Forward-Looking Statements

Certain statements in this communication may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, including statements regarding Tech Data’s plans, objectives, expectations and intentions, Tech Data’s financial results and estimates and/or business prospects, involve a number of risks and uncertainties and actual results could differ materially from those projected. These forward looking statements are based on current expectations, estimates, forecasts, and projections about the operating environment, economies and markets in which Tech Data operates and the beliefs and assumptions of our management. Words such as “expects,” “anticipates,” “targets,” “goals,” “projects,” “intends,” “plans,” “believes,” “seeks,” “estimates,” variations of such words, and similar expressions are intended to identify such forward looking statements. In addition, any statements that refer to Tech Data’s future financial performance, our anticipated growth and trends in our businesses, and other characterizations of future events or circumstances, are forward looking statements. These forward looking statements are only predictions and are subject to risks, uncertainties, and assumptions. Therefore, actual results may differ materially and adversely from those expressed in any forward looking statements.

For additional information with respect to important risks and other factors that could cause actual results to differ materially from those in the forward-looking statements, see Tech Data’s Annual Report on Form 10-K for the year ended January 31, 2017, including Part I, Item 1A, “Risk Factors” therein, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and other securities filings with the Securities and Exchange Commission (the “SEC”) that are available at the SEC’s website at www.sec.gov and other securities regulators. Readers are cautioned not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. Many of these factors are beyond Tech Data’s control. Unless otherwise required by applicable securities laws, Tech Data disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Tech Data undertakes no duty to update any forward looking statements contained herein to reflect actual results or changes in Tech Data’s expectations.

Use of Non-GAAP Financial Information

This document includes financial results prepared in accordance with generally accepted accounting principles (“GAAP”). In addition to GAAP results, Tech Data management believes that the presentation of non-GAAP financial measures is useful to investors because it provides investors with a more complete understanding of our operational results and a meaningful comparison of our performance between periods. The non-GAAP results and outlook should only be used in conjunction with results reported in accordance with GAAP and are not intended to be a substitute for results reported in accordance with GAAP. Non-GAAP financial measures presented in this presentation or other presentations, press releases and similar documents issued by Tech Data, include but are not limited to sales, income or expense items as adjusted for the impact of changes in foreign currencies (referred to as “constant currency”), non-GAAP selling, general and administrative expenses (“SG&A”), non-GAAP operating income, non-GAAP operating margin, non-GAAP net income, non-GAAP earnings per diluted share and Adjusted Return on Invested Capital. These non-GAAP financial measures do not have any standardized meaning and are therefore unlikely to be comparable to similar measures presented by comparable companies. Management may also use these non-GAAP financial measures to establish operational goals and, in some cases, for measuring performance for compensation purposes. This presentation provides a detailed reconciliation between results reported in accordance with GAAP and non-GAAP financial measures.

New Revenue Recognition Standard – ASC 606

Tech Data will adopt the new revenue recognition standard (ASC 606) for the period ended April 30, 2018 (Q1 FY19) on a full retrospective basis.

New revenue recognition standard will be effective for Tech Data beginning in Q1 FY19.

Evaluation of revenue recognition changes will be completed during Q4 FY18.

The Company is finalizing its conclusions on several aspects of the standard, including principal versus agent considerations, which would change reported net sales and margin percentages, but would not change reported gross profit dollars or operating income dollars.

Under the full retrospective application, all periods presented would be modified.
