In commenting on the Company's results, Garland S. Tucker, III, President and Chief Executive Officer, stated, "We are pleased that in many ways the first quarter of 2013 represented a continuation of the positive trends we experienced during 2012. Our first quarter dividend increase was supported by a significant amount of new investment activity which took place during the last two weeks of 2012, coupled with additional investment activity in existing portfolio companies during the early part of 2013. Our portfolio credit quality remains excellent and at this point we believe our target market will continue to provide attractive investment opportunities over the balance of 2013 and well into 2014."

First Quarter 2013 Results

Total investment income during the first quarter of 2013 was \$24.5 million, compared to total investment income of \$19.1 million for the first quarter of 2012, representing an increase of 28.0%. This increase was primarily attributable to an increase in total loan interest, fee and dividend income, as well as an increase in PIK interest income. Non-recurring fee income was \$0.5 million for the three months ended March 31, 2013 as compared to \$0.4 million for the three months ended March 31, 2012.

Net investment income during the first quarter of 2013 was \$15.2 million, compared to net investment income of \$12.2 million for the first quarter of 2012, representing an increase of 24.9%. The Company's net investment income per share during the first quarter of 2013 was \$0.56 based on a weighted average share count of 27.4 million as compared to \$0.49 per share during the first quarter of 2012, based on a weighted average share count of 25.1 million.

The Company's net increase in net assets resulting from operations was \$18.4 million during the first quarter of 2013, as compared to a net increase in net assets resulting from operations of \$12.6 million during the first quarter of 2012. The Company's net increase in net assets resulting from operations was \$0.67 per share during the first quarter of 2013 based on a weighted average share count of 27.4 million, as compared to a net increase in net assets resulting from operations of \$0.50 per share during the first quarter of 2012, based on a weighted average share count of 25.1 million.

The Company's net asset value, or NAV, per share at March 31, 2013, was \$15.32 as compared to \$15.30 per share at December 31, 2012. As of March 31, 2013, the Company's weighted average yield on its outstanding, currently yielding, debt investments was approximately 14.8%.

Liquidity and Capital Resources

Commenting on the Company's liquidity position, Steven C. Lilly, Chief Financial Officer, stated, "Many of the decisions we

made during 2012 with regard to our capital structure are benefitting us today as we enjoy very attractively priced liquidity in excess of \$230 million. Our liquidity is comprised of a balanced mix of cash on hand, SBA debentures, and our senior credit facility and, in total, equates to approximately one-third of the value of our current investment portfolio."

At March 31, 2013, the Company had cash and cash equivalents totaling \$37.0 million, and no borrowings outstanding under its \$165.0 million senior credit facility.

During the first quarter of 2013, Triangle prepaid \$20.5 million in Small Business Administration ("SBA")-guaranteed debentures that bore interest at a rate of 6.44%. As of March 31, 2013, the Company had outstanding non-callable, fixed-rate SBA-guaranteed debentures totaling \$193.1 million with a weighted average interest rate of 4.07%. The Company has the ability to issue \$31.3 million in additional SBA-guaranteed debentures.

Dividend and Distribution Information

On February 27, 2013, Triangle announced that its board of directors had declared a cash dividend of \$0.54 per share, representing a 14.9% increase over the dividend the Company paid during the first quarter of 2012. This was the Company's twenty-fifth consecutive quarterly dividend since its initial public offering in February, 2007, and was the Company's fifteenth dividend increase. The dividend was payable as follows:

Record Date: March 13, 2013
Payment Date: March 27, 2013

At the time of its IPO in February, 2007, Triangle adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend, stockholders who have not opted out of the DRIP will have their cash dividends automatically reinvested in additional shares of the Company's common stock, rather than receiving cash dividends.

When the Company declares and pays dividends, it determines the allocation of the distribution between current income, accumulated income and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the dividend allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes.

Recent Portfolio Activity

During the first quarter of 2013, Triangle made debt investments in six existing portfolio companies totaling approximately \$8.5 million, and equity investments in two existing portfolio companies totaling approximately \$1.8 million. Also during the first quarter of 2013, the Company received one loan repayment at par of approximately \$5.8 million and received normal principal repayments and partial loan prepayments totaling approximately \$2.0 million. In addition, we received proceeds related to the sale of certain equity securities totaling \$1.5 million.

Subsequent to quarter-end, in May, 2013, the Company made a \$7.6 million investment in Dyno Parent LLC ("Dyno") consisting of subordinated debt and equity. Dyno is a supplier of sewing products and seasonal decorative products.
