Synthesis Energy Systems, Inc. to Report Fiscal 2017 First Quarter Financial Results on Monday, November 14, 2016

SES's President and CEO, and CAO, to Review Results and Provide Business Update on Conference Call Webcast at 4:15 p.m. EST

HOUSTON, Oct. 25, 2016 (GLOBE NEWSWIRE) -- Synthesis Energy Systems, Inc. (SES) (NASDAQ:SYMX), the global leader in low cost, high performance clean energy gasification technology, will release its financial results for the fiscal 2017 first quarter ended September 30, 2016, on Monday, November 14, 2016. SES President and Chief Executive Officer DeLome Fair and Chief Accounting Officer Scott Davis will report on financial results and provide a business update beginning at 4:15 p.m. EST on November 14.

To access the live conference call webcast, please log on to the Investor Center of the corporate website, www.synthesisenergy.com. Interested parties can pre-register for the conference at: <http://dpreregister.com/10095691>. Alternatively, interested parties may participate in SES's conference call by phoning (877) 508-9602 (U.S.) or (412) 317-5113 (Int'l). Callers should request the "Synthesis Energy Systems, Inc. call."

An archived version of the SES conference call webcast will be available, beginning approximately one hour after its completion, through December 14, 2016. Interested parties can access the telephonic replay on the Investor Center of the company's website, or by phoning (877) 344-7529 (U.S.) or (412) 317-0088 (Int'l). The PIN access code for both the live call and replay is: 10095691.

About Synthesis Energy Systems, Inc.

Synthesis Energy Systems (SES) is a Houston-based technology company focused on bringing clean high-value energy to developing countries from low-cost and low-grade coal, biomass and municipal solid waste through its proprietary gasification technology based upon U-Gas®, licensed from the Gas Technology Institute. The SES Gasification Technology (SGT) can produce clean, low-cost syngas for power generation, industrial fuels, chemicals, fertilizers, and transportation fuels, replacing expensive natural gas based energy. SGT can also produce high-purity hydrogen for cleaner transportation fuels. SGT enables Growth With Blue Skies, and greater fuel flexibility for both large-scale and efficient small- to medium-scale operations close to fuel sources. Fuel sources include low-rank, low-cost high ash, high moisture coals, which are significantly cheaper than higher grade coals, many coal waste products, biomass, and municipal solid waste feedstocks.
