

Over 80 Percent of Vonage U.S. Subscriber Lines Now Have E911

Vonage and PSAPs Continue Working Together to Turn Up E911 For Customers Across the U.S.

HOLMDEL, N.J., June 1, 2006 /PRNewswire-FirstCall via COMTEX News Network/ -- Vonage America Inc., a subsidiary of Vonage Holdings Corp., a leading Internet telephony provider, today announced that over 80 percent of its U.S. subscriber lines now have Enhanced 911 (E911) service -- a feature that automatically associates a physical address with the calling party's telephone number -- and that it is continuing to quickly equip new counties across the nation with E911 everyday.

Over the past two weeks, Vonage has equipped an additional 85 locally-run emergency call centers, in over 30 new counties, with E911 -- bringing the total number of calling centers with emergency 911 service to over 4700.

In June 2005, the FCC gave Vonage, and all Internet-based phone service companies, 120 days to create an E911 system from scratch, and provide all of its customers, wherever they are in the U.S., with E911 service. In that amount of time, Vonage worked closely with local 911 centers, also known as Public Safety Answering Points (PSAPs), across the country to turn on E911 for as many customers as it could. Currently, Vonage continues to test and turn up new PSAPs which are VoIP-ready every day and will continue to do so until Vonage customers have access to E911.

"Today over 80 percent of our U.S. subscriber lines have full E911 capability," said Jeffrey A. Citron, Vonage's chairman and chief strategist. "Vonage will continue to work with the FCC, regulators, Congress and public safety until PSAPs across the nation are equipped with E911."

Since May 12, Vonage has added the following counties to its list of those with E911 capabilities -- bringing the total number of calling centers with emergency 911 service to over 4700.

* In the event Vonage is unable to connect to the 911 system or for customers who are using mobile devices such as Wi-Fi phones or softclients, Vonage offers a national emergency call center which enables customers to get local help when they need it.

Vonage Holdings Corp. is headquartered in Holmdel, New Jersey. For more information about Vonage's products and services, please visit <http://www.vonage.com> or call 1-VONAGE-HELP. Vonage(R) is a registered trademark of Vonage Marketing Inc., a subsidiary of Vonage Holdings Corp.

Statements in this press release that are not historical facts or information may be forward-looking statements. These forward-looking statements are based on information available at the time the statements are made and/or

management's belief as of that time with respect to future events and involve risks and uncertainties that could cause actual results and outcomes to be materially different. Important factors that could cause such differences include, but are not limited to, our history of net operating losses and our need for cash to finance our growth; the competition we face; our dependence on our customers' existing broadband connections; differences between our service and traditional phone services, including our 911 service; uncertainties relating to regulation of VoIP services; system disruptions or flaws in our technology; our ability to manage our rapid growth; the risk that VoIP does not gain broader acceptance; and other factors described in our registration statement on Form S-1, as amended, and in our subsequent periodic reports filed with the SEC.
