Cautionary Note Regarding Forward-Looking Statements: All statements in these materials and the related presentation that are not historical including, without limitation, estimates of and goals for future tax, financial and operating performance and results, as well as forward-looking statements concerning the expected execution and effect of our business strategies, our cost-savings and growth initiatives and restructuring activities and the amounts and timing of their expected impact, and our amended and restated asset purchase agreement with Rite Aid and the transactions contemplated thereby and their possible timing and effects, are forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as “expect,” “likely,” “outlook,” “forecast,” “preliminary,” “would,” “could,” “should,” “can,” “will,” “project,” “intend,” “plan,” “goal,” “guidance,” “target,” “aim,” “continue,” “sustain,” “synergy,” “on track,” “on schedule,” “headwind,” “tailwind,” “believe,” “seek,” “estimate,” “anticipate,” “upcoming,” “to come,” “may,” “possible,” “assume,” and variations of such words and similar expressions are intended to identify such forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions, known or unknown, that could cause actual results to vary materially from those indicated or anticipated, including, but not limited to, those relating to the impact of private and public third-party payers’ efforts to reduce prescription drug reimbursements, fluctuations in foreign currency exchange rates, the timing and magnitude of the impact of branded to generic drug conversions and changes in generic drug prices, our ability to realize synergies and achieve financial, tax and operating results in the amounts and at the times anticipated, the arrangements and transactions contemplated by our agreements with AmerisourceBergen and their possible effects, the occurrence of any event, change or other circumstance that could give rise to the termination, cross-termination or modification of any of our contractual obligations, the amount of costs, fees, expenses and charges incurred in connection with strategic transactions, whether the costs and charges associated with our store optimization program will exceed estimates, our ability to realize expected savings and benefits from cost-savings initiatives, restructuring activities and acquisitions and joint ventures in the amounts and at the times anticipated, the timing and amount of any impairment or other charges, the timing and severity of cough, cold and flu season, changes in management’s assumptions, changes in economic and business conditions generally or in particular markets in which we participate, changes in financial markets and interest rates, the risks associated with international business operations, including the risks associated with the proposed withdrawal of the United Kingdom from the European Union, the risk of unexpected costs, liabilities or delays, changes in vendor, customer and payer relationships and terms, including changes in network participation and reimbursement terms, risks of inflation, risks related to competition, risks associated with new business areas and activities, risks associated with acquisitions, divestitures, joint ventures and strategic investments, including those relating to the ability of the parties to satisfy the closing conditions and consummate the phased acquisition of certain assets pursuant to our amended and restated asset purchase agreement with Rite Aid on a timely basis or at all, the risks associated with the integration of complex businesses, outcomes of legal and regulatory matters, and risks associated with changes in laws, including those related to the December 2017 U.S. tax legislation, regulations or interpretations thereof. These and other risks, assumptions and uncertainties are described in Item 1A (Risk Factors) of our Form 10-K for the fiscal year ended 31 August 2017 and our Form 10-Q for the fiscal quarter ended 30 November 2017, each of which is incorporated herein by reference, and in other documents that we file or furnish with the SEC. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. Except to the extent required by law, we do not undertake, and expressly disclaim, any duty or obligation to update publicly any forward-looking statement after the date of this presentation.

Non-GAAP Financial Measures: Today’s presentation includes certain non-GAAP financial measures, and we refer you to the footnotes on page 18 and the Appendix to the presentation materials available on our investor relations website for reconciliations to the most directly comparable U.S. GAAP financial measures and related information.

Footnotes

1. Forward-Looking Statements – see cautionary note on slide 2.
2. This information is an estimate derived from the use of information under license from the following IQVIA (formerly IMS Health) information service: IQVIA Prescription Services as of 28 February 2018 and includes prescriptions filled at stores acquired from Rite Aid from and after the cutover date. IQVIA expressly reserves all rights, including rights of copying, distribution and republication.
3. Retail refill scripts initiated via digital channel is inclusive of prescriptions filled at Walgreens and Duane Reade. For this purpose, total number of 2Q retail refill prescriptions does not include prescriptions filled at acquired Rite Aid stores.
4. Presented on a constant currency basis. Non-GAAP financial measure – see appendix. These amounts are calculated by translating current period results at the foreign currency exchange rates used in the comparable period in the prior year. The company presents such constant currency financial information because it has significant operations outside of the United States reporting in currencies other than the U.S. dollar and this presentation provides a framework to assess how its business performed excluding the impact of foreign currency exchange rate fluctuations.
5. Non-GAAP financial measures: see appendix for reconciliations of non-GAAP financial measures and related disclosures.
6. Net earnings and net earnings per common share - diluted figures are attributable to Walgreens Boots Alliance, Inc.
7. Comparable stores are defined as those that have been open for at least twelve consecutive months without closure for seven or more consecutive days and without a major remodel or subject to a natural disaster in the past twelve months. Relocated and acquired stores are not included as comparable stores for the first twelve months after the relocation or acquisition. The method of calculating comparable sales varies across the industries in which we operate. As a result, our method of calculating comparable sales may not be the same as other companies' methods.
8. Retail Pharmacy USA segment GAAP 2Q18 results, dollars in millions: gross profit \$6,267, selling general and administrative expenses \$4,865, SG&A as a percent of sales 19.9%, operating income \$1,402, and operating margin 5.7% – see appendix.
9. Retail Pharmacy USA Pharmacy prescriptions (including immunizations) are reported on a 30 day equivalent basis.
10. Retail Pharmacy International segment GAAP 2Q18 results, dollars in millions: gross profit \$1,294, selling general and administrative expenses \$1,042, SG&A as a percent of sales 31.4%, operating income \$252, and operating margin 7.6% – see appendix. In 2Q18 compared to the prior year quarter, the division's gross profit on a reported currency basis increased 7.5%, selling general and administrative expense on a reported currency basis increased 3.6%, selling general and administrative expense as a percent of sales on a reported currency basis decreased 1.0 percentage points, operating income on a reported currency basis increased 27.3%, operating margin on a reported currency basis increased 1.2 percentage points, sales on a reported currency basis increased 7.0%, comparable store sales on a reported currency basis increased 8.0%, comparable pharmacy sales on a reported currency basis increased 10.6%, comparable retail sales on a reported currency basis increased 6.7%, Boots UK comparable pharmacy sales on a reported currency basis increased 11.5% and Boots UK comparable retail sales on a reported currency basis increased 6.0%.
11. Pharmaceutical Wholesale segment GAAP 2Q18 results, dollars in millions: operating income \$323, and operating margin 2.1% – see appendix. In 2Q18 compared to the prior year quarter, the division's operating income on a reported currency basis increased 95.8%, operating margin on a reported currency basis decreased 0.3 percentage points, sales on a reported currency basis increased 14.4%, and comparable sales excluding acquisitions and dispositions on a reported currency basis increased 14.4%.
12. Comparable sales are defined as sales excluding acquisitions and dispositions.
13. Pharmaceutical Wholesale adjusted operating income includes adjusted equity earnings in AmerisourceBergen, which were \$89 million and \$79 million in the three months ended February 28, 2018 and three months ended February 28, 2017 respectively. See appendix for details. Pharmaceutical Wholesale adjusted operating margin has been calculated excluding adjusted equity earnings in AmerisourceBergen.
14. Working capital includes changes in the following operating assets and liabilities: accounts receivable net, inventories, other current assets, trade accounts payable, and accrued expenses and other liabilities.
15. Non-GAAP financial measures: see appendix for reconciliations of non-GAAP financial measures and related disclosures. Adjusted effective tax rate is calculated excluding income from the company's equity investment in AmerisourceBergen.

Appendix

The following information provides reconciliations of the supplemental non-GAAP financial measures, as defined under SEC rules, presented in this presentation to the most directly comparable financial measures calculated and presented in accordance with generally accepted accounting principles in the United States (GAAP). The company has provided the non-GAAP financial measures in the presentation, which are not calculated or presented in accordance with GAAP, as supplemental information and in addition to the financial measures that are calculated and presented in accordance with GAAP. These supplemental non-GAAP financial measures are presented because management has evaluated the company's financial results both including and excluding the adjusted items or the effects of foreign currency translation, as applicable, and believe that the supplemental non-GAAP financial measures presented provide additional perspective and insights when analyzing the core operating performance of the company's business from period to period and trends in the company's historical operating results. These supplemental non-GAAP financial measures should not be considered superior to, as a substitute for or as an alternative to, and should be considered in conjunction with, the GAAP financial measures presented in the presentation. The company does not provide a reconciliation for non-GAAP estimates on a forward-looking basis (including the information under Fiscal year 2018 guidance) where it is unable to provide a meaningful or accurate calculation or estimation of reconciling items and the information is not available without unreasonable effort. This is due to the inherent difficulty of forecasting the timing or amount of various items that have not yet occurred, are out of the company's control and/or cannot be reasonably predicted, and that would impact diluted net earnings per share, the most directly comparable forward-looking GAAP financial measure. For the same reasons, the company is unable to address the probable significance of the unavailable information. Forward-looking non-GAAP financial measures provided without the most directly comparable GAAP financial measures may vary materially from the corresponding GAAP financial measures.

The company also presents certain information related to current period operating results in "constant currency," which is a non-GAAP financial measure. These amounts are calculated by translating current period results at the foreign currency exchange rates used in the comparable period in the prior year. The company presents such constant currency financial information because it has significant operations outside of the United States reporting in currencies other than the U.S. dollar and this presentation provides a framework to assess how its business performed excluding the impact of foreign currency exchange rate fluctuations.

For our Retail Pharmacy divisions, comparable stores are defined as those that have been open for at least 12 consecutive months and that have not been closed for seven or more consecutive days, undergone a major remodel or been subject to a natural disaster during the past 12 months. Relocated and acquired stores are not included as comparable stores for the first 12 months after the relocation or acquisition. Comparable store sales, comparable pharmacy sales and comparable retail sales refer to total sales, pharmacy sales and retail sales, respectively, in such stores. For our Pharmaceutical Wholesale division, comparable sales are defined as sales excluding acquisitions and dispositions. The method of calculating comparable sales varies across the industries in which we operate. As a result, our method of calculating comparable sales may not be the same as other companies' methods.

Free cash flow (Non-GAAP measure)¹	\$ 1,927	\$ 2,596	\$ 2,510	\$ 2,743

¹ Free cash flow is defined as net cash provided by operating activities in a period less additions to property, plant and equipment (capital expenditures) made in that period. This measure does not represent residual cash flows available for discretionary expenditures as the measure does not deduct the payments required for debt service and other contractual obligations or payments for future business acquisitions. Therefore, we believe it is important to view free cash flow as a measure that provides supplemental information to our entire statements of cash flows.
