The valuation allowance relates to a long-term receivable for a facility in Minnesota where a breakdown in negotiations to restructure the contract has occurred. The allowance was recorded due to the uncertainty of future collections.

Interest expense. Interest expense decreased \$4.0 million, or 29.7%, to \$9.4 million for the year ended December 31, 2005, compared to \$13.4 million for the year-ago period. The decrease resulted primarily from the redemption of the 14% Notes and refinancing our senior credit facility, in conjunction with our initial public offering in June 2004.

Interest income. Interest income increased \$0.3 million, or 57.5%, to \$0.8 million for the year ended December 31, 2005, compared to \$0.5 million for the year-ago period. The increase resulted primarily from recognizing interest income due on the repayments received in 2005 for interest bearing guarantor payments related to Bradley International Airport. (See Note O to our consolidated financial statements.)

Income tax (benefit) expense. Income tax (benefit) decreased \$0.1 million for the year ended December 31, 2005, compared to a benefit of \$0.1 million for the year-ago period. The year ended December 31, 2005 reflects the recognition of a reduction of the valuation allowance for the deferred tax assets of \$0.4 million offset by an increase of \$0.5 million of current and foreign tax expense.

Fiscal 2004 Compared to Fiscal 2003

Parking services revenue—lease contracts. Lease contract revenue increased \$10.1 million, or 7.3%, to \$148.8 million in the year ended December 31, 2004, compared to \$138.7 million in the year-ago period. This increase resulted from a net increase of \$5.2 million attributable to \$14.9 million in revenues from new locations and \$1.1 million in revenues from the conversion of certain contracts to leases agreements from management agreements that was partially offset by reductions in revenue attributable to contract expirations of \$10.8 million. We experienced an increase in same location revenue of \$4.9 million, or 4.3%, for the year ended December 31, 2004, compared to the year-ago period. This increase was due to increases in short-term parking revenue of \$4.4 million, or 4.9%, and an increase in monthly parking revenue of \$0.5 million, or 1.3%.

Parking services revenue—management contracts. Management contract revenue increased \$7.1 million, or 9.3%, to \$83.7 million in the first year ended December 31, 2004, compared to \$76.6 million in the year-ago period. This increase resulted from a net increase of \$3.6 million attributable to \$7.4 million in revenues from new locations that was partially offset by reductions in revenue attributable to contract expirations of \$3.8 million. We experienced an increase in same location revenue of \$3.5 million, or 5.4%, for the year ended December 31, 2004, compared to the year-ago period. This increase was primarily due to additional fees from reverse management locations and ancillary services.

Reimbursement of management contract expense. Reimbursement of management contract expenses increased \$1.0 million, or 0.3%, to \$331.2 million in the year ended December 31, 2004, as compared to

\$330.2 million in the year-ago period. This increase resulted from additional reimbursements for costs incurred on the behalf of owners.

Cost of parking services—lease contracts. Cost of parking for lease contracts increased \$9.3 million, or 7.5%, to \$134.5 million for the year ended December 31, 2004, compared to \$125.2 million for the year ago period. The increase is primarily due to an increase in rent and concession fees of \$8.4 million and an increase in payroll and payroll related expenses of \$0.5 million which are primarily related to new locations.

Cost of parking services—management contracts. Cost of parking for management contracts increased \$4.6 million, or 15.6%, to \$34.0 million for the year ended December 31, 2004, compared to \$29.4 million for the year-ago period. The increase is primarily due to an increase in payroll and payroll related expenses of \$3.9 million, an increase of \$0.7 million in reserve for bad debts, a \$0.2 million net charge primarily related to the recovery of certain taxes offset by additional rent payments, which were partially offset by decreases in other expenses of \$0.2 million.

Reimbursed management contract expense. Reimbursed management contract expense increased \$1.0 million, or 0.3%, to \$331.2 million in the year ended December 31, 2004, compared to \$330.2 million in the year-ago period. This increase resulted from additional reimbursed costs incurred on the behalf of owners.

Gross profit—lease contracts. Gross profit for lease contracts increased \$0.7 million, or 5.0%, to \$14.2 million for the year ended December 31, 2004, compared to \$13.5 million in the year-ago period. Gross margin for lease contracts decreased slightly to 9.5% during 2004 compared to 9.8% during 2003. The increase in gross profit was related to the increase in new locations and the decrease in gross margin resulted from increased rent expense on new and existing contracts.

Gross profit—management contracts. Gross profit for management contracts increased \$2.5 million, or 5.3%, to \$49.7 million for the year ended December 31, 2004, compared to \$47.2 million in the year-ago period. Gross margin for management contracts decreased to 59.3% during 2004, compared to 61.6% during 2003. The increase in gross profit was related to the increase in new locations and the decrease in gross margin was related to the costs incurred on reverse management contracts.

General and administrative expenses. General and administrative expenses increased \$0.8 million, or 2.5%, to \$33.7 million for the year ended December 31, 2004, compared to \$32.9 million for the year-ago period. This increase resulted primarily from increases in wage and benefit costs of \$0.9 million, increases in professional and consulting fees of \$0.3 million, increases related to board of directors of \$0.6 million, which was partially offset by a decrease in rent expense of \$0.6 million due to the consolidation of the corporate headquarters space, a \$0.2 million benefit related to a key-man insurance policy and a \$0.2 million collection of a receivable that had been previously reserved. General and administrative expenses decreased as a percentage of gross profit to 52.8% in 2004 from 54.2% in 2003.

Depreciation and amortization. Depreciation and amortization decreased \$0.5 million, or 7.2%, to \$7.0 million for the year ended December 31, 2004, compared to \$7.5 million in the year ago period. This decrease is primarily due to a reduction in capital spending which was partially offset by a net charge of \$0.5 million related to the termination of a non-compete agreement with our former owner.

Special charges. We recorded no special charges for the year ended December 31, 2004, compared to \$1.1 million for the year ended December 31, 2003. The 2003 special charges included \$0.4 million for costs associated with evaluating financing alternatives, \$0.3 million for costs associated with prior years' terminated contracts, \$0.3 million for costs incurred on behalf of our parent company and \$0.2 million for severance costs, which were partially offset by a \$0.2 million reimbursement from a mediated contract settlement of \$0.8 million.

Management fee—parent company. We recorded \$1.5 million for management fees for the year ended December 31, 2004, compared to \$3.0 million in the year-ago period. We were a party to a management agreement with AP Holdings that provided for periodic payment of annual management fees of \$3.0 million. We recorded and paid the management fees through the second quarter of 2004. The fee was terminated upon the closing of the initial public offering in June 2004.

Valuation allowance related to long-term receivables. We recorded no valuation allowance related to long-term receivables for the year ended December 31, 2004, compared to a \$2.7 million valuation allowance related to long-term receivables for the year ended December 31, 2003. The allowance was recorded due to the extended length of time estimated for collection on certain long-term receivables related to the Bradley International Airport parking contract.

Interest expense. Interest expense decreased \$3.4 million, or 20.4%, to \$13.4 million for the year ended December 31, 2004, compared to \$16.8 million for the year-ago period. The decrease resulted primarily from the redemption of the 14% Notes and refinancing our senior credit facility in conjunction with our initial public offering in June 2004.

Interest income. Interest income increased \$0.3 million, or 124.4%, to \$0.5 million for the year ended December 31, 2004, compared to \$0.2 million for the year-ago period. The increase resulted primarily from interest received on a sales tax refund.

Income tax (benefit) expense. Income tax (benefit) increased \$0.5 million to a (benefit) of \$0.1 million for the year ended December 31, 2004, compared to expense of \$0.4 million for the year-ago period. The \$0.5 million decrease was due to the favorable adjustment of our foreign tax reserves.

Unaudited Quarterly Results

The following table sets forth our unaudited quarterly consolidated statement of operations data for the years ended December 31, 2005 and December 31, 2004. The unaudited quarterly information has been prepared on the same basis as the annual financial information and, in management's opinion, includes all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the information for the quarters presented. Historically, the Company's revenues and operating results have varied from quarter to quarter and are expected to continue to fluctuate in the future. These fluctuations have been due to a number of factors, including: general economic conditions in the Company's markets; additions of contracts; expiration and termination of contracts; conversion of lease contracts to management contracts; conversion of management contracts to lease contracts and changes in terms of contracts that are retained. The operating results for any historical quarter are not necessarily indicative of results for any future period.

Liquidity and Capital Resources

Outstanding Indebtedness

On December 31, 2005, we had total indebtedness of approximately \$92.1 million, a reduction of \$17.7 million from December 31, 2004. The \$92.1 million includes:

- \$33.6 million under our senior credit facility;
- \$49.3 million of 9¹/₄% Notes, including \$0.5 million in carrying value in excess of principal, which are due in March 2008; and
- \$9.2 million of other debt including joint venture debentures, capital lease obligations and obligations on seller notes and other indebtedness.

We believe that our cash flow from operations, combined with available borrowings under our senior credit facility, which amounted to \$31.1 million at December 31, 2005, will be sufficient to enable us to pay our indebtedness, or to fund other liquidity needs. We may need to refinance all or a portion of our indebtedness, including the 9¹/₄% Notes, on or before their respective maturities. We believe that we will be able to refinance our indebtedness, including the new senior credit facility and the 9¹/₄% Notes, on commercially reasonable terms.

Senior Credit Facility

We entered into a credit agreement as of June 2, 2004 with LaSalle Bank National Association, as agent and Wells Fargo Bank, N.A., as syndication agent. LaSalle and Wells Fargo have subsequently assigned a portion of their loans and rights as lender to Fifth Third Bank Chicago and U.S. Bank National Association.

The senior credit facility consists of a \$90.0 million revolving credit facility that will expire on June 2, 2007, provided in the following commitments:

- \$30.0 million by LaSalle
- \$30.0 million by Wells Fargo
- \$20.0 million by US Bank
- \$10.0 million by Fifth Third

The revolving credit facility includes a letter of credit sub-facility with a sublimit of \$30.0 million provided by Wells Fargo and a swing line sub-facility with a sublimit of \$5.0 million.

The revolving credit facility bears interest, at our option, at either (1) LIBOR plus the applicable LIBOR Margin ranging between 2.25% and 3.0% depending on the ratio of our total funded indebtedness to our EBITDA from time to time ("Total Debt Ratio"); or (2) the Base Rate (as defined below) plus the applicable Base Rate Margin ranging between 0.75% and 1.50% depending on our Total Debt Ratio. We may elect interest periods of one, two, three or six months for LIBOR based borrowings. The Base Rate is the greater of (i) the rate publicly announced from time to time by LaSalle as its "prime rate", or (ii) the overnight federal funds rate plus 0.50%.

The senior credit facility includes the covenants; fixed charge ratio, senior debt to EBITDA ratio, total debt to EBITDA ratio and a limit on our net annual capital expenditures, that limit our ability to incur additional indebtedness, issue preferred stock or pay dividends and contain certain other restrictions on our activities. We are required to repay borrowings under the senior credit facility out of the proceeds of future issuances of debt or equity securities and asset sales, subject to certain customary exceptions. The senior credit facility is secured by substantially all of our assets and all assets acquired in the future

(including a pledge of 100% of the stock of our existing and future domestic guarantor subsidiaries and 65% of the stock of our existing and future foreign subsidiaries).

At December 31, 2005, we were in compliance with all of our covenants.

The weighted average interest rate on our Senior Credit Facility at December 31, 2005 was 4.4%. The 4.4% rate includes all outstanding LIBOR contracts, interest rate cap effect and letters of credit.

On July 7, 2004 we entered into a first amendment to our Credit Agreement, pursuant to which U.S. Bank and Fifth Third were included as Lenders with commitments and to concurrently reduce the commitments of LaSalle and Wells Fargo.

On March 14, 2005, we entered into a second amendment to our Credit Agreement, which permitted us to repurchase shares of our common stock during 2005, on the open market or through private repurchases, for a value not to exceed \$6.0 million, provided that we meet certain financial tests.

On March 16, 2005, we entered into a third amendment to our Credit Agreement, pursuant to which the interest pricing of our LIBOR Margin, Base Rate Margin and our Letter of Credit Fee Rate has been reduced by 25 basis points across the entire interest rate pricing grid.

On February 28, 2006 we entered into a fourth amendment to our Credit Agreement, pursuant to which the interest pricing of our LIBOR Margin, Base Rate Margin, and the Letter of Credit Fee rate has been reduced by 25 basis points across the entire interest rate pricing grid. The termination date was extended to December 2, 2007, the definition of Change in Control was amended and restated in its entirety and we are permitted to repurchase shares of our common stock during 2006, on the open market or through private purchases, for a value not to exceed \$6.0 million, provided that we meet certain financial tests. The covenants related to; fixed charge coverage ratio, senior debt to EBITDA ratio and the total debt to EBITDA ratio were amended and restated.

At December 31, 2005, we had \$25.3 million letters of credit outstanding under the senior credit facility, borrowings against the senior credit facility aggregated \$33.6 million and we had \$31.1 million available under the senior credit facility.

Interest Rate Cap Transactions

We use a variable rate senior credit facility to finance our operations. This facility exposes us to variability in interest payments due to changes in interest rates. If interest rates increase, interest expense increases and conversely, if interest rates decrease, interest expense also decreases. We believe that it is prudent to limit the exposure of an increase in interest rates.

To meet this objective, we entered into two interest rate cap transactions with LaSalle Bank National Association (“LaSalle”), allowing us to continue to take advantage of LIBOR based pricing under our Credit Agreement while hedging our interest rate exposure on a portion of our borrowings under the Credit Agreement (“Rate Cap Transactions”). Under each Rate Cap Transaction, we receive payments from LaSalle at the end of each quarterly period to the extent that the prevailing three month LIBOR during that period exceeds our cap rate of 2.5%. The first Rate Cap Transaction caps our interest rate on a \$30.0 million principal balance at 2.5% for a total of 18 months. The second Rate Cap Transaction capped our interest rate on a \$15.0 million principal balance at 2.5% for a total of nine months which matured on October 12, 2005 and for which we recognized a gain of \$18 thousand which is reported as a reduction of interest expense in the consolidated statement of operations. Each Rate Cap Transaction began as of January 12, 2005 and settles each quarter on a date that is intended to coincide with our quarterly interest payment dates under the credit agreement.

At December 31, 2005, the \$30.0 million Rate Cap Transaction is reported at its fair value of \$0.4 million and is included in prepaid expenses and other assets on the consolidated balance sheet. Total

changes in the fair value of \$0.1 million have been reflected in accumulated other comprehensive income on the consolidated balance sheet. The amount of change in the fair value at the time of maturity will be reclassified into earnings at that time.

We do not enter into derivative instruments for any purpose other than cash flow hedging purposes.

Stock Repurchase

On March 4, 2005, the Board of Directors authorized us to repurchase shares of our common stock for a value not to exceed \$6.0 million. We repurchased certain shares in open market transactions from time to time, and our majority shareholder agreed in each case to sell shares equal to its pro-rata ownership at the same price paid by us in each open market purchase. On March 15, 2005, we repurchased 93,170 shares at \$15.60 per share on the open market. Our majority shareholder sold to us 99,136 shares at \$15.60 per share. The total of the transaction was approximately \$3.0 million.

During the second quarter we repurchased 43,786 shares at an average price of \$16.88 per share on the open market. Our majority shareholder sold to us 32,956 shares in the second quarter at an average price of \$16.93 per share. The total value of the second quarter transactions was \$1.3 million.

During the third quarter we repurchased 39,735 shares at an average price of \$18.17 per share on the open market. Our majority shareholder sold to us 52,921 shares in the third quarter at an average price of \$17.79 per share. The total value of the third quarter transactions was \$1.7 million. The third quarter purchases completed the repurchase program authorized by the Board of Directors on March 4, 2005.

Letters of Credit

We are required under certain contracts to provide performance bonds. These bonds are typically renewed on an annual basis. As of December 31, 2005, we provided \$0.3 million in letters of credit to collateralize our performance bond program and \$0.2 million in letters of credit to collateralize other programs.

At December 31, 2005, we provided letters of credit totaling \$24.7 million to our casualty insurance carriers to collateralize our casualty insurance program.

Deficiency Payments

Pursuant to our obligations with respect to the parking garage operations at Bradley International Airport, we are required to make certain payments for the benefit of the State of Connecticut and for holders of special facility revenue bonds. The deficiency payments represent contingent interest bearing advances to the trustee to cover operating cash flow requirements. The payments, if any, are recorded as a receivable by us for which we are reimbursed from time to time as provided in the trust agreement. As of December 31, 2005 we have advanced to the trustee \$4.9 million, net of reimbursements. We believe these advances to be fully recoverable and therefore have not recorded a valuation allowance for them. We do not guarantee the payment of any principal or interest on any debt obligations of the State of Connecticut or the trustee.

We received repayments (net of deficiency payments) of \$1.5 million in the year ended December 31, 2005 compared to making deficiency payments (net of repayments) of \$2.0 million in the year-ended December 31, 2004.

Capital Leases

We incurred \$2.6 million in new capital lease obligations for the year ended December 31, 2005, compared to \$5.1 million for the year ended December 31, 2004.

Lease Commitments

We have lease commitments of \$26.5 million for fiscal 2006. The leased properties generate sufficient cash flow to meet the base rent payment.

Daily Cash Collections

As a result of day-to-day activity at our parking locations, we collect significant amounts of cash. Lease contract revenue is generally deposited into our local bank accounts, with a portion remitted to our clients in the form of rental payments according to the terms of the leases. Under management contracts, some clients require us to deposit the daily receipts into one of our local bank accounts, with the cash in excess of our operating expenses and management fees remitted to the clients at negotiated intervals. Other clients require us to deposit the daily receipts into client accounts and the clients then reimburse us for operating expenses and pay our management fee subsequent to month-end. Some clients require a segregated account for the receipts and disbursements at locations. Our working capital and liquidity may be adversely affected if a significant number of our clients require us to deposit all parking revenues into their respective accounts.

Gross daily collections are collected by us and deposited into banks using one of three methods, which impact our investment in working capital:

- locations with revenues deposited into our bank accounts reduce our investment in working capital,
- locations that have segregated accounts generally require no investment in working capital, and
- accounts where the revenues are deposited into the clients' accounts increase our investment in working capital.

Our average investment in working capital depends on our contract mix. For example, an increase in contracts that require all cash deposited in our bank accounts reduces our investment in working capital and improves our liquidity. During 2005 and 2004, there were no material changes in these types of contracts. In addition, our clients may accelerate monthly distributions to them and have an estimated distribution occur in the current month. During 2005 and 2004, there were no material changes in the timing of current month distributions.

Our liquidity also fluctuates on an intra-month and intra-year basis depending on the contract mix and timing of significant cash payments, such as our scheduled interest payments on our notes. Additionally, our ability to utilize cash deposited into our local accounts is dependent upon the availability and movement of that cash into our corporate account. For all these reasons, we, from time to time, carry a significant cash balance, while also utilizing our senior credit facility.

Net Cash Provided by Operating Activities

Net cash provided by operating activities totaled \$31.4 million for 2005, compared to \$11.4 million for 2004. Cash provided during 2005 included \$22.8 million from operations, a net increase in assets and liabilities of \$8.6 million due to an increase in accounts payable of \$5.1 million, and increase of \$8.1 million in other liabilities primarily relating to our casualty insurance program, a decrease in prepaid expenses of \$0.6 million all of which was partially offset by increases in accounts receivable of \$5.2 million.

Net cash provided by operating activities totaled \$11.4 million for 2004, compared to \$13.6 million for 2003. Cash provided during 2004 included an increase in accounts payable and accrued expenses of \$3.9 million and an increase in net earnings which were partially offset by increases in notes and accounts receivable of \$6.0 million which includes \$2.0 million in guarantor payments on Bradley Airport.

Net Cash Used in Investing Activities

Net cash used in investing activities totaled \$5.1 million in 2005 compared to \$2.0 million in 2004. Cash used in investing for 2005 included capital expenditures of \$4.8 million for capital investments needed to secure and/or extend leased facilities, investment in information system enhancements and infrastructure and \$0.3 million for contingent payments on previously acquired contracts.

Net cash used in investing activities totaled \$2.0 million in 2004 compared to \$2.5 million in 2003. Cash used in investing for 2004 included capital expenditures of \$1.4 million for capital investments needed to secure and/or extend leased facilities, investment in information system enhancements and infrastructure and \$0.6 million for contingent payments on previously acquired contracts.

Net Cash Used in Financing Activities

Net cash used in financing activities totaled \$26.1 million in 2005 to cash used of \$7.8 million in 2004. Net cash used in financing activities for 2005 included \$6.0 million to repurchase our common stock, \$16.4 million in payments on the senior credit facility, \$3.1 million for payments on capital leases and \$0.6 million for cash used on joint venture, debt issuance costs and other long-term borrowings.

Net cash used in financing activities totaled \$7.8 million in 2004 to cash used of \$9.2 million in 2003. In June 2004, we closed our initial public offering and sale of 4,666,667 shares of common stock, including the underwriters' exercise of an over-allotment option, at a price of \$11.50 per share. A total of \$53.7 million in gross proceeds was raised from this offering. After deducting the underwriting discount of \$3.8 million, and offering expenses of \$3.2 million, net proceeds to us were \$46.7 million. In conjunction with this offering, we entered into a new \$90.0 million senior credit facility and redeemed our 14% Notes in the amount of \$57.7 million. In addition, we paid \$1.6 million of interest premium on the 14% Notes, \$0.8 million of interest previously deferred on the term loan for the old senior credit facility, \$6.6 million to purchase the common stock subject to put/call rights and any remaining existing stock options of the common stock (plus a \$5.0 million note assumed by our parent company), \$1.4 million in debt issuance costs for the new senior credit facility and \$0.3 million for professional fees related to the exchange of debt.

Cash and Cash Equivalents

We had cash and cash equivalents of \$10.8 million at December 31, 2005, compared to \$10.4 million at December 31, 2004 and \$8.5 million at December 31, 2003.

Summary Disclosures About Contractual Obligations and Commercial Commitments

The following summarizes certain of our contractual obligations at December 31, 2005 and the effect such obligations are expected to have on our liquidity and cash flow in future periods. The nature of our business is to manage parking facilities. As a result, we do not have significant short-term purchase obligations.

	<u>Total</u>	<u>Payments due by period</u>			
		<u>Less than 1 year</u>	<u>1-3 years</u>	<u>4-5 years</u>	<u>After 5 years</u>
		(\$ in thousands)			
Long-term debt(1)	\$ 99,499	\$ 7,423	\$ 90,289	\$ 412	\$ 1,375
Operating leases(2).	105,238	23,751	50,226	13,853	17,408
Capital leases(3)	6,246	2,786	2,722	518	220
Other long-term liabilities(4)	25,867	4,700	12,884	3,586	4,697
Letters of credit(5)	25,260	14,069	11,191	—	—
Total	\$262,110	\$52,729	\$167,312	\$18,369	\$23,700

- (1) Represents principal amounts and interest. See Note F to our consolidated financial statements.
- (2) Represents minimum rental commitments, excluding contingent rent provisions under all non-cancelable leases with remaining terms of more than one year.
- (3) Represents minimum future payments on capital lease obligations. See Note M to our consolidated financial statements.
- (4) Represents deferred compensation, customer deposits and insurance claims.
- (5) Represents amount of currently issued letters of credit at their maturities.

In addition we made contingent earnout payments of \$0.3 million, \$0.6 million, \$0.6 million for the years ended 2005, 2004 and 2003, respectively and we made deficiency payments related to Bradley of \$0.5 million, \$2.0 million and \$3.3 million for the years ended 2005, 2004 and 2003, respectively. No amounts have been included on the above schedule related to those payments for future periods as the amounts, if any, are not presently determinable.

Critical Accounting Policies

Management’s Discussion and Analysis of Financial Condition and Results of Operations” discusses our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. Accounting estimates are an integral part of the preparation of the financial statements and the financial reporting process and are based upon current judgments. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Certain accounting estimates are particularly sensitive because of their complexity and the possibility that future events affecting them may differ materially from our current judgments and estimates.

This listing of critical accounting policies is not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States of America, with no need for management’s judgment regarding accounting policy. We believe that of our significant accounting policies, the following may involve a higher degree of judgment and complexity:

Impairment of Long-Lived Assets and Goodwill

As of December 31, 2005, our net long-lived assets were comprised primarily of \$14.9 million of property, equipment and leasehold improvements and \$2.5 million of contract and lease rights. In accounting for our long-lived assets, other than goodwill, we apply the provisions of Statement of Financial Accounting Standards (“SFAS”) No. 144, “Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of.” Beginning January 1, 2002, we account for goodwill and other intangible assets under the provisions of SFAS No. 142, “Goodwill and Other Intangible Assets.” As of December 31, 2005, we had \$118.8 million of goodwill.

The determination and measurement of an impairment loss under these accounting standards require the significant use of judgment and estimates. The determination of fair value of these assets utilizes cash flow projections that assume certain future revenue and cost levels, assumed discount rates based upon current market conditions and other valuation factors, all of which involve the use of significant judgment and estimation. For the years ended December 31, 2005, and December 31, 2004, we were not required to record any impairment charges related to long-lived assets or to goodwill. Future events may indicate differences from our judgments and estimates which could, in turn, result in impairment charges in the future. Future events that may result in impairment charges include increases in interest rates, which would impact discount rates, unfavorable economic conditions or other factors which could decrease revenues and profitability of existing locations and changes in the cost structure of existing facilities. Factors that could potentially have an unfavorable economic effect on our judgments and estimates include, among others: changes imposed by governmental and regulatory agencies, such as property condemnations and assessment of parking-related taxes; construction or other events that could change traffic patterns; and terrorism or other catastrophic events.

Insurance Reserves

We purchase comprehensive casualty insurance (including, without limitation, general liability, garage-keepers legal liability, worker’s compensation and umbrella/excess liability insurance) covering certain claims that occur at parking facilities we lease or manage. Under our various liability and workers’ compensation insurance policies, we are obligated to reimburse the insurance carrier for the first \$250,000 of any loss. As a result, we are, in effect, self-insured for all claims up to the deductible levels. We apply the provisions of SFAS No. 5, “Accounting for Contingencies”, in determining the timing and amount of expense recognition associated with claims against us. The expense recognition is based upon our determination of an unfavorable outcome of a claim being deemed as probable and reasonably estimated, as defined in SFAS No. 5. This determination requires the use of judgment in both the estimation of probability and the amount to be recognized as an expense. We utilize historical claims experience along with regular input from third party insurance advisors and actuaries in determining the required level of insurance reserves. Future information regarding historical loss experience may require changes to the level of insurance reserves and could result in increased expense recognition in the future.

Allowance for Doubtful Accounts

We report accounts receivable, net of an allowance for doubtful accounts, to represent our estimate of the amount that ultimately will be realized in cash. Management reviews the adequacy of its allowance for doubtful accounts on an ongoing basis, using historical collection trends, aging of receivables, and a review of specific accounts, and makes adjustments in the allowance as necessary. Changes in economic conditions or other circumstances could have an impact on the collection of existing receivable balances or future allowance considerations.

Income Taxes

We use the asset and liability method of SFAS No. 109, *Accounting for Income Taxes*, to account for income taxes. Under this method, deferred income tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. We have certain net operating loss carry forwards which expire between 2018 and 2024. Our ability to fully utilize these net operating losses to offset taxable income is limited due to the change in ownership resulting from the initial public offering (Internal Revenue Code Section 382).

Litigation

We are subject to litigation in the normal course of our business. We apply the provisions of SFAS No. 5, "Accounting for Contingencies," in determining the timing and amount of expense recognition associated with legal claims against us. Management uses guidance from internal and external legal counsel on the potential outcome of litigation in determining the need to record liabilities for potential losses and the disclosure of pending legal claims.

Thomas J. Moriarty, Trustee on behalf of Teamsters Local Union No. 727 Pension Fund, Teamsters Local Union No. 727 Health and Welfare Fund and Teamsters Local Union No. 727 Legal and Educational Assistance Fund, Plaintiff v. Stanard Parking Corporation IL and Standard Parking Corporation, Defendants, Case No. 03C9403, United States District Court, Northern District of Illinois, Eastern Division.

This matter was filed on December 30, 2003 by Thomas J. Moriarty, trustee, on behalf of the Teamsters Local 727 Pension, Health and Welfare, and Legal and Educational Assistance Funds. The action was brought under the Labor management Relations Act (LMRA) and the Employee Retirement Income Security Act of 1974 (ERISA): The lawsuit seeks to recover alleged unpaid contributions to the Teamsters Local 727 benefit funds that plaintiff claims are owed under the collective bargaining agreements in effect for the period January 1, 2000 through December 31, 2002. Plaintiff seeks to recover (1) unpaid contributions; (2) interest on the alleged delinquencies; (3) liquidated damages of 20% of the unpaid contributions, or the interest relating to these contributions ("double interest"); and (4) attorneys fees and audit costs. There have been no significant procedural events in the litigation.

The plaintiff's final version of the underlying audit was not issued until August 4, 2005. The amount claimed on the audit (including interest, damages and auditors fees), is approximately \$1.64 million. The Company disputes the plaintiff's audit findings.

The Company completed its initial review of plaintiff's audit in December 2005 and delivered its findings to plaintiff's auditors for their review and response. The company is awaiting comments from plaintiff's auditors before undertaking any additional formal discussions. No significant court deadlines exist at the present time. Substantial formal discovery is expected to begin in the second half of 2006 if the parties are unable to resolve the disputed amounts in the audit report.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rates

Our primary market risk exposure consists of risk related to changes in interest rates. We use a variable rate senior credit facility to finance our operations. This facility exposes us to variability in interest payments due to changes in interest rates. If interest rates increase, interest expense increases and conversely, if interest rates decrease, interest expense also decreases. We believe that it is prudent to limit the exposure of an increase in interest rates.

To meet this objective, we entered into two interest rate cap transactions with LaSalle Bank National Association (“LaSalle”), allowing us to continue to take advantage of LIBOR based pricing under our Credit Agreement while hedging our interest rate exposure on a portion of our borrowings under the Credit Agreement (“Rate Cap Transactions”). Under each Rate Cap Transaction, we receive payments from LaSalle at the end of each quarterly period to the extent that the prevailing three month LIBOR during that period exceeds our cap rate of 2.5%. The first Rate Cap Transaction caps our interest rate on a \$30.0 million principal balance at 2.5% for a total of 18 months. The second Rate Cap Transaction capped our interest rate on a \$15.0 million principal balance at 2.5% for a total of nine months which matured on October 12, 2005 and for which we recognized a gain of \$18 thousand which is reported as a reduction to interest expense in the consolidated statement of operations. Each Rate Cap Transaction began as of January 12, 2005 and settles each quarter on a date that is intended to coincide with our quarterly interest payment dates under the credit agreement.

At December 31, 2005, the \$30.0 million Rate Cap Transaction is reported at its fair value of \$0.4 million and is included in prepaid expenses and other assets on the consolidated balance sheet. Total changes in the fair value of \$0.1 million have been reflected in accumulated other comprehensive income on the consolidated balance sheet. The amount of change in the fair value at the time of maturity will be reclassified into earnings at that time.

We do not enter into derivative instruments for any purpose other than cash flow hedging purposes.

Our \$90.0 million senior credit facility provides for a \$90.0 million variable rate revolving facility. Interest expense on such borrowing is sensitive to changes in the market rate of interest. If we were to borrow the entire \$90.0 million available under the facility, a 1% increase in the average market rate would result in an increase in our annual interest expense of \$0.9 million.

This amount is determined by considering the impact of the hypothetical interest rates on our borrowing cost, but does not consider the effects of the reduced level of overall economic activity that could exist in such an environment. Due to the uncertainty of the specific changes and their possible effects, the foregoing sensitivity analysis assumes no changes in our financial structure.

Foreign Currency Risk

Our exposure to foreign exchange risk is minimal. All foreign investments are denominated in U.S. dollars, with the exception of Canada. We had approximately \$1.7 million and \$0.2 million of Canadian dollar denominated cash and debt instruments, respectively, at December 31, 2005. We do not hold any hedging instruments related to foreign currency transactions. We monitor foreign currency positions and may enter into certain hedging instruments in the future should we determine that exposure to foreign exchange risk has increased.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The financial statements required by this Item are attached to and are hereby incorporated into this Report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this annual report, our chief executive officer, chief financial officer, and corporate controller carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) of the Securities Exchange Act of 1934 (the “Exchange Act”). Based upon their evaluation, our chief executive officer, chief financial officer, and corporate controller concluded that our disclosure controls and procedures were adequate and effective and designed to ensure that material information relating to us (including our consolidated subsidiaries) required to be disclosed by us in the reports we file under the Exchange Act is recorded, processed, summarized and reported within the required time periods.

Changes in Internal Controls

There were no significant changes in our internal controls or any other factors that could significantly affect these controls subsequent to the date of the evaluation referred to above.

Management’s Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Our internal control system is designed to provide reasonable assurance to our management and Board of Directors regarding the preparation and fair presentation of published financial statements. Under the supervision and with the participation of our management, including our chief executive officer, chief financial officer and corporate controller, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control-Integrated Framework, issued by the Committee on Sponsoring Organization of the Treadway Commission (“COSO Framework”). Based on our evaluation under the COSO Framework, our management concluded that our internal control over financial reporting was effective as of December 31, 2005.

Our management’s assessment of the effectiveness of our internal control over financial reporting as of December 31, 2005 has been audited by Ernst & Young, LLP, an independent registered certified public accounting firm, as stated in their attestation report, which is included herein.

Limitations of the Effectiveness of Internal Control

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system are met. Because of the inherent limitations of any internal control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

Information required by this item with respect to our directors and compliance by our directors, executive officers and certain beneficial owners of our common stock with Section 16(a) of the Exchange Act is incorporated by reference to all information under the captions entitled “Board and Corporate Governance Matters” and “Section 16(a) Beneficial Ownership Reporting Compliance” from our Proxy Statement.

Executive Officers of the Registrant

The following chart names our executive officers of the Company, each of whom is elected by and serves at the pleasure of the Board of Directors. The business experience shown for each officer has been his principal occupation for at least the past five years.

<u>Name</u>	<u>Business Experience</u>	<u>Current Position Held Since</u>	<u>Age</u>
John V. Holten	Mr. Holten has served as a director and our chairman of the board of directors since March 1998. Mr. Holten is the sole manager of Steamboat Industries LLC and the sole managing director of Steamboat Industries N.V. Steamboat Industries LLC, along with Steamboat Industries N.V. (Steamboat Industries LLC owns 100% of the common stock of Steamboat Industries N.V.), has been our majority stockholder since May 2004. Steamboat Industries LLC was established in, and Steamboat Industries LLC acquired 100% of the common stock of Steamboat Industries N.V. in, May 2004. Mr. Holten has also served as a director and chairman of the board of directors of AP Holdings, Inc., our parent company until May 2004, since April 1989. Mr. Holten is the chairman and chief executive officer of Steamboat Holdings, Inc., the parent company of AP Holdings, Inc. Mr. Holten has also served as the chairman and chief executive officer of Holberg Incorporated since 1986. Holberg Incorporated was our indirect parent until March 2001. Mr. Holten received his M.B.A. degree from Harvard University in 1982 and graduated from the Norwegian School of Economics and Business Administration in 1980.	1998	49

<u>Name</u>	<u>Business Experience</u>	<u>Current Position Held Since</u>	<u>Age</u>
James A. Wilhelm	Mr. Wilhelm has served as our president since September 2000 and as our chief executive officer and a director since October 2001. Mr. Wilhelm served as executive vice president—operations from March 1998 to September 1999 and he served as senior executive vice president and chief operations officer from September 1999 to August 2000. Mr. Wilhelm joined the predecessors of Standard Parking Corporation in 1985, serving as executive vice president beginning in January 1998. Prior to March 1998, Mr. Wilhelm was responsible for managing the Midwest and Western Regions, which included parking facilities in Chicago and sixteen other cities throughout the United States and Canada. Mr. Wilhelm received his B.A. degree from Northeastern Illinois University in 1976.	2000	52
G. Marc Baumann	Mr. Baumann has served as our executive vice president, chief financial officer and treasurer since October 2000. Mr. Baumann has also served as treasurer of AP Holdings, Inc. from October 2000 to April 2004. Prior to his appointment as our chief financial officer, Mr. Baumann was chief financial officer for Warburtons Ltd. in Bolton, England from January 1993 to October 2000. Mr. Baumann is a certified public accountant and a member of both the American Institute of Certified Public Accountants and the Illinois CPA Society. He received his B.S. degree in 1977 from Northwestern University and his M.B.A. degree from the Kellogg School of Management at Northwestern University in 1979.	2000	50
Thomas L. Hagerman	Mr. Hagerman has served as our executive vice president—operations since July 2004 and as a senior vice president from March 1998 through June 2004. He received his B.A. degree in marketing from the Ohio State University in 1984, and a B.A. degree in business administration and finance from Alameda University in 2004.	2004	45
John Ricchiuto	Mr. Ricchiuto has served as our executive vice president—operations since December 2002. Mr. Ricchiuto joined APCOA, Inc. in 1980 as a management trainee. He served as vice president—Airport Properties Central from 1993 until 1994 and as senior vice president—Airport Properties Central and Eastern United States from 1994 until 2002. Mr. Ricchiuto received his B.S. degree from Bowling Green University in 1979.	2002	49

<u>Name</u>	<u>Business Experience</u>	<u>Current Position Held Since</u>	<u>Age</u>
Robert N. Sacks	Mr. Sacks has served as our executive vice president—general counsel and secretary since the consummation of the combination in March 1998. Mr. Sacks joined APCOA, Inc. in 1988, and served as general counsel and secretary since 1988, as vice president, secretary, and general counsel from 1989, and as senior vice president, secretary and general counsel from 1997 to March 1998. Mr. Sacks has also served as secretary of AP Holdings, Inc. from 1989 to April 2004. Mr. Sacks received his B.A. degree, cum laude, from Northwestern University in 1976 and, in 1979, received his J.D. degree from Suffolk University where he was a member of the Suffolk University Law Review.	1998	53
Edward E. Simmons	Mr. Simmons has served as our senior vice president—operations since May 1998. Mr. Simmons has also served as executive vice president—operations since August 1999. Previously, he was president, chief executive officer and co-founder of Executive Parking, Inc. Prior to joining Executive Parking, Inc., Mr. Simmons was vice president/general manager for Red Carpet Parking Service and a consultant on facility layout and design and general manager of J & J Parking. Mr. Simmons is currently a board member of the National Parking Association and the International Parking Institute. Mr. Simmons is a past executive board member and past president of the Parking Association of California.	1998	56
Steven A. Warshauer	Mr. Warshauer has served as our executive vice president—operations since the consummation of the combination in March 1998. Mr. Warshauer joined the Standard Companies in 1982, initially serving as vice president, then becoming senior vice president. Mr. Warshauer received his B.S. Degree from the University of Northern Colorado in 1976 with a major in Accounting.	1998	51
Michael K. Wolf	Mr. Wolf has served as our executive vice president—chief administrative officer and associate general counsel since the combination in March 1998. Mr. Wolf served as senior vice president and general counsel of the Standard Companies from 1990 to January 1998. Mr. Wolf was subsequently appointed executive vice president of the Standard Companies. Mr. Wolf received his B.A. degree in 1971 from the University of Pennsylvania and in 1974 received his J.D. degree from Washington University, where he served as an editor of the Washington University Law Quarterly and was elected to the Order of the Coif.	1998	56

We have adopted a Code of Ethics for Certain Executives (the “finance code of ethics”), a code of ethics that applies to our chief executive officer, chief financial officer, corporate controller and other finance organization employees. The finance code of ethics is publicly available on our website at www.standardparking.com. If we make any substantive amendments to the finance code of ethics or grant any waiver, including any implicit waiver from our chief executive officer, chief financial officer or corporate controller, we will disclose the nature of such amendment or waiver on that website or a report on Form 8-K.

ITEM 11. EXECUTIVE COMPENSATION

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
of Standard Parking Corporation

We have audited the accompanying consolidated balance sheets of Standard Parking Corporation as of December 31, 2005 and 2004, and the related consolidated statements of operations, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2005. Our audits also included the financial statement schedule listed in the Index at Item 15(a). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Standard Parking Corporation at December 31, 2005 and 2004, and the consolidated results of their operations and their cash flows for each of the three years in the period ended December 31, 2005, in conformity with US generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the basic financial statements taken as a whole, presents fairly in all material respects the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Standard Parking Corporation's internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 8, 2006 expressed an unqualified opinion thereon.

Chicago, Illinois

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors
of Standard Parking Corporation

We have audited management's assessment, included in Item 9A of the accompanying Form 10-K, that Standard Parking Corporation maintained effective internal control over financial reporting as of December 31, 2005, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). Standard Parking Corporation's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that Standard Parking Corporation maintained effective internal control over financial reporting as of December 31, 2005, is fairly stated, in all material respects, based on the COSO criteria. Also, in our opinion, Standard Parking Corporation maintained, in all material respects, effective internal control over financial reporting as of December 31, 2005, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets as of December 31, 2005 and 2004, and the related consolidated statements of operations, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2005 of Standard Parking Corporation and our report dated March 8, 2006, expressed an unqualified opinion thereon.

Chicago, Illinois

STANDARD PARKING CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
Years Ended December 31, 2005, 2004 and 2003
(In thousands except share and per share data)

Note A. Significant Accounting Policies

Standard Parking Corporation (“Standard” or “the Company”), and its subsidiaries and affiliates manage, operate and develop parking properties throughout the United States and Canada. The Company is a majority-owned subsidiary of Steamboat Holdings. The Company provides on-site management services at multi-level and surface facilities for all major markets of the parking industry. The Company manages more than 1,900 parking facilities, containing approximately 1,033,167 parking spaces in 303 cities across the United States and Canada.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company, its wholly owned subsidiaries, and joint ventures in which the Company has more than 50% ownership interest. Minority interest recorded in the consolidated statement of operations is the joint venture partner’s non-controlling interest in consolidated joint ventures. We have interests in 14 joint ventures, each of which operates between one and twenty-two parking facilities. Of the 14 joint ventures, nine are majority owned by us and are consolidated into our financial statements, and five are single purpose entities where we have a 50% interest or a minority interest. Investments in joint ventures where the Company has a 50% or less non-controlling ownership interest are reported on the equity method. All significant intercompany profits, transactions and balances have been eliminated in consolidation.

Variable Interest Entities

<u>Equity</u>	<u>Commencement of Operations</u>	<u>Nature of Activities</u>	<u>% Ownership</u>	<u>Locations</u>
Other Investments in VIE’s	Jan 92—August 99	Management of parking lots, shuttle operations and parking meters	50.0%	Various states

The existing VIE’s in which we have a variable interest are not consolidated into our financial statements because we are not the primary beneficiary.

Parking Revenue

The Company recognizes gross receipts from leased locations management fees and amounts attributable to ancillary services earned from management contract properties as parking revenue as the related services are provided. Also included in parking revenue are gains on sales of parking contracts and development fees. Development fees are revenue received from a customer for which we have provided certain consulting services as part of our offerings of ancillary management services. The gains from sales of contracts are for these contracts for which we have no asset basis or ownership interest and would be received as part of a formula buy-out in the contract in order for the owner to terminate the contract prior to its expiration.

STANDARD PARKING CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
Years Ended December 31, 2005, 2004 and 2003
(In thousands except share and per share data)

Cost of Parking Services

The Company recognizes costs for leases and non-reimbursed costs from managed facilities as cost of parking services. Cost of parking services consists primarily of rent and payroll related costs.

Advertising Costs

Advertising costs are expensed as incurred and are included in general and administrative expenses. Advertising expenses aggregated \$352, \$456 and \$412 for 2005, 2004 and 2003 respectively.

Stock Based Compensation

The Company has elected to follow Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations in accounting for the stock options granted to employees and directors. Accordingly, employee and director compensation expense is recognized only for those options which price is less than fair market value at the measurement date. The Company has adopted the disclosure-only provisions of SFAS No. 123, *Accounting for Stock-Based Compensation*.

Cash and Cash Equivalents

Cash equivalents represent funds temporarily invested in money market instruments with maturities of one to five days. Cash equivalents are stated at cost, which approximates market value.

Allowance for Doubtful Accounts

Accounts receivable, net of the allowance for doubtful accounts, represents our estimate of the amount that ultimately will be realized in cash. Management reviews the adequacy of its allowance for doubtful accounts on an ongoing basis, using historical collection trends, aging of receivables, and a review of specific accounts, and makes adjustments in the allowance as necessary. Changes in economic conditions or other circumstances could have an impact on the collection of existing receivable balances or future allowance considerations. As of December 31, 2005 and 2004, the Company's allowance for doubtful accounts was \$3,565 and \$3,080, respectively.

Leaseholds and Equipment

Leaseholds, equipment and leasehold improvements are stated at cost. Leaseholds (cost of parking contracts) are amortized on a straight-line basis over the average contract life of 10 years. Equipment is depreciated on the straight-line basis over the estimated useful lives of approximately 5 years on average. Leasehold improvements are amortized on the straight-line basis over the terms of the respective leases or the service lives of the improvements, whichever is shorter (average of approximately 7 years). Assets under capital leases are amortized on the straight-line basis over the terms of the respective leases or the service lives of the asset. Depreciation and amortization includes losses on abandonments of leaseholds and equipment of \$646, \$89 and \$364 in 2005, 2004 and 2003, respectively. Depreciation expense was \$6,355, \$5,801 and \$6,914 in 2005, 2004 and 2003, respectively.

STANDARD PARKING CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
Years Ended December 31, 2005, 2004 and 2003
(In thousands except share and per share data)

Goodwill

On January 1, 2002, the Company adopted Statement of Financial Accounting Standards (“SFAS”) No. 142, *Goodwill and Other Intangible Assets*, which eliminates the amortization of goodwill and instead requires that goodwill be tested for impairment at least annually. The annual impairment test of goodwill made by the company in the fourth quarter for the years ended 2005, 2004 and 2003, respectively, did not require adjustment to the carrying value of our goodwill.

Long Lived and Finite-Lived Intangible Assets

Long-lived assets and identifiable intangibles with finite lives are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset or group of assets to future undiscounted net cash flows expected to be generated by the asset or group of assets. If such assets are considered to be impaired, the impairment recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

Debt Issuance Costs

The costs of obtaining financing are capitalized and amortized as interest expense over the term of the respective financing using a method which approximates the interest method. Debt issuance costs of \$1,292 and \$1,930 at December 31, 2005 and 2004, respectively, are included in intangibles and other assets in the consolidated balance sheets and are reflected net of accumulated amortization of \$4,768 and \$4,004 at December 31, 2005 and 2004, respectively.

Financial Instruments

The carrying values of cash, accounts receivable and accounts payable are reasonable estimates of their fair value due to the short-term nature of these financial instruments. The Company’s 9¼% Senior Subordinated Notes are included in the Consolidated Balance Sheet at \$48,877, which represents the aggregate face value of the notes. Estimated market value at December 31, 2005 was approximately \$47,851 for the 9¼% notes. Other long-term debt has a carrying value that approximates fair value because these instruments bear interest at market rates.

Foreign Currency Translation

The functional currency of the Company’s foreign operations is the local currency. Accordingly, assets and liabilities of the Company’s foreign operations are translated from foreign currencies into U.S. dollars at the rates in effect on the balance sheet date while income and expenses are translated at the weighted-average exchange rates for the year. Adjustments resulting from the translations of foreign currency financial statements are accumulated and classified as a separate component of stockholders’ equity.

STANDARD PARKING CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
Years Ended December 31, 2005, 2004 and 2003
(In thousands except share and per share data)

Interest rate caps

We use a variable rate senior credit facility to finance our operations. This facility exposes us to variability in interest payments due to changes in interest rates. If interest rates increase, interest expense increases and conversely, if interest rates decrease, interest expense also decreases. We believe that it is prudent to limit the exposure of an increase in interest rates.

To meet this objective, we entered into two interest rate cap transactions with LaSalle Bank National Association (“LaSalle”), allowing us to continue to take advantage of LIBOR based pricing under our Credit Agreement while hedging our interest rate exposure on a portion of our borrowings under the Credit Agreement (“Rate Cap Transactions”). Under each Rate Cap Transaction, we receive payments from LaSalle at the end of each quarterly period to the extent that the prevailing three month LIBOR during that period exceeds our cap rate of 2.5%. The first Rate Cap Transaction caps our interest rate on a \$30.0 million principal balance at 2.5% for a total of 18 months. The second Rate Cap Transaction capped our interest rate on a \$15.0 million principal balance at 2.5% for a total of nine months which matured on October 12, 2005 and for which we recognized a gain of \$18 thousand which is reported as a reduction to interest expense in the consolidated statement of operations. Each Rate Cap Transaction began as of January 12, 2005 and settles each quarter on a date that is intended to coincide with our quarterly interest payment dates under the credit agreement.

At December 31, 2005, the \$30.0 million Rate Cap Transaction is reported at its fair value of \$0.4 million and is included in prepaid expenses and other assets on the consolidated balance sheet. Total changes in the fair value of \$0.1 million have been reflected in accumulated other comprehensive income on the consolidated balance sheet. The amount of change in the fair value at the time of maturity will be reclassified into earnings at that time.

We do not enter into derivative instruments for any purpose other than cash flow hedging purposes.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Insurance Reserves

The Company purchases comprehensive liability insurance covering certain claims that occur at parking facilities the Company leases or manages. In addition, the Company purchases umbrella/excess liability coverage. The Company’s various liability insurance policies have deductibles of up to \$250,000 that must be met before the insurance companies are required to reimburse the Company for costs incurred relating to covered claims. As a result, the Company is, in effect, self-insured for all claims up to the deductible levels. The Company applies the provisions of SFAS No. 5, *Accounting for Contingencies*, in determining the timing and amount of expense recognition associated with claims against the Company. The expense recognition is based upon the Company’s determination of an unfavorable outcome of a claim being deemed as probable and capable of being reasonably estimated, as defined in SFAS No. 5. This

STANDARD PARKING CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
Years Ended December 31, 2005, 2004 and 2003
(In thousands except share and per share data)

determination requires the use of judgment in both the estimation of probability and the amount to be recognized as an expense. The Company utilizes historical claims experience along with regular input from third party insurance advisors in determining the required level of insurance reserves. Future information regarding historical loss experience may require changes to the level of insurance reserves and could result in increased expense recognition in the future.

Litigation

The Company is subject to litigation in the normal course of our business. The Company applies the provisions of SFAS No. 5, "Accounting for Contingencies", in determining the timing and amount of expense recognition associated with legal claims against us. Management uses guidance from internal and external legal counsel on the potential outcome of litigation in determining the need to record liabilities for potential losses and the disclosure of pending legal claims. (See Note L).

Recent Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123 (revised 2004), Share-Based Payment, which is a revision of FASB Statement No. 123, *Accounting for Stock-Based Compensation*. Statement 123(R) supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and amends FASB Statement No. 95, *Statement of Cash Flows*. Generally, the approach in Statement 123(R) is similar to the approach described in Statement 123. However, Statement 123(R) *requires* all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. Statement 123(R) must be adopted no later than January 1, 2006. We expect to adopt Statement 123(R) on January 1, 2006.

We plan to adopt Statement 123 using the modified-prospective method. Accordingly, the adoption of Statement 123(R)'s fair value method will have a significant impact on our results of operations, although it will have no overall impact on our financial position. The impact of adoption of Statement 123(R) cannot be predicted at this time because it will depend on levels of share-based payments granted in the future. However, based upon the current share based payments the impact would equate to approximately \$468 in additional costs on an annual basis.

Stock-Based Compensation

We are required under SFAS No. 123, to disclose pro forma information regarding option grants made to our employees based on specific valuation techniques that produce estimated compensation charges. The pro forma information is as follows (in thousands, except per-share amounts):

	December 31,		
	2005	2004	2003
	(in thousands except for per share data)		
Net income (loss)—as reported	\$ 14,719	\$ 2,640	\$(18,853)
Add: Non-cash stock option compensation expense included in the reported net income, net of related tax effects	—	2,299	—
Deduct: Stock-based employee compensation expense using the fair value method net of related tax effects	(468)	(2,495)	—
Pro-forma net income (loss)	<u>\$ 14,251</u>	<u>\$ 2,444</u>	<u>\$(18,853)</u>
Basic net income per common share—as reported	\$ 1.43	\$.44	\$ —
Basic pro-forma net income per common share	\$ 1.39	\$.41	\$ —
Diluted net income per common share—as reported	\$ 1.39	\$.42	\$ —
Diluted pro-forma net income per common share	\$ 1.35	\$.39	\$ —

The estimated weighted average fair value of the options granted was \$6.87 for 2005 option grants and \$6.44 for 2004 option grants, using the Black-Scholes option pricing model with the following assumptions; weighted average dividend yield was 0% for fiscal year 2005 and 2004, weighted average volatility of 34.57% was used for fiscal year 2005 and 50% was used for fiscal year 2004, weighted average risk free interest based on zero-coupon U.S. government issues with a remaining term equal to the expected life of the option of 4.13% for 2005 and 2.78% for 2004, and a weighted average expected term of 7 years for 2005 and 2004.

On October 12, 2005, we issued stock options to purchase 16,608 shares of common stock at a market price of \$19.00 per share to our outside Directors.

For the year ended December 31, 2004, we issued stock grants totaling 15,044 shares to our outside Directors. On June 2, 2004, 8,696 shares were issued in conjunction with our initial public offering at the NASDAQ market closing price of \$13.09 per share. On December 27, 2004, we issued 6,348 shares at the NASDAQ market closing price of \$15.76 per share. The total value of the grants, of \$214 thousand, was recorded as compensation and is included in our general and administrative expenses for the year ended December 31, 2004.

Reclassifications

Certain amounts previously presented in the financial statements of prior periods have been reclassified to conform to current year presentation.

Note B. Net Income Per Common Share

In accordance with SFAS No.128, "Earnings Per Share," basic net income per share is computed by dividing net income by the weighted daily average number of shares of common stock outstanding during the period. The weighted daily average number of shares of common stock excludes shares that have been exercised prior to vesting and are subject to repurchase by us. Diluted net income per share is based upon the weighted daily average number of shares of common stock outstanding for the period plus dilutive potential common shares, including stock options using the treasury-stock method.

The following table sets forth the computation of basic and diluted net income per share:

	Year Ended		
	December 31, 2005	December 31, 2004	December 31, 2003(1)
	(in thousands except for share and per share data)		
Numerator:			
Net income (loss)	\$ 14,719	\$ 2,640	\$(18,853)
Denominator:			
Denominator for basic net income per common share:			
Weighted average basic shares outstanding	10,265,785	6,040,389	—
Weighted average of diluted shares outstanding	10,560,415	6,289,591	—
Basic net income per common share	\$ 1.43	\$ 0.44	\$ —
Dilutive net income per common share	\$ 1.39	\$ 0.42	\$ —

(1) Earnings per share was not calculated for 2003 as the number of outstanding shares were nominal.

There are no additional securities that could dilute basic EPS in the future that were not included in the computation of diluted EPS.

Note C. Non-Cash Stock Compensation Expense

In accordance with the 2001 Option Plan, outstanding options to purchase 503.86 shares of Series D preferred stock immediately became fully vested and exercisable upon completion of our IPO. The vested Series D preferred stock options were then converted into options to purchase an aggregate of 444,836 shares of our common stock which became fully vested upon completion of our IPO on June 2, 2004.

For the year ended December 31, 2004, we recorded \$2.3 million in non-cash stock compensation expense which represented the difference between the fair market value of \$11.50 per share (the IPO price per share) and the exercise price of \$6.34 per share on the 444,836 shares converted to our common stock. In addition, we issued 4,414 options at an exercise price of \$11.50, which were immediately vested, on October 29, 2004 when the fair market value was \$12.89 per share and we recorded the difference as compensation expense.

Note D. Net Gain from Extinguishment of Debt and Other

In 2003, we recorded a net gain from extinguishment of debt and other of \$1,757 related to the repurchase of 14% notes at a discount. In 2004, we recorded a net gain of \$3,832 in conjunction with our IPO. In 2005, we had no gains from extinguishment of debt and other.

The net gain from extinguishment of debt consists of the following (in thousands):

	Year Ended	
	December 31, 2004	December 31, 2003
	(in thousands)	
(Loss) gain:		
Pre-payment penalty on former senior credit facility	\$ (640)	\$ —
Professional fees related to extinguishment of debt	(310)	—
Additional premium on 14% Notes	(740)	—
Purchase of common stock options	(300)	—
Write-off of debt issuance costs related to former senior credit facility	(2,385)	—
Write-off of carrying value in excess of principal related to 14% Notes	8,207	1,172
Gain on repurchase of 14% Notes	—	585
Net gain from extinguishment of debt and other	<u>\$ 3,832</u>	<u>\$ 1,757</u>

Note E. Initial Public Offering

In June 2004, we closed our initial public offering and sale of 4,666,667 shares of common stock, including the underwriters' exercise of an over-allotment option, at a price of \$11.50 per share. A total of \$53.7 million in gross proceeds was raised from this offering. After deducting the underwriting discount of \$3.8 million, and offering expenses of \$3.2 million, net proceeds to us were \$46.7 million. In conjunction with this offering, we entered into a new \$90.0 million senior credit facility and redeemed our 14% Notes in the amount of \$57.7 million. In addition, we paid \$1.6 million of interest premium on the 14% Notes, \$0.8 million of interest previously deferred on the term loan for the old senior credit facility, \$6.6 million to purchase the common stock subject to put/call rights and any remaining existing stock options of the common stock (plus a \$5.0 million note assumed by our parent company), \$1.4 million in debt issuance costs for the new senior credit facility and \$0.3 million for professional fees related to the exchange of debt.

Redeemable Preferred Stock, Series C

In connection with our IPO, we exchanged a portion of our 11 ¼% Redeemable Preferred Stock (the "Series C preferred stock"), that was owned by Steamboat Industries LLC for 5,789,499 shares of our common stock. The Series C preferred stock had an initial liquidation preference equal to \$1.0 million per share or \$40.7 million in the aggregate. The Series C preferred stock accrued dividends on a cumulative basis at 11¼% per year. Conversion was fixed by resolution of the Board of Directors and the shares have no voting rights except as to alterations or changes that may adversely affect the holders of the Series C preferred stock. Our remaining Series C preferred stock was contributed to us by our parent as a capital contribution, which amounted to \$63.3 million and included accumulated dividends of \$2.9 million. As of December 31, 2004, there are no outstanding shares of Series C preferred stock.

Convertible Redeemable Preferred Stock, Series D

In connection with our IPO, Steamboat Industries LLC and its wholly owned subsidiary, Steamboat Industries N.V., acquired all but ten shares of our outstanding 18% Senior Convertible Redeemable Series D Preferred Stock (the "Series D preferred stock"). Steamboat Industries LLC then contributed its Series D preferred stock to us as a capital contribution, which amounted to \$60.7 million and included accumulated dividends of \$4.4 million. We then retired all shares of Series D preferred stock contributed to us and now have only ten shares of Series D preferred stock outstanding. The Series D preferred stock has an initial liquidation preference equal to \$100 per share or \$1,000 in the aggregate.

Prior to our IPO and, in connection with our recapitalization, we issued 3,500 shares of the Series D preferred stock to Fiducia, Ltd. that had an initial liquidation preference equal to \$10,000 per share or \$35.0 million in the aggregate. The Series D preferred stock accrued dividends on a cumulative basis at 18% per year. Conversion was upon occurrence of an IPO at a rate related to the IPO price and the shares had no voting rights except as to creation of any class or series of shares ranking senior to the Series D preferred stock. We were required to redeem Series D preferred stock at the election of the holder any time on or after June 15, 2008. The number of shares of Series D preferred stock authorized for issuance was 17,500.

Note F. Borrowing Arrangements

Long-term borrowings, in order of preference, consist of:

	<u>Interest Rate(s)</u>	<u>Due Date</u>	<u>Amount Outstanding</u>	
			<u>December 31, 2005</u>	<u>December 31, 2004</u>
			(in thousands)	
Senior Credit Facility	Various	June 2007(1)	\$ 33,600	\$ 50,000
Senior Subordinated Notes	9¼%	March 2008	48,877	48,877
Carrying value in excess of principal . . .	Various	Various	461	640
Joint venture debentures	11.00	Various	689	1,308
Capital lease obligations	Various	Various	6,246	6,859
Obligations on Seller notes and other . .	Various	Various	2,235	2,066
			<u>92,108</u>	<u>109,750</u>
Less current portion			<u>3,763</u>	<u>3,512</u>
			<u>\$88,345</u>	<u>\$106,238</u>

(1) On February 28, 2006, we entered into an amendment which extended the due date to December 2, 2007.

Senior Subordinated Notes

The 9¼% Senior Subordinated Notes (the “9¼% Notes”) were issued in September of 1998 and are due in March of 2008.

The 9¼% Notes and senior credit facility contain covenants that limit us from incurring additional indebtedness and issuing preferred stock, restrict dividend payments, limit transactions with affiliates and restrict certain other transactions. Substantially all of our net assets are restricted under these provisions and covenants (See Note R).

Senior Credit Facility

We entered into a new senior credit agreement as of June 2, 2004 with LaSalle Bank National Association, as agent and Wells Fargo Bank, N.A., as syndication agent. LaSalle and Wells Fargo have subsequently assigned a portion of their loans and rights as lender to Fifth Third Bank Chicago and U.S. Bank National Association.

The revolving senior credit facility consists of a \$90.0 million revolving credit facility that will expire on June 2, 2007. The credit facility includes a letter of credit sub-facility with a sublimit of \$30.0 million provided by Wells Fargo and a swing line sub-facility with a sublimit of \$5.0 million.

The revolving credit facility bears interest, at our option, at either (1) LIBOR plus the applicable LIBOR Margin ranging between 2.25% and 3.00% depending on the ratio of our total funded indebtedness to our EBITDA from time to time (“Total Debt Ratio”) or (2) the Base Rate (as defined below) plus the applicable Base Rate Margin ranging between 0.75% and 1.50% depending on our Total Debt Ratio. We may elect interest periods of one, two, three or six months for LIBOR based borrowings. The Base Rate is the greater of (i) the rate publicly announced from time to time by LaSalle as its “prime rate”, or (ii) the overnight federal funds rate plus 0.50%.

The senior credit facility includes the following covenants; fixed charge ratio, senior debt to EBITDA ratio, total debt to EBITDA ratio and a limit on net annual capital expenditures, and limit on our ability to incur additional indebtedness, issue preferred stock or pay dividends and contain certain other restrictions on our activities. We are required to repay borrowings under the senior credit facility out of the proceeds of future issuances of debt or equity securities and asset sales, subject to certain exceptions. The new senior

credit facility is secured by a first lien on substantially all of our assets and any subsequently acquired assets (including a pledge of 100% of the stock of our existing and future domestic guarantor subsidiaries and 65% of the stock of our existing and future foreign subsidiaries).

At December 31, 2005 we were in compliance with all of the covenants.

The weighted average interest rate on our Senior Credit Facility at December 31, 2005 was 4.4%. The 4.4% rate includes all outstanding LIBOR contracts, interest rate cap effect and letters of credit.

On July 7, 2004, we entered into a first amendment to our Credit Agreement, pursuant to which U.S. Bank and Fifth Third were included as Lenders with commitments and to concurrently reduce the commitments of LaSalle and Wells Fargo.

On March 14, 2005, we entered into a second amendment to our Credit Agreement, which permitted us to repurchase shares of our common stock during 2005, on the open market or through private repurchases, for a value not to exceed \$6.0 million, provided that we meet certain financial tests.

On March 16, 2005, we entered into a third amendment to our Credit Agreement, pursuant to which the interest pricing of our LIBOR Margin, Base Rate Margin and our Letter of Credit Fee Rate has been reduced by 25 basis points across the entire interest rate pricing grid.

On February 28, 2006 we entered into a fourth amendment to our Credit Agreement, pursuant to which the interest pricing of our LIBOR Margin, Base Rate Margin, and the Letter of Credit Fee rate has been reduced by 25 basis points across the entire interest rate pricing grid. The termination date was extended to December 2, 2007, the definition of Change in Control was amended and restated in its entirety and we are permitted to repurchase shares of our common stock during 2006, on the open market or through private purchases, for a value not to exceed \$6.0 million, provided that we meet certain financial tests. The covenants related to; fixed charged coverage ratio, senior debt to EBITDA ratio and the total debt to EBITDA ratio were amended and restated.

At December 31, 2005, we had \$25.3 million of letters of credit outstanding under the senior credit facility, borrowings against the senior credit facility aggregated \$33.6 million, and we had \$31.1 million available under the senior credit facility.

Consolidated joint ventures have entered into four agreements for stand-alone development projects providing nonrecourse funding. These joint venture debentures are collateralized by the specific contracts that were funded.

We have entered into various financing agreements, which were used for the purchase of equipment.

In conjunction with our initial public offering, on June 2, 2004, we repurchased our outstanding 14% Senior Subordinated Second Lien Notes ("14% Notes") for \$57.7 million. The 14% Notes were issued in January 2002. Interest accrued at the rate of 14% per annum and was payable semi-annually in a combination of cash and additional registered notes (the "PIK Notes"), in arrears on June 15 and December 15, commencing on June 15, 2002. Interest in the amount of 10% per annum was paid in cash, and interest in the amount of 4% per annum was paid in PIK Notes.

Note G. Accumulated Other Comprehensive Income

Accumulated other comprehensive income consists of the following components:

	For the year ended	
	December 31,	
	2005	2004
Balance at beginning of year	\$116	\$(233)
Revaluation of interest rate cap	127	—
Effect of foreign currency translation	176	349
Balance at end of year	<u>\$419</u>	<u>\$116</u>

Note H. Income Taxes

The components of income tax (benefit) expense for the years ended December 31, 2005, 2004, and 2003 were as follows:

	2005	2004	2003
	(in thousands)		
Current provision (benefit):			
U.S. federal	\$ 173	\$ —	\$ —
Foreign	201	(116)	381
State	12	4	30
Total current	<u>386</u>	<u>(112)</u>	<u>411</u>
Deferred provision (benefit):			
U.S. federal	(359)	—	—
Foreign	—	—	—
State	(41)	—	—
Total deferred	<u>(400)</u>	<u>—</u>	<u>—</u>
Income tax (benefit) expense	<u>\$ (14)</u>	<u>\$(112)</u>	<u>\$411</u>

Deferred income taxes reflect the net effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amount used for income tax purposes. Significant components of the Company's deferred tax assets and liabilities as of December 31, 2005 and 2004 are as follows:

	<u>2005</u>	<u>2004</u>
	(in thousands)	
Deferred tax assets:		
Net operating loss carry forwards	\$ 24,433	\$ 28,189
Accrued expenses	8,742	7,752
Carrying value in excess of principal	180	250
Accrued compensation	3,069	4,697
Carry forwards	801	712
Undistributed Foreign Earnings	(737)	—
Book over tax depreciation and amortization	451	(376)
Accrued lease obligations	324	379
Gross deferred tax assets	<u>37,263</u>	<u>41,603</u>
Less: valuation allowance	<u>(24,179)</u>	<u>(30,938)</u>
Total deferred tax asset	<u>13,084</u>	<u>10,665</u>
Deferred tax liabilities:		
Tax over book goodwill amortization	<u>(12,684)</u>	<u>(10,665)</u>
Total deferred tax liabilities	<u>(12,684)</u>	<u>(10,665)</u>
Net deferred tax assets	<u>\$ 400</u>	<u>\$ —</u>

Amounts recognized on the balance sheet consist of:

	<u>2005</u>	<u>2004</u>
	(in thousands)	
Deferred tax asset, current	\$ 1,961	\$ —
Deferred tax liability, long term	<u>(1,561)</u>	<u>—</u>
Net deferred tax assets	<u>\$ 400</u>	<u>\$ —</u>

SFAS No. 109 "Accounting for Income Taxes" requires that we assess the realizability of deferred tax assets at each reporting period. These assessments generally consider several factors including the reversal of existing temporary differences, projected future taxable income, and potential tax planning strategies. We have reduced a portion of the valuation allowance for the deferred tax assets related to our net operating loss carryforwards (NOL's). We believe that it is more likely than not that the net deferred tax asset of \$13,084 will be realized based upon our history of profitability, estimates of future taxable income, and the carryforward life over which the tax benefits will be realized.

At December 31, 2005 the Company had \$62.6 million of federal net operating loss (NOLs) carryforwards which will expire in the years 2018 through 2024. As a result of the initial public offering completed in June of 2004, an ownership change occurred under Internal Revenue Code Section 382 which limits our ability to use pre-change NOLs to reduce future taxable income.

In previous years, the Company had treated its investment in its Canadian subsidiary as permanently reinvested under APB 23. Based on its future investment plans, the Company has determined that its investment in Canada is no longer permanent in duration and has provided for taxes on its undistributed Canadian earnings as part of its 2005 tax provision.

A reconciliation of the Company's reported income tax provision (benefit) to the amount computed by multiplying book income/(loss) before income taxes by the statutory United States federal income tax rate is as follows:

	<u>2005</u>	<u>2004</u>	<u>2003</u>
	(in thousands)		
Tax at statutory rate	\$ 5,147	\$ 3,505	\$(534)
Foreign Dividend	535	—	—
Permanent Differences	(88)	32	186
State taxes, net of federal benefit	8	3	20
Effect of foreign tax rates	4	88	64
Reduction of foreign tax reserves	—	(449)	—
	<u>5,606</u>	<u>3,179</u>	<u>(264)</u>
Change in valuation allowance	<u>(5,620)</u>	<u>(3,291)</u>	<u>675</u>
Income tax (benefit) expense	<u>\$ (14)</u>	<u>\$ (112)</u>	<u>\$ 411</u>

Taxes paid, which are for United States Federal alternative minimum tax, certain state income taxes, and Canadian taxes were \$400, \$140, and \$323 in 2005, 2004, and 2003, respectively.

Note I. Benefit Plans

The Company offers deferred compensation arrangements for certain key executives and sponsors an employees' savings and retirement plan in which certain employees are eligible to participate. Subject to their continued employment by the Company, certain employees offered supplemental pension arrangements will receive a defined monthly benefit upon attaining age 65. At December 31, 2005 and 2004, the Company has accrued \$2,752 and \$2,652, respectively, representing the present value of the future benefit payments. Expenses related to these plans amounted to \$268, \$288, and \$275 in 2005, 2004 and 2003, respectively.

Participants in the savings and retirement plan may elect to contribute a portion of their compensation to the plan. The Company, contributes an amount in cash or other property as required by the plan. Expenses related to these plans amounted to \$782, \$817, and \$784 in 2005, 2004 and 2003, respectively.

The Company also contributes to two multi-employer defined contribution and nine multi-employer defined benefit plans which cover certain union employees. Expenses related to these plans were \$500, \$483 and \$566 in 2005, 2004 and 2003, respectively.

The Company has a Long Term Incentive Plan which began in conjunction with the IPO. The maximum number of shares of common stock that may be issued and awarded under the Long-Term Incentive Plan is 1,000,000 of which 566,545 shares are outstanding as of December 31, 2005. The Long-Term Incentive Plan will terminate 10 years from the date it was adopted by our board. In most cases the options vest at the end of a three-year period from the date of the award. Options are granted with an exercise price equal to the fair market value at the date of grant.

The following table summarizes the transactions pursuant to our stock option plans for the last three years ended December 31.

	<u>Number of Shares</u>	<u>Weighted Average Exercise Price</u>
Outstanding at December 31, 2002	503.86	\$5,600.00
Granted	—	—
Exercised	—	—
Canceled	—	—
Outstanding at December 31, 2003	503.86	\$5,600.00
Granted	605,771	\$ 7.71
Exercised	(15,767)	\$ 6.34
Canceled	<u>(503.86)</u>	<u>\$5,600.00</u>
Outstanding at December 31, 2004	590,004	\$ 7.71
Granted	28,420	\$ 17.26
Exercised	(1,183)	\$ 11.50
Canceled	<u>(50,696)</u>	<u>\$ 8.27</u>
Outstanding at December 31, 2005	<u>566,545</u>	<u>\$ 8.17</u>

At December 31, 2005 and 2004, options to purchase 419,491 and 433,482 shares of common stock, respectively, were exercisable at a weighted average exercise prices of \$6.91 and \$6.39 per share, respectively.

At December 31, 2005, information for outstanding options and options currently exercisable is as follows:

	<u>Option Price Range Per Share</u>		
	<u>\$6.00-\$10.99</u>	<u>\$11.00-\$13.99</u>	<u>\$14.00-\$19.99</u>
Options outstanding			
Number of options	397,285	140,840	28,420
Weighted-average exercise price	\$ 6.34	\$ 11.50	\$ 17.26
Weighted-average contractual lives	8.42 years	8.63 years	9.14 years
Options exercisable			
Number of options	397,285	5,598	16,608
Weighted-average exercise price	\$ 6.34	\$ 11.50	\$ 19.00

At December 31, 2004, information for outstanding options and options currently exercisable is as follows:

	<u>Option Price Range Per Share</u>		
	<u>\$6.00-\$10.99</u>	<u>\$11.00-\$13.99</u>	<u>\$14.00-\$19.99</u>
Options outstanding			
Number of options	429,068	160,936	—
Weighted-average exercise price	\$ 6.34	\$ 11.50	\$ —
Weighted-average contractual lives	9.42 years	9.63 years	—
Options exercisable			
Number of options	429,068	4,414	—
Weighted-average exercise price	6.34	11.50	—

Note J. Leases and Contingencies

The Company operates parking facilities under operating leases expiring on various dates, generally prior to 2017. Certain of the leases contain options to renew at the Company's discretion.

Total future annual rent expense is not determinable due to the application of percentage factors based on revenues. At December 31, 2005, the Company's minimum rental commitments, excluding contingent rent provisions under all non-cancelable leases with remaining terms of more than one year, are as follows:

	<u>(in thousands)</u>
2006	\$ 23,751
2007	22,320
2008	16,885
2009	11,021
2010	7,855
2011 and thereafter,	23,406
	<u>\$105,238</u>

Rent expense, including contingent rents, was \$108,721, \$102,300 and \$94,105 in 2005, 2004 and 2003, respectively.

Contingent rent expense was \$66,959, \$79,892 and \$73,558 in 2005, 2004 and 2003, respectively.

Note K. Management Contracts and Related Arrangements with Affiliates

We have management contracts to operate two surface parking lots in Chicago. Steven A. Warshauer and Michael K. Wolf own membership interests in a limited liability company that is a member of the limited liability companies that own those lots. We received a total of \$39,900 in 2005, \$39,800 in 2004 and \$39,200 in 2003 under the applicable management contracts.

We entered into a management agreement with D&E Parking, Inc., a privately held company entirely owned by Ed Simmons, Executive Officer of the Company and Dale Stark, a former Senior Vice President and presently a consultant of the Company. In consideration of the services provided by D&E, we paid D&E an annual base fee of \$388,479 in 2005, \$364,600 in 2004 and \$358,000 in 2003. On December 31, 2003, we entered into an agreement to sell, at fair market value, certain contract assets to D&E. We continue to operate the parking facilities and receive management fees and reimbursement for support services in connection with the operation of the parking facilities. We received a total of \$159,287, in 2005, \$71,900 in 2004 and \$133,000 in 2003 under this arrangement

In 2005, Standard Parking provided property management services to eight separate retail shopping centers and commercial office buildings, in which D&E have a minority ownership interest. Dale Stark, a former Senior Vice President and presently a consultant of the Company, is the managing member of each of the property ownership entities. In consideration of the property management services we provided for these eight properties, we received fees totaling \$273,218 in 2005. In 2004, we operated six of these properties and received fees totaling \$161,030 for our property management services. In 2003, we operated two of these properties and received fees totaling \$9,059 for our property management services.

In 2005, our wholly owned subsidiary, Preferred Response Security Services, Inc., provided security services to a property owned by D&E. We received net fees amounting to \$17,981 for these security services. In 2005, we provided sweeping and power washing for three properties owned by D&E. For these services we received fees totaling \$26,331.

We entered into a management agreement dated as of September 19, 2000, with Circle Line Sightseeing Yachts, Inc. to manage and operate certain parking facilities located along the Hudson River and Piers located in New York City and under the control of Circle Line. Until June of 2005, Circle Line was approximately 41.25% indirectly owned by John V. Holten's immediate family. Mr. Holten was previously a Director of New York Cruise Lines, Inc., which owned all of the outstanding stock of Circle Line, from 1990 to February 2005. We received a total of \$78,900 in 2005, \$71,400 in 2004 and \$131,400 in 2003 under this arrangement. Additionally, Circle Line has the right to require us to temporarily advance to Circle Line on or before each December 31st and April 1st the anticipated net profit in increments of \$100,000 each. We made an advance of \$100,000 in 2005 which has been repaid as of December 31, 2005.

Note L. Legal Proceedings

We are subject to various claims and legal proceedings that consist principally of lease and contract disputes. We consider these claims and legal proceedings to be routine and incidental to our business, and in the opinion of management, the ultimate liability with respect to these proceedings and claims will not materially affect our financial position, operations or liquidity.

Thomas J. Moriarty, Trustee on behalf of Teamsters Local Union No. 727 Pension Fund, Teamsters Local Union No. 727 Health and Welfare Fund and Teamsters Local Union No. 727 Legal and Educational Assistance Fund, Plaintiff v. Standard Parking Corporation IL and Standard Parking Corporation, Defendants, Case No. 03C 9403, United States District Court, Northern District of Illinois, Eastern Division.

This matter was filed on December 30, 2003 by Thomas J. Moriarty, trustee, on behalf of the Teamsters Local 727 Pension, Health and Welfare, and Legal and Educational Assistance Funds. The action was brought under the Labor Management Relations Act (LMRA) and the Employee Retirement Income Security Act of 1974 (ERISA); The lawsuit seeks to recover alleged unpaid contributions to the Teamsters Local 727 benefit funds that plaintiff claims are owed under the collective bargaining agreements in effect for the period January 1, 2000 through December 31, 2002. Plaintiff seeks to recover (1) unpaid contributions; (2) interest on the alleged delinquencies; (3) liquidated damages of 20% of the unpaid contributions, or the interest relating to these contributions ("double interest"); and (4) attorneys fees and audit costs. There have been no significant procedural events in the litigation.

The plaintiff's final version of the underlying audit was not issued until August 4, 2005. The amount claimed on the audit (including interest, damages and auditors fees), is approximately \$1.64 million. The Company disputes the plaintiff's audit findings.

The Company completed its initial review of plaintiff's audit in December 2005 and delivered its findings to plaintiff's auditors for their review and response. The Company is awaiting comments from plaintiff's auditors before undertaking any additional formal discussions. No significant court deadlines exist at the present time. Substantial formal discovery is expected to begin in the second half of 2006 if the parties are unable to resolve the disputed amounts in the audit report.

Note M. Capital Leases

Property under capital leases included within equipment is as follows: (in thousands)

	December 31,	
	2005	2004
Service vehicles	\$ 9,349	\$ 8,425
Computer equipment	2,537	2,537
Parking equipment	2,057	1,698
	<u>13,943</u>	<u>12,660</u>
Less: Accumulated depreciation	7,106	5,009
	<u>\$ 6,837</u>	<u>\$ 7,651</u>

Future minimum lease payments under capital leases at December 31, 2005 together with the present value of the minimum lease payments are as follows:

2006	\$ 3,064
2007	1,456
2008	978
2009	561
2010 and thereafter	<u>811</u>
Total minimum payments	6,870
Less: Amounts representing interest	<u>(624)</u>
Present value of minimum payments	6,246
Less: Current portion	<u>(2,786)</u>
Total long-term portion	<u>\$ 3,460</u>

Note N. Goodwill and Intangible Assets

As of December 31, 2005 and 2004, the Company's finite lived intangible assets amounted to \$0 and \$56, respectively, net of accumulated amortization of \$731 and \$676, respectively, which primarily consisted of non-compete agreements amortized over their useful lives.

The change in the carrying amount of goodwill is summarized as follows: (in thousands)

	For the Year Ended	
	December 31,	
	2005	2004
Balance at beginning of year	\$ 118,342	\$ 117,390
Effect of foreign currency translation	122	308
Contingency payments related to prior acquisitions	317	644
Balance at end of year	<u>\$ 118,781</u>	<u>\$ 118,342</u>

Amortization expense for intangible assets during the year ended December 31, 2005 was \$56.

On October 3, 2004, a Consulting Agreement dated March 20, 1998 between us and Sidney Warshauer, a former owner of ours, was terminated by its terms as a result of Mr. Warshauer's death. We recorded a one-time non-cash charge to amortization expense in the fourth quarter of 2004 reflecting the write-off of the net unamortized balance of Mr. Warshauer's covenant not to compete of \$570.

Note O. Long-term Receivables

Long-term receivables, net, consist of the following:

	<u>Amount Outstanding</u>	
	<u>December 31, 2005</u>	<u>December 31, 2004</u>
	(in thousands)	
Bradley International Airport		
Guarantor payments	\$ 4,945	\$ 6,473
Other Bradley related, net	2,492	2,492
Valuation allowance	<u>(2,484)</u>	<u>(2,484)</u>
Net amount related to Bradley	4,953	6,481
Other long-term receivables, net	—	836
Total long-term receivables, net	<u>\$ 4,953</u>	<u>\$ 7,317</u>

We are entered into a 25-year agreement with the State of Connecticut that expires on April 6, 2025, under which we operate the surface parking and 3,500 garage parking spaces at Bradley International Airport located in the Hartford, Connecticut metropolitan area. The parking garage was financed on April 6, 2000 through the issuance of \$47.7 million of State of Connecticut special facility revenue bonds. The Bradley agreement provides that we deposit with a trustee for the bondholders all gross revenues collected from operations of the surface and garage parking, and from these gross revenues, the trustee pays debt service on the special facility revenue bonds, operating and capital maintenance expenses of the surface and garage parking facilities and specific annual guaranteed minimum payments to the State. Principal and interest on the Bradley special facility revenue bonds increase from approximately \$3.6 million in lease year 2002 to approximately \$4.5 million in lease year 2025. Our annual guaranteed minimum payments to the State increase from approximately \$8.3 million in lease year 2002 to approximately \$13.2 million in lease year 2024.

To the extent that monthly gross receipts are not sufficient for the trustee to make the required payments we are obligated, pursuant to our guaranty agreement, to deliver the deficiency amount to the trustee within three business days of being notified. We are responsible for these deficiency payments regardless of the amount of utilization for the Bradley parking facilities. We received repayments (net of deficiency payments) of \$1.5 million the year-ended December 31, 2005. We made deficiency payments (net of repayments) of \$2.0 million in the year-ended December 31, 2004 and \$3.3 million in the year-ended December 31, 2003.

The deficiency payments represent contingent interest bearing advances to the trustee to cover operating cash flow requirements. The payments, if any, are recorded as a receivable by us for which we are reimbursed from time to time as provided in the trust agreement. As of December 31, 2005 we have advanced to the trustee \$4.9 million, net of reimbursements. For the year ended December 31, 2005, we recorded a receivable of \$523 related to interest income on the repayments received in 2005. We believe these advances to be fully recoverable and therefore have not recorded a valuation allowance for them. We do not guarantee the payment of any principal or interest on any debt obligations of the State of Connecticut or the trustee.

We recorded \$2.7 million as a valuation allowance related to long-term receivables during the year ended December 31, 2003. The amount was sufficient to cover all net receivables related to Bradley Airport other than the deficiency payments. There was no additional allowance recorded in the period ended December 31, 2005 and 2004. It is anticipated that we will continue to reflect a valuation allowance against these receivables until the collectibility becomes more assured. In September 2004, we received payment of approximately \$0.2 million which reduced the other Bradley related amount and we reversed an equal amount of the valuation allowance.

The \$0.8 million of other long-term receivables related to a facility in Minnesota where a breakdown in negotiations to restructure the contract occurred. We recorded a valuation allowance for the amount of the receivable during 2005.

Note P. Stock Repurchase

On March 4, 2005, the Board of Directors authorized us to repurchase shares of our common stock for a value not to exceed \$6.0 million. We repurchased certain shares in open market transactions from time to time and our majority shareholder agreed in each case to sell shares equal to its pro-rata ownership at the same price paid by us in each open market purchase. On March 15, 2005, we repurchased 93,170 shares at \$15.60 per share on the open market. Our majority shareholder sold to us 99,136 shares at \$15.60 per share. The total value of the transaction was approximately \$3.0 million

During the second quarter we repurchased 43,786 shares at an average price of \$16.88 per share on the open market. Our majority shareholder sold to us 32,956 shares in the second quarter at an average price of \$16.93 per share. The total value of the second quarter transactions was \$1.3 million.

During the third quarter we repurchased 39,735 shares at an average price of \$18.17 per share on the open market. Our majority shareholder sold to us 52,921 shares in the third quarter at an average price of \$17.79 per share. The total value of the third quarter transactions was \$1.7 million. The third quarter purchases completed the repurchase program authorized by the Board of Directors on March 4, 2005.

The Company retired the total 361,704 shares it purchased during the year ended December 31, 2005.

Note Q. Domestic and foreign operations

Our business activities consist of domestic and foreign operations. Foreign operations are conducted in Canada. Revenue attributable to foreign operations were less than 10% of consolidated revenues for each of the years ended December 31, 2005, 2004 and 2003.

A summary of information about our foreign and domestic operations is as follows (in thousands):

	Year ended December 31,		
	2005	2004	2003
Total revenues, excluding reimbursement of management contract expenses:			
Domestic.....	\$245,155	\$230,561	\$213,863
Foreign.....	2,820	1,903	1,431
Consolidated.....	<u>\$247,975</u>	<u>\$232,464</u>	<u>\$215,294</u>
Operating income:			
Domestic.....	\$ 23,080	\$ 18,911	\$ 13,084
Foreign.....	508	750	505
Consolidated.....	<u>\$ 23,588</u>	<u>\$ 19,661</u>	<u>\$ 13,589</u>
Net income (loss) before minority interest and income taxes:			
Domestic.....	\$ 14,463	\$ 9,869	\$ (1,581)
Foreign.....	568	789	368
Consolidated.....	<u>\$ 15,031</u>	<u>\$ 10,658</u>	<u>\$ (1,213)</u>
Identifiable assets:			
Domestic.....	\$193,468	\$186,454	\$181,531
Foreign.....	7,885	8,648	8,054
Consolidated.....	<u>\$201,353</u>	<u>\$195,102</u>	<u>\$189,585</u>

Note R. Subsidiary Guarantors

Substantially all of the Company's direct or indirect wholly owned active domestic subsidiaries, fully, unconditionally, jointly and severally guarantee the Senior Subordinated Notes discussed in Note F. Separate financial statements of the guarantor subsidiaries are not separately presented because, in the opinion of management, such financial statements are not material to investors. The non-guarantor subsidiaries include joint ventures, wholly owned subsidiaries of the Company organized under the laws of foreign jurisdictions and inactive subsidiaries, all of which are included in the consolidated financial statements. The following is summarized combining financial information for Standard, the guarantor subsidiaries of the Company and the non-guarantor subsidiaries of the Company:

	Standard Parking Corporation	Guarantor Subsidiaries	Non-Guarantor Subsidiaries	Elimination	Total

Note S. Subsequent Event

On February 28, 2006 we entered into a fourth amendment to our Credit Agreement, pursuant to which the interest pricing of our LIBOR Margin, Base Rate Margin, and the Letter of Credit Fee rate has been reduced by 25 basis points across the entire interest rate pricing grid. The termination date was extended to December 2, 2007, the definition of Change in Control was amended and restated in its entirety and we are permitted to repurchase shares of our common stock during 2006, on the open market or through private purchases, for a value not to exceed \$6.0 million, provided that we meet certain financial tests. The covenants related to; fixed charge coverage ratio, senior debt to EBITDA ratio and the total debt to EBITDA ratio were amended and restated.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

STANDARD PARKING CORPORATION

* Filed herewith.

**CERTIFICATION PURSUANT TO SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002**

I, James A. Wilhelm, certify that:

1. I have reviewed this Form 10-K of Standard Parking Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**Certification pursuant to 18 U.S.C. Section 1350,
as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002**

In connection with the Form 10-K of Standard Parking Corporation (the "Company") for the year ended December 31, 2005, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), each of the undersigned certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that:

- 1) the Report fully complies with the requirements of Sections 13(a) or 15(d) of the Securities and Exchange Act of 1934, as amended; and
- 2) the information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
