Dear Fellow Shareholders:

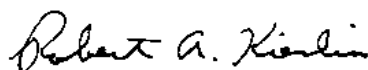

I am pleased to invite you to attend the annual meeting to be held at Fastenal's offices at 2001 Theurer Boulevard, Winona, Minnesota, commencing at 10:00 a.m., central time, on Tuesday, April 21, 2009.

The notice of annual meeting and the proxy statement, which follow, describe the matters to come before the annual meeting. During the annual meeting, we will also review the activities of the past year and items of general interest about Fastenal and will be pleased to answer your questions. Please join us for lunch immediately following the annual meeting.

This year we are again taking advantage of a Securities and Exchange Commission rule allowing us to furnish our proxy material over the internet. If you are a shareholder who holds shares in an account with a broker (also referred to as shares held in "street name"), you will receive a notice regarding availability of proxy materials by mail from your broker. The notice will tell you how you can access our proxy materials and provide voting instructions to your broker over the internet. It will also tell you how to request a paper or e-mail copy of our proxy materials. If you are a shareholder whose shares are registered directly in your name with our transfer agent, Wells Fargo Bank, N.A. (a "registered shareholder"), you will continue to receive a copy of our proxy materials by mail as in previous years.

We hope that you will be able to attend the annual meeting in person and we look forward to seeing you. Whether or not you plan to attend the meeting, your vote is important and we encourage you to vote promptly.

Sincerely,

Robert A. Kierlin

GENERAL INFORMATION ABOUT THE MEETING AND VOTING

What am I voting on?

There are two proposals scheduled to be voted on at the annual meeting:

- election of all nine directors; and
- ratification of the appointment of KPMG LLP as our independent auditors for 2009.

Who is entitled to vote?

The common stock of Fastenal, par value \$.01 per share, is our only authorized and issued voting security. At the close of business on February 16, 2009, there were 148,530,712 shares of common stock issued and outstanding, each of which is entitled to one vote.

Only shareholders of record at the close of business on February 23, 2009 will be entitled to vote at the annual meeting or any adjournments thereof.

What constitutes a quorum?

The presence at the annual meeting, in person or by proxy, of the holders of a majority of the shares of common stock outstanding at the close of business on the record date will constitute a quorum for the transaction of business at the meeting.

How many votes are required to approve each proposal?

Election of Directors

The affirmative vote of a plurality of the shares of common stock present in person or by proxy at the annual meeting and entitled to vote is required for the election to our board of directors of each of the nominees for director. Shareholders do not have the right to cumulate their votes in the election of directors.

Other Proposals

The affirmative vote of the holders of the greater of (1) a majority of the shares of common stock present in person or by proxy at the annual meeting and entitled to vote or (2) a majority of the minimum number of shares entitled to vote that would constitute a quorum for the transaction of business at the annual meeting, is required for approval of each other proposal presented in this proxy statement.

How are votes counted?

You may either vote “FOR” or “WITHHOLD” authority to vote for each nominee for election to the board of directors. You may vote “FOR” “AGAINST” or “ABSTAIN” on any other proposal. Abstentions will be counted as present for purposes of determining the existence of a quorum. If you abstain from voting on any proposal other than the election of directors, it has the same effect as a vote against the proposal. If you just sign and submit a proxy card without voting instructions, your shares will be voted “FOR” each director nominee and “FOR” or “AGAINST” any other proposal as recommended by the board.

What is a broker non-vote?

If shareholders do not give their brokers instructions as to how to vote shares held in street name, the brokers have discretionary authority to vote those shares on “routine” matters, such as the election of directors and the ratification of independent auditors, but not on “non-routine” proposals. As a result, if you hold your shares in street name and do not provide voting instructions to your broker, your shares will not be voted on any proposal on which your broker does not have discretionary authority to vote. This is sometimes called a “broker non-vote”. Shares held by brokers who do not have discretionary authority to vote on a particular matter and who have not received voting instructions from their customers will be counted as present for the purpose of determining whether there is a quorum at the annual meeting, but will not be counted or deemed to be present in person or by proxy for the purpose of determining whether our shareholders have approved that matter.

How does the board recommend that I vote?

Fastenal’s board recommends that you vote your shares:

- “FOR” each of the nominees to the board; and
- “FOR” the ratification of the appointment of KPMG LLP as our independent auditors for 2009.

How do I vote my shares without attending the annual meeting?

Registered Shareholders

If you are a registered shareholder, you may vote without attending the annual meeting by telephone, over the internet, or by mail as described below. To vote:

- by telephone, (1) on a touch-tone telephone, call toll-free 1-800-690-6903, 24 hours a day, seven days a week, until 11:59 p.m., eastern time, on April 20, 2009, (2) have your proxy card available, and (3) follow the simple instructions provided;
- over the internet, (1) go to www.proxyvote.com, 24 hours a day, seven days a week, until 11:59 p.m., eastern time, on April 20, 2009, (2) have your proxy card available, and (3) follow the simple instructions provided; and
- by mail, (1) mark, date, and sign the enclosed proxy card, and (2) return the proxy card in the enclosed postage-paid envelope to Fastenal Company, c/o Broadridge, 51 Mercedes Way, Edgewood, New York 11717. You should sign your name exactly as it appears on the proxy card. If you are signing in a representative capacity (for example, as guardian, executor, trustee, custodian, attorney or officer of a corporation), you should indicate your name and title or capacity.

Shares held jointly by two or more registered shareholders may be voted by any joint owner, unless we receive written notice from another joint owner denying the authority of the first joint owner to vote those shares.

Shares Held in Street Name

If you hold your shares in street name, you will receive a notice regarding availability of proxy materials that will tell you how to access our proxy materials and provide voting instructions to your broker over the internet. It will also tell you how to request a paper or e-mail copy of our proxy materials. As noted above, if you hold your shares in street name and do not provide voting instructions to your broker, your shares will not be voted on any proposals on which your broker does not have discretionary authority to vote.

Shares Held Through 401(k) Plan

If you participate in our 401(k) plan and have investments in the Fastenal stock fund, you will receive instructions from the trustee of the plan that you must follow in order for shares attributable to your account to be voted. If you fail to provide voting instructions, the shares attributable to your account will not be voted.

How do I vote my shares in person at the annual meeting?

If you are a registered shareholder and prefer to vote your shares at the annual meeting, bring the enclosed proxy card or proof of identification. You may vote shares held in street name only if you obtain a signed proxy from the record holder (broker or other nominee) giving you the right to vote the shares. Shares attributable to your account in our 401(k) plan may not be voted by you in person at the annual meeting. Even if you plan to attend the annual meeting, we encourage you to vote in advance by telephone, over the internet, or by mail so that your vote will be counted if you later decide not to attend the meeting. If you wish to vote in person at the annual meeting and have previously submitted a proxy, you must deliver to an officer of Fastenal a written notice of termination of the proxy's authority before the vote. Attendance at the annual meeting will not itself revoke a previously granted proxy.

How do I change my vote?

If you are a registered shareholder, you may revoke your proxy at any time prior to the vote at the annual meeting by delivering to an officer of Fastenal a written notice of termination of the proxy's authority or a properly signed proxy bearing a later date, or by submitting a subsequent proxy by telephone or over the internet. If you hold your shares in street name or through our 401(k) plan and wish to change your vote, you should follow the instructions received from your broker or the trustee of the plan.

PROPOSAL 1 - ELECTION OF DIRECTORS

Nominees and Required Vote

Our bylaws direct that our business will be managed by or under the direction of a board of directors of not less than five or more than twelve directors. Within this range, the exact number of directors is fixed from time to time by the board of directors. Each director will be elected at the annual meeting for a term that expires at the next regular shareholders' meeting and will hold office for the term for which he or she was elected and until a successor is elected and has qualified.

On October 10, 2008, Robert A. Hansen, who had been a director of Fastenal since 1999, announced that he was retiring from the board of directors effective at the end of the meeting of the board to be held on January 19, 2009. At the January 19 board meeting, our directors who qualified as independent directors under the listing standards of The NASDAQ Global Select Market (referred to as "independent directors"), meeting in executive session, reviewed the makeup of the board and recommended, by unanimous vote, that the number of directors constituting the board be increased from nine to ten and that the nine persons named below, as well as Henry K. McConnon (who was at the time a director of Fastenal), be nominated for election as directors. Two of the ten recommended nominees, Michael J. Ancius and Scott A. Satterlee, had not previously served as directors of Fastenal and were initially suggested as nominees by one of our independent directors. The full board then convened and, based upon the recommendation of our independent directors, fixed the number of directors constituting the board at ten and nominated the ten individuals recommended by the independent directors for election as directors. All of our directors at the time of the January 19 board meeting, including Mr. Hansen, participated in the consideration by the full board of the nominees. We did not retain any third party to assist in identifying or evaluating the nominees. Subsequent to the January 19 board meeting, Mr. Ancius and Mr. Satterlee were appointed to the board to fill the seat vacated by Mr. Hansen and the additional seat added by the increase in the size of the board.

On February 5, 2009, Mr. McConnon, who had been a director of Fastenal since 1968, informed us that he was retiring from the board of directors effective immediately. Based on the unanimous recommendation of our independent directors, the board of directors subsequently determined not to fill the seat vacated by Mr. McConnon, decreased the number of directors constituting the board from ten back to nine, and reconfirmed the nomination of the remaining nine nominees named below for election as directors. All of our directors participated in the consideration by the full board of that matter.

Each of the nominees named below is a current director of Fastenal and has indicated a willingness to serve as a director for the ensuing year. Each of the nominees, except for Mr. Ancius and Mr. Satterlee, has been previously elected by our shareholders. Proxies solicited by the board of directors will, unless otherwise directed, be voted to elect the nine nominees named below to constitute the entire board. Notwithstanding the foregoing, in case any such nominee is not a candidate at the annual meeting of shareholders for any reason, the proxies named in the enclosed proxy card may vote for a substitute nominee in their discretion.

The following table sets forth certain information as to each director and nominee for the office of director:

If the selection is not ratified, the audit committee will reconsider its selection. Proxies solicited by our board of directors will, unless otherwise directed, be voted to ratify the selection of KPMG as our independent auditors for the year ending December 31, 2009.

A representative of KPMG will be present at the annual meeting and will be afforded an opportunity to make a statement if such representative so desires and will be available to respond to appropriate questions during the meeting.

CORPORATE GOVERNANCE

Board Matters

Our board of directors has determined that none of Mr. Kierlin, Mr. Slaggie, Mr. Gostomski, Mr. Dolan, Mr. Miller, Mr. Ancius, or Mr. Satterlee has any relationship that would interfere with the exercise by such person of independent judgment in the carrying out of his responsibilities as a director and that each such individual is an independent director. The independent directors constitute a majority of our board of directors.

Our board of directors provides a process for our shareholders to send communications directly to our directors. The manner in which shareholders can send communications to directors and the process for relaying such communications is described on our web site at www.fastenal.com.

We have no formal policy regarding attendance by directors at our annual meeting, although most of our directors have historically attended this meeting. Each of our directors who was serving as a director on April 15, 2008, attended our 2008 annual meeting.

Board Structure and Committee Membership

During 2008, we had two standing board committees, consisting of an audit committee and a compensation committee. The members of our audit committee and compensation committee during 2008, and the number of meetings held by the board and each such committee in 2008, are detailed below. Each director during 2008 attended more than 75% of the aggregate number of meetings of the board and the various committees on which he or she served during 2008.

¹Mr. Dolan was appointed chairman of the compensation committee effective January 30, 2009.

In January 2009, Mr. Satterlee and Mr. Ancius were appointed to the board of directors. The chart below details the committees on which each serves:

	Board	Audit	Compensation
Mr. Ancius	X		X
Mr. Satterlee	X	X	

We do not have a nominating committee or any other committee of the board of directors performing equivalent functions.

Audit Committee

Our audit committee consists of three directors, each of whom is an independent director. Our board of directors has determined that Mr. Dolan is an “audit committee financial expert” under the rules of the SEC.

The audit committee is responsible for overseeing our management and independent auditors as to corporate accounting and financial reporting, and has the authority to:

- select, evaluate and replace our independent auditors;
- review and discuss with our management and independent auditors our audited annual financial statements, and recommend to our board whether the audited annual financial statements should be included in our annual report on Form 10-K;
- review and discuss with our independent auditors items required to be communicated by them regarding our interim financial statements;
- oversee the independence of our independent auditors;
- review financial and accounting personnel succession planning; and
- review related person transactions for potential conflict-of-interest situations, as specified in our related person transaction approval policy described below.

Our audit committee operates under a written charter adopted by our board of directors in June 2000. The audit committee charter was amended in April 2004 in order to bring the charter into compliance with the revised listing standards of The NASDAQ Global Select Market and amended in January 2009 for administrative purposes. The audit committee reviews its charter on an annual basis to determine if any amendments are needed. A copy of the amended audit committee charter is available on our website at www.fastenal.com.

Related Person Transaction Approval Policy

In January 2007, our board of directors adopted a formal written related person transaction approval policy, which sets out Fastenal's policies and procedures for the review, approval, or ratification of "related person transactions". For these purposes, a "related person" is a director, nominee for director, executive officer, or holder of more than 5% of our common stock, or any immediate family member of any of the foregoing. This policy applies to any financial transaction, arrangement or relationship or any series of similar financial transactions, arrangements or relationships in which Fastenal is a participant and in which a related person has a direct or indirect interest, other than the following:

- payment of compensation by Fastenal to a related person for the related person's service in the capacity or capacities that give rise to the person's status as a "related person;"
- transactions available to all employees or all shareholders on the same terms;
- purchases of supplies from Fastenal in the ordinary course of business at the same price and on the same terms as offered to our other customers, regardless of whether the transactions are required to be reported in Fastenal's filings with the SEC; and
- transactions, which when aggregated with the amount of all other transactions between the related person and Fastenal, involve less than \$120,000 in a year.

Our audit committee is required to approve any related person transaction subject to this policy before commencement of the related person transaction, provided that if the related person transaction is identified after it commences, it must be brought to the audit committee for ratification, amendment or rescission. The chairman of our audit committee has the authority to approve or take other actions in respect of any related person transaction that arises, or first becomes known, between meetings of the audit committee, provided that any action by the chairman must be reported to our audit committee at its next regularly scheduled meeting.

Our audit committee will analyze the following factors, in addition to any other factors the members of the audit committee deem appropriate, in determining whether to approve a related person transaction:

- whether the terms are fair to Fastenal;
- whether the transaction is material to Fastenal;
- the role the related person has played in arranging the related person transaction;
- the structure of the related person transaction; and
- the interests of all related persons in the related person transaction.

There were no related person transactions during 2008 required to be reported in this proxy statement.

Audit Committee Report

As noted above, our audit committee is responsible for overseeing Fastenal's management and independent auditors in respect of our accounting and financial reporting. In performing its oversight function, our audit committee relies upon advice and information received from Fastenal's management and independent auditors.

In that regard, our audit committee has reviewed and discussed with members of Fastenal's management our audited consolidated financial statements for 2008, and has discussed with representatives of our independent auditors the matters required to be discussed with audit committees by Statement on Auditing Standards No. 61 *Communication with Audit Committees*. Our audit committee has also reviewed the written disclosures from our independent auditors required by the Public Company Accounting Oversight Board independence and ethics rule, Rule 3526 *Communication with Audit Committee Concerning Independence*, and has discussed with the independent auditor, the independent auditors' independence.

Based on the review and discussions referred to above, our audit committee recommended to our board of directors that our audited financial statements for 2008 be included in our 2008 annual report on Form 10-K for filing with the SEC.

Compensation Committee

Our compensation committee was appointed by our board of directors to discharge the board's responsibilities relating to compensation of Fastenal's executive officers and to oversee and advise the board on the adoption of policies that govern our compensation and benefit programs. Our compensation committee consists of three directors, each of whom qualifies as an independent director. Our compensation committee has the authority to:

- review and approve our goals and objectives relevant to compensation of our chief executive officer, evaluate our chief executive officer's performance in light of those goals and objectives, and determine and approve all elements of our chief executive officer's compensation based on this evaluation, including salary, incentive and equity-based compensation;
- review the evaluations of the performance of our other executive officers, and approve all elements of their compensation, including salary, incentive and equity-based compensation;
- approve incentive plan goals for executive officers, review actual performance against goals, and approve plan awards;
- review our compensation programs for management employees, make recommendations to our board concerning the adoption or amendment of compensation plans, including equity-based plans, and exercise all the authority of the board of directors with respect to the administration of such plans;
- consult with our management regarding changes in Fastenal's benefit plans which could result in material changes in costs or the benefit levels provided; and
- review and discuss with management our Compensation Discussion and Analysis and recommend to our board the inclusion of the Compensation Discussion and Analysis in Fastenal's annual proxy statement.

Our compensation committee may delegate to our chief executive officer the authority, within pre-existing guidelines established by the compensation committee, to approve awards of equity-based compensation under established plans to employees other than executive officers. Our chief executive officer may be present during deliberations of the compensation committee on the compensation of our other executive officers and may provide input at the request of the compensation committee on that compensation, but may not vote on executive compensation.

Our compensation committee operates under a written charter adopted by our board of directors in December 2006. The compensation committee reviews its charter on an annual basis to determine if any amendments are needed. A copy of this charter is available on our web site at www.fastenal.com.

Compensation Committee Interlocks and Insider Participation

None of the members of the board who served on our compensation committee during 2008 has ever been an officer or employee of Fastenal. No executive officer serves, or in the past has served, as a member of the board of directors or compensation committee (or other board committee performing equivalent functions) of any other entity that has any of its executive officers serving as a member of our board of directors or compensation committee.

Director Compensation

Our chairman of the board made recommendations regarding director compensation for 2008 to the full board and the board made the final decision regarding director compensation after consideration of such recommendations. All of our directors, including our chief executive officer, participated in the deliberations of the board during 2008 regarding director compensation.

Compensation Committee Report

Our compensation committee has reviewed and discussed the Compensation, Discussion and Analysis contained in this proxy statement with management. Based on the compensation committee's review of, and discussions with management with respect to, the Compensation Discussion and Analysis, the compensation committee has recommended to our board of directors that the Compensation Discussion and Analysis be included in this proxy statement and in our 2008 annual report on Form 10-K.

Director Nominations Policy

Our board of directors adopted a director nominations policy in January 2004. A copy of that policy is available on our website at www.fastenal.com. This policy requires all candidates for service on our board of directors to have:

- personal integrity;
- loyalty to Fastenal and concern for our success and welfare;
- the ability and willingness to apply sound and independent judgment;
- an awareness of a director's vital part in our good corporate citizenship;
- time available for meetings and consultation on Fastenal matters;
- the commitment to serve as a director for a reasonable period of time; and
- the willingness to assume the fiduciary responsibilities of a director.

Leadership experience in business or administrative activities, a breadth of knowledge about issues affecting us and an ability to contribute special expertise to board or committee activities are also qualities to be considered in selecting director candidates.

Under the director nominations policy, our independent directors are responsible for:

- reviewing the overall makeup of our board and our needs for new directors;
- identifying, evaluating, and recruiting candidates to fill any additional or vacant positions on the board; and
- recommending to the full board candidates to be nominated for election at the annual shareholders meeting.

If the independent directors determine to recommend the addition of one or more directors, or if a vacancy occurs on the board that we are required to fill or that the independent directors determine should be filled, our policy provides that the procedures described below will be followed to the extent the independent directors deem necessary or appropriate.

Our independent directors will initiate a search for director candidates, identify an initial slate of candidates, conduct inquiries into the background and qualifications of the initial slate, and determine one or more preferred candidates. The preferred candidate or candidates will then be interviewed by the chairman of our board and, if the chairman is not an independent director, at least one independent director. Thereafter, our independent directors will meet to consider and approve the final candidate(s) and seek full board endorsement of the final candidate(s).

Our independent directors may consult with the full board and with members of Fastenal's management in determining our needs for new directors and in identifying, evaluating, and recruiting director candidates, and may use Fastenal personnel to assist them with the performance of their duties. Our independent directors have the authority to retain search firms to assist in identifying and evaluating director candidates, as well as any other advisors as the independent directors determine necessary to carry out their

duties. Fastenal is required to provide appropriate funding, as determined by our independent directors, for payment of compensation to any search firm or other advisors so employed by the independent directors.

In accordance with the director nominations policy, qualified candidates for membership on our board recommended by our shareholders will be considered by the independent directors. Candidates recommended by our shareholders will be evaluated in the same manner as other candidates. Shareholders may recommend candidates by sending an e-mail to bod@fastenal.com or by writing to Board of Directors, Fastenal Company, 2001 Theurer Boulevard, Winona, Minnesota 55987 and providing the candidate's name, biographical data, and qualifications.

We believe that, as a result of the role of our independent directors in the nominations process, it is not necessary at this time to have a separate nominating committee. Since we have no separate nominating committee, our full board, based on recommendations by the independent directors, nominates individuals for election as directors. Each of our board members, except for Mr. Oberton and Ms. Wisecup, currently qualifies as an independent director.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act requires our directors and officers to file initial reports of share ownership and reports of changes in share ownership with the SEC. Our directors and officers are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely on a review of the copies of such forms furnished to us and written representations from our directors and officers, all Section 16(a) filing requirements were met for 2008, except that one report, covering one sale, was filed late by Mr. McConnon, one report, covering one sale, was filed late by Mr. Miller, and one report, covering one purchase, was filed late by Mr. Jansen.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Philosophy and Objectives

Our executive compensation program is designed with one fundamental purpose: to support Fastenal's core values and mission, which is growth through customer service. Consistent with that purpose, our compensation philosophy embodies the following principles:

- the compensation program should align the interests of our management team with those of our shareholders;
- the compensation program should reward the achievement of Fastenal's strategic initiatives and short- and long-term operating and financial goals;
- compensation should appropriately reflect differences in position and responsibility;
- compensation should be reasonable; and
- the compensation program should be understandable and transparent.

In structuring a compensation program that will responsibly implement these principles, we have developed the following objectives for our executive compensation program:

- overall compensation levels must be sufficiently competitive to attract and retain talented leaders and motivate those leaders to achieve superior results;
- a substantial portion of total compensation should be contingent on, and variable with, achievement of objective corporate performance goals, and that portion should increase as an executive's position and responsibility increases;
- total compensation should be higher for individuals with greater responsibility and greater ability to influence our achievement of operating goals and strategic initiatives;
- the number of different elements in our compensation program should be kept to a minimum, and those elements should be readily understandable by and easily communicated to executives, shareholders, and others; and
- executive compensation should be set at responsible levels to promote a sense of fairness and equity among all employees and shareholders, and the appropriate stewardship of corporate resources.

Our compensation practices that have developed demonstrate our commitment to these principles and objectives. We do not have any employment, severance, or change-in-control agreements with any of our executive officers. Our long-term equity incentive plan provides only for the issuance of stock options, and does not permit discounted stock options, reload stock options, or the repricing of stock options. We do not provide perquisites or other personal benefits to our executives, our only retirement plan is our 401(k) plan available to all employees, and the benefit programs in which executives may participate are the same programs as those made available to our employees generally. We strive to make our compensation disclosures clear and concise, providing all of the information necessary to permit our shareholders to understand our compensation philosophy, our compensation-setting process, and how much our executives are paid.

All decisions regarding compensation of our executive officers for 2008 were made by our compensation committee.

Elements of Executive Compensation

Our executive compensation program has three primary elements: base salary, quarterly performance-based cash bonuses, and the potential for long-term equity incentives. As noted above, these primary elements are supplemented by the opportunity to participate in benefit plans that are generally available to all of our employees. We believe these components work in unison to provide a reasonable total compensation package for our executive officers.

Historically, the amount of equity-based compensation paid by Fastenal to any individual employee, including our executive officers, has been limited. During 2007, our shareholders approved our amended and restated stock option plan. The plan was amended so the equity-based compensation element could be increased for employees with greater responsibility within Fastenal, making a larger portion of their total compensation dependent on long-term stock appreciation. We believe this was an appropriate change to provide those individuals with the opportunity to earn additional compensation based on our stock appreciation in order to encourage longer term retention and operational and financial focus.

Base Salary

We provide executive officers with base salary to provide them with a fixed base amount of compensation for services rendered during the year. We believe this is consistent with competitive practices and will help assure we retain qualified leadership in those positions. Because of our desire to emphasize those elements of compensation that are performance-based, our practice has generally been to set modest base salary levels for each executive officer. In setting these salary levels for individual executives, we may consider the performance of the individual executive, historical compensation levels, and competitive pay practices at companies of similar size. We may also consider industry conditions, corporate performance versus a peer group of companies, and the overall effectiveness of our compensation program in achieving desired performance levels. Because of our “pay for performance” mentality, this is the only component of executive compensation that is not tied directly to our performance.

Our compensation committee established the base salary to be paid to our executive officers for 2008 at its first meeting in that year, and for 2009 at its last meeting in 2008. The base salary for 2008 and 2009 for each executive officer, including the chief executive officer, was determined by applying a discount to the average base salary historically paid by members of the peer group selected in connection with the preparation of our stock performance graph for the relevant year to their executive officers having comparable responsibilities. Our compensation committee applied a discount factor due to the members’ belief that a significant portion of the total compensation of our executive officers should be performance-based. Fastenal’s performance was not a factor considered by the compensation committee in setting base salary of our executive officers. However, the compensation committee believes that, as a result of their individual performance-based cash bonus arrangements and potential option awards, the interests of our executive officers are and will remain closely aligned with the long-term interests of Fastenal and our shareholders.

Cash Incentives - 2008

Our rationale behind performance-based cash incentive compensation for 2008 was rooted in our desire to reward our executive officers for consistent short-term and long-term profit growth and operating results. During 2008, our executive officers were eligible for cash incentives through individual bonus arrangements based on the overall financial performance of the company or of their respective areas of responsibility. The bonus arrangements for 2008 were approved by our compensation committee at its first meeting in 2008. The bonus arrangements provided our executive officers with the opportunity to earn a cash bonus for each quarter during the year when we increased our earnings above a pre-determined minimum target. An executive officer was paid the cash incentive only if, and to the degree, we met the specified objectives.

The 2008 cash incentive program applied to all of our executive officers. The specific programs for our named executive officers are included in the table below. The payout percentage applied to the portion of overall pre-tax earnings of the officers’ respective areas of responsibility or of the net earnings of the company (as specified in the table below) for each quarter during 2008 that exceeded 105% of such earnings in the same quarter of 2007.

Name	Earnings type	Payout percentage
Mr. Oberton	Pretax earnings – Fastenal	2.25%
Mr. Florness	Net earnings – Fastenal ¹	1.50%
Mr. Lundquist	Pretax earnings ²	2.25% (Quarter 1) / 2.60% (Quarter 2 - Quarter 4)
Mr. Hein	Pretax earnings ²	1.25% (Quarter 1) / 1.60% (Quarter 2 - Quarter 4)
Mr. Jansen	Pretax earnings – Fastenal	0.80%

¹ The payment methodology for Mr. Florness was based on net earnings because his responsibilities allow him to effect our entire financial position including our tax positions.

² The pretax earnings growth is for the respective areas of responsibility under their leadership. The compensation committee modified the payout percentage at the beginning of the second quarter to reflect a realignment of our business unit responsibilities.

Cash Incentives - 2009

Our rationale behind performance-based cash incentive compensation for 2009 is, similar to 2008, rooted in our desire to reward our executive officers for consistent short-term and long-term profit growth and operating results. During 2009, our executive officers will be eligible for cash incentives through individual bonus arrangements based on the overall financial performance of the company or of their respective areas of responsibility. The bonus arrangements for 2009 were approved by our compensation committee at its final meeting in 2008. The bonus arrangements are intended to provide our executive officers with the opportunity to earn a cash bonus for each quarter during the year when we increase our earnings above a pre-determined minimum target. An executive officer will be paid the cash incentive only if, and to the degree, we meet the specified objectives. The performance targets and payout percentages did not change from those in place at the end of 2008.

The 2009 cash incentive program applies to all of our executive officers. The specific programs for our named executive officers are included in the table below. The payout percentage applies to the portion of overall pre-tax earnings of the officers' respective areas of responsibility or of the net earnings of the company (as specified in the table below) for each quarter during 2009 that exceeds 105% of such earnings in the same quarter of 2008.

Name	Earnings type	Payout percentage
Mr. Oberton	Pretax earnings – Fastenal	2.25%
Mr. Florness	Net earnings – Fastenal ¹	1.50%
Mr. Lundquist	Pretax earnings ²	2.60%
Mr. Hein	Pretax earnings ²	1.60%
Mr. Jansen	Pretax earnings – Fastenal	0.80%

¹ The payment methodology for Mr. Florness was based on net earnings because his responsibilities allow him to effect our entire financial position including our tax positions.

² The pretax earnings growth is for the respective areas of responsibility under their leadership.

Cash Incentives - General

Historically, the methodology and variables used in our performance-based cash incentive arrangements have been negotiated with the individual executive officers as part of their individual employment arrangements. We feel the payout percentages used reflect our goal of rewarding our executive officers for consistent short-term and long-term profit growth and operating results.

Long-Term Equity Incentives

We began to place an increasing emphasis on compensation tied to the market price of Fastenal's common stock during 2007. We believe that increasing the equity-based element of our compensation program will allow our executive officers to earn additional compensation based on the appreciation of the stock and will facilitate the retention of executive officers. We also feel these incentives align management's interest, regardless of their individual stock ownership position, with the interests of our shareholders.

On April 17, 2007, our shareholders approved our amended and restated stock option plan. Our compensation committee granted options to purchase approximately 2.2 million shares on the same day, 550,000 of which options were granted to individuals serving as executive officers at that time. The options granted to those executive officers will vest and become exercisable over a period of five, seven or eight years. The compensation committee elected to grant options with staggered vesting in order to insure continuity of leadership.

On April 15, 2008, our compensation committee granted options to purchase approximately 275,000 shares. None of these grants were made to our executive officers, as our compensation committee believed that the options granted in 2007 provided a reasonable incentive to those officers at that time.

Our compensation committee is currently evaluating the granting of options in 2009. The compensation committee expects to meet in late April 2009 to finalize a decision.

Other Compensation

We make annual profit sharing contributions to our executive officers' 401(k) plan accounts. We allocate the annual profit sharing contribution made to all employees participating in our 401(k) plan, including our executive officers, based on the same formula. Our executive officers do not receive any other perquisites or other personal benefits or property from us.

Management's Role in the Compensation-Setting Process

Management plays an important role in our compensation-setting process. The most significant aspects of management's role are:

- evaluating employee performance;
- recommending business performance targets and objectives; and
- recommending salary levels and option awards.

Our chief executive officer works with our compensation committee in establishing the agenda and discussion surrounding executive compensation. During this process, our chief executive officer may be asked to provide:

- the background information regarding our strategic objectives;
- his evaluation of the performance of our executive officers; and
- compensation recommendations as to executive officers.

Deductibility of Executive Compensation

We are mindful of the potential impact upon Fastenal of Section 162(m) of the Internal Revenue Code, which prohibits public companies from deducting certain executive remuneration in excess of \$1,000,000. While reserving our right to offer such compensation arrangements as may from time to time be necessary to attract and retain top-quality management, we intend generally to structure such arrangements, where feasible, so as to minimize or eliminate the impact of the limitations of Section 162(m).

We calculated this expense in accordance with generally accepted accounting principles utilizing the assumptions set forth in the Notes to our consolidated financial statements included in our 2008 annual report on Form 10-K.

(2) This column sets out cash bonuses earned (rather than paid) in the respective year.

- (3) This column sets out our annual profit sharing contribution under our 401(k) plan.
- (4) This amount includes \$10,000, \$10,000, and \$5,000 paid to Mr. Oberton in 2008, 2007, and 2006, respectively, in his capacity as one of our directors. See “Director Compensation” below.
- (5) Mr. Hein and Mr. Jansen were elected as executive officers in November 2007. The figures shown represent compensation for all of 2008 and 2007. The 2006 figures are not included as Mr. Hein and Mr. Jansen were not executive officers during that period.

Grant of Plan-Based Awards

Set out in the following table is information with respect to awards made to our named executive officers under cash bonus arrangements for 2008. There were no equity awards granted to our named executive officers in 2008.

- (1) The awards under the 2008 cash bonus arrangements for each of the named executive officers were paid at the end of each fiscal quarter based on financial results for that fiscal quarter, and none of those awards will result in future payouts. The 2008 cash bonus formulas for each of the named executive officers are described above in “Compensation Discussion and Analysis – Elements of Executive Compensation – Cash Incentives - 2008”.
- (2) There were no thresholds or maximum payouts under the 2008 cash bonus arrangements.
- (3) Target payouts for Mr. Oberton, Mr. Florness, and Mr. Jansen were calculated by applying financial results of the company in 2007 to the cash bonus formulas for those officers in 2008. Since the areas of responsibility of Mr. Lundquist and Mr. Hein were changed at the beginning of the second quarter of 2008, which resulted in a modification of their cash bonus payout percentages at that time, target payouts for those officers were calculated by applying financial results for 2007 of their current areas of responsibility to their cash bonus formulas as so modified. Actual cash bonuses earned in 2008 for each of the named executive officers are reported above in the Summary Compensation Table in the column entitled “Non-Equity Incentive Plan Compensation”.

Pension Benefits

SEC regulations state that we must disclose information in this proxy statement, in a tabular format, regarding any plans that provide for retirement payments or benefits other than defined contribution plans. We have never had any such benefit plan and do not anticipate creating any such plan in the future. As a result, we have omitted this table.

Non-Qualified Deferred Compensation

SEC regulations state that we must disclose information in this proxy statement, in a tabular format, regarding defined contribution or other plans that provide for deferral of compensation on a basis that is not tax-qualified. We have never had any such benefit plan and do not anticipate creating such a plan in the future. As a result, we have omitted this table.

Potential Payments Upon Termination or Change-in-Control

SEC regulations state that we must disclose information in this proxy statement regarding agreements, plans or arrangements that provide for payments or benefits to our executive officers in connection with any termination of employment or change in control of Fastenal. We are not parties to any such agreement, plan or arrangement other than our stock option plan, which provides that unvested options will, under certain circumstances, become immediately exercisable in the event of certain mergers or similar transactions involving Fastenal or in the event of the dissolution or liquidation of Fastenal. No named executive officer would have been entitled to any payment under our stock option plan if any such transaction or event had occurred on December 31, 2008 as the fair market value of our stock on that date was less than the exercise price of all outstanding unvested options.

Compensation of Directors

Set out in the following table is information with respect to the compensation for 2008 of each of our directors, in their capacity as directors, other than our chief executive officer. Our chief executive officer's compensation, in his capacity as a director and officer of Fastenal, is set out in the Summary Compensation Table earlier in this document.

The chair of the audit committee and the compensation committee each received an annual retainer of \$10,000 in addition to the fee for committee meeting attendance.

These agreements are subject to alternative dispute resolution procedures and an exclusion of punitive damages.

Independence of Principal Accountant

Our audit committee has considered whether, and has determined that, the provision of the services described above was compatible with maintaining the independence of our independent auditor.

Pre-Approval of Services

The Sarbanes-Oxley Act of 2002 and the rules of the SEC regarding auditor independence require that audit and non-audit services provided to us by our principal accountant be pre-approved by our audit committee or pursuant to pre-approval policies and procedures established by our audit committee, except that de minimis non-audit services may, under certain circumstances, be approved retroactively. Our audit committee has granted to its chairman, Mr. Dolan, the authority to pre-approve the provision of audit and non-audit services, provided that he reports any such pre-approvals to the audit committee at its next scheduled meeting. All of the audit-related services were pre-approved in accordance with our pre-approval policy, and none of the non-audit services provided to us by our independent auditor in 2008 or 2007 were approved retroactively pursuant to the exception to the pre-approval requirements for de minimis non-audit services described above.
