Holland Earns Quest for Quality Awards for 32nd Consecutive Year

HOLLAND, Mich., Aug. 10, 2017 (GLOBE NEWSWIRE) -- Holland extended its continuous record as a winner in the *Logistics Management* magazine's Quest for Quality awards to the 32nd year. Quest for Quality awards are presented to top carriers for performance excellence in various regions of the U.S. by service categories. These awards are widely regarded as the gold standard—the single-most significant and reliable measure of customer satisfaction and service excellence in the transportation industry. These 32 consecutive wins affirm Holland's position as the next-day industry leader in its service footprint.

"An over-three-decade, unbroken string of awards for performance excellence is something to be truly proud of," said Scott Ware, president of Holland. "Team Holland consistently works to always deliver on a promise of reliability and quality handling. We thank our customers for choosing Holland for these recognitions, and thank every member of our hard-working team for making the 'Holland Difference' a reality, year-after-year."

Holland was honored with a 2017 Quest for Quality award in these categories:

- | South/South Central Regional LTL Carriers
- | Midwest/North Central Regional LTL Carriers
- | Expedited Motor Carriers

Quest for Quality awards, first presented in 1985, rely on readers of *Logistics Management* magazine from across the United States to rate carriers strictly based on service quality. This makes a Quest for Quality award a reliable and significant measure of customer satisfaction in the market. Factors considered include on-time performance, value, information technology, customer service, equipment and operations.
