

Q3'08 Financial Highlights

October 21, 2008

Note:

The matters discussed in this presentation contain forward-looking statements that involve risks and uncertainties concerning Yahoo!'s expected financial performance, as well as Yahoo!'s strategic and operational plans. Actual results may differ materially from the results predicted, and reported results should not be considered as an indication of future performance. The potential risks and uncertainties include, among others, the expected benefits of the commercial agreement with Google may not be realized, including as a result of actions taken by United States or foreign regulatory authorities and the response or acceptance of the agreement by publishers, advertisers, users, and employees; the implementation and results of Yahoo!'s ongoing strategic initiatives; the impact of organizational changes; Yahoo!'s ability to compete with new or existing competitors; reduction in spending by, or loss of, marketing services customers; the demand by customers for Yahoo!'s premium services; acceptance by users of new products and services; risks related to joint ventures and the integration of acquisitions; risks related to Yahoo!'s international operations; failure to manage growth and diversification; adverse results in litigation, including intellectual property infringement claims; Yahoo!'s ability to protect its intellectual property and the value of its brands; dependence on key personnel; dependence on third parties for technology, services, content, and distribution; general economic conditions and changes in economic conditions; the possibility that Microsoft or another person may in the future make proposals to acquire all or part of Yahoo!, or take other actions which may create uncertainty for our employees, publishers, advertisers, and other business partners; and the possibility of significant costs of defense, indemnification, and liability resulting from stockholder litigation relating to such proposals. All information in this presentation is as of October 21, 2008 and Yahoo! does not intend, and undertakes no duty, to update this information to reflect future events or circumstances. More information about potential factors that could affect Yahoo!'s business and financial results is included under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operation" in Yahoo!'s Annual Report on Form 10-K for the fiscal year ended December 31, 2007, as amended, and the quarterly report on Form 10-Q for the quarter ended June 30, 2008, which are on file with the Securities and Exchange Commission ("SEC") and available online at www.sec.gov. Additional information will also be set forth in those sections in Yahoo!'s Quarterly Report on Form 10-Q for the quarter ended September 30, 2008, which will be filed with the SEC in the fourth quarter of 2008.

Quarterly Revenue ex-TAC Trends

Note: Revenue excluding traffic acquisition costs (Revenue ex-TAC) is a non-GAAP financial measure defined as GAAP revenue less TAC. Please refer to supporting Table 1 for Revenue ex-TAC Calculation by Segment.

Throughout this presentation, we have rounded numbers as appropriate.

In August 2007, the Company sold its Overture Japan business to Yahoo! Japan, and the transaction reduced reported GAAP revenue growth in Q1-Q3'08 as shown above. The currency impact shown above reflects the impact on year-over-year reported GAAP revenue growth from changes in currency exchange rates. The acquisition impact shown above reflects the contribution to reported GAAP revenue growth from acquisitions made in the prior 12 months.

Operating Cash Flow (OCF) Trends

Note: Operating Cash Flow (OCF) is also referred to as operating income before depreciation, amortization, and stock-based compensation expense. Operating Cash Flow is a non-GAAP financial measure defined as income from operations before depreciation, amortization of intangible assets, and stock-based compensation expense (including the compensation of Terry Semel, who served as our chief executive officer through June 18, 2007 and whose compensation after June 1, 2006 consisted almost entirely of stock-based compensation). Q1'08 OCF of \$433 million includes a pre-tax cash charge of \$29 million for severance pay expenses and cash expenditures related to a strategic workforce realignment the Company implemented during the quarter, as well as incremental costs of \$14 million incurred for outside advisors related to Microsoft's unsolicited proposal, other strategic alternatives, and related litigation defense costs. Q2'08 OCF of \$427 million and Q3'08 OCF of \$410 million include incremental costs of \$22 million and \$37 million, respectively, incurred for outside advisors related to Microsoft's proposals to acquire all or a part of the Company, other strategic alternatives, including the Google agreement, the proxy contest, and related litigation defense costs.

Please refer to supporting Table 2 for Operating Cash Flow Calculation by Segment and Table 8 for GAAP Operating Income as a Percentage of GAAP Revenue by Segment.

Q2'08 OCF of \$427 million and Q3'08 OCF of \$410 million include incremental costs of \$22 million and \$37 million, respectively, incurred for outside advisors related to Microsoft's proposals to acquire all or a part of the Company, other strategic alternatives, including the Google agreement, the proxy contest, and related litigation defense costs.

Please refer to supporting Table 2 for Operating Cash Flow Calculation by Segment and Table 8 for GAAP Operating Income as a Percentage of GAAP Revenue by Segment.

Free Cash Flow (FCF) Trends

Note: Free Cash Flow (FCF) is a non-GAAP financial measure defined as cash flow from operating activities (adjusted to include excess tax benefits from stock-based compensation), less net capital expenditures and dividends received. Q1'08 free cash flow includes a \$350 million one-time payment from AT&T Inc. Q4'07 free cash flow includes a \$52 million one-time payment from Rogers Communications. Please refer to supporting Table 3 for Free Cash Flow Calculation and Table 9 for Cash Flow from Operations as a Percentage of Operating Income and as a Percentage of GAAP Revenue.

Non-GAAP Net Income Per Share Trends

Note: Non-GAAP Net Income is a non-GAAP financial measure defined as net income excluding certain gains, losses, expenses, and their related tax effects that we believe are not indicative of our ongoing operating results. All per share amounts are based on fully diluted share counts. Q1'08 non-GAAP net income excludes a net strategic workforce realignment charge of \$17 million (comprised of \$29 million in pre-tax cash charges, offset by \$12 million in stock-based compensation expense reversals), as well as incremental costs of \$14 million incurred for outside advisors related to Microsoft's unsolicited proposal, other strategic alternatives, and related litigation defense costs. Q2'08 non-GAAP net income and Q3'08 non-GAAP net income exclude incremental costs of \$22 million and \$37 million, respectively, incurred for outside advisors related to Microsoft's proposals to acquire all or a part of the Company, other strategic alternatives, including the Google agreement, the proxy contest, and related litigation defense costs. See Table 4 for Reconciliation of GAAP Net Income and GAAP Net Income per Share to Non-GAAP Net Income and Non-GAAP Net Income per Share and Table 5 for Reconciliation of GAAP Net Income to Non-GAAP Net Income, with details on adjustments.

Free Cash Flow (FCF)	\$900-\$1,050	-	\$925-\$1,025
Capital Expenditures	\$675-\$775	-	\$700-\$750

Note: The above business outlook is based on current information and expectations as of October 21, 2008. Yahoo! does not expect, and undertakes no obligation, to update this business outlook prior to the release of the Company's next quarterly earnings announcement, notwithstanding subsequent developments; however, Yahoo! may update this business outlook or any portion thereof at any time at its discretion. The outlook for the three months ending December 31, 2008 (Q4'08) excludes any incremental costs incurred for outside advisors related to strategic alternatives, including the Google agreement, defense costs for securities litigation relating to Microsoft's proposals to acquire all or a part of the Company and other strategic alternatives and any charges arising from the cost reduction initiatives to be implemented in Q4'08. The outlook for the year ending December 31, 2008 (FY'08) excludes charges arising from the Company's strategic workforce realignment implemented in Q1'08, including \$29 million of such costs incurred through September 30, 2008, incremental costs incurred for outside advisors related to Microsoft's proposals to acquire all or a part of the Company, other strategic alternatives, including the Google agreement, the proxy contest, and related litigation defense costs, including \$73 million of such incremental costs incurred through September 30, 2008, and the charges arising from the cost reduction initiatives to be implemented in Q4'08. Free Cash Flow outlook does not include a \$350 million one-time payment from AT&T Inc. recorded in the first quarter of 2008.

Please refer to supporting Tables 6 and 7 for Operating Cash Flow Outlook and Free Cash Flow Outlook Calculations.

Note: Free Cash Flow (FCF) is a non-GAAP financial measure defined as cash flow from operating activities (adjusted to include excess tax benefits from stock-based compensation), less net capital expenditures and dividends received. The current outlook is as of October 21, 2008. Yahoo! does not intend, and undertakes no duty, to update this information to reflect future events or circumstances.

Table 8 – GAAP Operating Income as a Percentage of GAAP Revenue by Segment

	Q1'07	Q2'07	Q3'07	Q4'07	Q1'08	Q2'08	Q3'08
United States	8%	10%	6%	8%	4%	2%	0%
International	13%	12%	14%	17%	14%	15%	13%
Worldwide	10%	11%	8%	10%	7%	6%	4%

Note: Q1'08 GAAP operating income includes a net strategic workforce realignment charge of \$17 million (comprised of \$29 million in severance pay expenses and related cash expenditures, offset by \$12 million in stock-based compensation expense reversals), as well as incremental costs of \$14 million incurred for outside advisors related to Microsoft's unsolicited proposal, other strategic alternatives, and related litigation defense costs. Q2'08 GAAP operating income and Q3'08 GAAP operating income includes incremental costs of \$22 million and \$37 million, respectively, incurred for outside advisors related to Microsoft's proposals to acquire all or part of the Company, other strategic alternatives, including the Google agreement, the proxy contest, and related litigation defense costs. Excluding these charges, US GAAP operating income as a percentage of GAAP revenue would have been 6% in Q1'08, 3% in Q2'08 and 3% in Q3'08, and Worldwide GAAP operating income as a percentage of GAAP revenue would have been 8% in Q1'08, 7% in Q2'08 and 6% in Q3'08.
