## **SITECH Technology Dealer Established in Japan to Serve Heavy Civil Construction Contractors**

### **SITECH Japan Joins the First Fully Dedicated Global Distribution Network for Construction Technology Solutions**

SUNNYVALE, Calif., Oct. 19, 2017 /PRNewswire/ -- Trimble (NASDAQ: TRMB) announced today that a SITECH<sup>®</sup> Technology Dealer has been established in Japan. SITECH Japan joins the premier network of SITECH dealerships—the first fully dedicated global distribution network offering the most comprehensive portfolio of construction technology systems available to the civil contractor.

SITECH Technology Dealers represent Trimble<sup>®</sup> machine control systems for the contractor's entire fleet of heavy equipment regardless of machine brand, along with Trimble's portfolio of Connected Site<sup>®</sup> solutions—site positioning systems, construction asset management services, software and powerful wireless and Internet-based site communications infrastructure.

The experienced construction professionals at each SITECH Technology Dealership can advise contractors on the appropriate construction technology solutions to utilize, and can provide high-quality local customer service, personalized training and technical support. As authorized dealers for Trimble site-wide solutions, the SITECH Technology Dealers understand how to apply innovative construction technology to help solve a variety of contractors' construction challenges. Leveraging technology, contractors can gain greater insight into their operations, enabling them to lower operating costs and improve accuracy, safety and productivity.

Through the adoption of construction technology, contractors can experience new levels of productivity that enable more competitive bidding on projects. SITECH Technology Dealers offer the most advanced and complete set of tools to revolutionize the construction workflow.

SITECH Japan joins a global network of more than 100 SITECH Technology Dealers and will serve civil construction contractors in Japan who are involved in a range of earthmoving applications such as the construction of roads, highways, railways and airports as well as site prep for large commercial, industrial and residential projects.

For more information about SITECH Dealers, visit: [www.sitech-construction.com](http://www.sitech-construction.com).

#### **About SITECH Japan**

SITECH Japan is now a part of the worldwide SITECH distribution network, which offers consultative advice on construction technology solutions, customized training, data services, installation, service and technical support.

#### **About Trimble's Civil Engineering and Construction Division**

Trimble is a leading innovator of hardware and software solutions for civil engineering and construction. Trimble's advanced technologies transform work across the project lifecycle for owners, engineers and contractors. Solutions include planning and design software, precision machine control, site positioning, mobile technologies and real-time connectivity. As part of Trimble's Connected Site strategy, these solutions empower civil engineers and construction professionals to construct with confidence, delivering significant improvements in productivity at every phase of a project—from concept and design to construction and maintenance.
