

STAMPS.COM ANNOUNCES INTEGRATION WITH ATANDRA ECOMMERCE ORDER MANAGEMENT SOFTWARE

LOS ANGELES - October 19, 2009 - Stamps.com® (Nasdaq:STMP), the leading provider of [postage online](#) and [shipping software](#), today announced that its PC Postage® Version 8.5 has been fully integrated into Atandra's T-HUB software solution. This integration provides Atandra customers with advanced postage printing and shipping capabilities to enhance the web-order management tools found in T-Hub, their flagship product.

The combination of T-HUB and Stamps.com couples an already robust feature set of web order fulfillment, QuickBooks integration and inventory management tools with Stamps.com's world class postage printing and label printing capabilities. Users can also access special services such as free delivery confirmation, discounted insurance, discounted postage rates, delivery address confirmation and online postage refunds. The resulting package represents the most feature rich order management suite available to webstore managers today.

"Atandra is one of the recognized leaders in web order management and Quickbooks order integration," said Stamps.com president and CEO Ken McBride. "We look forward to bringing the combined capabilities of T-HUB and Stamps.com to the market and raising the bar on resources that are available to webstore managers throughout the country."

"The decision to join forces with Stamps.com was an easy one," said Manish Jha, CEO of Atandra. "Stamps.com invented the online postage printing business and continues to be the overwhelming market leader. With this integration we are better positioned to meet the shipping needs of ecommerce retailers."
