

Synaptics to Participate in the 2012 Mobile World Congress Electronics Show

Industry Leader to Demonstrate the Latest in Capacitive Touch Solutions

SANTA CLARA, Calif., Feb. 21, 2012 /PRNewswire/ -- Synaptics Incorporated (NASDAQ: SYNA), a leading developer of human interface solutions for mobile computing, communications and entertainment devices, today announced that the company will have its latest capacitive touch solutions on display at the 2012 Mobile World Congress (MWC) show in Barcelona, Spain.

Synaptics' product demos will include the ClearPad™ Series 2, ClearPad Series 3 sensor-lens, in-cell and on-cell solutions, as well as ClearPad Series 4, the world's first integrated Touch and Display Driver IC solution. In addition, the industry leading Design Studio™ 4 (DS4) Synaptics' ClearPad development tool embedded with patented SignalClarity™ Technology, will be on display along with the ClearPad 7300, the industry's first high-performance, single-ASIC solution for the tablet market.

With more than one billion capacitive touch solutions shipped to date, Synaptics is well positioned as the "touch" industry expert with the proven system level engineering experience needed to implement advanced touch technologies across Android and other operating systems. As a Microsoft co-engineering partner, Synaptics works closely with the Windows ecosystem to develop solutions that maximize Microsoft's "Touch First" experience in Windows 8-based products for both the PC and mobile markets.

Synaptics' high-performance capacitive touch solutions will also be on display at MobileFocus Global 2012, an invitation-only media event on Monday, February 27, which will be held at the five-star Rey Juan Carlos Hotel in central Barcelona from 7:00 p.m. to 10:00 p.m. Synaptics will exhibit its latest solutions in Hospitality Suite 4.7HS39 from February 27 through March 1, by appointment. Customers and ecosystem partners are encouraged to contact their Synaptics representative to schedule a product demonstration.
