

**September Quarter 2015
Trending Schedules**

TRENDING SCHEDULES

All information included in these schedules has been derived from information contained in our 2015 Annual Report on Form 10-K, our reports on Form 10-Q and the accompanying earnings presentations for each respective period.

The financial information contained in these schedules includes measures in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and non-GAAP measures. Non-GAAP measures, including consolidated operating free cash flow, free cash flow and adjusted results that exclude restructuring and programming charges, loss on pension settlement, loss on extinguishment of debt, asset impairment, gains from the sales of our interests in certain investments and discrete tax items, are relevant and useful information for investors because they clarify our actual operating performance, make it easier to compare our results with those of other companies and allow investors to review performance in the same way as our management. Since these are not measures of performance calculated in accordance with GAAP, they should not be considered in isolation of, or as a substitute for, cash flow provided by operations, operating income, net earnings from continuing operations attributable to Viacom and diluted EPS as indicators of operating performance, and they may not be comparable to similarly titled measures employed by other companies.

- The pre-tax charges of \$784 million reflect \$578 million of programming charges and a \$206 million restructuring charge associated with workforce reductions in the quarter ended March 31, 2015. The pre-tax charges of \$99 million reflect restructuring and programming charges of \$74 million and \$25 million at the Media Networks and Filmed Entertainment segments, respectively, in the quarter ended September 30, 2013.
- The pre-tax non-cash charge of \$24 million was driven by the settlement of pension benefits of certain participants of our funded pension plan in the quarter ended December 31, 2014.
- The non-cash pre-tax impairment charge of \$43 million relates to an international trade name in the quarter ended September 30, 2014 and \$7 million relates to the abandonment of an intangible asset in the quarter ended September 30, 2013. Both adjustments relate to Media Networks.
- The pre-tax charge of \$18 million in the quarter ended September 30, 2015 reflects a debt extinguishment loss on the redemption of \$550 million of the total \$918 million outstanding of our 6.250% Senior Notes due April 2016. The pre-tax charge of \$11 million in the quarter ended June 30, 2014 reflects a debt extinguishment loss on the redemption of all \$600 million of our outstanding 4.375% Senior Notes due September 2014.
- The tax impacts have been calculated using the rates applicable to the adjustments presented. The tax provision associated with the gains on sales of certain investments was offset by the reversal of a valuation allowance on capital loss carryforwards.
- The net discrete tax expense is principally related to a reduction in qualified production activity tax benefits as a result of retroactively reenacted legislation. The net discrete tax benefits are principally related to excess foreign tax credits attributable to a taxable repatriation of non-U.S. earnings, the release of tax reserves with respect to certain effectively settled tax positions, the reversal of deferred taxes on earnings deemed permanently reinvested, capital loss carryforwards, and tax credit benefits.

- 1) Excess tax benefits from equity-based compensation awards, which are included within financing activities in the statement of cash flows.
- 2) Operating free cash flow excludes a cash premium of \$18 million in the quarter ended September 30, 2015 on the redemption of \$550 million of the total \$918 million outstanding of our 6.250% Senior Notes due April 2016, and \$11 million in the quarter ended June 30, 2014 on the extinguishment of all \$600 million of our 4.375% Senior Notes due September 2014.
- 3) In April 2015, the Financial Accounting Standards Board issued new guidance, which changes the presentation of debt issuance costs in the balance sheet as a direct deduction from the carrying amount of the related debt rather than as an asset. Historical amounts have been updated to present debt net of issuance costs.
