About Non-GAAP Financial Measures

Adjusted EBITDA and Normalized Adjusted EBITDA are supplemental financial measures not defined under Generally Accepted Accounting Principles (GAAP). We define Adjusted EBITDA as net income (loss) before interest expense, income taxes, depreciation and amortization, impairment loss on goodwill and other intangibles, stock-based compensation, and provision for bad debts. We present Adjusted EBITDA because we believe this supplemental measure of operating performance is helpful in comparing our operating results across reporting periods on a consistent basis by excluding non-cash items that may, or could,

have a disproportionate positive or negative impact on our results of operations in any particular period. We also use Adjusted EBITDA as a factor in evaluating the performance of certain management personnel when determining incentive compensation.

We define Normalized Adjusted EBITDA as Adjusted EBITDA before restructuring charges, acquisition expenses and certain other costs. We present Normalized Adjusted EBITDA because we believe it is helpful in comparing our operating results across reporting periods on a consistent basis by excluding from Adjusted EBITDA certain items that do not directly correlate to our business and may, or could, have a disproportionate positive or negative impact on our performance during a particular period. Similar to Adjusted EBITDA, we also use Normalized Adjusted EBITDA as a factor in evaluating the performance of certain management personnel when determining incentive compensation.

Adjusted EBITDA and Normalized Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies. Adjusted EBITDA and Normalized Adjusted EBITDA, while providing useful information, should not be considered in isolation or as an alternative to net income or cash flows as determined under GAAP. Consistent with Regulation G under the U.S. federal securities laws, Adjusted EBITDA and Normalized Adjusted EBITDA have been reconciled to the nearest GAAP measure, and this reconciliation is located under the heading "Normalized Adjusted EBITDA Reconciliation" following the Consolidated Statements of Operations included in this press release.

Forward Looking Statements

This press release may contain "forward-looking statements" -- that is, statements related to future -- not past -- events, plans, and prospects. In this context, forward-looking statements may address matters such as our expected future business and financial performance, and often contain words such as "guidance," "expects," "anticipates," "intends," "plans," "believes," "seeks," "should," or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Particular uncertainties that could adversely or positively affect the Company's future results include: our independent registered public accounting firm's report on our 2014 financial statements contains an explanatory statement about our ability to continue as a going concern; we may not have sufficient resources to fund our business and may need to issue additional debt or equity to obtain additional funding; our reliance on a significant portion of our revenues from a limited number of customers; risks relating to operating in a highly competitive industry; risks relating to the failure to maintain effective internal control over financial reporting; risks relating to rapid technological, structural, and competitive changes affecting the industries we serve; risks involved in properly managing complex projects; risks relating the possible cancellation of customer contracts on short notice; risks relating our ability to continue to implement our strategy, including having sufficient financial resources to carry out that strategy; risks relating to our ability to meet all of the terms and conditions of our debt obligations; uncertainty related to current economic conditions and the related impact on demand for our services; and other risks and uncertainties disclosed in our filings with the Securities and Exchange Commission, including the Annual Report on Form 10-K for the fiscal year ended December 31, 2014. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.
