XOMA Announces Pricing of \$25 Million Registered Offering of Common Stock and Convertible Preferred Stock

BERKELEY, Calif., Feb. 13, 2017 (GLOBE NEWSWIRE) -- XOMA Corporation (Nasdaq:XOMA) announced today that it has agreed to sell 1,200,000 shares of its common stock and 5,003 shares of convertible preferred stock directly to Biotechnology Value Fund, L.P. and certain of its affiliates ("BVF") in a registered direct offering. XOMA anticipates its aggregate gross proceeds from the offering will be approximately \$25.0 million.

BVF agreed to purchase the shares of common stock from the Company pursuant to a subscription agreement at a price of \$4.03 per share (the closing price of XOMA's common stock on February 10, 2017, as reported on the NASDAQ Global Market).

Each share of Series X Preferred Stock will have a stated value of \$4,030 per share and will be convertible into 1,000 shares of registered common stock based on a conversion price of \$4.03 per share of common stock. The total number of shares of common stock issued upon conversion of all issued Series X Preferred Stock will be 5,003,000 shares. Each share will be convertible at the option of the holder at any time, provided that the holder will be prohibited from converting into common stock if, as a result of such conversion, the holder, together with its affiliates, would beneficially own a number of shares above a conversion blocker, which is initially set at 19.99% of the total common stock then issued and outstanding immediately following the conversion of such shares.

The offering is expected to close on or about February 15, 2017, subject to customary closing conditions.

The securities described above are being offered by XOMA pursuant to a shelf registration statement previously filed with the Securities and Exchange Commission (the "SEC"), which the SEC declared effective on February 13, 2015 (File No. 333-201882).
