Forward-Looking Statements

This presentation includes “forward-looking statements,” within the meaning of the Private Securities Litigation Reform Act of 1995, including, without limitation, statements regarding Web.com’s expectations about its future financial performance and market position, that are subject to risks, uncertainties and other factors that could cause actual results or outcomes to differ materially from those contemplated by the forward-looking statements. These forward-looking statements include, but are not limited to, plans, objectives, expectations and intentions and other statements contained in this presentation that are not historical facts. These statements are sometimes identified by words such as “intends,” “will,” “expect” or words of similar meaning. These statements are based on Web.com’s current beliefs or expectations, and there are a number of important factors that could cause the actual results or outcomes to differ materially from those indicated by these forward-looking statements, including, without limitation, general business risks that impact our projected cash flows and cash resources, which impact our ability to net share settle conversions of the notes (as opposed to settling conversions in shares) and our ability to use the treasury stock method of calculating diluted share count and EPS; and other risks that may impact Web.com’s business. These and other risk factors are set forth under the caption “Risk Factors” in Web.com’s Annual Report on Form 10-K for the year ended December 31, 2013, and other Web.com filings, as filed with the Securities and Exchange Commission, which are available on a website maintained by the Securities and Exchange Commission at www.sec.gov. Web.com expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein as a result of new information, future events or otherwise.

Non-GAAP Measures

Some of the measures in this presentation, including EBITDA, are non-GAAP financial measures within the meaning of the SEC Regulation G. Web.com believes presenting non-GAAP financial measures is useful to investors, because they describe the operating performance of the company, excluding some recurring charges that are included in the most directly comparable measures calculated and presented in accordance with GAAP. Company management uses these non-GAAP measures as important indicators of the Company's past performance and in planning and forecasting performance in future periods. The non-GAAP financial information Web.com presents may not be comparable to similarly-titled financial measures used by other companies, and investors should not consider non-GAAP financial measures in isolation from, or in substitution for, financial information presented in compliance with GAAP. You are encouraged to review the reconciliation of non-GAAP financial measures to GAAP financial measures included in Web.com’s filings with the Securities and Exchange Commission, which are available at www.sec.gov as well as in this presentation.

\$70.00	3.70
\$72.50	3.82
\$75.00	3.94

- \$45.50 stock price at conversion (not in connection with an optional redemption)
- Conversion value = (28.5714 conversion rate) x (\$45.50 stock price) x (258,750 notes issued) = \$336.4 mm
- Conversion value in excess of par = \$336.4 mm - \$258.8 mm par amount = \$77.6 mm
- Shares delivered = \$77.6 mm / \$45.50 = 1.71 mm shares

¹ Must be above optional redemption threshold for 20 of 30 trading days in order for the Company to have the ability to redeem the security. Holders receive additional shares pursuant to make-whole table in convertible indenture for conversions upon a notice of redemption. Calculations do not include any such additional shares.
