- Acquired EPL Archives, a leading global archive and biorepository services company, in March 2017.
- Acquired MESM, a service company providing equipment supply and ancillary consumables for customers engaged in clinical trials, in April 2017.

Information Regarding Today's Announcement of Definitive Agreement with Avantor

In a separate press release issued this morning, VWR announced that it has entered into a definitive agreement with Avantor, Inc. under which Avantor will acquire VWR for \$33.25 per common share, in cash, or an enterprise value of \$6.4 billion. For further information on the transaction, please visit http://investors.vwr.com to access a copy of the press release.

In light of this announcement, VWR no longer plans to provide or update financial guidance and will not hold its investor conference call on first quarter 2017 results, previously planned for 8 am ET on the morning of May 5, 2017.

Manuel Brocke-Benz, President and Chief Executive Officer of VWR, commented: "The first quarter represents a strong start to the year, bolstered by our solid business momentum in EMEA-APAC and improving performance in the Americas. During the first quarter, organic revenues increased 4.3%, with EMEA-APAC up 8.4%. Our solid revenue momentum, coupled with our adjusted operating income margin expansion, drove strong bottom-line performance."

Mr. Brocke-Benz continued: "We recently acquired EPL Archives and MESM, both of which significantly expand and strengthen our VWRCATALYST services platform. With these acquisitions, we continue to build a significant business that provides a compelling proposition to biopharma customers engaged in clinical trials activities. And earlier in the quarter, we acquired Seastar, a global quality leader in manufacturing ultra-pure acid and base products used for detecting trace elements for environmental, food and semiconductor analysis and testing. These acquisitions are an important part of our strategy to increase customer intimacy and relevance in these key growth areas."

First Quarter 2017 - Consolidated Results

Net sales were \$1.14 billion, up \$40.8 million, or 3.7% compared to the prior year. Foreign exchange reduced net sales by \$19.1 million, or 1.7%, while recent acquisitions, net of dispositions, increased net sales by an additional \$12.5 million, or 1.1%. On an organic basis, net sales increased \$47.4 million or 4.3%.

Operating income was \$81.5 million, up \$1.8 million compared to the prior year. GAAP diluted EPS was \$0.29 in both the current and prior year quarter, while Adjusted EPS increased 10.0% year-over-year to \$0.44, up from \$0.40 in the prior year quarter.

First Quarter 2017 - Segment Results

Americas

Net sales were \$692.8 million, up \$26.1 million, or 3.9% compared to prior year, and up 1.7% on an organic basis. The

increase in the Americas net sales was driven by strong sales to industrial, healthcare and education customers.

Operating income was \$41.9 million, down \$1.5 million or 3.5% compared to prior year. First quarter 2017 operating income includes \$0.9 million of restructuring expenses and a \$1.9 million acquisition related inventory step-up charge. Results for the first quarter of 2016 included \$0.4 million of secondary offering expenses and a \$0.2 million earn-out adjustment.

EMEA-APAC

Net sales were \$446.3 million, up \$14.7 million, or 3.4% year-over-year. Foreign currency reduced net sales by \$20.9 million, or 4.8%, while acquisitions added \$1.7 million, or 0.4%. The disposition of the Australia/New Zealand business reduced revenues by 0.5%. On an organic basis, net sales increased 8.4%.

Operating income was \$39.6 million, up \$3.3 million compared to prior year. First quarter 2017 operating income included \$4.8 million of restructuring expenses and a \$1.7 million favorable earn-out adjustment.

Greg Cowan, Senior Vice President and Chief Financial Officer commented: "VWR delivered another strong cash flow quarter, with cash flow from operations of \$66.5 million, up \$24.5 million, or 58.3% as compared to prior year. Going forward, we will continue to invest our cash flows to fund attractive acquisition opportunities and to delever our balance sheet. We finished 2016 with elevated spending on acquisitions, and in 2017, our M&A efforts are off to a very strong start to the year. The higher level of acquisition spending is a function of the attractive opportunities that came to the market and our decision to deploy capital to strengthen key growth platforms."

Balance Sheet & Cash Flows

At March 31, 2017, total debt was \$2.181 billion compared to total debt of \$2.017 billion as of December 31, 2016. First quarter 2017 cash generated by operating activities was \$66.5 million compared to \$42.0 million in the first quarter of 2016. Capital expenditures for the quarter were \$13.2 million compared to \$14.3 million in the prior year quarter.

Use of Non-GAAP Financial Measures

As appropriate, we supplement our results of operations determined in accordance with U.S. generally accepted accounting principles ("GAAP") with certain non-GAAP financial measurements that are used by management, and which we believe are useful to investors, as supplemental operational measurements to evaluate our financial performance. These measurements should not be considered in isolation or as a substitute for reported GAAP results because they may include or exclude certain items as compared to similar GAAP-based measurements, and such measurements may not be comparable to similarly-titled measurements reported by other companies. Rather, these measurements should be considered as an additional way of viewing aspects of our operations that provide a more complete understanding of our business. We strongly encourage investors to review our consolidated financial statements included in publicly filed reports in their entirety and not rely solely on any one, single financial measurement or communication.

The non-GAAP measurements used in this press release are Adjusted EPS and organic net sales:

- Adjusted EPS is a non-GAAP financial measurement that eliminates the effect of the amortization of acquired intangible assets, restructuring charges, impairment charges, changes in foreign currency exchange rates related to financing decisions and certain other items. We then add or subtract an estimated incremental income tax effect applicable to those items. We believe that this measurement is useful to investors as an additional way to analyze the underlying trends in our business consistently across the periods presented. This measurement is used by our management for the same reason.
- Organic net sales is a non-GAAP financial measurement that eliminates the contribution from recently acquired businesses and the impact of changes in foreign currency exchange rates from our reported net sales. We believe that this measurement is useful to investors as a way to measure and evaluate our underlying commercial operating performance consistently across the periods presented. This measurement is used by our management for the same reason.

Reconciliations of our non-GAAP measurements to their most directly comparable GAAP-based financial measurements are included at the end of this press release.
