Synthesis Energy Systems, Inc. to Report Fiscal 2017 Third Quarter Financial Results on Thursday, May 11, 2017

SES's President and CEO, and CAO, to Review Results and Provide Business Update on Conference Call Webcast at 4:15 p.m. ET

HOUSTON, April 27, 2017 (GLOBE NEWSWIRE) -- Synthesis Energy Systems, Inc. (SES) (NASDAQ:SYMX), a global leader in economic and sustainable high performance clean energy technology, will release its financial results for the fiscal 2017 third quarter ended March 31, 2017, on Thursday, May 11, 2017. SES President and Chief Executive Officer DeLome Fair and Chief Accounting Officer Scott Davis will report on financial results and provide a business update beginning at 4:15 p.m. ET on May 11.

To access the live conference call webcast, please log on to the Investor Center of the corporate website: <http://ir.synthesisenergy.com/index.cfm>. Interested parties can pre-register for the conference at: <http://dpreregister.com/10105582>. Alternatively, interested parties may participate in SES's conference call by phoning (877) 508-9602 (U.S.) or (412) 317-5113 (Int'l). Callers should request the "Synthesis Energy Systems, Inc. call."

An archived version of the SES conference call webcast will be available, beginning approximately one hour after its completion, through June 10, 2017. Interested parties can access the telephonic replay on the Investor Center of the company's website, or by phoning (877) 344-7529 (U.S.) or (412) 317-0088 (Int'l). The PIN access code for both the live call and replay is: 10105582.

About Synthesis Energy Systems, Inc.

Synthesis Energy Systems (SES) is a Houston-based technology company focused on generating clean, high-value energy from low-cost and low-grade coal, biomass and municipal solid waste through its proprietary technology for conversion of these resources into a clean synthesis gas (syngas) and methane. SES's proprietary technology enables the production of clean, low-cost power, industrial fuel gas, chemicals, fertilizers, transportation fuels, and substitute natural gas, replacing expensive natural gas-based energy. SES's technology can also produce high-purity hydrogen for cleaner transportation fuels. SES enables greater fuel flexibility for both large-scale and efficient small- to medium-scale operations close to fuel sources. Fuel sources include low-rank, low-cost high ash, high moisture coals, which are significantly cheaper than higher grade coals, waste coals, biomass, and municipal solid waste feedstocks. SES: Growth With Blue Skies. For more information, please visit: www.synthesisenergy.com.
