First Quarter 2012 Results

Total investment income during the first quarter of 2012 was \$19.1 million, compared to total investment income of \$12.4 million for the first quarter of 2011, representing an increase of 53.8%. The Company's increase in investment income is primarily attributable to new portfolio investments made during 2011 and 2012 which resulted in an increase in total loan interest, fee, dividend and paid-in-kind interest income of approximately \$6.7 million.

Net investment income during the first quarter of 2012 was \$12.2 million, compared to net investment income of \$7.9 million for the first quarter of 2011, representing an increase of 54.6%. The Company's net investment income per share during the first quarter of 2012 was \$0.49 based on a weighted average share count of 25,075,300 as compared to \$0.47 during the first quarter of 2011, based on a weighted average share count of 16,848,570.

The Company's net increase in net assets resulting from operations was \$12.6 million during the first quarter of 2012, as compared to a net increase in net assets resulting from operations of \$12.4 million during the first quarter of 2011. The Company's net increase in net assets resulting from operations was \$0.50 per share during the first quarter of 2012 based on a weighted average share count of 25,075,300, as compared to a net increase in net assets resulting from operations of \$0.73 per share during the first quarter of 2011, based on a weighted average share count of 16,848,570.

Liquidity and Capital Resources

At March 31, 2012, the Company had cash and cash equivalents totaling \$142.5 million.

Commenting on the Company's liquidity position, Steven C. Lilly, Chief Financial Officer, stated, "Our ability to access the capital markets in multiple ways has been a strength for Triangle. In addition, our public offerings were well timed as we have already invested approximately 63% of the net offering proceeds, which positions us favorably as we move into the second quarter. Our liquidity at quarter-end, including funds available to us under our existing credit facility and undrawn SBA debentures, totaled approximately \$228 million, which is a very comfortable number for us."

The Company has a three-year senior secured credit facility (the "Credit Facility") with a commitment of \$75.0 million, an accordion feature which allows for an increase in the total loan size up to \$90.0 million, and contains two one-year extension options bringing the total potential funding period to five years from closing. As of March 31, 2012, the Company had no outstanding debt under the Credit Facility.

During the first quarter of 2012, Triangle pre-paid \$10.4 million in Small Business Administration ("SBA") guaranteed debentures that bore interest at a weighted average interest rate of 6.2%. As of March 31, 2012, the Company had outstanding non-callable, fixed rate SBA guaranteed debentures totaling \$213.9 million with a weighted average interest rate of 4.76%

During the first quarter of 2012, the Company completed a public offering of 4.3 million shares of common stock with net proceeds of approximately \$77.2 million.

Also during the first quarter of 2012, the Company completed an underwritten public offering of \$69.0 million in aggregate principal amount of senior unsecured notes. The notes will mature on March 15, 2019, and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after March 15, 2015. The notes bear interest at a rate of 7.00% per year payable quarterly on March 15, June 15, September 15 and December 15 of each year, beginning June 15, 2012.

Dividend and Distribution Information

On February 28, 2012, Triangle announced that its board of directors had declared a cash dividend of \$0.47 per share. This was the Company's twenty-first consecutive quarterly dividend since its initial public offering in February, 2007. The dividend was payable as follows:

Record Date: March 14, 2012

Payment Date: March 28, 2012

At the time of its IPO in February, 2007, Triangle adopted a dividend reinvestment plan ("DRIP") that provides for reinvestment of dividends on behalf of its stockholders, unless a stockholder elects to receive cash. As a result, when the Company declares a cash dividend, stockholders who have not opted out of the DRIP will have their cash dividends automatically reinvested in additional shares of the Company's common stock, rather than receiving cash dividends.

When the Company declares and pays dividends, it determines the allocation of the distribution between current income, accumulated income and return of capital on the basis of accounting principles generally accepted in the United States ("GAAP"). At each year end, the Company is required for tax purposes to determine the dividend allocation based on tax accounting principles. Due to differences between GAAP and tax accounting principles, the portion of each dividend distribution that is ordinary income, capital gain or return of capital may differ for GAAP and tax purposes.

Recent Portfolio Activity

During the first quarter of 2012, Triangle made four new investments totaling approximately \$41.0 million, two debt investments in existing portfolio companies totaling approximately \$0.8 million, and one equity investment in an existing portfolio company of approximately \$0.2 million. During the first quarter of 2012, the Company received two loan repayments at par totaling approximately \$6.7 million and received normal principal repayments and partial loan prepayments totaling approximately \$1.6 million.

New investment transactions which occurred during the first quarter of 2012 are summarized as follows:

Stella, formerly a division of Sprint Logistics, is the leading operator of waste transfer stations and disposal logistics in the Houston area for municipal solid waste.
