

Synaptics Appoints Rick Bergman President and CEO

Former AMD executive brings deep industry expertise and strong track record of performance

SANTA CLARA, Calif., Sept. 28, 2011 /PRNewswire/ -- Synaptics (NASDAQ: SYNA), a leading developer of human interface solutions for mobile computing, communications and entertainment devices, announced that the Board of Directors has concluded its search process and has appointed Rick Bergman, 47, as president and chief executive officer, effective immediately. Mr. Bergman succeeds Russ Knittel, who has served as interim president and CEO since October 2010. Mr. Bergman has also been appointed to the Company's board of directors.

A former executive of Advanced Micro Devices Inc. (AMD), Mr. Bergman most recently served as senior vice president and general manager of the company's products group, responsible for delivering AMD's computing platforms and managing the graphics and microprocessor product development teams.

"Rick is a visionary leader with a proven track record of driving performance to a higher level," said Francis Lee, Chairman of Synaptics' Board of Directors. "He is an ideal fit to help Synaptics further capitalize on the rapid growth of capacitive touch technology within an expanding range of markets. As senior vice president and general manager of AMD's products group, he helped generate consistent profitability across multiple business divisions while creating new strategies to improve and accelerate product delivery and product roadmap creation. With the addition of Rick's deep industry expertise and extensive product focus, Synaptics is very well-positioned to continue its culture of innovation and technological leadership."

Mr. Bergman was previously AMD's senior vice president and general manager, Graphics Product Group (GPG), from October 2006 to May 2009. During that time, the business regained top market share by leading the industry in execution and time to market. Mr. Bergman joined AMD through the acquisition of ATI Technologies in October 2006, where he served in roles as senior vice president and general manager of the PC group and of the desktop business unit. He joined ATI in January 2001 from S3 Inc., where he was chief operating officer. Over the past 15 years, he has served in a number of marketing and management roles within the technology industry, including vice president of marketing at Exponential Inc. and marketing manager at Texas Instruments, Inc. Mr. Bergman began his engineering career at IBM Corp.

"I'm extremely excited to join Synaptics at this juncture of the company's development. Synaptics is at the forefront of the industry as the innovator in its markets and is poised to benefit from a refreshed and expanded product portfolio, including the most advanced next generation touch solutions available today," stated Mr. Bergman. "I have always been impressed by Synaptics' track record of financial performance and am drawn to the tremendous talent and engineering depth across the organization. I am energized by the chance to further harness the Company's potential to capture the growing opportunities in front of it and to build on Synaptics' longstanding commitment to driving shareholder value."

Mr. Knittel will retire as an employee of Synaptics following a short transition period and will continue to serve as a member of the board of directors.

"On behalf of my fellow directors, I would like to thank Russ for serving as interim CEO and for his assistance during the transition process," added Mr. Lee. "Synaptics has made important progress under his leadership, including retooling and broadening the company's product portfolio and navigating through a product mix transition in the mobile touchscreen business. We look forward to Russ' continued contributions on the Board."

About Synaptics Incorporated
