About Textainer Group Holdings Limited

Textainer has operated since 1979 and is the world's largest lessor of intermodal containers based on fleet size. We have a total of 1.5 million containers, representing over 2.2 million twenty-foot equivalent units (TEU), in our owned and managed fleet. We lease containers to more than 400 shipping lines and other lessees, including each of the world's top 20 container lines, as measured by the total TEU capacity of their container vessels. We believe we are one of the most reliable lessors of containers, in terms of consistently being able to supply containers in locations where our customers need them. We have provided an average of 96,000 TEU of new containers per year for the past 10 years and have been one of the largest purchasers of new containers among container lessors over the same period. We are one of the largest sellers of used containers among container lessors, having sold more than 100,000 containers during the last year to more than 1,000 customers. We provide our services worldwide via a network of regional and area offices and independent depots.
