Street Name Holders . If you hold your shares in an account at a brokerage firm, bank, broker-dealer, or other similar organization, then you are the beneficial owner of shares held in “street name.” The proxy materials, including the Proxy Statement and voting instruction card, were forwarded to you by the organization holding your account, who is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct that organization on how to vote the shares held in your account.

If the bank, broker or organization that holds your shares does not have discretion to votes shares held in street name on a particular proposal and does not receive voting instructions on how to vote those shares, the bank, broker or other organization may return the proxy card without voting on that proposal. This is generally referred to as a “broker non-vote.” Your bank or broker generally may vote without instructions on routine matters such as the election of directors and the ratification of our independent registered public accounting firm. Your bank or broker generally may not vote without instructions on non-routine matters such as amendments to our employee stock plan.

All shares that have been voted properly by an unrevoked proxy will be voted at the Annual Meeting in accordance with your instructions. If you sign your proxy card, but do not give voting instructions, the shares represented by that proxy will be voted as our board of directors recommends.

If any other matters are brought properly before the Annual Meeting, the persons named as proxies in the enclosed proxy card will have the discretion to vote on those matters for you. As of the date of this Proxy Statement, we did not know of any other matter to be raised at the Annual Meeting.

QUORUM

A quorum is constituted by the presence, in person or by proxy, of holders of our common stock representing a majority of the aggregate number of shares of common stock entitled to vote. Annual Fee:	\$50,000 per director.
Initial Equity Grant:	Options to purchase 30,000 shares of our common stock upon becoming a director. The grant vests in three equal annual installments commencing on the first anniversary of the grant date, subject to the director's continued service on the board.
Annual Equity Grant:	Restricted common stock equal to a fixed dollar value of \$135,000 is granted each year on the date of our Annual Meeting. This grant vests on the day of the following Annual Meeting, subject to the director's continued service on the board.

Directors are eligible to participate in the Directors' Deferred Compensation Plan, a non-qualified retirement plan. The Directors' Deferred Compensation Plan allows our non-employee directors to elect to defer between zero and 100% of the fees they would otherwise be entitled to receive in cash for services rendered as directors. Amounts deferred under the Directors' Deferred Compensation Plan are general liabilities of ours and are represented by bookkeeping accounts maintained on behalf of the participants. Such accounts are deemed to be invested in share units that track the value of our common stock. Distributions will generally be made to a participant either following the end of the participant's service on our board of directors, following a change of control if so elected, or at a specified time elected by the participant prior to the deferral. Distributions will generally be made in the form of shares of our common stock. Our Directors' Deferred Compensation Plan is intended to comply with Section 409A of the Internal Revenue Code.

Our stock ownership and retention program requires non-employee members of our board of directors to own shares equal in value to four times their annual retainer. Directors are expected to attain the required share ownership level within five years from joining our board of directors.

The following table sets forth our non-management directors' compensation for 2008.

A representative of PwC will attend the Annual Meeting to respond to appropriate questions and to make a statement if he or she desires to do so.

Our board of directors recommends that you vote *FOR* the Proposal to ratify the selection of PwC as our independent registered public accounting firm for fiscal 2009.

**PROPOSAL THREE:
PROPOSAL TO APPROVE AN AMENDMENT TO OUR EXISTING INCENTIVE AWARD PLAN TO ALLOW
FOR A ONE-TIME STOCK OPTION EXCHANGE PROGRAM FOR EMPLOYEES OTHER THAN OUR
DIRECTORS AND EXECUTIVE OFFICERS**

Introduction

On April 28, 2009, our board of directors, upon recommendation by our Compensation Committee, authorized amendments to our Second Amended and Restated 2005 Incentive Award Plan to allow for a one-time stock option exchange program. If implemented, the exchange program will allow us to cancel certain stock options currently held by some of our employees in exchange for the grant of a lesser amount of stock options with lower exercise prices. The shares subject to the cancelled stock options will not be available for reissuance. Exchange ratios will be designed to result in a fair value of the replacement options to be granted that will be approximately equal to the fair value of the options that are surrendered. We will use the 52-week high trading price of our common stock (measured from the start date of the exchange program) as a threshold for options eligible to be exchanged. In other words, only options with exercise prices above the 52-week high trading price will be eligible for the exchange. The use of this threshold is intended to ensure that only outstanding options that are substantially “underwater” are eligible for the exchange program. “Underwater” options are those options with exercise prices that are greater than our current stock price. Our executive officers and directors will not be eligible to participate in the exchange program. Stockholder approval is required for the amendment to the incentive award plan under the NASDAQ listing rules. If DealerTrack stockholders approve this proposal to amend our existing incentive award plan, the board intends to commence the exchange program as soon as practicable after the annual meeting. If DealerTrack stockholders do not approve this proposal, the exchange program will not take place.

Background

Our stock price has experienced a significant decline due in large part to the continued weak economy as well as other factors related specifically to the retail automotive industry and indirect automotive finance industry. DealerTrack may continue to be adversely impacted by the current economic climate. Despite our significant efforts to continue our annual growth and maintain our company’s performance in this environment, our stock price remains at a relatively low level compared to its historical performance. Consequently, our employees hold a significant number of stock options with exercise prices that greatly exceed both the current market price of DealerTrack common stock and the average market price of our stock over the prior twelve months. Further, there can be no assurance that our efforts to maintain and grow our business and improve our performance will ultimately result in significant increases in our stock price in the near-term, if at all. Thus, the board and the Compensation Committee believe these underwater options no longer provide the long-term incentive and retention objectives that they were intended to provide. The board and the Compensation Committee believe the exchange program is an important component in our strategy to align employee and stockholder interests through our equity compensation programs. We believe that the exchange program is important for DealerTrack because it will permit us to:

- *Provide renewed incentives to our employees who participate in the exchange program* . As of April 1, 2009, approximately 61.7% of our outstanding stock options granted to employees who would be eligible to participate in the exchange (not including those granted to executive officers or directors, who are not eligible to participate in the exchange) were underwater. Approximately 44.8 % of our total outstanding stock options (including those granted to executive officers and directors, who are not eligible to participate in the exchange) were underwater. The weighted average exercise price of all of our underwater options, including those granted to executive officers and directors, was \$26.04 on April 1, 2009, as compared with a \$13.75 closing price of our common stock on that date. As a result, we believe our outstanding stock options do not currently provide meaningful retention or incentive value to our employees.

As of April 1, 2009, approximately 913,000 options, or approximately 43% of the outstanding stock options held by eligible employees (which is approximately 18.3% of our total outstanding options), had exercise prices higher than our stock’s 52 week high trading price of \$22.72, which would make them eligible to be exchanged for a smaller number of options with a lower exercise price.. We believe the exchange program will enable us to enhance long-term stockholder value by providing greater assurance that DealerTrack will be able to retain experienced and productive employees by improving the morale of our employees generally and by aligning the interests of our employees more fully with the interests of our stockholders.

Table of Contents

- *Meaningfully reduce our total number of outstanding stock options, or “overhang,” represented by outstanding options that have high exercise prices and may no longer provide adequate incentives to our employees . Overhang is equity awards outstanding but not exercised, plus equity awards available to be granted, divided by total common shares outstanding at the end of the year. Our existing outstanding stock options currently create an equity award overhang to our stockholders of approximately 13.6%. As of April 1, 2009, the total number of shares of DealerTrack common stock outstanding was approximately 40 million, the number of equity awards outstanding was 5,002,623, and the number of shares eligible for equity awards was 436,797. Keeping underwater options outstanding maintains this overhang, does not serve the interests of our stockholders and does not provide the benefits intended by our equity compensation program. If all options eligible for exchange were to be exchanged, our overhang would decrease to approximately 12.6%, a decrease of 7.4%. The overhang represented by the options granted pursuant to the exchange program is intended to reflect an appropriate balance between DealerTrack’s goals for its equity incentive program and our interest in minimizing our overhang and the dilution of our stockholders’ interests.*
- *Recapture value from compensation costs that we already are incurring with respect to outstanding underwater stock options . These options were granted at the then fair market value of our common stock. Under applicable accounting rules, we will have to recognize a total of approximately \$11.1 million in compensation expense related to underwater options that would be eligible for the exchange, \$4.8 million of which has already been expensed as of April 1, 2009 and \$6.3 million of which we will continue to be obligated to expense, even if these options are never exercised because they remain underwater. We believe it is not an efficient use of DealerTrack’s resources to recognize compensation expense on options that are not perceived by our employees as providing value. By replacing those options that have little or no retention or incentive value that will be eligible for exchange with options that will provide both retention and incentive value while not creating additional compensation expense (other than immaterial expense that might result from fluctuations in our stock price after the exchange ratios have been set but before the exchange actually occurs), DealerTrack will be making more efficient use of its resources.*

If our stockholders do not approve the incentive award plan amendment authorizing the exchange program, eligible options will remain outstanding and in effect in accordance with their existing terms. We will continue to recognize compensation expense for these eligible options, even though these options have little or no retention or incentive value.

Summary of Material Terms

If stockholders approve the requisite amendments to our existing incentive award plan, the material terms of the exchange program will include eligibility, the exchange ratios to be applied to eligible options and the vesting schedule to apply to replacement options granted pursuant to the exchange program. These terms are summarized here and described in further detail below.

- The exchange program will be open to all employees, except as described below, who are employed by us as of the start of the exchange program and remain employees through the date the exchange program ends. Eligible employees will be required to elect to exchange either all or none of their eligible options for replacement options.
- The members of our board and our executive officers will not be eligible to participate in the exchange program.

Table of Contents

- The exchange ratios of shares subject to eligible options surrendered in exchange for replacement options granted will be determined in a manner intended to result in the grant of replacement options that have a fair value approximately equal to the fair value of the eligible options they replace. The exchange ratios will be established shortly before the start of the exchange program and will depend on the original exercise price of the eligible option and the then-current fair value of the option (calculated using the Black-Scholes option pricing model). The exchange program will not be a one-for-one exchange. Instead, participating employees will receive replacement options covering a lesser numbers of shares (with a lower exercise price) than are covered by the surrendered eligible options.
- Each replacement option will have an exercise price per share equal to the closing price of our common stock on the date of grant and will have a new term equal to the weighted average remaining life of the options eligible for exchange.
- None of the replacement options will be vested on the date of grant. The replacement options will be scheduled to vest as follows: 25% six months from the replacement option grant date, 25% twelve months from the replacement option grant date, and 1/24 of the remaining options each month thereafter.
- The exchange program will begin within twelve months of the date of stockholder approval. The board and the Compensation Committee will determine the actual start date within that time period. If the exchange program does not commence within twelve months of stockholder approval, we will consider any future exchange or similar program to be a new one, requiring new stockholder approval before it could be implemented.

While the terms of the option exchange program are expected to be materially similar to the terms described in this proposal, the board and the Compensation Committee may change the terms of the exchange program in their sole discretion to take into account a change in circumstances, as described below, and may determine not to implement the exchange program even if stockholder approval is obtained.

Reasons for the Option Exchange Program

We believe that an effective and competitive employee incentive program is imperative for the success of our business. We rely on our experienced and productive employees and their efforts to help DealerTrack achieve its business objectives. At DealerTrack, stock options constitute a key component of our incentive and retention programs. The board and the Compensation Committee believe that equity compensation enhances our ability to attract and retain employees, further align employee and stockholder interests, continue to link employee compensation with Company performance and maintain a culture of ownership.

Due to the significant decline of our stock price, many of our employees now hold stock options with exercise prices significantly higher than the current market price of our common stock. For example, the closing price of our common stock on NASDAQ on April 1, 2009 was \$13.75, whereas, the weighted average exercise price of all outstanding options held by our employees was \$15.91. As of April 1, 2009, approximately 61.7% of the outstanding stock options held by our non-executive employees (or 44.8% of our total outstanding stock options) were underwater. Approximately 43% of the outstanding stock options held by our non-executive employees (or 18.3% of our total outstanding stock options) have exercise prices above our stock's 52 week high, which would make them eligible to be exchanged in the exchange program. Although we continue to believe that stock options are an important component of our employees' total compensation, many of our employees view their existing options as having little or no value due to the significant difference between the exercise prices and the current market price of our common stock. As a result, for many employees, these options are ineffective at providing the incentives and retention value that our board and the Compensation Committee believe is necessary to motivate and retain our employees.

Alternatives Considered

When considering how best to continue to incentivize and reward our employees who have underwater options, we considered the following alternatives:

- *Increase cash compensation.* To replace equity incentives, we considered whether we could substantially increase base and target bonus cash compensation. However, significant increases in cash compensation would substantially increase our compensation expenses and reduce our cash flow from operations, which could adversely affect our business and operating results. In addition, these increases would not reduce our overhang.

Table of Contents

- *Grant additional equity awards.* We also considered special grants of additional stock options at current market prices or another form of equity award such as restricted stock units. However, these additional grants would substantially increase our overhang, as well as the dilution to our stockholders, and increase our compensation expenses.
- *Exchange options for cash.* We also considered implementing a program to exchange underwater options for cash payments. However, an exchange program for cash would increase our compensation expenses and reduce our cash flow from operations, which could adversely affect our business and operating results. In addition, we do not believe that such a program would have significant long-term retention value.
- *Exchange options for restricted stock units.* We also considered implementing a program to exchange underwater options for restricted stock units. However, in order to ensure that the exchange program is approximately expense-neutral from an accounting perspective, the exchange ratios for an options-for-restricted stock units exchange program would need to be substantially higher than for an options-for-options exchange program (*i.e.* , fewer replacement awards granted). Thus, we believe that employee participation in an options-for-restricted stock units exchange program would be lower than with an options-for-options exchange program. Additionally, restricted stock units would be a new form of equity for many of our employees and we believe that a lack of familiarity with restricted stock units could negatively impact employee participation in the exchange program.

Implementation of the Option Exchange Program

We determined that a program under which our employees could exchange underwater stock options with higher exercise prices for a lesser number of replacement stock options with a lower exercise price was the most attractive alternative for a number of reasons, including the following:

- *The option exchange program offers a reasonable, balanced and meaningful incentive for our eligible employees.* Under the exchange program, participating employees will surrender eligible underwater options for replacement options covering fewer shares with a lower exercise price and that will vest as follows: 25% six months from the replacement option grant date, 25% twelve months from the replacement option grant date, and 1/24 of the remaining options each month thereafter, subject to continued employment on each vesting date.
- *The exchange ratio will be calculated to return value to our stockholders.* We will calculate the exchange ratios to result in a fair value, for accounting purposes, of the replacement options that will be approximately equal to the fair value of the eligible options that are exchanged, which we believe will have no significant adverse impact on our reported earnings. We believe the combination of fewer shares subject to options with lower exercise prices, no expected significant adverse impact on our reported earnings, and a new vesting schedule, represents a reasonable and balanced exchange program with the potential for a significant positive impact on employee retention, motivation and performance. Additionally, stock options will provide value to employees only if DealerTrack's share price increases over time, aligning employee and stockholder interests.
- *The option exchange program will reduce our equity award overhang.* Not only do the underwater options have little or no retention value, but they cannot be removed from our equity award overhang until they are exercised. Our exchange program will reduce our overhang while eliminating ineffective options that are currently outstanding. Because employees who participate in the exchange program will receive a lesser number of replacement options in exchange for their surrendered eligible options, the number of shares of stock subject to all outstanding equity awards will be reduced, reducing our overhang. Based on the assumptions described below, if all eligible options are exchanged, options to purchase approximately 913,091 shares will be surrendered and cancelled, while replacement options covering approximately 512,644 shares will be granted, resulting in a net reduction in the equity award

overhang by approximately 400,447 shares, a decrease of 7.4%. The options that are exchanged for replacement options will be cancelled and will not be available for reissuance pursuant to the incentive plan. Following the exchange, if all eligible options were exchanged, the total number of shares subject to outstanding equity awards as of April 1, 2009 (including non-exchangeable options held by executive officers would be approximately 4.6 million shares, taking into account the net reduction of outstanding shares described in the previous sentence. As of April 1, 2009, the total number of shares of DealerTrack common stock outstanding was approximately 40 million. All eligible options that are not exchanged will remain outstanding and in effect in accordance with their existing terms.

- *Members of our board and our executive officers will not be eligible to participate in the exchange program.* Although our directors and executive officers also hold options that are significantly underwater, these individuals are not eligible to participate in the exchange program because we believe that their compensation should remain at greater risk based on our stock price.

Description of the Option Exchange Program

Implementing the Exchange Program. We have not commenced the exchange program and will not do so unless our stockholders approve this proposal. If we receive stockholder approval of the incentive award plan amendment permitting the exchange program, the exchange program may commence at a time determined by the board or the Compensation Committee, with terms expected to be materially similar to those described in this proposal. If we receive the required stockholder approval for the plan amendments, the approval will be for a one-time exchange program. Even if the stockholders approve this proposal, the board or the Compensation Committee may still later determine not to implement the exchange program. It is currently anticipated that the exchange program will commence as soon as practicable following approval of this proposal by our stockholders. However, if the exchange program does not commence within twelve months after the date of stockholder approval, DealerTrack will not commence an exchange or similar program without again seeking and receiving stockholder approval.

Upon commencement of the exchange program, employees holding eligible options would receive written materials (the “offer to exchange”) explaining the precise terms and timing of the exchange program. Employees would be given at least 20 business days (or such longer period as we may elect to keep the exchange program open) to elect to exchange all or none of their eligible options for replacement options. After the offer to exchange is closed, the eligible options surrendered for exchange would be cancelled and the Compensation Committee would approve grants of replacement options to participating employees in accordance with the applicable exchange ratios. The cancelled options would not be available for reissuance pursuant to the incentive plan. All such replacement options would be granted under the Second Amended and Restated 2005 Incentive Award Plan (or, if Proposal Four receives stockholder approval, the Third Amended and Restated 2005 Incentive Award Plan) and would be subject to the terms of the plan.

At or before commencement of the exchange program, we would file the offer to exchange and other related documents with the SEC as part of a tender offer statement on Schedule TO. Employees, as well as stockholders and members of the public, will be able to access the offer to exchange and other documents we file with the SEC free of charge from the SEC’s web site at www.sec.gov or on our Investor Relations web site at <http://ir.DealerTrack.com>.

If you are both a stockholder and an employee holding eligible options, please note that voting to approve the incentive award plan amendment authorizing the exchange program does not constitute an election to participate in the exchange program.

Eligible Options. To be eligible for exchange under the exchange program, an underwater option, as of a date specified by the terms of the offer to exchange (which date will be not more than 20 business days prior to the date that the exchange program commences), must not (i) have a per share exercise price at or below the 52-week high trading price of our common stock as reported by NASDAQ at such time or (ii) have been granted within 12 months of the date that the exchange program commences.

Table of Contents

Eligible Participants. The exchange program would be open to all employees who hold eligible options, except as described below. Although DealerTrack intends to include all employees located outside the United States, the Company may exclude such employees if, for any reason, the Compensation Committee believes that their participation would be illegal, inadvisable or impractical. To be eligible, an individual must be employed on the date the offer to exchange commences and must remain employed through the date that replacement options are granted. The exchange program would not be open to members of our board or our executive officers. As of April 1, 2009, there were approximately 642 employees eligible to participate in the option exchange program (based on the assumptions below).

Exchange Ratios. Exchange ratios would be designed to result in a fair value, for accounting purposes, of the replacement options that will be approximately equal to the fair value of the eligible options that are surrendered in the exchange (based on valuation assumptions made when the offer to exchange commences). These ratios will be designed to make the grant of replacement options accounting expense neutral. The actual exchange ratios would be determined by the Compensation Committee shortly before the start of the exchange program.

The exchange ratios will be established by grouping together eligible options with similar exercise prices and assigning an appropriate exchange ratio to each grouping. These exchange ratios will be based on the fair value of the eligible options (calculated using the Black-Scholes model of option pricing) within the relevant grouping. The calculation of fair value using Black-Scholes takes into account many variables, such as the volatility of our stock and the expected term of an option. As a result, the exchange ratios do not necessarily increase as the exercise price of the option increases. Setting the exchange ratios in this manner is intended to result in the issuance of replacement options that have a fair value approximately equal to or less than the fair value of the surrendered eligible options they replace. This will limit the additional compensation cost that we must recognize on the replacement options to the immaterial compensation expense that might result from fluctuations in our stock price after the exchange ratios have been set but before the exchange actually occurs. For instance, eligible options with exercise prices from \$22.72 to \$31.75 per share might have an exchange ratio of 1.65 eligible option shares for each replacement option share to be received in exchange, while eligible option with exercise prices from \$31.76 to \$38.00 per share might have an exchange ratio of 1.90 eligible option shares for each replacement option share to be received in exchange.

Although the exchange ratios cannot be determined now, we can provide an example if we make certain assumptions regarding the start date of the offer to exchange, the fair value of the eligible options, and the fair market value of our common stock. For illustration purposes, assume we were to begin the exchange program on April 1, 2009, which would allow us to include in the exchange program a substantial percentage of our outstanding underwater options, and assume that our then-applicable 52-week high would be \$22.72. As a result, options with an exercise price above \$22.72 per share and that were granted at least 12 months prior to April 1, 2009 would be eligible for the exchange program. If, at the time we set the exchange ratios, the fair market value of our common stock was \$13.75 per share, then based on the above method of determining the exchange ratio, the following exchange ratios would apply:

If the Exercise Price of an Eligible Option Is	The Exchange Ratio Would Be (Eligible Option to Replacement Option):	Exchange Eligible Option Shares Outstanding	Weighted Average Remaining Life	Weighted Average Exercise Price	Replacement Option Shares
\$22.72 to \$31.75	1.65 to 1	721,191	6.51 years	\$ 25.69	437,085
\$31.76 to \$38.00	1.90 to 1	38,750	6.96 years	\$ 32.93	20,395
\$38.01 to \$47.97	2.65 to 1	126,750	5.31 years	\$ 38.20	47,830
\$47.98 and Above	3.60 to 1	<u>26,400</u>	5.60 years	\$ 47.98	<u>7,333</u>
Total		<u>913,091</u>	6.33 years		<u>512,644</u>

The foregoing exchange ratios are provided merely as an example of how we would determine the exchange ratios if we were commencing the exchange offer based on a \$13.75 share price. We will apply the same methodology once these factors are decided closer to the time of commencement of the exchange program. The number of options eligible to be exchanged as of the date the program starts will increase from the number that would be eligible if the exchange started on April 1, 2009 to the extent

our 52 week high stock price decreases following the date hereof. The total number of replacement options a participating employee will receive with respect to a surrendered eligible option will be determined by converting the number of shares underlying the surrendered eligible option according to the applicable exchange ratio and rounding down to the nearest whole share. The exchange ratios will be applied on a grant-by-grant basis.

For purposes of example only, if a participating employee exchanged eligible options to purchase 1,000 shares with an exercise price of \$35.00 per share and the exchange ratio was one replacement option for every 1.90 surrendered eligible option shares, the employee would receive options to purchase 526 shares in exchange for the surrendered eligible options (1,000 divided by 1.90).

Table of Contents

Election to Participate. Participation in the exchange program will be voluntary. Eligible employees will be required to elect to exchange all or none of their eligible options for replacement options.

Exercise Price of Replacement Options. All replacement options will be granted with an exercise price equal to the closing price of our common stock on the replacement option grant date as reported by NASDAQ.

Vesting of Replacement Options. The replacement options will vest 25% six months from the replacement option grant date, 25% twelve months from the replacement option grant date, and 1/24 of the remaining options each month thereafter.

Term of the Replacement Options. The replacement options will have a term equal to the weighted average remaining life of the options eligible for exchange.

Other Terms and Conditions of the Replacement Options. The other terms and conditions of the replacement options will be set forth in an option agreement to be entered into as of the replacement option grant date. Any additional terms and conditions will be comparable to the other terms and conditions of the eligible options. All replacement options will be nonstatutory stock options granted under our Second Amended and Restated 2005 Incentive Award Plan (or, if Proposal Four receives stockholder approval, the Third Amended and Restated 2005 Incentive Award Plan).

Return of Eligible Options Surrendered. The eligible options surrendered for exchange will be cancelled and will not be available for reissuance under future grants.

Accounting Treatment. Under SFAS 123(R), the exchange of options under the option exchange program is treated as a modification of the existing options for accounting purposes. The incremental compensation cost will be measured as the excess, if any, of the fair value of each replacement option granted to employees in exchange for surrendered eligible options, measured as of the date the replacement options are granted, over the fair value of the surrendered eligible options in exchange for the replacement options, measured immediately prior to the cancellation. Because the exchange ratios will be calculated to result in the fair value of surrendered eligible options being equal to the fair value of the options replacing them, we do not expect to recognize any significant incremental compensation expense for financial reporting purposes as a result of the exchange program. In the event that any of the replacement options are forfeited prior to their vesting due to termination of service, any incremental compensation cost for the forfeited replacement options will not be recognized; however, we would recognize any unamortized compensation expense from the surrendered options which would have been recognized under the original vesting schedule.

U.S. Federal Income Tax Consequences. The following is a summary of the anticipated material U.S. federal income tax consequences of participating in the exchange program. A more detailed summary of the applicable tax considerations to participating employees will be provided in the offer to exchange. We believe the exchange of eligible options for replacement options pursuant to the exchange program should be treated as a non-taxable exchange and neither we nor any of our employees should recognize any income for U.S. federal income tax purposes upon the surrender of eligible options and the grant of replacement options. However, the tax consequences of the exchange program are not entirely certain and the Internal Revenue Service is not precluded from adopting a contrary position. The law and regulations themselves are also subject to change. All holders of eligible options are urged to consult their own tax advisors regarding the tax treatment of participating in the exchange program under all applicable laws prior to participating in the exchange program. The tax consequences for non-U.S. employees may differ from the U.S. federal income tax consequences described in the preceding sentence.

Potential Modification to Terms to Comply with Governmental Requirements. The terms of the exchange program will be described in an offer to exchange that will be filed with the SEC. Although we do not anticipate that the SEC will require us to materially modify the exchange program's terms, it is possible that we will need to alter the terms of the exchange program to comply with comments from the SEC. Changes in the terms of the exchange program may also be required for tax purposes for participants in the United States as the tax treatment of the exchange program is not entirely certain. In addition, we intend to make the exchange program available to our employees who are located outside the United States, where permitted by local law and where we determine it is feasible and practical to do so. It is possible that we may need to make modifications to the terms offered to employees in countries outside the United States to comply with local requirements, or for tax or accounting reasons. The Compensation Committee will retain the discretion to make any such necessary or desirable changes to the terms of the exchange program for purposes of complying with comments from the SEC or optimizing the U.S. federal or foreign tax consequences.

Plan Benefits Relating to the Option Exchange Program

Because participation in the exchange program is voluntary, the benefits or amounts that will be received by any participant, if this proposal is approved and the exchange program is implemented, are not currently determinable, since we are not able to predict who or how many participants will elect to participate, how many options will be surrendered for exchange or the number of replacement options that may be granted. None of our board members or executive officers will be eligible to participate in the

exchange program. Based on the assumptions described above, including an assumed \$22.72 52-week high trading price of our common stock and a \$13.75 share price, the maximum number of shares underlying options that would be cancelled (and not available for reissuance) would be 913,091 shares, and the maximum number of shares underlying new options that would be granted would be 512,644 shares.

Effect on Stockholders

We are unable to predict the precise impact of the exchange program on our stockholders because we are unable to predict how many or which employees will exchange their eligible options. The exchange program was designed in the aggregate to be expense-neutral to our stockholders while reducing the overhang. Based on the assumptions described above, including an assumed \$22.72 52-week high trading price of our common stock and a \$13.75 share price, if all eligible options are exchanged, options to purchase approximately 913,000 shares will be surrendered, cancelled and not made available for reissuance, while replacement options covering approximately 512,644 shares will be granted resulting in a net reduction in the equity award overhang by approximately 400,447 shares. Following the exchange program, based on the assumptions described above, if all eligible options are exchanged, we will have approximately 4.6 million options outstanding, with a weighted average exercise price of \$12.92 and a weighted average remaining term of 5.38 years. As of April 1, 2009, the total number of shares of DealerTrack common stock outstanding was approximately 40 million.

Text of Amendment to Existing Equity Plan

In order to permit DealerTrack to implement the one-time stock option exchange program in compliance with the Second Amended and Restated 2005 Incentive Award Plan and applicable NASDAQ listing rules, the Compensation Committee recommended and the board approved amendments to the Second Amended and Restated 2005 Incentive Award Plan, subject to approval of the amendments by its stockholders. The Company is seeking stockholder approval to amend its Second Amended and Restated 2005 Incentive Award Plan to allow for the exchange program. The amendment would add a new Section 15.15, which will read as follows:

“Notwithstanding any other provision of the Plan to the contrary, upon approval of our stockholders, the Committee may provide for, and the Company may implement, a one-time-only option exchange offer, pursuant to which certain outstanding Options could, at the election of the person holding such Option, be tendered to the Company for cancellation in exchange for the issuance of a lesser amount of Options with a lower exercise price, provided that such one-time-only option exchange offer is commenced within twelve months of the date of such stockholder approval. The shares subject to any options cancelled by the Company pursuant to this option exchange will not be available for reissuance under any award under the Plan.”

Recommendation of our Board of Directors

OUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE *FOR* THE APPROVAL OF AN AMENDMENT TO OUR EXISTING INCENTIVE AWARD PLAN TO ALLOW FOR A ONE-TIME STOCK OPTION EXCHANGE PROGRAM FOR EMPLOYEES OTHER THAN OUR EXECUTIVE OFFICERS AND DIRECTORS.

**THE BOARD OF DIRECTORS RECOMMENDS
A VOTE IN FAVOR OF PROPOSAL 3**

**PROPOSAL FOUR:
PROPOSAL TO AMEND AND RESTATE OUR SECOND AMENDED AND RESTATED 2005 INCENTIVE
AWARD PLAN**

On April 28, 2009, our board of directors voted to amend and restate the Second Amended and Restated DealerTrack Holdings, Inc. 2005 Incentive Award Plan, or the Second Restated 2005 Plan, and to rename it the Third Amended and Restated DealerTrack Holdings, Inc. 2005 Incentive Award Plan, or the Third Restated 2005 Plan. Accordingly, the board of directors is recommending this proposal to our stockholders for approval.

As of April 1, 2009, there were 436,797 shares of common stock available under the existing Second Restated 2005 Plan. The Third Restated 2005 Plan increases the reserved shares of our common stock under the plan by 4,855,847 shares. The addition of these shares of common stock allows the Compensation Committee to continue to use stock-based awards to attract and retain employees and directors, further align employee and stockholder interests, continue to link employee compensation with Company performance and maintain a culture of ownership.

After the stock option exchange described in Proposal Three, but without the approval of this Proposal Four (assuming all eligible options are exchanged, and not including any grants after April 1, 2009), there would be a negative balance of 75,847 shares available for grant (calculated by subtracting the regranted options from the number of options we have available prior to approval of this proposal), 4,602,176 options and SARs outstanding (5,002,623 as of April 1, 2009 less 913,091 exchanged options plus 512,644 options granted as part of the exchange) and 1,368,202 full value awards (including deferred compensation shares) outstanding. These outstanding options and SARs would have a weighted average exercise price of \$12.92 and a weighted average remaining term of approximately 5.38 years. Please see the table below for a side-by-side comparison of before and after the stock option exchange:

	As of April 1, 2009	After the Exchange (as if occurring on April 1, 2009)	After the Exchange and with Approval of Proposal Four
	(rounded)		
Shares available for grant	436,797	(75,847)	4,780,000
Deferred Compensation shares available for grant	176,411	176,411	176,411
Stock options and SARs outstanding	5,002,623	4,602,176	4,602,176
Weighted Average Exercise Price	\$ 15.91	\$ 12.92	\$ 12.92
Weighted Average Remaining Term	5.47 years	5.38 years	5.38 years
Full Value Awards Outstanding (including Deferred Compensation shares)	1,368,202	1,368,202	1,368,202
Total Equity Incentive Awards Outstanding	6,370,825	5,970,378	5,970,378

Shares issued in respect of any “full-value award” granted under the Third Restated 2005 Plan will be counted against the Plan’s share limit as 1.53 shares for every one share actually issued in connection with the award. For example, if the Company were to grant 100 shares of its common stock under the Third Restated 2005 Plan, 153 shares would be charged against the share limit with respect to that award. For this purpose, a “full-value award” generally means any award granted under the plan other than a stock option or stock appreciation right.

The material features of the Third Restated 2005 Plan are:

- in connection with the Third Restated 2005 Plan, 4,855,847 new shares will be authorized for issuance, provided, that shares issued in respect of any “full-value award” will be counted against the Plan’s share limit as 1.53 shares for every one share actually issued in connection with the award;
- any shares underlying grants under the Third Restated 2005 Plan that terminate, expire or lapse for any reason (other than by exercise and other than by exchange if Proposal Three is approved) in the future are added back to the shares of common stock available for issuance under the Third Restated 2005 Plan;
- shares tendered or held back for taxes or exercise price payment will not be added to the reserved pool under the Third Restated 2005 Plan;

- upon the exercise of a SAR, the gross number of shares will be reduced from the reserved pool;
- we may grant non-qualified stock options, restricted common stock, SARs, performance shares, performance stock units, stock payment awards, deferred stock awards, restricted stock units, performance-based awards (payable either in cash or in shares) to our employees, directors or consultants, and additionally, we may grant incentive stock options to our employees;
- the term of new stock option grants and SARs is limited to seven years;
- the maximum number of shares of common stock that may be awarded under the Third Restated 2005 Plan to any one person during any one year is 750,000 shares and the maximum amount payable with respect to cash performance bonus awards to a “Covered Employee” (as defined in the Internal Revenue Code of 1986, or the Code) during any fiscal year is limited to \$3,000,000;

- to ensure that certain awards granted under the Third Restated 2005 Plan to a Covered Employee qualify as “performance-based compensation” under Section 162(m) of the Code, the Third Restated 2005 Plan provides that the Compensation Committee may require that the vesting of such awards be conditioned on the satisfaction of performance criteria that may include any or all of the following: earnings before interest, taxes, depreciation and amortization, net income (loss) (either before or after interest, taxes, depreciation and/or amortization), economic value-added, sales or revenue, acquisitions or strategic transactions, operating income (loss), cash flow (including, but not limited to, operating cash flow and free cash flow or cash net income), cash net income, return on capital, return on assets, return on stockholders’ equity, total stockholder return, return on sales, gross or net profit margin, productivity, expense, margins, operating efficiency, customer satisfaction, working capital, earnings (loss) per share, price per share of stock, market share, number of customers and market capitalization, any of which may be measured in absolute terms or as compared to any incremental increase or as compared to results of a peer group. The Compensation Committee will select the particular performance criteria within 90 days following the commencement of a performance cycle; and
- The term of the Third Restated 2005 Plan ends on April 29, 2019.

Based solely on the closing price of our common stock as reported by NASDAQ on April 15, 2009, the maximum aggregate market value of the additional 4,855,847 new shares of common stock that could be issued under the Third Restated 2005 Plan is \$70 million. The shares we issue under the Third Restated 2005 Plan will be authorized but unissued shares.

Summary of the Third Restated 2005 Plan

The following description of certain features of the Third Restated 2005 Plan is intended to be a summary only. The summary is qualified in its entirety by the full text of the Third Restated 2005 Plan that is attached hereto as Exhibit I.

Administration

The Compensation Committee of the board of directors is authorized to administer the Third Restated 2005 Plan. The Compensation Committee has the power, subject to the provisions of the Third Restated 2005 Plan, to designate participants to receive awards, determine the type or types of awards to be granted to each participant, determine the number of awards to be granted and the number of shares of stock to which an award will relate, determine the terms and conditions of any award, including the exercise price, grant price, purchase price, any restrictions or limitations on the award, any schedule for lapse of forfeiture restrictions or restrictions on exercisability, and provisions dealing with non-competition and recapture of gain on an award, to determine whether, and to what extent and pursuant to what circumstances an award may be settled in or the exercise price may be paid in cash, stock or other awards or other property, determine when an award may be canceled, forfeited or surrendered, prescribe the form of each award agreement, establish or revise any rules and regulations necessary or advisable to administer the plan, interpret the terms of the plan or any award agreement and make all other decisions and determinations that may be required pursuant to the plan or in the determination of the Compensation Committee. The Compensation Committee may also delegate to one or more of our officers the power to designate which of our non-officer employees shall receive stock awards and the number of shares of common stock that will be subject to each award, subject to a maximum aggregate number of shares specified by the Compensation Committee at the time the delegation to the officers is made.

Eligibility

Persons eligible to participate in the Third Restated 2005 Plan will be officers, employees, non-employee directors and consultants of the Company. As of April 1, 2009, approximately 1,034 individuals were eligible to participate in the Third Restated 2005 Plan.

Types of Equity-Based Awards

Stock Options. The Compensation Committee may grant stock options to eligible persons under the Third Restated 2005 Plan. Each option granted pursuant to the Third Restated 2005 Plan is designated at the time of grant as either an incentive stock option or as a non-qualified stock option. Non-qualified stock options may be granted to all eligible persons, but incentive stock options may be granted only to employees of the Company and its related entities. The option term of new option grants is limited to seven years. All options must have a per share option exercise price that is not less than the fair market value of shares of our common stock on the grant date.

Table of Contents

Restricted Common Stock. Participants' rights with respect to grants of restricted common stock awarded under the Third Restated 2005 Plan are subject to transferability and forfeiture restrictions during a restricted period. While the restrictions are in place, the participant generally has the rights and privileges of a stockholder, including the right to vote the restricted common stock and to receive dividends.

Restricted Stock Units and Deferred Stock Units. Each restricted stock unit and deferred stock unit awarded by the Compensation Committee entitles the participant to receive one share of common stock for each unit at the end of the vesting or deferral periods. A holder of restricted stock units or deferred stock units has no voting rights, rights to receive cash distributions or other rights as a stockholder until shares of common stock are issued to the holder in settlement of the stock units.

Stock Appreciation Rights. SARs are awards that give the recipient the right to receive an amount equal to (1) the number of shares exercised under the right, multiplied by (2) the amount by which our stock price exceeds the fair market value of shares of our common stock on the grant date. Payment may be in shares of our common stock with equivalent value. The term of SARs is limited to seven years. SARs expire under the same rules that apply to stock options.

Performance Awards. Holders of performance shares or units will be entitled to receive payment in shares of our common stock if the performance goals established by the Compensation Committee are achieved. The Compensation Committee may also award incentive bonuses in the form of cash upon the attainment of performance goals established by the Compensation Committee.

Change of Control

In connection with any change of control, except as may otherwise be provided in any applicable award or employment agreement, unless awards granted pursuant to the Third Restated 2005 Plan are converted, assumed or replaced by the successor entity, the awards will automatically become fully vested and exercisable and all forfeiture restrictions with respect to such awards shall lapse prior to the consummation of the change in control, unless otherwise provided in an award agreement. In addition, with respect to any awards, in connection with any change in control (or other unusual or nonrecurring transaction affecting us or our consolidated financial statements), the Compensation Committee, in its sole discretion, may:

- provide for the termination of any award in exchange for an amount of cash, if any, equal to the amount that would have been attained upon the exercise of such award or realization of the participant's rights as of the date of such change in control or other transaction;
- replace outstanding awards with other rights or property selected by the Committee;
- provide that after the occurrence of the transaction, the award cannot vest, be exercised or become payable;
- provide that an award shall be exercisable or payable or fully vested with respect to all shares covered thereby, notwithstanding anything to the contrary in the Third Restated 2005 Plan or the applicable award agreement; or
- provide that each outstanding option shall be assumed or substituted for an equivalent award, right or property by any successor corporation.

Any such action may be effected by the Compensation Committee either by the terms of the applicable award agreement or by action of the Compensation Committee taken prior to the change of control.

Adjustments for Stock Dividends, Stock Splits, Etc.

The Compensation Committee shall make appropriate adjustments to the number of shares of common stock that are subject to the Third Restated 2005 Plan and to any outstanding awards to reflect stock dividends, stock splits, extraordinary cash dividends and similar events.

Tax Withholding

Participants in the Third Restated 2005 Plan are responsible for the payment of any federal, state or local taxes that the Company is required by law to withhold upon any option exercise or vesting of other awards. Subject to approval by the Compensation Committee, participants may elect to have the minimum tax withholding obligations satisfied by authorizing us to withhold shares of common stock to be issued pursuant to an option exercise or vesting of other awards.

Amendments, Suspension and Termination

The Compensation Committee is generally authorized to adopt, amend and rescind rules relating to the administration of the Third Restated 2005 Plan, and to amend, suspend and terminate the Third Restated 2005 Plan. However, we must generally obtain approval of our stockholders: (i) to increase the number of shares of our common stock that may be issued under the Third Restated 2005 Plan; (ii) to permit the Compensation Committee to grant options with an exercise price below fair market value on the date of grant, (iii) to permit the Compensation Committee to extend the exercise period for an option or an SAR beyond seven years from the date of grant, or (iv) that results in a material increase in benefits or a change in eligibility requirements.

New Plan Benefits

If the Third Restated 2005 Plan is approved by our stockholders, it is anticipated that the Compensation Committee will make the following grants of restricted common stock and stock options as set forth in the table below. We can not project the grants that may be made to our officers and employees because such grants are made at the discretion of the Compensation Committee.

<u>Name and Position</u>	<u>Restricted Common Stock</u>		<u>Stock Options</u>		<u>Restricted Stock Units</u>

All current directors who are not executive officers, as a group (1)	\$ —	—(1)	—	—	—	—

- (1) Each of our outside directors will receive an annual equity grant of a fixed amount of shares of restricted common stock equal to \$135,000 on the date of our Annual Meeting of Stockholders. The actual number of shares will be determined based on the market price of our common stock on the date of grant.

Tax Aspects Under the Code

The following is a summary of the principal federal income tax consequences of certain transactions under the Third Restated 2005 Plan. It does not describe all federal tax consequences under the Third Restated 2005 Plan, nor does it describe state or local tax consequences.

Stock Options. The grant of stock options under the Plan will not result in taxable income at the time of the grant for either the Company or the optionee. Upon exercising an incentive stock option, the optionee will have no taxable income (except for the alternative minimum tax, if applicable) and the Company will receive no deduction. Upon exercising a non-qualified stock option, the optionee will recognize ordinary income in the amount by which the fair market value of the common stock at the time of exercise exceeds the option exercise price, and the Company will be entitled to a deduction for the same amount. The optionee's income is subject to withholding tax as wages. The tax treatment of the optionee upon a disposition of shares of common stock acquired through the exercise of a stock option is dependent upon the length of time that the shares have been held and whether such shares were acquired by exercising an incentive stock option or a non-qualified stock option. If an employee exercises an incentive stock option and holds the shares for two years from the date of grant and one year after exercise, then any gain or loss upon the sale of the underlying shares will be treated as long-term capital gain or loss. Shares obtained upon exercise of an incentive stock option that are sold without satisfying these holding periods will be treated as shares received from the exercise of a non-qualified stock option. Generally, upon the sale of shares obtained by exercising a non-qualified stock option, the optionee will treat the gain realized on the sale as a short-term or long-term capital gain, depending on the length of the holding period. Generally, there will be no tax consequence to the Company in connection with the disposition of shares of common stock acquired under an option, except that the Company may be entitled to a deduction in the case of a disposition of shares acquired upon exercise of an incentive stock option before the applicable holding periods have been satisfied.

Table of Contents

Restricted Common Stock. An award of restricted common stock will not result in taxable income to the participant at the time of grant. Upon the lapse of the restrictions, the participant will recognize ordinary income in the amount of the fair market value of the shares of common stock at the time that the restriction lapses. Alternatively, within 30 days after receipt of the restricted common stock, a participant may make an election under Section 83(b) of the Code, which would allow the participant to include in income in the year that the restricted common stock is awarded an amount equal to the fair market value of the restricted common stock on the date of such award determined without regard to the restrictions.

The Company will be entitled to a deduction for the year in which the participant recognizes ordinary income with respect to the restricted common stock in an amount equal to such income.

Other Awards. The current federal income tax consequences of other awards authorized under the Third Restated 2005 Plan generally follow certain basic patterns: SARs are taxed and deductible in substantially the same manner as non-qualified stock options. Restricted stock units and deferred stock units are taxed and deductible when the recipient receives shares of common stock in settlement of such units. Stock-based or cash-based performance awards, and other types of awards are generally subject to tax at the time of payment. In each of the foregoing cases, the Company will generally have a corresponding deduction at the time the participant recognizes income.

Parachute Payments

The vesting of any portion of an option or other award that is accelerated due to the occurrence of a change of control may cause a portion of the payments with respect to such accelerated awards to be treated as “parachute payments” as defined in the Code. Any such parachute payments may be non-deductible to us, in whole or in part, and may subject the recipient to a non-deductible 20% federal excise tax on all or a portion of such payment (in addition to other taxes ordinarily payable).

Limitation on Deductions

Under Section 162(m) of the Code, our deduction for certain awards under the Third Restated 2005 Plan may be limited to the extent that the Chief Executive Officer or other executive officer whose compensation is required to be reported in the Summary Compensation Table receives compensation in excess of \$1 million a year (other than performance-based compensation that otherwise meets the requirements of Section 162(m) of the Code). The Third Restated 2005 Plan is structured to allow grants to qualify as performance-based compensation.

Vote Required

Under our bylaws, the affirmative vote of a majority of shares of common stock present in person or represented by proxy at the meeting and entitled to vote on this proposal is required for the approval of the Third Restated 2005 Plan. Abstentions shall be included in determining the number of shares present and entitled to vote on the proposal, thus having the effect of a vote against the proposal. Broker non-votes are not counted in determining the number of shares present and entitled to vote and will therefore have no effect on the outcome.

COMPENSATION DISCUSSION AND ANALYSIS

This section contains a discussion of the material elements of compensation awarded to, earned by or paid to our executive officers. These executive officers include the Chief Executive Officer, Chief Financial Officer and the three most highly compensated officers of DealerTrack, who we refer to in this section as the "named executive officers."

Overview

The Company's compensation philosophy is designed to support the key objective of creating value for the stockholders by growing the revenue and earnings before interest, taxes, depreciation and amortization, or EBITDA, increasing the total market capitalization and growing the share price. The Compensation Committee is responsible for establishing and approving the compensation of our executive officers.

DealerTrack believes that a sound compensation philosophy and strategy serve to align the team members and focus the executive team and the whole company on the vision and the achievement of our stated strategic objectives and goals.

The Compensation Committee has established the following principles in determining the compensation of the executive officers:

- balance rewards for executives between short-term results and the long-term strategic decisions needed to ensure sustained success for the Company and its stockholders over time;
- attract and retain high-performing executive talent by paying competitive compensation;
- provide rewards consistent with performance by tying both the annual cash incentive program and the long term equity incentive program to corporate performance; and
- provide equity-based long term incentives which align management and stockholder interests.

The Compensation Committee has established a number of processes, described below, to ensure that the executive compensation achieves these objectives.

Compensation Processes and Criteria

Peer Group Information and Benchmarking

In connection with compensation decisions for 2008, the Compensation Committee reviewed market compensation data of a peer group of companies established by Ernst & Young, an independent compensation consultant that is retained by and reports to the Compensation Committee. The companies that comprised our 2008 peer group were: Choicepoint, Inc., Digital River, Inc., f5 Networks Inc., Radiant Systems, Inc., Salesforce.com, Inc., Tier Technologies, Inc., Websense, Inc., Blackbaud, Inc., Blackboard Inc., Heartland Payment Systems, Jack Henry & Associates, TNS, Inc. and Witness Systems, Inc.

Table of Contents

The Compensation Committee uses the peer group compensation data primarily to ensure that the total direct compensation for executives is within the broad middle range of comparative pay while providing an opportunity for the annual cash bonus to attain the 75th percentile when targeted performance levels are exceeded. While peer group market data provides a useful starting point for compensation decisions, the Compensation Committee also takes into account factors such as level of responsibility, prior experience and individual performance in arriving at final compensation decisions. The elements of executive compensation include base salary, annual and long term incentive plans, and annual grants of equity awards. Executive compensation has a high proportion of total direct compensation delivered through pay-for-performance incentive and long-term equity compensation, equating to a greater proportion of at-risk compensation.

On November 12, 2008, the Compensation Committee re-evaluated the 2008 peer group companies to determine if any revisions should be made in connection with compensation decisions for 2009. The Compensation Committee elected to remove two companies whose legal structures made them no longer appropriate peers for the Company: Choicepoint, Inc. and Witness Systems, Inc.

Assessment of Company and Individual Performance

The Compensation Committee, in collaboration with senior management, annually establishes specific revenue and EBITDA targets that determine the size of bonus payouts under the annual incentive bonus plan. Individual performance directly determines total direct compensation levels (consisting of annual salary, annual bonus awards and long-term incentives) for the Chief Executive Officer and other executive officers.

The Compensation Committee meets with the Chief Executive Officer at the beginning of the year to establish the Chief Executive Officer's performance objectives (both individual and company) for the year. At the end of the year, the Compensation Committee conducts a performance review of the Chief Executive Officer based on his achievement of the pre-established objectives. The overall performance of the Chief Executive Officer and the company are considered by the Compensation Committee in setting the Chief Executive Officer's compensation.

For all other executive officers, the Compensation Committee receives a performance assessment and compensation recommendation from the Chief Executive Officer. The performance evaluation of the other executive officers is based on achievement of pre-established objectives. The objectives for all executive officers are established by the CEO and include both corporate and individual objectives.

Total Compensation Review

The Compensation Committee annually reviews each executive officer's base pay, bonus and equity incentive awards with the guidance of the Compensation Committee's independent consultant. In addition to these compensation elements, the Compensation Committee reviews the long-term incentive program, deferred compensation program and the payments that would be required under various severance and change-in-control scenarios.

Components of Executive Compensation for 2008

Base Salary

Base salaries for DealerTrack's named executive officers are pegged at the market median and are competitive with similar positions at the peer group companies. The base salaries of all executive officers are reviewed annually against market data and adjusted to reflect individual roles and performance. Adjustments to base salary are determined based upon market trends as well as individual performance and experience. Base salary may be adjusted during the year if a change in the scope of the executive officer's responsibilities justifies such consideration. In 2008, the Compensation Committee increased the base salaries of each of the named executive officers from 2007 by approximately 3.77%. These salary increases were consistent with the base salary increases for the rest of the company's employees.

None of DealerTrack's named executive officers received an increase in base salary from 2008 to 2009. As of April 16, 2009, DealerTrack instituted a company-wide decrease of 5.29% in base salary for the rest of 2009 for all employees, including all executive officers.

Annual Incentive Bonus Plan

- Under the annual incentive bonus plan, the cash incentive bonus amounts are targeted at the 50th percentile of the peer group's annual bonus compensation. Awards under the annual incentive plan are based upon the achievement of both corporate and individual goals, including EBITDA, total revenue and business unit revenue targets and individual performance. If we exceed the targets and achieve the stretch goals, the annual incentive bonus amount is then targeted at the 75th percentile of the peer group's annual bonus compensation in order to provide rewards consistent with

performance. The 2008 corporate performance targets were: an EBITDA target of \$74.1 million, a corporate-wide revenue target of \$282.4 million, as well as separate revenue targets for each of the business units. Under this plan, no annual bonuses were required to be paid in 2008 if the company did not meet an EBITDA threshold of \$67.3 million. The company did not meet this threshold; accordingly, the payout of the 2008 bonus was at the discretion of the Compensation Committee.

Table of Contents

- EBITDA was used as the principal metric to review and assess the operating performance and the performance of the management team because EBITDA provides useful information with respect to the performance of the fundamental business activities and is also frequently used by equity research analysts and others in the evaluation of the company. For executive officers with company-wide responsibility, equal weight is given to total corporate revenue and EBITDA targets. For other executive officers who are responsible for business units, depending on their position, different weights are given to corporate and business unit revenues. In each case, additional weight is given to individual performance and attainment of individual goals.
- The annual incentive bonus target amounts, expressed as a percentage of base salary, are established for the named executive officers each year, with a target range of 50% to 80% of base salary for 2008 and a maximum range of 175% to 210% of base salary for 2008, depending on the executive officer's position. As stated above, no bonuses are required to be paid under the plan if the company does not meet the pre-determined EBITDA threshold amount. If the EBITDA threshold amount and the respective revenue targets are exceeded, the Compensation Committee may increase or reduce payouts by up to 5% depending on performance relative to specific subscription and transaction revenue targets. The Compensation Committee may further positively or negative adjust the actual award to each executive officer depending on its assessment of each individual's performance. In making this assessment, the Compensation Committee also considers the input of the Chief Executive Officer with respect to awards to the other executive officers. In the case of the Chief Executive Officer, the Compensation Committee considers additional non-financial factors such as leadership, leadership development, talent management and succession planning in determining the annual incentive bonus amount. The Compensation Committee may adjust the financial metrics in appropriate circumstances, such as the acquisition or divestiture of a business or the impact of foreign exchange rates. In 2008, the financial metrics were not adjusted.

The company had a challenging year in 2008 due to the unprecedented decline in the number of vehicles financed. However, despite the challenging economic environment for our business, the company achieved 3.8% growth in revenue. The growth achieved reflects the fact that the company was able to grow its subscription business 26.2%. Growing the subscription business is a key focus to eliminate our dependency on the transaction business.

The actual revenue and EBITDA in 2008 were \$242.7 million and \$41.4 million, respectively. Although no bonuses were required to be paid under the plan because the minimum EBITDA target for 2008 was not met, the Compensation Committee used its discretion to award cash incentive bonuses to executive officers that ranged from 0% to 45% of their respective base salaries. The Chief Executive Officer requested that the Compensation Committee not consider awarding him a bonus for 2008. The other named executive officers received bonus payouts equal to less than 45% of their respective bonus target amounts.

Annual Equity Grants

In order to align the executive officers' interests with those of the stockholders, the Compensation Committee makes an annual equity grant each year to each executive officer. The Compensation Committee reviewed and considered competitive market information at or near the 50th percentile of the company's peer group and established awards within the competitive range of the 50th percentile of the peer group. The following factors were also considered in determining the level of long-term incentives awarded to the executive officers:

- the executive's performance;
- the executive's potential future contributions to the company;
- the current compensation of the executive; and
- the current overall value of the executive's long-term incentives.

The Compensation Committee uses non-qualified stock options instead of incentive stock options in order to preserve the company's compensation expense tax deduction. The 2008 equity grants to our executive officers consisted solely of time-vesting stock options. The rationale for a grant consisting solely of stock options was the Compensation Committee's desire to focus our executive officers directly on increasing stockholder value through the growth in share price. In future years the Compensation Committee may elect to provide equity in the form of restricted stock, stock options or restricted stock units.

Table of Contents

The annual equity grants also serve as a retention device because they are vested and earned through service with us over a four-year period and the options have a seven-year life. These equity grants further the long-term perspective necessary for continued success of the business.

The Compensation Committee typically makes the annual stock option grants at the first regularly scheduled meeting of the Compensation Committee of the year. Option grants to new hires are generally made at the first regularly scheduled Compensation Committee meeting that follows the date of hire. We set the exercise price of the options at the closing price of the stock on the date of grant. All equity grants to our named executive officers in 2008 were made pursuant to the Amended and Restated 2005 Incentive Award Plan.

Stock Ownership Requirements

The Compensation Committee has also implemented stock ownership requirements for members of the executive team equal to multiples of their base salary, which vary from one time to six times base salary. The CEO is required to hold shares with a value equal to six times his base salary, and the other named executive officers are required to hold shares with a value equal to two times their base salaries.

Each executive officer is expected to attain his or her stock ownership level within five years of becoming an executive officer. Stock options are not included in determining compliance with the share ownership requirement. Named executive officers are expected to retain 25% of the net after-tax shares acquired pursuant to the exercise of a stock option until they achieve the minimum share ownership position. The Compensation Committee reviews each named executive officer's compliance with the minimum stock ownership requirement once a year. Shares acquired through the company's Employee Stock Purchase Plan are counted toward the stock ownership requirement.

As of the end of 2008, each executive officer met the minimum share ownership requirement.

Long-Term Equity Incentive Program

In August 2006, the Compensation Committee implemented a performance-based long-term equity incentive program and made significant grants of restricted common stock to the named executive officers. These grants are targeted to deliver total direct compensation (annual base salary, annual bonus awards and long-term incentives) at the 75th percentile of the peer group upon the achievement of exceptional performance. These grants will be fully earned and vested only if during the three fiscal year measurement period: (i) we achieve annual growth for the EBITDA and market capitalization metrics as set forth below; and (ii) if the executive officers remain continuously employed with us through January 31, 2010. As provided in the award agreements, the EBITDA goals are adjusted by the Compensation Committee from time to time to reflect both the positive and negative impact of acquisitions, in order to neutralize the impact of those acquisitions. Awards of performance-based long-term equity incentive awards were granted pursuant to the Amended and Restated 2005 Incentive Award Plan.

<u>Performance Goals</u>	<u>EBITDA</u>	<u>Market Cap</u>
December 31, 2007	\$54.1 million	\$928 million
December 31, 2008	\$66.9 million	\$1,136 million
December 31, 2009	\$82.9 million	\$1,400 million

The company met its performance goals for fiscal year 2007 related to both EBITDA and market capitalization but did not meet its performance goals for fiscal year 2008 for either EBITDA or market capitalization. The awards related to each 2008 performance goal remain eligible for vesting should the company meet its 2009 performance goals in that category. For example, if the company meets its 2009 EBITDA performance goal, participants in the company's Long-Term Equity Incentive Plan will be entitled to receive their performance awards for EBITDA for both 2008 and 2009.

Employment Agreements

The company has entered into employment agreements with each of the named executive officers. These agreements were amended in 2007 to reduce the amount of severance provided in the event of termination without cause or for good reason from two years of base salary to one year of base salary generally payable over the one year period following the executive's termination. The purpose of these amendments was to bring the company's employment agreements more in line with peer group companies. Additionally, these agreements provide for pro-rata annual cash incentive and limited accelerated vesting of equity grants (other than performance-based restricted common stock) in the event of a termination of employment by us without cause or by a named executive officer for good reason. In return, each executive covenants not to compete or solicit the employees for one year from the date of termination. Severance is stopped if the executive violates these covenants during the one-year severance period.

Table of Contents

The employment agreements also provide change in control benefits. In the event we were to undergo a change in control, the employment agreements provide for 36 months of accelerated vesting for time-based stock option and restricted common stock grants and full vesting of such grants in the event of termination within 12 months of the change in control. The performance-based restricted common stock grants provide for full acceleration upon a change in control. We believe that it is fair to provide for accelerated vesting because equity grants provide such a high proportion of the total compensation. Very often, members of senior management lose their jobs in connection with a change of control. By agreeing up front to protect the named executive officers from losing their equity in the event of a change in control, we believe we can reinforce and encourage the continued attention and dedication of the executive officers to their assigned duties without distraction in the face of an actual or threatened change in control. This protection also aligns the interests of the named executive officers with that of the stockholders.

The employment agreements also provide for a tax gross-up payment to the named executive officers in the event they become subject to the 20% golden parachute excise tax. We have agreed to this payment because it is market practice and because we believe that the named executive officers should be able to receive what they have bargained for without being subject to this punitive tax.

Please see page [] for more information regarding the material terms of the named executive officers' employment agreements.

Mr. Sundaram's employment agreement contains an additional term that results from his joining us upon the acquisition of certain assets of Automotive Lease Guide (alg), LLC. We agreed to honor an existing arrangement that he had in regards to a promissory note owed to his former employer in order to encourage Mr. Sundaram to remain with us after the acquisition.

In 2006, Mr. Sundaram's promotion to Senior Vice President, Dealer Solutions, required him to move across the country to corporate headquarters in Lake Success, New York. Accordingly, we entered into a relocation agreement with Mr. Sundaram that provided, among other things, reimbursement of his moving expenses, temporary housing expenses, forfeited tuition deposits and certain expenses in connection with the purchase and sale of his primary residence, as well as a car allowance.

In 2008, Mr. Sundaram was paid a gross amount of \$37,814.67. This amount represents the final reimbursement for certain expenses (described above) in connection with his relocation. Specifically, the expenses included the forfeiture of automobile benefits and the differential in property taxes.

Perquisites

We believe that cash and equity compensation are the two key components in attracting and retaining management talent and therefore do not generally provide any substantial perquisites other than relocation expenses.

Deferred Compensation Plan

We have a deferred compensation plan that allows the named executive officers to defer bonus compensation by investing it in deferred stock units based on the fair market value of the common stock on the date the bonuses would otherwise be paid. This plan provides a tax effective means of allowing the executive officers to invest in the stock and fulfills the objective of encouraging equity ownership. None of our named executive officers elected to have any portion of their 2008 bonuses deferred.

4 01(k) Plan

We maintain a 401(k) plan which covers substantially all employees. The 401(k) plan is an essential part of the retirement package needed to attract and retain employees in the industry. The 401(k) plan permits employees to contribute up to the lesser of 20% of earnings or the annual dollar limit prescribed by the tax laws. The company provides a matching contribution, the amount of which is determined at our discretion. For 2008, the matching contribution was 50% of each employee's contribution up to 6% of eligible pay, subject to IRS limitations. The matching contribution vests incrementally over a five-year period.

Table of Contents

Section 162(m) Policy

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation over \$1,000,000 paid to their chief executive officers and the four other most highly compensated executive officers unless certain tests are met. The Compensation Committee's general intent is to design and administer our executive compensation programs to preserve the deductibility of compensation payments to named executive officers. However, our goal of preserving the deductibility of compensation is secondary in importance to achievement of the Companies' compensation objectives. We believe that the potential increased tax liability is of insufficient magnitude to warrant alteration of our current executive compensation programs, which we believe are achieving our desired compensation objectives while retaining our flexibility to exercise judgment in assessing our named executive officers' performance.

Compensation Committee Actions Taken After Fiscal Year 2008

In January 2009, DealerTrack announced a realignment of its workforce, including plans to reduce its workforce by approximately 90 individuals. This included the departures of Robert Cox, Senior Vice President and Chief Financial Officer (effective March 2, 2009) and David Trinder, Senior Vice President, Network Solutions. Additionally Charles Giglia, Senior Vice President and Chief Information Officer, moved to a non-executive role.

Effective April 16, 2009, DealerTrack implemented a 5.29% reduction in the base salaries of all employees, including the executive officers.

- (1) These awards vest in four equal annual installments from date of grant.
- (2) The market value is based on the closing price of our common stock as of December 31, 2008, which was \$11.89.
- (3) These are performance based restricted common stock awards that vest in full on January 31, 2010, provided that the executive officer remains employed on such date. The amount that will vest at such time is subject to the achievement of certain pre-established performance goals for fiscal years 2007, 2008 and 2009. These performance goals are equally based on both our earnings before interest, taxes, depreciation and amortization, as adjusted, or EBITDA, and market capitalization, in each case as measured on the last day of the fiscal year. The company met its performance goals for fiscal year 2007 related to both EBITDA and market capitalization but did not meet its performance goals for fiscal year 2008 for either EBITDA or market capitalization.
- (4) The market value is based on the closing price of our common stock as of December 31, 2008, which was \$11.89, without taking any discounts and assuming that targets are achieved (EBITDA and market cap).

None of our named executive officers elected to have any portion of their 2007 or 2008 bonuses deferred.

- In the event that a named executive officer's employment is terminated by us without "cause," death or disability, or by the executive for "good reason," the named executive officer will be entitled to continue to participate in our health and welfare benefit plans for a period of one year following termination and to continue to be paid his base salary for a period of one year following termination. Additionally, the named executive officer shall be entitled to receive a pro rata annual bonus based on the percentage of the year worked through the date of termination. Notwithstanding the foregoing, in no event will any named executive officer be entitled to receive any such payment or benefits after he or she violates any non-compete, non-disclosure or non-solicit covenant. "Cause" means any of the following: (i) the executive officer's conviction for a felony, commission of fraud or embezzlement upon us; (ii) the executive officer's commission of any willful act intended to injure our reputation, business, or business relationships; (iii) the refusal or failure to perform his duties with us in a competent and professional manner (in certain cases, with a cure period of ten business days); or (iv) the refusal or failure of the executive officer to comply with any of his material obligations under his employment agreement (in certain cases, with a cure period of ten business days). "Good reason" means any of the following: (i) a material breach by us of an executive officer's employment agreement or in connection with our stock incentive plans (which has not been cured within the allotted time); (ii) a material reduction of an executive officer's title or duties or the assignment to the officer of any duties materially inconsistent with his or her then current position; (iii) any material reduction in the executive officer's salary or benefits; (iv) the failure of any successor entity to assume the terms of the executive officer's employment agreement upon a "change of control"; or (v) relocation of the officer's location a distance of at over fifty miles; or (vi) if we do not renew the executive officer's employment agreement upon its expiration.
- In the event that a named executive officer's employment is terminated by us without "cause" or by the executive for "good reason," the named executive officer shall be credited with twenty-four months of accelerated vesting with respect to any options or other equity-based awards granted under the 2001 Stock Option Plan or the Amended and Restated 2005 Incentive Award Plan. Upon a "change of control," the named executive officer shall automatically be credited with thirty-six months of accelerated vesting with respect to any options or other equity-based awards granted under the 2001 Stock Option Plan or the Amended and Restated 2005 Incentive Award Plan. Further, in the event that, within twelve months following a change of control, a named executive officer's employment is terminated, he experiences a material negative change in his compensation or responsibilities or he is required to be based at a location more than 50 miles from his current work location, any remaining unvested options or other equity-based awards granted under the 2001 Stock Option Plan or the Amended and Restated 2005 Incentive Award Plan shall become fully vested. In the case of those named executive officers who have entered into employment agreements with one of our subsidiaries rather than with the parent company, "change of control" also means the occurrence of any of the above with respect to such subsidiary.
- Each named executive officer is entitled to a "gross-up payment" that, on an after-tax basis, is equal to the taxes imposed on the severance payment under the named executive officer's employment agreement in the event any payment or benefit to the named executive officer is considered an "excess parachute payment" and subject to an excise tax imposed by Section 4999 of the Internal Revenue Code.

Mr. Sundaram has the following additional provisions in his employment agreement:

Table of Contents

(b) To the extent that an Award terminates, expires, or lapses for any reason, any shares of Stock subject to the Award shall again be available for the grant of an Award pursuant to the Plan. Any shares of Stock tendered or withheld to satisfy the grant or exercise price or tax withholding obligation pursuant to any Award shall not be available for the grant of an Award pursuant to the Plan. In addition, upon the exercise of any SAR for shares of Stock, the gross number of shares exercised shall be deducted from the total number of shares of Stock available for future issuance under the Plan. To the extent permitted by applicable law or any exchange rule, shares of Stock issued in assumption of, or in substitution for, any outstanding awards of any entity acquired in any form of combination by the Company or any Subsidiary shall not be counted against shares of Stock available for grant pursuant to this Plan. Notwithstanding the provisions of this Section 3.1(b), no shares of Stock may again be optioned, granted or awarded if such action would cause an Incentive Stock Option to fail to qualify as an incentive stock option under Section 422 of the Code.

Table of Contents

9.2 Applicability . This Article 9 shall apply only to those Covered Employees selected by the Committee to receive Performance-Based Awards. The designation of a Covered Employee as a Participant for a Performance Period shall not in any manner entitle the Participant to receive an Award for the period. Moreover, designation of a Covered Employee as a Participant for a particular Performance Period shall not require designation of such Covered Employee as a Participant in any subsequent Performance Period and designation of one Covered Employee as a Participant shall not require designation of any other Covered Employees as a Participant in such period or in any other period.

9.3 Procedures with Respect to Performance-Based Awards . To the extent necessary to comply with the Qualified Performance-Based Compensation requirements of Section 162(m)(4)(C) of the Code, with respect to any Award granted under Articles 6 and 8 which may be granted to one or more Covered Employees, no later than ninety (90) days following the commencement of any fiscal year in question or any other designated fiscal period or period of service (or such other time as may be required or permitted by Section 162(m) of the Code), the Committee shall, in writing, (a) designate one or more Covered Employees, (b) select the Performance Criteria applicable to the Performance Period, (c) establish the Performance Goals, and amounts of such Awards, as applicable, which may be earned for such Performance Period, and (d) specify the relationship between Performance Criteria and the Performance Goals and the amounts of such Awards, as applicable, to be earned by each Covered Employee for such Performance Period. Following the completion of each Performance Period, the Committee shall certify in writing whether the applicable Performance Goals have been achieved for such Performance Period. In determining the amount earned by a Covered Employee, the Committee shall have the right to reduce or eliminate (but not to increase) the amount payable at a given level of performance to take into account additional factors that the Committee may deem relevant to the assessment of individual or corporate performance for the Performance Period.

9.4 Payment of Performance-Based Awards . Unless otherwise provided in the applicable Award Agreement, a Participant must be employed by the Company or a Subsidiary on the day a Performance-Based Award for such Performance Period is paid to the Participant. Furthermore, a Participant shall be eligible to receive payment pursuant to a Performance-Based Award for a Performance Period only if the Performance Goals for such period are achieved. In determining the amount earned under a Performance-Based Award, the Committee may reduce or eliminate the amount of the Performance-Based Award earned for the Performance Period, if in its sole and absolute discretion, such reduction or elimination is appropriate.

9.5 Additional Limitations . Notwithstanding any other provision of the Plan, any Award which is granted to a Covered Employee and is intended to constitute Qualified Performance-Based Compensation shall be subject to any additional limitations set forth in Section 162(m) of the Code (including any amendment to Section 162(m) of the Code) or any regulations or rulings issued thereunder that are requirements for qualification as qualified performance-based compensation as described in Section 162(m)(4)(C) of the Code, and the Plan shall be deemed amended to the extent necessary to conform to such requirements.

Awards under the Plan shall be evidenced by Award Agreements that set forth the terms, conditions and limitations for each Award which may include the term of an Award, the provisions applicable in the event the Participant's employment or service terminates, and the Company's authority to unilaterally or bilaterally amend, modify, suspend, cancel or rescind an Award.

10.3 Limits on Transfer. No right or interest of a Participant in any Award may be pledged, encumbered, or hypothecated to or in favor of any party other than the Company or a Subsidiary, or shall be subject to any lien, obligation, or liability of such Participant to any other party other than the Company or a Subsidiary. Except as otherwise provided by the Committee, no Award shall be assigned, transferred, or otherwise disposed of by a Participant other than by will or the laws of descent and distribution. The Committee by express provision in the Award or an amendment thereto may permit an Award (other than an Incentive Stock Option) to be transferred to, exercised by and paid to certain persons or entities related to the Participant, including but not limited to members of the Participant's family, charitable institutions, or trusts or other entities whose beneficiaries or beneficial owners are members of the Participant's family and/or charitable institutions, or to such other persons or entities as may be expressly approved by the Committee, pursuant to such conditions and procedures as the Committee may establish. Any permitted transfer shall be subject to the condition that the Committee receive evidence satisfactory to it that the transfer is being made for estate and/or tax planning purposes (or to a "blind trust" in connection with the Participant's termination of employment or service with the Company or a Subsidiary to assume a position with a governmental, charitable, educational or similar non-profit institution) and on a basis consistent with the Company's lawful issue of securities.

10.4 Beneficiaries. Notwithstanding Section 10.3, a Participant may, in the manner determined by the Committee, designate a beneficiary to exercise the rights of the Participant and to receive any distribution with respect to any Award upon the Participant's death. A beneficiary, legal guardian, legal representative, or other person claiming any rights pursuant to the Plan is subject to all terms and conditions of the Plan and any Award Agreement applicable to the Participant, except to the extent the Plan and Award Agreement otherwise provide, and to any additional restrictions deemed necessary or appropriate by the Committee. If the Participant is married and resides in a community property state, a designation of a person other than the Participant's spouse as his or her beneficiary with respect to more than 50% of the Participant's interest in the Award shall not be effective without the prior written consent of the Participant's spouse. If no beneficiary has been designated or survives the Participant, payment shall be made to the person entitled thereto pursuant to the Participant's will or the laws of descent and distribution. Subject to the foregoing, a beneficiary designation may be changed or revoked by a Participant at any time provided the change or revocation is filed with the Committee.

10.5 Stock Certificates; Book Entry Procedures.

(a) Notwithstanding anything herein to the contrary, the Company shall not be required to issue or deliver any certificates evidencing shares of Stock pursuant to the exercise of any Award, unless and until the Board has determined, with advice of counsel, that the issuance and delivery of such certificates is in compliance with all applicable laws, regulations of governmental authorities and, if applicable, the requirements of any exchange on which the shares of Stock are listed or traded. All Stock certificates delivered pursuant to the Plan are subject to any stop-transfer orders and other restrictions as the Committee deems necessary or advisable to comply with federal, state, or foreign jurisdiction, securities or other laws, rules and regulations and the rules of any national securities exchange or automated quotation system on which the Stock is listed, quoted, or traded. The Committee may place legends on any Stock certificate to reference restrictions applicable to the Stock. In addition to the terms and conditions provided herein, the Board may require that a Participant make such reasonable covenants, agreements, and representations as the Board, in its discretion, deems advisable in order to comply with any such laws, regulations, or requirements. The Committee shall have the right to require any Participant to comply with any timing or other restrictions with respect to the settlement or exercise of any Award, including a window-period limitation, as may be imposed in the discretion of the Committee.

(b) Notwithstanding any other provision of the Plan, unless otherwise determined by the Committee or required by any applicable law, rule or regulation, the Company shall not deliver to any Participant certificates evidencing shares of Stock issued in connection with any Award and instead such shares of Stock shall be recorded in the books of the Company (or, as applicable, its transfer agent or stock plan administrator).

10.6 Paperless Exercise. In the event that the Company establishes, for itself or using the services of a third party, an automated system for the exercise of Awards, such as a system using an internet website or interactive voice response, then the paperless exercise of Awards by a Participant may be permitted through the use of such an automated system.

10.7 Limitations on Payments to Specified Employees. In the case of any Award that constitutes deferred compensation within the meaning of Section 409A of the Code, including any grants of Deferred Stock awards, Restricted Stock Unit awards, or Performance Stock Unit awards, any payment to a "specified employee" within the meaning of Section 409A of the Code on account of separation of service of such specified employee shall be made no earlier than six months and a day after such specified employee's separation from service or the date of such specified employee's death, if earlier.

ARTICLE 11

CHANGES IN CAPITAL STRUCTURE

11.1 Adjustments. In the event of any stock dividend, stock split, combination or exchange of shares, merger, consolidation, spin-off, recapitalization or other distribution (other than normal cash dividends) of Company assets to stockholders, or any other change affecting the shares of Stock or the share price of the Stock, the Committee shall make such proportionate adjustments, if any, as the Committee in its discretion may deem appropriate to reflect such change with respect to (a) the aggregate number and kind of shares that may be issued under the Plan (including, but not limited to, adjustments of the limitations in Sections 3.1 and 3.3); (b) the terms and conditions of any outstanding Awards (including, without limitation, any applicable performance targets or criteria with respect thereto); and (c) the grant or exercise price per share for any outstanding Awards under the Plan. Any adjustment affecting an Award intended as Qualified Performance-Based Compensation shall be made consistent with the requirements of Section 162(m) of the Code.

11.2 Change in Control. In the event of any transaction or event described in Section 2.5(a), (c) or (d) or any unusual or nonrecurring transactions or events affecting the Company, any affiliate of the Company, or the financial statements of the Company or any affiliate, or of changes in applicable laws, regulations or accounting principles, the Committee, in its sole and absolute discretion, and on such terms and conditions as it deems appropriate, either by the terms of the Award or by action taken prior to the occurrence of such transaction or event and either automatically or upon the Participant's request, is hereby authorized to take any one or more of the following actions whenever the Committee determines that such action is appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan or with respect to any Award under the Plan, to facilitate such transactions or events or to give effect to such changes in laws, regulations or principles:

(i) To provide for either (A) termination of any such Award in exchange for an amount of cash, if any, equal to the amount that would have been attained upon the exercise of such Award or realization of the Participant's rights (and, for the avoidance of doubt, if as of the date of the occurrence of the transaction or event described in this Section 11.2 the Committee determines in good faith that no amount would have been attained upon the exercise of such Award or realization of the Participant's rights, then such Award may be terminated by the Company without payment) or (B) the replacement of such Award with other rights or property selected by the Committee in its sole discretion;

(ii) To provide that such Award be assumed by the successor or survivor corporation, or a parent or subsidiary thereof, or shall be substituted for by similar options, rights or awards covering the stock of the successor or survivor corporation, or a parent or subsidiary thereof, with appropriate adjustments as to the number and kind of shares and prices;

(iii) To make adjustments in the number and type of shares of Common Stock (or other securities or property) subject to outstanding Awards, and in the number and kind of outstanding Restricted Stock or Deferred Stock and/or in the terms and conditions of (including the grant or exercise price), and the criteria included in, outstanding options, rights and awards and options, rights and awards which may be granted in the future;

(iv) To provide that such Award shall be exercisable or payable or fully vested with respect to all shares covered thereby, notwithstanding anything to the contrary in the Plan or the applicable Award Agreement; and

(v) To provide that the Award cannot vest, be exercised or become payable after such event.

11.3 Acceleration Upon a Change in Control. Notwithstanding Section 11.2, and except as may otherwise be provided in any applicable Award Agreement or other written agreement entered into between the Company and a Participant, if a Change in Control occurs and a Participant's Awards are not converted, assumed, or replaced by a successor entity, then immediately prior to the Change in Control such Awards shall become fully exercisable and all forfeiture restrictions on such Awards shall lapse. The Committee may cause any and all Awards outstanding hereunder to terminate on the date of such Change in Control, and shall give each Participant the right to exercise such Awards during a period of time immediately preceding such Change in Control as the Committee, in its sole and absolute discretion, shall determine (except that in no case shall more than ten days' notice of the impending termination be required and any acceleration of vesting and any exercise of any portion of an award that is so accelerated shall be made contingent upon the actual occurrence of the event).

11.4 Outstanding Awards — Certain Mergers. Subject to any required action by the stockholders of the Company, in the event that the Company shall be the surviving corporation in any merger or consolidation (except a merger or consolidation as a result of which the holders of shares of Stock receive securities of another corporation), each Award outstanding on the date of such merger or consolidation shall pertain to and apply to the securities that a holder of the number of shares of Stock subject to such Award would have received in such merger or consolidation.

11.5 *Outstanding Awards — Other Changes*. In the event of any other change in the capitalization of the Company or corporate change other than those specifically referred to in this Article 11, the Committee may, in its absolute discretion, make such adjustments in the number and kind of shares or other securities subject to Awards outstanding on the date on which such change occurs and in the per share grant or exercise price of each Award as the Committee may consider appropriate to prevent dilution or enlargement of rights.

11.6 No Other Rights . Except as expressly provided in the Plan, no Participant shall have any rights by reason of any subdivision or consolidation of shares of stock of any class, the payment of any dividend, any increase or decrease in the number of shares of stock of any class or any dissolution, liquidation, merger, or consolidation of the Company or any other corporation. Except as expressly provided in the Plan or pursuant to action of the Committee under the Plan, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number of shares of Stock subject to an Award or the grant or exercise price of any Award.

ARTICLE 12

ADMINISTRATION

12.1 Committee . The Plan shall be administered by the Compensation Committee of the Board, and for such purposes the term “Committee” as used in this Plan shall be deemed to refer to the Compensation Committee. The Committee shall consist solely of two or more members of the Board each of whom is (a) an “outside director,” within the meaning of Section 162(m) of the Code, (b) a Non-Employee Director and (c) an “independent director” under the rules of NASDAQ (or other principal securities market on which shares of Stock are traded). Appointment of Committee members shall be effective upon acceptance of appointment. Committee members may resign at any time by delivering written notice to the Board. Vacancies in the Committee may only be filled by the Board.

12.2 Action by the Committee . A majority of the Committee shall constitute a quorum. The acts of a majority of the members present at any meeting at which a quorum is present, and acts approved in writing by a majority of the Committee in lieu of a meeting, shall be deemed the acts of the Committee. Each member of the Committee is entitled to, in good faith, rely or act upon any report or other information furnished to that member by any officer or other employee of the Company or any Subsidiary, the Company’s independent certified public accountants, or any executive compensation consultant or other professional retained by the Company to assist in the administration of the Plan.

12.3 Authority of Committee . Subject to any specific designation in the Plan, the Committee has the exclusive power, authority and discretion to:

- (a) Designate Participants to receive Awards;
- (b) Determine the type or types of Awards to be granted to each Participant;
- (c) Determine the number of Awards to be granted and the number of shares of Stock to which an Award will relate;

(d) Determine the terms and conditions of any Award granted pursuant to the Plan, including, but not limited to, the exercise price, grant price, or purchase price, any reload provision, any restrictions or limitations on the Award, any schedule for lapse of forfeiture restrictions or restrictions on the exercisability of an Award, and accelerations or waivers thereof, any provisions related to non-competition and recapture of gain on an Award, based in each case on such considerations as the Committee in its sole discretion determines; *provided, however* , that the Committee shall not have the authority to accelerate the vesting or waive the forfeiture of any Performance-Based Awards;

(e) Determine whether, to what extent, and pursuant to what circumstances an Award may be settled in, or the exercise price of an Award may be paid in, cash, Stock, other Awards, or other property, or an Award may be canceled, forfeited, or surrendered;

- (f) Prescribe the form of each Award Agreement, which need not be identical for each Participant;
- (g) Decide all other matters that must be determined in connection with an Award;
- (h) Establish, adopt, or revise any rules and regulations as it may deem necessary or advisable to administer the Plan;
- (i) Interpret the terms of, and any matter arising pursuant to, the Plan or any Award Agreement; and

(j) Make all other decisions and determinations that may be required pursuant to the Plan or as the Committee deems necessary or advisable to administer the Plan.

12.4 *Decisions Binding* . The Committee's interpretation of the Plan, any Awards granted pursuant to the Plan, any Award Agreement and all decisions and determinations by the Committee with respect to the Plan are final, binding, and conclusive on all parties.

12.5 *Delegation of Authority* . To the extent permitted by applicable law, the Committee may from time to time delegate to a committee of one or more members of the Board or one or more officers of the Company the authority to grant or amend Awards to Participants other than (a) senior executives of the Company who are subject to Section 16 of the Exchange Act, (b) Covered Employees, or (c) officers of the Company (or members of the Board) to whom authority to grant or amend Awards has been delegated hereunder. Any delegation hereunder shall be subject to the restrictions and limits that the Committee specifies at the time of such delegation, and the Committee may at any time rescind the authority so delegated or appoint a new delegatee. At all times, the delegatee appointed under this Section 12.5 shall serve in such capacity at the pleasure of the Committee.

ARTICLE 13

EFFECTIVE AND EXPIRATION DATE

13.1 *Effective Date* . The Plan became effective as of the date the Plan was approved by the Company's stockholders (the "Effective Date") and the amended and restated Plan will become effective as of the date the amended and restated Plan is approved by the Company's stockholders. The amended and restated Plan will be deemed to be approved by the stockholders if it receives the affirmative vote of the holders of a majority of the shares of stock of the Company present or represented and entitled to vote at a meeting duly held in accordance with the applicable provisions of the Company's Bylaws.

13.2 *Expiration Date* . The amended and restated Plan will expire on, and no Award may be granted pursuant to the Plan after the tenth anniversary of the date the amended and restated Plan is approved by the Committee. Any Awards that are outstanding on the tenth anniversary of such date shall remain in force according to the terms of the Plan and the applicable Award Agreement.

ARTICLE 14

AMENDMENT, MODIFICATION, AND TERMINATION

14.1 Amendment, Modification, and Termination . Subject to Section 15.14, with the approval of the Board, at any time and from time to time, the Committee may terminate, amend or modify the Plan; *provided, however* , that (a) to the extent necessary and desirable to comply with any applicable law, regulation, or stock exchange rule, the Company shall obtain stockholder approval of any Plan amendment in such a manner and to such a degree as required, and (b) stockholder approval is required for any amendment to the Plan that (i) increases the number of shares available under the Plan (other than any adjustment as provided by Article 11), (ii) permits the Committee to grant Options with an exercise price that is below Fair Market Value on the date of grant, or (iii) permits the Committee to extend the exercise period for an Option or Stock Appreciation Award beyond seven years from the date of grant or (iv) results in a material increase in benefits or a change in eligibility requirements. Notwithstanding any provision in this Plan to the contrary, absent approval of the stockholders of the Company, no Option may be amended to reduce the per share exercise price of the shares subject to such Option below the per share exercise price as of the date the Option is granted and, except as permitted by Article 11, no Option may be granted in exchange for, or in connection with, the cancellation or surrender of an Option having a higher per share exercise price.

14.2 Awards Previously Granted . Except with respect to amendments made pursuant to Section 15.14, no termination, amendment, or modification of the Plan shall adversely affect in any material way any Award previously granted pursuant to the Plan without the prior written consent of the Participant.

ARTICLE 15

GENERAL PROVISIONS

15.1 No Rights to Awards . No Eligible Individual, Participant, or other person shall have any claim to be granted any Award pursuant to the Plan, and neither the Company nor the Committee is obligated to treat Eligible Individuals, Participants or any other persons uniformly.

15.2 No Stockholders Rights . Except as otherwise provided herein, a Participant shall have none of the rights of a stockholder with respect to shares of Stock covered by any Award until the Participant becomes the record owner of such shares of Stock.

15.3 Withholding . The Company or any Subsidiary shall have the authority and the right to deduct or withhold, or require a Participant to remit to the Company, an amount sufficient to satisfy federal, state, local and foreign taxes (including the Participant's employment tax obligations) required by law to be withheld with respect to any taxable event concerning a Participant arising as a result of this Plan. The Committee may in its discretion and in satisfaction of the foregoing requirement allow a Participant to elect to have the Company withhold shares of Stock otherwise issuable under an Award (or allow the return of shares of Stock) having a Fair Market Value equal to the sums required to be withheld. Notwithstanding any other provision of the Plan, the number of shares of Stock which may be withheld with respect to the issuance, vesting, exercise or payment of any Award (or which may be repurchased from the Participant of such Award within six months (or such other period as may be determined by the Committee) after such shares of Stock were acquired by the Participant from the Company) in order to satisfy the Participant's federal, state, local and foreign income and payroll tax liabilities with respect to the issuance, vesting, exercise or payment of the Award shall be limited to the number of shares which have a Fair Market Value on the date of withholding or repurchase equal to the aggregate amount of such liabilities based on the minimum statutory withholding rates for federal, state, local and foreign income tax and payroll tax purposes that are applicable to such supplemental taxable income.

15.4 No Right to Employment or Services . Nothing in the Plan or any Award Agreement shall interfere with or limit in any way the right of the Company or any Subsidiary to terminate any Participant's employment or services at any time, nor confer upon any Participant any right to continue in the employ or service of the Company or any Subsidiary.

15.5 Unfunded Status of Awards . The Plan is intended to be an "unfunded" plan for incentive compensation. With respect to any payments not yet made to a Participant pursuant to an Award, nothing contained in the Plan or any Award Agreement shall give the Participant any rights that are greater than those of a general creditor of the Company or any Subsidiary.

Table of Contents

15.6 Indemnification . To the extent allowable pursuant to applicable law, each member of the Committee or of the Board shall be indemnified and held harmless by the Company from any loss, cost, liability, or expense that may be imposed upon or reasonably incurred by such member in connection with or resulting from any claim, action, suit, or proceeding to which he or she may be a party or in which he or she may be involved by reason of any action or failure to act pursuant to the Plan and against and from any and all amounts paid by him or her in satisfaction of judgment in such action, suit, or proceeding against him or her; *provided* he or she gives the Company an opportunity, at its own expense, to handle and defend the same before he or she undertakes to handle and defend it on his or her own behalf. The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which such persons may be entitled pursuant to the Company's Certificate of Incorporation or Bylaws, as a matter of law, or otherwise, or any power that the Company may have to indemnify them or hold them harmless.

15.7 Relationship to other Benefits . No payment pursuant to the Plan shall be taken into account in determining any benefits pursuant to any pension, retirement, savings, profit sharing, group insurance, welfare or other benefit plan of the Company or any Subsidiary except to the extent otherwise expressly provided in writing in such other plan or an agreement thereunder.

15.8 Expenses . The expenses of administering the Plan shall be borne by the Company and its Subsidiaries.

15.9 Titles and Headings . The titles and headings of the Sections in the Plan are for convenience of reference only and, in the event of any conflict, the text of the Plan, rather than such titles or headings, shall control.

15.10 Fractional Shares . No fractional shares of Stock shall be issued and the Committee shall determine, in its discretion, whether cash shall be given in lieu of fractional shares or whether such fractional shares shall be eliminated by rounding up or down as appropriate.

15.11 Limitations Applicable to Section 16 Persons . Notwithstanding any other provision of the Plan, the Plan, and any Award granted or awarded to any Participant who is then subject to Section 16 of the Exchange Act, shall be subject to any additional limitations set forth in any applicable exemptive rule under Section 16 of the Exchange Act (including any amendment to Rule 16b-3 under the Exchange Act) that are requirements for the application of such exemptive rule. To the extent permitted by applicable law, the Plan and Awards granted or awarded hereunder shall be deemed amended to the extent necessary to conform to such applicable exemptive rule.

15.12 Government and Other Regulations . The obligation of the Company to make payment of awards in Stock or otherwise shall be subject to all applicable laws, rules, and regulations, and to such approvals by government agencies as may be required. The Company shall be under no obligation to register pursuant to the Securities Act, as amended, any of the shares of Stock paid pursuant to the Plan. If the shares paid pursuant to the Plan may in certain circumstances be exempt from registration pursuant to the Securities Act, as amended, the Company may restrict the transfer of such shares in such manner as it deems advisable to ensure the availability of any such exemption.

15.13 Governing Law . The Plan and all Award Agreements shall be construed in accordance with and governed by the laws of the State of Delaware.

15.14 Section 409A . To the extent that the Committee determines that any Award granted under the Plan is subject to Section 409A of the Code, the Award Agreement evidencing such Award shall incorporate the terms and conditions required by Section 409A of the Code. To the extent applicable, the Plan and Award Agreements shall be interpreted in accordance with Section 409A of the Code and Department of Treasury regulations and other interpretive guidance issued thereunder, including without limitation any such regulations or other guidance that may be issued after the Effective Date. Notwithstanding any provision of the Plan to the contrary, in the event that following the Effective Date the Committee determines that any Award may be subject to Section 409A of the Code and related Department of Treasury guidance (including such Department of Treasury guidance as may be issued after the Effective Date), the Committee may adopt such amendments to the Plan and the applicable Award Agreement or adopt other policies and procedures (including amendments, policies and procedures with retroactive effect), or take any other actions, that the Committee determines are necessary or appropriate to (a) exempt the Award from Section 409A of the Code and/or preserve the intended tax treatment of the benefits provided with respect to the Award, or (b) comply with the requirements of Section 409A of the Code and related Department of Treasury guidance.

15.15 One-Time Option Exchange . Notwithstanding any other provision of the Plan to the contrary, upon approval of our stockholders, the Committee may provide for, and the Company may implement, a one-time-only option exchange offer, pursuant to which certain outstanding Options could, at the election of the person holding such Option, be tendered to the Company for cancellation in exchange for the issuance of a lesser amount of Options with a lower exercise price, provided that such one-time-only option exchange offer is commenced within twelve months of the date of such stockholder approval. Any options cancelled by the Company pursuant to this option exchange will not be available for reissuance under any award under this Plan.
