

We are Qorvo®

Core RF Solutions

Qorvo makes a better world possible by providing innovative RF solutions at the center of connectivity. We combine product and technology leadership, systems-level expertise and global manufacturing scale to quickly solve our customers' most complex technical challenges. Qorvo serves diverse high-growth segments of large global markets, and leverages unique competitive strengths to advance 5G networks, IoT, cloud computing and other emerging applications that connect people, places and things.

Qorvo At-A-Glance

- 8,000+ global employees
- Trailing 12-month revenue of ~\$3 billion
- Nasdaq: QRVO
- Radio frequency (RF) technologies for everything that connects the world
- Offering competitive advantages in manufacturing, product leadership, engineering, customer relationships
- Providing solutions for 3 key markets: mobile, infrastructure & defense

Centered on Customers

Drawing on more than 30 years of design expertise, Qorvo offers the core technologies for the RF products all around you. Our products and strategic foundry services help you shape and launch your most powerful new ideas for a broad range of mobile, infrastructure and defense applications.

Technology at Our Core

Qorvo's success is driven in part by our innovation and deep expertise in design, multiple semiconductor processes, advanced packaging and systems-level expertise. Our engineers match the appropriate technologies to each Qorvo product according to the best possible combination of price, performance and size. We call it Optimum Technology Matching®.

Key Applications Automotive | Cellular and Pre-5G Networks | CATV Networks | Customer Premise Equipment (Wi-Fi Access Points and Smart Meters) | Defense & Aerospace | Gateways/Set-Top Boxes | IoT (Internet of Things) | Mobile Devices | Optical Networks | Radar | Satellites

Key Products Amplifiers | Communication SoCs (Systems on a Chip) | Control Products | Discrete Components | Filters & Duplexers | Frequency Converters | Integrated Modules | Optical Components | Oscillators | RF Fusion™ and RF Flex™ Integrated Modules | Switches | Transistors and ICs

Our robust technology portfolio enables Qorvo to best deliver a variety of integrated modules.

Manufacturing Scale

Support large customers with high-volume manufacturing expertise

Product Leadership

Design and build high-value RF solutions to stringent customer demands

Systems Knowledge

Diverse engineering expertise spanning process, product and packaging technologies

Customer Relationships

Trusted supplier capable of solving customers' largest RF challenges
